Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F:  Form 20-F  Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934:  Yes  No

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): n/a

## Edgar Filing: Mechel OAO - Form 6-K

INDUSTRIAL WASHING OF ELGA SAMPLE CONFIRMS HIGH QUALITY OF DEPOSIT'S COKING COAL  
Moscow, Russia – December 13, 2011 – Mechel OAO (NYSE: MTL), one of the leading Russian mining and metals companies, announces that Southern Kuzbass Coal Company's washing plant produced first coking coal concentrate out of the Elga deposit's coal.

A sample lot of some 4,000 tonnes of Elga's coking coal was washed at Southern Kuzbass Coal Company OAO's Sibir plant. The concentrate obtained by industrial washing has qualities which rate the Elga deposit's coals with high-value grades of caking coals.

The concentrate produced at Sibir was sent to Mechel-Coke OOO for test industrial coking. Using coal of this quality allows production of coke with high structural durability, which in its turn helps improve technological and economic results of blast furnace production.

Results of the coking coal washing tests will enable a better understanding of the technological specifics of working with Elga coal. This information will be used in designing and constructing Elga Coal Complex's permanent washing plant. "Use of the Elga deposit's coking coal will provide Mechel's coke and chemical facilities with fully internally-sourced fuel, which will enable us to significantly improve our coke products' quality and guarantee our independence from external suppliers. Moreover, Elga Coal Complex's products will allow Mechel to increase exports of coal grades that are in demand," Mechel OAO's Chairman of the Board of Directors Igor Zyuzin noted.

Production at Elga Open Pit began in August 2011. In the first few months the open pit produced only oxidized coals, characterized as steam coals with high calorific value. Since August, the open pit produced some 200,000 tonnes of coal.
