SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2017

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File No.: 0-26823

ALLIANCE RESOURCE PARTNERS, L.P.

(Exact name of registrant as specified in its charter)

Edgar Filing: ALLIANCE RESOURCE PARTNERS LP - Form 10-Q

Delaware 73-1564280
(State or other jurisdiction of (IRS Employer Identification No.)
incorporation or organization)

1717 South Boulder Avenue, Suite 400, Tulsa, Oklahoma 74119

(Address of principal executive offices and zip code)

(918) 295-7600

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. [X] Yes [] No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). [X] Yes [] No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer [X] Accelerated Filer [] Non-Accelerated Filer [] Smaller Reporting Company []
(Do not check if smaller reporting company)
Emerging Growth Company []

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. []

Edgar Filing: ALLIANCE RESOURCE PARTNERS LP - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). ☐ Yes ☒ No

As of November 6, 2017, 130,704,217 common units are outstanding.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1.ORGANIZATION AND PRESENTATION

Significant Relationships Referenced in Notes to Condensed Consolidated Financial Statements

- References to "we," "us," "our" or "ARLP Partnership" mean the business and operations of Alliance Resource Partners, L.P., the parent company, as well as its consolidated subsidiaries.
- References to "ARLP" mean Alliance Resource Partners, L.P., individually as the parent company, and not on a consolidated basis.
- References to "MGP" mean Alliance Resource Management GP, LLC, ARLP's sole general partner and, prior to the Exchange Transaction discussed below, its managing general partner.
- References to "SGP" mean Alliance Resource GP, LLC, ARLP's special general partner prior to the Exchange Transaction discussed below.
- References to "Intermediate Partnership" mean Alliance Resource Operating Partners, L.P., the intermediate partnership of Alliance Resource Partners, L.P.
- References to "Alliance Resource Properties" mean Alliance Resource Properties, LLC, the land-holding company for the mining operations of Alliance Resource Operating Partners, L.P.
- References to "Alliance Coal" mean Alliance Coal, LLC, the holding company for the mining operations of Alliance Resource Operating Partners, L.P., also referred to as our primary operating subsidiary.
- References to "AHGP" mean Alliance Holdings GP, L.P., individually as the parent company, and not on a consolidated basis.
- References to "AGP" mean Alliance GP, LLC, the general partner of Alliance Holdings GP, L.P.

Organization

ARLP is a Delaware limited partnership listed on the NASDAQ Global Select Market under the ticker symbol "ARLP." ARLP was formed in May 1999 to acquire, upon completion of ARLP's initial public offering on August 19, 1999, certain coal production and marketing assets of Alliance Resource Holdings, Inc., a Delaware corporation ("ARH"), consisting of substantially all of ARH's operating subsidiaries, but excluding ARH. ARH is owned by

Joseph W. Craft III, the President and Chief Executive Officer and a Director of MGP, and Kathleen S. Craft. SGP, a Delaware limited liability company, is owned by ARH. SGP owns 20,641,168 common units of AHGP's 59,863,000 outstanding common units, 7,181 common units of ARLP and, prior to the Exchange Transaction discussed below, owned a 0.01% special general partner interest in both ARLP and the Intermediate Partnership.

We are managed by MGP, a Delaware limited liability company and the sole general partner of ARLP. MGP holds a non-economic general partner interest in ARLP, a 1.0001% managing general partner interest in the Intermediate Partnership and a 0.001% managing member interest in Alliance Coal. AHGP is a Delaware limited partnership that was formed to become the owner and controlling member of MGP. AHGP completed its initial public offering on May 15, 2006. AHGP owns directly and indirectly 87,188,338 common units of ARLP's 130,704,217 outstanding common units. AHGP indirectly owns 100% of the members' interest of MGP. ARLP and its consolidated subsidiaries represent virtually all the net assets and operations of AHGP. See discussions below regarding MGP's and AHGP's change of ownership in ARLP effective with the Exchange Transaction on July 28, 2017.

Exchange Transaction

On July 28, 2017, MGP contributed to ARLP all of its incentive distribution rights ("IDRs") and its managing general partner interest in ARLP in exchange for 56,100,000 ARLP common units and a non-economic general partner interest in ARLP. In conjunction with this transaction and on the same economic basis as MGP, SGP also contributed to ARLP its 0.01% general partner interests in both ARLP and the Intermediate Partnership in exchange for 7,181 ARLP common units (collectively the "Exchange Transaction"). In connection with the Exchange Transaction, ARLP amended its partnership agreement to reflect, among other things, cancellation of the IDRs and the economic general partner interest

Table of Contents

in ARLP and issuance of a non-economic general partner interest to MGP. MGP is the sole general partner of ARLP following the Exchange Transaction, and no control, management or governance changes otherwise occurred.

The Exchange Transaction constituted an exchange of equity interests between entities under common control and not a transfer of a business. Therefore, the exchange resulted in a reclassification, as of the date of the Exchange Transaction, of a \$306.7 million deficit capital balance from the General Partners' interest line item to the Limited Partners - Common Unitholders line item in our condensed consolidated balance sheets. The reclassification amounts represented the carrying value of the exchanged interests, which included the SGP's deficit balance associated with its prior special general partner interests in ARLP and the Intermediate Partnership, partially offset, by MGP's capital balance associated with its prior managing general partner interest in ARLP. The SGP deficit balance primarily resulted from contribution and assumption agreements associated with the formation of the ARLP Partnership in 1999.

Simultaneously with the Exchange Transaction discussed above, MGP became a wholly-owned subsidiary of MGP II, LLC ("MGP II") which is owned 100% directly and indirectly by AHGP and was created in connection with the Exchange Transaction. MGP II holds the 56,100,000 ARLP common units discussed above.

Basis of Presentation

The accompanying condensed consolidated financial statements include the accounts and operations of the ARLP Partnership and present the consolidated financial position as of September 30, 2017 and December 31, 2016, the results of operations and comprehensive income for the three and nine months ended September 30, 2017 and 2016, cash flows for the nine months ended September 30, 2017 and 2016, and changes in partners' capital for the nine months ended September 30, 2017 of ARLP, the Intermediate Partnership (a subsidiary of ARLP and a variable interest entity of which ARLP is the primary beneficiary), Alliance Coal (a subsidiary of the Intermediate Partnership and a variable interest entity of which the Intermediate Partnership is the primary beneficiary) and other directly and indirectly wholly- and majority-owned subsidiaries of the Intermediate Partnership and Alliance Coal. The Intermediate Partnership, Alliance Coal and their wholly- and majority-owned subsidiaries represent virtually all the net assets of the ARLP Partnership. MGP's interests in both Alliance Coal and the Intermediate Partnership are reported as part of the general partner interest in the ARLP Partnership. For the periods presented prior to the Exchange Transaction, MGP's managing general partner interest and IDRs in ARLP and the SGP's special general partner interests in ARLP and the Intermediate Partnership are also reported as part of the general partner interest in the ARLP Partnership. All intercompany transactions and accounts have been eliminated. See Note 7 – Variable Interest Entities for more information regarding ARLP's consolidation of the Intermediate Partnership and Alliance Coal. See Note 9 – Net Income of ARLP Per Limited Partner Unit for more information regarding allocations to the limited and general partner interests.

These condensed consolidated financial statements and notes are unaudited. However, in the opinion of management, these financial statements reflect all normal recurring adjustments necessary for a fair presentation of the results for

the periods presented. Results presented for prior periods have been recast to reflect an immaterial reclassification of depreciation, depletion, and amortization capitalized into coal inventory as an adjustment to Depreciation, depletion, and amortization rather than Operating expenses (excluding depreciation, depletion, and amortization). This reclassification did not impact Total operating expenses, Income from operations, Net income, Net income of ARLP or Basic and diluted net income of ARLP per limited partner unit. Results for interim periods are not necessarily indicative of results to be expected for the full year ending December 31, 2017.

These condensed consolidated financial statements and notes are prepared pursuant to the rules and regulations of the Securities and Exchange Commission for interim reporting and do not include all of the information normally included with financial statements prepared in accordance with generally accepted accounting principles ("GAAP") of the United States. These financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2016.

Use of Estimates

The preparation of the ARLP Partnership's condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures in our condensed consolidated financial statements. Actual results could differ from those estimates.

Table of Contents

Investments

Our investments and ownership interests in which we do not have a controlling financial interest are accounted for either under the cost method of accounting if we do not have the ability to exercise significant influence over the entity, or under the equity method of accounting if we have the ability to exercise significant influence over the entity.

Historical cost is used to account for investments accounted for under the cost method and distributions received on those investments are recorded as income unless those distributions are considered a return on investment in which case the historical cost is reduced. Our cost method investment includes Kodiak Gas Services, LLC ("Kodiak"). See Note 8 – Investments for further discussion of this cost method investment.

Investments accounted for under the equity method are initially recorded at cost, and the difference between the basis of our investment and the underlying equity in the net assets of the joint venture at the investment date, if any, is amortized over the lives of the related assets that gave rise to the difference. In the event our ownership entitles us to a disproportionate sharing of income or loss, our equity in income or losses of affiliates is allocated based on the hypothetical liquidation at book value ("HLBV") method of accounting.

Under the HLBV method, equity in income or losses of affiliates is allocated based on the difference between our claim on the net assets of the equity method investee at the end and beginning of the period, with consideration of certain eliminating entries regarding differences of accounting for various related-party transactions, after taking into account contributions and distributions, if any. Our share of the net assets of the equity method investee is calculated as the amount we would receive if the equity method investee were to liquidate all of its assets at net book value and distribute the resulting cash to creditors, other investors and us according to the respective priorities. None of our current equity investments use the HLBV method. Our last use of this method was in 2015 which will be discussed in our upcoming Form 10-K.

Our equity method investments include AllDale Minerals, LP ("AllDale I"), and AllDale Minerals II, LP ("AllDale II") (collectively "AllDale Minerals"), both held by our subsidiary Cavalier Minerals JV, LLC ("Cavalier Minerals"). We also have an equity method investment in AllDale Minerals III, LP ("AllDale III") which is not held through Cavalier Minerals but rather held directly by us. See Note 8 – Investments for further discussion of these equity method investments.

We review our investments and ownership interests accounted for under both the equity method of accounting and the cost method of accounting for impairment whenever events or changes in circumstances indicate a loss in the value of the investment may be other-than-temporary.

2. NEW ACCOUNTING STANDARDS

New Accounting Standards Issued and Adopted

In January 2017, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") 2017-04, Intangibles—Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment ("ASU 2017-04"). The ASU simplifies the subsequent measurement of goodwill by eliminating the need for an entity to determine the implied fair value of goodwill to calculate an impairment charge. Under the new guidance an entity compares the fair value of the reporting unit containing the goodwill to its carrying value and records any excess carrying value as an impairment charge. This new standard is applied prospectively and is effective for annual and interim periods beginning after December 15, 2019; however, early adoption is permitted. We have early adopted this new standard and will apply the guidance to any future goodwill impairment assessments.

In March 2016, the FASB issued ASU 2016-09, Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting ("ASU 2016-09"). ASU 2016-09 simplifies the accounting for several aspects of share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, flexibility in the accounting for forfeitures and classification on the statement of cash flows. ASU 2016-09 was effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods, with early adoption permitted. The adoption of ASU 2016-09 did not have a material impact on our condensed consolidated financial statements.

Table of Contents

In July 2015, the FASB issued ASU 2015-11, Inventory (Topic 330): Simplifying the Measurement of Inventory ("ASU 2015-11"). ASU 2015-11 simplifies the subsequent measurement of inventory. It replaces the current lower of cost or market test with the lower of cost or net realizable value test. Net realizable value is defined as the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. The new standard was applied prospectively and was effective for annual reporting periods beginning after December 15, 2016 and interim periods within those annual periods, with early adoption permitted. The adoption of ASU 2015-11 did not have a material impact on our condensed consolidated financial statements.

New Accounting Standards Issued and Not Yet Adopted

In March 2017, the FASB issued ASU 2017-07, Compensation—Retirement Benefits (Topic 715) ("ASU 2017-07"). ASU 2017-07 requires that an employer disaggregate the service cost component from the other components of net benefit cost. It also provides explicit guidance on how to present the service cost component and the other components of net benefit cost in the income statement and allows only the service cost component of net benefit cost to be eligible for capitalization. The new guidance will be applied retroactively to all periods presented. ASU 2017-07 is effective for annual periods beginning after December 15, 2017, including interim periods within those annual periods. We do not anticipate ASU 2017-07 will have a material impact on our consolidated financial statements.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments ("ASU 2016-13"). ASU 2016-13 changes the impairment model for most financial assets and certain other instruments to require the use of a new forward-looking "expected loss" model that generally will result in earlier recognition of allowances for losses. The new standard will require disclosure of significantly more information related to these items. ASU 2016-13 is effective for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years, with early adoption permitted for the fiscal year beginning after December 15, 2018, including interim periods. We are currently evaluating the effect of adopting ASU 2016-13, but do not anticipate it will have a material impact on our consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842) ("ASU 2016-02"). ASU 2016-02 increases transparency and comparability among organizations by requiring lessees to record right-to-use assets and corresponding lease liabilities on the balance sheet and disclosing key information about lease arrangements. The new guidance will classify leases as either finance or operating (similar to current standard's "capital" or "operating" classification), with classification affecting the pattern of income recognition in the statement of income. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years, with early adoption permitted. We have developed an assessment team and are currently evaluating the effect of adopting ASU 2016-02.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers ("ASU 2014-09"). ASU 2014-09 is a new revenue recognition standard that provides a five-step analysis of transactions to determine when and how revenue is recognized. The core principle of the new standard is as follows:

An entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

ASU 2014-09 was originally effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. In August 2015, the FASB issued ASU 2015-14, Revenue from Contracts with Customers: Deferral of the Effective Date ("ASU 2015-14"), which deferred the effective date by one year while providing the option to early adopt the standard on the original effective date.

We developed an assessment team to determine the effect of adopting ASU 2014-09. As part of our assessment process, we applied the five-step analysis outlined in the new standard to certain contracts representative of the majority of our coal sales contracts and determined that our pattern of recognition appears consistent between both the new and existing standards. We also reviewed the expanded disclosure requirements under the new standard and determined the additional information to be disclosed. In addition, we reviewed our business processes, systems and internal controls over financial reporting to support the new recognition and disclosure requirements under the new standard. Based on the results of our assessment team, we have started our implementation of the new standard. We continue to report our implementation progress for the new standard to our management and audit committee of our general partner.

Table of Contents

We continue to monitor closely, (a) activities of the FASB and various non-authoritative groups with respect to implementation issues that may impact our determinations, (b) existing contracts for consistency with current implementation determinations derived from our assessment process and (c) our revenue recognition policy, where applicable, for required modifications.

We do not expect that the adoption of the new standard will have a material impact on our financial statements, but will require expanded disclosures including presenting, by type and by segment, revenues for all periods presented and expected revenues by year for performance obligations that are unsatisfied or partially unsatisfied as of the date of presentation. The new standard allows for two methods of adoption: a full retrospective adoption method and a modified retrospective method. We have elected to use the modified retrospective method of adoption, which allows a cumulative effect adjustment to equity as of the date of adoption. As we do not anticipate a change in the recognition pattern of our revenues, we do not expect to have a cumulative effect adjustment when we adopt the new standard.

3.CONTINGENCIES

Various lawsuits, claims and regulatory proceedings incidental to our business are pending against the ARLP Partnership. We record accruals for potential losses related to these matters when, in management's opinion, such losses are probable and reasonably estimable. Based on known facts and circumstances, we believe the ultimate outcome of these outstanding lawsuits, claims and regulatory proceedings will not have a material adverse effect on our financial condition, results of operations or liquidity. However, if the results of these matters were different from management's current opinion and in amounts greater than our accruals, then they could have a material adverse effect.

4.INVENTORIES

Inventories consist of the following:

September 30, December 31,
2017 2016
(in thousands)

Coal	\$ 51,657	\$ 29,242
Supplies (net of reserve for obsolescence of \$5,015 and \$4,940, respectively)	36,010	31,809
Total inventories, net	\$ 87,667	\$ 61,051

5. FAIR VALUE MEASUREMENTS

The following table summarizes our fair value measurements within the hierarchy:

	September 30, 2017			December 31, 2016		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
	(in thousands)					
Measured on a recurring basis:						
Contingent consideration	\$ —	\$ —	\$ 9,700	\$ —	\$ —	\$ 9,700
Additional disclosures:						
Long-term debt	—	536,296	—	—	559,509	—
Total	\$ —	\$ 536,296	\$ 9,700	\$ —	\$ 559,509	\$ 9,700

The carrying amounts for cash equivalents, accounts receivable, accounts payable, accrued and other liabilities, due from affiliates and due to affiliates approximate fair value due to the short maturity of those instruments.

The estimated fair value of our long-term debt, including current maturities, is based on interest rates that we believe are currently available to us in active markets for issuance of debt with similar terms and remaining maturities

Table of Contents

(See Note 6 – Long-Term Debt). The fair value of debt, which is based upon these interest rates, is classified as a Level 2 measurement under the fair value hierarchy.

The estimated fair value of our contingent consideration arrangement is based on a probability-weighted discounted cash flow model. The assumptions in the model include a risk-adjusted discount rate, forward coal sales price curves, cost of debt and probabilities of meeting certain contractual threshold coal sales prices. The fair value measurement is based on significant inputs not observable in active markets and thus represents a Level 3 fair value measurement under the fair value hierarchy.

6.LONG-TERM DEBT

Long-term debt consists of the following:

	Principal September 30, 2017 (in thousands)	December 31, 2016	Unamortized Discount and Debt Issuance Costs September 30, 2017	December 31, 2016
Revolving Credit facility	\$ —	\$ 255,000	\$ (7,615)	\$ (453)
Senior notes	400,000	—	(6,936)	—
Series B senior notes	—	145,000	—	(101)
Term loan	—	50,000	—	(126)
Securitization facility	100,000	100,000	—	—
	500,000	550,000	(14,551)	(680)
Less current maturities	(100,000)	(150,000)	—	126
Total long-term debt	\$ 400,000	\$ 400,000	\$ (14,551)	\$ (554)

On January 27, 2017, our Intermediate Partnership entered into a Fourth Amended and Restated Credit Agreement (the "Credit Agreement") with various financial institutions for a revolving credit facility and term loan (the "Credit Facility"). The Credit Facility replaced the \$250 million term loan ("Replaced Term Loan") and \$700 million revolving credit facility ("Replaced Revolving Credit Facility") extended to the Intermediate Partnership on May 23, 2012 (the "Replaced Credit Agreement") by various banks and other lenders that would have expired on May 23, 2017.

The Credit Agreement provided for a \$776.5 million revolving credit facility, reducing to \$494.75 million on May 23, 2017, including a sublimit of \$125 million for the issuance of letters of credit and a sublimit of \$15.0 million for swingline borrowings (the "Revolving Credit Facility"), and for a term loan with a remaining principal balance of

\$50.0 million (the "Term Loan"). The outstanding revolver balance and term loan balance under the Replaced Credit Agreement were considered advanced under the Credit Facility on January 27, 2017. On April 3, 2017, we entered into an amendment to the Credit Agreement (the "Amendment") to (a) extend the termination date of the Revolving Credit Facility as to \$461.25 million of commitments to May 23, 2021, (b) eliminate the Cavalier Condition and the Senior Notes Condition (both as defined in the Credit Agreement) and (c) effectuate certain other changes. In connection with the Amendment, we increased the commitments under the Revolving Credit Facility from \$479.75 million to \$494.75 million, effective May 23, 2017 (of which \$33.5 million expire on May 23, 2019). We incurred debt issuance costs in 2017 of \$8.9 million in connection with the Credit Agreement. These debt issuance costs are deferred and are being amortized as a component of interest expense over the term of the Credit Facility.

The Credit Agreement is guaranteed by all of the material direct and indirect subsidiaries of our Intermediate Partnership, and is secured by substantially all of the Intermediate Partnership's assets. The Term Loan principal balance of \$50.0 million was paid in full in May 2017.

Borrowings under the Credit Facility bear interest, at the option of the Intermediate Partnership, at either (i) the Base Rate at the greater of three benchmarks or (ii) a Eurodollar Rate, plus margins for (i) or (ii), as applicable, that fluctuate depending upon the ratio of Consolidated Debt to Consolidated Cash Flow (each as defined in the Credit Agreement). We elected a Eurodollar Rate, which, with applicable margin, was 3.59% as of September 30, 2017. At September 30, 2017, we had \$8.1 million of letters of credit outstanding with \$486.7 million available for borrowing under the Revolving Credit Facility. We currently incur an annual commitment fee of 0.35% on the undrawn portion of the

Table of Contents

Revolving Credit Facility. We utilize the Revolving Credit Facility, as appropriate, for working capital requirements, capital expenditures and investments in affiliates, scheduled debt payments and distribution payments.

The Credit Agreement contains various restrictions affecting our Intermediate Partnership and its subsidiaries including, among other things, incurrence of additional indebtedness and liens, sale of assets, investments, mergers and consolidations and transactions with affiliates, in each case subject to various exceptions, and the payment of cash distributions by our Intermediate Partnership if such payment would result in a certain fixed charge coverage ratio (as defined in the Credit Agreement). The Amendment lowered this fixed charge ratio from less than 1.25 to 1.0 to 1.15 to 1.0 for each rolling four-quarter period and further limited the Intermediate Partnership's ability to incur certain unsecured debt. See Note 7 – Variable Interest Entities for further discussion of restrictions on the cash available for distribution. The Amendment raised the debt to cash flow ratio from 2.25 to 1.0 to 2.50 to 1.0 and also removed the requirement for the Intermediate Partnership to remain in control of a certain amount of mineable coal reserves relative to its annual production. The Credit Agreement requires the Intermediate Partnership maintain (a) a debt to cash flow ratio of not more than 2.5 to 1.0 and (b) a cash flow to interest expense ratio of not less than 3.0 to 1.0, in each case, during the four most recently ended fiscal quarters. The debt to cash flow ratio and cash flow to interest expense ratio were 0.84 to 1.0 and 19.2 to 1.0, respectively, for the trailing twelve months ended September 30, 2017. We were compliant with the covenants of the Credit Agreement as of September 30, 2017.

On January 27, 2017, the Intermediate Partnership also amended the 2008 Note Purchase Agreement dated June 26, 2008, for \$145.0 million of Series B Senior Notes which bore interest at 6.72% and were due to mature on June 26, 2018 with interest payable semi-annually (the "Series B Senior Notes"). The amendment provided for certain modifications to the terms and provisions of the Note Purchase Agreement, including granting liens on substantially all of the Intermediate Partnership's assets to secure its obligations under the Note Purchase Agreement on an equal basis with the obligations under the Credit Agreement. The amendment also modified certain covenants to align them with the applicable covenants in the Credit Agreement. As discussed below, we repaid the Series B Senior Notes in May 2017.

On April 24, 2017, the Intermediate Partnership and Alliance Resource Finance Corporation (as co-issuer), a wholly owned subsidiary of the Intermediate Partnership ("Alliance Finance"), issued an aggregate principal amount of \$400.0 million of senior unsecured notes due 2025 ("Senior Notes") in a private placement to qualified institutional buyers. The Senior Notes have a term of eight years, maturing on May 1, 2025 (the "Term") and accrue interest at an annual rate of 7.5%. Interest is payable semi-annually in arrears on each May 1 and November 1, commencing on November 1, 2017. The indenture governing the Senior Notes contains customary terms, events of default and covenants relating to, among other things, the incurrence of debt, the payment of distributions or similar restricted payments, undertaking transactions with affiliates and limitations on asset sales. At any time prior to May 1, 2020, the issuers of the Senior Notes may redeem up to 35% of the aggregate principal amount of the Senior Notes with the net cash proceeds of one or more equity offerings at a redemption price equal to 107.5% of the principal amount redeemed, plus accrued and unpaid interest, if any, to the redemption date. The issuers of the Senior Notes may also redeem all or a part of the notes at any time on or after May 1, 2020, at redemption prices set forth in the indenture governing the Senior Notes. At any time prior to May 1, 2020, the issuers of the Senior Notes may redeem the Senior Notes at a redemption price equal to the principal amount of the Senior Notes plus a "make-whole" premium, plus accrued and unpaid interest, if any, to the redemption date. The net proceeds from issuance of the Senior Notes and cash on hand were used to repay the Revolving Credit Facility, Term Loan and Series B Senior Notes (including a

make-whole payment of \$8.1 million). We incurred discount and debt issuance costs of \$7.3 million in connection with issuance of the Senior Notes. These costs are deferred and are currently being amortized as a component of interest expense over the Term.

On December 5, 2014, certain direct and indirect wholly-owned subsidiaries of our Intermediate Partnership entered into a \$100.0 million accounts receivable securitization facility ("Securitization Facility"). Under the Securitization Facility, certain subsidiaries sell trade receivables on an ongoing basis to our Intermediate Partnership, which then sells the trade receivables to AROP Funding, LLC ("AROP Funding"), a wholly-owned bankruptcy-remote special purpose subsidiary of our Intermediate Partnership, which in turn borrows on a revolving basis up to \$100.0 million secured by the trade receivables. After the sale, Alliance Coal, as servicer of the assets, collects the receivables on behalf of AROP Funding. The Securitization Facility bears interest based on a Eurodollar Rate. It was renewed in December 2016 and matures in December 2017. At September 30, 2017, we had \$100.0 million outstanding under the Securitization Facility.

On October 6, 2015, Cavalier Minerals (see Note 7 – Variable Interest Entities) entered into a credit agreement (the "Cavalier Credit Agreement") with Mineral Lending, LLC ("Mineral Lending") for a \$100.0 million line of credit (the

Table of Contents

"Cavalier Credit Facility"). Mineral Lending is an entity owned by (a) Alliance Resource Holdings II, Inc. ("ARH II," the parent of ARH), (b) an entity owned by an officer of ARH who is also a director of ARH II ("ARH Officer") and (c) foundations established by the President and Chief Executive Officer of MGP and Kathleen S. Craft. There is no commitment fee under the facility. Borrowings under the Cavalier Credit Facility bear interest at a one month LIBOR rate plus 6% with interest payable quarterly. Repayment of the principal balance will begin following the first fiscal quarter after the earlier of the date on which the aggregate amount borrowed exceeds \$90.0 million or December 31, 2017, in quarterly payments of an amount equal to the greater of \$1.3 million initially, escalated to \$2.5 million after two years, or fifty percent of Cavalier Minerals' excess cash flow. The Cavalier Credit Facility matures September 30, 2024, at which time all amounts then outstanding are required to be repaid. To secure payment of the facility, Cavalier Minerals pledged all of its partnership interests, owned or later acquired, in AllDale Minerals. Cavalier Minerals may prepay the Cavalier Credit Facility at any time in whole or in part subject to terms and conditions described in the Cavalier Credit Agreement. As of September 30, 2017, Cavalier Minerals had not drawn on the Cavalier Credit Facility. Alliance Minerals, LLC ("Alliance Minerals") has the right to require Cavalier Minerals to draw the full amount available under the Cavalier Credit Facility and distribute the proceeds to the members of Cavalier Minerals, including Alliance Minerals.

7.VARIABLE INTEREST ENTITIES

Cavalier Minerals

On November 10, 2014, our subsidiary, Alliance Minerals, and Bluegrass Minerals Management, LLC ("Bluegrass Minerals") entered into a limited liability company agreement (the "Cavalier Agreement") to create Cavalier Minerals, which was formed to indirectly acquire oil and gas mineral interests, initially through its 71.7% noncontrolling ownership interest in AllDale I and subsequently through its 72.8% noncontrolling ownership interest in AllDale II. Bluegrass Minerals is owned and controlled by the ARH Officer discussed in Note 6 – Long-Term Debt and is Cavalier Minerals' managing member. Alliance Minerals and Bluegrass Minerals initially committed funding of \$48.0 million and \$2.0 million, respectively, to Cavalier Minerals, and Cavalier Minerals committed funding of \$49.0 million to AllDale I. On October 6, 2015, Alliance Minerals and Bluegrass Minerals committed to fund an additional \$96.0 million and \$4.0 million, respectively, to Cavalier Minerals, and Cavalier Minerals committed to fund \$100.0 million to AllDale II. Contributions in 2017 sufficiently completed funding to Cavalier Minerals for these commitments. Cavalier Minerals is not expected to call on further funding of these commitments from Alliance Minerals and Bluegrass Minerals.

Table of Contents

Contributions made from Alliance Minerals and Bluegrass Minerals to Cavalier Minerals for each period presented are as follows:

	Three Months Ended September 30, 20172016 (in thousands)		Nine Months Ended September 30, 20172016	
Alliance Minerals				
Beginning cumulative commitment fulfilled	\$ 143,112	\$ 95,597	\$ 137,077	\$ 63,498
Capital contributions - Cash	—	30,184	6,035	61,360
Capital contributions - Net AllDale Minerals' distributions received by Cavalier Minerals (1)	—	385	—	1,308
Ending cumulative commitment fulfilled	143,112	126,166	143,112	126,166
Remaining commitment	888	17,834	888	17,834
Total committed	\$ 144,000	\$ 144,000	\$ 144,000	\$ 144,000
Bluegrass Minerals				
Beginning cumulative commitment fulfilled	\$ 5,963	\$ 3,983	\$ 5,712	\$ 2,646
Capital contributions - Cash	—	1,258	251	2,557
Capital contributions - Net AllDale Minerals' distributions received by Cavalier Minerals (1)	—	16	—	54
Ending cumulative commitment fulfilled	5,963	5,257	5,963	5,257
Remaining commitment	37	743	37	743
Total committed	\$ 6,000	\$ 6,000	\$ 6,000	\$ 6,000

(1) Represents distributions received from AllDale Minerals net of distributions reinvested and payments to Bluegrass Minerals for administration expense.

In accordance with the Cavalier Agreement, Bluegrass Minerals is entitled to receive an incentive distribution from Cavalier Minerals equal to 25% of all distributions (including in liquidation) after all members have recovered their investment. The incentive distributions are reduced by certain distributions received by Bluegrass Minerals or its owner from AllDale Minerals Management, LLC ("AllDale Minerals Management"), the managing member of AllDale Minerals. Distributions paid to Alliance Minerals and Bluegrass Minerals from Cavalier Minerals for each period presented are as follows:

	Three Months Ended September 30, 2017 2016 (in thousands)		Nine Months Ended September 30, 2017 2016	
Alliance Minerals	\$ 12,430	\$ 1,444	\$ 20,514	\$ 1,444
Bluegrass Minerals	518	60	855	60

Alliance Minerals' ownership interest in Cavalier Minerals at September 30, 2017 was 96%. The remainder of the equity ownership is held by Bluegrass Minerals. We have consolidated Cavalier Minerals' financial results as we concluded that Cavalier Minerals is a variable interest entity ("VIE") and we are the primary beneficiary because neither Bluegrass Minerals nor Alliance Minerals individually has both the power and the benefits related to Cavalier Minerals and we are most closely aligned with Cavalier Minerals through our substantial equity ownership. Bluegrass Minerals' equity ownership of Cavalier Minerals is accounted for as noncontrolling ownership interest in our condensed consolidated balance sheets. In addition, earnings attributable to Bluegrass Minerals are recognized as noncontrolling interest in our condensed consolidated statements of income.

WKY CoalPlay

On November 17, 2014, SGP Land, LLC ("SGP Land"), a wholly-owned subsidiary of SGP, and two limited liability companies ("Craft Companies") owned by irrevocable trusts established by the President and Chief Executive Officer of MGP entered into a limited liability company agreement to form WKY CoalPlay, LLC ("WKY CoalPlay"). WKY CoalPlay was formed, in part, to purchase and lease coal reserves. WKY CoalPlay is managed by the ARH Officer

Table of Contents

discussed in Note 6 – Long-Term Debt, who is also an employee of SGP Land and trustee of the irrevocable trusts owning the Craft Companies. In December 2014 and February 2015, we entered into various coal reserve leases with WKY CoalPlay. During the nine months ended September 30, 2017, we paid \$10.8 million of advanced royalties to WKY CoalPlay. As of September 30, 2017, we had \$30.0 million of advanced royalties outstanding under the leases, which is reflected in the Advance royalties, net line items in our condensed consolidated balance sheets.

We have concluded that WKY CoalPlay is a VIE because of our ability to exercise options to acquire reserves under lease with WKY CoalPlay, which is not within the control of the equity holders and, if it occurs, could potentially limit the expected residual return to the owners of WKY CoalPlay. We do not have any economic or governance rights related to WKY CoalPlay and our options that provide us with a variable interest in WKY CoalPlay's reserve assets do not give us any rights that constitute power to direct the primary activities that most significantly impact WKY CoalPlay's economic performance. SGP Land has the sole ability to replace the manager of WKY CoalPlay at its discretion and therefore has power to direct the activities of WKY CoalPlay. Consequently, we concluded that SGP Land is the primary beneficiary of WKY CoalPlay.

Alliance Coal and the Intermediate Partnership

Alliance Coal is a limited liability company designed to operate as the operating subsidiary of the Intermediate Partnership and holds the interests in the mining operations and Alliance Service, Inc. ("ASI"). The Intermediate Partnership is a limited partnership that holds the non-managing member interest in Alliance Coal and the sole member interests in Alliance Resource Properties, Alliance Minerals and other entities. Together Alliance Coal and the Intermediate Partnership and their subsidiaries represent virtually all the net assets of ARLP. Both the Intermediate Partnership and Alliance Coal were designed to operate as the operating subsidiaries of ARLP and to distribute available cash to ARLP so that ARLP can distribute available cash to its partners. We considered MGP's and ARLP's ownership in the Intermediate Partnership and MGP's and the Intermediate Partnership's ownership in Alliance Coal separately for the purposes of determining whether the Intermediate Partnership and Alliance Coal are VIEs.

The Intermediate Partnership holds a 99.999% non-managing interest and MGP holds the 0.001% managing member interest in Alliance Coal. To determine whether Alliance Coal is a VIE, we considered that since Alliance Coal is structured as the equivalent of a limited partnership with the non-managing member 1) not having the ability to remove its managing member and 2) not participating significantly in the operational decisions, Alliance Coal represents a VIE.

We determined that neither the MGP nor the Intermediate Partnership have both the power and the benefits related to Alliance Coal. We then considered which of the two was most closely aligned with Alliance Coal and thus would be designated the primary beneficiary of Alliance Coal for consolidation purposes. We determined that the Intermediate Partnership was most closely aligned with Alliance Coal and is the primary beneficiary. We based our determination of alignment on 1) the purpose and design of Alliance Coal which is to (a) be the operating subsidiary of the

Intermediate Partnership and (b) distribute all of its available cash to the Intermediate Partnership such that the Intermediate Partnership can pay its partners and debt obligations, 2) AHGP's common control over both the Intermediate Partnership and MGP, as discussed in Note 1 – Organization and Presentation, to achieve the aforementioned purpose and design and 3) the Intermediate Partnership's debt funding for Alliance Coal for capital expenditures, operations and other purposes as needed and related risks and collateral requirements in the debt arrangements.

ARLP holds a 98.9899% limited partnership interest and a 0.01% general partner interest in the Intermediate Partnership and MGP holds the 1.0001% managing general partner interest in the Intermediate Partnership. To determine whether the Intermediate Partnership is a VIE, we considered that since the Intermediate Partnership is structured as a limited partnership with the limited partner 1) not having the ability to remove its managing general partner and 2) not participating significantly in the operational decisions, the Intermediate Partnership represents a VIE.

We determined that neither the MGP nor ARLP have both the power and the benefits related to Intermediate Partnership. We then considered which of the two was most closely aligned with the Intermediate Partnership and thus would be designated the primary beneficiary of the Intermediate Partnership for consolidation purposes. We determined that ARLP was most closely aligned with the Intermediate Partnership and is the primary beneficiary. We based our determination of alignment on 1) the purpose and design of the Intermediate Partnership which is to (a) be the operating subsidiary to ARLP and (b) distribute all of its available cash to ARLP to pay its partners and 2) AHGP's common control over ARLP, MGP and the Intermediate Partnership, as discussed in Note 1 – Organization and Presentation, to achieve the aforementioned purpose and design.

Table of Contents

The effect of the partnership agreements of ARLP and the Intermediate Partnership and the operating agreement of Alliance Coal (collectively the "Agreements") is that on a quarterly basis 100% of available cash from our operations must be distributed by ARLP to its partners (apart from certain nominal distributions from the Intermediate Partnership and Alliance Coal). Available cash is determined as defined in the Agreements and represents all cash with the exception of cash reserves (i) for the proper conduct of the business including reserves for future capital expenditures and for anticipated credit needs of the Partnership Group, (ii) to comply with debt obligations or (iii) to provide funds for certain subsequent distributions. Cash reserves may not be established for the purpose of funding subsequent distributions if the effect would be to prevent ARLP from making the minimum quarterly distributions plus any cumulative distribution arrearage. MGP, as the managing member of Alliance Coal and the managing general partner of the Intermediate Partnership, is responsible for distributing this cash to ARLP so it can meet its distribution requirements. As discussed in Note 6 – Long-Term Debt, the Intermediate Partnership's debt covenants place additional restrictions on distributions to ARLP by limiting cash available for distribution from the Intermediate Partnership based on various debt covenants pertaining to the most recent preceding quarter. MGP does not have the ability, without the consent of the limited partners, to amend the Agreements.

8.INVESTMENTS

AllDale Minerals

In November 2014, Cavalier Minerals (see Note 7 – Variable Interest Entities) was created to indirectly purchase, through its equity investments in AllDale Minerals, oil and gas mineral interests in various geographic locations within producing basins in the continental U.S. In February 2017, Alliance Minerals, which is included in our Other and Corporate category (see Note 13 – Segment Information), committed to directly (rather than through Cavalier Minerals) invest \$30.0 million in AllDale III which was created for similar investment purposes. We account for our ownership interest in the income or loss of AllDale Minerals and AllDale III (collectively, the "AllDale Partnerships") as equity method investments. We record equity income or loss based on the AllDale Partnerships' individual distribution structures. The changes in our aggregate equity method investment in the AllDale Partnerships for each of the periods presented were as follows:

	Three Months Ended September 30, 2017		Nine Months Ended September 30, 2017	
	2016		2016	
	(in thousands)			
Beginning balance	\$ 149,592	\$ 96,670	\$ 138,817	\$ 64,509
Contributions	3,900	32,181	16,487	65,367
Equity in income of affiliates	3,798	1,105	10,414	1,041
Distributions received	(12,941)	(1,905)	(21,369)	(2,866)
Ending balance	\$ 144,349	\$ 128,051	\$ 144,349	\$ 128,051

Table of Contents

Kodiak

On July 19, 2017, Alliance Minerals purchased \$100 million of Series A-1 Preferred Interests from Kodiak, a privately-held gas compression company providing large-scale, high-utilization compression assets to customers operating primarily in the Permian Basin. This structured investment provides us with a quarterly cash or payment-in-kind return. Our ownership interests in Kodiak are senior to all other Kodiak equity interests and subordinate only to Kodiak's senior secured debt facility. We account for our ownership interests in Kodiak as a cost method investment. It is not practicable to estimate the fair value of our investment in Kodiak because of the lack of a quoted market price for our ownership interests. The changes in our investment in Kodiak for the three months ended September 30, 2017 were as follows:

	Three Months Ended September 30, 2017 (in thousands)
Beginning balance	\$ —
Contributions	100,000
Payment in kind distributions received	2,800
Ending balance	\$ 102,800

9.NET INCOME OF ARLP PER LIMITED PARTNER UNIT

We utilize the two-class method in calculating basic and diluted earnings per unit ("EPU"). Net income of ARLP is allocated to the general partners and limited partners in accordance with their respective partnership percentages, after giving effect to any special income or expense allocations, including incentive distributions to our general partner, MGP. On July 28, 2017, MGP contributed to ARLP all of its IDRs and its general partner interest in ARLP in exchange for 56,100,000 ARLP common units and a non-economic general partner interest in ARLP. In conjunction with this transaction and on the same economic basis as MGP, SGP also contributed to ARLP its 0.01% general partner interests in both ARLP and the Intermediate Partnership in exchange for 7,181 ARLP common units. In connection with the Exchange Transaction, ARLP amended its partnership agreement to reflect, among other things, cancellation of the IDRs and the economic general partner interest in ARLP and issuance of a non-economic general partner interest to MGP. Following the transactions, ARLP has 130,704,217 common units outstanding. Under the IDR provisions of our partnership agreement prior to the Exchange Transaction, MGP was entitled to receive 15% of the amount we distributed in excess of \$0.1375 per unit, 25% of the amount we distributed in excess of \$0.15625 per unit, and 50% of the amount we distributed in excess of \$0.1875 per unit. Beginning with distributions declared for the three months ended June 30, 2017, we no longer make distributions with respect to the IDRs.

Outstanding awards under our Long-Term Incentive Plan ("LTIP") and phantom units in notional accounts under our Supplemental Executive Retirement Plan ("SERP") and the MGP Amended and Restated Deferred Compensation Plan for Directors ("Deferred Compensation Plan") include rights to nonforfeitable distributions or distribution equivalents and are therefore considered participating securities. As such, we allocate undistributed and distributed earnings to these outstanding awards in our calculation of EPU. The following is a reconciliation of net income of ARLP used for

Table of Contents

calculating basic and diluted earnings per unit and the weighted-average units used in computing EPU for the three and nine months ended September 30, 2017 and 2016:

	Three Months Ended September 30, 2017		Nine Months Ended September 30, 2017	
	2016		2016	
	(in thousands, except per unit data)			
Net income of ARLP	\$ 61,271	\$ 89,780	\$ 229,403	\$ 219,803
Adjustments:				
MGP's priority distributions (1)	—	(19,159)	(19,216)	(57,477)
General partners' equity ownership (1)	(612)	(1,412)	(2,946)	(3,246)
General partners' special allocation of certain general and administrative expenses (2)	—	—	800	—
Limited partners' interest in net income of ARLP	60,659	69,209	208,041	159,080
Less:				
Distributions to participating securities	(1,125)	(887)	(3,194)	(2,640)
Undistributed earnings attributable to participating securities	—	(974)	(1,001)	(1,524)
Net income of ARLP available to limited partners	\$ 59,534	\$ 67,348	\$ 203,846	\$ 154,916
Weighted-average limited partner units outstanding – basic and diluted	114,238	74,375	87,925	74,347
Basic and diluted net income of ARLP per limited partner unit (3)	\$ 0.52	\$ 0.91	\$ 2.32	\$ 2.08

-
- (1) Amounts for the three and nine months ended September 30, 2017 reflect the impact of the Exchange Transaction eliminating second and third quarter distributions that would have been paid for the IDRs and the 0.99% general partner interest in ARLP, both of which were held by MGP prior to the Exchange Transaction. MGP maintained its 1.0001% general partner interest in the Intermediate Partnership and thus continues to receive the Intermediate Partnership quarterly distribution notwithstanding the Exchange Transaction. Because the Exchange Transaction occurred prior to the record date for ARLP's second and third quarter distributions, all of the second and third quarter earnings less the Intermediate Partnership's general partner interest were allocated to ARLP's limited partners. The Exchange Transaction also shifted SGP's nominal general partnership interest for its second and third quarter earnings and subsequent distributions to the limited partner interest.
- (2) During the nine months ended September 30, 2017, an affiliated entity controlled by Mr. Craft made a capital contribution of \$0.8 million to AHGP for the purpose of funding certain general and administrative expenses. Upon AHGP's receipt of the contribution, it contributed the same to its subsidiary MGP, our general partner, which in turn contributed the same amount to our subsidiary, Alliance Coal. As provided under our partnership agreement, we made a special allocation to MGP of certain general and administrative expenses equal to its contribution. Net income of ARLP allocated to the limited partners was not burdened by this expense.
- (3) Diluted EPU gives effect to all potentially dilutive common units outstanding during the period using the treasury stock method. Diluted EPU excludes all potentially dilutive units calculated under the treasury stock method if

their effect is anti-dilutive. The combined total of LTIP, SERP and Deferred Compensation Plan units of 1,401 and 1,417 for the three and nine months ended September 30, 2017, respectively, and 1,227 and 735 for the three and nine months ended September 30, 2016, respectively, were considered anti-dilutive under the treasury stock method.

Table of Contents

On a pro forma basis, as if the Exchange Transaction had taken place on January 1, 2016, the reconciliation of net income of ARLP to basic and diluted earnings per unit and the weighted-average units used in computing EPU for the three and nine months ended September 30, 2017 and 2016 are as follows:

	Three Months Ended September 30, 2017		Nine Months Ended September 30, 2017	
	2016		2016	
	(in thousands, except per unit data)			
Net income of ARLP	\$ 61,271	\$ 89,780	\$ 229,403	\$ 219,803
Adjustments:				
General partners' equity ownership	(612)	(899)	(2,294)	(2,200)
General partners' special allocation of certain general and administrative expenses (1)	—	—	800	—
Limited partners' interest in net income of ARLP	60,659	88,881	227,909	217,603
Less:				
Distributions to participating securities	(1,125)	(887)	(3,194)	(2,640)
Undistributed earnings attributable to participating securities	—	(485)	(601)	(653)
Net income of ARLP available to limited partners (2)	\$ 59,534	\$ 87,509	\$ 224,114	\$ 214,310
Weighted-average limited partner units outstanding – basic and diluted (2)	130,704	130,482	130,673	130,454
Pro forma basic and diluted net income of ARLP per limited partner unit (3)	\$ 0.46	\$ 0.67	\$ 1.72	\$ 1.64

- (1) During the nine months ended September 30, 2017, an affiliated entity controlled by Mr. Craft made a capital contribution of \$0.8 million to AHGP for the purpose of funding certain general and administrative expenses. Upon AHGP's receipt of the contribution, it contributed the same to its subsidiary MGP, our general partner, which in turn contributed the same amount to our subsidiary, Alliance Coal. As provided under our partnership agreement, we made a special allocation to MGP of certain general and administrative expenses equal to its contribution. Net income of ARLP allocated to the limited partners was not burdened by this expense.
- (2) The pro forma amounts presented above reflect net income allocations as if distributions had been made for all periods presented based on the limited and general partner interests outstanding as a result of the Exchange Transaction. Accordingly, the Adjustment - General partners' equity ownership line item above no longer includes the (a) IDR distributions to MGP, (b) general partner interest distributions from ARLP to MGP and SGP and (c) general partner distributions from the Intermediate Partnership to SGP. Pro forma amounts above also reflect weighted average units outstanding as if the issuance of 56,107,181 ARLP common units in the Exchange Transaction applied to all periods presented.
- (3) Diluted EPU gives effect to all potentially dilutive common units outstanding during the period using the treasury stock method. Diluted EPU excludes all potentially dilutive units calculated under the treasury stock method if their effect is anti-dilutive. The combined total of LTIP, SERP and Deferred Compensation Plan units of 1,401 and 1,417 for the three and nine months ended September 30, 2017, respectively, and 1,227 and 735 for the three

and nine months ended September 30, 2016, respectively, were considered anti-dilutive under the treasury stock method.

Table of Contents

10. WORKERS' COMPENSATION AND PNEUMOCONIOSIS

The changes in the workers' compensation liability, including current and long-term liability balances, for each of the periods presented were as follows:

	Three Months Ended September 30, 2017		Nine Months Ended September 30, 2017	
	2016		2016	
	(in thousands)			
Beginning balance	\$ 59,981	\$ 56,403	\$ 48,131	\$ 54,558
Accruals increase	1,999	2,480	16,673	7,904
Payments	(2,357)	(2,238)	(7,799)	(8,226)
Interest accretion	421	492	1,261	1,476
Valuation loss (1)	—	—	1,778	1,425
Ending balance	\$ 60,044	\$ 57,137	\$ 60,044	\$ 57,137

- (1) Our liability for the estimated present value of current workers' compensation benefits is based on our actuarial estimates. Our actuarial calculations are based on a blend of actuarial projection methods and numerous assumptions including claim development patterns, mortality, medical costs and interest rates. We conducted a mid-year review of our actuarial assumptions which resulted in a valuation loss in 2017 primarily attributable to a decrease in the discount rate used to calculate the estimated present value of future obligations from 3.52% at December 31, 2016 to 3.38% at June 30, 2017 and unfavorable changes in claims development. Our mid-year 2016 actuarial review resulted in a valuation loss primarily attributable to a decrease in the discount rate used to calculate the estimated present value of future obligations from 3.63% at December 31, 2015 to 2.89% at June 30, 2016, partially offset by favorable changes in claims development.

Certain of our mine operating entities are liable under state statutes and the Federal Coal Mine Health and Safety Act of 1969, as amended, to pay pneumoconiosis, or black lung, benefits to eligible employees and former employees and their dependents. Components of the net periodic benefit cost for each of the periods presented are as follows:

	Three Months Ended September 30, 2017		Nine Months Ended September 30, 2017	
	2016		2016	
	(in thousands)			
Service cost	\$ 580	\$ 644	\$ 1,682	\$ 1,936
Interest cost	649	627	1,906	1,880
Amortization of net actuarial gain (1)	(479)	(660)	(1,613)	(1,982)
Net periodic benefit cost	\$ 750	\$ 611	\$ 1,975	\$ 1,834

- (1) Amortization of net actuarial gain is included in the Operating expenses (excluding depreciation, depletion and amortization) line item within our condensed consolidated statements of income.
- .

11.COMPENSATION PLANS

Long-Term Incentive Plan

We have the LTIP for certain employees and officers of MGP and its affiliates who perform services for us. The LTIP awards are grants of non-vested "phantom" or notional units, also referred to as "restricted units", which upon satisfaction of time and performance-based vesting requirements, entitle the LTIP participant to receive ARLP common units. Annual grant levels and vesting provisions for designated participants are recommended by the President and Chief Executive Officer of MGP, subject to review and approval of the compensation committee of the MGP board of directors (the "Compensation Committee"). Vesting of all grants outstanding are subject to the satisfaction of certain financial tests, which management currently believes are probable. Grants issued to LTIP participants are expected to cliff vest on January 1st of the third year following issuance of the grants. We expect to settle the non-vested LTIP grants by delivery of ARLP common units, except for the portion of the grants that will satisfy tax withholding obligations of LTIP participants. As provided under the distribution equivalent rights provisions of the LTIP and the terms of the LTIP awards, all non-vested grants include contingent rights to receive quarterly distributions in cash or, in the case of the 2016 and 2017 grants, at the

Table of Contents

discretion of the Compensation Committee, cash or in lieu of cash, phantom units credited to a bookkeeping account with value, equal to the cash distributions we make to unitholders during the vesting period.

A summary of non-vested LTIP grants as of and for the nine months ended September 30, 2017 is as follows:

	Number of units	Weighted average grant date fair value per unit	Intrinsic value (in thousands)
Non-vested grants at January 1, 2017	1,604,748	\$ 23.19	\$ 36,027
Granted	475,310	23.17	
Vested (1)	(350,516)	40.73	
Forfeited	(35,516)	20.01	
Non-vested grants at September 30, 2017	1,694,026	19.62	32,779

- (1) During the nine months ended September 30, 2017, we issued 222,011 unrestricted common units to the LTIP participants. The remaining vested units were settled in cash to satisfy tax withholding obligations of the LTIP participants.

LTIP expense was \$2.8 million and \$3.1 million for the three months ended September 30, 2017 and 2016, respectively, and \$8.2 million and \$9.0 million for the nine months ended September 30, 2017 and 2016, respectively. The total obligation associated with the LTIP as of September 30, 2017 was \$18.9 million and is included in the partners' capital Limited partners-common unitholders line item in our condensed consolidated balance sheets. As of September 30, 2017, there was \$14.3 million in total unrecognized compensation expense related to the non-vested LTIP grants that are expected to vest. That expense is expected to be recognized over a weighted-average period of 1.4 years.

After consideration of the January 1, 2017 vesting and subsequent issuance of 222,011 common units, approximately 2.5 million units remain available under the LTIP for issuance in the future, assuming all grants issued in 2017, 2016 and 2015 and currently outstanding are settled with common units, without reduction for tax withholding, and no future forfeitures occur.

Supplemental Executive Retirement Plan and Directors Deferred Compensation Plan

We utilize the SERP to provide deferred compensation benefits for certain officers and key employees. All allocations made to participants under the SERP are made in the form of "phantom" ARLP units and SERP distributions will be settled in the form of ARLP common units. The SERP is administered by the Compensation Committee.

Our directors participate in the Deferred Compensation Plan. Pursuant to the Deferred Compensation Plan, for amounts deferred either automatically or at the election of the director, a notional account is established and credited with notional common units of ARLP, described in the Deferred Compensation Plan as "phantom" units. Distributions from the Deferred Compensation Plan will be settled in the form of ARLP common units.

For both the SERP and Deferred Compensation Plan, when quarterly cash distributions are made with respect to ARLP common units, an amount equal to such quarterly distribution is credited to each participant's notional account as additional phantom units. All grants of phantom units under the SERP and Deferred Compensation Plan vest immediately.

Table of Contents

A summary of SERP and Deferred Compensation Plan activity as of and for the nine months ended September 30, 2017 is as follows:

	Number of units	Weighted average grant date fair value per unit	Intrinsic value (in thousands)
Phantom units outstanding as of January 1, 2017	494,018	\$ 29.77	\$ 11,091
Granted	40,359	21.22	
Phantom units outstanding as of September 30, 2017	534,377	29.13	10,340

Total SERP and Deferred Compensation Plan expense was \$0.3 million for each of the three months ended September 30, 2017 and 2016, and \$1.0 million and \$0.9 million for the nine months ended September 30, 2017 and 2016, respectively. As of September 30, 2017, the total obligation associated with the SERP and Deferred Compensation Plan was \$15.6 million and is included in the partners' capital Limited partners-common unitholders line item in our condensed consolidated balance sheets.

12.COMPONENTS OF PENSION PLAN NET PERIODIC BENEFIT COSTS

Eligible employees at certain of our mining operations participate in a defined benefit plan (the "Pension Plan") that we sponsor. The Pension Plan is currently closed to new applicants and effective January 31, 2017, participants in the Pension Plan are no longer receiving benefit accruals for service. The amendment did not affect pension benefits accrued prior to January 31, 2017. The benefit formula for the Pension Plan is a fixed dollar unit based on years of service. Components of the net periodic benefit cost for each of the periods presented are as follows:

	Three Months Ended September 30, 2017		Nine Months Ended September 30, 2017	
	2016		2016	
	(in thousands)			
Service cost	\$ —	\$ 524	\$ —	\$ 1,720
Interest cost	1,138	1,118	3,408	3,381
Expected return on plan assets	(1,240)	(1,363)	(3,743)	(3,937)
Amortization of prior service cost (1)	46	—	140	—

Edgar Filing: ALLIANCE RESOURCE PARTNERS LP - Form 10-Q

Amortization of net loss (1)	774	787	2,319	2,365
Net periodic benefit cost	\$ 718	\$ 1,066	\$ 2,124	\$ 3,529

-
- (1) Amortization of prior service cost and net actuarial loss is included in the Operating expenses (excluding depreciation, depletion and amortization) line item within our condensed consolidated statements of income.

During the nine months ended September 30, 2017, we made contribution payments of \$1.1 million to the Pension Plan for the 2016 plan year and \$1.2 million for the 2017 plan year. On October 16, 2017, we made a contribution payment of \$0.6 million for the 2017 plan year.

13.SEGMENT INFORMATION

We operate in the eastern U.S. as a producer and marketer of coal to major utilities and industrial users. We aggregate multiple operating segments into two reportable segments, Illinois Basin and Appalachia, and we have an "all other" category referred to as Other and Corporate. Our reportable segments correspond to major coal producing regions in the eastern U.S. Similar economic characteristics for our operating segments within each of these two reportable segments generally include coal quality, geology, coal marketing opportunities, mining and transportation methods and regulatory issues.

The Illinois Basin reportable segment is comprised of multiple operating segments, including currently operating mining complexes (a) Webster County Coal, LLC's Dotiki mining complex, (b) Gibson County Coal, LLC's mining complex, which includes the Gibson North (currently idled) and Gibson South mines, (c) Warrior Coal, LLC's mining

Table of Contents

complex, (d) River View Coal, LLC's mining complex and (e) Hamilton County Coal, LLC's mining complex. The Gibson North mine has been idled since the fourth quarter of 2015 in response to market conditions.

The Illinois Basin reportable segment also includes White County Coal, LLC's Pattiki mining complex ("Pattiki"), Hopkins County Coal, LLC's mining complex, which includes the Elk Creek mine, the Pleasant View surface mineable reserves and the Fies underground project, Sebree Mining, LLC's mining complex, which includes the Onton mine, Steamport, LLC and certain reserves, CR Services, LLC, CR Machine Shop, LLC, certain properties and equipment of Alliance Resource Properties, ARP Sebree, LLC, ARP Sebree South, LLC and UC Coal, LLC and its subsidiaries, UC Mining, LLC and UC Processing, LLC (collectively "UC Coal"). The Pattiki mine ceased production in December 2016. The Elk Creek mine depleted its reserves in March 2016 and ceased production on April 1, 2016. Our Onton mine has been idled since the fourth quarter of 2015 in response to market conditions. UC Coal equipment assets acquired in 2015 continue to be deployed as needed at various Illinois Basin operating mines.

The Appalachia reportable segment is comprised of multiple operating segments, including the Mettiki mining complex, the Tunnel Ridge, LLC mining complex and the MC Mining, LLC mining complex. The Mettiki mining complex includes Mettiki Coal (WV), LLC's Mountain View mine and Mettiki Coal, LLC's preparation plant.

Other and Corporate includes marketing and administrative activities, ASI and its subsidiary, Matrix Design Group, LLC and its subsidiaries Matrix Design International, LLC and Matrix Design Africa (PTY) LTD ("Matrix Design"), Alliance Design Group, LLC ("Alliance Design") (collectively, the Matrix Design entities and Alliance Design are referred to as the "Matrix Group"), ASI's ownership of aircraft, the Mt. Vernon Transfer Terminal, LLC ("Mt. Vernon") dock activities, Alliance Coal's coal brokerage activity, Mid-America Carbonates, LLC ("MAC"), certain of Alliance Resource Properties' land and mineral interest activities, Pontiki Coal, LLC's throughput receivables and prior workers' compensation and pneumoconiosis liabilities, Wildcat Insurance, LLC ("Wildcat Insurance"), Alliance Minerals, and its affiliate, Cavalier Minerals (Note 7 – Variable Interest Entities), both of which hold equity investments in various AllDale Partnerships (Note 8 – Investments), AROP Funding and our new subsidiary formed March 30, 2017, Alliance Finance (both discussed in Note 6 - Long-Term Debt). On July 19, 2017, Alliance Minerals purchased \$100 million of Series A 1 Preferred Interests from Kodiak (Note 8 – Investments).

Table of Contents

Reportable segment results as of and for the three and nine months ended September 30, 2017 and 2016 are presented below.

Expense (3)	567,214	261,933	63,575	(49,336)	843,386
Segment Adjusted EBITDA (4)	381,042	143,699	25,876	(8,641)	541,976
Total assets	1,541,513	480,920	370,280	(148,438)	2,244,275
Capital expenditures	41,264	27,317	1,686	—	70,267

- (1) The elimination column represents the elimination of intercompany transactions and is primarily comprised of sales from the Matrix Group and MAC to our mining operations, coal sales and purchases between operations within different segments, sales of receivables to AROP Funding and insurance premiums paid to Wildcat Insurance.
- (2) Revenues included in the Other and Corporate column are primarily attributable to the Matrix Group revenues, Mt. Vernon transloading revenues, administrative service revenues from affiliates, MAC revenues, Wildcat Insurance revenues and brokerage coal sales.

Table of Contents

(3) Segment Adjusted EBITDA Expense includes operating expenses, coal purchases and other income.

Transportation expenses are excluded as these expenses are passed through to our customers and consequently we do not realize any gain or loss on transportation revenues. We review Segment Adjusted EBITDA Expense per ton for cost trends. Results presented for Segment Adjusted EBITDA Expense for the three and nine months ended September 30, 2016 have been recast to reflect a reclassification of depreciation and depletion capitalized into coal inventory as adjustments to Depreciation, depletion and amortization rather than Operating expenses (excluding depreciation, depletion and amortization).

The following is a reconciliation of consolidated Segment Adjusted EBITDA Expense to Operating expenses (excluding depreciation, depletion and amortization):

	Three Months Ended September 30, 2017		Nine Months Ended September 30, 2017	
	2016		2016	
	(in thousands)			
Segment Adjusted EBITDA Expense	\$ 294,611	\$ 328,112	\$ 794,384	\$ 843,386
Outside coal purchases	—	(1,514)	—	(1,514)
Other income	774	293	2,461	545
Operating expenses (excluding depreciation, depletion and amortization)	\$ 295,385	\$ 326,891	\$ 796,845	\$ 842,417

(4) Segment Adjusted EBITDA is defined as net income (prior to the allocation of noncontrolling interest) before net interest expense, income taxes, depreciation, depletion and amortization, general and administrative expenses and debt extinguishment loss. Management therefore is able to focus solely on the evaluation of segment operating profitability as it relates to our revenues and operating expenses, which are primarily controlled by our segments. Results presented for Segment Adjusted EBITDA for the three and nine months ended September 30, 2016 have been recast to reflect a reclassification of depreciation and depletion capitalized into coal inventory as adjustments to Depreciation, depletion and amortization rather than Operating expenses (excluding depreciation, depletion and amortization). Consolidated Segment Adjusted EBITDA is reconciled to net income as follows:

	Three Months Ended September 30, 2017		Nine Months Ended September 30, 2017	
	2016		2016	
	(in thousands)			
Consolidated Segment Adjusted EBITDA	\$ 157,167	\$ 217,375	\$ 506,886	\$ 541,976

14.SUBSEQUENT EVENTS

On October 27, 2017, we declared a quarterly distribution for the quarter ended September 30, 2017, of \$0.505 per unit, on all common units outstanding, totaling approximately \$66.7 million, including distributions of \$0.7 million to MGP with respect to its general partner interest in the Intermediate Partnership, payable on November 14, 2017 to all unitholders of record as of November 7, 2017.

Table of Contents

ITEM 2.MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Significant relationships referenced in this management's discussion and analysis of financial condition and results of operations include the following:

- References to "we," "us," "our" or "ARLP Partnership" mean the business and operations of Alliance Resource Partners, L.P., the parent company, as well as its consolidated subsidiaries.
- References to "ARLP" mean Alliance Resource Partners, L.P., individually as the parent company, and not on a consolidated basis.
- References to "MGP" mean Alliance Resource Management GP, LLC, ARLP's sole general partner.
- References to "SGP" mean Alliance Resource GP, LLC, ARLP's special general partner prior to the Exchange Transaction discussed below.
- References to "Intermediate Partnership" mean Alliance Resource Operating Partners, L.P., the intermediate partnership of Alliance Resource Partners, L.P.
- References to "Alliance Resource Properties" mean Alliance Resource Properties, LLC, the land-holding company for the mining operations of Alliance Resource Operating Partners, L.P.
- References to "Alliance Coal" mean Alliance Coal, LLC, the holding company for the mining operations of Alliance Resource Operating Partners, L.P., also referred to as our primary operating subsidiary.
- References to "AHGP" mean Alliance Holdings GP, L.P., individually as the parent company, and not on a consolidated basis.
- References to "AGP" mean Alliance GP, LLC, the general partner of Alliance Holdings GP, L.P.

Summary

We are a diversified producer and marketer of coal primarily to major United States ("U.S.") utilities and industrial users. We began mining operations in 1971 and, since then, have grown through acquisitions and internal development to become the second largest coal producer in the eastern U.S. As is customary in the coal industry, we have entered into long-term coal supply agreements with many of our customers. We operate eight underground mining complexes in Illinois, Indiana, Kentucky, Maryland and West Virginia, as well as a coal loading terminal on the Ohio River at Mt. Vernon, Indiana. We also generate income from other sources, including investments in oil and gas royalty interests and midstream services.

We have two reportable segments: Illinois Basin and Appalachia, and an "all other" category referred to as Other and Corporate. Our reportable segments correspond to major coal producing regions in the eastern U.S. Factors similarly affecting financial performance of our operating segments within each of these two reportable segments generally include coal quality, geology, coal marketing opportunities, mining and transportation methods and regulatory issues.

- Illinois Basin reportable segment is comprised of multiple operating segments, including currently operating mining complexes (a) Webster County Coal, LLC's Dotiki mining complex ("Dotiki"); (b) Gibson County Coal, LLC's mining complex, which includes the Gibson North (currently idled) and Gibson South mines; (c) Warrior Coal, LLC's mining complex ("Warrior"); (d) River View Coal, LLC's mining complex ("River View") and (e) Hamilton County Coal, LLC's mining complex ("Hamilton"). The Gibson North mine has been idled since the fourth quarter of 2015 in response to market conditions.

The Illinois Basin reportable segment also includes White County Coal, LLC's Pattiki mining complex ("Pattiki"); Hopkins County Coal, LLC's mining complex, which includes the Elk Creek mine ("Elk Creek"), the Pleasant View surface mineable reserves and the Fies underground project; Sebree Mining, LLC's mining complex, which includes the Onton mine, Steamport, LLC and certain reserves; CR Services, LLC; CR Machine Shop, LLC; certain properties and equipment of Alliance Resource Properties; ARP Sebree, LLC; ARP Sebree South, LLC and UC Coal, LLC and its subsidiaries, UC Mining, LLC and UC Processing, LLC (collectively "UC Coal"). The Pattiki mine ceased production in December 2016. The Elk Creek mine depleted its reserves in March 2016 and ceased production on April 1, 2016. Our Onton mine has been idled since the fourth quarter of 2015 in response to market conditions. UC Coal equipment assets acquired in 2015 continue to be deployed as needed at various Illinois Basin operating mines.

Table of Contents

- Appalachia reportable segment is comprised of multiple operating segments, including the Mettiki mining complex ("Mettiki"); the Tunnel Ridge, LLC mining complex ("Tunnel Ridge"); and the MC Mining, LLC mining complex ("MC Mining"). Mettiki includes Mettiki Coal (WV), LLC's Mountain View mine and Mettiki Coal, LLC's preparation plant.
- Other and Corporate includes marketing and administrative activities; Alliance Service, Inc. ("ASI") and its subsidiary, Matrix Design Group, LLC ("Matrix Design") and its subsidiaries Matrix Design International, LLC and Matrix Design Africa (PTY) LTD; Alliance Design Group, LLC; ASI's ownership of aircraft; the Mt. Vernon Transfer Terminal, LLC ("Mt. Vernon") dock activities; Alliance Coal's coal brokerage activity; Mid-America Carbonates, LLC's manufacturing and sales (primarily to our mines) of rock dust; certain of Alliance Resource Properties' land and mineral interest activities; Pontiki Coal, LLC's throughput receivables and legacy workers' compensation and pneumoconiosis liabilities; Wildcat Insurance, LLC; Alliance Minerals, LLC ("Alliance Minerals"), which holds direct equity investments in AllDale Minerals III, LP ("AllDale III"), and its affiliate, Cavalier Minerals JV, LLC ("Cavalier Minerals"), which holds equity investments in AllDale Minerals, LP and AllDale Minerals II, LP (collectively with AllDale III, the "AllDale Partnerships"), AROP Funding, LLC ("AROP Funding") and our new subsidiary formed March 30, 2017, Alliance Resource Finance Corporation ("Alliance Finance"). On July 19, 2017, Alliance Minerals purchased \$100 million of Series A Preferred Interests from Kodiak Gas Services, LLC ("Kodiak"). Please read "Item 1. Financial Statements (Unaudited) – Note 6. Long-term Debt," "– Note 7. Variable Interest Entities," and "– Note 8. Investments" of this Quarterly Report on Form 10-Q for more information on AROP Funding, Alliance Finance, Alliance Minerals, Cavalier Minerals, the AllDale Partnerships and Kodiak.

Three Months Ended September 30, 2017 Compared to Three Months Ended September 30, 2016

We reported net income attributable to ARLP of \$61.3 million for the three months ended September 30, 2017 ("2017 Quarter") compared to \$89.8 million for the three months ended September 30, 2016 ("2016 Quarter"). The decrease of \$28.5 million was principally due to lower revenues resulting from reduced coal sales volumes and prices. Lower revenues were offset in part by reduced operating expenses and depreciation, depletion and amortization, and increased income from our investments in oil and gas mineral interests and compression services. Operating expenses decreased compared to the 2016 Quarter primarily as a result of decreased coal sales volumes in the 2017 Quarter and the continuing benefits of our initiatives to shift production to lower-cost operations, partially offset by the impact of adverse geological conditions encountered at our Hamilton mine in the 2017 Quarter. Results presented for the 2016 Quarter have been recast to reflect a reclassification of depreciation and depletion capitalized into coal inventory as an adjustment to depreciation, depletion and amortization rather than operating expenses.

On July 28, 2017, MGP contributed to ARLP all of its incentive distribution rights ("IDRs") and its managing general partner interest in ARLP in exchange for 56,100,000 ARLP common units and a non-economic general partner interest in ARLP. In conjunction with this transaction and on the same economic basis as MGP, SGP also contributed to ARLP its 0.01% general partner interests in both ARLP and the Intermediate Partnership in exchange for 7,181 ARLP common units (collectively the "Exchange Transaction"). In connection with the Exchange Transaction, ARLP amended its partnership agreement to reflect, among other things, cancellation of the IDRs and the economic general partner interest in ARLP and issuance of a non-economic general partner interest to MGP. Please read "Item 1. Financial Statements (Unaudited) – Note 1. Organization and Presentation" of this Quarterly Report on Form 10-Q for

more information on the Exchange Transaction.

In the 2017 Quarter, as a result of the Exchange Transaction, net income was not allocated to the IDRs and the related general partner interests exchanged; however, additional net income, in a corresponding amount, was allocated to limited partner interests. We reported earnings per basic and diluted limited partner unit of \$0.52 in the 2017 Quarter compared to \$0.91 in the 2016 Quarter. On a pro forma basis, as if the Exchange Transaction had taken place on January 1, 2016, basic and diluted net income of ARLP per limited partner unit in the 2017 Quarter would have been \$0.46 compared to \$0.67 ("Pro Forma EPU") in the 2016 Quarter, reflecting the decline in net income attributable to ARLP as discussed above. Please read "Item 1. Financial Statements (Unaudited) – Note 9. Net Income of ARLP Per Limited Partner Unit" of this Quarterly Report on Form 10-Q for more information on the impact of the Exchange Transaction on earnings per basic and diluted limited partner unit, including a table providing a reconciliation of Pro Forma EPU amounts to net income of ARLP.

Table of Contents

	Three Months Ended September 30,			
	2017	2016	2017	2016
	(in thousands)		(per ton sold)	
Tons sold	9,645	10,757	N/A	N/A
Tons produced	8,521	8,512	N/A	N/A
Coal sales	\$ 435,162	\$ 533,817	\$ 45.12	\$ 49.63
Operating expenses and outside coal purchases	\$ 295,385	\$ 328,405	\$ 30.63	\$ 30.53

Coal sales. Coal sales decreased \$98.6 million or 18.5% to \$435.2 million for the 2017 Quarter from \$533.8 million for the 2016 Quarter. The decrease was attributable to a volume variance of \$55.2 million resulting from reduced tons sold and a price variance of \$43.4 million due to lower average coal sales prices. Reduced tons sold reflect significantly higher sales from coal inventory in the 2016 Quarter due to sizable contract deferrals by our customers in the first half of 2016 and the absence of sales at our Pattiki mine (which was closed in the fourth quarter of 2016) during the 2017 Quarter. Average coal sales prices decreased \$4.51 per ton sold in the 2017 Quarter to \$45.12 compared to \$49.63 per ton sold in the 2016 Quarter, primarily as a result of the expiration of higher-priced legacy contracts, offset in part by higher price realizations at our Mettiki mine from its participation in the metallurgical coal markets and improved prices at our MC Mining mine in the 2017 Quarter. Total production in the 2017 Quarter was comparable to the 2016 Quarter.

Operating expenses and outside coal purchases. Operating expenses and outside coal purchases decreased 10.1% to \$295.4 million for the 2017 Quarter from \$328.4 million for the 2016 Quarter primarily as a result of decreased coal sales volumes in the 2017 Quarter. On a per ton basis, operating expenses and outside coal purchases increased slightly to \$30.63 per ton sold from \$30.53 per ton sold in the 2016 Quarter, due primarily to the previously discussed adverse geological conditions encountered at our Hamilton mine in the 2017 Quarter, partially offset by our initiatives to shift production to lower-cost operations. The most significant operating expense variances by category are discussed below:

- Material and supplies expenses per ton produced increased 7.3% to \$10.64 per ton in the 2017 Quarter from \$9.92 per ton in the 2016 Quarter. The increase of \$0.72 per ton produced resulted primarily from increases of \$0.36 per ton for contract labor used in the mining process, \$0.29 per ton for roof support and \$0.13 per ton for certain ventilation expenses, partially offset by a decrease of \$0.09 per ton in longwall subsidence expense; and
- Maintenance expenses per ton produced increased 13.9% to \$3.61 per ton in the 2017 Quarter from \$3.17 per ton in the 2016 Quarter. The increase of \$0.44 per ton produced was primarily due to increased maintenance expenses at several mines in both reportable segments.

Operating expenses and outside coal purchases per ton increases discussed above were partially offset by the following decreases:

- Labor and benefit expenses per ton produced, excluding workers' compensation, decreased 6.7% to \$10.08 per ton in the 2017 Quarter from \$10.80 per ton in the 2016 Quarter. This decrease of \$0.72 per ton was primarily attributable to lower health care benefit expenses; and
- Production taxes and royalty expenses incurred as a percentage of coal sales prices and volumes decreased \$0.15 per produced ton sold in the 2017 Quarter compared to the 2016 Quarter primarily as a result of lower excise taxes per ton resulting from a favorable state production mix, increased export sales and lower average coal sales prices as discussed above.

General and administrative. General and administrative expenses for the 2017 Quarter decreased to \$15.0 million compared to \$18.1 million in the 2016 Quarter. The decrease of \$3.1 million was primarily due to lower incentive compensation expenses.

Depreciation, depletion and amortization. Depreciation, depletion and amortization expense decreased to \$70.0 million in the 2017 Quarter from \$101.4 million in the 2016 Quarter. The decrease of \$31.4 million resulted primarily from the closure of the Pattiki mine in the fourth quarter of 2016 and reduced sales volumes at other Illinois Basin mines.

Interest expense. Interest expense, net of capitalized interest, increased to \$10.8 million in the 2017 Quarter from \$8.0 million in the 2016 Quarter primarily due to interest incurred under our Senior Notes issued in April 2017 offset in part by reduced borrowings under our revolving credit facility and the payment of our Term Loan and Series B Senior

Table of Contents

Notes. Interest payable under our \$400 million senior unsecured notes due 2025 (the "Senior Notes"), revolving credit facility, Term Loan and Series B Senior Notes is discussed below under "–Debt Obligations."

Equity in income of affiliates. Equity in income of affiliates increased \$2.7 million in the 2017 Quarter compared to the 2016 Quarter due to increased income from our investments in the AllDale Partnerships.

Cost investment income. Distributions of additional preferred interests received from our new Kodiak investment contributed \$2.8 million of cost investment income to the 2017 Quarter. Please read "Item 1. Financial Statements (Unaudited) – Note 8. Investments" of this Quarterly Report on Form 10-Q for more information on Kodiak.

Segment Adjusted EBITDA. Our 2017 Quarter Segment Adjusted EBITDA decreased \$60.2 million, or 27.7%, to \$157.2 million from the 2016 Quarter Segment Adjusted EBITDA of \$217.4 million. Segment Adjusted EBITDA, tons sold, coal sales, other sales and operating revenues and Segment Adjusted EBITDA Expense by segment are:

(1) For a definition of Segment Adjusted EBITDA and Segment Adjusted EBITDA Expense and related reconciliations to comparable generally accepted accounting principles ("GAAP") financial measures, please see below under "—Reconciliation of non-GAAP "Segment Adjusted EBITDA" to GAAP "net income" and reconciliation of non-GAAP

Table of Contents

"Segment Adjusted EBITDA Expense" to GAAP "Operating Expenses." Results presented for Segment Adjusted EBITDA and Segment Adjusted EBITDA Expense for the three months ended September 30, 2016 have been recast to reflect a reclassification of depreciation and depletion capitalized into coal inventory as adjustments to depreciation, depletion and amortization rather than operating expenses.

Illinois Basin – Segment Adjusted EBITDA decreased 40.6% to \$86.4 million in the 2017 Quarter from \$145.4 million in the 2016 Quarter. The decrease of \$59.0 million was primarily attributable to lower coal sales, which decreased 25.2% to \$278.7 million in the 2017 Quarter from \$372.9 million in the 2016 Quarter. The decrease of \$94.2 million in coal sales primarily reflects lower average coal sales prices of \$40.56 in the 2017 Quarter compared to \$47.48 in the 2016 Quarter, resulting from the expiration and/or renegotiation of certain higher-priced legacy contracts and reduced sales volumes in the 2017 Quarter. Tons sold decreased 12.5% compared to the 2016 Quarter, primarily due to the closure of our Pattiki mine in the fourth quarter of 2016 and reduced sales volumes from our Dotiki and River View mines, partially offset by increased volumes at our Hamilton mine. Although total production for the 2017 Quarter was comparable to the 2016 Quarter, the 2016 Quarter included significantly higher sales from coal inventory resulting in the unfavorable comparison of sales volumes between the two quarters. Segment Adjusted EBITDA Expense decreased 15.4% to \$192.5 million in the 2017 Quarter from \$227.5 million in the 2016 Quarter due to reduced sales volumes. Segment Adjusted EBITDA Expense per ton decreased \$0.96 per ton sold to \$28.01 from \$28.97 per ton sold in the 2016 Quarter, primarily due to lower selling expenses and health care benefit expenses as well as our initiatives to shift production to lower-cost operations, partially offset by reduced recoveries across the region and adverse geological conditions encountered at our Hamilton mine in the 2017 Quarter.

Appalachia – Segment Adjusted EBITDA decreased 5.2% to \$55.5 million for the 2017 Quarter from \$58.5 million in the 2016 Quarter. The decrease of \$3.0 million was primarily attributable to reduced sales volumes and increased operating expenses, offset in part by increased coal sales prices. Coal sales in the 2017 Quarter were comparable to the 2016 Quarter as a decrease of 2.9% in tons sold, primarily due to reduced sales volumes at our Mettiki mine, was substantially offset by higher coal sales prices, which increased 2.9% to \$54.77 per ton sold compared to \$53.22 per ton sold in the 2016 Quarter. The increase in coal sales prices primarily reflects higher price realizations at our Mettiki mine from its participation in the metallurgical coal markets and improved prices at our MC Mining mine in the 2017 Quarter. Segment Adjusted EBITDA Expense increased 3.3% to \$97.3 million in the 2017 Quarter from \$94.2 million in the 2016 Quarter and Segment Adjusted EBITDA Expense per ton increased \$2.09 per ton sold to \$35.09 compared to \$33.00 per ton sold in the 2016 Quarter, primarily due to higher selling expenses at the MC Mining and Mettiki mines and lower recoveries across the region, partially offset by lower health care benefit expenses at our MC Mining and Tunnel Ridge mines.

Other and Corporate – Segment Adjusted EBITDA increased by \$1.2 million to \$17.5 million in the 2017 Quarter compared to \$16.3 million in the 2016 Quarter. The increase was primarily attributable to higher equity income from the AllDale Partnerships and cost investment income from Kodiak in the 2017 Quarter, partially offset by reduced intercompany coal brokerage sales.

Nine Months Ended September 30, 2017 Compared to Nine Months Ended September 30, 2016

We reported net income attributable to ARLP of \$229.4 million for the nine months ended September 30, 2017 ("2017 Period") compared to \$219.8 million for the nine months ended September 30, 2016 ("2016 Period"). The increase of \$9.6 million was due to increased coal sales volumes, which rose to 27.7 million tons sold in the 2017 Period compared to 26.2 million tons sold in the 2016 Period, lower depreciation, depletion and amortization, lower operating expenses and higher equity in income of affiliates from our investments in oil and gas mineral interests, offset in part by lower coal sales price realizations and a debt extinguishment loss of \$8.1 million related to the early repayment of our Series B Senior Notes in May 2017. Total revenues decreased to \$1.3 billion in the 2017 Period compared to \$1.4 billion in the 2016 Period as lower coal sales prices more than offset increased sales volumes and other sales and operating revenues. Even though sales and production volumes increased for the 2017 Period, operating expenses were lower compared to the 2016 Period, reflecting the continuing benefits of our recent initiatives to shift production to our lower-cost operations and lower health care benefit expenses. The favorable production cost mix and lower selling expenses in the 2017 Period significantly lowered operating expenses per ton sold compared to the 2016 Period. Results presented for the 2016 Period

Table of Contents

have been recast to reflect a reclassification of depreciation and depletion capitalized into coal inventory as an adjustment to depreciation, depletion and amortization rather than operating expenses.

	Nine Months Ended September 30,			
	2017 (in thousands)	2016	2017 (per ton sold)	2016
Tons sold	27,721	26,177	N/A	N/A
Tons produced	28,211	25,759	N/A	N/A
Coal sales	\$ 1,256,168	\$ 1,357,578	\$ 45.31	\$ 51.86
Operating expenses and outside coal purchases	\$ 796,845	\$ 843,931	\$ 28.75	\$ 32.24

Coal sales. Coal sales decreased \$101.4 million or 7.5% to \$1.3 billion for the 2017 Period from \$1.4 billion for the 2016 Period. The decrease was attributable to lower average coal sales prices, which reduced coal sales by \$181.5 million, partially offset by the benefit of increased tons sold, which contributed \$80.1 million in additional coal sales. Average coal sales prices decreased \$6.55 per ton sold in the 2017 Period to \$45.31 compared to \$51.86 per ton sold in the 2016 Period, primarily due to the expiration of higher-priced legacy contracts, partially offset by higher price realizations at our Mettiki mine from its participation in the metallurgical coal markets in the 2017 Period. Sales and production volumes rose to 27.7 million tons sold and 28.2 million tons produced in the 2017 Period compared to 26.2 million tons sold and 25.8 million tons produced in the 2016 Period, primarily due to strong performances at the Gibson South, River View, Hamilton and Tunnel Ridge mines.

Operating expenses and outside coal purchases. Operating expenses and outside coal purchases decreased 5.6% to \$796.8 million for the 2017 Period from \$843.9 million for the 2016 Period primarily as a result of the previously discussed favorable production cost mix. On a per ton basis, operating expenses and outside coal purchases decreased 10.8% to \$28.75 per ton sold from \$32.24 per ton sold in the 2016 Period, due primarily to increased sales and production volumes and the continuing benefits from previously discussed initiatives to shift production to our lower-cost operations. The most significant operating expense variances by category are discussed below:

- Labor and benefit expenses per ton produced, excluding workers' compensation, decreased 16.5% to \$9.26 per ton in the 2017 Period from \$11.09 per ton in the 2016 Period. This decrease of \$1.83 per ton was primarily attributable to lower labor and benefit costs per ton due to fewer employees resulting in part from our increased mix of lower-cost production as well as lower health care benefit expenses;
- Workers' compensation expenses per ton produced decreased to \$0.49 per ton in the 2017 Period from \$0.63 per ton in the 2016 Period. The decrease of \$0.14 per ton produced was due to fewer employees resulting in part from our increased mix of lower-cost production, partially offset by a decrease in the discount rate used to calculate the estimated present value of future obligations and unfavorable changes in claims development;

Material and supplies expenses per ton produced decreased 1.0% to \$9.66 per ton in the 2017 Period from \$9.76 per ton in the 2016 Period. The decrease of \$0.10 per ton produced resulted primarily from the increased mix of lower-cost production and related decreases of \$0.18 per ton for power and fuel used in the mining process and \$0.07 per ton for general mining materials and supplies, partially offset by an increase of \$0.23 per ton for contract labor used in the mining process; and

- Production taxes and royalty expenses decreased \$0.75 per produced ton sold in the 2017 Period compared to the 2016 Period primarily as a result of lower excise taxes per ton resulting from a favorable state production mix, and lower average coal sales prices.

Operating expenses and outside coal purchases per ton decreases discussed above were partially offset by the following increase:

- Maintenance expenses per ton produced increased 6.3% to \$3.35 per ton in the 2017 Period from \$3.15 per ton in the 2016 Period. The increase of \$0.20 per ton produced was primarily due to increased maintenance expenses at several mines in both reportable segments.

Other sales and operating revenues. Other sales and operating revenues were principally comprised of Mt. Vernon transloading revenues, Matrix Design sales, other outside services and administrative services revenue from

Table of Contents

affiliates. Other sales and operating revenues increased to \$31.9 million in the 2017 Period from \$26.7 million in the 2016 Period. The increase of \$5.2 million was primarily due to increased mining technology product sales by Matrix Design and increased transloading revenues from Mt. Vernon, partially offset in comparison to the 2016 Period by proceeds of coal supply contract buy-outs received in the 2016 Period.

General and administrative. General and administrative expenses for the 2017 Period decreased to \$46.0 million compared to \$53.0 million in the 2016 Period. The decrease of \$7.0 million was primarily due to lower incentive compensation expenses.

Depreciation, depletion and amortization. Depreciation, depletion and amortization expense decreased to \$194.1 million for the 2017 Period compared to \$245.7 million for the 2016 Period primarily as a result of the depletion of reserves at our Elk Creek mine in the first quarter of 2016, closure of the Pattiki mine in the fourth quarter of 2016, volume reductions at our Dotiki mine, the use of surplus equipment from our idled mines at the Warrior and River View mines and ongoing capital reduction initiatives at all of our operations.

Interest expense. Interest expense, net of capitalized interest, increased to \$28.9 million in the 2017 Period from \$23.4 million in the 2016 Period primarily due to interest incurred under our Senior Notes issued in April 2017, offset in part by reduced borrowings under our revolving credit facility and the payment of our Term Loan and Series B Senior Notes. Interest payable under our Senior Notes, revolving credit facility, Term Loan and Series B Senior Notes is discussed below under "–Debt Obligations."

Equity in income of affiliates. Equity in income of affiliates increased \$9.4 million in the 2017 Period compared to the 2016 Period due to increased income from our investments in the AllDale Partnerships.

Cost investment income. Distributions of additional preferred interests received from our new Kodiak investment contributed \$2.8 million of cost investment income to the 2017 Period. Please read "Item 1. Financial Statements (Unaudited) – Note 8. Investments" of this Quarterly Report on Form 10-Q for more information on Kodiak.

Debt extinguishment loss. We recognized a debt extinguishment loss of \$8.1 million in the 2017 Period to reflect a make-whole payment incurred to repay our Series B Senior Notes in May 2017.

Transportation revenues and expenses. Transportation revenues and expenses were \$24.9 million and \$19.7 million for the 2017 and 2016 Periods, respectively. The increase of \$5.2 million was primarily attributable to increased tonnage for which we arrange third-party transportation at certain mines and an increase in average third-party transportation rates in the 2017 Period. The cost of third-party transportation services are passed through to our

customers.

32

Table of Contents

Segment Adjusted EBITDA. Our 2017 Period Segment Adjusted EBITDA decreased \$35.1 million, or 6.5%, to \$506.9 million from the 2016 Period Segment Adjusted EBITDA of \$542.0 million. Segment Adjusted EBITDA, tons sold, coal sales, other sales and operating revenues and Segment Adjusted EBITDA Expense by segment are:

(1) For a definition of Segment Adjusted EBITDA and Segment Adjusted EBITDA Expense and related reconciliations to comparable GAAP financial measures, please see below under "—Reconciliation of non-GAAP "Segment Adjusted EBITDA" to GAAP "net income" and reconciliation of non-GAAP "Segment Adjusted

EBITDA Expense" to GAAP "Operating Expenses." Results presented for Segment Adjusted EBITDA and Segment Adjusted EBITDA Expense for the nine months ended September 30, 2016 have been recast to reflect a reclassification of depreciation and depletion capitalized into coal inventory as adjustments to depreciation, depletion and amortization rather than operating expenses.

Illinois Basin – Segment Adjusted EBITDA decreased 25.0% to \$285.9 million in the 2017 Period from \$381.0 million in the 2016 Period. The decrease of \$95.1 million was primarily attributable to lower coal sales, which decreased 16.1% to \$789.1 million in the 2017 Period from \$940.8 million in the 2016 Period, partially offset by decreased expenses resulting from a favorable production mix. The coal sales decrease of \$151.7 million primarily reflects lower average coal sales prices of \$40.19 in the 2017 Period compared to \$49.80 in the 2016 Period, primarily resulting from the expiration

Table of Contents

of higher-priced legacy contracts. Lower sales prices were partially offset by increased tons sold, which increased 3.9% to 19.6 million tons in the 2017 Period compared to 18.9 million tons in the 2016 Period. Higher sales volumes resulted from strong performances at the Gibson South, River View and Hamilton mines, offset in part by the previously mentioned depletion of reserves at our Elk Creek mine in the 2016 first quarter, the closure of the Pattiki mine in the 2016 fourth quarter and reduced sales at our Dotiki mine. Segment Adjusted EBITDA Expense decreased 11.1% to \$504.2 million in the 2017 Period from \$567.2 million in the 2016 Period and Segment Adjusted EBITDA Expense per ton decreased \$4.34 per ton sold to \$25.68 compared to \$30.02 per ton sold in the 2016 Period, primarily due to a significant increase in low-cost longwall production from the Hamilton mine, increased production at our River View and Gibson South operations and a related reduced mix of sales volumes from our higher cost mines, as well as reduced selling expenses, lower health care benefit expenses and certain cost decreases described above under "–Operating expenses and outside coal purchases."

Appalachia – Segment Adjusted EBITDA increased 24.8% to \$179.4 million for the 2017 Period from \$143.7 million in the 2016 Period. The increase of \$35.7 million was primarily attributable to increased tons sold, which rose 11.5% to 8.1 million tons sold in the 2017 Period compared to 7.2 million tons sold in the 2016 Period, and lower Segment Adjusted EBITDA Expense per ton. Coal sales increased 12.5% to \$453.3 million compared to \$402.9 million in the 2016 Period. The increase of \$50.4 million primarily resulted from increased sales volumes across the region, including increased export sales from our Mettiki and MC Mining mines and higher average coal sales prices of \$56.16 in the 2017 Period compared to \$55.68 in the 2016 Period. Higher price realizations in the 2017 Period were a result of sales from our Mettiki mine into the metallurgic coal export market and improved prices at our MC Mining mine. Segment Adjusted EBITDA Expense increased 5.5% to \$276.3 million in the 2017 Period from \$261.9 million in the 2016 Period due to increased sales volumes. However, Segment Adjusted EBITDA Expense per ton decreased \$1.97 per ton sold to \$34.23 compared to \$36.20 per ton sold in the 2016 Period, as a result of increased production across the region, particularly at our Tunnel Ridge longwall operation resulting in part from increased longwall unit shifts and fewer longwall move days during the 2017 Period, and increased unit shifts at our MC Mining operations, as well as certain other cost decreases described above under "–Operating expenses and outside coal purchases."

Other and Corporate – Segment Adjusted EBITDA increased by \$22.3 million to \$48.2 million for the 2017 Period compared to \$25.9 million in the 2016 Period. The increase was primarily attributable to higher equity income from the AllDale Partnerships and increased mining technology product sales by Matrix Design. In the 2017 Period, Segment Adjusted EBITDA Expense increased to \$67.4 million for the 2017 Period compared to \$63.6 million for the 2016 Period primarily as a result of increased brokerage activity and Matrix Design sales discussed above.

Elimination – Segment Adjusted EBITDA Expense eliminations increased in the 2017 Period to \$53.5 million from \$49.3 million in the 2016 Period and coal sales eliminations increased to \$48.1 million from \$44.3 million, reflecting increased intercompany coal sales brokerage activity.

Reconciliation of non-GAAP "Segment Adjusted EBITDA" to GAAP "net income" and reconciliation of non-GAAP "Segment Adjusted EBITDA Expense" to GAAP "Operating Expenses"

Segment Adjusted EBITDA (a non-GAAP financial measure) is defined as net income (prior to the allocation of noncontrolling interest) before net interest expense, income taxes, depreciation, depletion and amortization, general and administrative expenses and debt extinguishment loss. Segment Adjusted EBITDA is a key component of consolidated EBITDA, which is used as a supplemental financial measure by management and by external users of our financial statements such as investors, commercial banks, research analysts and others. We believe that the presentation of EBITDA provides useful information to investors regarding our performance and results of operations because EBITDA, when used in conjunction with related GAAP financial measures, (i) provides additional information about our core operating performance and ability to generate and distribute cash flow, (ii) provides investors with the financial analytical framework upon which we base financial, operational, compensation and planning decisions and (iii) presents a measurement that investors, rating agencies and debt holders have indicated is useful in assessing us and our results of operations.

Segment Adjusted EBITDA is also used as a supplemental financial measure by our management for reasons similar to those stated in the previous explanation of EBITDA. In addition, the exclusion of corporate general and administrative expenses from consolidated Segment Adjusted EBITDA allows management to focus solely on the evaluation of segment operating profitability as it relates to our revenues and operating expenses, which are primarily controlled by our segments. Results presented for Segment Adjusted EBITDA for the three and nine months ended September 30, 2016 have been recast to reflect a reclassification of depreciation and depletion capitalized into coal inventory as adjustments to depreciation, depletion and amortization rather than operating expenses.

Table of Contents

The following is a reconciliation of consolidated Segment Adjusted EBITDA to net income, the most comparable GAAP financial measure:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
	(in thousands)			
Consolidated Segment Adjusted EBITDA	\$ 157,167	\$ 217,375	\$ 506,886	\$ 541,976
General and administrative	(15,005)	(18,114)	(45,982)	(53,015)
Depreciation, depletion and amortization	(69,962)	(101,432)	(194,109)	(245,736)
Interest expense, net	(10,769)	(7,998)	(28,822)	(23,378)
Debt extinguishment loss	—	—	(8,148)	—
Income tax (expense) benefit	(5)	(7)	3	(4)
Net income	\$ 61,426	\$ 89,824	\$ 229,828	\$ 219,843

Segment Adjusted EBITDA Expense (a non-GAAP financial measure) includes operating expenses, coal purchases and other income. Transportation expenses are excluded as these expenses are passed through to our customers and, consequently, we do not realize any gain or loss on transportation revenues. Segment Adjusted EBITDA Expense is used as a supplemental financial measure by our management to assess the operating performance of our segments. Segment Adjusted EBITDA Expense is a key component of Segment Adjusted EBITDA in addition to coal sales and other sales and operating revenues. The exclusion of corporate general and administrative expenses from Segment Adjusted EBITDA Expense allows management to focus solely on the evaluation of segment operating performance as it primarily relates to our operating expenses. Results presented for Segment Adjusted EBITDA Expense for the three and nine months ended September 30, 2016 have been recast to reflect a reclassification of depreciation and depletion capitalized into coal inventory as adjustments to depreciation, depletion and amortization rather than operating expenses.

The following is a reconciliation of consolidated Segment Adjusted EBITDA Expense to operating expense, the most comparable GAAP financial measure:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
	(in thousands)			
Segment Adjusted EBITDA Expense	\$ 294,611	\$ 328,112	\$ 794,384	\$ 843,386
Outside coal purchases	—	(1,514)	—	(1,514)
Other income	774	293	2,461	545
	\$ 295,385	\$ 326,891	\$ 796,845	\$ 842,417

Operating expenses (excluding depreciation, depletion and amortization)

Liquidity and Capital Resources

Liquidity

We have historically satisfied our working capital requirements and funded our capital expenditures, investments and debt service obligations with cash generated from operations, cash provided by the issuance of debt or equity, borrowings under credit and securitization facilities and sale-leaseback transactions. We believe that existing cash balances, future cash flows from operations, borrowings under credit facilities and cash provided from the issuance of debt or equity will be sufficient to meet our working capital requirements, capital expenditures and additional investments, debt payments, commitments and distribution payments. Nevertheless, our ability to satisfy our working capital requirements, to fund planned capital expenditures and investments, to service our debt obligations or to pay distributions will depend upon our future operating performance and access to and cost of financing sources, which will be affected by prevailing economic conditions generally and in the coal industry specifically, as well as other financial and business factors, some of which are beyond our control. Based on our recent operating results, current cash position, current unitholder distributions, anticipated future cash flows and sources of financing that we expect to have available, we do not anticipate any constraints to our liquidity at this time. However, to the extent operating cash flow or access to and cost of financing

Table of Contents

sources are materially different than expected, future liquidity may be adversely affected. Please read "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2016.

Cash Flows

Cash provided by operating activities was \$456.1 million for the 2017 Period compared to \$494.5 million for the 2016 Period. The decrease in cash provided by operating activities was primarily due to a decrease in net income adjusted for non-cash items, an increase in coal inventories in the 2017 Period compared to a decrease in coal inventories in the 2016 Period and a smaller decrease in prepaid expenses and other assets in the 2017 Period. These decreases were offset in part by increased distributions received from the AllDale Partnerships and favorable working capital changes related to trade receivables, accounts payable, accrued interest and other long-term liabilities in the 2017 Period compared to the 2016 Period.

Net cash used in investing activities was \$205.4 million for the 2017 Period compared to \$164.7 million for the 2016 Period. The increase in cash used in investing activities was primarily attributable to the funding of our new cost investment in Kodiak in the 2017 Period and increased capital expenditures for mine infrastructure and equipment at various mines in the 2017 Period compared to the 2016 Period. Decreased purchases of equity investments in affiliates, the lack of customer contract buy-outs in the 2017 Period and favorable changes in accounts payable related to property, plant and equipment purchases partially offset increases in use of cash in investing activities previously discussed. Please read "Item 1. Financial Statements (Unaudited) – Note 8. Investments" of this Quarterly Report on Form 10-Q for more information on Kodiak.

Net cash used in financing activities was \$272.1 million for the 2017 Period compared to \$341.9 million for the 2016 Period. The decrease in cash used in financing activities was primarily attributable to proceeds received from the issuance of our Senior Notes, decreased payments under the Term Loan and a decrease in distributions paid to partners in the 2017 Period compared to the 2016 Period. Repayment of the Series B Senior Notes, increased overall net payments on the securitization and revolving credit facilities, payment of debt issuance and extinguishment costs and no proceeds received from sales-leaseback transactions in the 2017 Period partially offset decreases in net cash used in financing activities previously discussed.

Capital Expenditures

Capital expenditures increased to \$105.5 million in the 2017 Period from \$70.3 million in the 2016 Period. See our discussion of "Cash Flows" above concerning the increase in capital expenditures.

Our anticipated total capital expenditures for the year ending December 31, 2017 are estimated in a range of \$145.0 million to \$165.0 million, which includes expenditures for maintenance capital at various mines. In addition to these capital expenditures, we anticipate funding in 2017 investments of approximately \$120.0 million to \$130.0 million related to our commitment to acquire oil and gas mineral interests and including our \$100 million investment in Kodiak as discussed in "Item 1. Financial Statements (Unaudited) – Note 8. Investments" of this Quarterly Report on Form 10-Q. Management anticipates funding remaining 2017 capital requirements with cash and cash equivalents (\$18.4 million as of September 30, 2017), cash flows from operations, borrowings under revolving credit and securitization facilities and cash provided from the issuance of debt or equity. We will continue to have significant capital requirements over the long-term, which may require us to incur debt or seek additional equity capital. The availability and cost of additional capital will depend upon prevailing market conditions, the market price of our common units and several other factors over which we have limited control, as well as our financial condition and results of operations.

Debt Obligations

Credit Agreement. On January 27, 2017, our Intermediate Partnership entered into a Fourth Amended and Restated Credit Agreement (the "Credit Agreement") with various financial institutions for a revolving credit facility and term loan (the "Credit Facility"). The Credit Facility replaced the \$250 million term loan ("Replaced Term Loan") and \$700 million revolving credit facility ("Replaced Revolving Credit Facility") extended to the Intermediate Partnership on May 23, 2012 (the "Replaced Credit Agreement") by various banks and other lenders that would have expired on May 23, 2017.

Table of Contents

The Credit Agreement provided for a \$776.5 million revolving credit facility, reducing to \$494.75 million on May 23, 2017, including a sublimit of \$125 million for the issuance of letters of credit and a sublimit of \$15.0 million for swingline borrowings (the "Revolving Credit Facility"), and for a term loan with a remaining principal balance of \$50.0 million (the "Term Loan"). The outstanding revolver balance and term loan balance under the Replaced Credit Agreement were considered advanced under the Credit Facility on January 27, 2017. On April 3, 2017, we entered into an amendment to the Credit Agreement (the "Amendment") to (a) extend the termination date of the Revolving Credit Facility as to \$461.25 million of commitments to May 23, 2021, (b) eliminate the Cavalier Condition and the Senior Notes Condition (both as defined in the Credit Agreement) and (c) effectuate certain other changes. In connection with the Amendment, we increased the commitments under the Revolving Credit Facility from \$479.75 million to \$494.75 million, effective May 23, 2017 (of which \$33.5 million expire on May 23, 2019). We incurred debt issuance costs in 2017 of \$8.9 million in connection with the Credit Agreement. These debt issuance costs are deferred and are being amortized as a component of interest expense over the term of the Credit Facility.

The Credit Agreement is guaranteed by all of the material direct and indirect subsidiaries of our Intermediate Partnership, and is secured by substantially all of the Intermediate Partnership's assets. The \$50.0 million principal balance of the Term Loan was paid in full in May 2017.

Borrowings under the Credit Facility bear interest, at the option of the Intermediate Partnership, at either (i) the Base Rate at the greater of three benchmarks or (ii) a Eurodollar Rate, plus margins for (i) or (ii), as applicable, that fluctuate depending upon the ratio of Consolidated Debt to Consolidated Cash Flow (each as defined in the Credit Agreement). We elected a Eurodollar Rate, which, with applicable margin, was 3.59% as of September 30, 2017. At September 30, 2017, we had \$8.1 million of letters of credit outstanding with \$486.7 million available for borrowing under the Revolving Credit Facility. We currently incur an annual commitment fee of 0.35% on the undrawn portion of the Revolving Credit Facility. We utilize the Revolving Credit Facility, as appropriate, for working capital requirements, capital expenditures and investments in affiliates, scheduled debt payments and distribution payments.

The Credit Agreement contains various restrictions affecting our Intermediate Partnership and its subsidiaries including, among other things, incurrence of additional indebtedness and liens, sale of assets, investments, mergers and consolidations and transactions with affiliates, in each case subject to various exceptions, and the payment of cash distributions by our Intermediate Partnership if such payment would result in a certain fixed charge coverage ratio (as defined in the Credit Agreement). The Amendment lowered this fixed charge ratio from less than 1.25 to 1.0 to 1.15 to 1.0 for each rolling four-quarter period and further limited the Intermediate Partnership's ability to incur certain unsecured debt. See "Item 1. Financial Statements (Unaudited) – Note 7. Variable Interest Entities" of this Quarterly Report on Form 10-Q for further discussion of restrictions on the cash available for distribution. The Amendment raised the debt to cash flow ratio from 2.25 to 1.0 to 2.50 to 1.0 and also removed the requirement for the Intermediate Partnership to remain in control of a certain amount of mineable coal reserves relative to its annual production. The Credit Agreement requires the Intermediate Partnership maintain (a) a debt to cash flow ratio of not more than 2.5 to 1.0 and (b) a cash flow to interest expense ratio of not less than 3.0 to 1.0, in each case, during the four most recently ended fiscal quarters. The debt to cash flow ratio and cash flow to interest expense ratio were 0.84 to 1.0 and 19.2 to 1.0, respectively, for the trailing twelve months ended September 30, 2017. We were compliant with the covenants of the Credit Agreement as of September 30, 2017.

Series B Senior Notes. On January 27, 2017, the Intermediate Partnership also amended the 2008 Note Purchase Agreement dated June 26, 2008, for \$145.0 million of Series B Senior Notes which bore interest at 6.72% and were due to mature on June 26, 2018 with interest payable semi-annually. The amendment provided for certain modifications to the terms and provisions of the Note Purchase Agreement, including granting liens on substantially all of the Intermediate Partnership's assets to secure its obligations under the Note Purchase Agreement on an equal basis with the obligations under the Credit Agreement. The amendment also modified certain covenants to align them with the applicable covenants in the Credit Agreement. As discussed below, we repaid the Series B Senior Notes in May 2017.

Senior Notes. On April 24, 2017, the Intermediate Partnership and Alliance Resource Finance Corporation (as co-issuer), a wholly owned subsidiary of the Intermediate Partnership ("Alliance Finance"), issued an aggregate principal amount of \$400.0 million of our Senior Notes in a private placement to qualified institutional buyers. The Senior Notes have a term of eight years, maturing on May 1, 2025 (the "Term") and accrue interest at an annual rate of 7.5%. Interest is payable semi-annually in arrears on each May 1 and November 1, commencing on November 1, 2017. The indenture governing the Senior Notes contains customary terms, events of default and covenants relating to, among other things, the incurrence of debt, the payment of distributions or similar restricted payments, undertaking transactions with affiliates and

Table of Contents

limitations on asset sales. At any time prior to May 1, 2020, the issuers of the Senior Notes may redeem up to 35% of the aggregate principal amount of the Senior Notes with the net cash proceeds of one or more equity offerings at a redemption price equal to 107.5% of the principal amount redeemed, plus accrued and unpaid interest, if any, to the redemption date. The issuers of the Senior Notes may also redeem all or a part of the notes at any time on or after May 1, 2020, at redemption prices set forth in the indenture governing the Senior Notes. At any time prior to May 1, 2020, the issuers of the Senior Notes may redeem the Senior Notes at a redemption price equal to the principal amount of the Senior Notes plus a "make-whole" premium, plus accrued and unpaid interest, if any, to the redemption date. The net proceeds from issuance of the Senior Notes and cash on hand were used to repay the Revolving Credit Facility, Term Loan and Series B Senior Notes (including a make-whole payment of \$8.1 million). We incurred discount and debt issuance costs of \$7.3 million in connection with issuance of the Senior Notes. These costs are deferred and are currently being amortized as a component of interest expense over the Term.

Accounts Receivable Securitization. On December 5, 2014, certain direct and indirect wholly-owned subsidiaries of our Intermediate Partnership entered into a \$100.0 million accounts receivable securitization facility ("Securitization Facility"). Under the Securitization Facility, certain subsidiaries sell trade receivables on an ongoing basis to our Intermediate Partnership, which then sells the trade receivables to AROP Funding, LLC ("AROP Funding"), a wholly-owned bankruptcy-remote special purpose subsidiary of our Intermediate Partnership, which in turn borrows on a revolving basis up to \$100.0 million secured by the trade receivables. After the sale, Alliance Coal, as servicer of the assets, collects the receivables on behalf of AROP Funding. The Securitization Facility bears interest based on a Eurodollar Rate. It was renewed in December 2016 and matures in December 2017. At September 30, 2017, we had \$100.0 million outstanding under the Securitization Facility.

Cavalier Credit Agreement. On October 6, 2015, Cavalier Minerals entered into a credit agreement (the "Cavalier Credit Agreement") with Mineral Lending, LLC ("Mineral Lending") for a \$100.0 million line of credit (the "Cavalier Credit Facility"). There is no commitment fee under the facility. Borrowings under the Cavalier Credit Facility bear interest at a one month LIBOR rate plus 6% with interest payable quarterly. Repayment of the principal balance will begin following the first fiscal quarter after the earlier of the date on which the aggregate amount borrowed exceeds \$90.0 million or December 31, 2017, in quarterly payments of an amount equal to the greater of \$1.3 million initially, escalated to \$2.5 million after two years, or fifty percent of Cavalier Minerals' excess cash flow. The Cavalier Credit Facility matures September 30, 2024, at which time all amounts then outstanding are required to be repaid. To secure payment of the facility, Cavalier Minerals pledged all of its partnership interests, owned or later acquired, in AllDale Minerals, LP and AllDale Minerals II, LP. Cavalier Minerals may prepay the Cavalier Credit Facility at any time in whole or in part subject to terms and conditions described in the Cavalier Credit Agreement. As of September 30, 2017, Cavalier Minerals had not drawn on the Cavalier Credit Facility. Alliance Minerals has the right to require Cavalier Minerals to draw the full amount available under the Cavalier Credit Facility and distribute the proceeds to the members of Cavalier Minerals, including Alliance Minerals.

Other. In addition to the letters of credit available under the Credit Facility discussed above, we also have an agreement with one bank to provide additional letters of credit of \$5.0 million to maintain surety bonds to secure our obligations for workers' compensation benefits. At September 30, 2017, we had \$5.0 million in letters of credit outstanding under the agreement.

Related-Party Transactions

We have continuing related-party transactions with MGP, MGP II, AHGP and SGP and its affiliates. These related-party transactions relate principally to the provision of administrative services to AHGP and Alliance Resource Holdings II, Inc. and their respective affiliates, mineral leases with SGP and its affiliates, and agreements relating to the use of aircraft. For more information regarding MGP II, please read "Item 1. Financial Statements (Unaudited) – Note 1. Organization and Presentation" of this Quarterly Report on Form 10-Q. We also have transactions with (a) WKY CoalPlay, LLC ("WKY CoalPlay") regarding three mineral leases, (b) Kodiak to support its compression services and (c) Bluegrass Minerals Management, LLC ("Bluegrass Minerals") and, through Alliance Minerals and Cavalier Minerals, the AllDale Partnerships to support the acquisition of oil and gas mineral interests. For more information regarding WKY CoalPlay, Kodiak, the AllDale Partnerships and Bluegrass Minerals, please read "Item 1. Financial Statements (Unaudited) – Note 7. Variable Interest Entities" and "– Note 8. Investments" of this Quarterly Report on Form 10-Q. Please read our Annual Report on Form 10-K for the year ended December 31, 2016, "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations – Related-Party Transactions" for additional information concerning related-party transactions.

Other Information

White Oak IRS Notice

The previously communicated IRS audit of White Oak Resources, LLC for the tax year ended December 31, 2011 is ongoing.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Commodity Price Risk

We have significant long-term coal supply agreements. Most of the long-term coal supply agreements are subject to price adjustment provisions, which periodically permit an increase or decrease in the contract price typically to reflect changes in specified indices or changes in production costs resulting from regulatory changes, or both.

We have exposure to price risk for supplies that are used directly or indirectly in the normal course of coal production such as steel, electricity and other supplies. We manage our risk for these items through strategic sourcing contracts for normal quantities required by our operations. We do not utilize any commodity price-hedges or other derivatives related to these risks.

Credit Risk

Most of our sales tonnage is consumed by electric utilities. Therefore, our credit risk is primarily with domestic electric power generators. Our policy is to independently evaluate each customer's creditworthiness prior to entering into transactions and to constantly monitor outstanding accounts receivable against established credit limits. When deemed appropriate by our credit management department, we will take steps to reduce our credit exposure to customers that do not meet our credit standards or whose credit has deteriorated. These steps may include obtaining letters of credit or cash collateral, requiring prepayment for shipments or establishing customer trust accounts held for our benefit in the event of a failure to pay.

Exchange Rate Risk

Almost all of our transactions are denominated in U.S. Dollars, and as a result, we do not have material exposure to currency exchange-rate risks.

Interest Rate Risk

Borrowings under the Credit Agreement, Securitization Facility and Cavalier Credit Agreement are at variable rates and, as a result, we have interest rate exposure. Historically, our earnings have not been materially affected by changes in interest rates. We do not utilize any interest rate derivative instruments related to our outstanding debt. We had \$100.0 million in borrowings under the Securitization Facility at September 30, 2017. A one percentage point increase in the interest rates related to the Securitization Facility would result in an annualized increase in interest expense of \$1.0 million, based on borrowing levels at September 30, 2017. With respect to our fixed-rate borrowings, a one percentage point increase in interest rates would result in a decrease of approximately \$27.6 million in the estimated fair value of these borrowings.

As of September 30, 2017, the estimated fair value of our long-term debt was approximately \$536.3 million. The fair values of long-term debt are estimated using discounted cash flow analyses, based upon our current incremental borrowing rates for similar types of borrowing arrangements as of September 30, 2017. There were no other changes in our quantitative and qualitative disclosures about market risk as set forth in our Annual Report on Form 10-K for the year ended December 31, 2016.

Table of Contents

ITEM 4.CONTROLS AND PROCEDURES

We maintain controls and procedures designed to provide reasonable assurance that information required to be disclosed in the reports we file with the Securities and Exchange Commission ("SEC") is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. As required by Rule 13a-15(b) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), we have evaluated, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) or Rule 15d-15(e) of the Exchange Act) as of September 30, 2017. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that these controls and procedures are effective as of September 30, 2017.

During the quarterly period ended September 30, 2017, there have not been any changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) identified in connection with this evaluation that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

FORWARD-LOOKING STATEMENTS

Certain statements and information in this Quarterly Report on Form 10-Q may constitute "forward-looking statements." These statements are based on our beliefs as well as assumptions made by, and information currently available to, us. When used in this document, the words "anticipate," "believe," "continue," "estimate," "expect," "forecast," "may," "project," "will," and similar expressions identify forward-looking statements. Without limiting the foregoing, all statements relating to our future outlook, anticipated capital expenditures, future cash flows and borrowings and sources of funding are forward-looking statements. These statements reflect our current views with respect to future events and are subject to numerous assumptions that we believe are reasonable, but are open to a wide range of uncertainties and business risks, and actual results may differ materially from those discussed in these statements. Among the factors that could cause actual results to differ from those in the forward-looking statements are:

- changes in coal prices, which could affect our operating results and cash flows;
- changes in competition in coal markets and our ability to respond to such changes;
- legislation, regulations, and court decisions and interpretations thereof, including those relating to the environment and the release of greenhouse gases, mining, miner health and safety and health care;
- deregulation of the electric utility industry or the effects of any adverse change in the coal industry, electric utility industry, or general economic conditions;
- risks associated with the expansion of our operations and properties;
- dependence on significant customer contracts, including renewing existing contracts upon expiration;
- adjustments made in price, volume or terms to existing coal supply agreements;
- changing global economic conditions or in industries in which our customers operate;
- liquidity constraints, including those resulting from any future unavailability of financing;
- customer bankruptcies, cancellations or breaches to existing contracts, or other failures to perform;
- customer delays, failure to take coal under contracts or defaults in making payments;
- fluctuations in coal demand, prices and availability;
- continuation or worsening of depressed oil and gas prices adversely affecting our investments in oil and gas mineral interests and midstream services;
- our productivity levels and margins earned on our coal sales;
- the coal industry's share of electricity generation, including as a result of environmental concerns related to coal mining and combustion and the cost and perceived benefits of other sources of electricity, such as natural gas, nuclear energy and renewable fuels;
- changes in raw material costs;
- changes in the availability of skilled labor;
- our ability to maintain satisfactory relations with our employees;
- increases in labor costs including costs of health insurance and taxes resulting from the Affordable Care Act, adverse changes in work rules, or cash payments or projections associated with post-mine reclamation and workers compensation claims;
- increases in transportation costs and risk of transportation delays or interruptions;
- operational interruptions due to geologic, permitting, labor, weather-related or other factors;
- risks associated with major mine-related accidents, such as mine fires, or interruptions;
- results of litigation, including claims not yet asserted;

- difficulty maintaining our surety bonds for mine reclamation as well as workers' compensation and black lung benefits;
- difficulty in making accurate assumptions and projections regarding post-mine reclamation as well as pension, black lung benefits and other post-retirement benefit liabilities;
- uncertainties in estimating and replacing our coal reserves;
- a loss or reduction of benefits from certain tax deductions and credits;
- difficulty obtaining commercial property insurance, and risks associated with our participation (excluding any applicable deductible) in the commercial insurance property program;
- difficulty in making accurate assumptions and projections regarding future revenues and costs associated with equity investments in companies we do not control; and
- other factors, including those discussed in "Item 1A. Risk Factors" and "Item 3. Legal Proceedings" in our Annual Report on Form 10-K for the year ended December 31, 2016.

Table of Contents

If one or more of these or other risks or uncertainties materialize, or should underlying assumptions prove incorrect, our actual results may differ materially from those described in any forward-looking statement. When considering forward-looking statements, you should also keep in mind the risk factors described in "Risk Factors" below. These risk factors could also cause our actual results to differ materially from those contained in any forward-looking statement. We disclaim any obligation to update the above list or to announce publicly the result of any revisions to any of the forward-looking statements to reflect future events or developments.

You should consider the information above when reading or considering any forward-looking statements contained in:

- this Quarterly Report on Form 10-Q;
- other reports filed by us with the SEC;
- our press releases;
- our website <http://www.arlp.com>; and
- written or oral statements made by us or any of our officers or other authorized persons acting on our behalf.

PART II

OTHER INFORMATION

ITEM 1.LEGAL PROCEEDINGS

The information in Note 3. Contingencies to the Unaudited Condensed Consolidated Financial Statements included in "Part I. Item 1. Financial Statements (Unaudited)" of this Quarterly Report on Form 10-Q herein is hereby incorporated by reference. See also "Item 3. Legal Proceedings" of our Annual Report on Form 10-K for the year ended December 31, 2016.

ITEM 1A.RISK FACTORS

In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the factors discussed in Part I, Item 1A "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2016 which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K and this Quarterly Report on Form 10-Q are not our only risks. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial based on current knowledge and factual circumstances, if such knowledge or facts change, also may materially adversely affect our business, financial condition and/or operating results in the future. We do not believe there have been any material changes to the risk factors previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2016.

ITEM 2.UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3.DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4.MINE SAFETY DISCLOSURES

Information concerning mine safety violations or other regulatory matters required by Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 104 of Regulation S-K (17 CFR 229.104) is included in Exhibit 95.1 to this Quarterly Report on Form 10-Q.

ITEM 5.OTHER INFORMATION

None.
