**Notice to the Market**

**Upgrade of Bradesco's Corporate Governance Rating**

Banco Bradesco S.A. (Bradesco) announces to its shareholders, customers, employees and to the market in general that Austin Rating (Austin) raised the Bank's Corporate Governance Rating (CGR) from AA ("double A") to AA+ ("double A plus").

The CGR upgrade was prompted by the improvement and maturity of various corporate governance practices adopted by Bradesco since August 14, 2008, date of the last review carried out by Austin, as well as the establishment of internal management support bodies and new processes and policies.

The Rating AA+ (Excellent Corporate Governance Practices) strengthens the Bradesco's commitment with the continuous improvement of existing practices and with the introduction of new corporate governance actions that meet the interests of shareholders and other stakeholders.

The complete information on Bradesco's CGR upgrade is available on the Investors Relations website [www.bradesco.com.br/ir](http://www.bradesco.com.br/ir), in the Corporate Governance's page.

**FORWARD-LOOKING STATEMENTS**

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
