Chairman's
Letter to Shareholders

Dear Shareholders,

Despite the global economy's ability to muddle through the many economic headwinds of recent years, investors continue to have good reason to remain cautious. The European Central Bank's commitment to "do what it takes" to support sovereign debt markets has stabilized the broader euro area financial markets. The larger member states of the European Union (EU) are working diligently to strengthen the framework for a tighter financial and banking union and meaningful progress has been made by agreeing to centralize large bank regulation under the European Central Bank. However, economic conditions in the southern tier members are not improving and the pressures on their political leadership remain intense. The jury is out on whether the respective populations will support the continuing austerity measures that are required to meet the EU fiscal targets.

In the U.S., the Fed's commitment to low interest rates through Quantitative Easing is the subject of increasing debate in its policy making deliberations and many independent economists are expressing concern about the economic distortions resulting from negative real interest rates. There are encouraging signs in Congress that both political parties are working toward compromises on previously irreconcilable social issues. It is too early to tell whether those efforts will produce meaningful results or pave the way for cooperation on the major fiscal issues that potentially loom ahead. Over the longer term, there are some positive trends for the U.S. economy: house prices are clearly recovering, banks and corporations continue to strengthen their financial positions and incentives for capital investment in the U.S. by domestic and foreign corporations are increasing due to more competitive energy and labor costs.

During the last eighteen months, U.S. investors have benefited from strong returns in the domestic equity markets and steady total returns in many fixed income markets. However, many macroeconomic risks remain unresolved, including negotiating through the many U.S. fiscal issues, managing the risks of another year of abnormally low U.S. interest rates, achieving a better balance between fiscal discipline and encouraging economic growth in the euro area and reducing the potential economic impact of geopolitical issues, particularly in the Middle East and East Asia. In the face of these uncertainties, the experienced investment professionals at Nuveen Investments seek out investments in companies that are enjoying positive economic conditions. At the same time they are always on the alert for risks in markets subject to excessive optimism. Monitoring this process is a critical function for the Fund Board as it oversees your Nuveen Fund on your behalf.

As always, I encourage you to communicate with your financial consultant if you have any questions about your investment in a Nuveen Fund. On behalf of the other members of your Fund Board, we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

Robert P. Bremner
Chairman of the Board
April 22, 2013

Portfolio Manager's Comments

Nuveen California Premium Income Municipal Fund (NCU)
Nuveen California Dividend Advantage Municipal Fund (NAC)
Nuveen California Dividend Advantage Municipal Fund 2 (NVX)
Nuveen California Dividend Advantage Municipal Fund 3 (NZH)
Nuveen California AMT-Free Municipal Income Fund (NKX)
(formerly Nuveen Insured California Tax-Free Advantage Municipal Fund)

Portfolio manager Scott Romans reviews economic and municipal market conditions at both the national and state levels, key investment strategies and the twelve-month performance of these Nuveen California Municipal Funds. Scott, who joined Nuveen in 2000, has managed NCU, NAC, NVX, NZH and NKX since 2003.

REORGANIZATIONS

Effective on May 7, 2012, the following Acquired Funds were merged into the Acquiring Fund.

Acquired Funds	Acquiring Fund
• Nuveen Insured California Premium Income Municipal Fund, Inc. (NPC)	
• Nuveen Insured California Premium Income Municipal Fund 2, Inc. (NCL)	Nuveen California AMT-Free Municipal Income Fund (NKX)
• Nuveen Insured California Dividend Advantage Municipal Fund (NKL)	

Upon the closing of the reorganizations, the Acquired Funds transferred their assets to the Acquiring Fund in exchange for common and preferred shares of the Acquiring Fund, and the assumption by the Acquiring Fund of the liabilities of the Acquired Funds.

The Acquired Funds were then liquidated, dissolved and terminated in accordance with their Declaration of Trust.

What factors affected the U.S. economic and municipal market environments during the twelve-month reporting period ended February 28, 2013?

During this reporting period, the U.S. economy's progress toward recovery from recession continued at a moderate pace. The Federal Reserve (Fed) maintained its efforts to improve the overall economic environment by holding the benchmark fed funds rate at the record low level of zero to 0.25% that it established in December 2008. At its March 2013 meeting (following the end of this reporting period), the central bank stated it expected that its "highly accommodative stance of monetary

The forward-looking statements and other views expressed herein are those of the portfolio manager as of the date of this report. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements, and the views expressed herein are subject to change at any time, due to numerous market and other factors. The Funds disclaim any obligation to update publicly or revise any forward-looking statements or views expressed herein.

Ratings shown are the highest rating given by one of the following national rating agencies: Standard & Poor's Group, Moody's Investors Service, Inc. or Fitch, Inc. Credit ratings are subject to change. AAA, AA, A and BBB are

investment grade ratings; BB, B, CCC, CC, C and D are below investment grade ratings. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities. Holdings designated N/R are not rated by these national rating agencies.

policy” would keep the fed funds rate in “this exceptionally low range” as long as the unemployment rate remained above 6.5% and the outlook for inflation was no higher than 2.5%. The Fed also decided to continue purchasing \$40 billion of mortgage-backed securities and \$45 billion of longer-term Treasury securities each month in an open-ended effort to bolster growth. Taken together, the goals of these actions are to put downward pressure on longer-term interest rates, make broader financial conditions more accommodative and support a stronger economic recovery as well as continued progress toward the Fed’s mandates of maximum employment and price stability.

In the fourth quarter of 2012, the U.S. economy, as measured by the U.S. gross domestic product (GDP), grew at an annualized rate of 0.4%, bringing GDP growth for the calendar year 2012 to 2.2%, compared with 1.8% in 2011. The Consumer Price Index (CPI) rose 2.0% year-over-year as of February 2013, while the core CPI (which excludes food and energy) increased 2.0% during the period, staying within the Fed’s unofficial objective of 2.0% or lower for this inflation measure. Labor market conditions continued to show signs of improvement. As of February 2013, the national unemployment rate was 7.7%, the lowest level since December 2008, down from 8.3% in February 2012. The housing market, long a major weak spot in the economic recovery, also delivered some good news, as the average home price in the S&P/Case-Shiller Index of 20 major metropolitan areas rose 8.1% for the twelve months ended January 2013 (most recent data available at the time this report was prepared). This marked the largest twelve-month percentage gain for the index since the pre-recession summer of 2006, although housing prices continued to be off approximately 30% from their mid-2006 peak.

During this period, the outlook for the U.S. economy continued to be clouded by uncertainty about global financial markets and the outcome of the “fiscal cliff.” The tax consequences of the fiscal cliff situation which were scheduled to become effective in January 2013 were averted through a last-minute deal that raised payroll taxes but left in place a number of tax breaks, including the tax exemption on municipal bond interest. However, lawmakers postponed and then failed to reach a resolution on \$1.2 trillion in spending cuts, the “sequestration”, intended to address the federal budget deficit. As a result, automatic spending cuts affecting both defense and non-defense programs (excluding Social Security and Medicaid) took effect March 1, 2013, with potential implications for economic growth over the next decade.

Municipal bond prices generally rallied during this period, as strong demand and tight supply combined to create favorable market conditions for municipal bonds. Although the total volume of tax-exempt supply improved over that of the same period a year earlier, the issuance pattern remained light compared with long-term historical trends and new money issuance was relatively flat. This supply/demand dynamic served as a key driver of performance. Concurrent with rising prices, yields continued to decline across most maturities, especially at the longer end of the

municipal yield curve and the long end of the curve continued to flatten. In addition to the lingering effects of the Build America Bonds (BAB) program, which expired at the end of 2010 but impacted issuance well into 2012, the low level of municipal issuance reflected the current political distaste for additional borrowing by state and local governments facing fiscal constraints and the prevalent atmosphere of municipal budget austerity. During this reporting period, we continued to see borrowers come to market seeking to take advantage of the low rate environment through refunding activity, with approximately two-thirds of municipal paper issued by borrowers that were calling existing debt and refinancing at lower rates.

Over the twelve months ended February 28, 2013, municipal bond issuance nationwide totaled \$379.6 billion, an increase of 16% over the issuance for the twelve-month period ended February 29, 2012. As previously discussed, the majority of this supply was attributable to refunding issues, rather than new money issuance. During this period, demand for municipal bonds remained consistently strong, especially from individual investors, but also from mutual funds, banks and crossover buyers such as hedge funds.

How were the economic and market environments in California during this reporting period?

California's economic recovery has broadened, driven by consumer and tourism spending and expanding technology services. As of February 2013, California's unemployment rate was 9.6%, its lowest level since late 2008, down from 10.8% in February 2012. Recent improvements were expected to transform housing into a positive driver of the California economy. According to the S&P/Case-Shiller Index, home prices in San Diego, Los Angeles and San Francisco rose 9.8%, 12.1% and 17.5%, respectively, over the twelve months ended January 2013 (most recent data available at the time this report was prepared). This growth outpaced the average increase of 8.1% nationally for the same period. Recovering housing-related industries, including construction, should help employment numbers continue to improve.

On the fiscal front, the fiscal 2012 general fund budget totaled \$91.3 billion and closed a projected two-year budget gap of \$15.7 billion in part through spending reductions aimed at welfare and child care for the poor. Overall, continued budget problems, including persistent deficits and spending that outpaced revenues, posed the largest threat to the state's economic recovery over the near and long term. This risk was averted when voters approved temporary sales and personal income tax increases (Proposition 30) in November 2012. Proposition 30 raised the state sales tax rate from 7.25% to 7.50% through 2016 and increased the top marginal income tax rate to 13.3% through 2018. These increases eliminated the need for \$6 billion in cuts that would have affected K-12 and higher education spending. In addition, the new state sales tax rate combined with the new highest federal tax bracket of 39.6% has stimulated demand for municipal California tax-exempt paper. For fiscal 2013-2014,

the proposed general fund budget is expected to be structurally balanced, with general fund expenditures estimated at \$97.7 billion, a 5% increase over the revised fiscal 2013 estimates. Tempering the positive financial news at the state level was the number of local municipalities, including San Bernardino and Stockton, which filed for bankruptcy, as cities were increasingly squeezed by budget problems resulting from declines in property valuations and rising pension costs. In January 2013, S&P upgraded the rating on California general obligation (GO) debt to A from A-. Moody's and Fitch maintained their ratings of A1 and A, respectively, as of February 2013. All three rating agencies listed their outlooks for California as stable. For the twelve months ended February 28, 2013, municipal issuance in California totaled \$44.0 billion, an increase of 3% over the previous twelve months. For this period, California was the second largest state issuer in the nation (behind New York), representing approximately 11.6% of total issuance nationwide for the period.

How did the Funds perform during the twelve-month reporting period ended February 28, 2013? What strategies were used to manage the Funds during the reporting period and how did these strategies influence performance?

The tables in each Fund's Performance Overview and Holding Summaries section of this report provide total returns for the Funds for the one-year, five-year and ten-year period ended February 28, 2013. Each Fund's total returns are compared with the performance of a corresponding market index and Lipper classification average.

For the twelve months ended February 28, 2013, the total returns on common share net asset value (NAV) for all these California Funds exceeded the returns for the S&P Municipal Bond California Index and the S&P Municipal Bond Index. For this same period, NAC, NVX, NZH and NKX outperformed the average return for the Lipper California Municipal Debt Funds Classification Average, while NCU underperformed the Lipper average.

Key management factors that influenced the Funds' returns during this period included duration and yield curve positioning, credit exposure and sector allocation. The use of regulatory leverage also was an important positive factor in performance during this period. Leverage is discussed in more detail later in this report.

In an environment of declining rates and a flattening yield curve, municipal bonds with longer maturities generally outperformed those with shorter maturities. Overall, credits at the longest end of the municipal yield curve posted the strongest returns during this period, while bonds at the shortest end produced the weakest results. The Funds' duration and yield curve positionings were the most important determinants of performance during this period. On the whole, NAC was the most advantageously positioned, with overweights in the longest parts of the yield curve that outperformed and an underweight to the shortest end. NVX, NZH and NKX also benefited in proportion to their allocations along the outperforming longer end of the curve. NCU was less advantageously positioned than the other four Funds, with a

shorter effective duration and an underweight in the longest end of the curve. In addition, the Funds were generally helped by their allocations of long duration bonds, many of which were zero coupon bonds, which generally outperformed the market as a whole during this period.

Credit exposure was another important factor in the Funds' performance during these twelve months, as lower quality bonds generally outperformed higher quality bonds. This outperformance was due in part to the greater demand for lower rated bonds as investors looked for investment vehicles offering higher yields. As investors became more comfortable taking on additional investment risk, credit spreads, or the difference in yield spreads between U.S. Treasury securities and comparable investments such as municipal bonds, narrowed through a variety of rating categories. As a result of this spread compression, the Funds generally benefited from their holdings of lower rated credits. Among these Funds, NVX and NZH had the largest allocations of bonds rated BBB and NAC was helped by its overweightings in sub-investment grade and non-rated bonds and an underweighting in bonds rated AAA. On the other hand, NCU was negatively impacted by its overexposure to bonds rated AAA and underexposure to BBB and sub-investment grade bonds. NKX, which was managed as an insured Fund until March 2012, has had a relatively short time to expand its exposure to lower rated credits, and its overall higher credit profile, overweight in bonds rated AA and underweighted in sub-investment grade credits, was negative for performance.

During this period, revenue bonds as a whole outperformed the general municipal market. Holdings that generally made positive contributions to the Funds' returns included industrial development revenue (IDR) credits, health care (together with hospitals), education, transportation and housing bonds. These Funds tended to have good weightings in health care, which boosted their performance, as did their overall sector allocations, including their exposure to redevelopment agency (RDA) bonds. Tobacco credits backed by the 1998 master tobacco settlement agreement were the top performing market sector in 2012, helped by their longer effective durations and the increased demand for higher yielding investments by investors who had become less risk-averse. In addition, based on recent data showing that cigarette sales had fallen less steeply than anticipated, the 46 states participating in the agreement, including California, stand to receive increased payments from the tobacco companies. During this period, as tobacco bonds rallied, all of these Funds benefited from their holdings of tobacco credits, with NZH having the heaviest weighting of tobacco bonds and NKX the smallest.

In contrast, pre-refunded bonds, which are often backed by U.S. Treasury securities, were among the poorest performing market segments during this period. The under-performance of these bonds can be attributed primarily to their shorter effective maturities and higher credit quality. As of February 28, 2013, NCU and NVX had the heaviest weightings in pre-refunded bonds, which hampered their performance, while

NAC and NKX held the smallest allocations of pre-refunded bonds. We continued to hold pre-refunded bonds in our portfolios due to the higher yields they provided. Also lagging the performance of the general municipal market for this period were general obligation (GO) bonds and electric utilities credits. All of these Funds were underweighted to varying degrees in the tax-supported sector, especially California state GOs, relative to the California market, which lessened the negative impact of these holdings. This underweighting was due to the fact that California state GOs comprise such a large portion of the tax-supported sector in California that it would be very difficult to match the market weighting in our portfolios.

In addition, NZH and NKX had exposure to California municipalities that are experiencing financial difficulties. NZH and NKX each held lease revenue bonds issued by the Stockton Public Finance Authority. These bonds were purchased at distressed levels and have improved in price since purchase. It is important to note that the Stockton lease bonds are insured, and the insurer, National Public Finance Guaranty, has stated that it will make payments on the bonds if required. As of April 1, 2013 (after the end of this reporting period), Stockton became the most populous U.S. city to declare bankruptcy and the case is expected to become an important test case of the federal bankruptcy code versus California state pension law. (NZH and NKX also hold insured GO bonds issued by the Stockton Unified School District, which were not affected by the city's bankruptcy filing). NKX also holds insured certificates of participation (COPs) issued by the city of San Bernardino. As with the Stockton lease bonds, the insurer of the San Bernardino COPs has indicated that it will make payments on the bonds if necessary.

In light of other recent events in the municipal marketplace, shareholders also should be aware of an issue involving some of the Funds' holdings, i.e., the downgrade of Puerto Rico bonds. In December 2012, Moody's downgraded Puerto Rico GO bonds to Baa3 from Baa1 based on Puerto Rico's ongoing economic problems, unfunded pension liabilities, elevated debt levels and structural budget gaps. Earlier in the year (July 2012), bonds issued by the Puerto Rico Sales Tax Financing Corporation (COFINA) also were downgraded by Moody's to Aa3 from Aa2. The downgrade of the COFINA bonds was due mainly to the performance of Puerto Rico's economy and its impact on the projected growth of sales tax revenues, and not to any sector or structural issues. In addition, the COFINA bonds were able to maintain a higher rating than the GOs because, unlike the revenue streams supporting some Puerto Rican issues, the sales taxes supporting the COFINA bonds cannot be diverted and used to support the commonwealth's GO bonds. Shareholders of the California Funds should note that NAC, NVX, NZH and NKX have limited exposure to Puerto Rico bonds, with holdings ranging from less than 1% in NAC to approximately 3% in NVX, while NCU does not have any Puerto Rico holdings. The majority of these holdings are the dedicated sales tax bonds issued by COFINA, which were added to NAC, NVX, NZH and NKX during this period based on their credit strength. NVX also has a small position in Puerto Rico

GO and appropriation bonds, and NZH holds Puerto Rico highway revenue credits. Holdings other than the COFINA credits were generally purchased in the past to help keep the Funds fully invested and were aimed to provide higher yields, added diversification and triple exemption (i.e., exemption from federal, state and local taxes). For the reporting period ended February 28, 2013, Puerto Rico paper generally underperformed the market as a whole. The impact on performance differed from Fund to Fund in line with the type and amount of its holdings. As we continue to emphasize Puerto Rico's stronger credits, we view the COFINA bonds as long-term holdings and note that the commonwealth's recent enforcement of sales tax collections has improved significantly.

As previously discussed, municipal bond prices generally rallied nationally during this period, driven by strong demand and tight supply of new issuance. At the same time, yields continued to be relatively low. California municipal paper also performed well, due in part to demand triggered by recent changes in the state tax code as well as improving economic conditions in the state. In this environment, we continued to take a bottom-up approach to discovering sectors that appeared undervalued as well as individual credits that had the potential to perform well over the long term and helped us keep our Funds fully invested.

Much of our investment activity during this period was opportunistic, with purchases driven by the timing of cash flows from refunding activity as well as called or maturing bonds. To find attractive opportunities for the Funds, we were focused largely on the secondary market, rather than new issuance, which remained below historical levels. In particular, we looked for bonds with call dates between 2019 and 2021, a structure that we believed offered value, specifically, attractive pricing and yields relative to the bonds' call dates. In addition, if these bonds are not called in 2019 to 2021, we stand to receive a higher yield by holding the bonds until they mature or are called. This type of bond is sometimes referred to as a "kicker bond" because of the additional yield, or "kick" to maturity, once the bond passes its initial call date.

We also continued to add exposure to RDA bonds in the secondary market. In 2011, as part of cost-saving measures to close gaps in the California state budget, all 400 RDAs in the state were ordered to dissolve by February 1, 2012, and successor agencies and oversight boards were created to manage obligations that were in place prior to the dissolution and take title to the RDAs' housing and other assets. The uncertainty surrounding the fate of the state's RDAs caused spreads on RDA bonds to widen substantially and prompted RDAs to issue their remaining capacity of bonds prior to the 2012 termination date, resulting in heavy issuance of these bonds offering attractive prices, higher coupons and very attractive structures, including 10-year call provisions. During this period as the market in general seemed to become more comfortable with these bonds, their spreads began to narrow, and we found fewer deals that we regarded as attractive as the period progressed. We continued to be very selective in

our purchases in this sector, performing the underlying credit work and evaluating issuers on a case-by-case basis.

During this period, we also took advantage of short-term market opportunities created by supply/demand dynamics in the municipal market. While demand for tax-exempt paper remained consistently strong throughout the period, supply fluctuated widely. We found that periods of substantial supply provided good short-term buying opportunities not only because of the increased number of issues available, but also because some investors became more hesitant in their buying as supply grew, causing spreads to widen temporarily. At times when supply was more plentiful, we focused on anticipating cash flows from bond calls and maturing bonds and closely monitored opportunities for reinvestment.

Cash for new purchases during this period was generated primarily by the proceeds from the increased number of bond calls resulting from the growth in refinancings. The elevated number of bond calls provided a meaningful source of liquidity, which drove much of our activity during this period as we worked to redeploy these proceeds, as well as those from maturing bonds, to keep the Funds fully invested and support their income streams. In addition, we sold selected bonds with short effective maturities on the occasions when we needed additional cash to take advantage of attractive opportunities.

As of February 28, 2013, all five of these Funds continued to use inverse floating rate securities. We employ inverse floaters for a variety of reasons, including duration management, income enhancement and total return enhancement.

12 Nuveen Investments

Fund Leverage

IMPACT OF THE FUNDS' LEVERAGE STRATEGIES ON PERFORMANCE

One important factor impacting the return of the Funds relative to their benchmarks was the Funds' use of leverage. The Funds use leverage because their managers believe that, over time, leveraging provides opportunities for additional income and total return for common shareholders. However, use of leverage also can expose common shareholders to additional volatility. For example, as the prices of securities held by a Fund decline, the negative impact of these valuation changes on common share net asset value and common shareholder total return is magnified by the use of leverage. Conversely, leverage may enhance common share returns during periods when the prices of securities held by a Fund generally are rising. Leverage had a positive impact on the performance of the Funds over this reporting period.

As of February 28, 2013, the Funds' percentages of effective and regulatory leverage are shown in the accompanying table.

Fund	Effective Leverage*	Regulatory Leverage*
NCU	35.35%	27.85%
NAC	31.89%	26.69%
NVX	36.05%	28.86%
NZH	37.61%	31.00%
NKX	35.91%	30.92%

* Effective Leverage is a Fund's effective economic leverage, and includes both regulatory leverage and the leverage effects of certain derivative and other investments in a Fund's portfolio that increase the Fund's investment exposure. Currently, the leverage effects of Tender Option Bond (TOB) inverse floater holdings are included in effective leverage values, in addition to any regulatory leverage. Regulatory leverage consists of preferred shares issued or borrowings of a Fund. Both of these are part of a Fund's capital structure. Regulatory leverage is sometimes referred to as "40 Act Leverage" and is subject to asset coverage limits set forth in the Investment Company Act of 1940.

THE FUNDS' REGULATORY LEVERAGE

As of February 28, 2013, the Funds have issued and outstanding MuniFund Term Preferred (MTP) Shares and Variable Rate Demand Preferred (VRDP) Shares as shown in the accompanying tables.

MTP Shares

Fund	Series	MTP Shares Issued at Liquidation Value	Annual Interest Rate	NYSE Ticker
NCU	2015	\$35,250,000	2.00%	NCU PrC
NVX	2014	\$42,846,300	2.35%	NVX PrA
NVX	2015	\$55,000,000	2.05%	NVX PrC
NZH	2014	\$27,000,000	2.35%	NZH PrA
NZH	2014-1	\$46,294,500	2.25%	NZH PrB
NZH	2015	\$86,250,000	2.95%	NZH PrC

VRDP Shares

Fund	VRDP Shares Issued at Liquidation Value
NAC	\$136,200,000
NKX*	\$291,600,000

* \$221,100,000 VRDP Shares at Liquidation Value were issued in connection with the reorganization.

During the twelve month reporting period NKX issued \$35,000,000 VRDP Shares at Liquidation Value through a privately negotiated offering.

Refer to Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies for further details on MTP and VRDP Shares.

Common Share Information

COMMON SHARE DIVIDENDS

During the twelve-month reporting period ended February 28, 2013, the Funds' monthly dividends to common shareholders were as shown in the accompanying table.

	Per Common Share Amounts

February	0.0700	0.0740	0.0750	0.0670	0.0700
Market Yield***	5.32%	5.62%	5.52%	5.64%	5.56%
Taxable-Equivalent Yield***	8.15%	8.61%	8.45%	8.64%	8.51%

** NKX paid shareholders a capital gains distribution in December 2012 of \$0.0160 per share.

*** Market Yield is based on the Fund's current annualized monthly dividend divided by the Fund's current market price as of the end of the reporting period. Taxable-Equivalent Yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a combined federal and state income tax rate of 34.7%. When comparing a Fund to investments that generate qualified dividend income, the Taxable-Equivalent Yield is lower.

All of the Funds in this report seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of February 28, 2013, all of the Funds in this report had positive UNII balances for tax and financial reporting purposes.

COMMON SHARE REPURCHASES

During November 2012, the Nuveen Funds Board of Directors/Trustees reauthorized the Funds' open-market share repurchase program, allowing each Fund to repurchase an aggregate of up to approximately 10% of its outstanding common shares.

As of February 28, 2013, and since the inception of the Funds' repurchase programs, the Funds have cumulatively repurchased and retired common shares as shown in the accompanying table. Since the inception of the Funds' repurchase programs, NAC and NKX have not repurchased any of their outstanding common shares.

Fund	Common Shares Repurchased and Retired	% of Common Shares Authorized for Repurchase
NCU	44,500	7.7%
NAC	—	—
NVX	50,700	3.4%
NZH	12,900	0.5%
NKX	—	—

During the twelve-month reporting period, the Funds did not repurchase any of their outstanding common shares.

SHELF EQUITY PROGRAMS

The following Funds filed a preliminary prospectus with the SEC for an equity shelf offering, which is not yet effective, pursuant to which the Fund may issue additional common shares as shown in the accompanying table.

Fund	Additional Common Shares
NAC	2,300,000
NKX	4,100,000

Refer to Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies for further details on the Funds' Shelf Equity Programs.

COMMON SHARE OTHER INFORMATION

As of February 28, 2013, and during the twelve-month reporting period, the Funds were trading at a premium/(discount) to their common share net asset value (NAV) as shown in the accompanying table.

	NCU	NAC	NVX	NZH	NKX
Common Share NAV	\$ 15.93	\$ 15.90	\$ 16.35	\$ 14.71	\$ 15.57
Common Share Price	\$ 15.78	\$ 15.81	\$ 16.30	\$ 14.25	\$ 15.12
Premium/(Discount) to NAV	(0.94)%	(0.57)%	(0.31)%	(3.13)%	(2.89)%
12-Month Average Premium/(Discount) to NAV	(1.26)%	(0.35)%	(0.77)%	(1.25)%	(0.79)%

Risk Considerations

Fund shares are not guaranteed or endorsed by any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation. Past performance is no guarantee of future results. Fund common shares are subject to a variety of risks, including:

Investment, Market and Price Risk. An investment in common shares is subject to investment risk, including the possible loss of the entire principal amount that you invest. Your investment in common shares represents an indirect investment in the municipal securities owned by the Fund, which generally trade in the over-the-counter markets. Shares of closed-end investment companies like these Funds frequently trade at a discount to their net asset value (NAV). Your common shares at any point in time may be worth less than your original investment, even after taking into account the reinvestment of Fund dividends and distributions.

Leverage Risk. Each Fund's use of leverage creates the possibility of higher volatility for the Fund's per share NAV, market price, distributions and returns. There is no assurance that a Fund's leveraging strategy will be successful.

Tax Risk. The tax treatment of Fund distributions may be affected by new IRS interpretations of the Internal Revenue Code and future changes in tax laws and regulations.

Issuer Credit Risk. This is the risk that a security in a Fund's portfolio will fail to make dividend or interest payments when due.

Interest Rate Risk. Fixed-income securities such as bonds, preferred, convertible and other debt securities will decline in value if market interest rates rise.

Reinvestment Risk. If market interest rates decline, income earned from a Fund's portfolio may be reinvested at rates below that of the original bond that generated the income.

Call Risk or Prepayment Risk. Issuers may exercise their option to prepay principal earlier than scheduled, forcing a Fund to reinvest in lower-yielding securities.

Inverse Floater Risk. The Funds invest in inverse floaters. Due to their leveraged nature, these investments can greatly increase a Fund's exposure to interest rate risk and credit risk. In addition, investments in inverse floaters involve the risk that the Fund could lose more than its original principal investment.

Report of Independent
Registered Public Accounting Firm

The Board of Trustees and Shareholders
Nuveen California Premium Income Municipal Fund
Nuveen California Dividend Advantage Municipal Fund
Nuveen California Dividend Advantage Municipal Fund 2
Nuveen California Dividend Advantage Municipal Fund 3
Nuveen California AMT-Free Municipal Income Fund
(formerly Nuveen Insured California Tax-Free Advantage Municipal Fund)

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Nuveen California Premium Income Municipal Fund, Nuveen California Dividend Advantage Municipal Fund, Nuveen California Dividend Advantage Municipal Fund 2, Nuveen California Dividend Advantage Municipal Fund 3, and Nuveen California AMT-Free Municipal Income Fund (the "Funds") as of February 28, 2013, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of February 28, 2013, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of Nuveen California Premium Income Municipal Fund, Nuveen California Dividend Advantage Municipal Fund, Nuveen California Dividend Advantage Municipal Fund 2, Nuveen California Dividend Advantage Municipal Fund 3, and Nuveen California AMT-Free Municipal Income Fund at February 28, 2013, and the results of their operations and their cash flows for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the periods indicated therein, in conformity with U.S. generally accepted accounting principles.

	Net Assets Applicable to Common Shares – 100%			\$ 91,337,458

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
 - (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
 - (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
 - (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
 - (5) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
 - (6) MuniFund Term Preferred Shares, at Liquidation Value as a percentage of Total Investments is 27.0%.
- N/R Not rated.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

\$ 12,000	San Francisco City and County Public Utilities Commission, California, Water Revenue Bonds, Series 2012A, 5.000%, 11/01/43	5/22 at 100.00	AA-	\$ 13,751,400
2,000	West Basin Municipal Water District, California, Certificates of Participation, Refunding Series 2008B, 5.000%, 8/01/28 – AGC Insured	8/18 at 100.00	AA-	2,296,000
54,735	Total Water and Sewer			62,497,274
\$ 553,006	Total Investments (cost \$475,458,019) – 142.0%			531,036,063
	Floating Rate Obligations – (6.9)%			(25,920,000)
	Variable Rate Demand Preferred Shares, at Liquidation Value – (36.4)% (6)			(136,200,000)
	Other Assets Less Liabilities – 1.3%			5,179,588
	Net Assets Applicable to Common Shares – 100%			\$ 374,095,651

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) At or subsequent to the end of the reporting period, this security is non-income producing. Non-income producing security, in the case of a fixed-income security, generally denotes that the issuer has (1) defaulted on the payment of principal or interest, (2) is under the protection of the Federal Bankruptcy Court or (3) the Fund's Adviser has concluded that the issue is not likely to meet its future interest payment obligations and has directed the Fund's custodian to cease accruing additional income on the Fund's records.
- (5) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (6) Variable Rate Demand Preferred Shares, at Liquidation Value as a percentage of Total Investments is 25.6%.

N/R Not rated.

(ETM) Escrowed to maturity.

(IF) Inverse floating rate investment.

- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

32,595	Total Water and Sewer			37,830,283
\$ 343,000	Total Investments (cost \$316,350,562) – 144.2%			347,826,610
	Floating Rate Obligations – (3.9)%			(9,380,000)
	MuniFund Term Preferred Shares, at Liquidation Value – (40.6)% (7)			(97,846,300)
	Other Assets Less Liabilities – 0.3%			636,342
	Net Assets Applicable to Common Shares – 100%			\$ 241,236,652

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
- (5) At or subsequent to the end of the reporting period, this security is non-income producing. Non-income producing security, in the case of a fixed-income security, generally denotes that the issuer has (1) defaulted on the payment of principal or interest, (2) is under the protection of the Federal Bankruptcy Court or (3) the Fund's Adviser has concluded that the issue is not likely to meet its future interest payment obligations and has directed the Fund's custodian to cease accruing additional income on the Fund's records.
- (6) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by

U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.

- (7) MuniFund Term Preferred Shares, at Liquidation Value as a percentage of Total Investments is 28.1%.
- N/R Not rated.
- (ETM) Escrowed to maturity.
- WI/DD Investment, or portion of investment, purchased on a when-issued or delayed delivery basis.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

3,000	San Francisco City and County Public Utilities Commission, California, Water Revenue Bonds, Series 2011A, 5.000%, 11/01/41	No Opt. Call	AA-	3,468,810
19,800	San Francisco City and County Public Utilities Commission, California, Water Revenue Bonds, Series 2012A, 5.000%, 11/01/43	5/22 at 100.00	AA-	22,689,810
39,575	Total Water and Sewer			44,095,733
\$ 527,039	Total Investments (cost \$476,283,910) – 145.9%			518,068,934
	Floating Rate Obligations – (0.2)%			(845,000)
	MuniFund Term Preferred Shares, at Liquidation Value – (44.9)% (7)			(159,544,500)
	Other Assets Less Liabilities – (0.8)%			(2,516,753)
	Net Assets Applicable to Common Shares – 100%			\$ 355,162,681

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
- (5) At or subsequent to the end of the reporting period, this security is non-income producing. Non-income producing security, in the case of a fixed-income security, generally denotes that the issuer has (1) defaulted on the payment of principal or interest, (2) is under the protection of the Federal Bankruptcy Court or (3) the Fund's Adviser has concluded that the issue is not likely to meet its future interest payment obligations and has directed the Fund's custodian to cease accruing additional income on the Fund's records.
- (6) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (7) MuniFund Term Preferred Shares, at Liquidation Value as a percentage of Total Investments is 30.8%.

N/R Not rated.

WI/DD Investment, or portion of investment, purchased on a when-issued or delayed delivery basis.

- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

117,650	Total Water and Sewer			129,231,010
\$ 1,080,918	Total Investments (cost \$878,447,266) – 147.4%			960,433,959
	Floating Rate Obligations – (3.7)%			(24,125,000)
	Variable Rate Demand Preferred Shares, at Liquidation Value – (44.8)% (6)			(291,600,000)
	Other Assets Less Liabilities – 1.1%			6,693,392
	Net Assets Applicable to Common Shares – 100%			\$ 651,402,351

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4)

- Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
- (5) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
 - (6) Variable Rate Demand Preferred Shares, at Liquidation Value as a percentage of Total Investments is 30.4%.
- N/R Not rated.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

- (a) The amounts shown are based on Common share equivalents.
- (b) Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first

business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

(a) The amounts shown are based on Common share equivalents.

(b) Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

Notes to
Financial Statements

1. General Information and Significant Accounting Policies

General Information

The funds covered in this report and their corresponding Common share stock exchange symbols are Nuveen California Premium Income Municipal Fund (NCU), Nuveen California Dividend Advantage Municipal Fund (NAC), Nuveen California Dividend Advantage Municipal Fund 2 (NVX), Nuveen California Dividend Advantage Municipal Fund 3 (NZH) and Nuveen California AMT-Free Municipal Income Fund (NKX) (formerly Nuveen Insured California Tax-Free Advantage Municipal Fund) (each a “Fund” and collectively, the “Funds”). Common shares of California Dividend Advantage (NAC) are traded on the New York Stock Exchange (“NYSE”) while Common shares of California Premium Income (NCU), California Dividend Advantage 2 (NVX), California Dividend Advantage 3 (NZH) and California AMT-Free Income (NKX) are traded on the NYSE MKT. The Funds are registered under the Investment Company Act of 1940, as amended, as diversified, closed-end registered investment companies.

On December 31, 2012, the Funds’ investment adviser converted from a Delaware corporation to a Delaware limited liability company. As a result, Nuveen Fund Advisers, Inc., a wholly-owned subsidiary of Nuveen Investments, Inc. (“Nuveen”), changed its name to Nuveen Fund Advisors, LLC (the “Adviser”). There were no changes to the identities or roles of any personnel as a result of the change.

Each Fund seeks to provide current income exempt from both regular federal and California state income taxes, and in the case of California AMT-Free Income (NKX) the alternative minimum tax applicable to individuals, by investing primarily in a portfolio of municipal obligations issued by state and local government authorities within the state of California or certain U.S. territories.

Fund Reorganizations

Effective before the opening of business on May 7, 2012, certain Funds (the “Acquired Funds”) were reorganized into one, larger-state Fund (the “Acquiring Fund”) included in this report (each a “Reorganization” and collectively the “Reorganizations”) as follows:

Acquired Funds	Acquiring Fund
Nuveen Insured California Premium Income Municipal Fund, Inc. (NPC) (“Insured California Premium Income”)	California AMT-Free Income (NKX)
Nuveen Insured California Premium Income Municipal Fund 2, Inc. (NCL) (“Insured California Premium Income 2”)	
Nuveen Insured California Dividend Advantage Municipal Fund (NKL) (“Insured California Dividend Advantage”)	

The Reorganizations of the Funds were approved by the shareholders of the Acquired Funds at a special meeting on March 30, 2012.

Upon the closing of the Funds’ Reorganizations, the Acquired Funds transferred their assets to the Acquiring Fund in exchange for common and preferred shares of the Acquiring Fund, and the assumption by the Acquiring Fund of the liabilities of the Acquired Funds. The Acquired Funds were then liquidated, dissolved and terminated in accordance

with their Declaration of Trust. Shareholders of the Acquired Funds became shareholders of the Acquiring Fund. Holders of common shares of the Acquired Fund received newly issued common shares of the Acquiring Fund, the aggregate net asset value of which was equal to the aggregate net asset value of the common shares of the Acquired Funds held immediately prior to the Reorganizations (including for this purpose fractional Acquiring Fund shares to which shareholders would be entitled). Fractional shares were sold on the open market and shareholders received cash in lieu of such fractional shares. Holders of preferred shares of the Acquired Funds received on a one-for-one basis newly issued preferred shares of the Acquiring Fund, in exchange for preferred shares of the Acquired Funds held immediately prior to the Reorganization. Details of the Funds' Reorganizations are further described in the Variable Rate Demand Preferred Shares section of this footnote and Footnote 8 – Fund Reorganizations.

Policy Changes

During the fiscal year ended February 28, 2013, the Funds' shareholders approved changes to certain investment policies for California AMT-Free Income (NKX). These changes were designed to provide the Adviser with more flexibility regarding the types of securities available for investment by the Fund.

Nuveen Investments

79

Notes to
Financial Statements (continued)

The investment policy changes are as follows:

- The Fund eliminated the investment policy requiring it, under normal circumstances, to invest at least 80 percent of its managed assets (as defined in Footnote 7 – Management Fees and Other Transactions with Affiliates) in municipal securities that are covered by insurance which currently guarantees the timely payment of principal and interest.
- The Fund adopted a new investment policy requiring it, under normal circumstances, to invest at least 80 percent of its managed assets in municipal securities that pay interest exempt from federal and California income tax.
- The Fund eliminated the old fundamental loan policy and adopted a new fundamental loan policy, which states that the Fund may not make loans, except as permitted by the Investment Company Act of 1940, as amended, and exemptive orders granted under the Investment Company Act of 1940, as amended.
- The Fund will continue to invest substantially all (at least 80 percent) of its managed assets in investment grade quality municipal securities.
- The Fund will continue its policy of investing, under normal circumstances, at least 80% of its assets in AMT-free municipal securities.

Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”).

Investment Valuation

Prices of municipal bonds are provided by a pricing service approved by the Funds’ Board of Trustees. These securities are generally classified as Level 2 for fair value measurement purposes. The pricing service establishes a security’s fair value using methods that may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor’s credit characteristics considered relevant. In pricing certain securities, particularly less liquid and lower quality securities, the pricing service may consider information about a security, its issuer, or market activity, provided by the Adviser. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs.

Certain securities may not be able to be priced by the pre-established pricing methods as described above. Such securities may be valued by the Funds’ Board of Trustees or its designee at fair value. These securities generally include, but are not limited to, restricted securities (securities which may not be publicly sold without registration under the Securities Act of 1933, as amended) for which a pricing service is unable to provide a market price; securities whose trading has been formally suspended; debt securities that have gone into default and for which there is no current market quotation; a security whose market price is not available from a pre-established pricing source; a security with respect to which an event has occurred that is likely to materially affect the value of the security after the market has closed but before the calculation of a Fund’s net asset value (as may be the case in non-U.S. markets on which the security is primarily traded) or make it difficult or impossible to obtain a reliable market quotation; and a security whose price, as provided by the pricing service, is not deemed to reflect the security’s fair value. As a general principle, the fair value of a security would appear to be the amount that the owner might reasonably expect to receive

for it in a current sale. A variety of factors may be considered in determining the fair value of those securities, which may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs. Regardless of the method employed to value a particular security, all valuations are subject to review by the Funds' Board of Trustees or its designee.

Refer to Footnote 2 – Fair Value Measurements for further details on the leveling of securities held by the Funds as of the end of the reporting period.

Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from investment transactions are determined on the specific identification method, which is the same basis used for federal income tax purposes. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to earmark securities in the Funds' portfolios with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. As of February 28, 2013, Nuveen California Dividend Advantage Municipal Fund 2 (NVX) and Nuveen California Dividend Advantage Municipal Fund 3 (NZH) had outstanding when-issued delayed delivery purchase commitments of \$8,895,130 and \$3,262,446, respectively. There were no such outstanding purchase commitments in any of the other Funds.

Investment Income

Investment income, which reflects the amortization of premiums and includes accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also reflects paydown gains and losses, if any.

Professional Fees

Professional fees presented on the Statement of Operations consist of legal fees incurred in the normal course of operations, audit fees, tax consulting fees and, in some cases, workout expenditures. Workout expenditures are incurred in an attempt to protect or enhance an investment, or to pursue other claims or legal actions on behalf of Fund shareholders. Legal fee refund presented on the Statement of Operations reflects a refund of workout expenditures paid in a prior reporting period, when applicable.

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions that will enable interest from municipal securities, which is exempt from regular federal and California state income taxes, and in the case of California AMT-Free Income (NKX) the alternative minimum tax applicable to individuals, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

For all open tax years and all major taxing jurisdictions, management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). Furthermore, management of the Funds is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

Dividends and Distributions to Common Shareholders

Dividends from net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP.

Auction Rate Preferred Shares

Each Fund is authorized to issue Auction Rate Preferred Shares (“ARPS”). As of February 29, 2012, the Funds redeemed all of their outstanding ARPS at liquidation value.

MuniFund Term Preferred Shares

The following Funds have issued and outstanding MuniFund Term Preferred (“MTP”) Shares, with a \$10 stated (“par”) value per share. Each Fund’s MTP Shares are issued in one or more Series and trade on NYSE/NYSE MKT. Dividends on MTP Shares, which are recognized as interest expense for financial reporting purposes, are paid monthly at a fixed annual rate, subject to adjustments in certain circumstances.

As of February 28, 2013, the Funds’ outstanding MTP Shares and annual interest rate by NYSE/NYSE MKT “ticker” symbol are as follows:

Edgar Filing: NUVEEN CALIFORNIA DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSR

	Series	NYSE/ NYSE MKT Ticker	Shares Outstanding	Shares Outstanding at \$10 Per Share Liquidation Value	Annual Interest Rate
California Premium Income (NCU)

	2015	NZH PRC	8,625,000	86,250,000	2.95

Each Fund is obligated to redeem its MTP Shares by the date as specified in its offering document (“Term Redemption Date”), unless earlier redeemed or repurchased by the Fund. MTP Shares are subject to optional and mandatory redemption in certain circumstances. MTP Shares will be subject to redemption at the option of each Fund (“Optional Redemption Date”), subject to a payment of premium for one year following the Optional Redemption Date (“Premium Expiration Date”), and at par thereafter. MTP Shares also will be subject to redemption, at the option of each Fund, at par in the event of certain changes in the credit rating of the MTP Shares. Each Fund may be obligated to redeem certain of the MTP Shares if the Fund fails to maintain certain asset coverage and leverage ratio requirements and such failures are not cured by the applicable cure date. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends. The Term Redemption Date, Optional Redemption Date and Premium Expiration Date for each Fund’s series of MTP Shares by NYSE/NYSE MKT ticker symbol are as follows:

	Series	NYSE/ NYSE MKT Ticker	Term Redemption Date	Optional Redemption Date	Premium Expiration Date
California Premium Income (NCU)	2015NCU	PRC	October 1, 2015	October 1, 2011	September 30, 2012
California Dividend Advantage 2 (NVX)	2014	NVX PRA	April 1, 2014	April 1, 2012	March 31, 2013
	2015	NVX PRC	November 1, 2015	November 1, 2011	October 31, 2012
California Dividend Advantage 3 (NZH)	2014NZH	PRA	May 1, 2014	May 1, 2012	April 30, 2013
	2014-1NZH	PRB	July 1, 2014	July 1, 2012	June 30, 2013
	2015NZH	PRC	January 1, 2015	January 1, 2011	December 31, 2011

The aggregate average liquidation value of all series of each Fund’s MTP Shares outstanding during the fiscal year ended February 28, 2013, was as follows:

	California Premium Income (NCU)	California Dividend Advantage 2 (NVX)	California Dividend Advantage 3 (NZH)
Average liquidation value of MTP Shares outstanding	\$ 35,250,000	\$ 97,846,300	\$ 159,544,500

For financial reporting purposes only, the liquidation value of MTP Shares is recorded as a liability and recognized as “MuniFund Term Preferred (MTP) Shares, at liquidation value” on the Statement of Assets and Liabilities. Unpaid dividends on MTP Shares are recognized as a component of “Interest payable” on the Statement of Assets and Liabilities. Costs incurred by the Funds in connection with their offerings of MTP Shares were recorded as a deferred charge, which are amortized over the life of the shares and are recognized as components of “Deferred offering costs” on the Statement of Assets and Liabilities and “Interest expense and amortization of offering costs” on the Statement of Operations. Dividends paid on MTP Shares and each Fund’s amortized deferred charges are recognized as a component of “Interest expense and amortization of offering costs” on the Statement of Operations.

Variable Rate Demand Preferred Shares

The following Funds have issued and outstanding Variable Rate Demand Preferred (“VRDP”) Shares, with a \$100,000 liquidation value per share. California Dividend Advantage (NAC) and California AMT-Free Income (NKX) issued their VRDP Shares in a privately negotiated offering. The VRDP Shares were offered to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933.

In connection with California AMT-Free Income’s (NKX) Reorganizations, holders of VRDP Shares of the Acquired Funds received on a one-for-one basis newly issued VRDP Shares of the Acquiring Funds, in exchange for VRDP Shares of the Acquired Funds held immediately prior to the Reorganizations. California AMT-Free Income’s (NKX) Series 3 and Series 5 VRDP Shares were issued in conjunction with the Reorganizations of Insured California Premium Income (NPC) and Insured Dividend Advantage (NKL), respectively. California AMT-Free Income’s (NKX) Series 4 VRDP Shares are comprised of 740 VRDP Shares issued in conjunction with the Reorganization of Insured California Premium Income 2 (NCL) and 350 VRDP Shares issued through a privately negotiated offering during the fiscal year ended February 28, 2013.

As of February 28, 2013, the number of VRDP Shares outstanding and maturity date for each Fund are as follows:

Series	California Dividend Advantage (NAC)	California AMT-Free Income (NKX)	California AMT-Free Income (NKX)	California AMT-Free Income (NKX)	California AMT-Free Income (NKX)
VRDP Shares outstanding	1,362	355	427	1,090	1,044
Maturity	June 1, 2041	June 1, 2040	March 1, 2040	December 1, 2040	June 1, 2041

VRDP Shares include a liquidity feature that allows VRDP shareholders to have their shares purchased by a liquidity provider with whom each Fund has contracted in the event that purchase orders for VRDP Shares in a remarketing are not sufficient in number to be matched with the sale orders in that remarketing. Each Fund is required to redeem any VRDP Shares that are still owned by the liquidity provider after six months of continuous, unsuccessful remarketing. Each Fund pays an annual remarketing fee of .10% on the aggregate principal amount of all VRDP Shares outstanding. Each Fund's VRDP Shares have successfully remarketed since issuance.

Dividends on the VRDP Shares (which are treated as interest payments for financial reporting purposes) are set weekly at a rate established by a remarketing agent; therefore, the market value of the VRDP Shares is expected to approximate its liquidation value. If remarketings for VRDP Shares are continuously unsuccessful for six months, the maximum rate is designed to escalate according to a specified schedule in order to enhance the remarketing agent's ability to successfully remarket the VRDP Shares.

Subject to certain conditions, VRDP Shares may be redeemed, in whole or in part, at any time at the option of each Fund. Each Fund may also redeem certain of the VRDP Shares if the Fund fails to maintain certain asset coverage requirements and such failures are not cured by the applicable cure date. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends.

The average liquidation value of VRDP Shares outstanding and annualized dividend rate of VRDP Shares for each Fund during the fiscal year ended February 28, 2013, were as follows:

	California Dividend Advantage (NAC)	California AMT-Free Income (NKX)
Average liquidation value of VRDP Shares outstanding	\$ 136,200,000	\$ 219,466,575
Annualized dividend rate	0.35%	0.29%

For financial reporting purposes only, the liquidation value of VRDP Shares is recognized as a liability on the Statement of Assets and Liabilities. Unpaid dividends on VRDP Shares are recognized as a component of "Interest payable" on the Statement of Assets and Liabilities, when applicable. Costs incurred by the Funds in connection with their offerings of VRDP Shares were recorded as a deferred charge, which are amortized over the life of the shares and are recognized as a component of "Deferred offering costs" on the Statement of Assets and Liabilities and "Interest expense and amortization of offerings costs" on the Statement of Operations. California AMT-Free Income (NKX) incurred an additional \$71,675 of offering costs in conjunction with its shares issued during the fiscal year ended February 28, 2013. Dividends paid on the VRDP Shares are recognized as a component of "Interest expense and

amortization of offering costs” on the Statement of Operations. In addition to interest expense, each Fund also pays a per annum liquidity fee to the liquidity provider, as well as a remarketing fee, which are recognized as “Liquidity fees” and “Remarketing fees”, respectively, on the Statement of Operations.

Insurance

Since 2007, the financial status of most major municipal bond insurers has deteriorated substantially, and some insurers have gone out of business, rendering worthless the insurance policies they had written. Under normal circumstances, and during the period March 1, 2012 through March 30, 2012, California AMT-Free Income (NKX) invested at least 80% of its managed assets (as defined in Footnote 7 – Management Fees and Other Transactions with Affiliates) in municipal securities that are covered by insurance guaranteeing the timely payment of principal and interest. In addition, during the period March 1, 2012 through March 30, 2012, the Fund invested in municipal securities that, at the time of investment were rated investment grade (including (i) bonds insured by investment grade insurers or are rated investment grade; (ii) unrated bonds that are judged to be investment grade by the Adviser; and (iii) escrowed bonds). Ratings below BBB by one or more national rating agencies are considered to be below investment grade. As previously described in footnote 1 – General Information and Significant Accounting Policy Changes, effective March 30, 2012, the Fund eliminated this investment policy.

Notes to
Financial Statements (continued)

Inverse Floating Rate Securities

Each Fund is authorized to invest in inverse floating rate securities. An inverse floating rate security is created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. In turn, this trust (a) issues floating rate certificates, in face amounts equal to some fraction of the deposited bond's par amount or market value, that typically pay short-term tax-exempt interest rates to third parties, and (b) issues to a long-term investor (such as one of the Funds) an inverse floating rate certificate (sometimes referred to as an "inverse floater") that represents all remaining or residual interest in the trust. The income received by the inverse floater holder varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the inverse floater holder bears substantially all of the underlying bond's downside investment risk and also benefits disproportionately from any potential appreciation of the underlying bond's value. The price of an inverse floating rate security will be more volatile than that of the underlying bond because the interest rate is dependent on not only the fixed coupon rate of the underlying bond but also on the short-term interest paid on the floating rate certificates, and because the inverse floating rate security essentially bears the risk of loss of the greater face value of the underlying bond.

A Fund may purchase an inverse floating rate security in a secondary market transaction without first owning the underlying bond (referred to as an "externally-deposited inverse floater"), or instead by first selling a fixed-rate bond to a broker-dealer for deposit into the special purpose trust and receiving in turn the residual interest in the trust (referred to as a "self-deposited inverse floater"). The inverse floater held by a Fund gives the Fund the right (a) to cause the holders of the floating rate certificates to tender their notes at par, and (b) to have the broker transfer the fixed-rate bond held by the trust to the Fund, thereby collapsing the trust. An investment in an externally-deposited inverse floater is identified in the Portfolio of Investments as "(IF) – Inverse floating rate investment." An investment in a self-deposited inverse floater is accounted for as a financing transaction. In such instances, a fixed-rate bond deposited into a special purpose trust is identified in the Portfolio of Investments as "(UB) – Underlying bond of an inverse floating rate trust reflected as a financing transaction," with the Fund accounting for the short-term floating rate certificates issued by the trust as "Floating rate obligations" on the Statement of Assets and Liabilities. In addition, the Fund reflects in "Investment Income" the entire earnings of the underlying bond and the related interest paid to the holders of the short-term floating rate certificates as a component of "Interest expense and amortization of offering costs" on the Statement of Operations.

During the fiscal year ended February 28, 2013, each Fund invested in externally-deposited inverse floaters and/or self-deposited inverse floaters.

Each Fund may also enter into shortfall and forbearance agreements (sometimes referred to as a "recourse trust" or "credit recovery swap") (such agreements referred to herein as "Recourse Trusts") with a broker-dealer by which a Fund agrees to reimburse the broker-dealer, in certain circumstances, for the difference between the liquidation value of the fixed-rate bond held by the trust and the liquidation value of the floating rate certificates issued by the trust plus any shortfalls in interest cash flows. Under these agreements, a Fund's potential exposure to losses related to or on inverse floaters may increase beyond the value of a Fund's inverse floater investments as a Fund may potentially be liable to fulfill all amounts owed to holders of the floating rate certificates. At period end, any such shortfall is recognized as "Unrealized depreciation on Recourse Trusts" on the Statement of Assets and Liabilities.

As of February 28, 2013, each Fund's maximum exposure to externally-deposited Recourse Trusts, was as follows:

California Premium	California Dividend	California Dividend	California Dividend	California AMT-Free
-----------------------	------------------------	------------------------	------------------------	------------------------

Edgar Filing: NUVEEN CALIFORNIA DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSR

	Income (NCU)	Advantage (NAC)	Advantage 2 (NVX)	Advantage 3 (NZH)	Income (NKX)
Maximum exposure to Recourse Trusts	\$ 6,510,000	\$ 3,590,000	\$ 16,210,000	\$ 48,960,000	\$ 20,000,000

The average floating rate obligations outstanding and average annual interest rate and fees related to self-deposited inverse floaters during the fiscal year ended February 28, 2013, were as follows:

	California Premium Income (NCU)	California Dividend Advantage (NAC)	California Dividend Advantage 2 (NVX)	California Dividend Advantage 3 (NZH)	California AMT-Free Income (NKX)
Average floating rate obligations outstanding	\$ 5,759,247	\$ 26,466,575	\$ 9,798,521	\$ 1,469,658	\$ 25,061,986
Average annual interest rate and fees	0.57 %	0.62 %	0.65 %	0.68 %	0.63 %

Derivative Financial Instruments

Each Fund is authorized to invest in certain derivative instruments, including foreign currency forwards, futures, options and swap contracts. Although the Funds are authorized to invest in such derivative instruments, and may do so in the future, they did not make any such investments during the fiscal year ended February 28, 2013.

Market and Counterparty Credit Risk

In the normal course of business each Fund may invest in financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the other party to the transaction to perform (counterparty credit risk). The potential loss could exceed the value of the financial assets recorded on the financial statements. Financial assets, which potentially expose each Fund to counterparty credit risk, consist principally of cash due from counterparties on forward, option and swap transactions, when applicable. The extent of each Fund's exposure to counterparty credit risk in respect to these financial assets approximates their carrying value as recorded on the Statement of Assets and Liabilities. Futures contracts, when applicable, expose a Fund to minimal counterparty credit risk as they are exchange traded and the exchange's clearinghouse, which is counterparty to all exchange traded futures, guarantees the futures contracts against default.

Each Fund helps manage counterparty credit risk by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser monitor the financial stability of the counterparties. Additionally, counterparties may be required to pledge collateral daily (based on the daily valuation of the financial asset) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when each Fund has an unrealized loss, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the valuations fluctuate, either up or down, by at least the pre-determined threshold amount.

Zero Coupon Securities

Each Fund is authorized to invest in zero coupon securities. A zero coupon security does not pay a regular interest coupon to its holders during the life of the security. Income to the holder of the security comes from accretion of the difference between the original purchase price of the security at issuance and the par value of the security at maturity and is effectively paid at maturity. The market prices of zero coupon securities generally are more volatile than the market prices of securities that pay interest periodically.

Common Shares Shelf Offering and Shelf Offering Costs

During the current reporting period, California Dividend Advantage (NAC) and California AMT-Free Income (NKX) each filed initial registration statements with the Securities and Exchange Commission ("SEC") authorizing the Funds to issue an additional 2.3 million and 4.1 million Common shares, respectively, through equity shelf programs ("Shelf Offerings"), which are not yet effective.

Under these Shelf Offerings, the Funds, subject to market conditions, may raise additional equity capital from time to time in varying amounts and offering methods at a net price at or above each Fund's net asset value ("NAV") per Common share.

Costs incurred by the Funds in connection with their initial Shelf Offerings are recorded as a deferred charge, which will be amortized over the period such additional Common shares are sold not to exceed the one-year life of the Shelf Offering period. Ongoing Shelf Offering costs, and any additional costs the Funds may incur in connection with the Shelf Offerings, are expensed as incurred.

Indemnifications

Under the Funds' organizational documents, their officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

2. Fair Value Measurements

Fair value is defined as the price that the Funds would receive upon selling an investment or transferring a liability in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. A three-tier hierarchy is used to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The following is a summary of the three-tiered hierarchy of valuation input levels.

Inputs are unadjusted and prices are determined using quoted prices in active markets for identical Level 1 securities.

Level 2 – Prices are determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Nuveen Investments 85

Notes to
Financial Statements (continued)

Level 3 – Prices are determined using significant unobservable inputs (including management’s assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not an indication of the risks associated with investing in those securities. The following is a summary of each Fund’s fair value measurements as of the end of the reporting period:

California Premium Income (NCU) Long-Term Investments*:	Level 1	Level 2	Level 3	Total
Municipal Bonds	\$—	\$130,443,832	\$—	\$130,443,832
California Dividend Advantage (NAC) Long-Term Investments*:	Level 1	Level 2	Level 3	Total
Municipal Bonds	\$—	\$531,036,063	\$—	\$531,036,063
California Dividend Advantage 2 (NVX) Long-Term Investments*:	Level 1	Level 2	Level 3	Total
Municipal Bonds	\$—	\$347,826,610	\$—	\$347,826,610
California Dividend Advantage 3 (NZH) Long-Term Investments*:	Level 1	Level 2	Level 3	Total
Municipal Bonds	\$—	\$518,068,934	\$—	\$518,068,934
California AMT-Free Income (NKX) Long-Term Investments*:	Level 1	Level 2	Level 3	Total
Municipal Bonds	\$—	\$960,433,959	\$—	\$960,433,959

* Refer to the Fund’s Portfolio of Investments for industry classifications.

The Nuveen funds’ Board of Directors/Trustees is responsible for the valuation process and has delegated the oversight of the daily valuation process to the Adviser’s Valuation Committee. The Valuation Committee, pursuant to the valuation policies and procedures adopted by the Board of Directors/Trustees, is responsible for making fair value determinations, evaluating the effectiveness of the funds’ pricing policies, and reporting to the Board of Directors/Trustees. The Valuation Committee is aided in its efforts by the Adviser’s dedicated Securities Valuation Team, which is responsible for administering the daily valuation process and applying fair value methodologies as approved by the Valuation Committee. When determining the reliability of independent pricing services for investments owned by the funds, the Valuation Committee, among other things, conducts due diligence reviews of the pricing services and monitors the quality of security prices received through various testing reports conducted by the Securities Valuation Team.

The Valuation Committee will consider pricing methodologies it deems relevant and appropriate when making fair value determinations. Examples of possible methodologies include, but are not limited to, multiple of earnings; discount from market of a similar freely traded security; discounted cash-flow analysis; book value or a multiple thereof; risk premium/yield analysis; yield to maturity; and/or fundamental investment analysis. The Valuation Committee will also consider factors it deems relevant and appropriate in light of the facts and circumstances. Examples of possible factors include, but are not limited to, the type of security; the issuer’s financial statements; the

purchase price of the security; the discount from market value of unrestricted securities of the same class at the time of purchase; analysts' research and observations from financial institutions; information regarding any transactions or offers with respect to the security; the existence of merger proposals or tender offers affecting the security; the price and extent of public trading in similar securities of the issuer or comparable companies; and the existence of a shelf registration for restricted securities.

For each portfolio security that has been fair valued pursuant to the policies adopted by the Board of Directors/Trustees, the fair value price is compared against the last available and next available market quotations. The Valuation Committee reviews the results of such testing and fair valuation occurrences are reported to the Board of Directors/Trustees.

3. Derivative Instruments and Hedging Activities

The Funds record derivative instruments at fair value, with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Funds' investments in derivatives may represent economic hedges, they are not considered to be hedge transactions for financial reporting purposes. The Funds did not invest in derivative instruments during the fiscal year ended February 28, 2013.

4. Fund Shares

Common Shares

The Funds have not repurchased any of their outstanding common shares during the fiscal years ended February 28, 2013 and February 29, 2012.

Transactions in Common shares were as follows:

	California Premium Income (NCU)		California Dividend Advantage (NAC)	
	Year Ended	Year Ended	Year Ended	Year Ended
	2/28/13	2/29/12	2/28/13	2/29/12

5. Investment Transactions

Purchases and sales (including maturities but excluding short-term investments, where applicable) during the fiscal year ended February 28, 2013, were as follows:

	California Premium Income (NCU)	California Dividend Advantage (NAC)	California Dividend Advantage 2 (NVX)	California Dividend Advantage 3 (NZH)	California AMT-Free Income (NKX)
Purchases	\$14,140,740	\$64,448,320	\$80,539,166	\$108,756,073	\$184,225,894
Sales and maturities	13,145,684	70,946,295	76,673,501	100,583,352	148,960,327

88 Nuveen Investments

6. Income Tax Information

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing taxable market discount, timing differences in recognizing certain gains and losses on investment transactions and the treatment of investments in inverse floating rate securities reflected as financing transactions, if any. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts as detailed below. Temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset values of the Funds.

As of February 28, 2013, the cost and unrealized appreciation (depreciation) of investments, as determined on a federal income tax basis, were as follows:

	California Premium Income (NCU)	California Dividend Advantage (NAC)	California Dividend Advantage 2 (NVX)	California Dividend Advantage 3 (NZH)	California AMT-Free Income (NKX)
Cost of investments	\$ 111,305,860	\$ 449,057,369	\$ 307,169,966	\$ 474,995,103	\$ 853,530,402
Gross unrealized:					
Appreciation	\$ 13,765,930	\$ 62,719,967	\$ 35,810,567	\$ 49,267,154	\$ 84,291,493
Depreciation	(158,115)	(6,659,692)	(4,531,062)	(7,038,323)	(1,510,318)
Net unrealized appreciation (depreciation) of investments	\$ 13,607,815	\$ 56,060,275	\$ 31,279,505	\$ 42,228,831	\$ 82,781,175

Permanent differences, primarily due to federal taxes paid, taxable market discount, nondeductible offering costs, reorganization adjustments and nondeductible reorganization expenses, resulted in reclassifications among the Funds' components of Common share net assets as of February 28, 2013, the Funds' tax year end, as follows:

	California Premium Income (NCU)	California Dividend Advantage (NAC)	California Dividend Advantage 2 (NVX)	California Dividend Advantage 3 (NZH)	California AMT-Free Income (NKX)
Paid-in-surplus	\$ (172,712)	\$ 19,035	\$ (482,443)	\$ (827,148)	\$ (962,599)
Undistributed (Over-distribution of) net investment income	172,294	(164,687)	465,012	819,225	970,074
Accumulated net realized gain (loss)	418	145,652	17,431	7,923	(7,475)

The tax components of undistributed net tax-exempt income, net ordinary income and net long-term capital gains as of February 28, 2013, the Funds' tax year end, were as follows:

	California Premium Income (NCU)	California Dividend Advantage (NAC)	California Dividend Advantage 2 (NVX)	California Dividend Advantage 3 (NZH)	California AMT-Free Income (NKX)
Undistributed net tax-exempt income *	\$ 1,490,902	\$ 6,150,666	\$ 3,497,312	\$ 2,620,061	\$ 6,311,700
Undistributed net ordinary income **	2,839	208	38,199	2,246	17,111
	—	—	—	—	554,018

Undistributed net long-term capital gains

* Undistributed net tax-exempt income (on a tax basis) has not been reduced for the dividend declared on February 1, 2013, paid on March 1, 2013.

** Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

The tax character of distributions paid during the Funds' tax years ended February 28, 2013 and February 29, 2012, was designated for purposes of the dividends paid deduction as follows:

		California Premium Income (NCU)	California Dividend Advantage (NAC)	California Dividend Advantage 2 (NVX)	California Dividend Advantage 3 (NZH)	California AMT-Free Income (NKX)
2013						
Distributions from net tax-exempt income***	\$	5,662,424	\$ 22,042,288	\$ 16,146,699	\$ 24,912,763	\$ 24,898,294
Distributions from net ordinary income**		—	—	—	—	—
Distributions from net long-term capital gains****		—	—	—	—	669,297

Distributions from net tax-exempt income	\$ 5,690,713	\$ 21,712,743	\$ 16,164,056	\$ 25,521,629	\$ 4,948,448
Distributions from net ordinary income **	—	105,661	—	—	—
Distributions from net long-term capital gains	—	—	—	—	—

** Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

*** The Funds hereby designate these amounts paid during the fiscal year ended February 28, 2013, as Exempt Interest Dividends.

**** The Funds designated as a long-term capital gain dividend, pursuant to the Internal Revenue Code Section 852 (b)(3), the amount necessary to reduce earnings and profits of the Funds related to net capital gain to zero for the tax year ended February 28, 2013.

As of February 28, 2013, the Funds' tax year end, the Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as follows:

	California Premium Income (NCU)	California Dividend Advantage (NAC)	California Dividend Advantage 2 (NVX)	California Dividend Advantage 3 (NZH)	California AMT-Free Income (NKX)*
