1 DESCRIPTION OF BUSINESS

Spectrum Brands Holdings, Inc., a Delaware corporation (“SB Holdings” or the “Company”), is a diversified global branded consumer products company. SB Holdings' common stock trades on the New York Stock Exchange (the “NYSE”) under the symbol “SPB.”

The Company’s operations include the worldwide manufacturing and marketing of alkaline, zinc carbon and hearing aid batteries, as well as aquariums and aquatic health supplies and the designing and marketing of rechargeable batteries, battery-powered lighting products, electric shavers and accessories, grooming products and hair care appliances. The Company’s operations also include the manufacturing and marketing of specialty pet supplies. The Company also manufactures and markets herbicides, insecticides and insect repellents in North America. The Company also designs, markets and distributes a broad range of branded small appliances and personal care products. The Company also designs, markets, distributes and sells certain hardware, home improvement and plumbing products. The Company’s operations utilize manufacturing and product development facilities located in the United States (“U.S.”), Europe, Latin America and Asia.

The Company sells its products in approximately 160 countries through a variety of trade channels, including retailers, wholesalers and distributors, hearing aid professionals, industrial distributors and original equipment manufacturers and enjoys name recognition in its markets under the Rayovac, VARTA and Remington brands, each of which has been in existence for more than 80 years, and under the Tetra, 8-in-1, Dingo, Nature's Miracle, Spectracide, Cutter, Hot Shot, Black & Decker, George Foreman, Russell Hobbs, Farberware, Black Flag, FURminator, Kwikset, Weiser, Baldwin, National Hardware, Stanley, FANAL and Pfister brands.

The Company’s global branded consumer products have positions in six major product categories: consumer batteries, small appliances, personal care, hardware and home improvement, pet supplies and home and garden controls.

The Company manages the businesses in four vertically integrated, product-focused reporting segments: (i) Global Batteries & Appliances, which consists of the Company's worldwide battery, personal care and small appliances primarily in the kitchen and home product categories (“Global Batteries & Appliances”); (ii) Hardware & Home Improvement, which consists of the Company's worldwide hardware, home improvement and plumbing business (“Hardware & Home Improvement”); (iii) Global Pet Supplies, which consists of the Company's worldwide pet supplies business (“Global Pet Supplies”); and (iv) Home and Garden, which consists of the Company's home and garden and insect control business (“Home and Garden”). Management reviews the performance of the Company based on these segments, which also reflect the manner in which the Company's management monitors performance and allocates resources. For information pertaining to our business segments, see Note 12, “Segment Results.”

2 SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The condensed consolidated financial statements include the accounts of SB Holdings and its subsidiaries and are prepared in accordance with U.S. Generally Accepted Accounting Principles (“GAAP”). All intercompany transactions have been eliminated.

These condensed consolidated financial statements have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”) and, in the opinion of the Company, include all adjustments (which are normal and recurring in nature) necessary to present fairly the financial position of the Company at December 28, 2014, the results of operations for the three month periods ended December 28, 2014 and December 29, 2013, the comprehensive income (loss) for the three month periods ended December 28, 2014 and December 29, 2013 and the cash flows for the three month periods ended December 28, 2014 and December 29, 2013. Certain information and note disclosures normally included in consolidated financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such SEC rules and regulations. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year ended September 30, 2014.

SPECTRUM BRANDS HOLDINGS, INC.

Notes to Condensed Consolidated Financial Statements (Unaudited) – (Continued)

(Amounts in millions of dollars, except per share figures or as otherwise specified)

Use of Estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Intangible Assets: Intangible assets are recorded at cost or at fair value if acquired in a purchase business combination. Customer relationships and proprietary technology intangibles are amortized, using the straight-line method, over their estimated useful lives. Excess of cost over fair value of net assets acquired (goodwill) and indefinite lived trade name intangibles are not amortized. GAAP requires that goodwill and indefinite-lived intangible assets be tested for impairment annually or more often if an event or circumstance indicates that an impairment loss may have been incurred. Goodwill is tested for impairment at the reporting unit level, with such groupings being consistent with the Company's reportable segments. If impairment is indicated, a write-down to fair value (normally measured by discounting estimated future cash flows) is recorded. Indefinite lived trade name intangibles are tested for impairment at least annually by comparing the fair value with the carrying value. Any excess of carrying value over fair value is recognized as an impairment loss in income from operations.

The Company's annual impairment testing is completed at the August financial period end. Management uses its judgment in assessing whether assets may have become impaired between annual impairment tests. Indicators such as unexpected adverse business conditions, economic factors, unanticipated technological change or competitive activities, loss of key personnel, and acts by governments and courts may signal that an asset has become impaired.

Shipping and Handling Costs: The Company incurred shipping and handling costs of \$64.7 and \$64.6 for the three month periods ended December 28, 2014 and December 29, 2013, respectively. These costs are included in Selling expenses in the accompanying Condensed Consolidated Statements of Operations (Unaudited). Shipping and handling costs include costs incurred with third-party carriers to transport products to customers as well as salaries and overhead costs related to activities to prepare the Company's products for shipment from its distribution facilities.

Concentrations of Credit Risk: Trade receivables subject the Company to credit risk. Trade accounts receivable are carried at net realizable value. The Company extends credit to its customers based upon an evaluation of the customer's financial condition and credit history, and generally does not require collateral. The Company monitors its customers' credit and financial condition based on changing economic conditions and makes adjustments to credit policies as required. Provisions for losses on uncollectible trade receivables are determined based on ongoing evaluations of the Company's receivables, principally on the basis of historical collection experience and evaluations of the risks of nonpayment for a given customer.

The Company has a broad range of customers including many large retail outlet chains, one of which accounts for a significant percentage of its sales volume. This customer represented approximately 15% and 17% of the Company's Net sales during the three month periods ended December 28, 2014 and December 29, 2013, respectively. This customer also represented approximately 10% and 14% of the Company's Trade accounts receivable, net at December 28, 2014 and September 30, 2014, respectively.

Approximately 45% and 46% of the Company's Net sales during the three month periods ended December 28, 2014 and December 29, 2013, respectively, occurred outside the U.S. These sales and related receivables are subject to

varying degrees of credit, currency, political and economic risk. The Company monitors these risks and makes appropriate provisions for ability to collect based on an assessment of the risks present.

Stock-Based Compensation: The Company measures the cost of its stock-based compensation plans based on the fair value of its employee stock awards and recognizes these costs over the requisite service period of the awards.

Total stock compensation expense associated with restricted stock units recognized by the Company during the three month periods ended December 28, 2014 and December 29, 2013 was \$5.6 and \$6.6, respectively. The remaining unrecognized pre-tax compensation cost related to restricted stock units at December 28, 2014 was \$17.1.

The Company granted approximately 0.2 million restricted stock units during the three month period ended December 28, 2014. The 0.2 million restricted stock units granted during the three months ended December 28, 2014 include 0.1 million

8

restricted stock units that vested immediately and 0.1 million time-based restricted stock units that vest over a period ranging from one to three years. The total market value of the restricted stock units on the dates of the grants was approximately \$21.1.

The Company granted approximately 0.4 million restricted stock units during the three month period ended December 29, 2013. Of these grants, 0.1 million restricted stock units vested immediately. The remaining 0.3 million restricted stock units are performance and time-based and vest over a two year period. The total market value of the restricted stock units on the dates of the grants was approximately \$29.0.

The fair value of restricted stock units is determined based on the market price of the Company's shares of common stock on the grant date. A summary of the activity in the Company's non-vested restricted stock units during the three months ended December 28, 2014 is as follows:

	Shares	Weighted Average Share Price at Grant Date	Fair Value at Grant Date
Restricted Stock Units	(in millions)		
Non-vested restricted stock units at September 30, 2014	0.8	\$ 67.66	\$ 56.0

Vested	(0.6)	69.12	(40.4)
Non-vested restricted stock units at December 28, 2014	0.4	\$ 77.08	\$ 36.7

Acquisition and Integration Related Charges: Acquisition and integration related charges reflected in Operating expenses in the accompanying Condensed Consolidated Statements of Operations (Unaudited) include, but are not limited to, transaction costs such as banking, legal, accounting and other professional fees directly related to acquisitions, termination and related costs for transitional and certain other employees, integration related professional fees and other post business combination expenses associated with mergers and acquisitions.

The following table summarizes acquisition and integration related charges incurred by the Company during the three month periods ended December 28, 2014 and December 29, 2013:

3 COMPREHENSIVE INCOME (LOSS)

Comprehensive income (loss) includes foreign currency translation gains and losses on assets and liabilities of foreign subsidiaries, effects of exchange rate changes on intercompany balances of a long-term nature and transactions designated as a hedge of a net investment in a foreign subsidiary, deferred gains and losses on derivative financial instruments designated as cash flow hedges and amortization of deferred gains and losses associated with the Company's pension plans. The foreign currency translation gains and losses for the three month periods ended December 28, 2014 and December 29, 2013 were principally attributable to the impact of translation of the net assets of the Company's European and Latin American operations, which primarily have functional currencies in Euros, Pounds Sterling and Brazilian Real.

For information pertaining to the reclassification of unrealized gains and losses on derivative instruments, see Note 8, "Derivative Financial Instruments."

(Amounts in millions of dollars, except per share figures or as otherwise specified)

During the three month period ended December 28, 2014, the Company recorded additions to goodwill and intangible assets related to the acquisition of Tell Manufacturing, Inc. (“Tell”), which is included in the Hardware and Home Improvement segment. See Note 14 “Acquisitions,” for further information.

Intangible assets subject to amortization include proprietary technology, customer relationships and certain trade names. The useful lives for proprietary technology assets associated with the Global Batteries & Appliances segment, the Hardware & Home Improvement segment and the Global Pet Supplies segment are from 9 to 17 years, 8 to 9 years and 4 to 9 years, respectively. The useful lives of customer relationships are from 15 to 20 years within the Global Batteries & Appliances segment and 20 years in each of the Hardware & Home Improvement, Home and Garden and Global Pet Supplies segments. The useful lives for trade names are from 1 to 12 years within the Global Batteries & Appliances segment, 5 to 8 years within the Hardware & Home Improvement segment and 3 years within the Global Pet Supplies segment.

The carrying value and accumulated amortization for intangible assets subject to amortization are as follows:

	December 28, 2014	September 30, 2014
Technology Assets Subject to Amortization:		
Gross balance	\$ 192.2	\$ 192.2

The Company has the following debt instruments outstanding at December 28, 2014: (i) a senior secured term loan (the “Term Loan”) pursuant to a senior credit agreement (the “Senior Credit Agreement”) which consists of \$648.4 principal due September 4, 2017 (“Tranche A”), \$509.9 principal due September 4, 2019 (“Tranche C”), \$32.9 Canadian dollar denominated principal due December 17, 2019 (“CAD Term Loan”), \$272.9 Euro denominated principal due September 4, 2019 (“Euro Term Loan Tranche A”) and \$183.3 Euro denominated principal due December 19, 2021 (“Euro Term Loan Tranche B”) (together, the “Term Loan”); (ii) \$300.0 6.75% unsecured notes (the “6.75% Notes”); (iii) \$520.0 6.375% unsecured notes (the “6.375% Notes”); (iv) \$570.0 6.625% unsecured notes (the “6.625% Notes”); (v) \$250.0 6.125% unsecured notes (the “6.125% Notes”) and (vi) a \$400.0 asset based lending revolving credit facility (the “ABL Facility”).

Term Loan

On December 19, 2014 the Company amended the Term Loan, issuing a tranche maturing December 19, 2021, which provides for borrowings in an aggregate principal amount of €150.0 (the “Euro Term Loan Tranche B”). The Euro Term Loan Tranche B is guaranteed by the Company’s wholly owned subsidiary, SB/RH Holdings, LLC, as well as by existing and future domestic subsidiaries. The net proceeds from the amendment, together with the net proceeds of the 6.125% Notes, will be used to repay certain amounts drawn under the revolving credit facility, to fund a planned acquisition and for general corporate purposes, which may include, among other things, working capital needs, the refinancing of existing indebtedness, business expansion and possible future acquisitions.

The Euro Term Loan Tranche B was issued at a .25% discount and recorded net of the discount incurred. The €0.4 discount is reflected as an adjustment to the carrying value of principal, and is being amortized with a corresponding charge to interest expense over the remaining life of the debt. In connection with the Euro Term Loan Tranche B, the Company recorded \$2.1 of fees during the three month period ended December 28, 2014. The fees are classified as Debt issuance costs within the accompanying Condensed Consolidated Statements of Financial Position (Unaudited) and are being amortized as an adjustment to interest expense over the remaining life of the loan.

6.125% Notes

On December 4, 2014, Spectrum Brands issued \$250.0 aggregate principal amount of 6.125% Notes at par value, due December 15, 2024 (the “6.125% Notes”). The 6.125% Notes are guaranteed by the Company’s wholly owned subsidiary, SB/RH Holdings, LLC, as well as by existing and future domestic subsidiaries.

The Company may redeem all or a part of the 6.125% Notes, upon not less than 30 or more than a 60 day notice, at specified redemption prices. Further, the indenture governing the 6.125% Notes (the “2024 Indenture”) requires the Company to make an offer, in cash, to repurchase all or a portion of the applicable outstanding notes for a specified redemption price, including a redemption premium, upon the occurrence of a change of control of the Company, as defined in such indenture.

The 2024 Indenture contains customary covenants that limit, among other things, the incurrence of additional indebtedness, payment of dividends on or redemption or repurchase of equity interests, the making of certain investments, expansion into unrelated businesses, creation of liens on assets, merger or consolidation with another company, transfer or sale of all or substantially all assets, and transactions with affiliates.

In addition, the 2024 Indenture provides for customary events of default, including failure to make required payments, failure to comply with certain agreements or covenants, failure to make payments when due or on acceleration of certain other indebtedness, and certain events of bankruptcy and insolvency. Events of default under the 2024 Indenture arising from certain events of bankruptcy or insolvency will automatically cause the acceleration of the amounts due under the 6.125% Notes. If any other event of default under the 2024 Indenture occurs and is continuing, the trustee for the 2024 Indenture or the registered holders of at least 25% in the then aggregate outstanding principal amount of the 6.125% Notes, may declare the acceleration of the amounts due under those notes.

The Company recorded \$4.0 of fees in connection with the offering of the 6.125% Notes during the three month period ended December 28, 2014. The fees are classified as Debt issuance costs within the accompanying Condensed Consolidated Statements of Financial Position (Unaudited) and are amortized as an adjustment to interest expense over the remaining life of the 6.125% Notes.

ABL Facility

As a result of borrowings and payments under the ABL Facility, at December 28, 2014, the Company had aggregate borrowing availability of approximately \$236.2, net of lender reserves of \$6.4 and outstanding letters of credit of \$50.3.

8 DERIVATIVE FINANCIAL INSTRUMENTS

Derivative financial instruments are used by the Company principally in the management of its interest rate, foreign currency exchange rate and raw material price exposures. The Company does not hold or issue derivative financial instruments for trading purposes. Derivative instruments are reported at fair value in the Condensed Consolidated Statements of Financial Position (Unaudited). When hedge accounting is elected at inception, the Company formally designates the financial instrument as a hedge of a specific underlying exposure and documents both the risk management objectives and strategies for undertaking the hedge. The Company formally assesses both at the inception and at least quarterly thereafter, whether the financial instruments that are used in hedging transactions are effective at offsetting changes in the forecasted cash flows of the related underlying exposure. Because of the high degree of effectiveness between the hedging instrument and the underlying exposure being hedged, fluctuations in the

value of the derivative instruments are generally offset by changes in the forecasted cash flows of the underlying exposures being hedged. Any ineffective portion of a financial instrument's change in fair value is recognized in earnings in the period incurred. For derivatives that are not designated as cash flow hedges, or do not qualify for hedge accounting treatment, the change in the fair value is also recognized in earnings in the period incurred.

Derivative Financial Instruments

Cash Flow Hedges

The Company uses interest rate swaps to manage its interest rate risk. The swaps are designated as cash flow hedges with the changes in fair value recorded in AOCI and as a derivative hedge asset or liability, as applicable. The swaps settle periodically in arrears with the related amounts for the current settlement period payable to, or receivable from, the counter-parties included in accrued liabilities or receivables, respectively, and recognized in earnings as an adjustment to Interest expense from the underlying debt to which the swap is designated. At both December 28, 2014 and September 30, 2014, the Company had a series of U.S. dollar denominated interest rate swaps outstanding which effectively fix the interest on floating rate debt, exclusive of lender spreads, at 1.36% for a notional principal amount of \$300.0 through April 2017. The derivative

net loss on these contracts recorded in AOCI by the Company at December 28, 2014 was \$0.9, net of tax benefit of \$0.0. At December 28, 2014, the portion of derivative net losses estimated to be reclassified from AOCI into earnings by the Company over the next 12 months is \$1.5, net of tax.

The Company's interest rate swap derivative financial instruments at December 28, 2014 and September 30, 2014 are summarized as follows:

	December 28, 2014		September 30, 2014	
	Notional Amount	Remaining Years	Notional Amount	Remaining Years
Interest rate swaps - fixed	\$ 300.0	2.3	\$ 300.0	2.5

The Company periodically enters into forward foreign exchange contracts to hedge the risk from forecasted foreign currency denominated third party and intercompany sales or payments. These obligations generally require the Company to exchange foreign currencies for U.S. Dollars, Euros, Pounds Sterling, Australian Dollars, Brazilian Reals, Mexican Pesos, Canadian Dollars or Japanese Yen. These foreign exchange contracts are cash flow hedges of fluctuating foreign exchange related to sales of product or raw material purchases. Until the sale or purchase is recognized, the fair value of the related hedge is recorded in AOCI and as a derivative hedge asset or liability, as applicable. At the time the sale or purchase is recognized, the fair value of the related hedge is reclassified as an adjustment to Net sales or purchase price variance in Cost of goods sold. At December 28, 2014, the Company had a series of foreign exchange derivative contracts outstanding through March 2016 with a contract value of \$157.0. The derivative net gain on these contracts recorded in AOCI by the Company at December 28, 2014 was \$12.4, net of tax expense of \$4.6. At December 28, 2014, the portion of derivative net gains estimated to be reclassified from AOCI into earnings by the Company over the next 12 months is \$12.4, net of tax.

The Company is exposed to risk from fluctuating prices for raw materials, specifically zinc and brass used in its manufacturing processes. The Company hedges a portion of the risk associated with the purchase of these materials through the use of commodity swaps. The hedge contracts are designated as cash flow hedges with the fair value changes recorded in AOCI and as a hedge asset or liability, as applicable. The unrecognized changes in fair value of the hedge contracts are reclassified from AOCI into earnings when the hedged purchase of raw materials also affects earnings. The swaps effectively fix the floating price on a specified quantity of raw materials through a specified date. At December 28, 2014, the Company had a series of zinc swap contracts outstanding through March 2016 for 6.7 thousand tons with a contract value of \$14.7. At December 28, 2014, the Company had a series of brass swap contracts outstanding through March 2016 for 1.2 thousand metric tons with a contract value of \$6.3. The derivative net loss on these contracts recorded in AOCI by the Company at December 28, 2014 was \$0.4, net of tax benefit of \$0.0. At December 28, 2014, the portion of derivative net loss estimated to be reclassified from AOCI into earnings by the Company over the next 12 months is \$0.3, net of tax.

Derivative Contracts Not Designated as Hedge Accounting

The Company periodically enters into forward and swap foreign exchange contracts to economically hedge the risk from third party and intercompany payments resulting from existing obligations. These obligations generally require the Company to exchange foreign currencies for U.S. Dollars, Canadian Dollars, Euros or Australian Dollars. These foreign exchange contracts are fair value hedges of a related liability or asset recorded in the accompanying Condensed Consolidated Statements of Financial Position (Unaudited). The gain or loss on the derivative hedge contracts is recorded in earnings as an offset to the change in value of the related liability or asset at each period end. At December 28, 2014 and September 30, 2014, the Company had \$313.7 and \$108.9, respectively, of notional value of such foreign exchange derivative contracts outstanding.

The Company periodically enters into commodity swap contracts to economically hedge the risk from fluctuating prices for raw materials, specifically the pass-through of market prices for silver used in manufacturing purchased watch batteries. The Company hedges a portion of the risk associated with these materials through the use of commodity swaps. The swap contracts are designated as economic hedges with the unrealized gain or loss recorded in earnings and as an asset or liability at each period end. The unrecognized changes in fair value of the hedge contracts are adjusted through earnings when the realized gains or losses affect earnings upon settlement of the hedges. The swaps effectively fix the floating price on a specified quantity of silver through a specified date. At December 28, 2014, the Company had a series of such swap contracts outstanding through September 2015 for 20 thousand troy ounces with a contract value of \$0.3. At September 30, 2014, the Company had a series of such swap contracts outstanding through September 30, 2015 for 25 thousand troy ounces with a contract value of \$0.4.

Changes in AOCI from Derivative Instruments

For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the gain or loss on the derivative is reported as a component of Accumulated Other Comprehensive Income ("AOCI") and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. Gains and losses on derivatives representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in current earnings. See Note 3, "Comprehensive Income (Loss)" for further information.

10 EMPLOYEE BENEFIT PLANS

Pension Benefits

The Company has various defined benefit pension plans covering some of its employees in the U.S. and certain employees in other countries, including the United Kingdom, the Netherlands, Germany, Guatemala, Brazil, Mexico and Taiwan. These pension plans generally provide benefits of stated amounts for each year of service.

The Company's results of operations for the three month periods ended December 28, 2014 and December 29, 2013 reflect the following pension and deferred compensation benefit costs:

	Three Months Ended	
	2015	2014
Components of net periodic benefit and deferred compensation benefit cost		
Service cost	\$ 0.8	\$ 0.9
Interest cost	2.4	2.6
Expected return on assets	(2.5)	(2.5)
Recognized net actuarial loss	0.4	0.4
Net periodic benefit cost	\$ 1.1	\$ 1.4

The Company funds its U.S. pension plans in accordance with the Internal Revenue Service defined guidelines and, where applicable, in amounts sufficient to satisfy the minimum funding requirements of applicable laws. Additionally, in compliance with the Company's funding policy, annual contributions to non-U.S. defined benefit plans are equal to the actuarial recommendations or statutory requirements in the respective countries. The Company's contributions to its pension and deferred compensation plans for the three month periods ended December 28, 2014 and December 29, 2013 were as follows:

	Three Months Ended	
	2015	2014
Pension and deferred compensation contributions		
Contributions made during period	\$ 2.2	\$ 3.3

The Company sponsors a defined contribution pension plan for its domestic salaried employees, which allows participants to make contributions by salary reduction pursuant to Section 401(k) of the Internal Revenue Code. The Company also sponsors defined contribution pension plans for employees of certain foreign subsidiaries. Company contributions charged to operations, including discretionary amounts, for the three month periods ended December 28, 2014 and December 29, 2013 were \$3.5 and \$4.1, respectively.

11 INCOME TAXES

The Company's effective tax rates for the three months ended December 28, 2014 and December 29, 2013 were 29% and 19%, respectively. The Company's effective tax rates differ from the U.S. federal statutory rate of 35% principally due to income earned outside the U.S. that is subject to statutory rates lower than 35%.

The Company records the impact of a tax position if it concludes that the position is more likely than not sustainable upon audit, based on the technical merits of the position. At December 28, 2014 and September 30, 2014, the Company had \$11.2 and \$11.3, respectively, of unrecognized tax benefits related to uncertain tax positions. At both December 28, 2014 and September 30, 2014, the Company had approximately \$3.5 of accrued interest and penalties related to the uncertain tax positions. Interest and penalties related to uncertain tax positions are reported as Income tax expense.

As of December 28, 2014, certain of the Company's legal entities in various jurisdictions are undergoing income tax audits. The Company cannot predict the ultimate outcome of the examinations; however, it is reasonably possible that during the next 12 months some portion of previously unrecognized tax benefits could be recognized.

12 SEGMENT RESULTS

The Company manages its business in four vertically integrated, product-focused reporting segments: (i) Global Batteries & Appliances; (ii) Hardware & Home Improvement; (iii) Global Pet Supplies; and (iv) Home and Garden.

Global strategic initiatives and financial objectives for each reportable segment are determined at the corporate level. Each reportable segment is responsible for implementing defined strategic initiatives and achieving certain financial objectives and has a general manager responsible for the sales and marketing initiatives and financial results for product lines within that segment.

Net sales and Cost of goods sold from transactions with other business segments have been eliminated. The gross contribution of intersegment sales is included in the segment selling the product to the external customer. Segment net sales are based upon the segment from which the product is shipped.

The operating segment profits do not include restructuring and related charges, acquisition and integration related charges, interest expense, interest income and income tax expense. Corporate expenses primarily include general and administrative expenses and global long-term incentive compensation plan costs which are evaluated on a consolidated basis and not allocated to the Company's operating segments. All depreciation and amortization included in income from operations is related to operating segments or corporate expense. Costs are identified to operating segments or corporate expense according to the function of each cost center.

All capital expenditures are related to operating segments. Variable allocations of assets are not made for segment reporting.

Segment information for the three month periods ended December 28, 2014 and December 29, 2013 is as follows:

HHI Business Rationalization Initiatives		

During the fourth quarter of the fiscal year ended September 30, 2014, the Company implemented a series of initiatives throughout the Hardware & Home Improvement business segment to reduce operating costs and exit low margin business outside the U.S. (the “HHI Business Rationalization Initiatives”). These initiatives include headcount reductions, the exit of certain facilities and the sale of a portion of the Hardware & Home Improvement operations in Canada. Costs associated with these initiatives, which are expected to be incurred through September 30, 2016, are projected to total approximately \$9.5.

The Company recorded \$0.2 of pretax restructuring and related charges during the three month period ended December 30, 2014, and no pretax restructuring and related charges during the three month period ended December 29, 2013, related to the HHI Business Rationalization Initiatives.

Global Expense Rationalization Initiatives Summary

During the third quarter of the fiscal year ended September 30, 2013, the Company implemented a series of initiatives throughout the Company to reduce operating costs (the “Global Expense Rationalization Initiatives”). These initiatives consist of headcount reductions primarily in the Global Batteries & Appliances segment, the Global Pet Supplies segment, the Home and Garden segment and within Corporate. Costs associated with these initiatives, which are expected to be incurred through September 30, 2015, are currently projected to approximately \$37.0.

The Company recorded \$7.2 and \$3.0 of pretax restructuring and related charges during the three month periods ended December 28, 2014 and December 29, 2013, respectively, related to the Global Expense Rationalization Initiatives.

The following table summarizes the remaining accrual balance associated with the Global Expense Rationalization Initiatives and the activity during the three month period ended December 28, 2014:

	Termination Benefits	Other Costs	Total
Accrual balance at September 30, 2014	\$ 4.1	\$ 1.4	\$ 5.5

The Company recorded \$0.0 and \$1.2 of restructuring and related charges during the three month periods ended December 28, 2014 and December 29, 2013, respectively, related to initiatives implemented by the HHI Business prior to the Company's acquisition on December 17, 2012.

In connection with other restructuring efforts, the Company recorded no pretax restructuring and related charges during the three month period ended December 28, 2014 and \$0.5 of pretax restructuring and related charges during the three month period ended December 29, 2013.

14 ACQUISITIONS

In accordance with ASC Topic 805, "Business Combinations" ("ASC 805"), the Company accounts for acquisitions by applying the acquisition method of accounting. The acquisition method of accounting requires, among other things, that the assets acquired and liabilities assumed in a business combination be measured at their fair values as of the closing date of the acquisition.

Tell Manufacturing

On October 1, 2014, the Company completed the acquisition of Tell, a leading manufacturer and distributor of commercial doors, locks and hardware. The preliminary value of the consideration given in this acquisition, net of working capital adjustments, was \$30.3 and is not significant individually.

The results of Tell's operations since October 1, 2014 are included in the Company's Condensed Consolidated Statements of Operations (Unaudited) and are reported as part of the Hardware & Home Improvement segment.

Preliminary Valuation of Assets and Liabilities

The assets acquired and liabilities assumed in the Tell acquisition have been measured at their fair values at October 1, 2014 as set forth below. The excess of the purchase price over the fair values of the net tangible assets and identifiable intangible assets was recorded as goodwill, which includes value associated with the assembled workforce including an experienced research team, and is expected to be deductible for income tax purposes. The preliminary fair values recorded were determined based upon a valuation and the estimates and assumptions used in such valuation are subject to change, which could be significant, within the measurement period (up to one year from the acquisition date). The primary areas of acquisition accounting that are not yet finalized relate to amounts for intangible assets, contingent liabilities and residual goodwill.

Table of Contents

SPECTRUM BRANDS HOLDINGS, INC.

Notes to Condensed Consolidated Financial Statements (Unaudited) – (Continued)

(Amounts in millions of dollars, except per share figures or as otherwise specified)

The preliminary fair values recorded for the assets acquired and liabilities assumed for Tell are as follows:

Cash	\$ 1.1
Accounts receivable	5.4
Inventories	7.2
Prepaid expense	0.6
Property, plant and equipment, net	1.5
Intangible assets	12.5
Total assets acquired	\$ 28.3
Total liabilities assumed	5.1
Total identifiable net assets less goodwill	23.2
Goodwill	7.1
Total identifiable net assets	\$ 30.3
Preliminary Valuation Adjustments	

The Company performed a preliminary valuation of the acquired inventories, property, plant and equipment, trade name and customer relationships at October 1, 2014. A summary of the significant inputs to the valuation is as follows:

- Inventories – Replacement cost approach was applied to estimate the fair value of the raw materials inventory. Finished goods were valued at estimated selling price less the sum of costs of disposal and reasonable profit on the value added in the completion and disposal effort.
- Property, plant and equipment –The cost approach was utilized to estimate the fair value of approximately 97.0% of the property, plant and equipment. The sales comparison approach was utilized to estimate the fair value of the remaining 3.0% of the property, plant and equipment.
- The Company valued an indefinite-lived trade name using the income approach, specifically the relief from royalty method. Under this method, the asset value was determined by estimating the hypothetical royalties that would have to be paid if the trade name was not owned. Royalty rates were selected based

on consideration of several factors, including prior transactions of Tell, related trademarks and trade names, other similar trademark licensing and transaction agreements and the relative profitability and perceived contribution of the trade name. Trade name was valued at \$4.0 under this approach.

- The Company valued customer relationships using the income approach, specifically the multi-period excess earnings method. In determining the fair value of the customer relationships, the multi-period excess earnings approach values the intangible asset at the present value of the incremental after-tax cash flows attributable only to the customer relationship after deducting contributory asset charges. The incremental after-tax cash flows attributable to the subject intangible asset are then discounted to their present value. Only expected sales from current customers were used, which were estimated using annual expected growth rates of 2.5% to 7.1%. The Company assumed a customer retention rate of approximately 90%, which was supported by historical retention rates. Income taxes were estimated at 38% and amounts were discounted using a rate of 20%. The customer relationships were valued at \$8.5 million under this approach and will be amortized over 13 years.

15 SUBSEQUENT EVENTS

ASC 855, “Subsequent Events” (“ASC 855”), establishes general standards of accounting and disclosure of events that occur after the balance sheet date but before financial statements are issued or available to be issued. ASC 855 requires the Company to evaluate events that occur after the balance date through the date of the Company’s financial statements are issued, and to determine whether adjustments to or additional disclosures in the financial statements are necessary. The Company has evaluated subsequent events through the date these financial statements were issued.

On December 31, 2014, the Company completed a \$120.0 cash acquisition, excluding working capital adjustments, of Procter & Gamble’s European pet food business, consisting of premium brands for dogs and cats. The Company will account for this acquisition in accordance with ASC 805. The Company is in the process of completing the preliminary purchase accounting.

On January 16, 2015, the Company completed a \$150.5 cash acquisition, excluding working capital adjustments, of Salix Animal Health LLC, which provides premium pet food products. The Company will account for this acquisition in accordance with ASC 805. The Company is in the process of completing the preliminary purchase accounting.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Introduction

Spectrum Brands Holdings, Inc., a Delaware corporation (“SB Holdings”), is a diversified global branded consumer products company. SB Holdings' common stock trades on the New York Stock Exchange (the “NYSE”) under the symbol “SPB.”

Unless the context indicates otherwise, the terms the “Company,” “Spectrum,” “we,” “our” or “us” are used to refer to SB Holdings and its subsidiaries.

Business Overview

We manufacture and market alkaline, zinc carbon and hearing aid batteries, herbicides, insecticides and repellants and specialty pet supplies. We design and market rechargeable batteries, battery-powered lighting products, electric shavers and accessories, grooming products and hair care appliances. We also design, market and distribute a broad range of branded small household appliances and personal care products. We also design, manufacture, market, distribute and sell certain hardware, home improvement and plumbing products, and are a leading U.S. provider of residential locksets and builders' hardware and a leading provider of faucets. Our manufacturing and product development facilities are located in the United States (“U.S.”), Europe, Latin America and Asia. Substantially all of our rechargeable batteries, chargers and portable lighting products, shaving and grooming products, small household appliances and personal care products are manufactured by third-party suppliers, primarily located in Asia.

We sell our products in approximately 160 countries through a variety of trade channels, including retailers, wholesalers and distributors, hearing aid professionals, industrial distributors and original equipment manufacturers and enjoy strong name recognition in our markets under the Rayovac, VARTA and Remington brands, each of which has been in existence for more than 80 years, and under the Tetra, 8-in-1, Dingo, Nature's Miracle, Spectracide, Cutter, Hot Shot, Black & Decker, George Foreman, Russell Hobbs, Farberware, Black Flag, FURminator, Kwikset, Weiser, Baldwin, National Hardware, Stanley and Pfister brands. We also have patented technologies such as Smartkey, a rekeyable lockset technology, and Smart Code Home Connect.

Our diversified global branded consumer products have positions in six major product categories: consumer batteries, small appliances, personal care, hardware and home improvement, pet supplies and home and garden controls.

Our chief operating decision-maker manages the businesses in four vertically integrated, product-focused reporting segments: (i) Global Batteries & Appliances, which consists of our worldwide battery, personal care and small appliances, primarily in the kitchen and home product categories (“Global Batteries & Appliances”); (ii) Global Pet Supplies, which consists of our worldwide pet supplies business (“Global Pet Supplies”); (iii) Home and Garden, which consists of our home and garden and insect control business (“Home and Garden”); and (iv) Hardware & Home Improvement, which consists of residential locksets and builders hardware and plumbing products (“Hardware & Home Improvement”). Management reviews our performance based on these segments. For information pertaining to our business segments, see Note 12, “Segment Results” of Notes to Condensed Consolidated Financial Statements (Unaudited), included in this Quarterly Report on Form 10-Q.

Global and geographic strategic initiatives and financial objectives are determined at the corporate level. Each business segment is responsible for implementing defined strategic initiatives and achieving certain financial objectives and has a general manager responsible for sales and marketing initiatives and the financial results for all

product lines within that business segment.

Our operating performance is influenced by a number of factors including: general economic conditions; foreign exchange fluctuations; trends in consumer markets; consumer confidence and preferences; our overall product line mix, including pricing and gross margin, which vary by product line and geographic market; pricing of certain raw materials and commodities; energy and fuel prices; and our general competitive position, especially as impacted by our competitors' advertising and promotional activities and pricing strategies.

Results of Operations

Fiscal Quarter Ended December 28, 2014 Compared to Fiscal Quarter Ended December 29, 2013

In this Quarterly Report on Form 10-Q we refer to the three month period ended December 28, 2014 as the “Fiscal 2015 Quarter,” and the three month period ended December 29, 2013 as the “Fiscal 2014 Quarter.”

Net Sales. Net sales for the Fiscal 2015 Quarter decreased \$32.8 million to \$1,067.8 million from \$1,100.6 million in the Fiscal 2014 Quarter, a 3% decrease. The following table details the principal components of the change in net sales from the Fiscal 2014 Quarter to the Fiscal 2015 Quarter (in millions):

	Net Sales
Fiscal 2014 Quarter Net Sales	\$ 1,100.6
Increase in small appliances	15.7
Increase in personal care	6.1
Increase in home and garden controls	5.7
Decrease in pet supplies	(5.4)
Decrease in hardware and home improvement	(7.2)
Decrease in consumer batteries	(10.3)
Foreign currency impact, net	(37.4)
Fiscal 2015 Quarter Net Sales	\$ 1,067.8

Consolidated net sales by product line for the Fiscal 2015 Quarter and the Fiscal 2014 Quarter are as follows (in millions):

	2015	2014
Product line net sales by segment		
Global batteries and appliances		
Consumer batteries	\$ 240.2	\$ 264.5
Small appliances	223.8	216.8
Personal care	172.5	178.0
Total Global batteries and appliances	\$ 636.5	\$ 659.3
Hardware and home improvement	271.2	278.4
Global pet supplies	120.6	129.1
Home and garden	39.5	33.8
Total net sales to external customers	\$ 1,067.8	\$ 1,100.6

Global consumer battery sales decreased \$24.3 million, or 9%, during the Fiscal 2015 Quarter versus the Fiscal 2014 Quarter. Excluding the impact of negative foreign exchange of \$14.0 million, global consumer battery sales decreased \$10.3 million. The constant currency decrease in global consumer battery sales was attributable to a decrease in North American sales of \$23.5 million, which was partially offset by increases in European and Latin American consumer battery sales of \$10.8 million and \$2.4 million, respectively. The decrease in North America was due to promotions and discounts by our competitors coupled with customer inventory reduction initiatives and timing of holiday shipments. On a constant currency basis, the European sales increase was due to a \$9.0 million increase in alkaline batteries and a \$2.3 million increase in specialty batteries. The increase in European alkaline and specialty batteries were driven by customer gains, increased volume and promotional activities. The Latin American sales increase was primarily attributable to \$1.6 million in our lighting category as a result of continuing geographic expansion coupled with the effective launch of our compact fluorescent light bulbs in Brazil, the Caribbean and Chile.

Small appliance sales increased \$7.0 million, or 3%, during the Fiscal 2015 Quarter compared to the Fiscal 2014 Quarter, which included \$8.7 million of negative foreign exchange impact. Excluding foreign exchange, North American and European sales increased \$7.3 million and \$8.6 million, respectively. The North American sales increase was attributable to promotions and timing of shipments coupled with new products. The European sales increase was attributable to new products and customer gains.

Table of Contents

Personal care sales decreased \$5.5 million, or 3%, during the Fiscal 2015 Quarter versus the Fiscal 2014 Quarter, which included \$11.6 million of negative foreign exchange impact. Excluding foreign exchange, European and Latin American sales increased \$8.2 million and \$1.4 million, respectively, which was partially offset by a North American sales decrease of \$3.5 million. The European sales increase was primarily due to new product releases related to male grooming coupled with geographic expansion into Eastern Europe. The Latin American sales increase was attributable to new customers coupled with new product launches in Argentina and Chile. The North American sales decrease was due to the transition of our new shaving and grooming product categories, which we expect to launch during our second quarter of Fiscal 2015, coupled with timing of holiday shipments.

Hardware and home improvement sales decreased \$7.2 million, or 3%, during the Fiscal 2015 Quarter compared to the Fiscal 2014 Quarter. The port delays had a \$12.3 million negative impact on sales during the Fiscal 2015 Quarter, which was partially offset by an increase of \$9.8 million due to the acquisition of Tell Manufacturing, Inc. (“Tell”) during the Fiscal 2015 Quarter. During the Fiscal 2015 Quarter the hardware product category and security product category declined \$9.2 million and \$0.9 million, respectively. These sales declines were partially offset by an increase in the plumbing category of \$3.0 million. In addition to the effect of the port delays, the decrease in the hardware product category was due to distributor transition for our Asia supplier. The increase in the plumbing category was mainly due to strong performance in both the retail and wholesale channels.

Global pet supplies sales decreased \$8.5 million, or 7%, during the Fiscal 2015 Quarter compared to the Fiscal 2014 Quarter, which included negative foreign exchange impact of \$3.1 million. On a constant currency basis, aquatic sales and companion animal sales decreased \$4.9 million and \$0.5 million, respectively. The aquatic sales decline was driven by continued weakness in the aquatic product category in North America coupled with lower European sales due to an import ban in Russia.

Home and garden control sales increased \$5.7 million, or 17%, during the Fiscal 2015 Quarter compared to the Fiscal 2014 Quarter. The sales gain was attributable to increases in repellent product sales and household insect control sales of \$4.8 million and \$2.3 million, respectively. These increases were tempered with decreased sales in lawn and garden control products of \$1.4 million. The increase in repellent product sales was due to the acquisition of The Liquid Fence Company, Inc. (“Liquid Fence”), which occurred during the second quarter of our fiscal year ended September 30, 2014 (“Fiscal 2014”), coupled with a strong demand for personal repellent products in Puerto Rico. The increase in household insect control sales was attributable to distribution gains at retailers coupled with an extended peak seasonal selling season. The decrease in lawn and garden control sales was primarily due to the timing of retail customer orders.

Gross Profit. Gross profit and gross profit margin for the Fiscal 2015 Quarter was \$370.2 million and 34.7% versus \$381.2 million and 34.6% for the Fiscal 2014 Quarter. Gross profit margin percentage was up slightly in the Fiscal 2015 Quarter compared to the Fiscal 2014 Quarter, primarily driven by mix.

Operating Expenses. Operating expenses for the Fiscal 2015 Quarter totaled \$254.6 million compared to \$256.3 million for the Fiscal 2014 Quarter. The slight decrease in operating expenses during the Fiscal 2015 Quarter is attributable to a \$9.1 million decrease within selling and general and administrative expenses as a result of expense reductions in all four segments related to the decline in sales volume. These decreases were partially offset by a \$4.4 million increase in Restructuring and related charges and a \$2.6 million increase within Acquisition and integration related charges.

See Note 2, "Significant Accounting Policies—Acquisition and Integration Related Charges," to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q for additional information regarding our Acquisition and integration related charges.

See Note 13, "Restructuring and Related Charges," to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q for additional information regarding our Restructuring and related charges.

Segment Results. As discussed above, we manage our business in four reportable segments: (i) Global Batteries & Appliances; (ii) Hardware & Home Improvement; (iii) Global Pet Supplies; and (vi) Home and Garden.

The operating segment profits do not include restructuring and related charges, acquisition and integration related charges, interest expense, interest income and income tax expense. Corporate expenses primarily include general and administrative expenses and global long-term incentive compensation plans which are evaluated on a consolidated basis and not allocated to our operating segments. All depreciation and amortization included in income from operations is related to

operating segments or corporate expense. Costs are allocated to operating segments or corporate expense according to the function of each cost center.

All capital expenditures are related to operating segments. Variable allocations of assets are not made for segment reporting.

Financial information pertaining to our reportable segments is contained in Note 12, "Segment Results," to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q.

Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization ("Adjusted EBITDA") is a metric used by management and frequently used by the financial community which provides insight into an organization's operating trends and facilitates comparisons between peer companies, since interest, taxes, depreciation and amortization can differ greatly between organizations as a result of differing capital structures and tax strategies. Adjusted EBITDA can also be a useful measure of a company's ability to service debt and is one of the measures used for determining our debt covenant compliance. Adjusted EBITDA excludes certain items that are unusual in nature or not comparable from period to period. While we believe that Adjusted EBITDA is useful supplemental information, such adjusted results are not intended to replace our Generally Accepted Accounting Principles' ("GAAP") financial results and should be read in conjunction with those GAAP results.

Below are reconciliations of GAAP Net income (loss), as adjusted, to Adjusted Earnings Before Interest and Taxes ("EBIT") and to Adjusted EBITDA for each segment and for Consolidated SB Holdings for the Fiscal 2015 Quarter and the Fiscal 2014 Quarter:

Assets as of December 28, 2014 and September 30, 2014	\$ 2,167.8	\$ 2,152.0

Global Batteries & Appliances net sales to external customers are discussed within the “Product line net sales by segment” discussion above.

Segment profit in the Fiscal 2015 Quarter decreased to \$96.6 million from \$97.2 million in the Fiscal 2014 Quarter, driven by the previously discussed sales decrease which was partially tempered by operating cost savings from the Global Expense Rationalization Initiatives that were originally implemented in Fiscal 2013 and expanded in Fiscal 2014. Segment profitability as a percentage of net sales increased to 15.2% in the Fiscal 2015 Quarter compared to 14.7% in the Fiscal 2014 Quarter as a result of the cost savings discussed above.

Segment Adjusted EBITDA in the Fiscal 2015 Quarter decreased to \$112.1 million from \$114.2 million in the Fiscal 2014 Quarter. The decrease in segment Adjusted EBITDA was driven by the factors that drove the decrease in segment profit discussed above.

Segment assets at December 28, 2014 increased to \$2,167.8 million from \$2,152.0 million at September 30, 2014. The increase is primarily due seasonal increases in working capital of \$44.1 million, partially offset by decreases in Goodwill and intangible assets as a result of amortization of definite lived intangible assets and foreign currency impacts.

Segment Adjusted EBITDA	\$ 51.9	\$ 49.6
Assets as of December 28, 2014 and September 30, 2014	\$ 1,675.4	\$ 1,629.0

Hardware and home improvement net sales to external customers are discussed within the “Product line net sales by segment” discussion above.

Segment profit in the Fiscal 2015 Quarter decreased to \$38.9 million from \$40.0 million in the Fiscal 2014 Quarter. Segment profitability as a percentage of sales declined slightly to 14.3% in the Fiscal 2015 Quarter, versus 14.4% in the Fiscal 2014 Quarter. The slight decrease in segment profit was driven by the previously discussed sales decrease coupled with the one-time increase of \$0.8 million related to the increase to cost of goods sold in the Fiscal 2015 Quarter due to the sale of inventory revalued in connection with the Tell acquisition. These items were partially offset by a decrease in operating expenses resulting from the HHI Business Rationalization Initiatives announced in Fiscal 2014. The slight decrease in segment

Table of Contents

profit as a percentage of sales was driven by the one-time increase to cost of goods sold, which was partially offset by cost savings from the HHI Business Rationalization Initiatives.

Segment Adjusted EBITDA was \$51.9 million in the Fiscal 2015 Quarter versus \$49.6 million in the Fiscal 2014 Quarter. The increase in Segment Adjusted EBITDA was driven by cost improvements and expense controls as discussed above coupled with a \$1.1 million increase in adjusted EBITDA due to the Tell acquisition during the Fiscal 2015 Quarter.

Segment assets at December 28, 2014 and September 30, 2014 were \$1,675.4 million and \$1,629.0 million, respectively. The increase in segment assets was primarily driven by a seasonal increase in inventory of \$42.3 million coupled with an increase in Goodwill and intangible assets of \$10.6 million as result of the acquisition of Tell. Goodwill and intangible assets were \$1,181.5 million at December 28, 2014 compared to \$1,170.9 million at September 30, 2014.

See Note 14, “Acquisitions” to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q for additional information regarding the Tell acquisition.

Assets as of December 28, 2014 and September 30, 2014	\$ 894.6	\$ 890.4

Global pet supply net sales to external customers are discussed within the “Product line net sales by segment” discussion above.

Segment profit decreased to \$5.6 million in the Fiscal 2015 Quarter compared to \$13.0 million in the Fiscal 2014 Quarter and segment profitability as a percentage of sales in the Fiscal 2015 Quarter decreased to 4.6% from 10.1% in Fiscal 2014 Quarter. The decrease in segment profit and segment profitability as a percent of sales were driven by decreased sales coupled with unfavorable product mix and increased trade promotions.

Segment Adjusted EBITDA in the Fiscal 2015 Quarter decreased \$7.4 million to \$13.0 million from \$20.4 million in the Fiscal 2014 Quarter. The decrease in Adjusted EBITDA during the Fiscal 2015 Quarter compared to the Fiscal

2014 Quarter was driven by factors discussed above.

Segment assets at December 28, 2014 increased to \$894.6 million from \$890.4 million at September 30, 2014. Goodwill and intangible assets decreased to \$656.4 million at December 28, 2014 from \$668.7 million at September 30, 2014, due to amortization of definite lived intangible assets.

Home and Garden net sales to external customers are discussed within the “Product line net sales by segment” discussion above.

Segment profitability in the Fiscal 2015 Quarter increased \$4.0 million to \$2.8 million from a loss of \$(1.2) million in the Fiscal 2014 Quarter. Segment profitability as a percentage of sales in the Fiscal 2015 Quarter increased to 7.1% from (3.6)% last year. The increase in segment profit and segment profitability as a percentage of sales is attributable to the seasonal peak selling season extending into the Fiscal 2015 Quarter, the implementation of the Global Expense Rationalization Initiatives that were announced in Fiscal 2013 and expanded in Fiscal 2014 and the Liquid Fence acquisition that closed in the second quarter of Fiscal 2014.

Segment Adjusted EBITDA in the Fiscal 2015 Quarter increased \$4.3 million to \$6.0 million from \$1.7 million in the Fiscal 2014 Quarter, driven by the factors discussed above for the increase in segment profit.

Segment assets at December 28, 2014 increased to \$570.6 million from \$526.6 million at September 30, 2014. The increase in segment assets was driven by normal seasonal increases in inventory in preparation of our major selling season. Goodwill and intangible assets decreased to \$446.5 million at December 28, 2014 from \$449.2 million at September 30, 2014, due to amortization of definite lived intangible assets.

Corporate Expense. Our corporate expense was \$12.8 million in the Fiscal 2015 Quarter compared to \$14.1 million in the Fiscal 2014 Quarter, with the decrease primarily attributable to savings from the Global Expense Rationalization Initiatives that were implemented in Fiscal 2013 and expanded in Fiscal 2014 coupled with decreased stock compensation expense of \$1.0 million.

Acquisition and Integration Related Charges. Acquisition and integration related charges include, but are not limited to, transaction costs such as banking, legal and accounting professional fees directly related to acquisitions, termination and related costs for transitional and certain other employees, integration related professional fees and other post business combination related expenses associated with our acquisitions. See Note 2, “Significant Accounting Policies - Acquisition and Integration Related Charges” to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q for further detail regarding our Acquisition and integration related charges.

Restructuring and Related Charges. See Note 13, “Restructuring and Related Charges” to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q for information regarding our restructuring and related charges.

Interest Expense. Interest expense in the Fiscal 2015 Quarter was \$44.4 million compared to \$57.0 million in the Fiscal 2014 Quarter. The \$12.6 million decrease in interest expense in the Fiscal 2015 Quarter is driven primarily by the non-recurrence of \$11.3 million in costs related to the refinancing of the Term Loan in the Fiscal 2014 Quarter, consisting of the write off of unamortized deferred financing fees and original issue discount. See Note 7, “Debt,” to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q for additional information regarding our outstanding debt.

Income Taxes. Our effective tax rates for the Fiscal 2015 Quarter and the Fiscal 2014 Quarter were 29% and 19%, respectively. For the Fiscal 2015 Quarter and the Fiscal 2014 Quarter, our effective tax rates differ from the U.S. federal statutory rate of 35% principally due to income earned outside the U.S. that is subject to statutory rates lower than 35%. Additionally, for the Fiscal 2015 Quarter, we recorded a \$3.6 million tax charge to record a valuation allowance against deferred tax assets related to our Brazil operations, since it is more likely than not that we will not

obtain tax benefits from these assets. For the Fiscal 2014 Quarter, the tax rate was reduced due to a favorable Mexican law change.

We are not treating current and certain prior year earnings as permanently reinvested, except for jurisdictions where repatriation is either precluded or restricted by law. Due to the valuation allowance recorded against U.S. net deferred tax assets, including net operating loss carryforwards, we do not recognize any incremental U.S. tax expense on the expected future repatriation of foreign earnings. Should the U.S. valuation allowance be released at some future date, the recording of U.S. tax on foreign earnings not considered permanently reinvested might have a material effect on our effective tax rate. For our fiscal year ending September 30, 2015, we expect to record approximately \$2.6 million of additional tax expense from non-U.S. withholding and other taxes expected to be incurred on repatriation of current earnings, and also expect to record \$15.2 million of US tax on future repatriation that would be offset by operating losses.

32

Table of Contents

During our fiscal year ending September 30, 2014, we earned domestic pretax book income after having generated significant domestic book and tax losses since Fiscal 1997. We generated a small domestic loss during the Fiscal 2015 Quarter. Should we generate domestic pretax profits in the near-term, there is a reasonable possibility that some or most of the domestic valuation allowance could be released, which could result in a material tax benefit. We estimate that \$123.4 million of valuation allowance related to domestic deferred tax assets cannot be released regardless of the amount of domestic income generated due to prior period ownership changes that limit the amount of NOLs we can use.

Liquidity and Capital Resources

Operating Activities

For the Fiscal 2015 Quarter, cash used by operating activities totaled \$146.6 million compared to cash used of \$136.0 million during the Fiscal 2014 Quarter. The \$10.6 million increase in cash used by operating activities was primarily due to:

- Lower Adjusted EBITDA of \$3.0 million;

- Cash used for working capital and other items of \$8.1 million driven by increase in accounts receivable, inventory and other working capital accounts; partially offset by an increase in cash from the change in accounts payable;
 - Higher cash payments for acquisition and integration and restructuring related costs of \$3.9 million; and

- Higher cash payments for income taxes of \$2.7 million

Offset by,

- Lower cash payments for interest of \$7.1 million.

We expect to fund our cash requirements, including capital expenditures, interest and principal payments due in Fiscal 2015, through a combination of cash on hand, cash flow from operations and funds available for borrowings under our asset based lending revolving credit facility (the “ABL Facility”). Going forward, our ability to satisfy financial and other covenants in our senior credit agreements and senior unsecured indentures and to make scheduled payments or prepayments on our debt and other financial obligations will depend on our future financial and operating performance. There can be no assurances that our business will generate sufficient cash flows from operations or that future borrowings under our ABL Revolving Credit Facility will be available in an amount sufficient to satisfy our debt maturities or to fund our other liquidity needs.

At December 28, 2014, there are no significant foreign cash balances available for repatriation. During Fiscal 2015, we expect to generate between \$75 million and \$125 million of foreign cash that may be repatriated for general corporate purposes.

See Item 1A. “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended September 30, 2014, for further discussion of the risks associated with our ability to service all of our existing indebtedness and our ability to maintain compliance with financial and other covenants related to our indebtedness.

Investing Activities

Net cash used by investing activities was \$43.2 million for the Fiscal 2015 Quarter compared to \$15.9 million for the Fiscal 2014 Quarter. The \$27.3 million increase in cash used by investing activities in the Fiscal 2015 Quarter is primarily driven by the \$29.2 million cash used for the Tell acquisition, partially offset by proceeds from sales of property, plant and equipment of \$1.1 million.

Financing Activities

Debt Financing

At December 28, 2014 we had the following debt instruments outstanding: (i) a senior secured term loan pursuant to a senior credit agreement (the “Senior Credit Agreement”) which consists of \$648.4 principal due September 4, 2017 (“Tranche

Table of Contents

A”), \$509.9 principal due September 4, 2019 (“Tranche C”), \$32.9 Canadian dollar denominated principal due December 17, 2019 (“CAD Term Loan”), \$272.9 Euro denominated principal due September 4, 2019 (“Euro Term Loan Tranche A”) and \$183.3 Euro denominated principal due December 19, 2021 (“Euro Term Loan Tranche B”) (together, the “Term Loan”); (ii) \$300.0 6.75% unsecured notes (the “6.75% Notes”); (iii) \$520.0 6.375% unsecured notes (the “6.375% Notes”); (iv) \$570.0 6.625% unsecured notes (the “6.625% Notes”); (v) \$250.0 6.125% unsecured notes (the “6.125% Notes”) and (vi) a \$400.0 asset based lending revolving credit facility (the “ABL Facility”).

At December 28, 2014, we were in compliance with all covenants under the Senior Credit Agreement, the indenture governing the 6.375% Notes and the 6.625% Notes, the indenture governing the 6.75% Notes, the indenture governing the 6.125% Notes and the credit agreement governing the ABL Facility (the “ABL Credit Agreement”).

From time to time we may repurchase our existing indebtedness, including outstanding securities of SB/RH Holdings, LLC or its subsidiaries, in the open market or otherwise.

See Note 7, “Debt,” to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q for additional information regarding our outstanding debt.

Financing Cash Flows

The Fiscal 2015 Quarter net cash provided by financing activities of \$409.9 million consisted of the following: (i) proceeds related to the issuance of \$250.0 million of unsecured notes; (ii) proceeds related to the Euro Term Loan Tranche B of \$185.4 million (iii) a use to pay share-based tax withholdings of employees for vested stock awards of \$1.7 million, net of proceeds upon vesting; (iv) a use to pay \$15.9 million of dividends; (v) a use to pay \$6.1 million of debt issuance costs; (vi) a use of \$8.5 million for treasury stock purchases; (vii) \$8.5 million of proceeds from other financing activities; and (viii) a use for reduction of other debt of \$1.8 million. The primary use of the proceeds from these activities was to fund working capital needs as discussed within “Liquidity and Capital Resources - Operating Activities” and to provide resources for future acquisitions.

The Fiscal 2014 Quarter net cash provided by financing activities of \$76.9 million consisted of the following: (i) proceeds related to the issuance \$523.7 million of Term Debt; (ii) a use of \$513.3 million to repay debt under the Senior Credit Facilities; (iii) borrowings of \$110.0 million on our ABL Facility; (iv) a use to pay share-based tax withholdings of employees for vested stock awards of \$24.7 million, net of proceeds upon vesting; (v) a use to pay \$13.2 million of dividends; (vi) a use to pay \$4.7 million of debt issuance costs; (vii) a use of \$4.5 million for treasury stock purchases; (viii) \$4.1 million proceeds from other financing activities; and (ix) a use for reduction of other debt of \$0.5 million. The primary use of the proceeds was to fund working capital needs as discussed within “Liquidity and Capital Resources - Operating Activities” and to provide resources for future acquisitions.

Interest Payments and Fees

In addition to principal payments on our debt obligations as mentioned above, we have annual interest payment obligations of approximately \$163.3 million in the aggregate. This includes interest under our 6.375% Notes of approximately \$33.2 million, interest under our 6.625% Notes of approximately \$37.8 million, interest under our 6.75% Notes of approximately \$20.3 million, interest under our 6.125% Notes of approximately \$15.3 million and interest under our Term Loan of approximately \$56.7 million. Interest on our debt is payable in cash. Interest on the 6.375% Notes, the 6.625% Notes, the 6.75% Notes and the 6.125% Notes is payable semi-annually in arrears and interest under the Term Loan is payable on various interest payment dates as provided in the Senior Credit Agreement and the ABL Credit Agreement. We are required to pay certain fees in connection with our outstanding debt

obligations. Such fees include a quarterly commitment fee of up to 0.375% on the unused portion of the ABL Facility and certain additional fees with respect to the letter of credit sub-facility under the ABL Facility.

Equity Financing Activities

During the Fiscal 2015 Quarter, we granted 0.2 million shares of restricted stock to our employees and our directors. All vesting dates are subject to the recipient's continued employment with us, except as otherwise permitted by our Board of Directors, or in certain cases where the employee is terminated without cause. The total market value of the restricted shares on the date of grant was approximately \$21.1 million, which represented unearned restricted stock compensation. Unearned compensation is amortized to expense over the appropriate vesting period.

Table of Contents

From time to time we may repurchase our outstanding shares of Common Stock in the open market or otherwise.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

Contractual Obligations and Commercial Commitments

There have been no material changes to our contractual obligations and commercial commitments as discussed in our Annual Report on Form 10-K for Fiscal 2014.

Critical Accounting Policies and Critical Accounting Estimates

Our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q have been prepared in accordance with generally accepted accounting principles in the United States of America and fairly present our financial position and results of operations. There have been no material changes to our critical accounting policies or critical accounting estimates as discussed in our Annual Report on Form 10-K for Fiscal 2014.

New Accounting Pronouncements

Revenue recognition

In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update (“ASU”) No. 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in ASC 605, Revenue Recognition. This ASU requires revenue recognition to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The new revenue recognition model requires identifying the contract, identifying the performance obligations, determining the transaction price, allocating the transaction price to performance obligations and recognizing the revenue upon satisfaction of performance obligations. This ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments, and assets recognized from costs incurred to obtain or fulfill a contract. This ASU can be applied either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying the update recognized at the date of the initial application along with additional disclosures. This ASU will become effective for us beginning in the first quarter of our fiscal year ending September 30, 2018. We have not selected a method for adoption nor determined the potential effects on our consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market Risk Factors

We have market risk exposure from changes in interest rates, foreign currency exchange rates and commodity prices. We, when appropriate, use derivative financial instruments to mitigate the risk from such exposures.

A discussion of our accounting policies for derivative financial instruments is included in Note 8, Derivative Financial Instruments, to our Condensed Consolidated Financial Statements (Unaudited) included in this Quarterly Report on Form 10-Q.

There have been no material changes to our market risk exposures, including those from interest rates, foreign currency exchange rates and commodity prices, from those discussed in our Annual Report on Form 10-K for Fiscal 2014.

Table of Contents

Sensitivity Analysis

The analysis below is hypothetical and should not be considered a projection of future risks. Earnings projections are before tax.

At December 28, 2014, the potential change in fair value of our outstanding interest rate derivative instruments assuming a 1 percent unfavorable shift in interest rates would be a loss of \$3.1 million. The net impact on reported earnings, after also including the effect of the change on one year's underlying interest rate exposure on our variable rate Term Loan, would be a net loss of \$3.1 million.

At December 28, 2014, the potential change in fair value of outstanding foreign exchange derivative instruments, assuming a 10% unfavorable change in the underlying exchange rates, would be a loss of \$50.5 million. The net impact on reported earnings, after also including the effect of the change on one year's underlying foreign currency-denominated exposures, would be a net gain of \$19.3 million.

At December 28, 2014, the potential change in fair value of outstanding commodity price derivative instruments, assuming a 10% unfavorable change in the underlying commodity prices, would be a loss of \$2.1 million. The net impact on reported earnings, after also including the effect of the reduction in cost of one year's purchases of the related commodities due to the same change in commodity prices, would be a net gain of \$2.0 million.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. Our management, with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) pursuant to Rules 13a-15(b) and 15d-15(b) under the Exchange Act as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of such date, our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable SEC rules and forms, and is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting. There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the period covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls. Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that the Company's disclosure controls and procedures or the Company's internal controls over financial reporting will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Litigation

We are a defendant in various matters of litigation generally arising out of the ordinary course of business.

We do not believe that any matters or proceedings presently pending will have a material adverse effect on our results of operations, financial condition, liquidity or cash flows.

Item 1A. Risk Factors

When considering an investment in the Company, you should carefully consider the risk factors discussed in our Annual Report on Form 10-K filed with the SEC on November 21, 2014 (our "Form 10-K"). Any of these risk factors could materially and adversely affect our or our subsidiaries' business, financial condition and results of operations and these risk factors are not the only risks that we or our subsidiaries may face. Additional risks and uncertainties not presently known to us or our subsidiaries or that are not currently believed to be material also may adversely affect us or our subsidiaries. There have been no material changes in our risk factors from those disclosed in Part I, Item 1A, of our Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the Fiscal 2015 Quarter, we did not sell any equity securities that were not registered under the Securities Act. On August 6, 2013, the Board of Directors approved a \$200 million common stock repurchase program. The authorization is effective for 24 months. The following table reflects all shares repurchased inclusive of the common stock repurchase program discussed above.
