**SCM Trust Notes to Financial Statements (Unaudited) October 31, 2017**

**NOTE 1 – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES**

The SCM Trust (the “Trust”), is registered under the Investment Company Act of 1940, as amended, as a diversified open-end management investment company. The Trust currently consists of five separate series, two of which are included in these financial statements. The SCM Trust is a Massachusetts business trust formed in July 1988.

The Shelton Tactical Credit Fund (“Tactical Credit Fund”) is an open-end, non-diversified series of the Trust. The inception date is December 16, 2014. The Fund’s investment objective is to seek current income and capital appreciation. Effective July 1, 2016, Shelton became the advisor to the Fund.

The Tactical Credit Fund is a successor to a series of the FundVantage Trust, a Delaware statutory trust, pursuant to a reorganization that took place after the close of business on March 17, 2017. Prior to March 17, 2017, the Successor Fund had no investment operations. As a result of the reorganization, holders of Class A Shares and Class C Shares of the Tactical Credit Fund received Investor Shares of the Shelton Tactical Credit Fund and holders of Advisor Class Shares received Institutional Shares of the Shelton Tactical Credit Fund.

The Shelton International Select Equity Fund (“International Select Equity Fund”) is an open-end, diversified series of the Trust. The inception date is July 31, 2009. The Fund’s investment objective is to achieve long-term capital appreciation by creating a portfolio composed of primarily large capitalization international equity growth stocks. Effective July 18, 2016, Shelton became the advisor to the Fund.

The International Select Equity Fund is a successor to a series of the FundVantage Trust, a Delaware statutory trust, pursuant to a reorganization that took place after the close of business on July 28, 2017. Prior to July 28, 2017, the Successor Fund had no investment operations. As a result of the reorganization, holders of Class A Shares of the International Select Equity Fund received Investor Shares of the Shelton International Select Equity Fund and holders of Class I Shares received Institutional Shares of the Shelton International Select Equity Fund.

The Trust follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946, “Financial Services – Investment Companies”.

(a) *Security Valuation* — Equity securities listed on a national or international exchange are valued at the last reported sales price. Futures contracts are valued at the settle price, depending on the exchange the contract trades on, typically as of 4:15 p.m., Eastern Time. Municipal securities are valued by an independent pricing service at a price determined by a matrix pricing method. This technique generally considers such factors as yields or prices of bonds of comparable quality, type of issue, coupon, maturity, ratings and general market conditions. U.S. government securities for which market quotations are readily available are valued at the mean between the closing bid and asked prices provided by an independent pricing service. U.S. agency securities consisting of mortgage pass-through certificates are valued using dealer quotations provided by an independent pricing service. U.S. Treasury Bills are valued at amortized cost which approximates market value. Securities with remaining maturities of 60 days or less are valued on the amortized cost basis as reflecting fair value.

Securities for which market quotes are not readily available from the Trust's third-party pricing service are valued at fair value, determined in good faith and in accordance with procedures adopted by the Board of Trustees. The Board has delegated to its Pricing Committee the responsibility for determining the fair value, subject to the Board oversight and the review of the pricing decisions at its quarterly meetings.

(b) *Federal Income Taxes* — No provision is considered necessary for federal income taxes. The Funds intend to qualify for and elect the tax treatment applicable to regulated investment companies under the Internal Revenue Code and to distribute all of their taxable income to shareholders.

(c) *Security Transactions, Investment Income and Distributions to Shareholders* — Security transactions are recorded on the trade date. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Withholding taxes on foreign dividends have been provided for, in accordance with the Trust's understanding of the applicable country's tax rules and rates. Distributions to shareholders are recorded on the ex-dividend date. Income distributions and capital gain distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to differing treatments for PFICs, wash sales, REIT adjustments and post-October capital losses.

Distributions received from investments in securities that represent a return of capital or capital gains are recorded as a reduction of cost of investment or as a realized gain, respectively. The calendar year-end amounts of ordinary income, capital gains, and return of capital included in distributions received from a Fund's investments in real estate investment trusts ("REITs") are reported to the Fund after the end of the calendar year; accordingly, a Fund estimates these amounts for accounting purposes until the characterization of REIT distributions is reported to the Fund after the end of the calendar year. Estimates are based on the most recent REIT distribution information available.

These "Book/tax" differences are considered either temporary (i.e., deferred losses, capital loss carry forwards) or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the composition of net assets based on their federal tax basis treatment; temporary differences do not require reclassification.

(d) *Foreign Currency Translation* — Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Trust does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments.

Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the company's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at fiscal period end, resulting from changes in exchange rates.

(e) The Fund aims to use related credit asset classes on both the long and short side to generate an attractive rate of return with low volatility. Portfolio construction is implemented with a relative value framework and looks across the entire balance sheet of a corporation from senior secured down through subordinated, equity-linked bonds. This hedged approach is designed to generate performance that is less reliant on the direction of the overall market than a typical credit-based fund.

(f) *Use of Estimates in Financial Statements* — In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, as well as the reported amounts of income and expense during the year. Actual results may differ from these estimates.

(g) *Share Valuations* — The net asset value (“NAV”) per share of each Fund is calculated by dividing the sum of the value of the securities held by the Fund, plus cash or other assets, minus all liabilities (including estimated accrued expenses) by the total number of shares outstanding of the Fund, rounded to the nearest cent. A Fund's shares will not be priced on the days on which the NYSE is closed for trading. The offering and redemption price per share of each Fund is equal to a Fund's NAV per share.

**SCM Trust Notes to Financial Statements (Unaudited) (Continued) October 31, 2017**

(h) *Accounting for Uncertainty in Income Taxes* — The Funds recognize the tax benefits of uncertain tax positions only where the position is “more likely than not” to be sustained assuming examination by tax authorities. Management has analyzed the Fund’s tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years (2013-2015), or expected to be taken in the Fund’s 2016 tax returns. The Fund identifies its major tax jurisdictions as U.S. Federal, however the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

(i) *Fair Value Measurements* — The Funds utilize various methods to measure the fair value of most of its investments on a recurring basis. U.S. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are:

**Level 1** – Unadjusted quoted prices in active markets for identical assets or liabilities that the company has the ability to access.

**Level 2** – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

**Level 3** – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund’s own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety,

is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following table summarizes the valuation of the Fund’s securities at October 31, 2017 using fair value hierarchy:

Fund	Level 1 <sup>(a)</sup>	Level 2 <sup>(a)</sup>	Level 3 <sup>(a)</sup>	Total
Tactical Credit Fund	\$911,852	\$22,089,766	(b) \$	—\$23,001,628
International Select Equity Fund	\$45,235,604	\$—	\$	—\$45,235,604
Total investments in securities	\$46,147,456	\$22,089,776	\$	—\$68,237,232

(a) It is the Fund’s policy to recognize transfers between levels on the last day of the fiscal reporting period.

(b) For a detailed break-out of Corporate Debt by major industry classification, please refer to the Portfolio of Investments.

## NOTE 2 - INVESTMENT MANAGEMENT FEE AND OTHER RELATED PARTY TRANSACTIONS

Shelton Capital Management (“Shelton Capital” or the “Advisor”), a California limited partnership, provides each Fund with management and administrative services pursuant to investment management and administration servicing agreements.

In accordance with the terms of the management agreement, the Advisor receives compensation at the following annual rates:

	Net Assets
Tactical Credit Fund	1.17%
International Select Equity Fund	0.74%

The Advisor contractually agreed to reduce total operating expense to certain Funds of the Trust. This additional contractual reimbursement is effective until March 20, 2018 for the Tactical Credit Fund and July 29, 2018 for the International Select Equity Fund, unless renewed. Reimbursement is subject to recoupment within three fiscal years following reimbursement. Recoupment is limited to the extent the reimbursement does not exceed any applicable expense limit and the effect of the reimbursement is measured after all ordinary operating expenses are calculated; any such reimbursement is subject to the Board of Trustees’ review and approval. Reimbursements from the Advisor to affected Funds, and the voluntary expense limits, for the period ended October 31, 2017 are as follows:

**Voluntary Expense Limitation**

<b>Fund</b>	<b>Institutional Shares</b>	<b>Investor Shares</b>	<b>Expiration</b>
Tactical Credit Fund	1.42%	1.67%	3/20/18
International Select Equity Fund	0.99%	1.24%	7/28/18

At April 30, 2017, the remaining cumulative unreimbursed amount paid and/or waived by the Advisor on behalf of the Funds that may be reimbursed was \$992,652. The Advisor may recapture a portion of the above amount no later than the dates as stated below.

<b>Fund</b>	<b>Expires 4/30/18</b>	<b>Expires 4/30/19</b>	<b>Expires 4/30/20</b>	<b>Total</b>
Tactical Credit Fund	\$45,147	\$359,405	\$315,415	\$719,967
International Select Equity Fund	\$—	\$—	\$272,685	\$272,865
<b>Total</b>	<b>\$45,147</b>	<b>\$359,405</b>	<b>\$588,100</b>	<b>\$992,652</b>

A Fund must pay its current ordinary operating expenses before the Advisor is entitled to any reimbursement of fees and/or expenses. Any such reimbursement is contingent upon Board of trustee review and approval prior to the time the reimbursement is initiated.

**SCM Trust Notes to Financial Statements (Unaudited) (Continued) October 31, 2017**

As compensation for administrative duties not covered by the management agreement, Shelton Capital receives an administration fee, which was revised on January 1, 2011. The administration fee is based on assets held, in aggregate, by the SCM Trust and other funds within the same “family” of investment companies managed and administered by Shelton Capital. The fee rates are 0.10% on the first \$500 million, 0.08% on the next \$500 million, and 0.06% on combined assets over \$1 billion. Administration fees are disclosed on the Statement of Operations.

Certain officers and trustees of the Trust are also partners of Shelton Capital. Gregory T. Pusch has served as the Chief Compliance Officer (“CCO”) of the Trust since March 2017. Mr. Pusch is also employed by Shelton Capital, the Advisor and Administrator to the Trust. The Trust is responsible for the portion of his salary allocated to his duties as the CCO of the Trust during his employment, and Shelton Capital is reimbursed by the Trust for this portion of his salary. The level of reimbursement is reviewed and determined by the Board of Trustees at least annually.

The SCM Trust adopted a Distribution Plan (the “Plan”), as amended (date), pursuant to Rule 12b-1 under the Investment Company Act of 1940, whereby the Advisor Shares of each Fund of the Shelton Funds pays the Distributor for expenses that relate to the promotion and distribution of shares. Under the Plan, the Advisor Shares of the Funds will pay the Distributor a fee at an annual rate of 0.25%, payable monthly, of the daily net assets attributable to such Fund’s Investor Shares. For the period of July 28, 2017 to October 31, 2017, the Distributor, an affiliate of Shelton, acted as the Funds' principal underwriter in a continuous public offering of the Institutional and Investor Shares of the International Select Equity Fund.

For the six months ended October 31, 2017, the following were paid:

Fund	Investor Shares 12b-1 Fees
Tactical Credit Fund	\$16,058
International Select Equity Fund	\$2,538

For the period of May 1, 2017 to July 28, 2017, Foreside Funds Distributors LLC provided principal underwriting services to for public offering of the Class I and Investor Class shares of the International Select Equity Fund.

Fund	Class I 12b-1
------	------------------

	Fees
International Select Equity Fund	\$2,639

**NOTE 3 - PURCHASES AND SALES OF SECURITIES**

Purchases and sales of securities other than short-term instruments for the period ended October 31, 2017 were as follows:

Fund	Purchases	Sales
Tactical Credit Fund	\$35,917,390	\$45,305,850
International Select Equity Fund	8,766,772	10,660,527

**NOTE 4 - TAX CHARACTER**

**Reclassifications:** Accounting principles generally accepted in the United States of America require certain components of net assets be reclassified between financial and tax reporting. These reclassifications have no effect on net assets or net asset value per share. For the year ended April 30, 2017, permanent differences resulting from different book and tax accounting for net operating losses, expiration of capital loss carryforwards and treatment of foreign currency gains have been reclassified. The reclassifications were as follows:

	Increase (Decrease)	Increase (Decrease)	Increase (Decrease)
	Paid-In Capital	Net Investment Income (Loss)	Accumulated Gain (Loss)
Tactical Credit Fund	\$ —	\$ 1,600	\$ (1,600 )
International Select Equity Fund	\$ —	\$ 241,174	\$ (241,174 )

**Tax Basis of Distributable Earnings:** The tax character of distributable earnings at April 30, 2017 was as follows:

	Undistributed Ordinary Income	Undistributed Long-Term Capital Gain	Capital Loss Carry Forwards	Unrealized Appreciation (Depreciation)	<b>Post October and Other Losses (b)</b>	Total Distributable Earnings
Tactical Credit Fund	\$ 168,748	\$ —	\$ (1,271,351 )	\$ 1,066,330	\$ (303,444)	\$ (339,717 )
	\$ 672,089	\$ —	\$ (63,120,184)	\$ 8,328,193	\$ —	\$ (54,119,902)

International Select  
Equity Fund

The difference between book basis and tax basis unrealized appreciation/(depreciation) is attributable primarily to wash sales and to the timing and recognition of income and gains for federal income tax purposes

**Elective Deferrals:** The Tactical Credit Fund has elected to defer \$303,444 of capital losses recognized during the period November 1, 2016-April 30, 2017. The International Select Equity Fund has not elected to defer any capital losses.

The Tactical Credit Fund and International Select Equity Fund did not elect to defer ordinary losses to the period ending April 30, 2018.

**SCM Trust Notes to Financial Statements (Unaudited) (Continued) October 31, 2017**

**Capital Losses:** Capital loss carry forwards, as of April 30, 2017, available to offset future capital gains, if any, are as follows:

**Distributions to Shareholders:** Income distributions and capital gain distributions are determined in accordance with income tax regulations, which may differ from U.S. generally accepted accounting principles. These differences are primarily due to differing treatments of income and gains on various investment securities held by each Fund, timing differences and differing characterization of distributions made by each Fund.

The tax character of distributions paid during are as follows:

Fund	Year	Return of Capital	Ordinary Income	Long-Term Capital Gains <sup>(a)</sup>	Total Distributions
Tactical Credit Fund	April 30, 2016	\$	—\$1,630,748	\$	— \$ 1,630,748
	April 30, 2017	\$	—\$2,263,666	\$	— \$ 2,263,666
International Select Equity Fund	April 30, 2016	\$	—\$5,610,353	\$	— \$ 5,610,353
	April 30, 2017	\$	—\$557,960	\$	— \$ 557,960

<sup>(a)</sup> The Funds designate Long-Term Capital Gain dividends pursuant to Section 852(b)(3) of the Internal Revenue Code for the year ended December 31, 2016.

Trustee deemed to be an “interested person” of the Trust, as defined in the Investment Company Act of 1940. Mr. \*Rogers is an interested person because he is the CEO of Shelton Capital Management, the Trust’s Advisor and Administrator.

**Board Approval of the Advisory Agreement (Unaudited)  
October 31, 2017**

The 1940 Act requires that the full Board and a majority of the Independent Trustees initially approve the Investment Advisory Agreement dated October 11, 2016 between SCM Trust and CCM Partners D/B/A Shelton Capital Management (“SCM”) (the “Investment Advisory Agreement”), with respect to each of the Shelton Tactical Credit Fund and the Shelton International Select Equity Fund (together, the “Funds”). At a meeting held in-person on June 28, 2016, the Board, including a majority of the Independent Trustees of SCM Trust, on behalf of each of the Funds, considered and approved the Investment Advisory Agreement with CCM Partners D/B/A Shelton Capital Management for an initial two-year period from the effective date of the Management Agreement with respect to each Fund.

Prior to the meeting, the Independent Trustees requested information from SCM. This information, together with other information provided by SCM, and the information provided to the Independent Trustees throughout the course of the year, formed the primary (but not exclusive) basis for the Board’s determinations as summarized below. In addition to the information identified above, other material factors and conclusions that formed the basis for the Board’s subsequent approval are described below.

**Information Received**

**Materials Received.** During the course of each year, the Independent Trustees receive a wide variety of materials relating to the services provided by Shelton to the other series of the Trust, and to funds advised by Shelton in a related trust for which the Board also serves. That information includes reports on each such fund’s investment results; portfolio composition; third party fund rankings; investment strategy; portfolio trading practices; shareholder services; and other information relating to the nature, extent and quality of services provided by Shelton to those funds. In addition, the Board requests and reviews supplementary information that includes materials regarding each such fund’s investment results, advisory fee and expense comparisons, the costs of operating those funds and financial and profitability information regarding Shelton (the principal business activity of which is managing the funds), description of various functions such as compliance monitoring and portfolio trading practices, and information about the personnel providing investment management services to each fund. As such, the Board, and the Independent Trustees, are acquainted with Shelton and its performance of investment management services for registered investment companies. For the meeting at which the Advisory Agreement was approved, the Independent Trustees requested information regarding Shelton’s financial condition and profitability, services, operations and personnel, and compliance procedures.

**Review Process.** The Board received assistance and advice regarding legal and industry standards from independent legal counsel to the Independent Trustees. The Board discussed the approval of the Investment Advisory Agreement both with Shelton representatives and in a private session with independent legal counsel at which representatives of Shelton were not present. In deciding to approve the Investment Advisory Agreement, the Independent Trustees considered the total mix of information requested by and made available to them and did not identify any single issue

or particular information that, in isolation, was the controlling factor. This summary describes the most important, but not all, of the factors considered by the Board.

### **Nature, Extent and Quality of Services**

The Board considered the depth and quality of Shelton's investment management process; the experience, capability and integrity of its senior management and other personnel; operating performance and the overall financial strength and stability of its organization. The Board also considered that SCM made available to its investment professionals a variety of resources relating to investment management, compliance, trading, performance and portfolio accounting. The Board further considered SCM's continuing need to attract and retain qualified personnel and, noting SCM's additions over recent years, determined that SCM was adequately managing matters related to the existing series of the Trust and would be expected to make appropriate investments for the Funds. Because each of the Funds employs the same investment strategy of the predecessor funds and the same key management personnel, the nature and quality of the management of each Fund is expected to reflect that of the predecessor fund. This, in turn, assisted the Board in reaching a conclusion that the nature, extent and quality of Shelton's services were such as to warrant approval of the Investment Advisory Agreement.

The Board considered, in connection with the performance of its investment management services to the other series of the Trust, and the services to be provided to the Funds, the following: SCM's policies, procedures and systems to ensure compliance with applicable laws and regulations and its commitment to these programs; its efforts to keep the Board informed; and its attention to matters that may involve conflicts of interest with the Funds. As a point of comparison, the Board also considered the nature, extent, quality and cost of certain non-investment related administrative services provided by SCM to the Funds under the administration servicing agreements.

The Board concluded that SCM had the quality and depth of personnel and investment methods essential to performing its duties under the Investment Advisory Agreement, and that the nature, extent and overall quality of such services are satisfactory and reliable.

### **Investment Performance**

The Board considered that there was no performance history at the time of the meeting for the Funds.

### **Management Fees and Total Operating Expenses**

The Board reviewed the proposed management fees and proposed total operating expenses of each Fund with SCM, and compared such amounts with the management fees and total operating expenses of other funds in the industry. The Trustees considered both the gross advisory fee rates, as well as the effective advisory rates proposed to be charged by SCM after taking into consideration the expense limitation arrangements and voluntary fee waivers. The Board noted that the total net management fees charged to each Fund, after taking into account these expense limitations and voluntary waivers, appeared to be competitive with comparable funds. The Trustees noted the Funds would be paying for certain administrative services provided to the Funds by SCM under the fund administration servicing agreement that would take effect upon the transition of the Funds to the SCM Trust.

#### **Adviser, Costs, Level of Profits, Economies of Scale and Ancillary Benefits**

The Board reviewed information regarding SCM's anticipated costs of providing services to the Funds, as well as the resulting level of profits to SCM. The Independent Trustees received financial and other information from SCM, in addition to a representation from SCM that its profits were not excessive and that SCM's profitability was low by industry standards. The Board noted its intention to monitor assets under management, and the resulting impact on SCM's profitability, in order to ensure that SCM has sufficient resources to provide the services that shareholders in the Funds require. The Board considered SCM's need to invest in technology, data services, infrastructure and staff to provide the expected quality of investment advisory services to the Funds. The Board also noted that SCM has contractually agreed to limit its advisory fees on the Funds so that those Funds do not exceed their respective specified operating expense limitations. Such voluntary fee limitations may be decreased or eliminated at the option of SCM in the future, a factor that was also considered by the Board. The Board considered possible indirect benefits that may accrue to SCM as a result of the acquisition, and concluded that it was very difficult to determine whether any such benefits would accrue before the Funds have experienced any meaningful operating history. Nevertheless, in connection with its governance of the other series of the Trust, the Board regularly receives financial information regarding SCM and the compensation and benefits that SCM derives from its relationship with that fund, and noted that SCM does not presently receive substantial indirect benefits from managing the other series of the Trust (one example of an indirect benefit is research paid for by Fund brokerage commissions – SCM currently does not utilize soft-

dollar arrangements or enjoy the benefit of such arrangements). On the basis of the foregoing, together with the other information provided to it at the June 28th, 2016 meeting and throughout the year, the Board concluded that the advisory fee to be charged to each Fund was reasonable in relation to the services to be provided.

**Conclusions**

Based on their review of the totality of the circumstances and relevant factors, the Board's decision to approve the proposed Investment Advisory Agreement reflected its determination that, based upon the information requested and supplied, SCM's proposal to establish and maintain each Fund, and its past performance and actions in providing services to other mutual funds (which the Board has found to be satisfactory), provide a reasonable basis to support the business judgment to approve the proposed Investment Advisory Agreement and other proposed arrangements.
