Forward-Looking Statements

This Report on Economic and Financial Analysis contains forward-looking statements relating to our business which are based on management's current expectations, estimates and projections about future events and financial trends which could affect our business. Words such as: believes, anticipates, plans, expects, intends, aims, evaluates, predicts, foresees, projects, guidelines, should and similar expressions identify forward-looking statements. These statements are not guarantees of future performance and involve risks and uncertainties which are difficult to predict and which could be beyond our control. Furthermore, certain forward-looking statements are based on assumptions which future events may prove to be inaccurate. Therefore, actual results may differ materially from the plans, objectives, expectations, projections and intentions expressed or implied in such forward-looking statements.

Factors which could cause actual results to differ materially include, among others, changes in regional, national and international commercial and economic conditions; inflation rates, increases in customer default and any other delays in credit operations; increases in the allowance for loan loss; loss of funding capacity; loss of clientele or revenues; our capacity to sustain and improve performance; changes in interest rates which could, among others, have an adverse effect on our margins; competition in the banking sector, in financial services, credit card services, insurance, asset management and other related sectors; government regulations and fiscal matters; disputes or adverse legal proceedings or ruling; as well as credit risks and other loan and investment activity risks.

Accordingly, the reader should not place undue reliance on these forward-looking statements. In all cases, these forward-looking statements are valid only as at the date they are made. Except as required under applicable legislation, we assume no obligation whatsoever to update these statements, whether as a result of new information, future events or any other motive.

Profitability						

Bradesco reported net income of R\$ 2,002 million, for the first nine months of 2004, up by 25.8%, compared to the same period in 2003. Stockholders' equity was R\$ 14.678 million at September 30, 2004, an increase of 13.2% compared to the prior-year. The return on stockholders' equity (ROE) was 18.6%. Assets totaled R\$ 179,703 million at the end of September 2004, a growth rate of 9.3% compared to the balance at the same date in 2003. Return on total assets (RO) for the first nine months of 2004 was 1.5% per annum.

Third-quarter consolidated net income was R\$ 752 million, up by R\$ 111 million, or 17.3% compared to second-quarter results (2Q04). Annualized return on stockholders' equity (ROE) was 22.1% for the quarter and return on total assets (ROA) was 1.7%.

3Q04 was marked by the good performance of revenues comprising financial margin, especially non-interest income which totaled R\$ 504 million, up by R\$ 380 million, compared to 2Q04, mainly due to increased gains with securities (TVM) and treasury operations, as well as credit recovery improvements, in line with a more favorable economic environment. We also highlight the increase in commissions and fees, up by 5.8% compared to 2Q04, in particular, income on credit operations and fund management.

## Edgar Filing: BANK BRADESCO - Form 6-K

The improved credit portfolio scenario, in sync with our ongoing selective credit granting policy, was mirrored by improved portfolio risk ratings and the lower provision for loan loss recorded in the amount of R\$ 36 million for the quarter, totaling R\$ 1,553 million for the first nine months of 2004.

The Operating Efficiency Ratio (accumulated over the prior 12 months) in 3Q04 was 58.3%, down by 0.4% compared to 2Q04, after adjustments for extraordinary events, evidencing the strong commitment of the entire Bradesco management to the strict control of expenses and growing revenues for the quarter.

9,345	9,831	5.2	3,711	2,939	(20.8)

Income was up mostly as a result of: (i) the increase in the volume of the credit portfolio, which totaled R\$ 60.0 billion, particularly in the consumer customer segment, up by 26.8%, as compared to the corporate segment up by 8.5%, reflecting the small demand for credit by the latter; (ii) negative exchange variation of 1.1% for the nine-month period through September 2004 (period/04), compared to negative exchange variation of 17.3% in the nine-month period through September 2003 (period/03), impacting foreign-currency indexed and/or denominated operations, which comprise 12.5% of the portfolio (not considering advances on foreign exchange contracts ACC which comprise 9.4% of the portfolio and whose results impact the foreign exchange transactions account); offset substantially by: (iii) falling average interest rates in line with the variation in CDI of 18.1% for period/03 as compared to 11.7% for period/04.

The variation was mainly due to: (i) negative exchange variation of 8.0% in 3Q04, against positive exchange variation of 6.8% in 2Q04, impacting foreign-currency indexed and/or denominated operations, comprising 12.5% of the portfolio (not considering advances on foreign exchange contracts ACC which comprise 9.4% of the portfolio and whose results impact the foreign exchange transactions account); partially offset by: (ii) increase in the credit portfolio balance, particularly the 4.8% increase for the quarter in the consumer customer segment, compared to a growth rate of 1.8% in the corporate customer segment, partially affected by foreign-currency indexed and/or denominated operations.

## Edgar Filing: BANK BRADESCO - Form 6-K

The variation for the period is mainly due to: (i) falling average interest rates for the period; (ii) decrease in non-interest income of R\$ 315 in period/04 against R\$ 520 in period/03, as a result of less gains on securities and treasury transactions, offset substantially by: (iii) negative exchange variation of 1.1% in period/04, against negative exchange variation of 17.3% in period/03, impacting foreign-currency-indexed and or denominated securities, which comprise 17.8% of the portfolio; and (iv) increase in the average volume of the securities portfolio, particularly federal government securities.

This decrease reflects mainly: (i) negative exchange variation of 8% in 3Q04, against positive exchange variation of 6.8% in 2Q04, impacting foreign currency-indexed and or denominated securities, which comprise 17.8% of the total portfolio; partially offset by: (ii) increase in non-interest income of R\$ 216 in 3Q04 compared to R\$ (6) in 2Q04, as a result of increased gains with securities and treasury operations.

### Financial Income on Insurance, Private Pension Plans and Savings Bonds

Accumulated to September			2004		
2003	2004	% Variation	2 <sup>nd</sup> Quarter	3 <sup>rd</sup> Quarter	% Variation
3,948	3,763	(4.7)	1,181	1,337	13.2

During the period, there was an increase in the average volume of the securities portfolio, comprising federal government securities, related to technical reserves, especially PGBL and VGBL products. However, overall results were down mainly due to: (i) the decrease in average interest rates, especially CDI, from 18.1% in period/03 to 11.7% for period/04; partially offset by: (ii) variation in the IGP-M index, of 7.1% for period/03, against 10.3% in 2004.

Results were up mainly due to: (i) the increase in the average volume of the securities portfolio for the quarter, comprising federal government securities, as a result of the increase in the sale of supplementary pension plans and insurance policies, especially PGBL and VGBL, partially offset by: (ii) less variation in the IGP-M index, from 3.3% in 3Q04, against 4% in 2Q04.

### Results of Foreign Exchange Transactions

2003	2004	% Variation	2 <sup>nd</sup> Quarter	3 <sup>rd</sup> Quarter	% Variation
543	663	22.1	502	-	(100.0)

During the period, there was an increase in the volume of the foreign exchange portfolio. Considering the adjustments to foreign funding expenses used to finance import/export transactions (Note 13 to the financial statements), results would present a decrease from R\$ 247 in period/03 to R\$ 143 in period/04, affected by falling average fx portfolio interest rates (*spread*).

The volume of the fx portfolio for the quarter presents a decrease, when measured in reais, mainly as a result of negative exchange variation of 8% in 3Q04. Considering the adjustments to foreign funding expenses used to finance import/export transactions, results would present increases of R\$ 35 and R\$ 45 in 2Q04 and 3Q04, respectively.

Edgar Filing: BANK BRADESCO - Form 6-K

2003	2004	% Variation
1,097	859	(21.7)

The decrease for the period reflects: (i) drop in the SELIC rate from 18.1% for period/03 to 11.7% for period/04, used to remunerate the additional compulsory deposit; (ii) the decrease in the TR reference rate used to remunerate compulsory savings account deposits, from 3.9% in period/03 to 1.4% for period/04, partially offset by: (iii) the increase in the average volume of deposits for the period.

2 <sup>nd</sup> Quarter	3 <sup>rd</sup> Quarter	% Variation
269	301	11.9

This increase was mainly due to: (i) increase in the SELIC rate from 3.7% in 2Q04 to 3.9% in 3Q04, which is used to remunerate the additional compulsory deposit; (ii) the increase in the TR reference rate used to remunerate compulsory savings account deposits, from 0.4% in 2Q04 to 0.6% for 3Q04, partially offset by: (iii) the increase in the average volume of deposits for the quarter.

Interest and Charges on Deposits

Accumulated to September		
2003	2004	% Variation
7,930	6,776	(14.6)

The decrease mainly reflects: (i) falling average interest rates, in line with the variation in the CDI from 18.1% in period/03 against 11.7% in period/04, impacting expenses for time deposits and purchase and sale commitments – third-party portfolio - R\$ 1,050 and R\$ 623 respectively, partially offset by: (ii) greater expense for securities abroad - R\$ 928, generated by negative exchange variation of 1.1% in period/04 as compared to negative exchange variation of 17.3% in period/03; and (iii) increase in the average volume of funding for the period.

2004		
2 <sup>nd</sup> Quarter	3 <sup>rd</sup> Quarter	% Variation
3,030	1,292	(57.4)

The decrease in this expense mainly reflects negative exchange variation of 8% in 3Q04, compared to positive exchange variation of 6.8% in 2Q04, impacting securities and other funds obtained abroad by Bradesco - R\$ 2,051, which was partially offset by increased expense for purchase and sale commitments and time deposits of R\$ 148 and R\$ 130, respectively, as a result of an increase in interest rates, in line with the variation in the CDI of 3.7% in 2Q04 to 3.9% in 3Q04.

Price-level Restatement and Interest on Technical Reserves for Insurance, Private Pension Plans and Savings Bonds

Accumulated to September		
2003	2004	% Variation
2,419	2,294	(5.2)

The decrease mainly reflects (i) the fall in average interest rates, in line with the variation in the CDI rate of 18.1% for period/03 as compared to 11.7% for period/04; offset by: (ii) the increase in the average volume of technical reserves, for insurance, private pension plans and premium bonds, particularly PGBL and VGBL products – and (iii) the improved accounting policies in period/04, with R\$ 171, recorded in this account rather than in Variation in technical reserves for insurance, private pension plans and savings bonds – pursuant to

Financial Margin

Accumulated to September		
2003	2004	% Variation
9,135	9,715	6.3

The variation for the period was mainly due to: (i) increase in interest income - R\$ 1,024, comprising the effect of appreciation of the real in period/03 (17.3%) compared with period/04 (1.1%) - R\$ 510 and growth in the average volume of business - R\$ 514; (ii) financial expenses recorded formerly in the Variation in technical reserves for insurance, private pension plans and savings bonds account - R\$ 171; and (iii) decrease in non-interest income - R\$ 273, mainly due to lower gains on securities and treasury transactions for period/04.

2004		
2 <sup>nd</sup> Quarter	3 <sup>rd</sup> Quarter	% Variation
3,081	3,304	7.2

The variation for the quarter was mainly due to: (i) increase in interest income - R\$ 14, comprising growth in the average volume of business - R\$ 111 and the drop in spread - R\$ 97; (ii) financial expenses recorded formerly in the Variation in technical reserves for insurance, private pension plans and savings bonds account - R\$ 171; and (iii) increase in non-interest income - R\$ 380, derived from the increase in gains on securities and treasury transactions and credit recoveries in 3Q04.

(3,061)	(3,842)	25.5	(1,282)	(1,328)	3.6

## Edgar Filing: BANK BRADESCO - Form 6-K

The increase in expense with claims for the period was mainly due to: (i) improved calculation of the provision for claims incurred but not reported (IBNR) during the period, used to analyze the movement of claims for a period of 54 months rather than 12, as in prior periods, which resulted in the recording of an extraordinary reserve of R\$ 276; (ii) an amount of R\$ 74, arising from civil contingencies related to insurance operations which were recorded in 2Q04 in Other operating expenses; and (iii) the increase in indemnities in Health, Auto and Life lines - R\$ 393, compatible with earned premium growth.

Excluding the extraordinary reserves in 2Q04 - R\$ 145, recorded as a result of improved calculation of IBNR and in 3Q04 - R\$ 74, arising from civil contingencies related to insurance operations which were recorded in 2Q04 in Other operating expenses, the amounts of retained claims would be R\$ 1,137 and R\$ 1,254, respectively, compatible with earned premium growth.

(798)	(932)	(16.8)	(346)	(313)	(9.5)

The increase for the period is due to increased provision recorded for redemptions and draws - R\$ 134, as a result of increased sales of savings bonds.

The decrease in this expense for the quarter is due mostly to decreased provision recorded for redemptions - R\$ 40, as a result of the decreased volume of sales of savings bonds in 3Q04 as compared to 2Q04.

2003	2004	% Variation	2 <sup>nd</sup> Quarter	3 <sup>rd</sup> Quarter	% Variation
(107)	(116)	8.4	(38)	(39)	2.6

The increase in these expenses for the period reflects substantially the growth in VGBL product sales.

Expenses for the quarter remained practically stable.

Expenses with Pension Plan Benefits and Redemptions

Accumulated to September			2004		
2003	2004	% Variation	2 <sup>nd</sup> Quarter	3 <sup>rd</sup> Quarter	% Variation
(1,406)	(1,620)	15.2	(590)	(497)	(15.8)

The variation for the period was mainly due to the increase in the payment of benefits and redemptions of traditional private pension plans - R\$ 170.

The decrease in these expenses for the quarter mainly reflects a lower volume of traditional private pension plan redemption payments in 3Q04 compared to 2Q04 - R\$ 113.

Personnel Expenses

Accumulated to September			2004		
2003	2004	% Variation	2 <sup>nd</sup> Quarter	3 <sup>rd</sup> Quarter	% Variation
(3,507)	(3,684)	5.0	(1,234)	(1,273)	3.2

The variation for the period reflects for the most part: (i) the effect of the collective bargaining agreement (12.6%) and single payment bonus R\$ 171, appropriated in Sept/03 and R\$ 279 which impacted period/04; (ii) the effect of the provision recorded for the proposed collective bargaining agreement (8.5%) in Sept/04 R\$ 69 ; (iii) increased expenses for labor claims R\$ 40; and (iv) consolidation of BBV Banco, Zogbi and BEM - R\$ 186. Disregarding the above events the decrease in payroll would amount to R\$ 225 for the period, mainly as a result of the synergy following the merger of banks acquired.

The variation was mainly due to: (i) payroll decrease as a result of the synergy following the merger of banks acquired; partially offset by: (ii) the provision recorded for the proposed collective bargaining agreement (8.5%) in Sept/04, with an impact of R\$ 69.

Other Administrative Expenses

(761)	(1,053)	38.4	(343)	(374)	9.0

This variation was substantially generated by: (i) the increase in expenses for COFINS - R\$ 197, as a result of the rise in the calculation base rate from 3% to 4% in September 2003, as well as an increase in taxable income; (ii) the increase in expenses for ISS - R\$ 47, as a result of a change in legislation; and (iii) increased expense for CPMF - R\$ 29.

The increase for the quarter was mainly generated by an increase in expenses for COFINS - R\$ 33, which is compatible with the growth in taxable income during the quarter.

Equity in the Earnings of Associated Companies

Accumulated to September			2004

(1,872)	(2,122)	13.4	(803)	(628)	(21.8)

The increase was generated in particular: (i) by the growth in operating provisions/other R\$ 219; (ii) the increase in sundry losses (discounts granted on credit operations and fraud) R\$ 128; (iii) greater expenses for amortization of goodwill, as a result of the operations of BBV Banco, Zogbi and BEM - R\$ 83; and partially offset by: (iv) less financial expense R\$ 233.

The variation was mainly due to the addition to provisions for civil contingencies arising from insurance operations - R\$ 109, in 2Q04. In 3Q04, R\$ 74 of this provision was reversed and allocated to the Claims insurance operations account. Disregarding these factors, there was almost no variation in this account.

52,776	59,976	13.6

June/2004	September/2004	% Variation
58,402	59,976	2.7

The growth was mainly due to: (i) the individual customer segment with a growth rate of 26.8%, in particular, vehicle products up by 43.6% and Personal Credit, up by 45.7%, reflecting increased consumer confidence in the present economic scenario. Among corporate customers, the growth rate of 8.5% reflects the reduced demand in this segment, mainly as a result of excess liquidity of major corporations. In this segment, we highlight the rural credit product, up by 37.2%, due to the increase in production and price recovery of the majority of products, in both foreign and domestic markets; and prices in the ; (ii) consolidation of Banco Zogbi and Banco BEM; (iii) contract adjustments; partially offset by: (iv) negative exchange variation of 2.2% for period/03 to period/04, affecting foreign-currency indexed and/or denominated contracts, comprising 21.9% of the total portfolio; and (v) contract settlements.

This growth was mainly due to: (i) increase in the balance of the credit portfolio, especially the 4.8% increase for the quarter in the individual customer segment, in particular vehicle products up by 9.5% and Personal Credit, up by 9.3%, while the corporate customer segment was up by 1.8% partially affected by its participation in foreign-currency indexed and/or denominated operations; (ii) contract adjustments; and mitigated in part by: (iii) negative exchange variation of 8.0% in 3Q04, affecting foreign-currency indexed and/or denominated contracts, comprising 21.9% of the total portfolio; and (iv) contract settlements.

N.B. Includes advances on foreign exchange contracts and other receivables and does not include the allowance for loan losses, as described in Note 12 to the financial statements.

#### Analysis of Financial Margin

Banco Bradesco's consolidated financial margin totaled R\$ 9,715 million for the nine-month period accumulated to September 2004, up by 6.3% as compared to the same period in 2003 (R\$ 9,135 million).

The increase of R\$ 1,024 million in interest income comprised growth of R\$ 514 million in average business volume and R\$ 510 million as effects of appreciation of the real in period/03 (17.3%) compared to period/04 (1.1%). This variation was offset by financial expenses recorded formerly in the Variation in technical reserves for insurance, private pension plans and savings bonds account of R\$ 171 million. However, results of non-interest income decreased margin by R\$ 273 million, following a decrease in gains on securities and treasury transactions, totaling a positive variation of R\$ 580 million between amounts accumulated to September 2004 and for the same period in 2003.

In 3Q04, financial margin totaled R\$ 3,304 million, compared to R\$ 3,081 million in 2Q04, i.e. up by 7.2% or R\$ 223 million. Compared to the prior quarter, interest income was up by R\$ 14 million, as a result of growth in the volume of operations in the amount of some R\$ 111 million and a drop in spread of R\$ 97 million. Interest income was affected by financial expenses of R\$ 171, recorded formerly in the Variation in technical reserves for insurance, private pension plans and savings bonds account. On the other hand, non-interest income had a positive effect on margin of R\$ 380 million, as a result of the strongly positioned securities portfolio and the sound recovery of credits in 3Q04.

The average financial margin rate annualized (obtained by dividing the result of financial margin by the average balance of total assets) was up by 0.1 percentage point from 7.5% in 2Q04 to 7.6% in 3Q04. However, there is a decrease of 0.6 percentage points if we compare the accumulated rate to September 2004 (7.5%) with the same period in 2003 (8.1%). This downturn was influenced in particular by the sharp fall in the interest rate (CDI) used to remunerate own working capital, funding and float, considering that up to September 2003, CDI annualized was 24.9%, compared to 15.9% for the same period in 2004.

We highlight the following items responsible for generating financial margin:

- Credit operations, particularly, in the individual customer segment, up by 4.8% for 3Q04, with increases in the Vehicle and Personal Loan products of 9.5% and 9.3%, respectively.

Comparing the balance at September 2004 with the same month in 2003, the individual customer segment was up by 26.8%, with increases of 43.6% in Auto Financings and 45.7% in Personal Credits. We stress that this increment was partially affected by the acquisitions of Banco Zogbi and Banco BEM in 2004.

The improving economic scenario and the increase in consumer confidence, as well as the supply of products designed to meet different customer profiles, were decisive factors in this segment's good performance.

We also stress that Bradesco is improving the quality of its credit granting process to guarantee minimum risk of loss.

## Edgar Filing: BANK BRADESCO - Form 6-K

- Insurance area transactions also contributed to financial margin, as a result of the good performance recorded by insurance, private pension plan and savings bond activities, mainly as a result of the increase in sales of supplementary pension plans (PGBL and VGBL) and insurance policies with the corresponding amounts recorded as reserves, since between the second and third quarters, the average volume of technical reserves grew by 7.1%, from R\$ 29,478 million in June 2004 to R\$ 31,585 million in September 2004 and by 29.1% compared with the same period in 2003.
- Emphasis should also be given to the performance of demand and savings account deposits, between June 2004 and September 2Q04, up by 9.2% and 3.2% respectively. Comparing the growth of the closing balances at September 2003 and 2004, demand deposits were up by some 31.5% and savings deposits by 11%.

Operating Efficiency Ratio (%)

In 2Q04, results were impacted negatively as a result of additional provisions, mainly relating to IBNR and labor and civil contingencies. Disregarding these extraordinary events, the Operating Efficiency Ratio (accumulated for the 12-month period) would be 58.7% rather than 60.1%.

The Operating Efficiency Ratio (accumulated for the 12-month period) in 3Q04 was 58.3%, down by 0.4% as compared to the prior quarter adjusted by extraordinary events, prompted mainly by the combination of the strong commitment of the entire Bradesco management to the strict control of expenses and the increase in revenue for the quarter, especially in financial margin and commissions and fees.

The strict control of expenses, enhanced as a result of the creation of the Expenditure Appraisal Committee in March 2004, as well as the synergy process of acquired institutions, have had a positive effect on the Operating Efficiency Ratio.

Another initiative adopted for rationalizing expenditure was the implementation of the PROGRAMA BIS - DE OLHO NA ECONOMIA, exclusively focused on economic ideas and suggestions.

By Segment

At the end of the third quarter of 2004, 99.0% of the credit portfolio was directed to the private sector, remaining stable as compared with the prior quarter. By economic activity sector, manufacturing maintained the majority of credit volume, with a 30.8% share of total operations, particularly food and beverage, steel, metal products and mechanics. Credits directed to the service sector, including financial intermediaries, comprised 19.3%, whereas commerce and farming/livestock activities recorded a 15.9% and 1.8% portfolio share, respectively. Loans to consumers comprised 31.2% of the portfolio.

**Portfolio Performance**

The balance of credit operations in 3Q04 was compatible with economic activity for the quarter, reflecting the continued dynamic export performance and recovery of internal demand, strengthened by the expansion of income and employment, and recovery of consumer customer payment capacity.

As a result, the balance of Bradesco's consolidated credit portfolio at September 30, totaled R\$ 60.0 billion, an increase of 2.7%, as compared to June 30, or 13.6% when analyzed over the prior 12-month period.

For 4Q04, the rhythm of economic growth is expected to be maintained, especially considering seasonal year-end factors, with the increases in internal demand and private investment reflected in credit expansion.

**Composition of the Credit Portfolio by Risk Levels**

The classification and quality of the credit portfolio by risk level, at the end of September 2004, improved in comparison with the second quarter of 2004. AA to C rated operations, classified by BACEN as normal course operations, totaled 91.6% of portfolio balance, maintaining the trend for improvement, while 2.9% of operations were classified at risk administration level D and will remain so until this risk is reduced or guarantees with greater liquidity are obtained. Only 5.5% were considered to be abnormal course operations, subject to partial loss after the application of customary recovery procedures. The maintenance of these rates reflects the Bank's permanent use and enhancement of credit assessment and monitoring instruments.

- (1) On total portfolio.
- (2) For operations with installments overdue by more than 14 days.
- (3) Recorded based on the customer/transaction classification.
- (4) The additional provision is recorded based on management's experience and expected collection of the credit portfolio to determine the total allowance deemed sufficient to cover specific and general portfolio risks, as well as the provision calculated based on risk level ratings and the corresponding minimum provision requirements established by CMN Resolution 2682. The additional provision per customer was classified in the above table according to the corresponding risk levels.

The volume of the allowance for loan losses in September 2004 totaled R\$ 4,181 million, corresponding to 7.0% of total credit operations. However, of this amount, only 45.1% effectively comprises overdue operations (past due and falling due), and the remaining portion is recorded as a precaution only, based on the customers' internal classification (33.1%) or to cover specific and general portfolio risks (21.8%).

Credit Portfolio by Maturity - in millions of reais

The maturity of the normal course credit portfolio evidences a concentration of short-term credits, with 40.7% maturing in up to 90 days. However, over the prior 12-month period, operation terms have gradually lengthened, as a result of economic stability.

N.B. percentage rates are accumulated.

Movement of the Portfolio between September 2003 and 2004

The performance of the consolidated credit portfolio over the prior twelve months up to September 2004, despite the low level of economic activity, evidences the maintenance of the quality of the assets, in particular as a result of new borrowers, corresponding to an increase of 17.1%, compared to the balance of the credit portfolio up to September 2003.

Number of Policyholders - Thousand

Up to September 2004, the average number of customers grew by 15.3% compared to the same period in 2003.

In comparison with the same period in 2003, Bradesco Saúde maintained its outstanding market position, especially in the corporate health insurance segment (source: ANS). Brazilian consumers are increasingly convinced that Health and Dental Insurance are the best alternatives for meeting their medical, hospital and dental care needs. At present, Bradesco Saúde has more than 2.5 million customers.

The increasing number of policyholders employed by micro, small and medium companies, as well as major corporations that have contracted Bradesco Saúde, confirms the insurance company's high level of expertise and personalization in Corporate Insurance services, a distinct advantage in the Supplementary Health Insurance market.

Almost 12 thousand companies in Brazil have acquired Bradesco Health Insurance. Out of Brazil's 100 largest companies in terms of billings, 33 are Bradesco clients in the Health and Dental Health lines and out of the country's 50 largest companies, 28% are Bradesco Saúde clients. (source: Exame Magazine's Biggest and Best List, July 2004).

Finally, emphasis should also be given to the user-friendly nature of the Bradesco Saúde Portal ([www.bradescosaude.com.br](http://www.bradescosaude.com.br)), which, in addition to providing information on available products, also offers access to a number of services for policyholders, prospects and brokers.

Through August 2004, the Bradesco Insurance Group maintained its position as one of the main players in the Brazilian Basic Line Insurance market, with a significant 10.6% share of total market billings in this area.

In the Corporate Risk area, Bradesco maintained its position among Brazil's largest insurance companies.

In particular, emphasis should be given to the successful launching of Bradesco FLIGHT INSURANCE, which after only 6 months, has already secured R\$ 6 million in premiums, for some 70 aircraft.

Another highlight during the nine-month period was the launching of the SIGA Transport (Integrated Policy Management System) website, in March 2004, the wide market acceptance of which has given Bradesco a marked advantage in terms of negotiating power.

In the mass market insurance segment, focusing on the consumer and small and medium corporate segments, Bradesco maintained a significant number of customers, in particular, for the Bradesco Bilhete Residencial product, with 589,572 homes insured.

In the pursuit to always offer our customers best quality services, the launching of our new products made a substantial contribution to the results achieved during the period.

In the Auto/RCF line, the market was affected by intense competition, aggravated by slacking vehicle sales. During the period, we maintained our technically correct pricing policy, guaranteeing balanced portfolio results. Emphasis should also be given to the launching of our new pricing policy based on the policyholders' specific characteristics and maintenance of the differentiated services which add value to our products, such as discounts given through the nationwide customer service networks and autoglass repair, as well as the increase in the number of relationships with brokers which are carried out exclusively online via the Internet.

Bradesco's market share of the Auto/RCF portfolio up to August, 2004 was 16.3%.

Income from Plans and VGBL - Market Share (%)

Bradesco Vida e Previdência is Brazil's sole leader in complementary pension plans and VGBL, with a 34.7% share of the market, more than double that held by its nearest rival. Up to September 2004, plan income totaled R\$ 4.670 billion, a 24.0% growth rate compared to the same period in 2003.

Life Insurance Premiums - Market Share (%)

Income on premiums retained of R\$ 717 million accumulated up to September 2004 guaranteed Bradesco's leadership of the market with a 15.0% share. We highlight during the period the Vida Segura Bradesco and Vida Máxima Mulher Bradesco, products which strengthen the strategy designed to offer products to different market segments and facilitate access to life insurance to lower income bracket consumers.

Increase in Technical Reserves - In millions of reais

Total technical reserves in September 2004 of R\$ 27,059 million comprise R\$ 18,386 million for supplementary pension plans, R\$ 7,853 million for VGBL, R\$ 748 million for life and personal accident, R\$ 67 million for DPVAT and R\$ 5 million for retrocession.

Growth in Guaranteeing Assets of Technical Reserves - In millions of reais

The continuing increase in revenues and appropriate investment policy adjustments prompted a significant growth in the investment portfolios of Bradesco Vida e Previdência, thereby guaranteeing full coverage of technical reserves.

Pursuant to new legislation (SUSEP/DECON/GAB Circular Letter 5/04 of July 16, 2004), only the volume of guaranteeing assets necessary for covering technical reserves may be held under custody.

Pension Plan and VGBL Investment Portfolios - Market Share (%)

In August, the investment portfolios totaled R\$ 28,226 million, comprising almost half of market resources.

(1) Includes: Bradesco Capitalização and Atlântica Capitalização (formerly BCN Capitalização).

Bradesco Capitalização's outstanding position in the premium bond market is the result of its transparent operating policy, which is focused on the deployment of products in line with potential consumer demand.

The company holds a leadership position in two Brazilian states, according to the latest figures for August, 2004 published by SUSEP. The company's market share was as follows: 35.4% in Amazonas and 26.5% in São Paulo.

In pursuit of a bond which is suited to its customers' different profiles and budgets, a number of products were developed varying in accordance with the type of payment (single or monthly), contribution terms, regularity of draws (weekly or monthly) and related prize amounts. This phase brought the general public closer and consolidated the success of the popular Pé Quente (Lucky Bond) savings bond series.

Bradesco Capitalização was the first private savings bond company in Brazil to receive ISO 9002 certification and in December 2002 this certificate was upgraded to the 2000 Version ISO 9001:2000. This certification from Fundação Vanzolini attests to the management quality of Bradesco savings bonds and confirms the principles on which their creation was based: good products, good services and continuous growth.

Outstanding Savings Bonds with Transfer of Draw Participation Rights - Thousand

Total Outstanding Savings Bonds - Thousand

The outstanding savings bond portfolio also presented a significant increase of 112.81% compared to the same period in 2003, with more than 45 million outstanding bonds. Of this amount, 90.2% are certificates with Transfer of Draw Participation Rights, which were sold via partnership agreements with companies in different market segments, including Bradesco Cartões, Bradesco Vida e Previdência, Banco Finasa etc. Since the purpose of this type of savings bond certificate is to add value to partners' products or to provide incentives for customer payments, these are low-priced bonds sold with reduced terms and grace periods and at a lower unit purchase price.

## Edgar Filing: BANK BRADESCO - Form 6-K

The number of traditional bonds comprising 9.8% of the total portfolio, dropped slightly, as a result of the offer of single and monthly payment bonds at higher sales prices.

Profile

Banco Finasa operates in the retail sector, financing new and used vehicles, consumer durables, clothing, footwear and services, as well as personal loans, through Finasa Promotora de Vendas and from February 16, 2004, also through Promovel Empreendimentos e Serviços, which is Banco Zogbi's sales promotion company. Banco Zogbi was acquired by the Bradesco Organization, through Banco Finasa on November 6, 2003, together with Promovel, Zogbi Leasing and Zogbi Distribuidora de Títulos e Valores Mobiliários.

At the end of September 2004, Banco Finasa operated through 121 Branches distributed nationwide (Finasa Promotora de Vendas 52 and Zogbi Promovel 69), 31,046 registered service outlets, including 13,270 new and used vehicle dealerships and 17,776 stores selling different types of goods and services.

Customers served totaled some 1,835 thousand (Banco Finasa 1,071 thousand and Banco Zogbi 764 thousand).

Measured by Austin Rating, Banco Finasa obtained the maximum AAA rating for financial soundness and a Low Risk long-term rating.

Operating Performance

At September 30, 2004, consolidated assets totaled R\$ 8.0 billion, a growth rate of 8.1% compared to June 2004 and 64.7% compared to September 2003. Credit operations, before the allowance for loans losses, totaled R\$ 7.1 billion, a growth rate of 10.0% compared to June 2004 and 55.2% as compared to the same period in 2003. Of this total, R\$ 6.6 billion comprised the new and used auto financing portfolio, compared to R\$ 6.0 billion at June 30, 2004 and R\$ 4.5 billion in September 2003.

Auto-financing production for 3Q04 totaled R\$ 1.6 billion and R\$ 4.4 billion for the period between January and September, a growth rate of 59.8% as compared to the same period in 2003. During the nine-month period, operations for the financing of other assets and services totaled R\$ 626.0 million, compared to R\$ 110.8 million for the same period in 2003 and a personal loans were granted in the amount of R\$ 114.6 million, compared to R\$ 5.0 million, in the prior period, including in 2004 production in Banco Zogbi.

Banco Finasa reported third-quarter net income of R\$ 63.7 million, totaling R\$ 245.5 million for the nine-month period. Stockholders' equity at September 30, 2004 increased to R\$ 408.7 million.

We stress that income in the amount of R\$ 18.1 million was recorded for 3Q04, derived from the mark-to-market (MTM) adjustment of swap transactions, in compliance with Central Bank Circular 3082, which totaled R\$ 98.0 million for the period from January to September. These transactions are designed to hedge overall credit operations and were entirely successful from an economic viewpoint. However, from a formal standpoint, these transactions are not acceptable as hedges pursuant to the aforementioned legislation. As a result, the asset transactions to which they are a counter entry receive a different accounting treatment, ie, they are adjusted based on the rates established in the corresponding contracts, whereas swaps are marked to market.

Net income for the period is comprised as follows:

Corporate Restructuring

Bradesco made the following changes to the organizational structure of the Leasing companies:

- In July, BancoCidade Leasing Arrendamento Mercantil S.A. was merged into Banco Alvorada S.A.

- In September Bradesco BCN Leasing S.A. Arrendamento Mercantil was merged into Bradesco Leasing S.A. Arrendamento Mercantil (formerly Potenza Leasing).

Leasing Performance - Consolidated Bradesco

Bradesco's leasing operations are carried out through Bradesco Leasing S.A. Arrendamento Mercantil and Banco Finasa S.A.

At September 30, 2004, leasing operations brought to present value totaled R\$ 1.451 billion, with a balance of R\$ 18.4 million receivable in operating leases.

According to the Brazilian Association of Leasing Companies (ABEL), the Bradesco Organization leasing companies are sector leaders, with a 12.3% share of this market (base date: July 2004). This sound performance is rooted in its Branch Network integrated operations and the maintenance of its diversified business strategies in various market segments, in particular, the implementation of operating agreements with major industries, mainly in the heavy vehicle and machinery/equipment sectors.

### Operations

At September 30, 2004, a total of 108 thousand consortium quotas had been sold, with billings in excess of R\$ 3.3 billion, 17,349 participants had been selected by bid or draw and 10,537 items had been delivered to members comprising 564 groups. 78 new groups were formed in the third quarter of 2004.

The company uses all the facilities offered by the Bradesco Organization customer service network to commercialize the products offered, a distinct market advantage responsible for the rapid growth presented by the consortium purchase system segment. The extensive nature and security associated with the Bradesco brand name also favors the expansion of consortium plan sales.

### Mission

The company's mission is to manage consortium plans and groups for consumer and corporate purchasers regardless of whether they are Bradesco account holders or not, and to operate in the car, truck, tractor and combine harvester segment, as well as in real estate, maintaining excellent standards in the quality of the services offered and in consortium system practice, pursuant to regulations determined by the Brazilian Central Bank and in line with the Bradesco Organization's philosophy.

### Segmentation

The Bradesco Organization's entry into this segment is part of its strategy to offer the most complete range of product and services possible to its customers.

Providing all income brackets with the opportunity to purchase items through the consortium quota system, filling a market lacuna at accessible prices, especially considering, as regards the country's present housing deficit, real estate products.

### Representation

Within this segment, Bradesco plays a central role in providing Brazilians with the opportunity to acquire consumer durables and real estate. In this sector consumers can acquire apartments, houses, building plots or commercial offices.

From January to September 2004, Bradesco Consórcios sold a total of 62,751 quotas, with billings of R\$ 1.7 billion. Of this total, 36,015 are vehicle quotas, followed by 25,784 in real estate quotas sold during the period.

### Quotas sold in 2004

### Market leadership

Bradesco Consórcios maintained its leadership of the real-estate segment, according to information published by the Brazilian Central Bank, in August, with 36,001 active quotas.

This leadership position is the result of the efforts and motivation of our sales teams and the distribution force of our customer service network.

At the end of the third quarter, Bradesco Corretora maintained its outstanding position in the Capital Market.

We present below a summary of the main activities carried out during the third quarter of 2004:

Bradesco Corretora ended the quarter ranked 10th among the more than 90 brokerage firms operating in the São Paulo Stock Exchange (BOVESPA). During the period, services were provided to 20,341 investors and 65,389 buy and sell orders were carried out for a total financial volume of R\$ 3.7 billion. The Corretora participates with BOVESPA in the Bovespa vai até você campaign in an important effort to raise public awareness regarding the benefits of investing in the stock market.

Bradesco Corretora negotiated 640.5 thousand contracts in the Mercantile and Futures Exchange (BM&F) for a financial volume of R\$ 69.9 billion, ranking the Corretora 29th out of more than 80 participants. The Corretora has centered its efforts on the continued expansion of its business, as well as promoting the futures market. In the agricultural area, the Corretora acts directly in the country's main production centers, through visits, seminars and participation in agricultural fairs and expos. In conjunction with the BM&F, the company sponsored visits to the

## Edgar Filing: BANK BRADESCO - Form 6-K

exchange and Bradesco Corretora in São Paulo by investors from all over the country. At the same time, the company hosted numerous visits by farmers, teachers, opinion-makers and brokers from the physical commodities market.

Online web trading for the quarter totaled 60,783 orders with a financial volume of R\$ 355.2 million, comprising 5.3% of all Home-Broker operations carried out in BOVESPA and placing the Corretora fifth in the overall ranking. The customer base increased by 7.8% with more than 1,832 new customers registered during the quarter and more than 12,816 e-mails received.

As a result of its role in Public Offerings of Share Purchases, Special Operations, Stock Swapping Auctions and Privatization Auctions, Bradesco Corretora continues in its important market position, with a financial volume of R\$ 20.2 million for the quarter.

Bradesco Corretora offers an investment analysis service, operating in conjunction with Banco Bradesco's economic area, delivering main market performance reports, suggested stock portfolios and a comprehensive stock guide.

The company also offers a non-resident investor representation service for transactions carried out in the financial and capital markets, in accordance with the provisions of CMN Resolution 2689, of January 26, 2000.

Net income recorded for the quarter totaled R\$ 2.6 million.

Stockholders' equity at the end of the quarter increased to R\$ 76.4 million, corresponding to 57.3% of total assets of R\$ 133.2 million.

Bradesco Securities, Inc., a wholly owned subsidiary of Banco Bradesco, operates as a broker dealer in the United States. The company's activities are focused on the intermediation of share purchases and sales, with emphasis on ADR operations. The company is also authorized to operate with Bonds, Commercial Paper and Certificates of Deposit, among others, and to provide Investment Advisory services. This Bradesco initiative was motivated by more than 90 programs involving ADRs of Brazilian companies traded in New York and by the growing interest of foreign investors in the emerging markets and is designed to offer support for global economy investors who invest part of this flow in countries such as Brazil.

Banco Bradesco obtained Financial Holding Company status from the Board of Governors of the Federal Reserve System, on January 30, 2004, which will permit the expansion of Bradesco Securities activities.

This status, given based on a rigorous analysis of various aspects determined in US banking legislation, including Bradesco's high level of capitalization and the quality of its Management, will allow the Bank, either directly or through its subsidiaries, to operate in the US market, carrying out financial activities under the same conditions as local banks, in particular the following:

- Underwriting, private placement and market-making.
- Acquisitions, mergers, portfolio management and financial services (merchant banking).
- Administration of mutual fund portfolios.
- Sale of insurance.

Accordingly, Banco Bradesco has strengthened its role in the Investment Banking segment, increasing opportunities for exploiting various financial activities in the US market and contributing to the increase in the volume of transactions carried out with Brazilian companies.

Market Segmentation

Bradesco operates on a segmented service basis, seeking to match its different products and services to the different profiles and size of its target public. In line with a world market trend, Bradesco's structure permits the grouping together of customers with similar profiles facilitating

## Edgar Filing: BANK BRADESCO - Form 6-K

superior quality customer service, extending business opportunities with a greater focus on relationship actions.

### Retail Bradesco

Bradesco maintains its retail vocation, attending with high quality service all segments of the Brazilian population regardless of income bracket. The Bank has 15 million consumer and corporate customers, who carry out millions of transactions daily at our branches, banking service posts, Banco Postal post-office branches and correspondent banks, which comprise Brazil's largest Customer Service Network, providing easy and convenient services over extended hours.

In addition to the extensive service network, customers are offered the comfort of alternative service channels such as the Easy Phone (Fone Fácil) service and Internet Banking, which are already used for a significant portion of daily transactions.

Micro, small and medium-sized companies, as well as individuals, are given special attention through directed management.

The Retail segment also highlights the development of financial products, tailor made to meet the customers' profile in an ongoing effort to offer quality, agile and reliable service to all customers, in particular, bearing in mind the value of customer relations.

The main focus of this segment is directed towards meeting the diverse customer demands, which include the offer microcredit, onlending, foreign exchange and a complete range of financing products for individuals, which allied with the Bradesco brand name and nationwide Branch Network comprise an important source for increasing the Bank's results.

Significant investments in staff training, designed to qualify employees to provide a personalized and efficient customer service, seek to preserve relations and increase the customers' loyalty to the Bank.

Retail Bradesco also has a Digital Branch, operating in a virtual environment and via courier service. The Branch has a team of managers who attend customers regardless of location, from 8h00 to 20h00, 7 days a week.

### Bradesco Corporate Banking

Bradesco Corporate Banking's specialized structures are designed to provide the best possible service to 1,295 Economic Groups comprising its target market, segmented as follows:

**Corporate** - The structure devised to conduct the Bank's relationship with Brazil's major corporations employs specialized professionals who have a thorough working knowledge of the corresponding economic sectors and companies and as a result are capable of offering complete solutions with real added value, resolving problems in areas ranging from cash management and private pension plans to asset management, overseas trade and risk management.

**Infrastructure** - This unit is responsible for corporate relationships in the power, sanitation, transport and large-scale construction sectors, focusing on the development of structured solutions designed to meet specific sector needs, including the structuring of long-term financing, under the project finance regime, capital market and corporate finance, as well as other activities.

**Agribusiness** - This is a specialized structure formed to attend companies in this key economic segment, designed to provide product and service solutions in line with their specific corporate needs. As part of the Corporate Banking services, this area is able to operate throughout the production chain in the pursuit to implement feasible structured solutions.

**Asian Desk** - A partnership entered into with the UFJ Bank for the purpose of developing financial solutions, in the role of economic and financial advisor and main banker for companies interested in the commercial and financial flows between Brazil/Japan and Brazil/Asia.

**Euro Desk** - This unit is focused on the management of customers of Spanish origin and the development of financial solutions for Bradesco Corporate companies, prospecting business synergies in Europe, the U.S. and Latin America.

### Bradesco Empresas (middle market)

Bradesco's middle market segment, Bradesco Empresas, was created in April 2002, designed to offer quality corporate customer service for companies all over Brazil.

This segment targets middle market companies with annual billings from R\$ 15 million to R\$ 180 million.

## Edgar Filing: BANK BRADESCO - Form 6-K

The Bradesco Empresas service offers exclusively reserved Branches for its corporate customers in this segment, located in strategic areas.

This segment has 66 service outlets throughout Brazil distributed as follows: Southeast (41), South (16), Central West (4) Northeast (3) and North (2) with 15,982 corporate customers from the different production chain sectors.

The personalized service offered by Bradesco Empresas requires permanent investment in training for our Relationship Managers and the adaptation of the IT structure, designed to provide added value and consequently increase the Bank's share of this segment.

Since they are responsible for a maximum portfolio of 25 to 30 economic organizations, each Relationship Manager is able to focus on increasing business in the following areas: Loans, Investments, Foreign Trade, Derivatives, Cash Management and Structured Transactions.

### Bradesco Private Banking

Through its highly qualified and specialized staff, Bradesco Private Banking offers personalized advisory services to its high-wealth consumer customers, with a minimum of R\$ 1 million in funds available for investment, recommending the best available options for forming their portfolios, seeking to increase their wealth, in line with their objectives.

### Bradesco Prime

The target public comprises consumer customers with a monthly income of more than R\$ 4 thousand or with investments in excess of R\$ 50 thousand.

Bradesco's customers who are compatible with this profile are invited to join the Bradesco Prime segment.

Bradesco Prime Customers have access to an exclusive network comprising 172 Branches throughout Brazil, as well as to the extensive Bradesco Customer Service Network, including its nationwide branches and self-service network.

Bradesco Prime is designed to coordinate the Bank's commercial relationship with these segment customers, providing VIP facilities especially designed to provide comfort and privacy, personalized attendance by Relationship Managers, as well as differentiated products and services.

The Relationship Managers continually enhance their professional qualifications to ensure that all the financial needs of their customers are taken care of. Since portfolios are kept small, managers are able to dedicate special attention to each customer.

### Risk Management and Compliance

#### Activity and Structure

Risk management is becoming increasingly important, not only as a result of the global economy but also because of the complex services and products provided to communities. Accordingly, Bradesco is constantly enhancing its risk management related activities in the pursuit to incorporate best international practices.

At Bradesco, risk management is seen as a competitive advantage, which adds value to the Bradesco mark, since it provides the support required by the business areas for planning their activities, ensuring that resources are optimized and capital is allocated to the benefit of stockholders and society as a whole.

Aware that integrated risk management provides a competitive edge to activities, Bradesco formed the Risk Management Department in July 1998 which, subsequent to the incorporation of compliance functions in March 2002, became the Risk Management and Compliance Department - DGRC. In July 2003, the department gained a statutory department director and aggregating the activities related to credit risk and other initiatives already in place in other areas of the Organization, commenced the integrated management of credit, market, liquidity and operating risks and compliance functions (comprising money laundering prevention, internal controls, information security, validation of transactions and Brazilian Payments System risks).

## Edgar Filing: BANK BRADESCO - Form 6-K

### Organizational Structure of the Risk Management and Compliance Department:

The structure of the Risk Management and Compliance Department is designed not only to guarantee area independence but also to place greater focus on these important value-added activities, demonstrating the Organization's commitment to the implementation of best corporate governance practices, making every effort to invest in and build its risk management capabilities, since as well as its banking activities, Bradesco is extending risk analysis procedures to cover its equity related companies such as BRAM - Bradesco Asset Management and all the insurance companies (Life, Private Pension Plans, Health, Premium Bonds and other insurance), in respect of market and actuarial risks, consolidating a single risk management culture on an Organization-wide basis.

The Risk Management and Compliance Department is also responsible for coordinating compliance with the regulations to be issued by the Brazilian Central Bank relating to the New Capital Accord (Basel II) published by the Basel Committee in June 2004.

### The Bradesco Organization and the New Basel Capital Accord

Bradesco operates in sync with best market practices and guidance from the Basel Committee, anticipating dissemination by the Brazilian Central Bank of the rules to be applied in the local market, since it considers that these practices are strategic to the improvement of its internal management processes, reflecting competitive advantage in the conduction of its business.

### Risk Management Process

Bradesco adopts a comprehensive and integrated approach for managing all risks inherent to its activities, based on the support from its Internal Controls and Compliance structure. This integrated view permits the enhancement of its risk management models, filling possible lacunas which could jeopardize the correct identification and assessment of risks.

### Credit Risk Management

As part of its credit risk management enhancement process, Bradesco is working uninterruptedly to improve the procedures for gathering and controlling portfolio information, to develop new loss estimation models, enhance and prepare rating inventories used in the various sectors in which the Bank operates, oversee credit analysis, granting and settlement processes, to monitor credit concentration, to identify the causes of default and in the preparation of risk mitigation plans.

Efforts are focused on the adoption of advanced and robust models which are used to assess the risks inherent to all the components of the credit process, in line with best practices, as well as the recommendations of the most advanced models comprising the New Basel Capital Accord.

The following efforts, among others are highlighted:

- Mapping, measurement and identification of credit risk management capacity gaps, as regards Basel II requirements, as well the best practices, embracing roles and responsibilities, professional qualification, review of the organizational structure and IT demands.
- Creation of an Executive Credit Risk Committee responsible for assuring the strategic management of the credit operation portfolio.
- Structuring of the expected loss and capital allocation calculation system in line with Basel II requirements.
- Backtesting of models used to assess the credit portfolio risks.
- Improvement of the management information systems designed to meet the requirements of the present customer segmentation approach, with the emphasis on decision making and credit portfolio management.
- Review and restructuring of internal processes, embracing roles and responsibilities, capacity building, review of organizational structures and information technology demands.

### Credit Policy

Designed to ensure maximum security, quality and liquidity in the investment of assets, minimizing risks inherent to all types of credit operation, the Organization's Credit Policy also seeks to offer agile and profitable business, applying appropriate methodology for each of the Bank's business segments, as well as directing the establishment of operating limits and the granting of credit.

## Edgar Filing: BANK BRADESCO - Form 6-K

Credit is granted based on a highly automated and efficient approvals system, supported by assessment policies which are geared by constantly improving technical parameters designed to ensure proper support for credit decisions.

As part of this system, the Branches operate within varying limits depending on the size and type of guarantee offered, while specialized credit scoring systems maximize the speed and security of the approvals process, based on strict protection standards.

The credit committees located at the Bank's headquarters also play an important role, centralizing, analyzing and authorizing credit operations at amounts above the branch limits and managing this core strategic activity.

Operations are diversified, non-selective and focused on consumer and corporate customers with sound payment capacity and proven creditworthiness. Care is taken to ensure that the underlying guarantees are sufficient to cover the risks assumed, considering the purpose and terms of the credit granted.

### Methodology used for Credit Portfolio classification

In addition to supporting the establishment of minimum parameters for granting credit and managing risk, the credit risk scoring system established by the Brazilian Central Bank also facilitates the definition of differentiated credit policies based on the customer's specific characteristics and size, providing a basis for the correct pricing of operations and for establishing the most appropriate guarantees for each situation.

In accordance with internal policy, Bradesco Customer risk ratings are established on a corporate basis and are periodically reviewed to maintain the quality of the credit portfolio. These ratings are segmented as follows:

<b>Rating</b>	<b>Bradesco</b>	<b>% Provision</b>	<b>Concept</b>
AA	Excellent	0.0	Premium company/group, with size, tradition and market leadership, with excellent reputation and economic and financial position.
A	Very Good	0.5	Company/group with size, sound economic and financial position, acting in markets with good prospects and/or potential for expansion.
B	Good	1.0	Company/group which, regardless of size, has a good economic and financial position.
C	Acceptable	3.0	Company/group with a satisfactory economic and financial situation but with performance subject to economic scenario variations.
D	Fair	10.0	Company/group with economic and financial position in decline or unsatisfactory accounting information, under risk management.
E	Deficient	30.0	Abnormal course credit operations, classified based on expected loss as per percentage shown.
F	Bad	50.0	
G	Critical	70.0	
H	Uncollectible	100.0	

In the case of consumer customers, the above risk ratings are mainly defined based on their registered reference variables which include: income, equity, restrictions and indebtedness, as well as performance and past relationship with the Bank.

### Operating Risk Management

Operating risks are those inherent to activities which provide support for transactions in which the Organization participates and may occur as a result of the interruption of business, system failures, errors, omission, fraud or external events affecting both customers and the Institution.

The Organization is working to comply with future Brazilian Central Bank regulatory requirements, in line with the recent guidelines issued in the New Capital Accord by the Basel Committee in June 2004.

Operating risk is managed at Bradesco based on the dissemination of its culture, disclosure of its policies and development of own methodologies, models and tools designed to permit, among other benefits, the decrease in the allocation of regulatory capital to be subscribed in the pursuit of increased operating efficiency.

Bradesco, through its Operating Risk Management area, prepared a plan designed to achieve full compliance with the 10 principles of good operating-risk-management practice determined by the Basel Committee.

## Edgar Filing: BANK BRADESCO - Form 6-K

In line with the definition and development of the methodology and accounting and management criteria used for managing operating risk, the area has implemented a specific Internal Management System for streamlining this information, designed to administrate operating loss events, facilitating an in-depth assessment, based on either management or accounting controls.

The cutting-edge nature of this internal operating risk management process can be regarded as a benchmark of Bradesco's important status within Brazil's financial scenario, increasing its competitive edge as a result of greater operating efficiency and adding stockholder value, as well as extending its relationship of trust with customers, the market and regulatory bodies.

The mitigation of operating risk is considered crucial for improving efficiency and business quality.

### Market Risk Management

Market risk is related to the possibility of the loss of income from fluctuating rates caused by mismatched maturities, currencies and indices of the Institution's asset and liability portfolios. This risk is monitored on a strict basis by the financial market to avoid losses for institutions.

At Bradesco, market risks are managed through methodologies and models which are consistent with local and international market realities, ensuring that the Organization's strategic decisions are implemented with speed and a high level of reliability.

The Organization adopts a conservative policy regarding market risk exposure; V@R (Value at Risk) limits are defined by Senior Management, and compliance is monitored daily by an area which is independent from portfolio management. The methodology used to determine V@R has a reliability level of 97.5%. The volatilities and correlations used by the models are calculated on statistical bases and are used in processes based on future prospects in accordance with economic studies.

The methodology applied and current statistical models are validated daily using backtesting techniques.

In addition, a daily Gap Analysis is performed to measure the effect of the movement in the internal interest rate and foreign exchange coupon curves (interest spread paid above the foreign exchange variation) on the portfolio.

Complementing the market risk monitoring, control and management structure and in accordance with Central Bank regulations, a daily verification is made of the values at risk for the fixed and foreign exchange positions of the Organization's entire portfolio and of minimum capital requirements.

#### Liquidity Risk Management

Liquidity risk management is designed to control the different mismatched liquidation terms of the Institution's rights and obligations, as well as the liquidity of the financial instruments used to manage the financial positions.

Knowledge and monitoring of this risk are critical since they enable the Organization to settle transactions on a timely and secure basis.

At Bradesco, liquidity risk management involves a series of controls, mainly, the establishment of technical limits and an ongoing assessment of the positions assumed and financial instruments used.

#### Capital Risk Management

The Organization's capital is managed to optimize the risk to return ratio, minimizing losses through the implementation of well-defined business strategies and maximizing efficiency in the combination of factors which impact the Capital Adequacy Ratio (Basel).

**Compliance**

The Organization has developed a number of systems, policies and internal controls over the years to mitigate possible potential losses generated by its exposure to risk.

Aware of the importance of these controls, Bradesco has developed and implemented certain tools designed to optimize these processes and procedures, among which we highlight the following:

- Implementation of an internal controls system (Compliance), based on the pillars defined by Basel and the methodology of the Committee of Sponsoring Organizations (COSO), mainly as regards components in the following areas: control environment, risk assessment, control activities, information, communications and monitoring, ensuring that activities, policies and normative instructions are in constant compliance with legal and regulatory standards.
- Implementation of a Brazilian Payments System (SPB) management process for the specific purpose of monitoring the flow of messages transmitted between the Organization's banks and the external entities such as the Brazilian Central Bank, Special Clearance and Custody System (SELIC), clearing houses and other financial institutions. This monitoring process is based on Organization information system tools and intense staff training activities to facilitate the identification and rectification of events in environments and systems and also to ensure that online cash transfers (TEDs) processed via SPB are properly validated. Complementing these monitoring activities, the Bank also adopts a Systems Contingency Plan for SPB to cover the main departments handling critical transactions, addressing pre-established scenarios and actions and reducing the possibility of messages not being correctly processed.
- Employee training and ongoing improvement of technology tools used to monitor the financial activity of customers and designed to prevent money laundering and utilization of the Organization for processing illegal transactions.
- Dissemination of processes and procedures to guarantee information security, based on Corporate Information Security Policy and Standards, the guidelines of which establish premises for protecting the confidentiality, integrity and availability of information.

Credit Cards						

The number of Bradesco credit cards increased to 7.2 million in 3Q04, an increase of 5.9% as compared to 3Q03 (Visa and MasterCard banners).

The number of transactions accumulated from January to September grew by 20.6% compared to the same period in 2003. Billings for the period reached the mark of R\$ 8.3 billion, a growth rate of 16.3% as compared to the same period in 2003, and a market share of 13.8% of cards under the Visa and MasterCard banners.

In the Visa banner market, where Bradesco has more than 90% of its credit card base, accumulated billings grew by 23% in relation to 2003, as compared to market growth of 21.5%, a 0.3% increase in its market share of 21.1%.

### Debit Cards

In the third quarter of 2004, the debit card base increased by 17.6%, compared to the same period in 2003, confirming Bradesco's leadership as largest issuer in the Visa Electron market.

In terms of billings there was a significant 52.6% increase in comparison with 2003. These two indicators demonstrate clearly that Brazilians are changing their payment habits, substituting checks and cash for the use of cards, especially debit cards.

In 2004, the number of Bradesco card transactions grew by 48.6%, compared to the same period in 2003, against a growth rate of 44.6% by the Visa Electron market.

### Income on Credit Cards

Income derived from card services, accumulated from January to September 2004, totaled R\$ 723 million, a 20.9% increase, compared to the same period in 2003.

### Card Assets

In 3Q04, card assets comprising credits for installment purchase and financing credits grew by 16.9%, as compared to 3Q03, totaling R\$ 2.7 billion at the end of the quarter.

Underwriting Transactions

## Edgar Filing: BANK BRADESCO - Form 6-K

Up to September 2004, Bradesco coordinated important transactions with shares, debentures and promissory notes which totaled R\$ 7.099 billion, comprising 57.46% of all issues registered at the Brazilian Securities Commission (CVM).

Transactions with shares, comprised the following: public offer of primary market shares of Braskem S.A., in the amount of R\$ 1 billion and of CPFL Energia S.A., in the amount of R\$ 940 million, as well as a public offer of secondary market shares of Weg S.A., in the total amount of R\$ 320 million. Among the fixed income transactions we highlight: the public offer of debentures of Braskem S.A. in the amount of R\$ 1.2 billion, of Suzano Bahia Sul Papel e Celulose, in the total amount of R\$ 500 million, and of the São Paulo State Basic Sanitation Company SABESP, in the amount of R\$ 600 million.

### % Share of Transactions

Of the total number of floating and fixed-return transactions registered at CVM up to September 2004, Bradesco participated in 57% of primary and secondary share issues, in 37% of debenture issues and in 67% of promissory notes issues.

### Mergers, Acquisitions, Project Finance, Corporate Reorganization and Privatizations

In March 2004, ANBID published its Mergers & Acquisitions Ranking for 2003 in which Bradesco was rated segment leader for the 2nd consecutive year in number of transactions, with completion of a total of 8 operations.

### ANBID Mergers & Acquisitions Ranking December 2003

Ranking number of operations

<b>Consultants</b>	<b>Ranking</b>	<b>Operations</b>
<b>Bradesco</b>	<b>1<sup>st</sup></b>	<b>8</b>
JP Morgan	1 <sup>st</sup>	8
Unibanco	1 <sup>st</sup>	8
Citigroup	4 <sup>th</sup>	6

Continuing this trend, during the first 9 months of 2004, Bradesco signed 4 new powers of attorney, increasing its activity in the Financial Advisory Service and Merger/Acquisition segments.

Among these, we highlight the contract entered into by Bradesco and the Interamerican Development Bank BID, for structuring an Investment Fund, designed to obtain US\$ 500.0 million for investments in infrastructure.

Bradesco's presence is also notable in Project Finance operations, where it continues to act as a financial advisor to major corporations operating in electric power generation and co-related projects, as well as in the structuring of the corresponding financings.

### Structured Transactions

The Structured Transactions Area is responsible for the following:

- Development of structures used to segregate credit risks, through SPEs, Credit Acquisitions, Credit Assignment Funds (FIDCs) and Certificates of Real Estate Receivables (CRIs).

- Structuring of properly protected medium and long-term financings based on pre-defined cash flows pursuant to specific covenants and guarantees which minimize the risks of each transaction.

- Development of structured solutions designed to meet the specific needs of companies, such as: less working capital requirements, increased liquidity, optimization of financial and tax costs, compliance with legal technical limits/financial covenants, sale of permanent assets and structured financings; and

- Coordination of loan syndication processes, including the lengthening of refinanceable debts, structured by the Bank or third parties.

### Collection and Tax and Utility Collections

## Edgar Filing: BANK BRADESCO - Form 6-K

### Cash Management

Bradesco's cash management solutions comprise a portfolio of more than 40 products designed to meet public and private sector customer management needs in the areas of receipts, payments, human resources and administration, ensuring that their bank transactions are carried out with speed and convenience, in line with superior quality (ISO 9001:2000) and security (electronic certification and sound cryptography) standards.

The innovations have secured the preference of a growing number of customers from all market segments and niches in diverse locations and different activity fields, using latest-generation technology means for connecting the Bank and its customers. We highlight, in particular, the following products:

#### Receipt Solutions

##### Bradesco Online Collection

The high efficiency standards of Bradesco's online collection service generate confidence, minimizing costs and maximizing customer returns, covering all of their accounts receivable management needs. As a result of these features, Bradesco Collection is now market leader, generating other business opportunities for the Organization. Online collection is responsible for processing some 98% of all documents registered in the Bradesco collection portfolio.

#### Tax and Utility Collections

Developed based on high standards of efficiency and quality, Bradesco's tax and utility collections serve a dual purpose. On the one hand, they seek to provide customer satisfaction with appropriate and innovative solutions for the settlement of taxes, duties and contributions. On the other, they effectively interact with the different Government Departments in the federal, state and municipal spheres and with public utility concessionaires.

Bradesco's tax and utility collection services are noted for the speed and security of the data transmitted and amounts collected.

#### Payment Solutions

##### Net Empresa, Pag-For and PTRB (Online Tax Payments)

As part of the same efficiency commitment, Bradesco's payment solutions, deployed through the Net Empresa, Pag-For and PTRB products, meet all customer needs, facilitating supplier payments, tax settlements and electronic transfers, online or through the transmission of files with maximum speed and security.

### Business Processes

#### Alô Bradesco (Hello Bradesco)

The Hello Bradesco channel was created in April 1985, prior to the introduction of Brazil's National Consumer Defense Code and represents a pioneer service in the domestic financial system. It acts as the Organization's main Ombudsman and is structured to manage opinions, complaints, suggestions and praise from the Bank's customers and other users. In December 2002, this service obtained the NBR ISO 9002:1994 Quality Certificate, and subsequently, in June 2003, NBR ISO 9001:2000 certification.

#### NBR ISO 9001:2000 Quality Certificate

The Bradesco Organization has 56 products and services certified with this high-level distinction, confirming the Bank's commitment to assuring ongoing ease and convenience for its customers and banking service users in all of its activity areas.

#### Methodology for Mapping Processes

This methodology is designed to map the processes carried out by the Organization's different departments on a stage-by-stage basis which, in conjunction with the information on related products, services and activities, ensures that these processes are effectively analyzed in the pursuit for ongoing improvement, as well as providing the documentation required by the Internal Controls and Compliance System, the Bradesco Quality Management System based on the NBR ISO 9001:2000, the Activity-Based Costing System - ABC and Section 404 of the Sarbanes-Oxley Law.

#### Activity-Based Costing - ABC

Designed to support the Bank in its actions to improve processes and optimize production resources, practices recommended for decreasing costs, Bradesco adopts the Activity-Based Costing System - ABC which measures the cost and performance of its activities, resources and cost centers.

A thorough knowledge of the Bank's activities, as well as the correct measurement of the resources consumed by these activities, permit a more accurate analysis of the cost/benefit ratio of each of the Organization's productive processes and results centers.

We stress that as a result of the application of activity-based costing, the Bank is now meeting the following targets: improved allocation of costs to products, channels and customers; information for supporting studies on which the structuring and negotiation of bank charges are based; product, unit and customer profitability systems support; support for studies concerning outsourcing, incorporations and equipment sharing, as well as support for cost rationalization studies.

#### Activity-Based Management Program

The Bank has commenced implementation of Activity-Based Management, seeking to exploit the potential benefits of this cost management model which will rapidly lead to the prevention of costs and a pro-active approach regarding the identification of opportunities.

Accordingly, as processes are improved, operating performance can be seamlessly integrated with Bradesco's strategic objectives, designed to create and/or sustain the Bank's competitive advantages and add value both for customers and stockholders.

The future mission of Activity-Based Management is to provide permanent support to the planning and control of the Bank's business processes, ensuring that tactical and operational issues are continually improved, as well as supporting their strategic gearing.

#### Integrated Management System - ERP

For purposes of providing permanent and appropriate support for its operations and in the pursuit of improved results, as well as extending its capacity to manage the Organization's resources, Bradesco adopts one of the most modern concepts for integrating organizational processes, using SAP's Integrated Management System solution mySAP Business Suite.

The implementation of this system represents an innovation in the treatment of the value chain supporting Bradesco's financial industry, through the adoption of an approach which is focused on processes, people, organizational structure and technology.

Initially, the system will integrate processes in the Human Resources, Training, Purchases, Accounts Payable, and Property and Equipment areas, as well as the Accounting processes on which they are based. The areas integrated through this technology will be able to renew processes

## Edgar Filing: BANK BRADESCO - Form 6-K

and review organizational structures and some 75 thousand system users will be trained via in-class training and distance learning.

As a result of the implementation of the Integrated Management System, Bradesco will benefit most from the organization and standardization of the processes carried out in different areas, secure data processing, increased productivity and agile decision making, as well as decreased operating costs. These factors are crucial for the Organization's growth, especially in view of current financial area competition, prompting us to pursue increasingly effective management methods designed to ensure that all of Bradesco's business potential is properly leveraged.

### Expenditure Appraisal Committee

In the pursuit of enhanced cost control and the adoption of strategies, policies and measures designed to restrain expenditure, in March 2004, Bradesco created the Expenditure Appraisal Committee, responsible for monitoring administrative and personnel expenses as well as expenditure with capitalization and analyzing their origin with the related areas, seeking to obtain a maximum cost/benefit ratio.

The Committee, in sync with good Corporate Governance practices, is an important tool, as a result of its permanent activity and capacity to anticipate events, for improving and enhancing processes, capable of carrying out an in-depth analysis of Bradesco's costs, from all standpoints and producing savings which reflect positively on the Organization's results.

### Recognition

Bradesco was ranked first place for the sixth consecutive year in the list of the 100 largest private business organizations in Brazil, according to the 2004 edition of Exame magazine's Best and Biggest Guide. Bradesco Vida e Previdência was also ranked first place out of the 50 largest insurance companies by premium volume, according to the same magazine.

The Bank also assumed leadership of the Tier One Capital ranking among Latam banks, based on a study prepared in the UK by the specialized financial magazine The Banker.

Another important distinction was Bradesco's placement in the traditional list published by the US magazine Fortune Global 500, as the only Brazilian company among the 500 largest companies in the world.

For the third time running, Bradesco was rated Brazil's Best Fund Manager, according to Exame magazine's Best Investment Fund Guide, prepared in partnership with the São Paulo Business Management School, Fundação Getúlio Vargas (FGV). Bradesco also won the award for best foreign exchange fund manager, with 19 products obtaining the maximum rating.

Bradesco also comprised the list of the Best Companies in which to Work, published by the 2004 edition of Guia Exame based on a poll organized by Exame magazine, in partnership with the Great Place to Work Institute, among the Organization's employees.

Bradesco was rated Best Consumer Internet Bank in Brazil, by the UK magazine Global Finance, which analyzed and selected the best bank website in each country.

Bradesco also received the award for best listed company presentation in 2003, from the Association of Capital Market Investment Analysts and Professionals - Apimec.

Training

The Staff Training Department has created and provides specific professional capacity building and enhancement programs providing employees with technical knowledge and behavioral skills, which are in sync with the Organization's needs and market requirements.

Designed to provide ongoing improvement and quality staff training activities, this area is ISO 9001:2000 certified, guaranteeing that course requests are approved and that employees are satisfied with the programs offered and that training activities are efficient.

The desire to offer tools which permit employee self-development Organization-wide, prompted Bradesco to implement online training in January 2000. This system called TreiNet, offers 30 courses with 358,166 employee participations. In 2004, 5 more technical and 10 behavioral programs were made available.

In order to comply with related legislation, joint actions with the marketing area were required to promote internal-marketing campaigns encouraging staff to participate in courses covering money laundering prevention and internal controls via TreiNet. In addition, written material was distributed to all staff and 4 specific training films in video widely shown.

In compliance with Resolution 3158/03, of the National Monetary Council, preparatory programs for the compulsory Investment Product Certification Exam, were implemented by the Bank. These programs are specifically designed for our specialists in investments responsible for providing investment advice in the branch network and to institutional investors. During the period some 2,700 of our professionals successfully sat this exam.

For purposes of training branch employees in new retail segment strategies, we created the Bradesco Strategic Management program which addresses, among others, the presentation of business potential in the Bank's different activity areas, as well as the planning of actions designed to increase results, through the related sales of products and services. 2,469 employees took part in this program, including Regional and Branch

Managers.

From 1996, in partnership with educational institutions such as FIA, FIPE, FGV and Ibmec, 928 of the Organization's employees obtained MBAs or other post-graduate degrees and specialization courses. In September 2004, a group commenced studying for the Controller-MBA, in partnership with Fipecafi, com 30 participants, from diverse areas and 3 more groups commenced their MBAs in banking business (two in-class groups and one online group) for branch managers Organization-wide and developed in partnership with FGV - São Paulo and FGV - Rio de Janeiro, with 100 participants.

In the third quarter, training was also given in the products, services, operating systems and customer service areas, with 307 employee participations, in line with the incorporation process of Banco BEM.

During the period from January to September 2004, 1,033 courses were given in 10,520 groups, with 329,944 employee participations and a total of 3,870,053 hours spent in training, as well as investments of R\$ 36.7 million.

#### Sociocultural Events

In 3Q04, Bradesco gave support to a number of different social projects throughout Brazil. These consisted of cultural, regional, sector or professional venues, including trade fairs, seminars, conventions and community events.

Once again, Bradesco sponsored the VII Japan Festival in São Paulo, the most important cultural event held by Brazil's Japanese community. In commemoration of the city's 450th anniversary, the program schedule was expanded to include even more tourist and cultural attractions. The Bank also gave important support to the 15th Japanese-Brazilian Festival in Maringá, Paraná.

The Bank was also present at the Expointer International Livestock Fair in Esteio, Rio Grande do Sul, one of the most important events held by Brazil's agricultural industry, as well as at the traditional San Gennaro Feast organized by São Paulo's Italian community.

Bradesco Seguros continued its important support of the Série Dell Arte International Concerts at Rio de Janeiro's Municipal Theatre. Up to September concerts were given by the pianist Nelson Freire, Concerto Italiano, the Akademie Für Alte Musik, Emma Kirkby & The Romantic Chamber Group of London, Herold Quartet and Les Arts Florissants.

In the educational area, the Bradesco Foundation opened its first Computer Clubhouse, a center for digital inclusion where needy children from the Jardim Conceição neighborhood, in Osasco, can acquire skills in digital arts, music CD production and short films for website dissemination. Approximately 350 young people between the ages of 13 and 19 will be enrolled on these courses during the year.

#### Social Activities: Finasa Sports Program

The Bradesco Organization maintains its support of sports activities through the FINASA Sports Program (Programa Finasa Esportes), which completed 17 years of activity in 2004. Over this period, the program has become a benchmark in youth education, using the women's basketball and volleyball teams as an instrument for social inclusion and citizenship. At present, 3,832 girls from 10 to 16 years of age, participate in these sports at 79 training centers, 50 for volleyball and 29 for basketball, which are installed on the premises of state schools, at Osasco's city hall sports centers, at the Bradesco Foundation School, at the SESI unit and at 3 private schools, all located in the municipality of Osasco, in Greater São Paulo.

#### Fundação Bradesco - The Bradesco Organization's Social Arm

#### Background

The Bradesco Foundation, a not-for-profit entity, headquartered at Cidade de Deus, Osasco, SP, was founded in 1956 and declared to be of Federal Public Utility by Decree 86,238, on July 30, 1981.

## Edgar Filing: BANK BRADESCO - Form 6-K

Convinced that education lies at the roots of equal opportunity and personal and collective fulfillment, the Bradesco Foundation currently maintains 40 schools installed as priority in the country's most underprivileged regions, in all of Brazil's states and in the Federal District.

### Objectives and Goals

Through its pioneer action in private social investment, the Bradesco Foundation's chief mission is to provide formal, quality education to children, young people and adults, ensuring that they receive the qualifications required to achieve personal fulfillment through their work and the exercising of their rights and duties as citizens.

Accordingly, the Foundation has expanded its activities yearly, increasing the number of students matriculated in its schools from 13,080 to more than 105,000 over the last twenty-four years. The Bradesco Foundation schools offer education free-of-charge at pre, junior and high school levels, as well as basic professional and technical training in IT, electronics, industry, management and agriculture and livestock raising. Distance learning is also offered as part of its Youth and Adult Education programs.

### School Locations

The majority of the Foundation's educational units are located on the outskirts of major cities or in rural areas where there is a significant lack of educational and welfare assistance. Thousands of students in all four corners of Brazil are given the opportunity to study at the Foundation schools.

7 Independent Auditors Report

Independent Auditors Report on Special Review of Supplementary Accounting Information Included in the Report on Economic and Financial Analysis and Statement of Social Responsibility

---

To  
The Board of Directors and Stockholders  
Banco Bradesco S.A.  
Osasco - SP

We have performed a special review, in accordance with the specific rules established by IBRACON – Brazilian Institute of Independent Auditors jointly with the Brazilian Federal Accounting Council (CFC), of the consolidated interim report of Banco Bradesco S.A. and its subsidiaries for the nine-month periods ended September 30, 2004 and 2003, and have issued an unqualified report, dated October 27, 2004.

Our review was performed for the purpose of reviewing the consolidated interim report of Bradesco S.A. and its subsidiaries taken as a whole. In connection with our special review, we have performed a review of the supplementary accounting information included in the Report on Economic and Financial Analysis and in the Statement of Social Responsibility, presented exclusively for the purpose of additional analysis and is not a required part of the financial statements.

Based on our special review, we are not aware of any significant modifications that should be made to the supplementary account information for it to be presented adequately, in all material respects, in relation to the interim report taken as a whole.

8 Financial Statements, Report of the Fiscal Council and Independent Auditors' Report

Banco Bradesco S.A.  
Directors Report

To Our Stockholders,

We are pleased to present the financial statements for the period ended September 30, 2004, of Banco Bradesco S.A., as well as the consolidated financial statements, prepared in accordance with the requirements of Brazilian corporate legislation.

Among the important events for the quarter at the Bradesco Organization, we highlight the following:

- Adherence by Bradesco to the Equator Principles, assuming the commitment to consider a combination of environmental and social screening policies, developed by the International Finance Corporation (IFC), an arm of the World Bank, for purposes of financing projects of amounts in excess of US\$ 50 million.
- Transformation process of Promovel branches into Finasa outlets operating in the registration and forwarding of proposals for Consumer Financing and Personal Loans to Banco Zogbi.
- Conclusion on October 25, of the process to integrate Banco BEM S.A. with Bradesco, whereby all BEM branches were converted into Bradesco branches. This initiative optimized resources, combining specialized skills and a dedicated work force, ensuring that customers are offered top-quality products and services.

Bradesco reported net income of R\$ 2.002 billion, for the period from January 1 through September 30, 2004, corresponding to R\$ 12.66 per share and a return of 18.59% on closing stockholders' equity and 19.96% on average stockholders' equity, annualized. The annualized return on total assets was 1.5%, compared to 1.3% for the same period in 2003.

Taxes and contributions, including social security contributions, payable or accrued, on the main activities carried out by the Bradesco Organization for the first nine months of the year, amounted to R\$ 2.428 billion, or 121.27% of net income.

At September 30, 2004, the Operating Efficiency Ratio (IEO), accumulated over the prior 12 months, was 58.27%, compared to 60.10% in June 2004, as a result of the control over administrative expenses and increase in income.

Paid-up capital totaled R\$ 7 billion at the end of the quarter. Paid-up capital plus reserves of R\$ 7.678 billion comprised the total stockholders' equity of R\$ 14.678 billion, up by 13.19% compared to the same period in 2003 and corresponding to net equity per share of R\$ 92.81.

Managed stockholders' equity of R\$ 179.703 billion, corresponds to 8.21% of consolidated assets, a 9.33% increase as compared to September 2003. As a result, the capital adequacy ratios were 19.89% on a consolidated financial basis and 16.95% on a consolidated economic and financial basis and accordingly, above the 11% required minimum established by National Monetary Council Resolution 2099 of August 17, 1994, in conformity with the Basel Accord. At the end of the quarter, the ratio of permanent assets to stockholders' equity, in relation to consolidated reference equity was 42.73% on a consolidated financial basis and 24.22% on a consolidated economic and financial basis, accordingly, within the maximum 50% limit.

In compliance with the provisions of Article 8 of Brazilian Central Bank Circular 3068, of November 8, 2001, Bradesco declares that it has both the financial capacity and the intention to hold to maturity the securities classified in the securities held to maturity category.

With a growth rate of 12.47% compared to the same period in 2003, overall funding obtained by the Bradesco Organization amounted to R\$ 251.923 billion, at September 30, 2004 and comprised the following:

- R\$ 86.338 billion in demand, time and interbank deposits, open market and savings accounts.

## Edgar Filing: BANK BRADESCO - Form 6-K

- R\$ 90.171 billion in managed assets, comprising investment funds and customer portfolios.
- R\$ 35.476 billion in foreign exchange portfolio, borrowings and onlendings, own working capital, collection and tax and utility collections and similar, as well as funds from the issuance of securities and local subordinated debt.
- R\$ 31.585 billion recorded in technical reserves for insurance, private pension plans and savings bonds, a growth rate of 29.12% compared to the same period in 2003.
- R\$ 8.353 billion in foreign resources through public and private issues, subordinated debt and securitization of future financial flows, corresponding to a total of US\$ 2.922 billion.

At the end of the period, the balance of credit operations totaled R\$ 59.976 billion and includes the following:

- R\$ 5.618 billion in advances on foreign exchange contracts for a total portfolio of US\$ 3.185 billion in export financing.
- US\$ 519.319 million in foreign currency import financing.
- R\$ 1.451 billion in leasing.
- R\$ 5.955 billion in agricultural loans.
- R\$ 8.986 billion in auto financing.
- R\$ 7.408 billion in foreign and domestic onlendings, mainly comprising funds from the National Bank for Economic and Social Development (BNDES).

In the housing loan area, the Organization provided funds during the first nine months of the year for the construction and purchase of residential housing in the amount of R\$ 478.468 million, comprising 6,152 properties.

As part of its role in supporting the capitalization of companies, Bradesco was an important intermediary in the public placement of shares, debentures and promissory notes, with a total volume of R\$ 7.099 billion recorded since the beginning of the year, corresponding to 57.46% of all issues registered with the Brazilian Securities Commission (CVM). The Bank was also an important advisor in corporate and financial restructuring processes, mergers, acquisitions and project finance operations. The Bradesco Insurance Group, with an important role in the insurance, private pension plan and savings bond areas, reported net income of R\$ 576.277 million and stockholders' equity of R\$ 4.302 billion, at September 30, 2004. Overall premium attained R\$ 10.918 billion, up by 17.35% compared with the same period in 2003.

At the end of the quarter, the Bradesco Organization Network offered its customers and other users access to 12,630 service outlets, as well as 21,529 ATMs in the BDN Bradesco Day and Night Self-service Network, 18,400 of which also operate at weekends and on bank holidays and more than 204 ATMs in the Banco BEM S.A. customer service network:

3,049 Branches in Brazil (Bradesco 2,972, Banco BEM 76 and Banco Finasa 1).

6 Branches abroad, 1 in New York (Bradesco), 4 in Grand Cayman (Bradesco, BCN, Mercantil and Banco Boavista) and 1 in Nassau, Bahamas (Boavista).

6 Subsidiaries abroad (Banco Bradesco Argentina S.A. in Buenos Aires, Banco Bradesco Luxembourg S.A., in Luxembourg, Boavista Banking Ltd., in Nassau, Bradesco Securities, Inc., in New York, Bradesco Services Co., Ltd., in Tokyo and Cidade Capital Markets Ltd., in Grand Cayman).

5,299 Branches of Banco Postal post-office bank.

2,264 Banking service posts and outlets in companies (Bradesco 2,237 and Banco BEM - 27).

19 Advanced Banco BEM banking posts.

1,866 Outplaced terminals in the BDN Bradesco Day and Night Network.

## Edgar Filing: BANK BRADESCO - Form 6-K

121 Branches of Finasa Promotora de Vendas and Zogbi - Promovel Empreendimentos e Serviços Ltda. present in 13,270 vehicle dealerships and 17,776 stores selling furniture and decor, tourism, auto parts, IT-related equipment and software, DIY materials, clothing and footwear, among others.

In compliance with CVM Instruction 381, the Bradesco Organization declares that, during the quarter, no non-audit services were contracted or rendered by KPMG Auditores Independentes for an amount which exceeds 5% of the total external audit costs. This policy complies with internationally accepted principles designed to maintain the independence of external auditors and which determine that these auditors should not audit their own work, nor exercise management functions for their clients nor promote the interests of such clients. Each external audit is contracted for a maximum five-year period pursuant to Brazilian Central Bank regulations.

In the social field, the Organization's actions are focused mainly on the educational and welfare programs developed by Fundação Bradesco (the Bradesco Foundation) which, through its 40 schools installed as a priority in regions which are both socially and economically deprived, in all of Brazil's states and the Federal District, provide education completely free-of-charge. At present, there are more than 107 thousand students at the Foundation Schools, including those taking its youth and adult education equivalency courses and basic professional training programs. More than 50 thousand infant, junior, high and technical school students, also receive free meals, uniforms, school materials and medical/dental care.

In the human resources area, Bradesco's comprehensive staff training courses ensure that all employees are fully qualified to meet market demands. Through its intensive capability building program, the Bank prioritizes professional specialization, with increasingly positive results in the enhancement of its customer service and the effectiveness of its products and services. During the period, from January through September, 1,033 courses were given with 329,944 employee participations. The benefit plans designed to guarantee the well being, better life quality and security of employees and their dependents, covered 180,628 people at the end of the quarter.

All of these facts confirm Bradesco's commitment to offer nothing but the best. For this purpose, the support and trust of our stockholders and customers, as well as the dedicated work of our staff and other stakeholders, have been decisive. To all of them, we offer our sincere gratitude.

## Edgar Filing: BANK BRADESCO - Form 6-K

### 1) OPERATIONS

Banco Bradesco S.A. is a private-sector open-capital company which, operating as a multiple bank, carries out all types of authorized banking activities through its commercial, foreign exchange, investment, consumer financing, housing loan and credit card portfolios. The Bank also operates in a number of other activities through its direct and indirect subsidiary companies, particularly in leasing, consortium management, insurance, savings bond and private pension plan activities. Operations are conducted within the context of the companies comprising the Bradesco Group, which are jointly active in the market.

### 2) PRESENTATION OF THE FINANCIAL STATEMENTS

The financial statements of Banco Bradesco S.A. include the financial statements of Banco Bradesco S.A., its foreign branches and its direct and indirect subsidiaries and jointly controlled investments, in Brazil and abroad, and Special Purpose Entities (SPE) and were prepared based on accounting policies determined by Brazilian Corporation Law for the recording of operations, as well as the rules and instructions of the National Monetary Council (CMN), Brazilian Central Bank (BACEN), Brazilian Securities Commission (CVM), Superintendency of Private Insurance (SUSEP) and National Agency for Supplementary Healthcare (ANS), and comprise the financial statements of the leasing companies based on the capital leasing method of accounting, whereby leased assets are reclassified to the leasing operations account.

Accordingly, for preparation purposes, intercompany investments, asset and liability account balances, revenue, expenses and unrealized income were eliminated from these financial statements and, in the case of investments which are jointly controlled with other stockholders, asset, liability and income components were included in the consolidated financial statements in proportion to the parent company's percentage capital ownership of each investee. Goodwill on the acquisition of investments in subsidiaries and in the jointly controlled investments is presented in deferred assets and minority interests in net income and stockholders' equity are separately disclosed. Exchange variations arising from operations of subsidiaries and foreign branches were allocated to the statement of income accounts in accordance with the corresponding assets and liabilities from which they originated.

The financial statements include estimates and assumptions, such as the calculation of the allowance for loan losses, the estimation of the fair value of certain financial instruments, provision for contingencies, other provisions, the quantification of technical reserves for insurance, pension plans and savings bonds and the determination of the useful economic life of specific assets. Actual results could differ from these estimates and assumptions.

  - (29) Formerly Caulim Participações Ltda.
- 3) SIGNIFICANT ACCOUNTING POLICIES

### a) Determination of net income

Income and expenses are determined on the accrual basis of accounting. Transactions with prefixed rates are recorded at their redemption amounts and income and expenses for the future period are recorded as a discount to the corresponding asset and liability accounts. Income and expenses of a financial nature are prorated daily and calculated based on the exponential method, except when relating to discounted notes or to cross-border transactions, which are calculated on the straight-line method. Post-fixed or foreign-currency-indexed transactions are adjusted to the balance sheet date.

The insurance and coinsurance premiums and income on commissions, net of premiums assigned in coinsurance and reinsurance and corresponding expenses for commission, are appropriated to results upon issuance of the corresponding insurance policies and are deferred for appropriation on a straight-line basis over the terms of the policies, through the recording and reversal of a provision for unearned premiums and deferred selling expenses. The accepted coinsurance and retrocession operations are recorded based on the information received from other similar companies and the Brazilian Institute of Reinsurers (IRB), respectively.

The revenue from savings bonds is recognized at the time it is effectively received. The expenses for placement of bonds, classified as Selling Expenses, are recorded as they are incurred. Brokerage expenses are recorded at the time the savings bond revenue is effectively received.

The supplementary pension plan contributions are recorded in income at the time they are effectively received.

The corresponding expenses for technical reserves for private pension plans and savings bonds are recorded at the same time as the revenue therefrom is recognized.

### b) Interbank investments

Purchase and sale commitments subject to unrestricted movement agreements are adjusted to market value. Other assets are recorded at purchase cost, including accrued income up to the balance sheet date, net of loss accrual, where applicable.

### c) Securities

- Trading securities - securities which are acquired for the purpose of being actively and frequently traded are adjusted to market value as a counter-entry to results for the period.

- Securities available for sale - securities which are not specifically intended for trading purposes or as held to maturity, are adjusted to market value as a counter-entry to a specific account in stockholders' equity, at amounts net of tax effects.

## Edgar Filing: BANK BRADESCO - Form 6-K

- Securities held to maturity - securities for which there exists intention and financial capacity for maintenance through to maturity are recorded at cost, plus accrued earnings, as a counter-entry to results for the period.

### d) Derivative financial instruments (assets and liabilities)

These are classified based on management's intended use thereof on the date of the operation and whether it was carried out for hedging purposes or not.

The derivative financial instruments which do not comply with the hedging criteria established by BACEN, particularly derivatives used to manage general exposure to risk, are recorded at market values, with the corresponding mark-to-market adjustments taken directly to income for the period.

The derivative financial instruments used for protection against exposure to risk or for changing the characteristics of financial assets and liabilities and which are: (i) significantly co-related in relation to the adjustment of their market value to the market value of the hedged item, at both the start and over the duration of the contract; and (ii) considered to be effective in mitigating the risk associated with the exposure which is to be protected, are classified as hedges in accordance with their specific nature:

- Market risk hedge - the hedged financial assets and liabilities and the corresponding derivative financial instruments are recorded at market value, with corresponding mark-to-market adjustments recorded directly in income for the period.

- Cash flow hedge - hedged financial assets and liabilities and the corresponding derivative financial instruments are recorded at market value, with corresponding mark-to-market adjustments, net of tax effects, recorded in the stockholders' equity account. The non-hedged portion is recorded directly in results for the period.

### e) Credit and leasing operations, advances on foreign exchange contracts, other receivables and allowance for loan and leasing losses.

Credit and leasing operations, advances on foreign exchange contracts and other receivables are classified at their corresponding risk levels, in compliance with: (i) the parameters established by CMN Resolution 2682/1999 at nine levels from AA (minimum risk) to H (maximum risk); and (ii) management's risk level assessment. This assessment, which is carried out on a periodic basis, considers current economic conditions, and past loan loss experience, as well as specific and general risks relating to operations, borrowers and guarantors. The length of the delay in payment defined in CMN Resolution 2682/1999 is also taken into account for customer risk rating purposes as follows:

---

<b>Length of Delay</b>	<b>Customer Classification</b>
From 15 to 30 days	B
From 31 to 60 days	C
From 61 to 90 days	D
From 91 to 120 days	E
From 121 to 150 days	F
From 151 to 180 days	G
More than 180 days	H

The accrual of credit operations past due up to 60 days is recorded in income on credit operations and subsequent to the 61st day, in unearned income.

Past-due H-rated operations remain at this level for six months, subsequent to which time they are charged off against the existing allowance and controlled over a five-year period in memorandum accounts and no longer presented in the balance sheet.

Renegotiated operations are maintained at the same level of classification. Renegotiated operations, already charged off against the allowance and recorded in memorandum accounts, are classified at H level and any gains derived from such renegotiation, are recognized as revenue only upon effective receipt.

In the case of mortgage loans, the contractual capitalization period (monthly or quarterly) for income appropriation purposes complies with applicable legislation and end-borrower financings are adjusted to the present value of the installments receivable.

The allowance for loan losses is recorded at an amount considered sufficient to cover estimated losses and considers BACEN requirements and instructions, as well as Management's appraisal of the related credit risks.

### f) Income tax and social contribution (asset and liability)

## Edgar Filing: BANK BRADESCO - Form 6-K

Deferred income tax and social contribution, calculated on tax losses, negative basis of social contribution and temporary additions are recorded in the Other receivables - sundry account and the provision for deferred tax liabilities on excess depreciation and mark-to-market adjustments of securities is recorded in the Other liabilities - taxes and social security contributions account. Only deferred tax assets which have already acquired, or are about to acquire, tax deductibility rights are recorded on amortization of goodwill.

Deferred tax assets on temporary additions will be realized upon use and/or reversal of the corresponding provisions on which they were recorded. Deferred tax assets on tax losses and negative basis of social contribution will be realized as taxable income is generated.

The provision for federal income tax is calculated at the standard rate of 15% of taxable income, plus an additional rate of 10% for income over established limits. The provision for social contribution is recorded at the rate of 9% of pre-tax income. Provisions were recorded for other taxes and social contributions in accordance with specific applicable legislation.

### g) Technical reserves relating to insurance, pension plan and savings bond activities

#### Reserves for unearned premiums

These are recorded based on the retained insurance premiums deferred over the terms of the insurance contracts, in accordance with criteria established by SUSEP and ANS standards.

#### Reserves for benefits to be granted and benefits granted

Mathematical reserves comprise the amounts of the liabilities assumed under the form of income, pension and savings plans and are calculated based on the financial method determined in the contract, under the responsibility of a legally qualified actuary registered with the Brazilian Institute of Actuaries (IBA). The mathematical reserves comprise the present value of future benefits, estimated based on actuarial methods and assumptions. The reserve for benefits to be granted comprises participants whose receipt of benefits has not yet commenced and the reserve for benefits granted comprises participants who are currently receiving benefits.

#### Savings Bonds - mathematical reserves for redemptions and draws

These were recorded in conformity with the actuarial technical notes approved by SUSEP, based on a variable percentage applicable to the amounts of the savings bond certificates effectively received and are adjusted for price-level restatement.

#### Unsettled claims and IBNR

The reserve for unsettled claims is recorded based on the estimated payments of claims incurred, including claims which are under action at law, net of recoveries and adjusted for price-level restatement up to the balance sheet date. The reserve for claims incurred but not reported (IBNR) is calculated on an actuarial basis to quantify the volume and amounts of the claims incurred, but which have not yet been reported to the insurance companies by the policyholders/beneficiaries.

### h) Investments

Significant investments in subsidiary and associated companies and jointly controlled investments are recorded on the equity method. The financial statements of the foreign branches and subsidiaries are adjusted to comply with the accounting practices adopted in Brazil, translated into reais and their related effects recognized in income for the period.

The exchange membership certificates of Stock Exchanges, the Center for the Financial Clearance and Custody of Private Securities (CETIP) and the Mercantile and Futures Exchange (BM&F) were recorded at their unaudited net book values informed by the corresponding exchanges and fiscal incentives and other investments were recorded at cost, less the provision for loss, where applicable.

### i) Property and equipment in use

This is stated at cost, net of the corresponding accumulated depreciation, calculated on the straight-line method at rates which take into consideration the economic useful lives of the assets as follows: buildings in use - 4%; furniture and fixtures and machinery and equipment - 10%; data processing systems - 20% to 50%; and transport systems - 20% per annum.

### j) Deferred charges

## Edgar Filing: BANK BRADESCO - Form 6-K

Deferred charges are recorded at cost of acquisition or formation, net of the corresponding accumulated amortization of 20% to 50% per annum, calculated on the straight-line method.

Goodwill on the acquisition of investments in subsidiary companies, based on expected future results, is amortized at rates of 10% to 20% per annum and is presented on a consolidated basis in deferred charges.

k) Deposits and deposits received under security repurchase agreements

These are stated at the amount of the liabilities and include related charges up to the balance sheet date, on a daily pro rata basis.

l) Other assets and liabilities

The assets were stated at their realizable amounts, including, where applicable, related income and monetary and exchange variations (on a daily pro rata basis), less a provision for loss, when deemed appropriate. The liabilities include known or estimated amounts, plus related charges and monetary and exchange variations (on a daily pro rata basis).

- (1) Investments in fund quotas were distributed based on the securities comprising their portfolios, maintaining the fund category classification.
  - (2) Securities of Banco BEM, in the amount of R\$ 521,065 thousand, comprising mainly financial treasury notes, which were classified in securities held to maturity, were reclassified at June 30, 2004. Of this amount, R\$ 499,461 thousand was reclassified to trading securities, decreasing results by R\$ 6,648 thousand, net of tax effects and R\$ 21,604 thousand to securities available for sale, decreasing the specific stockholders' equity account by R\$ 3,667 thousand, net of tax effects, and in Banco Zogbi, equity securities in the amount of R\$ 5,033 thousand, classified as trading securities, were transferred to securities available for sale, with no effect on income, pursuant to BACEN Circular 3068, in line with the portfolio profile of Banco Bradesco, the new parent company of these banks.
  - (3) Investment fund and managed portfolio resources invested in purchase and sale commitments with Banco Bradesco, the investors in which are subsidiary companies, included in the consolidated financial statements.
  - (4) The number of days to maturity was based on the maturity of the securities, regardless of accounting classification.
  - (5) This column reflects book value subsequent to mark-to-market, except for securities held to maturity, whose market value is higher than book value by R\$ 884,072 thousand (September 30, 2003 - R\$ 447,855 thousand).
  - (6) The market value of securities is determined based on the market price practiced on the balance sheet date. In the event no market prices are available, amounts are estimated based on the prices quoted by dealers, on price definition models, quotation models or quotations for instruments with similar characteristics.
  - (7) In compliance with the provisions of Article 8 of BACEN Circular 3068, Bradesco declares that it has both the financial capacity and the intention to hold to maturity the securities classified in the securities held to maturity category. This financial capacity is evidenced in Note 7, which presents the maturities of asset and liability operations at the base date of September 30, 2004.

- (1) These consist of funds obtained from banks abroad and official institutions from the issuance of notes in the international market (Eurobonds) and under National Monetary Council (CMN) Resolution 2770 for: (i) onlending to local customers, repayable monthly through 2007, with interest payable semiannually at LIBOR or prime rate, plus a spread, and (ii) for financing exchange operations for customers, through purchase and sale of foreign currencies, discounts of export bills, pre-financing of exports and financing of imports, mainly on a short-term basis.
- (2) Securitization of money orders issued abroad and foreign credit card receivables

In 2003, the Organization entered into certain agreements designed to optimized its funding and liquidity management activities through the use of Special Purposes Entities (SPEs). These SPEs, Brazilian Merchant Voucher Receivables Limited and International Diversified Payment Rights Company, are financed through long-term obligations which are settled through the future cash flows of the corresponding assets.

These assets consist mainly of the following:

- (i) Current and future flows of money orders remitted by individuals and corporate entities located abroad to beneficiaries in Brazil for which the Bank acts as paying agent.
- (ii) Current and future flows of credit card receivables arising from expenses effected in Brazilian territory by holders of cards issued outside of Brazil.

The long-term notes issued by the SPEs and sold to investors will be settled through funds derived from the money order flows and credit card bills. Bradesco is obliged to redeem these notes in specific cases of default or if the SPEs operations are terminated.

## Edgar Filing: BANK BRADESCO - Form 6-K

The funds derived from the sale of current and future money orders and credit card receivables, received by the SPE, must be maintain in a specific bank account until such time as a specific minimum limit is attained.

20) CONTINGENT LIABILITIES

The Bradesco Organization is currently a defendant in a number of legal suits in the labor, civil and tax spheres, arising from the normal course of its business activities.

The provisions were recorded based on the opinion of the Organization's legal advisors, the types of lawsuit, similarity with previous suits and complexity, available jurisprudence and court sentences, whenever loss is deemed probable.

The Organization's Management considers that the provision recorded for contingencies is sufficient to cover possible losses generated by the corresponding legal proceedings.

Labor claims

These are claims brought by former employees seeking indemnity, especially, the payment of unpaid overtime. Following the effective control over working hours implemented in 1992, via electronic time cards, overtime is paid regularly during the employment contract and accordingly, claims on an individual basis subsequent to 1997 are no longer significant.

## Edgar Filing: BANK BRADESCO - Form 6-K

The provision for labor contingencies is recorded based on the average amount of the indemnities paid.

### Civil suits

These arise during the normal course of certain work routines and comprise claims for pain and suffering and pecuniary damages, mainly protests, bounced checks and the inclusion of debtors names in the restricted credit registry.

In general, the amounts under dispute are unlikely to affect financial results since more than 60% of new suits were brought at the small claims court, i.e., for amounts less than the maximum limit of 40 minimum wages. Moreover, some 50% of these suits are judged unfounded and the average cost of each indemnity is some 5% of the total amount claimed.

At present, there are no significant administrative suits in course, moved as a result of the lack of compliance with National Financial System regulations or payment of fines which could jeopardize the Bank's financial results.

### Tax proceedings

The Bradesco Organization is disputing the legality of certain taxes and contributions, for which provisions have been recorded in full, despite the likelihood of a successful medium and long-term outcome based on the opinion of their legal advisors.

The provisions recorded, segregated by legal sphere are as follows:

c) Interest attributed to own capital

Non-voting preferred shares are entitled to all rights and benefits attributed to common shares and in conformity with the Bank's statutes have priority to repayment of capital and 10% additional interest attributed to own capital and/or dividends, in accordance with the provisions of paragraph 1, item II of Article 17 of Law 6404, as amended by Law 10303.

In conformity with the Bank's statutes, stockholders are entitled to interest attributed to own capital and/or dividends which total at least 30% of net income for the year, adjusted in accordance with Brazilian corporate legislation.

Interest attributed to own capital is calculated based on the stockholders' equity accounts and limited to the variation in the long-term interest rate (TJLP), subject to the existence of profits, computed prior to the deduction thereof, or of retained earnings and revenue reserves in amounts

## Edgar Filing: BANK BRADESCO - Form 6-K

that are equivalent to or exceed twice the amount of such interest.

It is the Bank's policy to distribute, during the year, all the interest attributed to own capital, determined in conformity with the above criteria and to compute this interest for the minimum compulsory dividend, net of withholding tax (IRRF).

33) FINANCIAL INSTRUMENTS

a) Risk and risk management

The main risks related to financial instruments, arising from the business carried out by the Bank and its subsidiaries are as follows: credit risk; market risk; liquidity risk; and capital risk. Risk management involves an integrated series of controls and processes, embracing a range of different policies and strategies. These risk management policies are designed to limit possible loss for the Organization.

Credit risk

As part of its credit risk management enhancement process, Bradesco is working uninterruptedly to improve the procedures for gathering and controlling portfolio information, develop new loss estimation models, enhance and prepare rating inventories used in the various sectors in which the Bank operates, to supervise the processes used in credit analysis, granting and settlement, monitor credit concentration, identify the causes of default and to prepare risk mitigation plans.

Efforts are focused on the utilization of advanced and robust risk assessment models fully integrated with all the credit process components, in line with best practices and the recommendations established by the New Basel Capital Accord's most advanced models.

We highlight, among others, the following:

- Mapping, measurement and identification of credit risk management capacity gaps, as regards Basel II requirements, as well as best practices, embracing roles and responsibilities, professional qualification, review of the organizational structure and IT demands.
- Creation of an Executive Credit Risk Committee responsible for assuring the strategic management of the credit operation portfolio.
- Structuring of expected and unexpected loss, as well as the corresponding capital allocation.
- Backtesting of models used to assess the credit portfolio risks.
- Improvement of the management information systems designed to meet the requirements of the present customer segmentation approach, with the emphasis on decision making and credit portfolio management.
- Review and restructuring of internal processes, embracing roles and responsibilities, capacity building, review of organizational structures and information technology demands.

Market risk

Market risk is related to the possibility of the loss of income from fluctuating rates caused by the unhedged terms, currencies and indices of the Institution's asset and liability portfolios. This risk is closely monitored by the financial market to avoid loss for the institutions.

## Edgar Filing: BANK BRADESCO - Form 6-K

At Bradesco, market risks are managed through methodologies and models which are consistent with local and international market reality, ensuring that the Organization's strategic decisions are implemented with speed and a high level of reliability.

The Organization adopts a conservative policy regarding market risk exposure and V@R (Value at Risk) limits are defined by Senior Management, and compliance is monitored daily by an area which is independent from portfolio management. The methodology used to determine V@R has a reliability level of 97.5%. The fluctuations and correlations used by the models are calculated on statistical bases based on forward-looking processes in accordance with economic studies.

The methodology applied and current statistical models are validated daily using backtesting techniques.

We present below the V@R of positions derived from the Group's commercial transactions:

Risk Factors	At September 30 - In thousands of reais	
	2004	2003
Prefixed	3,153	12,658
IGP-M (General Price Index - Market)	7,885	-

Other	31	13
Correlated effect	(7,802)	(3,395)
<b>V@R (Value at Risk)</b>	<b>10,412</b>	<b>28,460</b>

In addition, a daily Gap Analysis is performed to measure the effect of the movement in the internal interest rate and foreign exchange coupon curves (interest spread paid above the foreign exchange variation) on the portfolio.

Complementing the market risk monitoring, control and management structure and in accordance with Central Bank regulations, a daily verification is made of the values at risk for the fixed and foreign exchange positions of the Organization's entire portfolio and of minimum capital requirements.

### Liquidity risk

Liquidity risk management is designed to control the different unhedged liquidation terms of the Bank's rights and obligations as well as the liquidity of the financial instruments used to manage the financial positions.

Knowledge and monitoring of this risk is critical since it enables the Organization to settle transactions on a timely and secure basis.

At Bradesco, liquidity risk management involves a series of controls, mainly, the establishment of technical limits and an ongoing assessment of the positions assumed and financial instruments used.

### Capital risk

The Organization's capital is managed to optimize the risk-return ratio, minimizing losses through the implementation of well-defined business strategies and maximizing efficiency in the combination of factors which impact the Capital Adequacy Ratio (Basel).

(1) Includes advances on foreign exchange contracts, leasing operations and other receivables.

(2) Not including increment in investments in associated companies.

Determination of market value of financial instruments:

- The market value of securities is determined based on the market price practiced on the balance sheet date. In the event no market prices are available, amounts are estimated based on the prices quoted by dealers, on price definition models, quotation models or quotations for instruments with similar characteristics
- Prefixed credit operations were determined by discounting estimated cash flows, using interest rates which are equivalent to interest rates applied by the Bank for new contracts with similar features practiced on the balance sheet date.
- Time deposits, funds for issuance of securities and borrowings and onlendings were calculated by discounting the difference between the cash flows under the contract terms and the rates practiced in the market on the balance sheet date.

a) Derivatives

Bradesco carries out transactions involving derivative financial instruments, which are recorded in balance sheet or memorandum accounts, for its own needs and for customers. The derivative financial instruments are used by the Bank to hedge its asset and liability positions against the effect of exchange variations. The derivatives generally represent future commitments for exchanging currencies or indices, or purchasing and selling other financial instruments according to the terms and dates set forth in the contracts. Under the option contracts, the purchaser is entitled, but not obliged, to purchase or sell a financial instrument at a specific strike price in the future.

### 34) EMPLOYEE BENEFITS

Banco Bradesco and its subsidiaries sponsor a supplementary retirement pension plan for employees and directors. This unrestricted benefits generating plan (PGBL) is of the defined contribution type, which permits the accumulation of savings by participants over their professional careers through contributions paid by themselves and the sponsoring company. The related resources are invested in an Exclusive Financial Investment Fund - FIFE.

The plan is managed by Bradesco Vida e Previdência S.A. and BRAM - Bradesco Asset Management S.A. DTVM is responsible for the financial administration of the FIFE funds

The contributions paid by employees and by Bradesco and its subsidiaries total 4% of salary, except for participants who in 2001 opted to migrate to the PGBL plan from the defined benefits plan and whose contributions to the PGBL plan were maintained at the levels in force for the defined benefits plan at the time of migration, respecting nevertheless the 4% minimum.

The actuarial liabilities of the defined contribution plan (PGBL) are fully covered by the net equity of the corresponding FIFE fund.

As well as the aforementioned defined contribution plan (PGBL), former participants of the defined benefits plan are guaranteed a proportional deferred benefit, corresponding to their accumulated rights in the latter plan. For participants of the defined benefits plan, transferred or not to the PGBL plan, retired participants and pensioners, the present value of the plan's actuarial liabilities is fully covered by guaranteeing assets.

Banco Baneb S.A. (into which Banco BEA S.A. was merged) maintains a supplementary pension plan managed by Caixa de Previdência dos Funcionários do BEA - CABEA, which is currently undergoing a sponsorship withdrawal process, with base date established at November 30, 2002 and whose sponsor's contributions ceased from December 1, 2002. The plan's actuarial liabilities are fully covered by the plan's net assets.

The subsidiary Banco Baneb S.A. and its subsidiaries are sponsors of supplementary pension plans of the defined contribution (PGBL) and defined benefits type, through Fundação Baneb de Seguridade Social - BASES (for former Baneb employees). The actuarial liabilities of the defined contribution and defined benefit plans are fully covered by the net assets of the plans.

Banco BEM S.A. sponsors supplementary pension plans of the defined benefit and defined contribution type, through Caixa de Assistência e Aposentadoria dos Funcionários do Banco do Estado do Maranhão - CAPOF. The actuarial liabilities of the defined benefit and defined contribution plans are fully covered by the net assets of the plans.

## Edgar Filing: BANK BRADESCO - Form 6-K
