State below in reasonable detail the reasons why Forms 10-K, 20-F, 11-K, 10-Q, N-SAR, or the transition report or portion thereof, could not be filed within the prescribed time period.

Ohr Pharmaceutical, Inc. (the “Company”) was unable to complete its Annual Report on Form 10-K for the year ended September 30, 2018 (the “Annual Report”) prior to the filing deadline for the Annual Report on December 31, 2018 as a result of the need to complete year end closing procedures and financial statement preparation, and a delay in completing the disclosures to be included in the Annual Report. As a result of this delay, the Company is unable to file its Annual Report by the prescribed filing date without unreasonable effort or expense.

The Company expects to file the Annual Report within the extension period of 15 calendar days as provided under Rule 12b-25 under the Securities Exchange Act of 1934, as amended.

The Company’s expectation regarding the timing of the filing of the Annual Report and the description of anticipated material changes from the results of operation from the corresponding period of the last fiscal year are forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995, and actual events may differ from those contemplated by these forward-looking statements. These forward-looking statements are subject to certain risks and uncertainties, including the inability of the Company or its independent registered public accounting firm to complete the work necessary in order to file the Annual Report in the time frame that is anticipated, or unanticipated changes being reported in the Company’s operating results as reported in the Annual Report as filed. The Company undertakes no obligation to revise or update any forward-looking statements to reflect events or circumstances after the date hereof.

For the fiscal year ended September 30, 2018, the Company had no revenues and expects operating expenses of approximately \$13.9 million. The expected loss from operations is expected to be comprised of \$4.3 million in research and development costs, \$3.6 million in general and administrative expenses, \$1.1 million in depreciation and amortization, \$0.7 million in loss on impairment of goodwill, \$5.3 million in loss on impairment of intangible assets, and \$1.2

million in gain on settlement of liabilities. During the same period for the year ended September 30, 2017, the Company reported no revenues and operating expenses of \$23,780,073 which was comprised of \$17,406,869 in research and development costs, \$5,278,272 in general and administrative expenses, \$1,165,689 in depreciation and amortization, and \$70,757 in gain on settlement of liabilities. The reduction in operating expenses in fiscal 2018 as compared to fiscal 2017 was primarily due to the completion of the MAKO clinical study and associated activities in the second fiscal quarter of 2018. Due to the significant decrease in stock value and the market capitalization of the Company relative to the value of the intangible assets and goodwill in fiscal 2018, the company performed an impairment test on the intangible assets and goodwill. The Company concluded goodwill was impaired and will record an impairment loss of approximately \$0.7 million in fiscal 2018 compared to \$0 in fiscal 2017. A third-party valuation on the company's intangible assets was performed and determined an impairment loss of approximately \$5.3 million in fiscal 2018 compared to \$0 in fiscal 2017.

For the fiscal year ended September 30, 2018, the Company expects other income, net items, totaling \$0.7 million as compared to \$(30,923) for the same period in fiscal 2017. This difference is primarily due to a gain from the sale of certain squalamine assets.

In fiscal 2018, the Company expects a gain on settlement of liabilities totaling approximately \$1.2 million compared to \$70,757 in fiscal 2017.

This increase is due to settlement activities related to the discontinuation of the squalamine program and elimination of severance payable to a former director. The

operating expenses of the Company decreased in fiscal year 2018 compared to fiscal year 2017 by approximately \$9.9

million. General and administrative expenses decreased in fiscal 2018 as compared to fiscal 2017 by approximately \$1.6

million. The decrease is primarily a result of a reduction in employee headcount and stock-based compensation. Research

and development expenses decreased in fiscal year 2018 as compared to fiscal year 2017 by

approximately \$13.1 million. The decrease is primarily a result of

significant costs paid in fiscal 2017 related to the MAKO study in

wet-AMD, and the settlement of accounts payable balances and long

term liabilities.

The net loss for the year
ended September 30, 2018
is expected to be
approximately \$13.2
million as compared to
\$23,810,996 for the same
period in 2017.
