SYPRIS SOLUTIONS, INC.

(Exact name of registrant as specified in its charter)

Delaware

61-1321992

Edgar Filing: SYPRIS SOLUTIONS INC - Form 10-Q

(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

101 Bullitt Lane, Suite 450
Louisville, Kentucky 40222 (502) 329-2000
(Address of principal executive offices) (Zip code) (Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such reports). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

As of November 7, 2016 the Registrant had 21,242,190 shares of common stock outstanding.

Sypris Solutions, Inc.

Notes to Consolidated Financial Statements

(1) Nature of Business

All references to “Sypris,” the “Company,” “we” or “our” include Sypris Solutions, Inc. and its wholly-owned subsidiaries. Sypris is a diversified provider of manufacturing services and products. The Company performs a wide range of manufacturing, engineering, design, and other technical services, often under multi-year, sole-source contracts with corporations and government agencies, primarily in the markets for truck components, oil and gas pipeline components and aerospace and defense electronics. The Company provides such services through its two segments, Sypris Technologies, Inc. (Sypris Technologies) and Sypris Electronics, LLC (Sypris Electronics). See Note 13, “Segment Data,” to the consolidated financial statements.

On August 16, 2016, the Company completed the sale of certain assets, intellectual property, contracts and other assets of Sypris Electronics (the “CSS Sale”) comprised principally of its SioMetrics, Cyber Range, Information Security Solutions and Data Systems product lines (see Note 5 “CSS Sale” to the consolidated financial statements). The retained portion of the Sypris Electronics segment will continue to provide electronic manufacturing and design support services to customers in the aerospace, defense, medical and severe environment markets, among others.

(2) Basis of Presentation

The accompanying unaudited consolidated financial statements include the accounts of Sypris Solutions, Inc. and its wholly-owned subsidiaries, and have been prepared by the Company in accordance with the rules and regulations of the Securities and Exchange Commission. The Company’s operations are domiciled in the United States (U.S.) and Mexico and serve a wide variety of domestic and international customers. All intercompany transactions and accounts have been eliminated. These unaudited consolidated financial statements reflect, in the opinion of management, all material adjustments (which include only normal recurring adjustments) necessary to fairly state the results of operations, financial position and cash flows for the periods presented, and the disclosures herein are adequate to make the information presented not misleading. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. Actual results for the three and nine months ended October 2, 2016 are not necessarily indicative of the results that may be expected for the year ending December 31, 2016. These unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements, and notes thereto, for the year ended December 31, 2015 as presented in the Company’s Annual Report on Form 10-K.

Certain prior period amounts have been reclassified to conform to the current period presentation.

(3) Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-09, Revenue from Contracts with Customers. This new standard will replace most existing revenue recognition guidance in U.S. GAAP. The core principle of the ASU is that an entity should recognize revenue for the transfer of goods or services equal to the amount it expects to receive for those goods and services. This ASU requires additional disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and estimates and changes in those estimates. In August 2015, the FASB issued ASU 2015-14, Revenue from Contracts with Customers: Deferral of the Effective Date, which delayed the effective date of ASU 2014-09 by one year to January 1, 2018. In March 2016, the FASB issued ASU 2016-08, Revenue from Contracts with Customers: Principal versus Agent Considerations (Reporting Revenue Gross versus Net), which clarifies the implementation guidance on principal versus agent considerations and includes indicators to assist an entity in determining whether it controls a specified good or service before it is transferred to the customers. In April of 2016, the FASB issued ASU 2016-10, Revenue from Contracts with Customers (Topic 606) - Identifying Performance Obligations and Licensing, which reduces the complexity when applying the guidance for identifying performance obligations and improves the operability and understandability of the license implementation guidance. In May 2016, the FASB issued ASU 2016-12, Revenue from Contracts with Customers (Topic 606) - Narrow-Scope Improvements and Practical Expedients, which amends the guidance on transition, collectability, non-cash consideration, and the presentation of sales and other similar taxes. ASU 2016-12 clarifies that, for a contract to be considered completed at transition, all (or substantially all) of the revenue must have been recognized under legacy GAAP. In addition, ASU 2016-12 clarifies how an entity should evaluate the collectability threshold and when an entity can recognize nonrefundable consideration received as revenue if an arrangement does not meet the standard’s contract criteria. The standard allows for both retrospective and modified retrospective methods of adoption. The Company is in the process of determining the method of adoption it will elect and is currently assessing the impact of this ASU on its consolidated financial statements and footnote disclosures.

In August 2014, the FASB issued ASU No. 2014-15, Presentation of Financial Statements-Going Concern. The new guidance requires management to assess if there is substantial doubt about an entity's ability to continue as a going concern for each annual and interim period. If conditions or events give rise to substantial doubt, disclosures are required. ASU 2014-15 is effective for the annual period ending after December 15, 2016, and for annual and interim periods thereafter; early application is permitted. The Company is currently assessing the impact of adopting this ASU on its consolidated financial statements and related disclosures.

In April 2015, the FASB issued ASU No. 2015-03, Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. The amendments in this ASU 2015-03 require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this ASU 2015-03. In August 2015 the FASB issued ASU No. 2015-15, Interest - Imputation of Interest (Subtopic 835-30): Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements - Amendments to SEC Paragraphs Pursuant to Staff Announcement at June 18, 2015 EITF Meeting. ASU 2015-15 was issued to address presentation or subsequent measurement of debt issuance costs related to line-of-credit arrangements that were not found in ASU 2015-03. Given the absence of authoritative guidance within ASU 2015-03 for debt issuance costs related to line-of-credit arrangements, the ASU provides that the SEC staff would not object to an entity deferring and presenting debt issuance costs as an asset and subsequently amortizing the deferred debt issuance costs ratably over the term of the line-of-credit arrangement, regardless of whether there are any outstanding borrowings on the line-of-credit arrangement. These standards are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015, and should be applied retrospectively. Early adoption is permitted. The Company adopted this guidance January 1, 2016. As a result of adoption, debt issuance costs of \$1,220,000 were reclassified from assets to reduce long-term-debt as of December 31, 2015.

In July 2015, the FASB issued ASU No. 2015-11, which simplifies the subsequent measurement of inventory. It replaces the current lower of cost or market test with a lower of cost or net realizable value test. The standard is effective for public entities for annual reporting periods beginning after December 15, 2016, and interim periods therein. Early adoption is permitted. The new guidance must be applied prospectively. The adoption of this standard is not expected to have a material impact on the Company's consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842). The new standard was issued to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. This standard affects any entity that enters into a lease, with some specified scope exemptions. The guidance in this update supersedes FASB ASC 840, Leases. The amendments in this ASU are effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The Company is currently assessing the impact of adopting this ASU on its consolidated financial statements and related disclosures.

In March 2016, the FASB issued ASU No. 2016-09, Improvements to Employee Share-Based Payment Accounting (ASU 2016-09) requiring an entity to record all excess tax benefits and tax deficiencies as an income tax benefit or expense in the income statement. ASU 2016-09 will also require an entity to elect an accounting policy to either estimate the number of forfeitures or account for forfeitures when they occur. ASU 2016-09 becomes effective for the Company during the first quarter 2017. The Company is currently evaluating the effect that the updated standard will have on its consolidated financial statements and related disclosures.

In August 2016, the FASB issued ASU 2016-15, Classification of Certain Cash Receipts and Cash Payments. This ASU provides guidance to clarify how certain cash receipts and payments should be presented in the statement of cash flows. The guidance is effective for annual periods beginning after December 15, 2017, and interim periods within those annual periods. Early adoption is permitted in any annual or interim period. The updated guidance requires a modified retrospective adoption. The Company is evaluating the impact of adoption on the Company's financial position, results of operations and cash flow.

(4) Management's Plans

In light of the recent strength of the U.S. dollar, tightening margins and unfavorable growth trends and softness in certain sectors of commercial vehicle manufacturing, the Company has surrendered a portion of its traditional market share in the commercial vehicle manufacturing, due to its nonrenewal of certain supply agreements with Dana Holding Corporation ("Dana") in early 2015, and with Meritor, Inc. ("Meritor") for certain of its domestic, forged axle shafts, effective January 1, 2017. In response to these changes, management is developing various profit recovery and protection plans and evaluating strategic alternatives to optimize asset values in each of the Company's segments.

The Company has completed a number of its profit recovery and protection actions during 2015 and the first nine months of 2016, including: (i) the CSS sale (defined below), (ii) the Toluca Sale-Leaseback (defined below), (iii) the sale of the Company's manufacturing facility in Morganton, North Carolina (see Note 7), (iv) reductions in workforce at all locations, and (v) other reductions in employment costs through reduced work schedules, senior management pay reductions, deferral of merit increases and certain benefit payments. Using a portion of the proceeds generated from asset sales noted above, the Company paid off all senior debt and has received the benefit of cash infusions from Gill Family Capital Management, Inc. ("GFCM") in the form of subordinated promissory note obligations totaling \$6,500,000 in principal through the first nine months of 2016.

On August 16, 2016, the Company completed the sale of certain assets, intellectual property, contracts and other related assets of Sypris Electronics (the "CSS Sale") comprised principally of its SioMetrics, Cyber Range, Information Security Solutions and Data Systems product lines (see Note 5 "CSS Sale"). The sale generated gross proceeds of \$42,000,000. The retained portion of the Sypris Electronics segment will continue to provide electronic manufacturing and design support services to customers in the aerospace, defense, medical and severe environment markets, among others.

One of the additional actions implemented by management during 2016 was to consummate the sale and partial lease back of its facility located in Toluca Mexico, which generated gross proceeds of approximately \$12,182,000. Management will continue to operate in Toluca, but given the reduction in Sypris Technologies' revenues in 2015 and the overall downturn in the commercial vehicle markets beginning in the fourth quarter of 2015, management determined that the underutilized Toluca real estate value could be better optimized with a sale and lease back arrangement where some but not all of the facility would continue to be occupied and managed by Sypris Technologies.

Demand in the U.S. commercial vehicle industry has softened beginning in the fourth quarter of 2015 along with other durable and non-durable goods sectors in the North America economy. In response to the reduced demand, management implemented reductions in selling, general and administrative expense and labor expense during the first nine months of 2016. The expected benefits of the cost reductions were partially offset by the impact of minor investments and severance required to enable the cost reductions. Additionally, the Company is in the process of

developing a comprehensive restructuring plan, which is expected to be implemented starting in the fourth quarter of 2016. The restructuring plan may involve the streamlining of operations within Sypris Technologies in an effort to return to profitability in a timely basis.

The oil and gas industry has experienced significant price volatility, and as a result the Company's customers are delaying capital expenditures that support their growth and maintenance projects. The Company has identified some capacity reallocation opportunities between plants in the United States and Mexico. The Company has initiated the process of qualifying production for certain components in Mexico that are currently produced in the United States and completed the qualification for the first group of these components. The Company expects this capacity reallocation may accelerate during the remainder of 2016 as the capital necessary to fund the reallocation becomes available and the qualification process for the production is complete.

Management implemented certain cost reductions at the corporate headquarters that are expected to improve profitability and cash flow throughout 2016 and 2017. Salary reductions and other selling, general and administrative cost reductions were implemented during the first nine months of 2016 that management believes will continue to benefit the Company throughout future periods.

(5) CSS Sale

On August 16, 2016, the Company completed the sale of certain assets, intellectual property, contracts and other assets of Sypris Electronics (the “CSS Sale”) comprised principally of its SioMetrics, Cyber Range, Information Security Solutions and Data Systems product lines. The assets were sold for \$42,000,000 in cash consideration, \$1,500,000 of which is to be held in escrow for up to 12 months in connection with certain customary representations, warranties, covenants and indemnifications of the Company. The total book value of the related business assets included in the sale was \$8,086,000, and consisted of \$6,562,000 in inventories, \$1,050,000 in fixed assets, \$624,000 in other current assets and \$150,000 in accrued liabilities. The Company incurred transaction related expenses of \$2,674,000, and the Company recognized a net gain of \$31,240,000 on the sale, which is included in other income, net in the consolidated statement of operations for the three and nine months ended October 2, 2016.

A portion of the proceeds from the CSS Sale was used to pay off the Term Loan and pay down the outstanding balances under the Revolving Credit Facility. The retained portion of the Sypris Electronics segment will continue to provide electronic manufacturing and design support services to customers in the aerospace, defense, medical and severe environment markets, among others.

Revenue from the CSS product lines for the three and nine months ended October 2, 2016 was \$1,769,000 and \$11,061,000, respectively. Revenue from the CSS product lines for the three and nine months ended October 4, 2015 was \$6,822,000 and \$10,786,000, respectively. While the Company is able to distinguish revenue and contribution margin information related to the CSS business, the Company is not able to present meaningful information about the results of operations and cash flows of the CSS business. Therefore, the sale was not classified as a discontinued operation.

(6) Toluca Sale-Leaseback

On October 30, 2015, the Company entered into a non-binding letter of intent to sell and lease-back its property and buildings in Toluca, Mexico, which is part of the Sypris Technologies Group. As such, the Company concluded that the assets qualified for Assets Held for Sale accounting in accordance with Accounting Standards Codification (ASC) 205 as of December 31, 2015. The assets had a net book value of \$3,230,000 as of December 31, 2015.

On March 9, 2016, Sypris Technologies Mexico, S. de R.L. de C.V. (“Seller”), a subsidiary of the Company, concluded its sale of the 24-acre Toluca property pursuant to an agreement with Promotora y Desarrolladora Pulso Inmobiliario, S.C. (together with its affiliates and assignees, “Buyer”) for 215,000,000 Mexican Pesos, or approximately \$12,182,000 in U.S. currency. Simultaneously, the Seller and the Buyer entered a long-term lease of the 9 acres and buildings

currently occupied by Seller and needed for its ongoing business in Toluca (collectively, the “Toluca Sale-Leaseback”). The Company incurred transaction related expenses of \$1,116,000.

As a result of the Toluca Sale-Leaseback, the Company initially recorded a capital lease of \$3,315,000, which is included in property plant and equipment. The Company recorded an initial gain on the sale of \$2,370,000 during the nine months ended October 2, 2016, which is included in other income, net in the consolidated statement of operations, and recorded a deferred gain of \$4,779,000 as of October 2, 2016, which will be recognized over the ten year lease term. The Company’s base rent, which is denominated in U.S. currency, is \$936,000 annually, adjusted based on U.S. CPI with certain cap conditions.

The following assets have been segregated and included in assets held for sale in the consolidated balance sheet as of December 31, 2015 (in thousands):

	December 31, 2015
Land and land improvements	\$ 1,568
Buildings and building improvements	3,658
Accumulated depreciation	(1,996)
Property, plant and equipment, net	\$ 3,230

(7) Morganton Sale

On July 9, 2015, the Company entered into an asset purchase agreement (the “Agreement”) to sell certain assets used in the Company’s manufacturing facility in Morganton, North Carolina, to its largest customer, Meritor, Inc. (“Meritor”). The Company retained the Morganton plant’s axle shaft manufacturing lines and certain related assets, intellectual property and inventories, which were transitioned to the Company’s Louisville, Kentucky plant in October 2015. All other Morganton equipment, related assets and intellectual property were sold to Meritor (the “Morganton Sale”) for \$10,500,000 in cash paid at the closing and other consideration. Meritor purchased related inventories and accounts receivable and assumed or released certain accounts payable and other accrued liabilities, for \$2,000,000 (subject to customary post-closing adjustments to actual). Meritor also purchased the Morganton building and real estate for \$3,200,000. The total proceeds received of \$15,700,000, primarily in consideration for the Morganton sale, were used to pay down the Company’s prior senior secured debt. As a result of the Morganton sale, the Company recognized a gain of \$7,744,000.

At closing, the parties also entered into an amendment to a secured promissory note with Meritor in an original principal amount of \$3,047,000 (the “Meritor Note”) to increase the principal balance by \$412,000, effective July 9, 2015. The parties also agreed to increase the Meritor Note by an additional \$321,000 in September 2015 to reflect certain roof repairs required at the Morganton facility. The Company repaid the Meritor Note on October 30, 2015.

(8) Income (loss) Per Common Share

The Company computes earnings per share using the two-class method, which is an earnings allocation formula that determines earnings per share for common stock and participating securities. Restricted stock granted by the Company is considered a participating security since it contains a non-forfeitable right to dividends.

Our potentially dilutive securities include potential common shares related to our stock options and restricted stock. Diluted earnings per share considers the impact of potentially dilutive securities except in periods in which there is a loss because the inclusion of the potential common shares would have an anti-dilutive effect. Diluted earnings per share excludes the impact of common shares related to our stock options in periods in which the option exercise price is greater than the average market price of our common stock for the period. There were 2,304,250 potential common shares excluded from diluted earnings per share for the three and nine months ended October 2, 2016. For the three and nine months ended October 4, 2015, diluted weighted average common shares do not include the impact of any outstanding stock options and unvested compensation-related shares because the effect of these items on diluted net loss would be anti-dilutive.

Edgar Filing: SYPRIS SOLUTIONS INC - Form 10-Q

A reconciliation of the weighted average shares outstanding used in the calculation of basic and diluted earnings (loss) per common share is as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	October	October	October	October
	2,	4,	2,	4,
	2016	2015	2016	2015
	(Unaudited)		(Unaudited)	
Income (loss) attributable to stockholders:				
Net income (loss) as reported	\$20,993	\$(274)	\$10,691	\$(21,723)
Less distributed and undistributed earnings allocable to restricted award holders	(737)	0	(331)	0
Net income (loss) allocable to common stockholders	\$20,256	\$(274)	\$10,360	\$(21,723)
Income (loss) per common share attributable to stockholders:				
Basic	\$1.02	\$(0.01)	\$0.52	\$(1.10)
Diluted	\$1.02	\$(0.01)	\$0.52	\$(1.10)
Weighted average shares outstanding – basic	19,834	19,654	19,761	19,684

	\$ 15,166	\$ 20,192

(10) Property, Plant and Equipment

Property, plant and equipment consists of the following (in thousands):

	October 2, 2016 (Unaudited)	December 31, 2015
Land and land improvements	\$ 219	\$219
Buildings and building improvements	17,566	18,305
Machinery, equipment, furniture and fixtures	120,531	123,935
Construction in progress	1,899	759
	140,215	143,218
Accumulated depreciation	(119,291)	(121,040)
	\$ 20,924	\$22,178

(11) Debt

Long-term debt and capital lease obligations consists of the following:

	October 2, 2016 (Unaudited)	December 31, 2015
Current:		
Revolving Credit facility	\$ 0	\$ 2,132
Current portion of long term debt	0	1,714
Current portion of capital lease obligation	203	0
Current debt and capital lease obligation	\$ 203	\$ 3,846
Long Term:		
Term loan	\$ 0	\$ 10,000
Note payable – related party	6,500	5,500
Capital lease obligation	3,008	0
Less unamortized debt issuance and modification costs	(140)	(1,220)
Long term debt and capital lease obligations, net of unamortized debt costs	\$ 9,368	\$ 14,280

Note Payable – Related Party

During 2015, the Company received the proceeds of subordinated indebtedness from GFCM in an amount of \$5,500,000. On February 26, 2016, the Company further amended the GFCM note to increase the amount by \$1,000,000 to \$6,500,000. GFCM is an entity controlled by the Company's chairman, president and chief executive officer, Jeffrey T. Gill and one of our directors, R. Scott Gill. GFCM, Jeffrey T. Gill and R. Scott Gill are significant beneficial stockholders of the Company. The promissory note bears interest at a rate of 8.00% per year and the principal is due on January 30, 2019. On September 30, 2016, the Note was amended to begin paying interest on a quarterly basis.

Revolving Credit Facility and Term Loan

On October 30, 2015, the Company secured debt financing consisting of a \$12,000,000 term loan (“Term Loan”) and a \$15,000,000 revolving credit facility (“Revolving Credit Facility”). Proceeds from the two new financing arrangements (collectively the “Loan Agreements”) were used in part to repay the senior secured debt with a prior lender and the Meritor Note.

On February 25, 2016, the Company entered into an amendment (the “Term Loan Amendment”) to the Term Loan and an amendment (the “Revolving Credit Amendment”) to the Revolving Credit Facility (together, the “Amendments”). The Amendments increased the Company’s borrowing capability under its Revolving Credit Facility and provided for an agreement on the use of proceeds from the sale of its Toluca, Mexico property and buildings, as described below.

As a result of the Term Loan Amendment, the Company deposited \$6,000,000 of the proceeds of the sale-leaseback of its Toluca, Mexico property and buildings (the “Toluca Sale-Leaseback”) into a Cash Collateral Account, to be held as additional collateral for the Term Loan. The Term Loan Amendment also permitted the Company to retain the remaining balance of the proceeds from Toluca Sale-Leaseback, and increased the interest rate of the Term Loan by 1.0%.

On August 16, 2016, the Company repaid the Term Loan in full and paid down the Revolving Credit Facility with proceeds generated from the CSS Sale (see Note 5 “CSS Sale”). In connection with the repayment of the Term Loan, the \$6,000,000 balance of the Cash Collateral Account was released. Additionally, on September 2, 2016, the Company terminated and paid all remaining obligations due under the Company’s Revolving Credit Facility. As a result of the early extinguishment of debt, the Company was required to pay \$1,521,000 in penalties, which is included in loss on extinguishment of debt in the accompanying statements of operations, and wrote off the remaining amount of deferred loan costs associated with the Term Loan and Revolving Credit Facility, which is included in interest expense, net in the accompanying statements of operations.

The classification of debt as of December 31, 2015 considers debt outstanding under the Loan Agreements on a long-term basis. However, the Revolving Credit Facility allows the lender to establish certain reserves against the borrowing base which could, under certain circumstances, cause a potential event of default. Because such an event is not objectively measureable in advance and because the Company was required to maintain a lock-box arrangement, ASC 470-10-45 requires the otherwise long-term revolving advances to be classified as a current liability. As a result, all borrowings under the Revolving Credit Facility have been classified in the accompanying consolidated balance sheets as a current liability.

Capital Lease Obligation

On March 9, 2016, the Company completed the sale of its 24-acre Toluca property pursuant to an agreement with Promotora y Desarrolladora Pulso Inmobiliario, S.C. (together with its affiliates and assignees, "Buyer") for 215,000,000 Mexican Pesos, or approximately \$12,182,000 in U.S. currency. Simultaneously, the Company entered into a long-term lease of the 9 acres and buildings currently occupied by the Company and needed for its ongoing business in Toluca (see Note 6 "Toluca Sale-Leaseback"). The Company incurred transaction related expenses of \$1,116,000.

The Company recorded an initial gain on the sale of \$2,370,000 during the nine months ended October 2, 2016, which is included in other income, net in the consolidated income statement, and recorded a deferred gain of \$4,779,000 as of October 2, 2016, which will be recognized over the ten year lease term. The Company's base rent, which is denominated in U.S. currency, is \$936,000 annually, adjusted based on U.S. CPI with certain cap conditions. As a result of the Toluca Sale-Leaseback, the Company has a capital lease obligation of \$3,211,000 for the building.

The future minimum payments for the capital lease as of October 2, 2016 are as follows (in thousands):

2016 (remaining 3 months)	\$ 137
2017	503
2018	549
2019	549
2020	503
Thereafter	2,834
Total future payments	5,075
Less: Amount representing interest	(1,864)
Present value of future minimum payments	3,211
Less: Current portion	(203)
Long term portion	\$3,008

(13) Segment Data

The Company is organized into two business groups, Sypris Technologies and Sypris Electronics. These segments are each managed separately because of the distinctions between the products, services, markets, customers, technologies and workforce skills of the segments. Sypris Technologies provides manufacturing services for a variety of customers that outsource forged and finished steel components and subassemblies. Sypris Technologies also manufactures high-pressure closures and other fabricated products. Sypris Electronics provides manufacturing and technical services as an outsourced service provider and manufactures complex data storage systems. Additionally, prior to August 16, 2016, Sypris Electronics also provided trusted solutions for identity management, cryptographic key distribution and cyber analytics (see Note 5 “CSS Sale”). There was no intersegment net revenue recognized in any of the periods presented.

The following table presents financial information for the reportable segments of the Company (in thousands):

	Three Months		Nine Months	
	Ended		Ended	
	October	October	October	October
	2,	4,	2,	4,
	2016	2015	2016	2015
	(Unaudited)		(Unaudited)	
Net revenue from unaffiliated customers:				
Sypris Technologies	\$14,796	\$27,824	\$47,392	\$87,904
Sypris Electronics	6,588	10,613	24,434	28,298

	\$(6,033)	\$(4,077)	\$(17,064)	\$(24,807)

	October 2, 2016 (Unaudited)	December 31, 2015
Total assets:		
Sypris Technologies	\$ 34,073	\$ 38,968
Sypris Electronics	14,316	23,845
General, corporate and other	24,289	4,079
	\$ 72,678	\$ 66,892

(14) Commitments and Contingencies

The provision for estimated warranty costs is recorded at the time of sale and periodically adjusted to reflect actual experience. The Company's warranty liability, which is included in accrued liabilities in the accompanying balance sheets as of October 2, 2016 and December 31, 2015, was \$851,000 and \$830,000, respectively. The Company's warranty expense for the nine months ended October 2, 2016 and October 4, 2015 was \$64,000 and \$112,000, respectively.

Additionally, prior to the CSS sale, the Company sold three and five-year extended warranties for one of its link encryption products. The revenue from the extended warranties is deferred and recognized ratably over the contractual term. As of October 2, 2016 and December 31, 2015, the Company had deferred \$245,000 and \$495,000, respectively, related to extended warranties.

The Company bears insurance risk as a member of a group captive insurance entity for certain general liability, automobile and workers' compensation insurance programs and a self-insured employee health program. The Company records estimated liabilities for its insurance programs based on information provided by the third-party plan administrators, historical claims experience, expected costs of claims incurred but not paid, and expected costs to settle unpaid claims. The Company monitors its estimated insurance-related liabilities on a quarterly basis. As facts change, it may become necessary to make adjustments that could be material to the Company's consolidated results of operations and financial condition. The Company believes that its present insurance coverage and level of accrued liabilities are adequate.

As of October 2, 2016, the Company had outstanding purchase commitments of approximately \$9,346,000, primarily for the acquisition of inventory and manufacturing equipment. As of October 2, 2016, the Company also had outstanding letters of credit approximating \$66,000 for certain foreign customers.

The Company is involved in certain litigation and contract issues arising in the normal course of business. As a result, contingencies may arise resulting from an existing condition, situation, or set of circumstances involving an uncertainty as to the realization of a possible loss.

The Company accounts for loss contingencies in accordance with GAAP. Estimated loss contingencies are accrued only if the loss is probable and the amount of the loss can be reasonably estimated. With respect to a particular loss contingency, it may be probable that a loss has occurred but the estimate of the loss is within a wide range or undeterminable. If the Company deems an amount within the range to be a better estimate than any other amount within the range, that amount will be accrued. However, if no amount within the range is a better estimate than any other amount, the minimum amount of the range is accrued.

During the fourth quarter of 2015, the Company gave notification regarding its intention to not renew the lease for its Tampa, FL facility, which will expire on December 31, 2016. During the first quarter of 2016, the Company entered into lease negotiations to extend the current lease for a smaller portion of the facility, but was unable to reach an agreement on the economics of a lease renewal with its current landlord. On May 3, 2016, the Company entered a lease for an alternative facility, which it expects to occupy upon the expiration of the current lease. The Company, Sypris Electronics and the landlord of the Tampa facility are currently involved in litigation over certain terms of the lease (see Item 1, "Legal Proceedings"). As such, it is reasonably possible that the Company may be required to make certain repairs to the current facility in connection with the expiration of the Lease. The current estimate of the Company's reasonably possible loss contingency is from no liability to \$4,000,000. While the Company intends to vigorously dispute these claims, the Company accrued \$500,000 during the nine months ended October 2, 2016 related to its estimated potential obligation under the lease. This accrual is included in accrued liabilities in the Company's consolidated balance sheet as of October 2, 2016.

(15) Income Taxes

The provision for income taxes includes federal, state, local and foreign taxes. The Company's effective tax rate varies from period to period due to the proportion of foreign and domestic pre-tax income expected to be generated by the Company. The Company provides for income taxes for its domestic operations at a statutory rate of 35% and for its foreign operations at a statutory rate of 30% in 2016 and 2015. Reconciling items between the federal statutory rate and the effective tax rate also include the expected usage of federal net operating loss carryforwards, state income taxes, valuation allowances and certain other permanent differences.

The Company recognizes liabilities or assets for the deferred tax consequences of temporary differences between the tax bases of assets or liabilities and their reported amounts in the financial statements in accordance with ASC 740, *Income Taxes*. These temporary differences will result in taxable or deductible amounts in future years when the reported amounts of assets or liabilities are recovered or settled. ASC 740 requires that a valuation allowance be established when it is more likely than not that all or a portion of a deferred tax asset will not be realized. The Company evaluates its deferred tax position on a quarterly basis and valuation allowances are provided as necessary. During this evaluation, the Company reviews its forecast of income in conjunction with other positive and negative evidence surrounding the realizability of its deferred tax assets to determine if a valuation allowance is needed. Based on its current forecast, the Company has established a valuation allowance against the domestic net deferred tax asset.

As a result of the increased uncertainty surrounding the Company's forecast of taxable income in Mexico, it was determined that the Company no longer met the "more likely than not" threshold required under ASC 740-10 in order to maintain the Mexico deferred tax asset. Accordingly, the Company recorded a valuation allowance on its net deferred tax asset related to certain non-U.S. tax benefits, resulting in deferred tax expense of \$2,436,000 during the third quarter ended October 4, 2015. Until an appropriate level and characterization of profitability is attained, the Company expects to continue to maintain a valuation allowance on its net deferred tax assets related to future U.S. and non-U.S. tax benefits.

The Company expects to repatriate available non-U.S. cash holdings in 2016 to support management's strategic objectives and fund ongoing U.S. operational cash flow requirements; therefore current earnings from non-U.S. operations are not treated as permanently reinvested. The U.S. income tax expense recorded in 2015 on these non-U.S. earnings was offset by the benefit of a partial release of a valuation allowance on U.S. net operating loss carryforwards. Should the U.S. valuation allowance be released at some future date, the U.S. tax expense on foreign earnings not permanently reinvested might have a material effect on our effective tax rate. For the year ending December 31, 2016, the Company expects any additional tax expense from non-U.S. withholding and other taxes expected to be incurred on repatriation of current earnings would not be material.

(16) Employee Benefit Plans

Pension expense (benefit) consisted of the following (in thousands):

	Three Months Ended October 2, 2016 (Unaudited)		Nine Months Ended October 2, 2016 (Unaudited)	
	4, 2015		4, 2015	
Service cost	\$1	\$ 3	\$4	\$ 10
Interest cost on projected benefit obligation	419	423	1,256	1,268
Net amortizations, deferrals and other costs	166	173	498	520
Expected return on plan assets	(493)	(561)	(1,478)	(1,683)
	\$93	\$ 38	\$280	\$ 115

(17) Accumulated Other Comprehensive Loss

The Company's accumulated other comprehensive loss consists of employee benefit-related adjustments and foreign currency translation adjustments.

Accumulated other comprehensive loss consisted of the following (in thousands):

	October 2, 2016 (Unaudited)	December 31, 2015
Foreign currency translation adjustments	\$ (10,697)	\$ (9,554)
Employee benefit related adjustments – U.S.	(16,177)	(16,177)
Employee benefit related adjustments – Mexico	(29)	(29)
Accumulated other comprehensive loss	\$ (26,903)	\$ (25,760)

(18) Fair Value of Financial Instruments

Cash, accounts receivable, accounts payable and accrued liabilities are reflected in the consolidated financial statements at their carrying amount which approximates fair value because of the short-term maturity of those instruments. The carrying amount of debt outstanding at October 2, 2016 approximates fair value and is based upon a market approach (Level 2).

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

We are a diversified provider of manufacturing services and products. We perform a wide range of manufacturing, engineering, design and other technical services, often under multi-year, sole-source contracts with corporations and government agencies principally in the markets for industrial manufacturing and aerospace and defense electronics.

We are organized into two business groups, Sypris Technologies and Sypris Electronics. Sypris Technologies, which is comprised of Sypris Technologies, Inc. and its subsidiaries, generates revenue primarily from the sale of manufacturing services to customers in the market for truck components and assemblies and from the sale of products to the energy and chemical markets. Sypris Electronics, which is comprised of Sypris Electronics, LLC, generates revenue primarily from the sale of manufacturing and technical services as an outsourced service provider to customers in the market for aerospace and defense electronics. Additionally, prior to August 16, 2016, Sypris Electronics also provided trusted solutions for identity management, cryptographic key distribution and cyber analytics and manufactured complex data storage systems.

We focus on those markets where we have the expertise, qualifications and leadership position to sustain a competitive advantage. We target our resources to support the needs of industry leaders that embrace technological innovation and flexibility, coupled with multi-year contractual relationships, where possible, as a strategic component of their supply chain management. Our leading-edge processes and technologies help our customers remain competitive and the resulting productivity and flexibility offer an important opportunity for differentiating ourselves from our competitors when it comes to cost, quality, reliability and customer service.

Sypris Technologies Outlook

In North America, production levels for light, medium and heavy duty trucks steadily increased from a low in the depressed economic environment of 2008 and 2009 through 2015, but are anticipated to decrease from 2015 through 2016 and 2017. Production levels for the remainder of 2016 are expected to remain relatively consistent with the lower levels experienced in the first nine months of 2016 and increase slightly in 2017. The continued strength of the U.S. dollar, the tightening of margins in certain sectors of the commercial vehicle markets and the generally softening markets have led the Company to reevaluate the strategic importance of each of its customers to the Company's long-term success. In connection with this reevaluation process, the Company and Meritor have determined not to renew their current supply agreement for certain of Meritor's domestic, forged axle shafts, beginning in 2017. For the nine months ended October 2, 2016, this portion of the Meritor business represented approximately 17% of our consolidated net revenue. However, the Company will continue to supply significant volumes of component parts to Sistemas Automotrices de Mexico, S.A de C.V. ("Sisamex"), Meritor's joint venture in Mexico, and will continue to

supply axle shafts to Meritor's Brazilian subsidiary going forward.

The oil and gas markets, served by our engineered products line of Tube Turns® products, have been impacted, as some of our customers' revenues and near term capital expenditures have declined along with oil prices generally. However, the oil and gas outlook appears to be stabilizing as oil prices show signs of recovery and domestic pipeline projects continue to be active.

Sypris Electronics Outlook

We have faced challenges within Sypris Electronics, such as the uncertainty in the worldwide macroeconomic climate and its impact on aerospace and defense spending patterns globally, the emergence of new competitors to our product and service offerings, as well as federal government spending uncertainties in the U.S. and the allocation of funds by the U.S. Department of Defense.

Sypris Electronics' revenue had declined from 2009 through 2014 primarily due to our inability to replace the declining demand for certain legacy products and services with competitive new offerings. However, revenues increased in 2015 and in the first nine months of 2016, as we have begun to generate revenue from the ramp-up of new electronic manufacturing services and other technical service programs.

On August 16, 2016, the Company completed the sale of certain assets, intellectual property, contracts and other assets of Sypris Electronics (the “CSS Sale”) comprised principally of its SioMetrics, Cyber Range, Information Security Solutions and Data Systems product lines. The assets were sold for \$42.0 million in cash consideration, \$1.5 million of which is to be held in escrow for up to 12 months in connection with certain customary representations, warranties, covenants and indemnifications of the Company. The retained portion of the Sypris Electronics segment will continue to provide electronic manufacturing and design support services to customers in the aerospace, defense, medical and severe environment markets, among others.

Management’s Plan

In light of the recent strength of the U.S. dollar, tightening margins and unfavorable growth trends and softness in certain sectors of commercial vehicle manufacturing, the Company has surrendered a portion of its traditional market share in commercial vehicle manufacturing due to its nonrenewal of certain supply agreements with Dana Holding Corporation (“Dana”) in early 2015, and with Meritor, Inc. for certain of its domestic, forged axle shafts, effective January 1, 2017. However, the Company will continue to supply significant volumes of component parts to Sisamex and will continue to supply axle shafts to Meritor’s Brazilian subsidiary going forward.

The Company has completed a number of profit recovery and protection actions in 2015 and the first nine months of 2016, including: (i) the CSS sale (defined below), (ii) the Toluca Sale-Leaseback (defined below), (iii) the sale of the Company’s manufacturing facility in Morganton, North Carolina, (iv) reductions in workforce at all locations, and (v) other reductions in employment costs through reduced work schedules, senior management pay reductions, deferral of merit increases and certain benefit payments. Using a portion of the proceeds generated from the asset sales noted above, the Company paid off all senior debt in 2016 and has received the benefit of cash infusions from Gill Family Capital Management, Inc. (“GFCM”) in the form of subordinated promissory note obligations totaling \$6.5 million in principal through the first nine months of 2016. Gill Family Capital Management, Inc. (“GFCM”) is an entity controlled by the Company’s chairman, president and chief executive officer, Jeffrey T. Gill and one of our directors, R. Scott Gill.

On August 16, 2016, the Company completed the sale of certain assets, intellectual property, contracts and other related assets of Sypris Electronics (the “CSS Sale”) comprised principally of its SioMetrics, Cyber Range, Information Security Solutions and Data Systems product lines (see Note 5 “CSS Sale”). The sale generated gross proceeds of \$42.0 million. The retained portion of the Sypris Electronics segment will continue to provide electronic manufacturing and design support services to customers in the aerospace, defense, medical and severe environment markets, among others.

In connection with the CSS Sale, management has initiated the process of preparing a long-term business plan for the business units retained by Sypris Electronics after the divestiture. Management intends to include in its plan a continuing effort to grow and diversify its electronic manufacturing service business and the identification of

opportunities for cost reductions and cash flow enhancements for the retained portion of the business.

One of the additional actions implemented by management during 2016 was to consummate the sale and partial lease back of its facility located in Toluca, Mexico, which generated gross proceeds of approximately \$12.2 million (the “Toluca Sale-Leaseback”) (see Note 6 “Toluca Sale-Leaseback” to the consolidated financial statements in this Form 10-Q). Management will continue to operate in Toluca, but given the reduction in Sypris Technologies’ revenues in 2015 and the overall downturn in the commercial vehicle markets beginning in the fourth quarter of 2015, management determined that the underutilized Toluca real estate value could be better optimized with a sale and lease back arrangement where some but not all of the facility would continue to be occupied and managed by Sypris Technologies.

Demand in the U.S. commercial vehicle industry has softened beginning in the fourth quarter of 2015 along with other durable and non-durable goods sectors in the North America economy. In response to the reduced demand, management implemented reductions in selling, general and administrative expense and labor expense during the first nine months of 2016. The expected benefits of the cost reductions were partially offset by the impact of minor investments and severance required to enable the cost reductions. Additionally, the Company is in the process of developing a comprehensive restructuring plan, which is expected to be implemented starting in the fourth quarter of 2016. The restructuring plan may involve the streamlining of operations within Sypris Technologies in an effort to return to profitability in a timely basis.

The oil and gas industry has experienced significant price volatility, and as a result, the Company's customers are delaying capital expenditures that support their growth and maintenance projects. The Company has identified some capacity reallocation opportunities between plants in the United States and Mexico. The Company has initiated the process of qualifying production for certain components in Mexico that are currently produced in the United States and completed the qualification for the first group of these components. The Company expects this capacity reallocation may accelerate during the remainder of 2016 as the capital necessary to fund the reallocation becomes available and the qualification process for the production is complete.

Management has identified certain cost reductions at the corporate headquarters that are expected to improve profitability and cash flow throughout 2016. Salary reductions and other selling, general and administrative cost reductions were implemented during the first nine months of 2016 that management believes will continue to benefit the company throughout future periods. Additional cost reductions have been identified in the area of professional services, administration and lease expense.

Sypris Technologies has also developed and begun to implement new marketing plans, especially as we seek to migrate from a small number of traditional Tier 1 customers in the commercial vehicle markets, including Dana and Meritor, to a more diversified base of customers who are able to place higher strategic value on our innovation, flexibility and lean manufacturing capabilities. For the commercial vehicle markets, these new plans include a focused effort by the Company's senior management to engage directly with a select number of current and potential customers, especially those OEM's who have expressed an interest in our approach, to explore the new capabilities, additional product innovations and reduced cost structures that we are working, and investing, to offer beginning in 2017. For the energy markets, the Company's marketing plans include a new strategic focus on the North American natural gas markets and on the oil and gas markets in the Middle East. We continue to believe that our long-term commitment to high quality pipeline components will position us to grow with certain targeted customers who are experiencing increased demand, especially for our patented closure products.

Results of Operations

The tables below compare our segment and consolidated results for the three and nine month periods of operations of 2016 to the three and nine month periods of operations of 2015. The tables present the results for each period, the change in those results from 2015 to 2016 in both dollars and percentage change and the results for each period as a percentage of net revenue.

The first two columns in each table show the absolute results for each period presented.

The columns entitled “Year Over Year Change” and “Year Over Year Percentage Change” show the change in results, both in dollars and percentages. These two columns show favorable changes as positive and unfavorable changes as negative. For example, when our net revenue increases from one period to the next, that change is shown as a positive number in both columns. Conversely, when expenses increase from one period to the next, that change is shown as a negative number in both columns.

The last two columns in each table show the results for each period as a percentage of net revenue. In these two columns, the cost of sales and gross profit for each are given as a percentage of that segment’s net revenue. These amounts are shown in italics.

In addition, as used in the table, “NM” means “not meaningful.”

Net Revenue. Sypris Technologies derives its revenue from manufacturing services and product sales. Net revenue for Sypris Technologies for the three and nine month periods ended October 2, 2016 decreased \$13.0 million and \$40.5 million from the prior year comparable periods, respectively. The loss of the trailer axle revenue with the sale of assets in Morganton accounted for \$0.9 million and \$13.2 million of the decline for the three and nine month periods, respectively. Additionally, the Company experienced a decrease in revenue of \$9.9 million and \$21.8 million in the three and nine months ended October 2, 2016 resulting primarily from lower demand from customer in the commercial vehicle and oil and gas industries. Furthermore, a decline in steel prices, which is passed through to customers under certain contracts, resulted in a decrease in revenue of \$2.8 million and \$4.8 million, respectively, for

the three and nine months ended October 2, 2016.

Sypris Electronics derives its revenue from product sales and technical outsourced services. Net revenue for Sypris Electronics for the three and nine month periods ended October 2, 2016 decreased \$4.0 million and \$3.9 million from the prior year comparable periods, primarily from the sale of certain product lines (See Note 5 “CSS Sale” to the consolidated financial statements in this Form 10-Q).

Gross Profit. Sypris Technologies’ gross profit decreased to a loss of \$0.4 million for the three months ended October 2, 2016, and increased \$0.3 million to a loss of \$1.3 million for the nine months ended October 2, 2016. Sypris Technologies has continued to adjust its fixed overhead structure in order to better align with current volumes. These adjustments, combined with lower depreciation expense resulted in an increase in gross profit of \$0.1 million and \$5.6 million for the three and nine months ended October 2, 2016. However, the decrease in volume attributable to lower demand from customers in the commercial vehicle and oil and gas industries has resulted in a decrease in gross profit of \$2.4 million and \$5.3 million for the three and nine months ended October 2, 2016, respectively.

Sypris Electronics' gross profit decreased to a loss of \$0.4 million in the three month period ended October 2, 2016, as compared to profit of \$0.5 million in the prior year comparable periods. Gross profit in the prior year comparable period reflected the commissioning of a Cyber Range, which carried a high margin. Gross profit for the nine months ended October 2, 2016 increased \$1.2 million to \$2.0 million as a result of a favorable mix in sales of higher margin products and services in addition to a reduction in the overhead structure from the prior year comparable period.

Selling, General and Administrative. Selling, general and administrative expense decreased by \$0.8 million and \$5.5 million for the three and nine month periods ended October 2, 2016, respectively, as compared to the same periods in 2015, primarily as a result of a decrease in legal expenses regarding contract negotiations and the related dispute with Dana, as the litigation is substantially complete. Additionally, the Company initiated various cost reduction activities in 2015 in response to the loss of Dana and other market developments, including employee compensation and headcount reductions and the sale of the Company's Morganton facility (See Note 7, "Morganton Sale" to the consolidated financial statements in this Form 10-Q). Partially offsetting this was a \$0.5 million accrual for a contingent liability related to the exit of one of our leased facilities recorded during the first nine months of 2016 (see Note 14 "Commitments and Contingencies" to the consolidated financial statements in this Form 10-Q).

Research and Development. Research and development costs were \$0.1 million and \$0.3 million for the three and nine months ended October 2, 2016 as compared to \$0.1 million and \$0.6 million for the three and nine month comparable 2015 periods in support of Sypris Electronics' self-funded product and technology development activities. With the sale of the CSS businesses, research and development activities are expected to be immaterial going forward.

Severance. Severance costs were \$0.5 million for the nine months ended October 2, 2016 and were comprised of headcount reductions within Sypris Technologies. See Note 4 "Management's Plans" to the consolidated financial statements in this Quarterly Report on Form 10-Q. Additional severance costs may be incurred as part of the Company's ongoing efforts to streamline its operations and reduce its costs.

Interest Expense. Interest expense for the three and nine months ended October 2, 2016 increased due to an increase in interest rates as a result of the Revolving Credit Facility and Term Loan entered into in the fourth quarter of 2015, which increased the Company's interest rate structure. Additionally, the Revolving Credit Facility and Term Loan were repaid during the third quarter of 2016 and the Company wrote off the remaining unamortized debt issuance and modification costs (see Note 11 "Debt" to the consolidated financial statements in this Quarterly Report on Form 10-Q). The Company expects annual interest expense to decrease going forward as a result of the debt repayments in the third quarter of 2016.

Loss on Extinguishment of Debt. During the third quarter of 2016, the Company used proceeds from the CSS Sale to payoff of the Revolving Credit Facility and Term Loan. For the three and nine months ended October 2, 2016, we recognized a loss of \$1.5 million on the early extinguishment of debt for prepayment penalties.

Other Income, Net. The Company recognized other income of \$31.6 million and \$34.2 million for the three and nine months ended October 2, 2016, respectively. Other income, net for the first nine months of 2016 includes a net gain of \$31.2 million from the CSS Sale (see Note 5 “CSS Sale” to the consolidated financial statements in this Form 10-Q). Additionally, other income for the first nine months of 2016 includes \$2.4 million related to the gain recognized on the Toluca Sale-Leaseback completed during the first quarter of 2016 (See Note 6 “Toluca Sale-Leaseback” to the consolidated financial statements in this Form 10-Q).

The Company recognized other income of \$7.8 million and \$8.6 million for the three and nine months ended October 4, 2015, respectively, which consisted primarily of a gain of \$7.7 million related to the Morganton Sale (see Note 7 “Morganton Sale” to the consolidated financial statement in this Form 10-Q). Additionally, during the nine months ended October 4, 2015, the Company recognized \$0.5 million related to an arbitration settlement in the Dana dispute received in the second quarter of 2015.

Income Taxes. Income tax expense for the three and nine months ended October 2, 2016 was \$0.2 million as compared to \$2.3 million for the three and nine months ended October 4, 2015. During the third quarter of 2015, it was determined that the Company no longer met the “more likely than not” threshold required under ASC 740-10 in order to maintain the Mexico deferred tax asset. Accordingly, the Company recorded a valuation allowance on its net deferred tax asset related to certain non-U.S. tax benefits, resulting in deferred tax expense of \$2.4 million during the third quarter ended October 4, 2015.

In the U.S., our recent history of operating losses does not allow us to satisfy the “more likely than not” criterion for recognition of deferred tax assets. Therefore, there is generally no federal income tax recognized on the pre-tax income or losses in the U.S., as valuation allowance adjustments offset the associated tax effect. However, the Company has provided for certain state taxes expected to be paid in the U.S.

Liquidity, Capital Resources

As described in more detail elsewhere in this report, as a result of the loss of Dana as a key customer, the Company experienced substantially reduced levels of revenue and cash flows beginning in 2015. Additionally, softness in the commercial vehicle market, which began in the fourth quarter of 2015, has continued through the first nine months of 2016 and is expected to continue through the remainder of the year. In addition, our negotiations to renew the current supply agreement with Meritor have concluded with the nonrenewal of our obligation to manufacture certain domestic forged axle shafts for Meritor. However, the Company will continue to supply significant volumes of component parts to Sisamex, and will continue to supply axle shafts to Meritor’s Brazilian subsidiary going forward. These developments also prompted us to reexamine our strategies, develop recovery plans and cut our costs significantly. Reductions in our available liquidity have also required closer monitoring of the timing of our capital expenditures and cash flows in order to manage our business operations.

In response, we took significant actions during 2015 to identify alternative uses for the related assets and other contingency plans, including the sale of certain assets used in the Company’s manufacturing facility in Morganton, North Carolina within the Sypris Technologies segment. In 2015, we received approximately \$15.7 million in total consideration for the Morganton Sale and related transactions, all of which were applied to pay down our senior secured debt (See Note 7 “Morganton Sale” to the consolidated financial statements in this Form 10-Q). On October 30, 2015, the Company’s prior senior secured debt was replaced by the Loan Agreements and paid in full. In addition, the Company has received three cash infusions from GFCM, in the form of subordinated promissory note obligations totaling \$6.5 million in principal through the first nine months of 2016.

Additionally, during 2016 the Company entered into the Toluca Sale-Leaseback transaction whereby we sold the entire facility and leased back the portion of the facility currently occupied by the Company in Toluca, Mexico, for our continued use as a manufacturing facility for ten years commencing upon the execution of the lease and terminating on March 9, 2026. The Company’s base rent, which is denominated in U.S. currency, is \$0.9 million annually, adjusted based on U.S. CPI with certain cap conditions. The transaction generated gross proceeds of 215.0 million Mexican Pesos, or approximately \$12.2 million dollars in U.S. currency.

On August 16, 2016, the Company completed the sale of certain assets, intellectual property, contracts and other assets of Sypris Electronics (the “CSS Sale”) comprised principally of its SioMetrics, Cyber Range, Information Security Solutions and Data Systems product lines. See Note 5 “CSS Sale” to the consolidated financial statements. The assets were sold for \$42.0 million in cash consideration, \$1.5 million of which is to be held in escrow for up to 12

months in connection with certain customary representations, warranties, covenants and indemnifications of the Company. A portion of the proceeds from the CSS Sale was used to pay off the Term Loan and pay down the outstanding balances under the Revolving Credit Facility.

Revolving Credit Facility and Term Loan. On October 30, 2015, the Company entered into Loan Agreements providing for a \$12.0 million Term Loan and a \$15.0 million Revolving Credit Facility. Proceeds from the Loan Agreements were used to repay the prior senior secured debt and the Meritor Note.

On February 25, 2016, the Company entered into an amendment (the “Term Loan Amendment”) to the Term Loan and an amendment (the “Revolving Credit Facility Amendment”) to the Revolving Credit Facility (together, the “Amendments”). The Amendments had the effect, among other things, of increasing the Company’s borrowing capability under its Revolving Credit Agreement and providing for an agreement on the use of proceeds from the Toluca Sale-Leaseback, as described below. As part of the Amendments, the Company also received an additional \$1.0 million subordinated loan from GFCM, as described below.

As a result of the Term Loan Amendment, the Company deposited \$6.0 million of the proceeds of the Toluca Sale-Leaseback into a Cash Collateral Account, to be held as additional collateral for the Term Loan. The Term Loan Amendment further provided that the Company would be permitted to retain the remaining balance of the proceeds from Toluca Sale-Leaseback, and increased the interest rate of the Term Loan by 1.0%.

On August 16, 2016, approximately \$15.5 million of the proceeds from the CSS Sale were used to pay off the Term Loan and pay down the Revolving Credit Facility. In connection with the repayment of the Term Loan, the \$6.0 million balance of the Cash Collateral Account was released. See Note 5 “CSS Sale” to the consolidated financial statements.

Gill Family Capital Management Note. In connection with the amendments to the prior senior secured debt, the Company received the proceeds of new subordinated indebtedness from GFCM in an amount of \$5.5 million (“GFCM Note”). On February 26, 2016, the Company amended the GFCM Note to increase the amount to \$6.5 million in connection with the amendments to the Revolving Credit Facility and Term Loan. GFCM is an entity controlled by the Company’s chairman, president and chief executive officer, Jeffrey T. Gill and one of our directors, R. Scott Gill. GFCM, Jeffrey T. Gill and R. Scott Gill are significant beneficial stockholders of the Company. The promissory note bears interest at a rate of 8.0% per year and has a maturity date of January 30, 2019.

Purchase Commitments. We also had purchase commitments totaling approximately \$9.3 million at October 2, 2016, primarily for inventory.

Cash Flows from Operating, Investing and Financing Activities

Operating Activities. Net cash used by operating activities was \$13.0 million in the first nine months of 2016 as compared to net cash used of \$11.7 million in the same period of 2015. The aggregate decrease in accounts receivable in 2016 provided cash of \$3.6 million. Similarly, decreases in accounts payable resulted in a usage of cash of \$1.8 million. Increases in inventory primarily within our Sypris Electronics business used cash of \$1.6 million during the first nine months of 2016. Cash of \$0.6 million was used to finance changes within other current assets primarily consisting of prepayment for inventory items.

Investing Activities. Net cash provided by investing activities was \$47.5 million for the first nine months of 2016 as compared to net cash provided of \$14.5 million for the first nine months of 2015. As a result of the Toluca Sale-Leaseback transaction completed in the first quarter of 2016, the Company received net cash proceeds of \$11.1 million (See Note 6 “Toluca Sale Leaseback” to the consolidated financials in this Form 10-Q). Additionally, the Company completed the sale of the CSS businesses during the nine months ended October 2, 2016, which resulted in net cash proceeds of \$39.3 million (see Note 5 “CSS Sale” to the consolidated financials in this Form 10-Q). As required as part of the CSS Sale, \$1.5 million of the proceeds is to be held in escrow for up to 12 months in connection with certain customary representations, warranties, covenants and indemnifications of the Company.

Net cash provided by investing activities for the first nine months of 2015 included proceeds of \$15.7 million from the Morganton sale (see Note 7, “Morganton Sale” to the consolidated financials in this Form 10-Q). Capital expenditures in

both periods represented maintenance levels of investment.

Financing Activities. Net cash used in financing activities was \$14.8 million for the first nine months of 2016 as compared to \$8.1 million for the first nine months of 2015. Net cash used in financing activities in the first nine months of 2016 included the payoff of the Term Loan of \$11.7 million, the payoff of the Revolving Credit Facility of \$2.1 million, and prepayment penalties on the early extinguishment of debt of \$1.5 million. Additionally, the Company incurred financing fees of \$0.4 million during the first nine months of the year in conjunction with the amendments of our Revolving Credit Facility and Term Loan. Partially offsetting this was proceeds from the subordinated note from Gill Family Capital Management of \$1.0 million during the first nine months of 2016.

Net cash used in financing activities for the first nine months of 2015 included reductions under the prior credit facility of \$10.7 million, dividend payments of \$0.4 million and payments of \$0.1 million for minimum statutory tax withholding on stock-based compensation. Additionally, we paid \$2.3 million in financing fees in conjunction with the amendments of the prior credit facility, Meritor Note and GFCM Note in the first nine months of 2015. Partially offsetting this were proceeds from the subordinated note from GFCM of \$5.5 million.

Critical Accounting Policies

See the information concerning our critical accounting policies included under Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operation - Critical Accounting Policies and Estimates” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015. There have been no significant changes in our critical accounting policies during the nine months ended October 2, 2016.

Forward-looking Statements

This Quarterly Report on Form 10-Q, and our other oral or written communications, contain “forward-looking” statements. These statements include our expectations or projections about the future of our industries, business strategies, business and recovery plans, financing sources, liquidity, potential investments, potential acquisitions and dispositions or our financial results or financial condition as well as our views about developments beyond our control, including domestic or global economic conditions, credit markets, trends and market developments. These statements are based on management’s views and assumptions at the time originally made, and, except as required by law, we undertake no obligation to update these statements, even if, for example, they remain available on our website after those views and assumptions have changed. There can be no assurance that our expectations, projections or views will come to pass, and undue reliance should not be placed on these forward-looking statements.

A number of significant factors could materially affect our specific business operations and cause our performance to differ materially from any future results projected or implied by our prior statements. Many of these factors are identified in connection with the more specific descriptions contained throughout this report. Other factors which could also materially affect such future results currently include: our failure to return to profitability on a timely basis, which would cause us to use existing cash resources or other assets to fund operating losses; our failure to develop and implement specific plans (a) to offset the impact of reduced revenues as we migrate our focus from a small number of traditional tier 1 customers in the commercial vehicle markets, including Dana and Meritor, or to a more diversified base of customers who are able to place higher strategic value on our innovation, flexibility and lean manufacturing capabilities, and (b) to implement specific restructuring and cost-savings initiatives and to consolidate and streamline operations in accordance with our plans; breakdowns, relocations or major repairs of machinery and equipment; dependence on, retention or recruitment of key employees especially in challenging markets; cost and availability of raw materials such as steel, component parts, natural gas or utilities; unexpected declines in our markets or market shares, especially as we attempt to transition from legacy products and services into new market segments, customers and technologies; volatility of our customers’ forecasts, scheduling demands and production levels which negatively impact our operational capacity and our effectiveness to integrate new customers or suppliers; our inability to successfully execute the planned move of our Sypris Electronics business from our current location by December 31, 2016, the end of our lease term; changes in licenses, security clearances, or other legal rights to operate, manage our work force or import and export as needed; our ability to successfully develop, launch or sustain new products and programs; supplier, customer, employee, landlord, creditor, stockholder, product liability or environmental claims; labor relations; strikes; union negotiations; pension valuation, health care or other benefit costs; potential impairments, non-recoverability or write-offs of assets or deferred costs; the fees, costs and supply of, or access to, debt, equity capital, or other sources of liquidity; potential weaknesses in internal controls over financial reporting and enterprise risk management; the cost, quality, timeliness, efficiency and yield of our operations and capital investments, including working capital, production schedules, cycle times, scrap rates, injuries, wages, overtime costs, freight or expediting costs; disputes or litigation involving lessor, inventory valuation risks including excessive or obsolescent valuations; our inability to successfully complete definitive agreements for our targeted acquisitions or divestitures due to negative due diligence findings or other factors; our inability to patent or otherwise protect our inventions or other intellectual property from potential competitors; the costs of compliance with our auditing, regulatory or contractual obligations; our reliance on third party vendors and sub-suppliers; adverse impacts of new technologies or other competitive pressures which increase our costs or erode our margins; regulatory actions or sanctions (including FCPA, OSHA and Federal Acquisition Regulations, among others); U.S. government spending on products and services that Sypris Electronics provides, including the timing of budgetary decisions; cyber security threats and

disruptions; changes or delays in customer budgets, funding or programs; failure to adequately insure or to identify environmental or other insurable risks; revised contract prices or estimates of major contract costs; risks of foreign operations; currency exchange rates; war, terrorism, or political uncertainty; unanticipated or uninsured disasters, losses or business risks; inaccurate data about markets, customers or business conditions; or unknown risks and uncertainties and the risk factors disclosed in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are a smaller reporting company as defined in Item 10(f)(1) of Regulation S-K and thus are not required to provide the quantitative and qualitative disclosures about market risk specified in Item 305 of Regulation S-K.

Item 4. Controls and Procedures

(a) *Evaluation of disclosure controls and procedures.* Based on the evaluation of our disclosure controls and procedures (as defined in Securities Exchange Act of 1934 Rules 13a-15(e) or 15d-15(e)) required by Securities Exchange Act Rules 13a-15(b) or 15d-15(b), our Chief Executive Officer and our Chief Financial Officer have concluded that as of the end of the period covered by this report, our disclosure controls and procedures were effective.

(b) *Changes in internal controls.* There were no changes in our internal control over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II. Other Information

Item 1. Legal Proceedings

We are involved from time to time in litigation and other legal or environmental proceedings incidental to our business. On November 25, 2013, Sypris Technologies, Inc. initiated an arbitration proceeding against Dana Limited under the Non-Administered Arbitration Rules of the International Institute for Conflict Prevention & Resolution alleging that Dana Limited had entered and then repudiated a five year extension of the parties' long term supply agreement, to run through 2019 or in the alternative had acted in bad faith by refusing to formalize that agreement. On December 30, 2013, Sypris filed a Notice of Supplemental Claims in the same arbitration proceeding, seeking damages for Dana's alleged breach of the parties' original 2007 supply agreement; and Dana filed a counterclaim for certain unpaid price rebates. The arbitrator awarded \$0.5 million to Sypris Technologies and dismissed Dana's claims. On January 17, 2014, Dana initiated a declaratory judgment action in the Court of Common Pleas for Lucas County, Ohio challenging the arbitrability of the existence and enforceability of the extended supply agreement and seeking a ruling that the extended agreement was unenforceable. On February 28, 2015, the Lucas County Court granted Dana's motion, which was subsequently upheld by the Sixth District Court of Appeals for Ohio. Our remaining claims of bad faith and Dana's various potential claims for alleged nonperformance have been mutually released and dismissed effective as of May 2, 2016.

On January 15, 2016, Sypris Electronics initiated a declaratory judgment action in the Circuit Court of Hillsborough County, Florida seeking to resolve certain claims made by Sweetwell Industrial Associates, LLP ("Sweetwell"), in a notice of alleged default under our lease in Tampa, Florida. On February 16, 2016, Sweetwell, the landlord under that lease, filed its answer and counterclaim and its third party complaint against the Company, as a guarantor under the lease. The landlord claims that certain repairs must be made immediately and/or at the end of the current lease term. As such, it is reasonably possible that the Company may be required to make certain repairs to the current facility upon exit. The current estimate of the Company's reasonably possible loss contingency is from no liability to \$4.0 million. While the Company intends to vigorously dispute these claims, the Company accrued \$0.5 million during the nine months ended October 2, 2016 related to its estimated potential obligation under the lease. This accrual is included in accrued liabilities in the Company's consolidated balance sheet as of October 2, 2016. There are currently no other material pending legal proceedings to which we are a party.

Item 1A. Risk Factors

Information regarding risk factors appears in Part I — Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations — Forward-Looking Statements," in this Quarterly Report on Form 10-Q, and in Part I — Item 1A, "Risk Factors," in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015. There have been no material changes from the risk factors disclosed in our Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table summarizes our shares of common stock repurchased during the third quarter ended October 2, 2016 (dollars in thousands except per share data):

Period	Total Number of Shares Purchased (a)	Average Price Paid per Share	Total	Maximum
			Number of Shares Purchased as a Part of Publicly Announced Plans or Programs	Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (b)
7/4/2016 – 7/31/2015	—	\$ —	—	\$ 3,877
8/1/2016 – 8/28/2016	56,096	\$ 0.87	—	\$ 3,877
8/29/2016 – 10/2/2016	138,258	\$ 1.03	—	\$ 3,877

The total number of shares purchased includes shares of stock withheld for the payment of withholding taxes upon (a) the vesting of restricted stock. Common shares withheld to satisfy tax withholding obligations were immediately cancelled.

On December 20, 2011, our Board of Directors approved and we announced an authorization for the repurchase of up to \$5.0 million of our outstanding shares of common stock. The Board also authorized an Executive Equity Repurchase Agreement whereby management, including officers and directors, would grant the Company a first right to purchase shares at current market prices (calculated as the average of several days' closing prices) at any (b) time such a party to the agreement departed the Company or intended to sell more than 1,500 shares of common stock. The agreement has a five-year term, subject to earlier termination by the Company, and participation by each individual is voluntary.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.
