Item 2.05 Costs Associated with Exit or Disposal Activities.

In our periodic report on Form 10-Q for our quarter ended May 1, 2009, we announced that, as part of our ongoing efforts to streamline our operations and reduce costs, we had launched an initiative expected to reduce the size of our workforce in the Europe, Middle East, Africa (EMEA) region by 100 to 130 employees.

On August 10, 2009 our Board of Directors approved an expansion of this initiative to include further streamlining and realignment of operations in locations outside the EMEA region. The expansion of the initiative will impact employees in the United States, Latin America and the Asia Pacific region and is intended to better align our business with the changing macro-economic and market conditions in which we operate.

Through both the expansion of the initiative beyond the EMEA region as well as revised estimates of the amount of charges associated with our actions in EMEA, we estimate we will incur approximately an additional \$9 million of restructuring charges beyond those previously announced. These additional estimated charges bring the total estimated restructuring charges associated with the global initiative to between \$24-\$34 million. The estimated range is based on many factors, including estimates as to the number of employees at various locations who will cease to be employed by us and the compensation packages associated with the termination of their employment. Depending on local laws and practices, these charges will be incurred in connection with early retirement offers, voluntary resignations and other reductions in force.

The significant majority of the restructuring charges associated with the global initiative represents cash paid for severance and pension plan payments. The payments associated with these charges will be made over varying time periods based on individual circumstances as well as local laws and practices. We presently expect the actions associated with the expanded initiative will be completed during fiscal 2010.

Following the expansion of the initiative, we now expect workforce reductions to impact between 350 and 400 employees in various locations throughout our global organization.

For more information regarding the expanded initiative, refer to the press release furnished with this report as Exhibit 99.1.
