Notes to Consolidated Financial Statements  
(unaudited)

1. Basis of Presentation

The accompanying unaudited, consolidated financial statements of SPAR Group, Inc., a Delaware corporation ("SGRP"), and its subsidiaries (together with SGRP, collectively, the "Company" or the "SPAR Group") have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included in these interim financial statements. However, these interim financial statements should be read in conjunction with the annual consolidated financial statements and notes thereto for the Company as contained in the SGRP's Annual Report for 2012 on Form 10-K for the year ended December 31, 2012, as filed with the Securities and Exchange Commission (the "SEC") on April 2, 2013 (the "2012 Annual Report"), and SGRP's Proxy Statement for its 2013 Annual Meeting of Stockholders as filed with the SEC on April 19, 2013 (the "2013 Proxy Statement"). The Company's results of operations for the interim periods are not necessarily indicative of its operating results for the entire year.

2. Business and Organization

The Company continues to focus on expanding its merchandising and marketing services business throughout the world.

The Company's Domestic Merchandising Services Division provides nationwide merchandising and other marketing services throughout the United States of America primarily on behalf of consumer product manufacturers and retailers at mass merchandisers, office supply, grocery, drug store, independent, convenience and electronics stores. Included

4. Credit Facilities

Domestic Credit Facility:

SGRP and certain of its domestic subsidiaries, namely SPAR Marketing Force, Inc., National Assembly Services, Inc., SPAR Group International, Inc., SPAR Trademarks, Inc., and SPAR Acquisition, Inc. (each a "Subsidiary Borrower", and together with SGRP, collectively, the "Borrowers"), entered into a Revolving Loan and Security Agreement dated as of July 6, 2010 (the "Loan Agreement"), with Sterling National Bank and Cornerstone Bank as the lenders (the "Lenders"), and issued their Secured Revolving Loan Notes in the original maximum principal amounts of \$5.0 million to Sterling National Bank and \$1.5 million to Cornerstone Bank (the "Notes"), to document and govern its new credit facility with them (the "Sterling Credit Facility"). In June 2011, the maturity date of the Sterling Credit Facility was extended until July 31, 2013. The Sterling Credit Facility was amended effective as of July 1, 2012 (the "Second Sterling Amendment"), to: (1) increase the maximum available revolving loan amount to \$6.5 million from Sterling National Bank and remove Cornerstone Bank as a lender, (2) reduce the interest rate to prime plus three quarters of one percent (3/4%) per annum, and (3) release and discharge each Guarantor as noted below. Effective January 1, 2013, the Sterling Credit Facility was further amended (the "Third Sterling Amendment") to reduce the interest rate to the Prime Rate (as that term is defined in the Loan Agreement) plus one quarter of one percent (1/4%) per annum (instead of the higher rate that was provided under the Second Sterling Amendment), which interest rate automatically changes with each change in such Prime Rate.

In the Second Sterling Amendment, Mr. Robert G. Brown and Mr. William H. Bartels were released and discharged by Sterling from their Limited Sterling Guaranty.

SPAR Group, Inc. and Subsidiaries  
Notes to Consolidated Financial Statements  
(unaudited) (continued)

Revolving Loans of up to \$6.5 million are available to the Borrowers under the Sterling Credit Facility based upon the borrowing base formula defined in the Loan Agreement (principally 85% of "eligible" domestic accounts receivable less certain reserves). The Sterling Credit Facility is secured by substantially all of the assets of the Borrowers (other than SGRP's foreign subsidiaries, certain designated domestic subsidiaries, and their respective equity and assets).

Due to the requirement to maintain a lock box arrangement with the Agent and the Lenders' ability to invoke a subjective acceleration clause at its discretion, borrowings under the Sterling Credit Facility will be classified as current.

The Sterling Credit Facility contains certain financial and other restrictive covenants and also limits certain expenditures by the Borrowers, including, but not limited to, capital expenditures and other investments.

International Credit Facilities:

In October 2011, SPARFACTS Australia Pty. Ltd. replaced the Commonwealth Bank line of credit with a new receivables based secured line of credit facility with Oxford Funding Pty Ltd. for \$1.2 million (Australian) or approximately \$1.3 million (based upon the exchange rate at March 31, 2013). The facility provides for borrowing based upon a formula as defined in the agreement (principally 80% of eligible accounts receivable less certain deductions). The agreement technically expired on October 31, 2012, but is being extended from month to month at the Company's request. SPARFACTS is in the process of negotiating new financing.

SPAR Canada Company, a wholly owned subsidiary, has a secured credit agreement with Royal Bank of Canada providing for a Demand Operating Loan for a maximum borrowing of \$750,000 (Canadian) or approximately \$737,000 (based upon the exchange rate at March 31, 2013). The Demand Operating Loan provides for borrowing based upon a formula as defined in the agreement (principally 75% of eligible accounts receivable less certain deductions) and a minimum total debt to tangible net worth covenant.

The Japanese subsidiary, SPAR FM Japan, Inc., a wholly owned subsidiary, has secured a loan with Mizuho Bank in the amount of 20.0 million Yen (Japanese), or approximately \$212,000. The loan is payable in monthly installments of 238,000 Yen or \$2,500 at an interest rate of 0.1% per annum with a maturity date of February 28, 2018. The outstanding balance at March 31, 2013, was approximately 14 million Yen or \$149,000 (based upon the exchange rate at March 31, 2013).

SPAR Group, Inc. and Subsidiaries  
Notes to Consolidated Financial Statements  
(unaudited) (continued)

Management believes that based upon the continuation of the Company's existing credit facilities, projected results of operations, vendor payment requirements and other financing available to the Company (including amounts due to affiliates), sources of cash availability should be manageable and sufficient to support ongoing operations over the next year. However, continued international losses, delays in collection of receivables due from any of the Company's major clients, or a significant reduction in business from such clients could have a material adverse effect on the Company's cash resources and its ongoing ability to fund operations.

#### 5. Capital Lease Obligations

The Company has five outstanding capital lease obligations with interest rates ranging from 4.5% to 13.2%. The related capital lease assets balances are detailed below (in thousands):

Start Date:	Original Cost	Accumulated Amortization	Net Book Value at March 31, 2013
July, 2010	\$215	\$ 191	\$24
November, 2010	48	39	9

January, 2012	224	93	131
January, 2012	29	12	17
	\$656	\$ 417	\$239

Annual future minimum lease payments required under the leases, together with the present value as of March 31, 2013, are as follows (in thousands):

Year Ending December 31,	Amount
2013	\$140
2014	113
	253
Less amount representing interest	14
Present value of net minimum lease payments included with other liabilities	\$239

#### 6. Related-Party Transactions

SGRP's policy respecting approval of transactions with related persons, promoters and control persons is contained in the SPAR Group Code of Ethical Conduct for its Directors, Senior Executives and Employees Amended and Restated (as of) August 1, 2012 (the "Ethics Code"). Article V of the Ethics Code generally prohibits each "Covered Person" (including SGRP's officers and directors) from engaging in any business activity that conflicts with his or her duties to the Company, and directs each "Covered Person" to avoid any activity or interest that is inconsistent with the best interests of the SPAR Group, in each case except for any "Approved Activity" (as such terms are defined in the Ethics Code). Examples of violations include (among other things) having any ownership interest in, acting as a director or officer of or otherwise personally benefiting from business with any competitor, customer or vendor of the Company

other than pursuant to any Approved Activity. Approved Activities include (among other things) any contract with an affiliated person (each an "Approved Affiliate Contract") or anything else disclosed to and approved by SGRP's Board of Directors (the "Board"), its Governance Committee or its Audit Committee, as the case may be, as well as the ownership, board, executive and other positions in SMS, SMSI, SIT, NMA and others (as defined and described below) held by certain directors, officers or employees of SGRP or their family members. The Company's senior management is generally responsible for monitoring compliance with the Ethics Code and establishing and maintaining compliance systems, including conflicting relationships and transactions, subject to the review and oversight of SGRP's Governance Committee as provided in clause IV.11 of the Governance Committee's Charter, and SGRP's Audit Committee as provided in clause I.2(1) of the Audit Committee's Charter. The Governance Committee and Audit Committee each consist solely of independent outside directors.

SPAR Group, Inc. and Subsidiaries  
Notes to Consolidated Financial Statements  
(unaudited) (continued)

SGRP's Audit Committee has the specific duty and responsibility to review and approve the overall fairness of all material related-party transactions. The Audit Committee receives every affiliate contract and amendment thereto for its review and approval (to the extent approval is given), and each contract is periodically (often annually) again reviewed, in accordance with the Audit Charter, the Ethics Code, the rules of the Nasdaq Stock Market, Inc. ("Nasdaq"), and other applicable law to ensure that the overall economic and other terms will be (or continue to be) no less favorable to the Company than would be the case in an arms-length contract with an unrelated provider of similar services (i.e., its overall fairness). The Audit Committee periodically reviews and has approved all of the related party relationships and transactions described below.

Mr. Robert G. Brown, a Director, the Chairman and a major stockholder of SGRP, and Mr. William H. Bartels, a Director and the Vice Chairman of the Company and a major stockholder of SGRP, are the sole stockholders of SPAR Marketing Services, Inc. ("SMS") and SPAR Management Services, Inc. ("SMSI"). Mr. Brown is the sole stockholder of SPAR InfoTech, Inc. ("SIT"). Mr. Brown is a director and officer of SMS and SIT. Mr. Bartels is a director and officer of SMSI.

SMS and SMSI provided approximately 98% and 99% of the domestic merchandising specialist field force used by the Company (other than NMS, as defined below) for the three months ended March 31, 2013 and 2012, respectively, and approximately 94% and 93% of the domestic field management used by the Company at a total cost of approximately \$5.1 million and \$5.7 million for the three months ended March 31, 2013 and 2012, respectively. Pursuant to the terms of the Amended and Restated Field Service Agreement dated as of January 1, 2004, as amended in 2011, the Company received merchandising services from SMS through the use of approximately 7,300 field merchandising specialists. SMS also furnishes (without charge) approximately 200 handheld computers used by field merchandising specialists in the performance of various merchandising and marketing services in the United States, which the Company estimates has an aggregate value of approximately \$2,000 to \$3,000 per month. Pursuant to the terms of the Amended and Restated Field Management Agreement dated as of January 1, 2004, in 2011, the Company received management services from SMSI through the use of 60 full-time national, regional and district managers. For those services, the Company has agreed to reimburse SMS and SMSI for their total costs of providing those services and to pay SMS and SMSI each a fee equal to 4% of their respective total costs (the "Plus 4 % Compensation"). Those costs include all field expenses of SMS, all payroll and employment tax expenses of SMSI and all legal and other administrative expenses paid by either of them. The net total Plus 4% Compensation earned by SMS and SMSI for services rendered was approximately \$196,000 and \$213,000 for the three months ending March 31, 2013 and 2012, respectively. The Company also provides certain administrative services directly to SMS and SMSI, without charge, for accounting, human resource and legal services, which the Company believes is more efficient if paid directly, and would otherwise have been subject to cost plus reimbursement. The value of these services was approximately \$106,000 and \$104,000 for the three months ended March 31, 2013 and 2012, respectively.

(unaudited) (continued)

No salary reimbursements for Mr. Brown or Mr. Bartels are included in such reimbursable costs or Plus 4% Compensation. However, since SMS and SMSI are "Subchapter S" corporations and are owned by Messrs. Brown and Bartels, all income from SMS and SMSI is allocated to them.

National Marketing Services, LLC ("NMS"), is a consolidated domestic subsidiary of the Company and is owned jointly by SGRP through its indirect ownership of 51% of the NMS membership interests and by National Merchandising of America, Inc. ("NMA"), through its ownership of the other 49% of the NMS membership interests. (See Note 11 to the Consolidated Financial Statements - Purchase of Interests in Subsidiaries, below.) Mr. Edward Burdekin is the Chief Executive Officer and President and a director of NMS and also is an executive officer and director of NMA. Ms. Andrea Burdekin, Mr. Burdekin's wife, is the sole stockholder and a director of NMA and a director of NMS.

NMA is expected to provide substantially all of the domestic merchandising specialist field force used by NMS. Pursuant to the terms of the Field Services Agreement dated as of July 31, 2012, as amended (the "NMA Services Agreement"), NMS will receive merchandising services from NMA through the use of approximately 1,100 field merchandising specialists. For those services, the Company has agreed to reimburse NMA for its total costs of providing those services and to pay NMA a fee equal to 2% of its total costs (the "Plus 2% Compensation"). Those costs include all field expenses, payroll and employment tax expenses of NMA but exclude certain field merchandiser taxes and legal and other administrative expenses. Accordingly, no salary reimbursement for Mr. Burdekin or Ms. Burdekin are included in such reimbursable costs or Plus 2% Compensation.

NMS commenced operations as of September 1, 2012. NMA provided all of the domestic merchandising specialist field force used by NMS and 12% of the total domestic merchandising specialist field force used by the Company (including NMS) for the three months ended March 31, 2013. The total Plus 2% Compensation earned by NMA for services rendered was approximately \$11,000 for the three months ended March 31, 2013.

In connection with the approval of those related party agreements with NMA, the Board approved, based (in part) on the recommendation and approval of its Governance Committee (which is comprised solely of independent directors), the restated Ethics Code. As a result, the newly approved NMA Field Services Agreement is, and the previously approved affiliate contracts (See "Transactions with Related Persons, Promoters and Certain Control Persons" in SGRP's 2013 Proxy Statement) continue to be, exempted from various conflict prohibitions in the Ethics Code. The Ethics Code changes were not intended to substantively alter the code's existing prohibitions and exceptions applicable to the directors and executive officers of SGRP.

The Company continues to purchase services from SMS, SMSI and NMA because it believes the terms it receives from them are at least as favorable to the Company as it could obtain from non-affiliated providers of similar services. The Company believes it is the largest and most important customer of SMS, SMSI and NMA (and from time to time may be their only customer), and accordingly the Company is able to negotiate better terms, receives more personal and responsive service and is more likely to receive credits and other financial accommodations from SMS, SMSI and NMA than the Company could reasonably expect to receive from an unrelated service provider who has significant other customers and business. The Company periodically evaluates these fees and rates charged by comparable national labor sourcing firms to serve as a comparison to the rates charged by SMS, SMSI and NMA. The most recent such survey showed that the rates negotiated with SMS, SMSI and NMA are in fact slightly less than those charged by unrelated vendors providing similar services. Based on an analysis performed by management, the Company believes that its cost of revenue would have increased by at least \$150,000 and \$171,000

for the three months ended March 31, 2013 and 2012, respectively, if the Company would have instead used an unaffiliated entity to provide comparable services. All affiliate contracts are reviewed and approved by SGRP's Audit Committee, as described above. See also Dependence Upon and Cost of Services Provided by Affiliates and Potential Conflicts in Services Provided by Affiliates in Item 1A (Risk Factors) in SGRP's 2012 Annual Report.

In July 1999, SMF, SMS and SIT entered into a perpetual software ownership agreement providing that each party independently owned an undivided share of and had the right to unilaterally license and exploit their "Business Manager" Internet job scheduling software (which had been jointly developed by such parties), and all related improvements, revisions, developments and documentation from time to time voluntarily made or procured by any of them at its own expense. In addition, SPAR Trademarks, Inc. ("STM"), SMS and SIT entered into separate perpetual trademark licensing agreements whereby STM has granted non-exclusive royalty-free licenses to SIT and SMS (and through them to their commonly controlled subsidiaries and affiliates by sublicenses, including SMSI) for their continued use of the name "SPAR" and certain other trademarks and related rights of STM, a wholly owned subsidiary of SGRP. SMS and SMSI provide services to the Company, as described above, and SIT no longer provides services to the Company and does not compete with the Company.

Through arrangements with the Company, SMS, SMSI and other companies owned by Mr. Brown or Mr. Bartels participate in various benefit plans, insurance policies and similar group purchases by the Company, for which the Company charges them their allocable shares of the costs of those group items and the actual costs of all items paid specifically for them. All such transactions between the Company and the above affiliates are paid and/or collected by the Company in the normal course of business. As an accommodation, the Company also provides certain accounting, human resource and similar administrative services to SIT and certain other affiliates of Robert G. Brown and William H. Bartels, at a nominal cost.

In addition to the above, SMSI purchases insurance coverage for worker compensation, casualty and property insurance risk for itself, SMS and (through SMS under contracts with them) its field merchandising specialists, and the Company from Affinity Insurance, Ltd. ("Affinity"). SMSI owns minority (less than 1%) equity interest in Affinity, and Mr. Robert G. Brown is a director of Affinity. The Affinity insurance premiums for such coverage are ultimately charged to SMSI, SMS (and through SMS to its covered field merchandising specialists) and the Company

based on the contractual arrangements of the parties.

In the event of any material dispute in the business relationships between the Company and SMS, SMSI, SIT or NMA, it is possible that Mr. Brown, Mr. Bartels or Mr. Burdekin may have one or more conflicts of interest with respect to these relationships and such dispute could have a material adverse effect on the Company.

7. Preferred Stock

SGRP's certificate of incorporation also authorizes it to issue 3,000,000 shares of preferred stock with a par value of \$0.01 per share (the "SGRP Preferred Stock"), which may have such preferences and priorities over the SGRP Common Stock and other rights, powers and privileges as the Company's Board of Directors may establish in its discretion from time to time. The Company has created and authorized the issuance of a maximum of 3,000,000 shares of Series A Preferred Stock pursuant to SGRP's Certificate of Designation of Series "A" Preferred Stock (the "SGRP Series A Preferred Stock"), which have dividend and liquidation preferences, have a cumulative dividend of 10% per year, are redeemable at the Company's option and are convertible at the holder's option (and without further consideration) on a one-to-one basis into SGRP Common Stock. As of March 31, 2013 there are 2,445,598 shares of SGRP Series A Preferred Stock authorized and available for issuance under SGRP's certificate of incorporation and Certificate of Designation of Series "A" Preferred Stock. The number of shares authorized by such designation could, however, be reduced by amendment or redemption to facilitate the creation of other SGRP Preferred Series.

8. Stock-Based Compensation and Other Plans

SGRP currently grants options to its eligible directors, officers and employees and certain employees of its affiliates to purchase shares of Common Stock issued by SGRP ("SGRP Shares") pursuant to the 2008 Stock Compensation Plan (as amended, the "2008 Plan"). SGRP also has granted stock options that continue to be outstanding under various predecessor stock option plans (each a "Prior Plan"). The Prior Plans consist of the following: the Amended and Restated 1995 Stock Option Plan (the "1995 Plan"); and the 2000 Stock Option Plan ("2000 Plan"), which succeeded the 1995 Plan. Each Prior Plan will continue to be outstanding for the purposes of any remaining outstanding options issued under it for so long as such options are outstanding. As described below, SGRP also has the authority to issue other types of stock-based awards under the 2008 Plan, but to date has only issued restricted stock in addition to such options.

The Company believes that it is desirable to align the interests of SGRP's directors, executives, employees and consultants with those of its stockholders through their ownership of SGRP Shares. Although the Company does not require its directors, executives, employees or consultants to own SGRP Shares, the Corporation believes that it can help achieve this objective by providing long term equity incentives through the issuance to its directors, executives, employees or consultants of options to purchase SGRP Shares and other stock-based awards pursuant to the 2008 Plan (as defined below) and facilitating the purchase of SGRP Shares at a modest discount by all of its executives, employees and consultants who elect to participate in its Employee Stock Purchase Plan (as defined below). In particular, the Company believes that the award of options to purchase SGRP Shares to such directors, executives, employees and consultants encourages growth in their ownership of SGRP Shares, which in turn leads to the expansion of their stake in the long-term performance and success of the Company.

SGRP's stockholders approved and adopted the 2008 Plan in May of 2008, as the successor to the Prior Plans with respect to all new options issued, and an amendment to the 2008 Plan in May of 2009, permitting the discretionary repricing described below. The 2008 Plan provides for the granting of either incentive or nonqualified stock options to purchase SGRP Shares, restricted SGRP Shares, and restricted stock units, stock appreciation rights and other awards based on SGRP Shares ("Awards") to SGRP Directors and the Company's specified executives, employees and consultants (which are employees of certain of its affiliates), although to date SGRP has not issued any permissible form of award other than stock options. Unless terminated sooner as provided therein, the 2008 Plan will terminate on May 28, 2018, which is ten years from the 2008 Plan Effective Date, and no further Awards may be made under

it. However, any existing Awards made prior to such termination will continue in accordance with their respective terms and will continue to be governed by the 2008 Plan. Stock options granted under the 2008 Plan have a maximum term of ten years, except in the case of incentive stock options granted to greater than 10% stockholders (whose terms are limited to a maximum of five years), and SGRP has generally issued options having maximum terms.

SPAR Group, Inc. and Subsidiaries  
Notes to Consolidated Financial Statements  
(unaudited) (continued)

The 2008 Plan limits the number of SGRP Shares that may be covered by Awards ("Outstanding Covered Shares") to 5,600,000 SGRP Shares in the aggregate (the "Maximum Covered Shares"), which Outstanding Covered Shares for this purpose consist of the sum of (i) the SGRP Shares covered by all Awards issued under the 2008 Plan on or after May 29, 2008 ("New Awards"), plus (ii) and the SGRP Shares covered by all stock options issued at any time under the 2000 Plan or 1995 Plan to the extent they were still outstanding on May 29, 2008 ("Continuing Awards"). SGRP Shares covered by New Awards or Continuing Awards that expire, lapse, terminate, are forfeited, become void or otherwise cease to exist (other than as a result of exercise) are no longer Outstanding Covered Shares, are added back to remaining availability under the Maximum Covered Shares and thus become available for new Award grants, while those SGRP Shares covered by exercised New Awards or Continuing Awards continue to be Outstanding Covered Shares and are not added back to, and thus continue to reduce, the remaining availability under the Maximum Covered Shares under the 2008 Plan. The Outstanding Covered Shares and Maximum Covered Shares (as well as the SGRP Shares covered by a particular Award) are all subject to certain adjustments that may be made by the Compensation Committee upon the occurrence of certain changes in the Corporation's capitalization or structure as provided in the 2008 Plan. Except for the adjustments described above, an increase in the Maximum Covered Shares requires the consent of the SGRP stockholders under the terms of the 2008 Plan and Exchange Rules.

The 2008 Plan (as amended in 2009) gives SGRP's Compensation Committee the full authority and complete flexibility from time to time to designate and modify (in its discretion) one or more of the outstanding awards (including their exercise and base prices and other components and terms) to (among other things) restore their intended values and incentives to their holders. However, the exercise price, base value or similar component (if equal to SGRP's full stock price at issuance) of any award cannot be lowered to an amount that is less than the Fair Market Value (as defined in the 2008 Plan) on the date of the applicable modification, and no modification can adversely affect an awardee's rights or obligations under an award without the awardee's consent. No further consent of SGRP's stockholders is required for any repricing or other modification of any outstanding or other award under the 2008 Plan, including those previously issued under predecessor plans. Awards have only been repriced once (in 2009) to date pursuant to this authority.

Stock options and other stock based awards under the 2008 Plan may be issued from time to time by SGRP in its discretion to the Company's executives and other employees and generally are included in the annual incentive plans of SGRP's executives. The Company's management may present recommendations for such awards to the Compensation Committee at any of its regular quarterly meetings, although recently most recommendations have been made at the August meeting other than those for new employees. The Chairman of the Board or the Compensation Committee may make those recommendations respecting Mr. Raymond, Mr. Raymond as Chief Executive Officer makes those recommendations respecting Mr. Segreto, Ms. Belzer and Ms. Franco, as well as for any new officer, and each of those executives in turn are allocated potential option shares for their departments and make recommendations respecting those under their supervision (subject to review and approval by Mr. Raymond). In recommending to the Compensation Committee the actual number of options (and options shares covered) or other stock based award to be granted to each individual, the person making the recommendation makes an assessment of the individual's contribution to the Company's overall performance, the individual's successful completion of a special project, and any significant increase or decrease in the participant's abilities, responsibilities and performance of his or her duties. The Compensation Committee reviews and discusses managements' recommendations at its meeting and determines whether and to what extent to approve and grant the proposed stock option or other stock based awards to executives and employees of the Company pursuant to the 2008 Plan.

The stock options issued under the 2008 Plan are typically "nonqualified" (as a tax matter), have a ten (10) year maximum life (term) and vest during the first four years following issuance at the rate of 25% on each anniversary date of their issuance. SGRP has the authority to issue other types of stock-based awards under the 2008 Plan, but to date has only issued restricted stock in addition to stock options. The Company accounts for its employee and affiliate employee stock option expense as compensation expense in the Company's consolidated financial statements when the stock options are granted, as now required by applicable accounting principles. Share-based compensation cost is measured on the grant date, based on the fair value of the award calculated at that date, and is recognized over the requisite service period, which generally is the options' vesting period. Fair value is calculated using the Black-Scholes option pricing model.

SPAR Group, Inc. and Subsidiaries  
Notes to Consolidated Financial Statements  
(unaudited) (continued)

Based upon the Black-Scholes calculation, share-based compensation expense related to employee and non-employee stock option grants totaled \$107,000 and \$55,000 for the three months ended March 31, 2013 and 2012, respectively. The unamortized expense as of March 31, 2013, was approximately \$753,000 for outstanding stock option grants. The impact of the total share-based compensation expense on basic/diluted earnings per share was approximately half a cent for both the three months ended March 31, 2013 and 2012.

During the three months ended March 31, 2013, new stock option grants covering 13,000 SGRP Shares were awarded to one outside director and one new employee of the Company and SMSI at an exercise price of \$1.70 and \$1.89 per share respectively, which represents the fair market value of a SGRP Share.

Pursuant to the 2008 Plan, SGRP's Compensation Committee authorized a restricted SGRP common stock award of 100,000 shares on March 10, 2011 (the "2011 RS Award"), and 25,000 shares on August 1, 2012 (the "2012 RS Award"), as additional compensation to Mr. Raymond, the Company's Chief Executive Officer and President. The restricted shares vest in five equal parts on each of the five anniversaries following the award date (20,000 shares a year in the case of the 2011 RS Award, which started to vest on March 10, 2012, and 5,000 shares a year in the case of the 2012 RS Award, which starts to vest on August 1, 2013), so long as Mr. Raymond continues to be so employed by the Company on the applicable vesting date. If Mr. Raymond leaves such employment, he will lose his right to receive any unvested shares. The compensation expense related to each such award will be amortized by the Company over the five (5) year vesting periods, starting on the issuance date of each award (March 10, 2011, and August 1, 2012, respectively). The Company recorded compensation expenses for the period ended March 31, 2013, of \$16,482 for the 2011 RS Award and \$1,154 for the 2012 RS Award. The unamortized expense as of March 31, 2013 was approximately \$24,000 for the 2011 RS Award and \$138,000 for the 2012 RS Award.

In 2001, SGRP adopted its 2001 Employee Stock Purchase Plan (the "ESP Plan"), which replaced its earlier existing plan, and its 2001 Consultant Stock Purchase Plan (the "CSP Plan"). These plans were each effective as of June 1, 2001. The ESP Plan allows employees of the Company, and the CSP Plan allows employees of the affiliates of the Company (See Note 6 - Related Party Transactions, above), to purchase SGRP's Common Stock from SGRP without having to pay any brokerage commissions. On August 8, 2002, SGRP's Board approved a 15% discount for employee purchases of Common Stock under the ESP Plan and recommended that its affiliates pay 15% of the value of the stock purchased as a cash bonus for affiliate consultant purchases of Common Stock under the CSP Plan. The maximum amount that any employee or consultant can contribute to those plans per quarter is \$6,250 and the total number of shares reserved by the Company for purchase under those purchase plans is 500,000. Shares purchased by employees and consultants under those purchase plans were 1,061 for the three month period ended March 31, 2013. The Company's expense resulting from the 15% discount offered to employees and consultants was immaterial for all years presented. For more information respecting the Company's stock option and compensation plans, please see "Stock Compensation Plans" in the Company's 2013 Proxy Statement.

9. Customer Deposits

Customer deposits at March 31, 2013, were \$715,000 (\$507,000 from domestic operations and \$208,000 from international operations) compared to \$263,000 at December 31, 2012 (\$176,000 from domestic operations and \$87,000 from international operations).

10. Commitments and Contingencies

Legal Matters

The Company is a party to various legal actions and administrative proceedings arising in the normal course of business. In addition, the Company is involved in various other legal actions and administrative proceedings through its contractual obligation to pay SMS's costs (as part of the total costs of SMS borne by the Company - see Note 6, Related Party Transactions, above). In the opinion of the Company's management, disposition of these matters are not anticipated to have a material adverse effect on the Company or its estimated or desired assets, business, capital, cash flow, credit, expenses, financial condition, income, liabilities, liquidity, locations, marketing, operations, prospects, sales, strategies, taxation or other achievement, results or condition.

11. Purchase of Interests in Subsidiaries

The following contains descriptions of the Company's purchases of interests in its operating subsidiaries during the three month period ended March 31, 2013. In each of the subsidiaries noted below the Company, through its various agreements with the applicable Local Investor, has provided for appropriate exit strategies that are fair and equitable for each partner. The terms "Global Contributions", "Local Investor" and "Local Contributions" are used in those purchase descriptions as such terms are described and defined in Item 1 - Acquisition Strategies and Strategic Acquisitions in the Company's 2012 Annual Report.

BIP (Romania)

In May 2012, the Company finalized the purchase (effective as of April 1, 2012), for \$60,000, of 51% ownership in Business Ideas Provider GRUP SRL ("BIP"), a Romanian limited liability company in Bucharest, Romania, which became a consolidated subsidiary of the Company. The Company purchased a majority (51%) of the equity interests in BIP and is providing its usual Global Contributions, while Business Ideas Provider SRL as the Local Investor owns the remaining minority (49%) non-controlling interest in BIP and is providing the usual Local Contributions. The fair market value of the stock purchased by the Company was approximately \$79,000; therefore the Company recorded a gain of \$19,000 on the acquisition.

The following table includes the amount of BIP's revenue and earnings included in the Company's consolidated income statement for the three months ended March 31, 2013 and a pro forma calculation of the amounts of BIP's revenue and earnings that would have been included in the Company's consolidated income statement for the three months ended March 31, 2012, had the BIP acquisition date been January 1, 2012, instead of as of April 1, 2012 (in thousands):

	Revenue	Net Income
Actual BIP from January 1 to March 31, 2013	\$ 1,187	\$ 20
2013 consolidated from January 1 to March 31, 2013	\$ 26,177	\$ 44
2012 Supplemental pro forma from January 1 to March 31, 2012	\$ 22,316	\$ 282

NMS (USA)

In September 2012, the Company made a domestic acquisition that also used its international strategy of seeking a minority (i.e., non-controlling) non-affiliated Local Investor for the Company's new consolidated subsidiary in Georgia, U.S.A. As with most of its international counterparts, the Company acquired a 51% interest in National Merchandising Services, LLC, a newly formed Nevada limited liability company ("NMS"), and is providing its usual Global Contributions, and since then NMS has been a part of the Company's consolidated financial reports. NMS provides merchandising services in the U.S.A. to multiple Fortune 500 companies previously supplied by its Local Investor. The Local Investor in this case is National Merchandising of America, Inc., a Georgia corporation ("NMA"), which owns a 49% interest in NMS and will provide field merchandising services to NMS pursuant to a Field Services Agreement with NMS. In addition, NMA contributed substantially all of its customers to NMS and is providing the usual Local Contributions.

The Company's total investment in NMS is \$859,050, which consists of the following (1) \$510 in capital, (2) a cash payment of \$400,000 to NMA and a \$200,000 non-interest bearing promissory note paid on January 2, 2013, (3) issuance of SPAR common stock worth \$165,000 to NMA, and (4) a contingent liability of \$93,540 described below.

SPAR Group, Inc. and Subsidiaries  
Notes to Consolidated Financial Statements  
(unaudited) (continued)

NMS agreed to pay an incentive consulting fee ("Consulting Fee") to NMA based on NMS achieving certain earnings goals in each of the next three 12 month periods. The Consulting Fee is calculated based on 50% of NMS earnings in excess of the annual base earnings of \$500,000. The maximum consideration for the Consulting Fee could be as much as \$600,000. The projected consulting fee is approximately \$93,540 and has been recorded as a contingent liability at December 31, 2012 and March 31, 2013. The Company has completed its valuation of the fair value and related allocation between identifiable intangibles and goodwill, and recorded the following in 2012. The intangible asset is being amortized over ten years. The amortization expense was \$13,158 for the three months ended March 31, 2013.

Intangible asset	\$	526,320
Goodwill		332,730
	\$	859,050

The following table includes the amount of NMS's revenue and earnings included in the Company's consolidated income statement for the three months ended March 31, 2013 and a pro forma calculation of the amounts of NMS's revenue and earnings that would have been included in the Company's consolidated income statement for the three months ended March 31, 2012, had the NMS acquisition date been January 1, 2012, instead of as of September, 2012 (in thousands):

	Revenue	Net Income
Actual NMS from January 1 to March 31, 2013	\$ 767	\$ 70

2012 Supplemental pro forma from January 1 to March 31, 2012	\$21,699	\$379

#### CMR-Meridian (South Africa)

In September 2012, the Company's existing local consolidated subsidiary, SGRP Meridian (Pty) Ltd. ("SGRP Meridian"), acquired a majority (51%) of the equity interests in CMR Meridian (Pty) Ltd. ("CMR-Meridian"). Combined Manufacturers National (Pty) Ltd ("CMR") acquired the remaining minority (49%) non-controlling interest in CMR-Meridian as its Local Investor, contributed substantially all of its customers to CMR-Meridian and provided the usual Local Contributions while the Company is providing its usual Global Contributions. SGRP Meridian and CMR-Meridian are both are part of the Company's consolidated financial reports.

CMR-Meridian initiated operations on October 1, 2012 and the Company provided approximately \$380,000 in a working capital loan to assist SGRP Meridian in this new joint venture. SGRP Meridian, through the joint venture agreement with CMR, paid approximately \$73,000 at closing and recorded a contingent liability in the amount of \$154,000 respecting the fair value of potential future payments required to be made by SGRP Meridian to CMR provided certain financial conditions are achieved by CMR-Meridian in 2013 and 2014. The required payments based on an exchange rate of Rand to US Dollars at March 31, 2013, are as follows: (a) \$69,000 if CMR-Meridian achieves \$228,000 of earnings before interest and taxes for the twelve month period ending December 31, 2013; and (b) \$92,000 if CMR-Meridian achieves \$228,000 of earnings before interest and taxes for the twelve month period ending December 31, 2014. If during these two periods the earnings before interest and taxes is lower than \$228,000 the payment in each year will be reduced proportionately.

SPAR Group, Inc. and Subsidiaries  
Notes to Consolidated Financial Statements  
(unaudited) (continued)

In addition to the above payments, CMR-Meridian may be required to pay CMR an Incentive Consulting Fee provided CMR-Meridian meets the following financial criteria. Should CMR-Meridian's earnings before interest and taxes exceed \$228,000 in each of the following twelve month periods ending December 31, CMR-Meridian will pay to CMR:

For 2013, the payment will be 50% of the excess earnings up to a maximum of \$159,000,

For 2014, the payment will be 25% of the excess earnings up to a maximum of \$93,000, and

For 2015, the payment will be 10% of the excess earnings up to a maximum of \$44,000.

At the end of the first three full years of operations, an additional bonus of \$57,000 will be paid by CMR-Meridian to CMR if the combined cumulative earnings before interest and taxes exceed \$684,000 provided that in each year, a minimum \$228,000 in earnings is achieved. Based on current projections, the Company does not believe at this time that CMR-Meridian will meet the criteria to earn the Incentive Consulting Fee, therefore no contingent liability has been recorded as of December 31, 2012 or March 31, 2013. However, the Company will continue to evaluate the potential for the Incentive Consulting Fee throughout 2013.

The following table includes the amount of CMR's revenue and earnings included in the Company's consolidated income statement for the three months ended March 31, 2013 and a pro forma calculation of the amounts of CMR's revenue and earnings that would have been included in the Company's consolidated income statement for the three months ended March 31, 2012, had the CMR acquisition date been January 1, 2012, instead of as of September, 2012 (in thousands):

#### Preceptor (India)

In March of 2013, the Company purchased a majority (51%) of the equity interests in Preceptor Marketing Services Private Limited ("Preceptor"), a recently formed Indian corporation, from Krognos Integrated Marketing Services Private Limited ("Krognos"), and Preceptor became a new consolidated subsidiary of the Company. The Company also is providing the usual Global Contributions to Preceptor, while Krognos as the Local Investor retained the remaining minority (49%) non-controlling interest in Preceptor and is providing the usual Local Contributions. Krognos also is the Local Investor in the Company's existing subsidiary in India, SPAR Krognos Marketing Private Limited. Preceptor will enable the Company to service clients not serviced by its existing Indian subsidiary. The Company paid \$21,000 for its interest in Preceptor, and Preceptor became a consolidated subsidiary of the Company on March 1, 2013.

#### Certain MFI Assets (USA)

In March of 2013, the Company also purchased general merchandising service and certain in-store audit service businesses from Market Force Information, Inc. ("MFI"), a leading customer intelligence solution provider. The acquired in-store audit services include the price, point of sale, out of stock, intercept and planogram audits managed by MFI's New York office. With this acquisition, the Company has entered the growing in-store audit service business and expanded its existing general merchandising service and client base domestically.

The purchase was made pursuant to the Asset Purchase Agreement dated as of March 15, 2013 (the "Purchase Agreement") between MFI, as the seller, and SPAR Marketing Force, Inc. ("SMF"), a consolidated subsidiary of SGRP and its principal domestic operating company. The purchase was completed at the end of the day on March 15, 2013. The Purchase Price under the Purchase Agreement consisted of a cash purchase price of \$1,300,000 and the assumption of certain specified liabilities (principally those arising after the closing under the assumed contracts). The Company plans to complete its purchase price valuation analysis during 2013 and record the appropriate intangible assets and or goodwill based on its analysis. In addition, SMF entered into a Consulting Services Agreement and a Transition Services Agreement with MFI, under which MFI will provide certain services, equipment and facilities for up to one year, and various assignments and other transfer documents.

## 12. Geographic Data

The Company operates in the same single business segment (e.g., merchandising and marketing services) in both its Domestic Merchandising Services Division and its International Merchandising Services Division. The Company uses those divisions to improve its administration and operational and strategic focuses, and it tracks and reports certain financial information separately for each of those divisions, as described in Item 1 – Business in the Company's 2012 Annual Report. The Company measures the performance of its domestic and international divisions and subsidiaries using the same metrics. The primary measurement utilized by management is operating profits, historically the key indicator of long-term growth and profitability, as the Company is focused on reinvesting the operating profits of each of its international subsidiaries back into its local markets in an effort to improve market share and continued expansion efforts. Set forth below are summaries of the Company's net revenues from its United States subsidiaries (i.e., the Domestic Merchandising Services Division) and from its international (non-U.S.) subsidiaries (i.e., the International Merchandising Services Division), net revenue from certain international subsidiaries as a percent of consolidated net revenue, operating income (loss) and long lived assets by geographic area for 2013 and 2012, respectively (in thousands):

15. Interest Rate Fluctuations

The Company is exposed to market risk related to the variable interest rate on its lines of credit, both in its United States subsidiaries (i.e., the Domestic Merchandising Services Division) and in its International (non-U.S.) subsidiaries (i.e., the International Merchandising Services Division). At March 31, 2013, the Company's outstanding lines of credit and other debt totaled approximately \$1.2 million, as noted in the table below (in thousands):

(2) Based on exchange rate at March 31, 2013.

16. Taxes

In July 2006, the FASB issued an interpretation, Accounting for Uncertainty in Income Taxes, now codified as ASC Topic 740, which detailed guidance for the financial statement recognition, measurement and disclosure of uncertain tax positions recognized in an enterprise's financial statements. Tax positions must meet a more-likely-than-not recognition threshold and requires that interest and penalties that the tax law requires to be paid on the underpayment of taxes should be accrued on the difference between the amount claimed or expected to be claimed on the return and the tax benefit recognized in the financial statements. The Company's policy is to record this interest and penalties as additional tax expense. The Company's tax reserves at March 31, 2013, and December 31, 2012, totaled \$99,000 and \$93,000, respectively, for potential domestic state tax and federal tax liabilities.

SPAR and its subsidiaries file numerous consolidated, combined and separate company income tax returns in the U.S. Federal jurisdiction and in many U.S. state and foreign jurisdictions. With few exceptions, SPAR is subject to U.S. Federal, state and local income tax examinations for the years 2009 through the present. However, tax authorities have the ability to review years prior to the position taken by the Company to the extent that SPAR utilized tax attributes carried forward from those prior years.

GENERAL

SPAR Group, Inc., ("SGRP"), and its subsidiaries (together with SGRP, the "SPAR Group" or the "Company"), is a diversified international merchandising and marketing services company and provides a broad array of services worldwide to help companies improve their sales, operating efficiency and profits at retail locations. The Company provides its merchandising and other marketing services to manufacturers, distributors and retailers worldwide, primarily in mass merchandisers, office supply, grocery, drug, independent, convenience and electronics stores. The Company also provides furniture and other product assembly services in stores, homes and offices. The Company has supplied these project and product services in the United States since certain of its predecessors were formed in 1979 and internationally since the Company acquired its first international subsidiary in Japan in May of 2001. The Company currently does business in 10 countries that encompass approximately 50% of the total world population through its operations in the United States, Canada, Japan, South Africa, India, Romania, China, Australia, Mexico and Turkey.

Merchandising services primarily consist of regularly scheduled, special project and other product services provided at the store level, and the Company may be engaged by either the retailer or the manufacturer. Those services may include restocking and adding new products, removing spoiled or outdated products, resetting categories "on the shelf" in accordance with client or store schematics, confirming and replacing shelf tags, setting new sale or promotional product displays and advertising, replenishing kiosks, providing in-store event staffing, providing in-store audit service, and providing assembly services in stores, homes and offices. Other merchandising services include whole store or departmental product sets or resets, including new store openings, new product launches and in-store demonstrations, special seasonal or promotional merchandising, focused product support and product recalls. The Company continues to seek to expand its merchandising, assembly and marketing services business throughout the world.

An Overview of the Merchandising and Marketing Services Industry

According to industry estimates over two billion dollars are spent annually in the United States alone on retail merchandising and marketing services. The merchandising and marketing services industry includes manufacturers, retailers, food brokers and professional service merchandising companies. The Company believes that merchandising and marketing services add value to retailers, manufacturers and other businesses and enhance sales by making a product more visible and more available to consumers. These services primarily involve placing orders, shelf maintenance, display placement, reconfiguring products on store shelves and replenishing product inventory.

Historically, retailers staffed their stores as needed to provide these services to ensure, that manufacturers' inventory levels, the advantageous display of new items on shelves, and the maintenance of shelf schematics and product placement were properly merchandised. However retailers, in an effort to improve their margins, have decreased their own store personnel and increased their reliance on manufacturers to perform such services. Initially, manufacturers attempted to satisfy the need for merchandising and marketing services in retail stores by utilizing their own sales representatives. Additionally, retailers also used their own employees to merchandise their stores to satisfy their own merchandising needs. However, both the manufacturers and the retailers discovered that using their own sales representatives and employees for this purpose was expensive and inefficient.

Most manufacturers and retailers have been, and SPAR Group believes they will continue outsourcing their merchandising and marketing service needs to third parties capable of operating at a lower cost by (among other things) serving multiple manufacturers simultaneously. The Company also believes that it is well positioned, as a domestic and international merchandising and marketing services company, to more effectively provide these services to retailers, manufacturers and other businesses around the world.

Another significant trend impacting the merchandising and marketing services business is the tendency of consumers to make product purchase decisions once inside the store. Accordingly, merchandising and marketing services and in-store product promotions have proliferated and diversified. Retailers are continually re-merchandising and re-modeling entire stores in an effort to respond to new product developments and changes in consumer preferences. We estimate that these activities have increased in frequency over the last five years. Both retailers and manufacturers are seeking third parties to help them meet the increased demand for these labor-intensive services.

SPAR Group, Inc. and Subsidiaries

In addition, the consolidation of many retailers has created opportunities for third party merchandisers when an acquired retailer's stores are converted to the look and format of the acquiring retailer. In many cases, stores are completely remodeled and re-merchandised after a consolidation.

SPAR Group believes the current trend in business toward globalization fits well with its expansion model. As companies expand into foreign markets they will need assistance in merchandising or marketing their products. As evidenced in the United States, retailer and manufacturer sponsored merchandising and marketing programs are both expensive and inefficient. The Company also believes that the difficulties encountered by these programs are only exacerbated by the logistics of operating in foreign markets. This environment has created an opportunity for the Company to exploit its internet, hand-held computer, tablet and smart phone-based technology and business model worldwide.

The Company's Domestic and International Geographic Divisions:

In order to cultivate and expand the Company's merchandising and marketing services businesses in both domestic and foreign markets and insure a consistent approach to those businesses worldwide, and even though the Company operates globally in the single business segment of merchandising and marketing services, the Company has divided its world focus into two geographic areas, the United States, which is the sales territory for its Domestic Merchandising Services Division, and international (i.e., all locations outside the United States), which are the sales territories for its International Merchandising Services Division. To that end, the Company also (1) provides and requires all of its locations to use its Internet-based operating, scheduling, tracking and reporting systems (including language translations, ongoing client and financial reports and ongoing IT support), (2) provides and requires all of its locations to comply with the Company's financial reporting and disclosure controls and procedures, ethics code and other policies, (3) provides accounting and auditing support and tracks and reports certain financial and other information separately for those two divisions, and (4) has management teams in its corporate offices responsible for supporting and monitoring the management, sales, marketing and operations of each of the Company's international subsidiaries and maintaining consistency with the Company's other subsidiaries worldwide.

Each of the Company's divisions provides merchandising and other marketing services primarily on behalf of consumer product manufacturers and retailers at mass merchandisers, drug store chains, convenience and grocery stores in their respective territories. SPAR Group's clients include the makers and distributors of general merchandise, health and beauty care, consumer goods, home entertainment and food products in their respective territories.

SPAR Group has provided merchandising and other marketing services in the United States since the formation of its predecessor in 1979 and outside the United States since it acquired its first international subsidiary in Japan in May of 2001. The Company currently conducts its business through its domestic and international divisions in 10 territories around the world (listed in the table below) that encompass approximately 50% of the total world population.

The incremental revenue was offset by a decrease syndicated services and other project work. International net revenues totaled \$16.5 million for the three months ended March 31, 2013, compared to \$11.8 million for the same period in 2012, an increase of \$4.7 million or 40%. The increase in 2013 international net revenues was primarily due to incremental revenue from the newly integrated acquisitions in South Africa and Romania, and increased revenue in China and Australia.

## Cost of Revenues

The Company's cost of revenues consists of its in-store labor and field management wages, related benefits, travel and other direct labor-related expenses and was 77% of its net revenues for the three months ended March 31, 2013, and 72.6% of its net revenues for the three months ended March 31, 2012.

Domestic cost of revenues was 68.6% of net revenues for the three months ended March 31, 2013, and 68.1% of net revenues for the three months ended March 31, 2012. The increase in cost of revenues as a percentage of net revenues was 0.5% due primarily to an unfavorable mix of syndicated and project work compared to last year. Approximately 86% and 91% of the Company's domestic cost of revenues in the three months ended March 31, 2013 and 2012, respectively, resulted from in-store merchandiser specialist and field management services purchased from certain of the Company's affiliates, SPAR Marketing Services, Inc. ("SMS"), and SPAR Management Services, Inc. ("SMSI"), respectively (See - Note 6 - Related-Party Transactions).

SPAR Group, Inc. and Subsidiaries

Internationally, the cost of revenues increased to 81.9% of net revenues for the three months ended March 31, 2013, compared to 76.1% of net revenues for the three months ended March 31, 2012. The cost of revenue percentage increase of 5.8% was primarily due to higher cost margin business in the new markets in Turkey, Mexico, and Romania and the mix of business in Canada and China.

Selling, General and Administrative Expenses

Selling, general and administrative expenses of the Company include its corporate overhead, project management, information technology, executive compensation, human resources, legal and accounting expenses. Selling, general and administrative expenses were approximately \$5.4 million and \$5.0 million for the three months ended March 31, 2013 and 2012, respectively.

Domestic selling, general and administrative expenses totaled \$2.5 million for three months ended March 31, 2013, compared to \$2.4 million for the three months ended March 31, 2012. The increase of \$100,000 was primarily due to the MFI acquisition.

International selling, general and administrative expenses totaled \$2.9 million for the three months ended March 31, 2013, compared to \$2.6 million for the same period in 2012. The increase of approximately \$300,000 was primarily attributable to the new business in Romania and South Africa.

Depreciation and Amortization

Depreciation and amortization charges totaled \$303,000 for the three months ended March 31, 2013, and \$277,000 for the same period in 2012.

Interest Expense

The Company's net interest expense was \$31,000 and \$51,000 for the three months ended March 31, 2013 and 2012, respectively. The decrease in interest expense is directly attributable to reduced borrowings as well as lower interest rates.

Other Income

Other income totaled \$13,000 for the three months ended March 31, 2013 and was \$82,000 for the same period in 2012.

Income Taxes

The income tax provision totaled \$127,000 and \$42,000 for the three months ended March 31, 2013 and 2012, respectively. The tax provision resulted primarily from domestic state taxes and for tax provisions related to certain international profits. The Company recognizes minimum federal tax provisions as the Company anticipates utilizing operating loss carry forwards in 2013.

Non-controlling Interest

Net operating profits from the non-controlling interest, from the Company's 51% owned subsidiaries, resulted in a reduction of net income of \$169,000 for the three months ended March 31, 2013, compared to a reduction of net income of \$152,000 for the three months ended March 31, 2012.

SPAR Group, Inc. and Subsidiaries

Net Income

The Company reported a net income of \$44,000 for the three months ended March 31, 2013, or \$0.00 per diluted share, compared to a net income of \$307,000, or \$0.02 per diluted share, for the corresponding period last year.

Liquidity and Capital Resources

In the three months ended March 31, 2013, the Company had net income before non-controlling interest of \$213,000.

Net cash provided by operating activities was \$5 million and \$3 million for the three months ended March 31, 2013 and 2012, respectively. The net cash provided by operating activities was primarily due to a decrease in accounts receivable and increases in accounts payable and accrued expenses.

Net cash used in investing activities for the three months ended March 31, 2013, and March 31, 2012, was approximately \$1.9 million and \$239,000, respectively. The net cash used in investing activities was primarily a result of the purchase of the MFI business, plus fixed asset additions. Net cash used in financing activities for the three months ended March 31, 2013, and March 31, 2012, was approximately \$1.4 million and \$2.7 million, respectively. Net cash used in financing activities was primarily a result of payments on lines of credit.

The above activity resulted in an increase in cash and cash equivalents for the three months ended March 31, 2013, of \$1.6 million.

At March 31, 2013, the Company had net working capital of \$8.5 million, as compared to net working capital of \$9.7 million at December 31, 2012. The Company's current ratio was 1.6 and 1.7 at March 31, 2013, and December 31, 2012, respectively.

Domestic Credit Facility:

SGRP and certain of its domestic subsidiaries, namely SPAR Marketing Force, Inc., National Assembly Services, Inc., SPAR Group International, Inc., SPAR Trademarks, Inc., and SPAR Acquisition, Inc. (each a "Subsidiary Borrower", and together with SGRP, collectively, the "Borrowers"), entered into a Revolving Loan and Security Agreement dated as of July 6, 2010 (the "Loan Agreement"), with Sterling National Bank and Cornerstone Bank as the lenders (the "Lenders"), and issued their Secured Revolving Loan Notes in the original maximum principal amounts of \$5.0 million to Sterling National Bank and \$1.5 million to Cornerstone Bank (the "Notes"), to document and govern its new credit facility with them (the "Sterling Credit Facility"). In June 2011, the maturity date of the Sterling Credit Facility was extended until July 31, 2013. The Sterling Credit Facility was amended effective as of July 1, 2012 (the "Second Sterling Amendment"), to: (1) increase the maximum available revolving loan amount to \$6.5 million from Sterling National Bank and remove Cornerstone Bank as a lender, (2) reduce the interest rate to prime plus three quarters of one percent (3/4%) per annum, and (3) release and discharge each Guarantor as noted below. Effective January 1, 2013, the Sterling Credit Facility was further amended (the "Third Sterling Amendment") to reduce the interest rate to the Prime Rate (as that term is defined in the Loan Agreement) plus one quarter of one percent (1/4%) per annum (instead of the higher rate that was provided under the Second Sterling Amendment), which interest rate automatically changes with each change in such Prime Rate.

In the Second Sterling Amendment, Mr. Robert G. Brown and Mr. William H. Bartels were released and discharged by Sterling from their Limited Sterling Guaranty.

Revolving Loans of up to \$6.5 million are available to the Borrowers under the Sterling Credit Facility based upon the borrowing base formula defined in the Loan Agreement (principally 85% of "eligible" domestic accounts receivable less certain reserves). The Sterling Credit Facility is secured by substantially all of the assets of the Borrowers (other than SGRP's foreign subsidiaries, certain designated domestic subsidiaries, and their respective equity and assets).

## SPAR Group, Inc. and Subsidiaries

Due to the requirement to maintain a lock box arrangement with the Agent and the Lenders' ability to invoke a subjective acceleration clause at its discretion, borrowings under the Sterling Credit Facility will be classified as current.

The Sterling Credit Facility contains certain financial and other restrictive covenants and also limits certain expenditures by the Borrowers, including, but not limited to, capital expenditures and other investments.

## International Credit Facilities:

In October 2011, SPARFACTS Australia Pty. Ltd., replaced the Commonwealth Bank line of credit with a new receivables based secured line of credit facility with Oxford Funding Pty Ltd. for \$1.2 million (Australian) or approximately \$1.3 million (based upon the exchange rate at March 31, 2013). The facility provides for borrowing based upon a formula as defined in the agreement (principally 80% of eligible accounts receivable less certain deductions). The agreement technically expired on October 31, 2012, but is being extended from month to month at the Company's request. SPARFACTS is in the process of negotiating new financing. SPAR Canada Company, a wholly owned subsidiary, has a secured credit agreement with Royal Bank of Canada providing for a Demand Operating Loan for a maximum borrowing of \$750,000 (Canadian) or approximately \$737,000 (based upon the exchange rate at March 31, 2013). The Demand Operating Loan provides for borrowing based upon a formula as defined in the agreement (principally 75% of eligible accounts receivable less certain deductions) and a minimum total debt to tangible net worth covenant.

The Japanese subsidiary, SPAR FM Japan, Inc., a wholly owned subsidiary, has secured a loan with Mizuho Bank in the amount of 20.0 million Yen (Japanese), or approximately \$212,000. The loan is payable in monthly installments of 238,000 Yen or \$2,500 at an interest rate of 0.1% per annum with a maturity date of February 28, 2018. The outstanding balance at March 31, 2013, was approximately 14 million Yen or \$149,000 (based upon the exchange rate at March 31, 2013).

Management believes that based upon the continuation of the Company's existing credit facilities, projected results of operations, vendor payment requirements and other financing available to the Company (including amounts due to affiliates), sources of cash availability should be manageable and sufficient to support ongoing operations over the next year. However, delays in collection of receivables due from any of the Company's major clients, or a significant reduction in business from such clients could have a material adverse effect on the Company's cash resources and its ongoing ability to fund operations.

## Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company's accounting policies for financial instruments and disclosures relating to financial instruments require that the Company's consolidated balance sheets include the following financial instruments: cash and cash equivalents, accounts receivable, accounts payable and lines of credit. The Company carries current assets and liabilities at their stated or face amounts in its consolidated financial statements, as the Company believes those amounts approximate the fair value for these items because of the relatively short period of time between origination of the asset or liability and their expected realization or payment. The Company monitors the risks associated with asset and liability positions, as well as interest rates. The Company's investment policy objectives require the preservation and safety of the principal, and the maximization of the return on investment based upon its safety and liquidity objectives.

The Company is exposed to market risk related to the variable interest rate on its lines of credit, both in its United States subsidiaries (i.e., the Domestic Merchandising Services Division) and in its International (non-U.S.) subsidiaries (i.e., the International Merchandising Services Division). At March 31, 2012, the Company's outstanding lines of credit and other debt totaled approximately \$1.2 million, as noted in the table below (in thousands):

Location	Variable	US Dollars
	Interest Rate (1)	(2)
United States	3.5%	\$ 713
International	0.1% - 9.1%	517
		\$ 1,230

(1) Based on interest rate at March 31, 2013.

(2) Based on exchange rate at March 31, 2013.

The Company has foreign currency exposure with its international subsidiaries. In both 2013 and 2012, these exposures are primarily concentrated in the Australian Dollar, Canadian Dollar, Mexican Peso, South African Rand,

Japanese Yen and Chinese Yuan. Total international assets were \$14.6 million and total liabilities were \$11.9 million based on exchange rates at March 31, 2013. International revenues for the three months ended March 31, 2013 and 2012 were \$16.5 million and \$11.8 million, respectively. The international division reported net loss of approximately \$147,000 and net income of \$44,000 for the three months ended March 31, 2013 and 2012, respectively.

Based on that evaluation, the chief executive officer and chief financial officer have each concluded that the Company's current disclosure controls and procedures are effective to insure that the information required to be disclosed by the Company in reports it files, or submits under the Exchange Act were recorded, processed, summarized and reported within the time period specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Controls Over Financial Reporting

There have been no changes in the Company's internal controls over financial reporting that occurred during the Company's first quarter of its 2013 fiscal year that materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.
