Item 7.01 Regulation FD Disclosure.

On February 16, 2011, The Williams Companies, Inc. ("Williams") issued a press release announcing that its board of directors approved pursuing a plan to separate its businesses into two stand-alone, publicly traded corporations. The plan provides for Williams to conduct an initial public offering of up to 20 percent of its interest in its exploration and production business ("New E&P") in the third quarter of 2011 and, in 2012, to complete a tax-free spinoff of its remaining interest in New E&P to Williams stockholders. Following the spinoff, Williams stockholders would own an interest in New E&P and in Williams, which will then own and operate North American natural gas pipeline and midstream infrastructure assets. Williams has engaged financial and legal advisors to assist with its pursuit of the plan of separation, which is subject to customary regulatory approvals, the receipt of a tax opinion from counsel and /or IRS rulings, the execution of intercompany agreements, finalization of the capital structure of the two corporations, final approval of Williams' board and other customary matters.

In such press release, Williams also announced its intention to increase its quarterly dividend by 60 percent to \$0.20 per Williams share, effective with the first quarter 2011, paid in June 2011. Williams is targeting an additional 10 percent to 15 percent increase for the quarterly dividends it will pay beginning in June 2012.

The press release is furnished as Exhibit 99.1 hereto and is incorporated herein by reference.

The information in this report (including Exhibit 99.1) is being furnished pursuant to Item 7.01, Regulation FD Disclosure. The information furnished is not deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, is not subject to the liabilities of that section and is not deemed incorporated by reference in any filing under the Securities Act of 1933, as amended.

Item 9.01 Financial Statements and Exhibits.
