NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

1. Summary of Significant Accounting Policies and Use of Estimates:

Presentation of Interim Information:

The condensed financial statements included herein have been prepared by Calibrus, Inc. (“we”, “us”, “our” or “Company”) without audit, pursuant to the rules and regulations of the United States Securities and Exchange Commission (“SEC”) and should be read in conjunction with the audited financial statements as of December 31, 2012. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted, as permitted by the SEC, although we believe the disclosures, which are made, are adequate to make the information presented not misleading. Further, the condensed financial statements reflect, in the opinion of management, all normal recurring adjustments necessary to present fairly our financial position at June 30, 2013, and the results of our operations and cash flows for the periods presented. The December 31, 2012 condensed balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America.

Interim results are subject to significant seasonal variations and the results of operations for the six months ended June 30, 2013 are not necessarily indicative of the results to be expected for the full year.

Nature of Corporation:

Calibrus, Inc. (the “Company”) was incorporated on October 22, 1999, in the State of Nevada. The Company’s principal business purpose has been to operate a customer contact center for a variety of clients, who are located throughout the United States. The Company provides customer contact support services for various companies wishing to outsource these functions. On June 15, 2012, the Company entered into a purchase agreement to sell substantially all of the assets related to the Company’s Third Party Verification business to Calibrus Hosted Business Solutions, LLC. The Company made this decision to focus on its Social Networking operations which currently include Fanatic Fans, a mobile smartphone application centered around live sporting and entertainment events, and JabberMonkey, a social expression website centered around gathering public opinion on current events. On September 7, 2012, Calibrus Hosted Business Solutions terminated the asset purchase agreement. The Company has presented assets related to its TPV Business as held-for-sale and has presented the TPV Business statements of operations as discontinued operations.

On June 30, 2013, the Company entered into an asset purchase agreement and closed the transaction contemplated by that agreement. Pursuant to the agreement, the Registrant sold all assets related to its call center services business which provides third party verifications to other businesses. The assets were purchased by Calibrus Call Center Services, LLC, (“CCCS”) an Arizona limited liability company (the “Purchaser”). There is no material relationship between the Purchaser and the Registrant or any of the Registrant’s affiliates, or any director or officer of the Registrant or any associate of any such director or officer. Consideration for the assets was cash in the amount of \$1,200,000 of which \$1,000,000 was due immediately and of which \$200,000 is due in 12 months subject to certain adjustments. The transaction closed on July 2, 2013 and as such, has not been reflected in our financial statements as of and for the periods ended June 30, 2013.

CALIBRUS, INC.
NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates include, but are not limited to, the allowance for doubtful accounts, the valuation/classification of assets held for sale and the valuation of stock options and warrants. Actual results could differ from those estimates.

Fair Value of Financial Instruments:

The estimated fair values for financial instruments are determined at discrete points in time based on relevant market information. These estimates involve uncertainties and cannot be determined with precision. The carrying amounts of accounts receivable, accounts payable, accrued liabilities, due to factor and notes payable approximate fair value given their short term nature or effective interest rates, which represent level 3 inputs.

Earnings(Loss) per Share:

Basic earnings (loss) per share is computed by dividing income (loss) available to common shareholders by the weighted average number of common shares outstanding for the period and contains no dilutive securities. Diluted earnings per share reflect the potential dilution of securities that could share in the earnings of an entity. The Company calculates diluted earnings per share using the treasury stock method for options and warrants and the if-converted method for convertible debt. For the three and six month periods ended June 30, 2013 and 2012 all potentially dilutive securities are anti-dilutive due to the Company's losses from continued operations.

	Three Months Ended June 30, 2013	Three Months Ended June 30, 2012	Six Months Ended June 30, 2013	Six Months Ended June 30, 2012
Loss available to common stockholders	\$(71,771)	\$(430,643)	\$(112,986)	\$(635,854)
Weighted average number of common shares used in basic earnings per share	13,871,080	13,811,327	13,871,080	13,809,969
Effect of dilutive securities:				
Stock options	-	-	-	-
Stock warrants	-	-	-	-
Convertible debt	-	-	-	-
Weighted average number of common shares and potential dilutive comon stock used in diluted earnings per share	13,871,080	13,811,327	13,871,080	13,809,969

All dilutive common stock equivalents are reflected in our earnings (loss) per share calculations. Anti-dilutive common stock equivalents are not included in our earnings (loss) per share calculations. As of June 30, 2013 and 2012 the Company had outstanding options to purchase 2,519,167 and 2,733,334 shares of common stock at a per share weighted average exercise prices of \$.85 and \$.89, respectively, which were not included in the earnings per share calculation as they were anti-dilutive. As of June 30, 2013 and 2012 the Company had outstanding warrants to purchase 943,088 and 971,588 shares of common stock at a per share weighted average exercise price of \$.36 and \$.39, respectively, which were not included in the earnings per share calculation as they were anti-dilutive. In addition, as of June 30, 2013 the Company has \$15,000 principal balance of convertible debentures along with \$5,853 in accrued interest which is convertible into 13,902 shares of the Company's common stock, if converted, which were also deemed to be anti-dilutive. As of June 30, 2012 the Company had \$15,000 principal balance of convertible debentures along with \$4,062 in accrued interest which would have been convertible into 12,708 shares of the Company's common stock, if converted, which were deemed to be anti-dilutive.

CALIBRUS, INC.
NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

Revenue Recognition:

Revenue for inbound calls is recorded on a per-call or per-minute basis in accordance with the rates established in the respective contracts. Revenue for outbound calls is on a commission basis, with revenue being recognized as the commission is earned. As the Company's customers are primarily well established, creditworthy institutions, management believes collectability is reasonably assured at the time of performance. The Company from time to time executes outbound sales campaigns for customers, primarily for the sale of telecommunications services. This revenue source has historically been immaterial. The Company recognizes the commissions earned on these campaigns on a net basis in accordance with FASB ASC 605-45, Principal Agent Considerations.

Stock-Based Compensation:

The Company has stock-based compensation plans. Stock-based compensation expense for all stock-based compensation awards is based on the grant date fair value estimated in accordance with the Black Scholes Pricing Model. The value of the compensation cost is amortized on a straight-line basis over the requisite service periods of the award (the option vesting term).

Assumptions used in the Black Scholes Pricing Model to estimate compensation expense are determined as follows:

- Expected term is determined using the contractual term and vesting period of the award;
- Expected volatility of award grants made under the Company's plans is measured using the historical daily changes in the market price of the Company's common stock, which is publicly traded, over the expected term of the award;
- Risk-free interest rate is equivalent to the implied yield on zero-coupon U.S. Treasury bonds with a remaining maturity equal to the expected term of the awards; and,
- Forfeitures are based on the history of cancellations of awards granted by the Company and management's analysis of potential forfeitures.

Income Taxes:

The Company estimates the annual tax rate based on projected taxable income for the full year and records a quarterly income tax provision in accordance with the anticipated annual rate. As the year progresses, we refine the estimates of the year's taxable income as new information becomes available, including year-to-date financial results. This continual estimation process can result in a change to the expected effective tax rate for the year. When this occurs, the Company adjusts the income tax provision during the quarter in which the change in estimate occurs so that the year-to-date provision reflects the expected annual tax rate. Significant judgment may be required in determining the Company's effective tax rate and in evaluating our tax positions.

The effective income tax rate of 0% for the six months ended June 30, 2013 and 2012 differed from the statutory rate, due primarily to the full reserve of net operating losses incurred by the Company in past and/or respective periods. For the six month period ended June 30, 2013 a tax benefit of approximately \$44,000 would have been generated. For the six month period ended June 30, 2012 a tax benefit of approximately \$250,000 would have been generated. However, all benefits have been fully offset through an allowance account due to the uncertainty of the utilization of the net operating losses. As of June 30, 2013 the Company had net operating losses of approximately

\$8,060,000 resulting in a deferred tax asset of approximately \$3,142,000. The Company has established a valuation allowance in the full amount of the deferred tax asset due to the uncertainty of the utilization of operating losses in future periods.

8. Liquidity and Going Concern Consideration

Following the Sale of the Company's TPV Business, it will be divesting itself of its only revenue generating source. As such, the Company will have no incoming cash-flow to fund its ongoing operations. The Company will have to rely on the ability to raise additional capital, either through an additional convertible debenture offering or equity offering, however there can be no assurance that the Company will be able to raise such capital or do so on favorable terms. If the Company is unable to raise additional capital it may be forced to cease operations. Until such time additional capital can be raised, the Company has suspended further development expenditures related to its social media initiatives. However, there will be some ongoing maintenance expenses related to support of the social media projects.

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. The Company has incurred significant cumulative net losses from operations in recent years. As reported in the financial statements, the Company has an accumulated deficit of \$11,419,445. At June 30, 2013, the Company had total assets of \$427,907 and liabilities totaling \$2,513,020 and a working capital deficit of \$2,105,294. These factors raise considerable doubt as to the Company's ability to continue as a going concern.

The ability of the Company to continue as a going concern is dependent on its ability to raise adequate capital to fund operating losses until it is able to engage in profitable business operations. To the extent financing is not available, the Company may not be able to, or may be delayed in, developing its services and meeting its obligations. The Company will continue to evaluate its projected expenditures relative to its available cash and to evaluate additional means of financing in order to satisfy its working capital and other cash requirements. To this end, the Company has discontinued the furthered development and expenditures related its social networking operations. Management intends to work with its existing debt holders and vendors to negotiate payment terms and settlements. The accompanying financial statements do not reflect any adjustments that might result from the outcome of these uncertainties. As a result, the Company's independent registered public accounting firm issued a going concern opinion on the consolidated financial statements of the Company for the year ended December 31, 2012.

9. Litigation

On October 26, 2012 the Company received notice of a complaint filed in the Superior Court of Maricopa County, Case No. CV2012-015263 by CHBS for breach of contract of the CHBS Note. The complaint seeks repayment of the \$150,000 principal balance, interest in the amount of \$6,879 calculated at the rate of 18% from April 26, 2012 through September 15, 2012, and default interest calculated at the rate of 30% from September 16, 2012 through the date of payment and all costs and attorneys fees CHBS incurs as a result of failure to pay by the maturity date and event of default. Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following is management's discussion and analysis of certain significant factors affecting the Company's financial position and operating results during the periods included in the accompanying condensed financial statements. Except for the historical information contained herein, the matters set forth in this discussion are forward-looking statements.

Overview

On June 15, 2012, the Company entered into a an asset purchase agreement (the "Asset Purchase Agreement") to sell substantially all of the assets related to the Company's Third Party Verification ("TPV") business to Calibrus Hosted Business Solutions, LLC ("CHBS"). The Company made this decision in order to focus on its social networking operations which currently includes Fanatic Fans, a mobile smartphone application centered around live sporting and entertainment events, and JabberMonkey, a social expression website centered around gathering public opinion on current events. The Company continued to invest large amounts of capital into improvements of Fanatic Fans. However, when the Asset Purchase Agreement between the Company and CHBS was cancelled the Company was forced to discontinue funding of the development of Fanatic Fans. On September 12, 2012, the Company cancelled its development contract with MeoMyo. The Company will need to raise significant additional capital in order to execute the business plans related to Fanatic Fans and JabberMonkey. Operating results related to the Company's TPV business have been classified as discontinued operations. On September 7, 2012 the Company received notice that CHBS terminated the Asset Purchase Agreement and the sale transaction did not occur.

On June 30, 2013, the Company entered into an asset purchase agreement and closed the transaction contemplated by that agreement. Pursuant to the agreement, the Registrant sold all assets related to its call center services business which provides third party verifications to other businesses. The assets were purchased by Calibrus Call Center Services, LLC, ("CCCS") an Arizona limited liability company (the "Purchaser"). There is no material relationship between the Purchaser and the Registrant or any of the Registrant's affiliates, or any director or officer of the Registrant or any associate of any such director or officer. Consideration for the assets was cash in the amount of \$1,200,000 of which \$1,000,000 was due immediately and of which \$200,000 is due in 12 months subject to certain adjustments. The transaction closed on July 2, 2013 and as such has not been reflected in the condensed financial statements.

The Company plans to use the proceeds from the sale of its TPV Business to settle and pay existing obligations and continue the development of its Fanatic Fans social media initiative.

Table of Contents

Three Months Ended June 30, 2013 compared to Three Months Ended June 30, 2012

Revenue – The Company had no revenues related to its social networking business for the three months ended June 30, 2013 or 2012.

Cost of Revenue – The Company had no cost of revenues related to its social networking business for the three months ended June 30, 2013 or 2012.

Gross Profit – The Company had no gross profit related to its social networking business for the three months ended June 30, 2013 or 2012.

Research and Development – Research and development expenses decreased to \$0 in the second quarter 2013 from \$458,270 in the second quarter 2012. The decrease was the result of the Company discontinuing development on its Fanatic Fans application during the final quarter of 2012 due to cash flow constraints.

General and Administrative Expenses – General and administrative expense decreased 30.9% to \$182,496 in the second quarter 2013 from \$264,206 in the second quarter 2012. The decrease was a result of the decreased legal fees which had been incurred during the failed sale of the Company's TPV business in 2012. However, this was offset by the partial reinstatement of salaries for Company executives who had taken pay reductions in 2010 through September 2012.

Interest Expense – Interest expense increased by \$43,760 for the second quarter 2013 from \$53,307 in the first quarter 2012, an increase of 82.1%. The increase in interest expense was related to the Company incurring default interest on the notes related to the Company's attempted sale of the TPV Business and expenses related to the extension of expiring warrants. However this was partially offset by lower factoring expense, due to lower invoiced amounts to the Company's TPV Business customers.

Loss from Continued Operations – The Company generated a loss from continued operations of (\$279,563) for the second quarter 2013 compared to a loss from continued operations of (\$775,783) in the second quarter 2012, a difference of \$(496,220). The decrease in loss from continued operations is primarily attributable to the discontinuation of expenses related to the operation and development of the Company's Fanatic Fans application due to limited cash flows and reduced legal fees incurred as a result of the failed sale of the TPV Business during the second quarter of 2012.

Income from Discontinued Operations – The Company generated income from discontinued operations of \$207,792 in the second quarter 2013 compared to income from discontinued operations of \$345,140 for the second quarter 2012, a decrease of 40.0%. The decrease was due to decreased call volumes in the TPV business and the partial reinstatement of salaries for Company executives who had taken pay reductions in 2010 through September 2012.

Research and Development – Research and development expenses decreased to \$0 for the half year 2013 from \$820,781 for the half year 2012. The decrease was the result of the Company discontinuing development on its Fanatic Fans application during the final quarter of 2012 due to cash flow constraints.

Table of Contents

General and Administrative Expenses – General and administrative expense decreased 14.6% to \$381,574 in the half year 2013 from \$446,973 in the half year 2012. The decrease was a result of the decreased legal fees which had been incurred during the failed sale of the Company's TPV business in the half year 2012. However, this was offset by the partial reinstatement of salaries for Company executives who had taken pay reductions in 2010 through September 2012.

Interest Expense – Interest expense increased to \$172,928 for the half year 2013 from \$126,478 in the half year 2011, an increase of 36.7%. The increase in interest expense was related to the Company incurring default interest on the notes related to the Company's attempted sale of the TPV Business and expenses related to the extension of expiring warrants. However this was partially offset by lower factoring expense, due to lower invoiced amounts to the Company's TPV Business customers.

Loss from Continued Operations – The Company generated a loss from continued operations of (\$554,502) for the half year 2013 compared to a loss from continued operations of (\$1,394,232) in the half year 2012, a difference of (\$839,730). The decrease in loss from continued operations is primarily attributable to the discontinuation of expenses related to the operation and development of the Company's Fanatic Fans application due to limited cash flows and reduced legal fees incurred as a result of the failed sale of the TPV Business during the half year 2012.

Liquidity and Capital Resources

As of June 30, 2013 we had cash on hand of \$11,243 and negative working capital of \$2,105,294. Historically, the Company had been able to fund operations through the generation of positive cash flow from its TPV business operations. Through October 31, 2011, the Company sold 315 units, at \$5,000 per unit, consisting of \$5,000 in Convertible Debentures ("the Debentures") of Calibrus and 2,500 common stock purchase warrants (the "Units") for total proceeds of \$1,575,000. The remaining \$15,000 convertible debenture outstanding as of June 30, 2013 has been paid.

On June 15, 2012, the Company entered into an Asset Purchase Agreement with CHBS under which CHBS was to purchase substantially all of the assets of the Company's TPV Business for \$3,000,000 in cash, subject to adjustment. The closing date of the transaction was to be on or before August 31, 2012. The initial purchase price consideration due upon closing was \$2,000,000 less the \$400,000 already advanced in the form of short-term notes payable pursuant to the Note Agreements. This \$400,000 was to reduce the initial payment due to the Company upon closing to \$1,600,000.

On September 7, 2012 the Company received notice that CHBS terminated the Asset Purchase Agreement and the sale did not occur.

On September 7, 2012, when CHBS terminated the asset purchase agreement, the \$400,000 in short-term notes payable became immediately due. As such, all amounts became due and payable. The Company has retroactively accrued interest on the \$400,000 in notes at 18% interest per annum through September 15, 2012. The Company has also accrued interest at the 30% default interest rate per the notes from September 16, 2012 through June 30, 2013. Accrued interest related to these notes at June 30, 2013 amounted to \$115,570.

On October 26, 2012 the Company received notice of a complaint filed in the Superior Court of Maricopa County, Case No. CV2012-015263 by CHBS for breach of contract of the note agreement. The complaint seeks repayment of the \$150,000 principal balance, interest in the amount of \$6,879 calculated at the rate of 18% from April 26, 2012 through September 15, 2012, and default interest calculated at the rate of 30% from September 16, 2012 through the date of payment and all costs and attorneys fees CHBS incurs as a result of failure to pay by the maturity date and event of default.

Table of Contents

On October 26, 2012 the Company received notice of a complaint filed in the Superior Court of Maricopa County, Case No. CV2012-015308 by an individual for breach of contract of the note agreement. The complaint seeks repayment of the \$250,000 principal balance, interest in the amount of \$11,343 calculated at the rate of 18% from April 26, 2012 through September 15, 2012, and default interest calculated at the rate of 30% from September 16, 2012 through the date of payment and all costs and attorneys fees the individual incurs as a result of failure to pay by the maturity date and event of default. The Company believes that Calibus Hosted Business Solutions breached the asset purchase agreement by refusing to close the transaction.

Subsequent to June 30, 2013, the Company settled the above two notes for a total of \$450,000 and the corresponding complaints have been cancelled.

As of June 30, 2013, the Company owed a total of \$1,024,900 in principal balance notes and advances along with an additional \$210,833 in accrued interest. As of August 12, 2013, a total of \$510,000 of the \$1,024,900 principal balance outstanding as of June 30, 2013 has been paid.

Other than the \$25,000 principal balance due under note agreements to a former director of the Company, the Company has received verbal extensions for all other outstanding notes to December 31, 2013.

On September 12, 2012 the Company terminated its time and materials contract with MeoMyo, LLC as a result of the termination of the asset purchase agreement and the Company's inability to fund the ongoing development of its social networking operations. The Company intends to restart development upon the sale of its TPV Business. However, it is unknown when this will occur, if ever. As of June 30, 2013, the Company owed a total of \$417,958 to MeoMyo, LLC.

On June 30, 2013, the Company entered into an asset purchase agreement and closed the transaction contemplated by that agreement. Pursuant to the agreement, the Registrant sold all assets related to its call center services business which provides third party verifications to other businesses. The assets were purchased by Calibus Call Center Services, LLC, ("CCCS") an Arizona limited liability company (the "Purchaser"). There is no material relationship between the Purchaser and the Registrant or any of the Registrant's affiliates, or any director or officer of the Registrant or any associate of any such director or officer. Consideration for the assets was cash in the amount of \$1,200,000 of which \$1,000,000 was due immediately and of which \$200,000 is due in 12 months subject to certain adjustments. The transaction closed on July 2, 2013.

The Company intends to satisfy its outstanding debt obligations out of the proceeds from the sale of its TPV Business. However, the Company can provide no assurance that the net proceeds will be sufficient to satisfy the Company's outstanding debt obligations. Further, upon sale of the TPV Business the Company divested itself of its only revenue generating source. We can offer no assurance when or if our social networking offerings will be successful. As such, the Company will have no incoming cash-flow to fund its ongoing operations. The Company will have to rely on its ability to raise additional capital, either through additional debt or equity offerings or alliances with third parties; however there can be no assurance that the Company will be able to raise such capital or create such alliances or do so on favorable terms. If the Company is unable to raise additional capital it may be forced to cease operations.

We estimate we will need an additional \$1,000,000 in capital, after satisfying our debt obligations, to cover our ongoing expenses and to successfully market our new product offerings. This is only an estimate and may change as we receive feedback from customers and have a better feel of the demand and revenues from our new products. Both of these factors may change and we may not be able to raise the necessary capital and if we are able to, that it may not be at favorable rates.

Given the current state of Calibus, we do not believe bank financing will be feasible and if we need additional capital it will be in the form of an equity or debt offering. To this end, management has made the decision to position Calibus to be more attractive to investors, particularly angel investors.

The Company has incurred significant cumulative net losses from operations in recent years. As reported in the financial statements, the Company has an accumulated deficit of \$11,419,445. At June 30, 2013, the Company had total assets of \$427,907 and liabilities totaling \$2,513,020 and a working capital deficit of \$2,105,294. These factors raise considerable doubt as to the Company's ability to continue as a going concern.

Table of Contents

The ability of the Company to continue as a going concern is dependent on its ability to raise adequate capital to fund operating losses until it is able to engage in profitable business operations. To the extent financing is not available, the Company may not be able to, or may be delayed in, developing its services and meeting its obligations. The Company will continue to evaluate its projected expenditures relative to its available cash and to evaluate additional means of financing in order to satisfy its working capital and other cash requirements. To this end, the Company has discontinued the furthered development and the majority of expenditures related its social networking operations. Management intends to work with its existing debt holders and creditors to negotiate payment terms and/or settlements. The accompanying financial statements do not reflect any adjustments that might result from the outcome of these uncertainties. As a result, the Company's independent registered public accounting firm issued a going concern opinion on the consolidated financial statements of the Company for the year ended December 31, 2012.

In addition, there has been no change in our internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended) that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, not absolute, assurance that the objectives of the system are met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control systems, there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.
