UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2016

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission file number 001-35547

ALLSCRIPTS HEALTHCARE SOLUTIONS, INC.

(Exact Name of Registrant as Specified in Its Charter)

Delaware 36-4392754
(State or Other Jurisdiction of (I.R.S. Employer

Incorporation or Organization) Identification No.)

222 Merchandise Mart, Suite 2024

Chicago, IL 60654

(Address of Principal Executive Offices, Zip Code)

(312) 506-1200

(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of October 28, 2016, there were 185,090,723 shares of the registrant's \$0.01 par value common stock outstanding.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Basis of Presentation and Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of Allscripts Healthcare Solutions, Inc. (“Allscripts”) and its wholly-owned subsidiaries and controlled affiliates. All significant intercompany balances and transactions have been eliminated. Each of the terms “we,” “us,” “our” or the “Company” as used herein refers collectively to Allscripts Healthcare Solutions, Inc. and its wholly-owned and controlled affiliates, unless otherwise stated.

Unaudited Interim Financial Information

The unaudited interim consolidated financial statements as of and for the three and nine months ended September 30, 2016 have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (the “SEC”) for interim financial reporting. These interim consolidated financial statements are unaudited and, in the opinion of our management, include all adjustments, consisting of normal recurring adjustments and accruals, necessary to present fairly the consolidated financial statements for the periods presented in accordance with generally accepted accounting principles in the United States of America (“GAAP”). The results of operations for the three and nine months ended September 30, 2016 are not necessarily indicative of the results to be expected for the full year ending December 31, 2016.

Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted in accordance with the SEC's rules and regulations for interim reporting, although the Company believes that the disclosures made are adequate to make that information not misleading. These unaudited interim consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2015 (our “Form 10-K”).

Use of Estimates

The preparation of consolidated financial statements in accordance with GAAP requires us to make estimates and assumptions that affect the amounts reported and disclosed in the consolidated financial statements and the accompanying notes. Actual results could differ materially from these estimates.

Significant Accounting Policies

There have been no changes to our significant accounting policies from those disclosed in our Form 10-K.

Accounting Pronouncements Not yet Adopted

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers: Topic 606 (“ASU 2014-09”), to supersede nearly all existing revenue

recognition guidance under GAAP. The core principle of ASU 2014-09 is to recognize revenue when promised goods or services are transferred to customers in an amount that reflects the consideration that is expected to be received for those goods or services. ASU 2014-09 defines a five-step process to achieve this principle and, in doing so, it is possible more judgment and estimates may be required within the revenue recognition process than required under existing GAAP, including identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each separate performance obligation. The new standard permits the use of either the retrospective or cumulative effect transition methods. As issued, ASU 2014-09 is effective for us for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. On August 12, 2015, the FASB issued ASU 2015-14, which deferred the effective date of ASU 2014-09 by one year to annual reporting periods beginning after December 15, 2017, while also permitting companies to voluntarily adopt the new revenue standard as of the original effective date. In addition, during the first half of 2016 the FASB issued ASU 2016-08, ASU 2016-10, 2016-11 and 2016-12, all of which clarify certain implementation guidance within ASU 2014-09. We have initiated an assessment of our systems, data and processes related to the implementation of this accounting standard. This assessment is expected to be completed by the end of fiscal 2016. Additionally, we are currently evaluating the potential impact that the implementation of this standard will have on our consolidated financial statements, as well as the selection of the method of adoption. We currently do not expect to implement this standard prior to its mandatory effective date.

In March 2016, the FASB issued Accounting Standards Update No. 2016-07, Investments – Equity Method and Joint Ventures (Topic 323): Simplifying the Transition to the Equity Method of Accounting (“ASU 2016-07”). The guidance in ASU 2016-07 eliminates the requirement that, when an investment qualifies for use of the equity method as a result of an increase in the level of ownership interest or degree of influence, an investor must adjust the investment, results of operations, and retained earnings retroactively on a step-by-step basis as if the equity method had been in effect during all previous periods that the investment had been held. The amendments require that the equity method investor add the cost of acquiring the additional interest in the investee to the current basis of the investor’s previously held interest and adopt the equity method of accounting as of the date the investment becomes qualified for equity method accounting. The amendments in this Update require that an entity that has an available-for-sale equity security that becomes qualified for the equity method of accounting recognize through earnings the unrealized holding gain or loss in accumulated other comprehensive income at the date the investment becomes qualified for use of the equity method. ASU 2016-07 is effective for interim and annual periods beginning after December 15, 2016, and should be applied prospectively. Earlier application is permitted. We are currently evaluating the impact of this new accounting guidance.

In March 2016, the FASB issued Accounting Standards Update No. 2016-09, Compensation – Stock Compensation (Topic 718): Improvements to Share-Based Payment Accounting (“ASU 2016-09”). The guidance in ASU 2016-09, among other things, (i) will require all income tax effects of share-based awards to be recognized in the statement of operations when the awards vest or are settled, (ii) will allow an employer to repurchase more of an employee’s shares for tax withholding purposes than it can today without triggering liability accounting and (iii) will allow a policy election to account for forfeitures as they occur. ASU 2016-09 is effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Early adoption is permitted. Based on our analysis, we do not expect this new guidance to materially impact our previously reported consolidated financial statements.

In June 2016, the FASB issued Accounting Standards Update No. 2016-13, Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments (“ASU 2016-13”). The guidance in ASU 2016-13 replaces the incurred loss impairment methodology under current GAAP. The new impairment model requires immediate recognition of estimated credit losses expected to occur for most financial assets and certain other instruments. For available-for-sale debt securities with unrealized losses, the losses will be recognized as allowances rather than reductions in the amortized cost of the securities. ASU 2016-13 is effective for annual periods beginning after December 15, 2019, and interim periods within those annual periods. Early adoption for fiscal years beginning after December 15, 2018 is permitted. We are currently in the process of evaluating this new guidance, which we expect to have an impact on our consolidated financial statements and results of operations.

In August 2016, the FASB issued Accounting Standards Update No. 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments (“ASU 2016-15”). The guidance in ASU 2016-15 eliminates the diversity in practice related to the classification of certain cash receipts and payments in the statement of cash flows, by adding or clarifying guidance on eight specific cash flow issues. ASU 2016-15 is effective for annual periods beginning after December 15, 2017, and interim periods within those annual periods. Early adoption is permitted. We are currently evaluating the impact of this accounting guidance, but do not expect it to have any material impact on our consolidated financial statements.

We do not believe that any other recently issued, but not yet effective accounting standards, if adopted, would have a material impact on our consolidated financial statements.

2. Business Combinations

Formation of Joint Business Entity and Acquisition of Netsmart, Inc.

On March 20, 2016, we entered into a Contribution and Investment Agreement (the “Contribution Agreement”) with GI Netsmart Holdings LLC, a Delaware limited liability company (“GI Partners”) to form a joint business entity, Nathan Holding LLC, a Delaware limited liability company (“Nathan”). The formation of Nathan was completed on April 19, 2016. As a result, pursuant to, and subject to the terms and conditions of, the Contribution Agreement, Nathan issued to Allscripts Class A Common Units in exchange for Allscripts contributing its Homecare™ business and cash to Nathan and issued to GI Partners Class A Preferred Units in exchange for cash.

The Nathan operating agreement provides that the Class A Preferred Units entitle the owners at any time and from time to time following the later of (A) the earlier of (I) the fifth anniversary of the effective date and (II) a change in control of Allscripts, and (B) the earlier of (I) the payment in full of the obligations under the credit facilities and the termination of any commitments thereunder or (II) with respect to any proposed redemption, such earlier date for such redemption consented to in writing by the required lenders under each of the credit facilities under which obligations remain unpaid or under which commitments continue, to redeem all or any portion of their Class A Preferred Units for cash at a price per Unit equal to the Class A Preferred liquidation preference for each such Class A Preferred Unit as of the date of such redemption. The liquidation preference is equal to the greater of (i) a return of the original issue price plus a preferred return (accruing on a daily basis at the rate of 11% per annum and compounding annually on the last day of each calendar year) or (ii) the as-converted value of Class A Common Units in Nathan. The consolidated statements of operations for the three and nine months periods ended September 30, 2016 give effect to the accretion of the 11% redemption preference as part of the calculation of net income (loss) attributable to Allscripts stockholders.

Also on April 19, 2016, Nathan acquired Netsmart, Inc., a Delaware corporation, pursuant to the Agreement and Plan of Merger, dated as of March 20, 2016 (the “Merger Agreement”), by and among Nathan Intermediate LLC, a Delaware limited liability company and a wholly-owned subsidiary of Nathan (“Intermediate”), Nathan Merger Co., a Delaware corporation and a wholly-owned subsidiary of Intermediate (“Merger Sub”), Netsmart, Inc. and Genstar Capital Partners V, L.P., as the equityholders’ representative. Pursuant to the Merger Agreement, on April 19, 2016, Merger Sub was merged with and into Netsmart, Inc., with Netsmart, Inc. surviving as a wholly-owned subsidiary of Intermediate (the “Merger”). As a result of these transactions (the “Netsmart Transaction” or “Netsmart Acquisition”), the establishment of Nathan combined the Allscripts Homecare™ business with Netsmart, Inc. Throughout the rest of this Form 10-Q, Nathan is referred to as “Netsmart”.

At the effective time of the Merger, Netsmart, Inc.’s common stock shares issued and outstanding immediately prior to the effective time were converted into the right to receive a pro rata share of \$950 million, reduced by net debt and subject to working capital and other adjustments (the “Purchase Price”). Each vested outstanding option to acquire shares of Netsmart, Inc.’s common stock became entitled to receive a pro rata share of the Purchase Price, less applicable exercise prices of the options. Certain holders of shares of Netsmart, Inc.’s common stock, who were members of Netsmart, Inc.’s management, exchanged a portion of such shares for equity interests in Nathan, in lieu of receiving their pro rata share of the Purchase Price, and certain holders of options to purchase Netsmart, Inc.’s common stock, who were also members of Netsmart, Inc.’s management, invested a portion of such holder’s proceeds from the Merger in equity interests in Nathan (collectively, the “Rollover”). After the completion of the Merger and the Rollover, Allscripts owned 49.1%, GI Partners owned 47.2% and Netsmart’s management owned 3.7% of the outstanding equity interests in Netsmart, in each case on an as-converted basis. As part of the Netsmart Transaction, we deposited \$15 million in an escrow account to be used by Netsmart to facilitate the integration of our Homecare™ business within Netsmart over the next 5 years, at which time the restriction on any unused funds will lapse.

Pursuant to the consolidation guidance in FASB Accounting Standards Codification (“ASC”) Topic 810, Consolidation, we performed a qualitative and quantitative assessment to determine whether Netsmart was a variable interest entity (“VIE”). Our assessment involved consideration of all facts and circumstances relevant to the Netsmart’s structure, including its capital structure, contractual rights to earnings (losses), subordination of our interests relative to those of other investors, contingent payments, as well as other contractual arrangements that have potential to be economically significant. Based on this analysis, we determined that Netsmart was not a VIE and that we, through our 49.1% interest in Netsmart and other contractual rights, including budgetary approval, have the power to direct the activities of Netsmart that most significantly impact its economic performance. As a result, we concluded that we will account for our investment in Netsmart on a consolidated basis and the financial results of Netsmart will be consolidated with Allscripts starting on April 19, 2016.

Edgar Filing: ALLSCRIPTS HEALTHCARE SOLUTIONS, INC. - Form 10-Q

The acquisition of Netsmart, Inc. by Nathan was completed for an aggregate Purchase Price of \$937 million. The Purchase Price was funded by the sources of funds as described in the table below. The Netsmart term loans are non-recourse to Allscripts and its wholly-owned subsidiaries. A portion of the debt proceeds were used to extinguish Netsmart, Inc.'s existing debt of \$325 million, including accrued interest and fees of \$2 million. The sources of funds used in connection with the Netsmart Acquisition are as follows:

	(In thousands)
Cash contribution for redeemable convertible non-controlling interest in Netsmart - GI Partners	\$ 333,606
Exchange of Netsmart, Inc.'s common stock for redeemable convertible non-controlling interest in Netsmart - Netsmart, Inc. management	25,543
Cash contribution from borrowings under revolver in exchange for common stock in Netsmart - Allscripts	43,782
Net borrowings under new term loans - Netsmart	534,135
Total funds used for the acquisition	\$ 937,066

Under the acquisition method of accounting, the fair value of consideration transferred for Netsmart, Inc. was allocated to the tangible and intangible assets acquired and the liabilities assumed based on their estimated fair values as of the acquisition date with the remaining unallocated amount recorded as goodwill. Our estimates and assumptions are subject to change as we obtain additional information for our estimates during the measurement period (up to one year from the acquisition date). During the three months ended September 30, 2016, we recorded several measurement period adjustments, the largest of which included \$12.0 million increase in intangible assets, \$4.4 million increase in deferred taxes, net, \$2.0 million decrease in accrued expenses, and \$9.6 million decrease in the residual allocation to goodwill. During the three months ended September 30, 2016, we also recorded the resulting adjustment to accumulated amortization associated with the change in the fair value of intangible assets. The amount of amortization expense adjustment related to the second quarter of 2016 was not material.

The preliminary allocation of the fair value of the consideration transferred, including measurement period adjustments through September 30, 2016, is shown in the table below. The primary areas of the preliminary allocation of the fair value of consideration transferred that are not yet finalized relate to the finalization of certain tax-related balances and valuation estimates.

	(In thousands)

Accrued expenses	(9,595)
Deferred revenue	(18,843)
Capital lease obligations	(17,833)
Deferred taxes, net	(127,050)
Other liabilities	(3,673)
Net assets acquired	\$937,066

Allscripts' contribution of its Homecare™ business to Nathan was deemed to be a transaction between entities under common control and the net assets of the Homecare™ business were contributed at carryover basis.

As noted above, the formation of Netsmart resulted in the merger of our Homecare™ business with Netsmart, Inc.'s behavioral health technology business. As a result, Netsmart became one of the largest healthcare IT companies serving the health and human services sector, which includes behavioral health, public health and child and family services. Among the factors that contributed to a purchase price resulting in the recognition of goodwill were the expected growth and synergies that we believe will result from the integration of our Homecare solutions with Netsmart, Inc.'s product offerings. The goodwill is not deductible for tax purposes.

The acquired intangible assets are being amortized over their useful lives, using a method that approximates the pattern of economic benefits to be gained by the intangible asset and consist of the following amounts for each class of acquired intangible asset:

10

Edgar Filing: ALLSCRIPTS HEALTHCARE SOLUTIONS, INC. - Form 10-Q

Description	(Dollar amounts in thousands)	Useful Life	Fair
		in Years	Value
Technology		10-12 yrs	\$144,000
Corporate Trademark		indefinite	27,000
Product Trademarks		10 yrs	8,500
Customer Relationships		12-20 yrs	230,000
			\$409,500

Acquisition costs related to the Netsmart acquisition are included in selling, general and administrative expenses in the accompanying consolidated statement of operations totaled \$4.1 million for the nine months ended September 30, 2016. There were no acquisition-related costs recorded during the three months ended September 30, 2016.

The revenue and net loss of Netsmart since April 19, 2016 are included in our consolidated statement of operations for the three and nine months ended September 30, 2016 and the supplemental pro forma revenue and net loss of the combined entity, presented as if the acquisition of Netsmart, Inc. had occurred on January 1, 2015, are as follows:

(In thousands, except per share amounts)	Three Months Ended		Nine Months Ended	
	September 30, 2016	2015	September 30, 2016	2015
Actual from Netsmart since acquisition date				
of April 19, 2016:				
Revenue ⁽¹⁾	\$52,621	\$0	\$96,855	\$0
Net loss ⁽¹⁾	\$(11,126)	\$0	\$(18,239)	\$0
Supplemental pro forma data for combined entity:				
Revenue	\$399,811	\$400,819	\$1,198,048	\$1,157,087
Net loss attributable to Allscripts Healthcare				
Solutions, Inc. stockholders	\$(5,147)	\$(21,223)	\$(34,862)	\$(88,933)
Loss per share, basic and diluted	\$(0.03)	\$(0.11)	\$(0.19)	\$(0.48)

(1) Amounts are not adjusted for the effects of transactions between us and Netsmart.

The supplemental pro forma results were calculated after applying our accounting policies and adjusting the results of Netsmart to reflect (i) the additional depreciation and amortization that would have been charged resulting from the fair value adjustments to property, plant and equipment and intangible assets, (ii) the additional interest expense associated with Netsmart's borrowings under the new term loans, and (iii) the additional amortization of the estimated adjustment to decrease the assumed deferred revenue obligations to fair value that would have been charged assuming the acquisition occurred on January 1, 2015, together with the consequential tax effects. Supplemental pro forma results for the nine months ended September 30, 2016 were also adjusted to exclude acquisition-related and transaction costs incurred during this period. Supplemental pro forma results for the nine months ended September 30, 2015 were adjusted to include these items. The supplemental pro forma results for the nine months ended September 30, 2016 exclude expenses incurred by Netsmart immediately prior to the Netsmart Transaction related to the accelerated pay-out of outstanding equity awards and the payment of seller costs. The effects of transactions between us and Netsmart during the periods presented have been eliminated in the supplemental pro forma data.

3. Fair Value Measurements and Investments

We carry a portion of our financial assets and liabilities at fair value that are measured at a reporting date using an exit price (i.e., the price that would be received to sell an asset or paid to transfer a liability) and disclosed according to the quality of valuation inputs under the following hierarchy:

Level 1: Inputs are unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2: Inputs, other than quoted prices included in Level 1, are observable for the asset or liability, either directly or indirectly. Our Level 2 derivative financial instruments include foreign currency forward contracts valued based upon observable values of spot and forward foreign currency exchange rates. Refer to Note 10, "Derivative Financial Instruments," for further information regarding these derivative financial instruments.

Level 3: Unobservable inputs that are significant to the fair value of the asset or liability, and include situations where there is little, if any, market activity for the asset or liability. Our Level 3 financial instruments include derivative financial instruments comprising the 1.25% Call Option asset and the 1.25% embedded cash conversion option liability that are not actively traded. These derivative instruments were designed with the intent that changes in their fair values would substantially offset, with limited net impact to our earnings. Therefore, we believe the sensitivity of changes in the unobservable inputs to the option pricing model for

Edgar Filing: ALLSCRIPTS HEALTHCARE SOLUTIONS, INC. - Form 10-Q

these instruments is substantially mitigated. Refer to Note 10, "Derivative Financial Instruments," for further information regarding these derivative financial instruments.

The following table summarizes our financial assets and liabilities measured at fair value on a recurring basis as of the respective balance sheet dates:

(In thousands)	Balance Sheet Classifications	September 30, 2016				December 31, 2015			
		Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
1.25% Call Option	Other assets	\$0	\$0	\$40,804	\$40,804	\$0	\$0	\$80,208	\$80,208

Foreign exchange derivative liabilities	Accrued expenses	0	0	0	0	0	0	0	0
Total Investments		\$197,250	\$1,324	\$(797)	\$197,777	\$0	\$424	\$(1,002)	\$(578)

On September 8, 2016, we acquired a majority interest in a third party for \$29 million, net of cash acquired. This acquisition broadens our solution portfolio. The financial results of this third party were consolidated with our financial results starting on the date of the transaction. The preliminary allocations of the estimated fair value of the net assets of the third party to goodwill, intangibles and non-controlling interest were \$45.2 million, \$21.4 million and \$29.4 million, respectively. The goodwill is not deductible for tax purposes.

The following table summarizes our equity investments which are included in other assets in the accompanying consolidated balance sheet:

(In thousands)	Number of Investees	Original Investment	Carrying Value at September 30, 2016	Carrying Value at December 31, 2015
Equity method investments (1):				
Nant Health, LLC (2)	0	\$0	\$0	\$203,117

Other	3	1,658	2,436	2,436
Total equity method investments	3	1,658	2,436	205,553
Cost method investments	5	29,991	26,041	17,876
Total equity investments	8	\$ 31,649	\$28,477	\$223,429

(1) Allscripts share of the earnings of our equity method investees is reported based on a one quarter lag.

(2) As noted below, effective June 2, 2016, Nant Health LLC is no longer accounted for under the equity method.

Effective June 1, 2016, in preparation for an initial public offering (“IPO”) of its equity securities, Nant Health converted from an LLC into a Delaware corporation under the name of NantHealth, Inc. (“NantHealth”). We received 14,285,714 shares of common stock in the new corporation in replacement of our Series G Units of the former Nant Health LLC, representing a 12.6% ownership interest in NantHealth immediately prior to the IPO. On June 2, 2016, NantHealth completed its IPO of 6,500,000 shares and its stock began trading on the NASDAQ under the ticker symbol “NH”. The issuance of the IPO shares initially diluted our ownership interest to 11.8%. Also on June 2, 2016, we purchased an additional 714,286 shares at the IPO price of \$14 per share for an additional investment in NantHealth of \$10 million. This additional share purchase brought our total voting interest in NantHealth to 15,000,000 shares or 12.4% of the voting common stock.

Based on the guidance under FASB ASC Topic 323, Investments – Equity Method and Joint Ventures and given our ownership percentage of 12.4% and lack of significant influence over NantHealth’s operations, we concluded that we should no longer account for our investment in NantHealth as an equity method investment subsequent to June 2, 2016. The carrying amount of our Nant Health, LLC investment immediately after the IPO was \$205.6 million, which became the initial cost of our investment in NantHealth common stock. This amount includes the recognition of our equity in the net earnings of NantHealth and the amortization of cost basis adjustments through June 2, 2016.

In accordance with FASB ASC Topic 320, Investments – Debt and Equity Securities and Topic 820, Fair Value Measurement, we will account prospectively for our investment in NantHealth’s common stock as an available for sale marketable security with unrealized gains and losses due to the changes in the fair value of the investment recorded as part of accumulated other comprehensive income (“AOCI”) in stockholders’ equity. If we determine that a decline in fair value below cost is other than temporary, we will recognize an impairment charge in current period earnings for the difference between cost and fair value. As of September 30, 2016, the fair value of our investment, based on the closing price as quoted on the NASDAQ, was \$197.3 million, resulting in an unrealized loss of \$8.4 million recognized in AOCI.

The decline in the carrying value of our equity method investments from December 31, 2015 to September 30, 2016 was primarily due to NantHealth no longer being accounted for under the equity method as discussed above.

The increase in the carrying value of our cost method investments from December 31, 2015 to September 30, 2016 was due to the acquisition of two additional non-marketable equity securities during the second quarter of 2016, as discussed below. This was offset by the recognition of an impairment charge of \$2.1 million on one investment during the first quarter of 2016.

During first quarter of 2016, we acquired a \$0.5 million non-marketable convertible note of a third party with which we have an existing license and distribution agreement. This investment is accounted as an available-for-sale security with changes in fair value recorded in accumulated other comprehensive loss. The fair value of the convertible note was \$0.5 million as of September 30, 2016 and was included in other assets in the accompanying consolidated balance sheet as of September 30, 2016.

During second quarter of 2016, we acquired certain non-marketable equity securities of two third parties and entered into new commercial agreements with each of those third parties to license and distribute their products and services, for a total consideration of \$10.2 million. Both of these equity investments acquired during the second quarter are accounted for under the cost method. The carrying value of these investments was \$10.2 million as of September 30, 2016 and are included in other assets in the accompanying consolidated balance sheet. As of September 30, 2016, it is not practicable to estimate the fair value of our equity investments primarily because of their illiquidity and restricted marketability. The factors we considered in trying to determine fair value include, but are not limited to, available financial information, the issuer’s ability to meet its current obligations and the issuer’s subsequent or planned raises of capital.

Long-Term Financial Liabilities

Our long-term financial liabilities include amounts outstanding under our senior secured credit facility and Netsmart’s Credit Agreements (as defined in Note 8, Debt), with carrying values that approximate fair value since the interest rates approximate current market rates. In addition, the carrying amount of our 1.25% Cash Convertible Senior Notes (the “1.25% Notes”) approximates fair value as of September 30, 2016, since the effective interest rate on the 1.25% Notes approximates current market rates. See Note 8, “Debt,” for further information regarding our long-term financial liabilities.

4. Stockholders' Equity

Stock-based Compensation Expense

Stock-based compensation expense recognized during the three and nine months ended September 30, 2016 and 2015 is included in our consolidated statements of operations as shown in the below table. Stock-based compensation expense includes both non-cash expense related to grants of stock-based awards as well as cash expense related to the employee discount applied to purchases of our common stock under our employee stock purchase plan. In addition, the table below includes stock-based compensation expense related to Netsmart’s time-based liability classified option

awards. No stock-based compensation costs were capitalized during the three and nine months ended September 30, 2016 and 2015.

	Three Months Ended		Nine Months Ended	
(In thousands)	September 30, 2016	September 30, 2015	September 30, 2016	September 30, 2015
Cost of revenue:				
Software delivery, support and maintenance	\$979	\$972	\$3,209	\$3,247
Client services	884	824	3,512	3,554
Total cost of revenue	1,863	1,796	6,721	6,801
Selling, general and administrative expenses	6,464	5,649	17,972	15,860
Research and development	1,446	1,747	6,141	6,067
Total stock-based compensation expense	\$9,773	\$9,192	\$30,834	\$28,728

Allscripts Stock-based Awards

We measure stock-based compensation expense at the grant date based on the fair value of the award. We recognize the expense for service-based share awards over the requisite service period on a straight-line basis, net of estimated forfeitures. We recognize the expense for performance-based and market-based share awards over the vesting period under the accelerated attribution method, net of estimated forfeitures. In addition, we recognize stock-based compensation cost for awards with performance conditions if and when we conclude that it is probable that the performance conditions will be achieved.

The fair value of service-based restricted stock units and restricted stock awards is measured at the underlying closing share price of our common stock on the date of grant. The fair value of market-based restricted stock units is measured using the Monte Carlo pricing model. No stock options were granted during the three and nine months ended September 30, 2016 and 2015.

We granted stock-based awards as follows:

(In thousands, except per share amounts)	Three Months Ended		Nine Months Ended	
	September 30, 2016		September 30, 2016	
	Shares	Weighted-Average Grant Date Fair Value	Shares	Weighted-Average Grant Date Fair Value
Service-based restricted stock units	24	\$ 13.16	2,019	\$ 13.14
Performance-based restricted stock units with a service condition	0	\$ 0.00	545	\$ 12.39
Market-based restricted stock units with a service condition	0	\$ 0.00	621	\$ 13.68
	24	\$ 13.16	3,185	\$ 13.12

During the nine months ended September 30, 2016 and the year ended December 31, 2015, 1.3 million and 1.4 million shares of stock, respectively, were issued in connection with the exercise of options and the release of restrictions on stock awards.

Net Share-settlements

Beginning in 2011, upon vesting, restricted stock units and awards are generally net share-settled to cover the required withholding tax and the remaining amount is converted into an equivalent number of shares of common stock. The majority of restricted stock units and awards that vested in 2016 and 2015 were net-share settled such that we withheld shares with value equivalent to the employees' minimum statutory obligation for the applicable income and other employment taxes, and remitted the cash to the appropriate taxing authorities. Total payments for the employees' minimum statutory tax obligations to the taxing authorities are reflected as a financing activity within the accompanying consolidated statements of cash flows. The total shares withheld for the nine months ended September 30, 2016 and 2015 were 572 thousand and 433 thousand, respectively, and were based on the value of the restricted stock units and awards on their vesting date as determined by our closing stock price. These net-share settlements had the effect of share repurchases by us as they reduced the number of shares that would have otherwise been issued as a result of the vesting.

Stock Repurchases

In November 2015, our Board of Directors authorized a stock repurchase program under which we may repurchase up to \$150 million of our common stock through December 31, 2018. Any share repurchase transactions may be made through open market transactions, block trades, privately negotiated transactions (including accelerated share repurchase transactions) or other means, subject to market conditions. Any repurchase activity will depend on many factors such as our working capital needs, cash requirements for investments, debt repayment obligations, economic and market conditions at the time, including the price of our common stock, and other factors that we consider relevant. Our stock repurchase program may be accelerated, suspended, delayed or discontinued at any time. During the three and nine months ended September 30, 2016, we repurchased 1.5 million and 5.5 million shares, respectively, of our common stock for \$19.0 million and \$71.0 million, respectively, pursuant to this stock repurchase program. As of September 30, 2016, the amount available for repurchase of common stock under this program was \$79.0 million.

Issuance of Warrants

On June 30, 2016, we issued to a commercial partner, as part of an overall commercial relationship, unregistered warrants to purchase 900,000 shares of Company common stock, par value \$0.01 per share at a price per share of \$12.47, 1,000,000 shares of common stock at a price per share of \$14.34, and 1,100,000 shares of common stock at a price per share of \$15.59, in each case subject to customary anti-dilution adjustments. The warrants vest in four equal annual installments of 750 thousand shares beginning in June 2017 and expire in June 2026. Our issuance of the warrants was a private placement exempt from registration pursuant to Section 4(a)(2) under the Securities Act of 1933, as amended.

Netsmart Long-Term Incentive Plan

Netsmart has established the Nathan Holding LLC 2016 Unit Option Plan (the “Plan”) in order to provide key employees, managers, advisors and consultants of Netsmart and its affiliates with an opportunity to acquire an equity interest in Netsmart. The Plan provides for the maximum issuance of 116,491 thousand options related to Netsmart’s Class B Non-Voting Common Member Units (“Option Units”). The option unit grants may contain varying vesting conditions, including service, performance and market conditions established on a grant by grant basis as determined by the compensation committee of the board of directors and expire no more than 10 years after the date of grant. The Plan includes a call right which enables Netsmart to repurchase any outstanding units in the event of termination of employment. At September 30, 2016, there were 27,986 thousand Class B Non-Voting Common Units available for further issuance under the Plan. As discussed further below, for the period from April 19, 2016, the date of acquisition, through September 30, 2016, Netsmart issued 89,889 thousand Option Units to officers and employees at an exercise price of \$1.00.

Time Based

During the period from April 19, 2016 through September 30, 2016, Netsmart granted 64,198 thousand Option Units to certain of its executives and employees. The Option Units were granted with an exercise price of \$1.00 per Option Unit. During the same period, 989 thousand Time Based Option Units were forfeited. The Option Units vest ratably over a period of four years, with the first twenty-five percent vesting at the first anniversary of the issuance and the remaining vesting in equal monthly increments over the following thirty-six months. The Option Units are liability classified awards requiring the Option Units to be re measured at fair value at each reporting period.

Performance Based

During the period from April 19, 2016 through September 30, 2016, Netsmart granted 25,691 thousand Option Units to certain of its executives and employees to reward the recipients if certain financial objectives are met. The Option Units were granted with an exercise price of \$1.00 per Option Unit, which was equal to the fair value of Netsmart’s Common Units at the date of grant. During the same period, 395 thousand Performance Option Units were forfeited. In addition to a service condition, these Option Units only vest upon attaining certain performance and market conditions. There was no stock compensation expense recorded for these performance related Option Units, since achievement of the performance condition was not considered probable at September 30, 2016.

A summary of the activity under the Plan is as follows:

		Weighted Average
(Units in thousands)	Option Units	Exercise Price
Granted during the period	89,889	\$ 1.00
Options called during the period	0	\$ 0.00
Options exercised during the period	0	\$ 0.00
Forfeited during the period	1,384	\$ 1.00
Outstanding – September 30, 2016	88,505	\$ 1.00
Exercisable – September 30, 2016	0	\$ 0.00

Option Units outstanding at September 30, 2016 are as follows:

(Units in thousands)	Outstanding Units	Average	Weighted	Exercisable Shares	Average	Weighted
-------------------------	----------------------	---------	----------	-----------------------	---------	----------

Exercise price	Black-Scholes		Average		Black-Scholes		Average	
	Value		Remaining		Value		Remaining	
			Life				Life	
\$ 1.00	88,505	\$ 0.45	6.56	0	\$ 0.00	0		

As the current estimated fair value equals the exercise price of the Option Units as of September 30, 2016, there was no intrinsic value related to the outstanding Option Units.

The compensation expense was included in the following categories in Netsmart's statements of operations:

	Three Months Ended	Nine Months Ended
(in thousands)	September 30, 2016	September 30, 2016
Cost of revenue	\$ 64	\$ 126
Research and development	43	79
Sales and marketing	81	174
General and administrative	1,536	2,771
Total	\$ 1,724	\$ 3,150

At September 30, 2016 the liability for outstanding awards was \$3.2 million. As of September 30, 2016, the weighted average fair value of units using the Black Scholes Merton option pricing model was estimated at \$0.45.

The fair value of Option Units granted during the period from April 19, 2016 through September 30, 2016 was estimated using the Black Scholes Merton option pricing model using the following weighted average assumptions:

Average expected term in years	6.56
Risk free rate (weighted average)	1.4 %
Expected dividends	0.0 %
Average volatility	43.8 %

Netsmart determined the estimated share price of \$1.00 at September 30, 2016. The September 30, 2016 value was determined based on the transaction value of a Netsmart Common Unit as of the transaction date.

The expected term of the awards was determined based upon an estimate of the expected term of “plain vanilla” options as prescribed by the simplified method. The risk free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant. Netsmart estimates expected volatility based primarily on historical monthly volatility of comparable companies that are publicly traded.

Netsmart has \$25.4 million of share based compensation expense remaining to be recognized (based on the September 30, 2016 fair value) over future periods as follows: \$1.8 million in 2016, \$7.1 million in 2017, \$7.1 million in 2018, \$7.1 million in 2019, and \$2.3 million in 2020.

5. Earnings (Loss) Per Share

Basic earnings (loss) per share is computed by dividing net income (loss) by the weighted-average shares of common stock outstanding. For purposes of calculating diluted earnings (loss) per share, the denominator includes both the weighted average shares of common stock outstanding and dilutive common stock equivalents. Dilutive common stock equivalents consist of stock options, restricted stock unit awards and warrants calculated under the treasury stock method.

The calculations of earnings (loss) per share are as follows:

(In thousands, except per share amounts)	Three Months Ended		Nine Months Ended	
	September 30, 2016	September 30, 2015	September 30, 2016	September 30, 2015
Basic Loss per Common Share:				
Net income (loss)	\$157	\$(5,133)	\$148	\$(18,433)
Less: Net income attributable to non-controlling interest	\$(151)	\$(111)	\$(142)	\$(120)
Less: Accretion of redemption preference on redeemable convertible non-controlling interest	\$(10,191)	\$0	\$(18,344)	\$0
Net loss attributable to Allscripts Healthcare Solutions, Inc. stockholders	\$(10,185)	\$(5,244)	\$(18,338)	\$(18,553)
Weighted-average common shares outstanding	186,226	188,944	187,190	183,725
Basic Loss per Common Share	\$(0.06)	\$(0.03)	\$(0.10)	\$(0.10)
Diluted Loss per Common Share:				

Edgar Filing: ALLSCRIPTS HEALTHCARE SOLUTIONS, INC. - Form 10-Q

Net income (loss)	\$157	\$(5,133)	\$148	\$(18,433)
Less: Net income attributable to non-controlling interest	\$(151)	\$(111)	\$(142)	\$(120)
Less: Accretion of redemption preference on redeemable				
convertible non-controlling interest	\$(10,191)	\$0	\$(18,344)	\$0
Net loss attributable to Allscripts Healthcare Solutions, Inc.				
stockholders	\$(10,185)	\$(5,244)	\$(18,338)	\$(18,553)
Weighted-average common shares outstanding	186,226	188,944	187,190	183,725
Dilutive effect of stock options, restricted stock unit awards				
and warrants	0	0	0	0
Weighted-average common shares outstanding assuming				
dilution	186,226	188,944	187,190	183,725
Diluted Loss per Common Share	\$(0.06)	\$(0.03)	\$(0.10)	\$(0.10)

16

As a result of the net loss attributable to Allscripts Healthcare Solutions, Inc. stockholders for the three and nine months ended September 30, 2016 and 2015, we used basic weighted-average common shares outstanding in the calculation of diluted loss per share for that period, since the inclusion of any stock equivalents would be anti-dilutive.

The following stock options, restricted stock unit awards and warrants are not included in the computation of diluted earnings (loss) per share as the effect of including such stock options, restricted stock unit awards and warrants in the computation would be anti-dilutive:

(In thousands)	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2016	2015	2016	2015
Shares subject to anti-dilutive stock options, restricted stock unit awards and warrants excluded from calculation	27,580	23,562	26,219	25,359

6. Goodwill and Intangible Assets

Goodwill and intangible assets consist of the following:

(In thousands)	September 30, 2016			December 31, 2015		
	Gross Carrying Amount	Accumulated Amortization	Intangible Assets, Net	Gross Carrying Amount	Accumulated Amortization	Intangible Assets, Net
Intangibles subject to amortization:						
Proprietary technology	\$604,540	\$ (333,904)	\$270,636	\$450,852	\$ (302,284)	\$148,568
Customer contracts and relationships	801,253	(420,114)	381,139	552,395	(405,317)	147,078
Total	\$1,405,793	\$ (754,018)	\$651,775	\$1,003,247	\$ (707,601)	\$295,646
Intangibles not subject to amortization:						
Registered trademarks			\$79,000			\$52,000
Goodwill			1,882,244			1,222,601
Total			\$1,961,244			\$1,274,601

During 2016, we made several changes to our organizational and reporting structure. Refer to Note 13, "Business Segments" for additional information. As a result of these changes, we assessed our revised reporting units and allocated the goodwill previously assigned to our former Touchworks reporting unit to our new Acute and Ambulatory reporting units based on the relative fair value allocation method as applied to the separate Touchworks acute and ambulatory businesses.

During the second quarter of 2016, we completed the Netsmart Transaction and recorded additional goodwill and intangible assets relating to the acquisition of Netsmart, Inc. As noted above, the formation of Netsmart resulted in the merger of our Homecare™ business with Netsmart, Inc.'s behavioral health technology business. Netsmart is deemed to be a separate reportable segment. Prior to the Netsmart Transaction, our Homecare™ business was included as part of the Population Health segment. As a result, we allocated part of the goodwill assigned to our Population Health segment to the Homecare™ business based on the relative fair value allocation method. Refer to Note 2, "Business Combinations," for additional information regarding the Netsmart Transaction.

We performed our annual goodwill impairment test as of October 1, 2015, our annual testing date. We also performed interim goodwill impairment tests as of January 1, 2016 in conjunction with the organizational change within our Clinical and Financial Solutions reportable segment, as of March 31, 2016 in conjunction with the Netsmart Transaction and related carve-out of our HomecareTM business, and as of September 30, 2016 in conjunction with reporting structure changes of our FollowMyHealth[®] and EPSiTM businesses. The January 1, 2016 goodwill impairment test was performed on a before and after basis, which included impairment tests for each of the separate Touchworks acute and ambulatory businesses and for each of the new Acute and Ambulatory reporting units. The fair values of the separate Touchworks acute and ambulatory businesses and of the Acute and Ambulatory reporting units substantially exceeded their carrying values and no indicators of impairment were identified as a result of each of these goodwill impairment tests. The March 31, 2016 goodwill impairment test was performed on a before and after basis, which included impairment tests for the separate HomecareTM business and the Population Health segment excluding HomecareTM. The fair values of the separate HomecareTM business and the Population Health segment excluding HomecareTM substantially exceeded their carrying values and no indicators of impairment were identified as a result of each of these goodwill impairment tests. The September 30, 2016 goodwill impairment test was performed on a before and after basis, which included impairment tests for each of the separate FollowMyHealth[®] and EPSiTM businesses and the Population Health segment excluding FollowMyHealth[®] and EPSiTM. The fair values of the separate businesses substantially exceeded their carrying values and no indicators of impairment were identified as a result of each of these goodwill impairment tests.

Changes in the carrying amounts of goodwill by reportable segment for the nine months ended September 30, 2016 were as follows:

(In thousands)	Clinical and Financial Solutions	Population Health	Netsmart	Total
Balance as of December 31, 2015	\$ 796,367	\$ 426,234	\$ 0	\$ 1,222,601
Additions arising from business acquisitions:				
Netsmart	0	0	615,634	615,634
Other	45,220	0	0	45,220
Total additions to goodwill	45,220	0	615,634	660,854
Reallocation	0	(37,600)	37,600	0
Foreign exchange translation	(1,211)	0	0	(1,211)
Balance as of September 30, 2016	\$ 840,376	\$ 388,634	\$ 653,234	\$ 1,882,244

In connection with our acquisition of Netsmart, during the nine months ended September 30, 2016, we recognized goodwill of \$615.6 million. The goodwill reallocation during the nine months ended September 30, 2016 relates to the allocation of goodwill associated with our Homecare™ business during the second quarter of 2016 as a result of the Netsmart Transaction. Other additions during the nine months ended September 30, 2016 relate to goodwill arising from our acquisition of a majority interest in a third party during the three months ended September 30, 2016. Refer to Note 2, "Business Combinations," for additional information regarding the Netsmart Transaction and Note 3, "Fair Value Measurements and Investments," for additional information regarding the Other acquisition.

There were no accumulated impairment losses associated with our goodwill as of September 30, 2016 or December 31, 2015.

7. Asset Impairment Charges

We incurred the following impairment charges:

(In thousands)	Three Months Ended		September 30, 2016		September 30, 2015	
	2016	2015	2016	2015	2016	2015
Asset impairment charges	\$ 0	\$ 22	\$ 4,650	\$ 341	\$ 0	\$ 0

During the nine months ended September 30, 2016, we incurred non-cash asset impairment charges totaling \$4.7 million, all of which were incurred in the first quarter of 2016. Included in these charges was \$2.2 million for the impairment of capitalized software as a result of our decision to discontinue several software development projects, \$2.1 million for the impairment of one of our cost method equity investments, and other charges of \$0.4 million to write down a long-term asset to its estimated net realizable value. Asset impairment charges for the nine months ended September 30, 2015 were not significant.

8. Debt

Debt outstanding, excluding capital leases, consisted of the following:

(In thousands)	September 30, 2016	December 31, 2015

Edgar Filing: ALLSCRIPTS HEALTHCARE SOLUTIONS, INC. - Form 10-Q

Total interest expense related to the 1.25% Notes	\$4,263	\$4,113	\$12,635	\$12,194

Allscripts Senior Secured Facility

As of September 30, 2016, \$237.5 million under a term loan, \$150.0 million under our revolving credit facility, and \$0.8 million in letters of credit were outstanding under our senior secured credit facility.

As of September 30, 2016, the interest rate on the United States dollars-denominated borrowings under our senior secured credit facility was LIBOR plus 2.00%, which totaled 2.52%. We were in compliance with all covenants under the senior secured credit facility agreement as of September 30, 2016.

As of September 30, 2016, we had \$399.2 million available, net of outstanding letters of credit, under our revolving credit facility. There can be no assurance that we will be able to draw on the full available balance of our revolving credit facility if the financial institutions that have extended such credit commitments become unwilling or unable to fund such borrowings.

As of September 30, 2016, the if-converted value of the 1.25% Notes did not exceed the 1.25% Notes' principal amount.

Netsmart Non-Recourse Debt

On April 19, 2016, Netsmart entered into a First and Second Lien Credit Agreement (the "Netsmart First Lien Credit Agreement" and the "Netsmart Second Lien Credit Agreement", respectively), with a syndicate of financial institutions and UBS AG, Stamford Branch, as administrative agent. The Netsmart First Lien Credit Agreement provides for a \$395 million senior secured 7-year term loan credit facility (the "Netsmart First Lien Term Loan") and a \$50 million senior secured 5-year revolving loan credit facility (the "Netsmart Revolving Facility"). The Netsmart Second Lien Credit Agreement provides for a \$167 million senior secured 7.5-year term loan credit facility (the "Netsmart Second Lien Term Loan," and, together with the Netsmart First Lien Credit Agreement, the "Netsmart Credit Agreements").

Each of Netsmart's obligations under the Netsmart Credit Agreements are guaranteed by Intermediate, each other Borrower, each Subsidiary Guarantor and any other person who becomes a party to the Netsmart Credit Agreements, under an unconditional guaranty. Netsmart's debt under the Netsmart Credit Agreements is non-recourse to Allscripts and its wholly-owned subsidiaries.

The Netsmart Revolving Facility will terminate on April 19, 2021 and the Netsmart First Lien Term Loan matures on April 19, 2023. The Netsmart Second Lien Term Loan matures on October 19, 2023. All unpaid principal of, and interest accrued on, such loans must be repaid on their respective maturity dates. The outstanding principal amount of the Netsmart First Lien Term Loan and the Netsmart Revolving Facility bear interest at a rate equal to (a) with respect to LIBO Rate Loans, Adjusted LIBO Rate plus 4.75% and (b) with respect to ABR Loans, 3.75% (provided, however, that in respect of the Netsmart Revolving Loans, such rate may step-down to 4.25% and 3.25%, respectively, depending on the then-applicable leverage ratio). The outstanding principal amount of the Netsmart Second Lien Term Loan bears interest at a rate equal to (a) with respect to LIBO Rate Loans, Adjusted LIBO Rate plus 9.50% and (b) with respect to ABR Loans, 8.50%. The proceeds from the funding of the Netsmart Credit Agreements were used to, inter alia, finance a portion of the Netsmart Purchase Price and to pay fees and expenses in connection therewith.

The Netsmart Credit Agreements contain a financial covenant that Intermediate and its subsidiaries maintain a maximum ratio of total debt to Consolidated Adjusted EBITDA. The entire principal amount of the Netsmart Credit Agreements and any accrued but unpaid interest may be declared immediately due and payable if an event of default occurs. Events of default under the Netsmart

Credit Agreements include (but are not limited to) failure to make payments when due, a default in the performance of any covenants in the Netsmart Credit Agreements or related documents or certain changes of control of Intermediate and/or of Netsmart.

The Netsmart First Lien Credit Agreement requires Netsmart to maintain a total net leverage ratio of not more than 8.75 to 1.00 commencing with the September 30, 2016 period, with gradual step downs to 6.75 to 1.00 for the period ending March 31, 2019 and each period ending thereafter. The Netsmart Second Lien Credit Agreement requires Netsmart to maintain a certain total leverage ratio of not more than 9.75 to 1.00 commencing with the September 30, 2016 period, with gradual step downs to 7.75 to 1.00 for the period ending March 31, 2019 and each period ending thereafter.

In connection with the Netsmart Credit Agreements, during the second quarter of 2016, Netsmart incurred fees and other costs totaling \$27.9 million, which were capitalized and included in the net borrowings outstanding under Netsmart's Credit Agreements as of September 30, 2016.

As of September 30, 2016, \$394.0 million under the Netsmart First Lien Term Loan, \$167.0 million under the Netsmart Second Lien Term Loan and \$1.5 million in letters of credit under the Netsmart Revolving Facility were outstanding.

As of September 30, 2016, the interest rate on the borrowings under the Netsmart First Lien Term Loan and the Netsmart Revolving Facility was Adjusted LIBO plus 4.75%, which totaled 5.75%. As of September 30, 2016, the interest rate on the borrowings under the Netsmart Second Lien Term Loan was Adjusted LIBO plus 9.5%, which totaled 10.5%. Netsmart was in compliance with all covenants under its Credit Agreements as of September 30, 2016.

As of September 30, 2016, Netsmart had \$48.5 million available, net of outstanding letters of credit, under the Netsmart Revolving Facility. There can be no assurance that Netsmart will be able to draw on the full available balance of the Netsmart Revolving Facility if the financial institutions that have extended such credit commitments become unwilling or unable to fund such borrowings.

The following table summarizes our future payment obligations under our debt as of September 30, 2016:

(In thousands)	Total	Remainder of 2016	2017	2018	2019	2020	Thereafter
1.25% Cash Convertible Senior Notes (1)	\$345,000	\$0	\$0	\$0	\$0	\$345,000	\$0
Term Loan	237,500	3,125	15,625	28,125	40,625	150,000	0
Revolving Facility	150,000	0	0	0	0	150,000	0
Netsmart Non-Recourse Debt:							
First Lien Term Loan	394,013	988	3,952	3,952	3,952	3,952	377,217
Second Lien Term Loan	167,000	0	0	0	0	0	167,000
Other debt	37	37	0	0	0	0	0
Total debt	\$1,293,550	\$4,150	\$19,577	\$32,077	\$44,577	\$648,952	\$544,217

(1) Assumes no cash conversions of the 1.25% Notes prior to their maturity on July 1, 2020.

9. Income Taxes

We account for income taxes under FASB Accounting Standards Codification 740, Income Taxes ("ASC 740"). We calculate the quarterly tax provision consistent with the guidance provided by ASC 740-270, whereby we forecast the estimated annual effective tax rate and then apply that rate to the year-to-date pre-tax book (loss) income. The effective tax rate may be subject to fluctuations during the year as new information is obtained, which may affect the

assumptions used to estimate the annual effective rate, including factors such as the valuation allowances against deferred tax assets, the recognition or de-recognition of tax benefits related to uncertain tax positions, or changes in or the interpretation of tax laws in jurisdictions where the Company conducts business. There is no tax benefit recognized on certain of the net operating losses incurred due to insufficient evidence supporting the Company's ability to use these losses in the future. The effective tax rates were as follows:

	Three Months Ended		Nine Months Ended	
	September 30, 2016	September 30, 2015	September 30, 2016	September 30, 2015
(In thousands)				
Loss before income taxes	\$ (2,499)	\$ (1,441)	\$ (2,448)	\$ (14,250)
Income tax benefit (provision)	\$ 2,656	\$ (3,692)	\$ 2,596	\$ (4,183)
Effective tax rate	106.3 %	(256.2%)	106.0 %	(29.4 %)

Our provision for income taxes differs from the tax computed at the U.S. federal statutory income tax rate due primarily to valuation allowance, permanent differences, income attributable to foreign jurisdictions taxed at lower rates, state taxes, tax credits and certain discrete items. Our effective tax rate for the three and nine months ended September 30, 2016, compared with the prior year comparable periods, differs primarily due to release of valuation allowance of \$1.4 million in the three and nine months ended September 30, 2016, compared to valuation allowance of \$5.9 million recorded in the three and nine months ended September 30, 2015. Additionally, no estimate of the research and development credit was included in the effective tax rate for the three and nine months ended September 30, 2015 as the credit had not been reinstated for 2015 until December 18, 2015. Lastly, the effective tax rate for the three and nine months ended September 30, 2016, was impacted by the consolidation of Netsmart's financial results starting on April 19, 2016.

In evaluating our ability to recover our deferred tax assets within the jurisdictions from which they arise, we consider all available evidence, including scheduled reversals of deferred tax liabilities, tax-planning strategies, and results of recent operations. In evaluating the objective evidence that historical results provide, we consider three years of cumulative operating income (loss).

Our unrecognized income tax benefits were \$11.5 million and \$11.8 million as of September 30, 2016 and December 31, 2015, respectively. If any portion of our unrecognized tax benefits is recognized, it could impact our effective tax rate. The tax reserves are reviewed periodically and adjusted in light of changing facts and circumstances, such as progress of tax audits, lapse of applicable statutes of limitations, and changes in tax law.

10. Derivative Financial Instruments

The following tables provide information about the fair values of our derivative financial instruments as of the respective balance sheet dates:

(In thousands)	September 30, 2016		Liability Derivatives	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
Derivatives qualifying as cash flow hedges:				
	Prepaid expenses and

Total derivatives		\$ 80,632	\$ 81,210

N/A – We define “N/A” as disclosure not being applicable

Foreign Exchange Contracts

Starting in 2015, we entered into non-deliverable forward foreign currency exchange contracts with reputable banking counterparties in order to hedge a portion of our forecasted future Indian Rupee-denominated (“INR”) expenses against foreign currency fluctuations between the United States dollar and the INR. These forward contracts cover a decreasing percentage of forecasted monthly INR expenses over time. As of September 30, 2016, there were 21 forward contracts outstanding that were staggered to mature monthly starting in October 2016 and ending in December 2017. In the future, we may enter into additional forward contracts to increase the amount of hedged monthly INR expenses or initiate hedges for monthly periods beyond December 2017. As of September 30, 2016, the notional amounts of outstanding forward contracts ranged from 20 million to 120 million INR, or the equivalent of \$0.3 million to \$1.8 million, based on the exchange rate between the United States dollar and the INR in effect as of September 30, 2016. These amounts also approximate the ranges of forecasted future INR expenses we target to hedge in any one month in the future.

The critical terms of the forward contracts and the related hedged forecasted future expenses matched and allowed us to designate the forward contracts as highly effective cash flow hedges. The effective portion of the change in fair value is initially recorded in accumulated other comprehensive loss (“AOCI”) and subsequently reclassified to income in the period in which the cash flows from the associated hedged transactions affect income. Any ineffective portion of the change in fair value of the cash flow hedges is recognized in current period income. During the three and nine months ended September 30, 2016, no amount was excluded from the effectiveness assessment and no gains or losses were reclassified from AOCI into income as a result of forecasted transactions that failed to occur. As of September 30, 2016, we estimate that \$1.1 million of net unrealized derivative gains included in AOCI will be reclassified into income within the next twelve months.

The following tables show the impact of derivative instruments designated as cash flow hedges on the consolidated statements of operations and the consolidated statements of comprehensive loss:

(In thousands)	Amount of Gain (Loss) Recognized		Location of Gain (Loss) Reclassified from AOCI into Income (Effective Portion)	Amount of Gain (Loss) Reclassified from AOCI into Income (Effective Portion)

1.25% Call Option

In June 2013, concurrent with the issuance of the 1.25% Notes, we entered into privately negotiated hedge transactions with certain of the initial purchasers of the 1.25% Notes (collectively, the “1.25% Call Option”). Assuming full performance by the counterparties, the 1.25% Call Option is intended to offset cash payments in excess of the principal amount due upon any conversion of the 1.25% Notes.

The 1.25% Call Option, which is indexed to our common stock, is a derivative asset that requires mark-to-market accounting treatment due to the cash settlement features until the 1.25% Call Option settles or expires. The 1.25% Call Option is measured and reported at fair value on a recurring basis, within Level 3 of the fair value hierarchy. For further discussion of the inputs used to determine the fair value of the 1.25% Call Option, refer to Note 3, “Fair Value Measurements and Investments.”

The 1.25% Call Option does not qualify for hedge accounting treatment. Therefore, the change in fair value of these instruments is recognized immediately in our consolidated statements of operations in other income, net. Because the terms of the 1.25% Call Option are substantially similar to those of the 1.25% Notes embedded cash conversion option, discussed below, we expect the net effect of those two derivative instruments on our earnings to be minimal.

1.25% Notes Embedded Cash Conversion Option

The embedded cash conversion option within the 1.25% Notes is required to be separated from the 1.25% Notes and accounted for separately as a derivative liability, with changes in fair value reported in our consolidated statements of operations in other income, net until the cash conversion option settles or expires. The initial fair value liability of the embedded cash conversion option was \$82.8 million, which simultaneously reduced the carrying value of the 1.25% Notes (effectively an original issuance discount). The embedded cash conversion option is measured and reported at fair value on a recurring basis, within Level 3 of the fair value

hierarchy. For further discussion of the inputs used to determine the fair value of the embedded cash conversion option, refer to Note 3, "Fair Value Measurements and Investments."

The following table shows the net impact of the changes in fair values of the 1.25% Call Option and the 1.25% Notes' embedded cash conversion option in the consolidated statements of operations:

	Three Months Ended		Nine Months Ended	
(In thousands)	September 30, 2016	September 30, 2015	September 30, 2016	September 30, 2015

12. Contingencies

In addition to commitments and obligations in the ordinary course of business, we are currently subject to various legal proceedings and claims that have not been fully adjudicated, certain of which are discussed below. We intend to vigorously defend ourselves in these matters.

No less than quarterly, we review the status of each significant matter and assess our potential financial exposure. We accrue a liability for an estimated loss if the potential loss from any legal proceeding or claim is considered probable

and the amount can be reasonably estimated. Significant judgment is required in both the determination of probability and the determination as to whether the amount of an exposure is reasonably estimable, and accruals are based only on the information available to our management at the time the judgment is made.

The outcome of legal proceedings is inherently uncertain, and we may incur substantial defense costs and expenses defending any of these matters. If one or more of these legal proceedings were resolved against us in a reporting period for amounts in excess of our management's expectations, our consolidated financial statements for that reporting period could be materially adversely affected. Additionally, the resolution of a legal proceeding against us could prevent us from offering our products and services to current or prospective clients, which could further adversely affect our operating results.

In the opinion of our management, based on the information currently available, there was not at least a reasonable possibility that we may have incurred any material loss, or any material loss in excess of a recorded accrual, with respect to the following matters. Our management will continue to evaluate the potential exposure related to these matters in future periods.

On September 14, 2010, Pegasus Imaging Corporation filed a complaint against us in the Circuit Court of the Thirteenth Judicial Circuit of the State of Florida in and for Hillsborough County, Florida, which we transferred to the Special Superior Court for Complex Business Cases. The lawsuit also named former officers Jeffrey Amrein and John Reinhart as defendants. The amended complaint added two defunct Florida corporations that did business with us, and asserted causes of action against defendants for fraudulent misrepresentations, negligent misrepresentations and deceptive and unfair trade practices under Florida law, allegedly arising from previous business dealings between the plaintiff and Advanced Imaging Concepts, Inc., a software company that we acquired in August 2003, and from our testing of a software development toolkit pursuant to a free trial license from the plaintiff in approximately 1999. On April 16, 2013, the plaintiff filed a Second Amended Complaint adding claims against us for breach of contract, fraud and negligence. On June 27, 2013, we filed our First Amended Answer, Defenses, and Counterclaims to the plaintiff's Second Amended Complaint, denying all material allegations, and asserting counterclaims against the plaintiff for breach of two license agreements, breach of warranty, breach of a settlement and arbitration agreement and three counts of negligent misrepresentation. On July 7, 2014, the Court granted our motion for summary judgment on the plaintiff's claim of unfair trade practices under Florida law and our motion for summary judgment as to the aforementioned defunct corporations, and granted the plaintiff's motion for summary judgment on our counterclaims. Trial has been scheduled for February 2017, and we will participate in court-ordered mediation prior to trial.

On May 1, 2012, Physicians Healthsource, Inc. filed a class action complaint in the U.S. District Court for the Northern District of Illinois against us. The complaint alleges that, on multiple occasions between July 2008 and December 2011, we or our agent sent advertisements by fax to the plaintiff and a class of similarly situated persons, without first receiving the recipients' express permission or invitation in violation of the Telephone Consumer Protection Act, 47 U.S.C. § 227 (the "TCPA"). The plaintiff seeks \$500 for each alleged violation of the TCPA, treble damages if the Court finds the violations to be willful, knowing or intentional; and injunctive and other relief. Allscripts answered the complaint denying all material allegations and asserting a number of affirmative defenses, as well as counterclaims for breach of a license agreement. After plaintiff's motion to compel arbitration of the counterclaims was granted, Allscripts made a demand in arbitration where the counterclaims remain pending. Discovery in the proposed class action has now concluded. On March 31, 2016, plaintiff filed its motion for class certification. On May 31, 2016, we filed our opposition to plaintiff's motion for class certification, and simultaneously moved for summary judgment on all of plaintiff's claims. Plaintiff submitted its reply memorandum in support of its motion for class certification and its opposition to our motion for summary judgment on July 14, 2016 and July 21, 2016, respectively. Briefing on plaintiff's class certification motion, accordingly, is complete and currently pending before the Court. No trial date has been scheduled.

13. Business Segments

We primarily derive our revenues from sales of our proprietary software (either as a direct license sale or under a subscription delivery model), which also serves as the basis for our recurring service contracts for software support and maintenance and certain transaction-related services. In addition, we provide various other client services, including installation, and managed services such as outsourcing, private cloud hosting and revenue cycle management.

During 2016, in an effort to further streamline and align our operating structure around our key ambulatory, acute and population health management solutions, we made several changes to our organizational and reporting structure. These changes included (i) the separation of the former Touchworks strategic business unit and its dedicated

leadership team into acute and ambulatory businesses, and (ii) the transfer of several ancillary analytics-type products between our existing Clinical and Financial Solutions and Population Health reportable segments, both effective as of January 1, 2016, and (iii) the establishment of the FollowMyHealth® and EPSi™ business units effective September 30, 2016.

In conjunction with these changes, we formed new Ambulatory and Acute strategic business units, which are deemed to be operating segments within the Clinical and Financial Solutions reportable segment. The ancillary products are extensions of our key ambulatory and acute solutions and in the future will be managed within the new Ambulatory and Acute strategic business units. Our FollowMyHealth® and EPSi™ businesses, which were previously managed as part of our Population Health reportable and operating segment, became standalone business units and operating segments. Based on the qualitative and quantitative criteria under ASC Topic 280, Segment Reporting, we concluded that the FollowMyHealth® and EPSi™ operating segments should continue to be included as part of the Population Health reportable segment. The prior period segment disclosures below were revised to conform to the current year presentation of the ancillary analytics-type products that were transferred between our existing Clinical and Financial Solutions and Population Health reportable segments.

Effective on April 19, 2016, we completed the Netsmart Transaction which resulted in the formation of Netsmart through the merger of our Homecare™ business with Netsmart, Inc.'s behavioral health technology business. Netsmart is deemed to be a separate operating and reportable segment and, therefore, is presented separately in the table below. Prior to the Netsmart Transaction, our Homecare™ business was included as part of the Population Health reportable segment. As a result, the Population Health reportable segment disclosures below for periods prior to the Netsmart Transaction were revised to exclude, and the "Unallocated Amounts" were revised to include, the results of our Homecare™ business, based on the quantitative thresholds under ASC Topic 280, Segment Reporting.

After the finalization of the above changes to our organizational and reporting structure, as of September 30, 2016, we had seven operating segments, which are aggregated into three reportable segments. The Clinical and Financial Solutions reportable segment includes the new Ambulatory and Acute, and the Payer and Life Sciences strategic business units, each of which represents a separate operating segment. This reportable segment derives its revenue from the sale of integrated clinical software applications and financial and information solutions, which primarily include Electronic Health Record-related software, financial and practice management software, related installation, support and maintenance, outsourcing, private cloud hosting, revenue cycle management, training and electronic claims administration services. The Population Health reportable segment is comprised of three separate operating segments which include Population Health, FollowMyHealth® and EPSi™. This reportable segment derives its revenue from the sale of health management and coordinated care solutions, which are mainly targeted at hospitals, health systems, other care facilities and Accountable Care Organizations ("ACOs"). These solutions enable clients to connect, transition, analyze, and coordinate care across the entire care community. The Netsmart reportable segment is comprised of the Netsmart strategic business unit, which represents a separate operating segment. Netsmart operates in the behavioral healthcare information technology field throughout the United States and provides software and technology solutions to the health and human services industry, which comprises behavioral health, addiction treatment, intellectual and developmental disability services, and child and family services.

Our Chief Operating Decision Maker ("CODM") uses segment revenues, gross profit and income from operations as measures of performance and to make decisions on allocation of resources. With the exception of the Netsmart segment, in determining these performance measures, we do not include in revenue the amortization of acquisition-related deferred revenue adjustments, which reflect the fair value adjustments to deferred revenues acquired in a business acquisition. With the exception of the Netsmart segment, we also exclude the amortization of intangible assets, stock-based compensation expense, non-recurring expenses and transaction-related costs, and non-cash asset impairment charges from the operating segment data provided to our CODM. Non-recurring expenses relate to certain severance, product consolidation, legal, consulting and other charges incurred in connection with activities that are considered one-time. Accordingly, these amounts are not included in our reportable segment results and are included in an "Unallocated Amounts" category within our segment disclosure. The "Unallocated Amounts" category also includes corporate general and administrative expenses (including marketing expenses), which are centrally managed, as well as revenue and the associated cost from the resale of certain ancillary products, primarily hardware, other than the respective amounts associated with the Netsmart segment. The historical results of our Homecare™ business prior to the Netsmart Transaction are also included in the "Unallocated Amounts" category. The Netsmart segment, as presented, includes all revenue and expenses incurred by Netsmart since it operates as a stand-alone business entity and its resources allocation and performance are reviewed and measured at such all-inclusive level. The eliminations of intercompany transactions between Allscripts and Netsmart are included in the "Unallocated Amounts" category. We do not track our assets by segment.

14. Subsequent Events

On October 14, 2016, we acquired a 100% interest in a third party. The acquisition will broaden our Population Health solution portfolio. This transaction was not material to our consolidated financial position as of September 30, 2016. The financial results of this third party will be consolidated with our financial results starting on the date of the transaction. As of the date of this Form 10-Q, the preliminary allocation of the fair value of the consideration transferred is not yet been completed.

On October 27, 2016, Netsmart announced the acquisition of a company that develops electronic medical record solutions for long-term and post-acute care. The financial results of this company will be consolidated with our financial results starting on the date of the transaction. As of the date of this Form 10-Q, the preliminary allocation of the fair value of the consideration transferred is not yet been completed.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This "Management's Discussion and Analysis of Financial Condition and Results of Operations" section and other sections of this Quarterly Report on Form 10-Q ("Form 10-Q") contain forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, that involve risks and uncertainties. Forward-looking statements provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to any historical fact or pattern. Forward-looking statements can also be identified by the use of words such as "future," "anticipates," "believes," "estimates," "expects," "intends," "plans," "predicts," "will," "would," "could," and similar terms. Forward-looking statements are not guarantees of future performance. Actual results could differ significantly from those set forth in the forward-looking statements, and reported results should not be considered an indication of future performance. Certain factors that could cause our actual results to differ materially from those described in the forward-looking statements include, but are not limited to, those discussed in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2015 (our "Form 10-K") under the heading "Risk Factors" and elsewhere and those discussed in Part II, Item 1A of our subsequent Quarterly Reports on Form 10-Q under the heading "Risk Factors" and elsewhere, all of which are incorporated herein by reference. The following discussion should be read in conjunction with the unaudited consolidated financial statements and notes thereto included in Part I, Item 1, "Financial Statements (unaudited)" in this Form 10-Q, as well as our Form 10-K filed with the Securities and Exchange Commission. We assume no obligation to revise or update any forward-looking statements for any reason, except as required by law.

Each of the terms "we," "us," "our" or "Allscripts" as used herein refers collectively to Allscripts Healthcare Solutions, Inc. and its wholly-owned subsidiaries, unless otherwise stated.

Overview

Our Business Overview and Regulatory Environment

We deliver information technology ("IT") and services to help healthcare organizations achieve better clinical, financial and operational results. We sell our solutions to physicians, hospitals, governments, health systems, health plans, life-sciences companies, retail clinics, retail pharmacies, pharmacy benefit managers, insurance companies, employer wellness clinics, and post-acute organizations, such as home health and hospice agencies. We help our clients improve the quality and efficiency of health care with solutions that include electronic health records ("EHRs"), connectivity, private cloud hosting, outsourcing, analytics, patient engagement, clinical decision support and population health management. We are also partnering with NantHealth (as described below), to further develop integrated, evidence-based, personalized approaches to treatment plans, specifically for clinicians providing cancer care. During the second quarter of 2016, we partnered with Netsmart Technologies, Inc. to expand our presence in the health and human services sector. In April 2016, we announced the completion of the previously announced transaction that merged our Homecare™ business with Netsmart Technologies, Inc.'s well-established behavioral health technology business. As a result, the new joint business entity ("Netsmart") became one of the largest human services and post-acute technology providers in healthcare.

Our solutions empower healthcare professionals with the data, insights and connectivity to other caregivers they need to succeed in an industry that is rapidly changing from fee-for-service models to fee-for-value advanced payment models. We believe we offer some of the most comprehensive solutions in our industry today. Healthcare organizations can effectively manage patients and patient populations across all care settings using a combination of our physician, hospital, health system, post-acute care and population health management products and services. We believe these solutions will help transform health care as the industry seeks new ways to manage risk, improve quality and reduce costs.

Globally, healthcare providers face an aging population and the challenge of caring for an increasing number of patients with chronic diseases. At the same time, practitioners worldwide are also under increasing pressure to demonstrate the delivery of high quality care at lower costs. Population health management, analytics and patient

engagement are strategic imperatives that can help address these challenges. In the United States, for example, such initiatives will be critical tools for success under the framework of the new Quality Payment Program, launched by CMS in response to the passage of the Medicare Access and CHIP Reauthorization Act (“MACRA”). As healthcare providers and payers migrate from volume-based to value-based care delivery, interoperable solutions that are connected to the consumer marketplace are the key to market leadership in the new healthcare reality.

In recent years, we took several significant steps to solidify and advance our population health management solutions through both acquisition and internal development efforts. We acquired dbMotion, a leading supplier of community health solutions, and Jardogs, the developer of FollowMyHealth®, a cloud-based patient engagement solutions provider. We further advanced our population health management capabilities by introducing innovative additional features, functionality and enhancements to our solutions in the areas of connectivity, collaboration and data analytics. Taken together, we believe our solutions are delivering value to our clients by providing them with powerful connectivity, patient engagement and care coordination tools, enabling United States users to better comply with the evolving EHR Incentive Program (a.k.a. Meaningful Use) (as described below) and successfully participate in other advanced payment model programs. Population health management is commonly viewed as one of the critical next frontiers in healthcare delivery, and we expect this rapidly emerging area to be a key driver of our future growth, both domestically and globally.

Recent advances in molecular science and computer technology are creating opportunities for the delivery of personalized medicine solutions. We believe these solutions will transform the coordination and delivery of health care, ultimately improving patient outcomes. In that regard, in June 2015, we announced the expansion of our strategic partnership with NantHealth and the strengthening of our commercial agreement. NantHealth is a cloud-based information technology company providing comprehensive genomic and protein-based molecular diagnostics testing. Sophisticated care planning tools combine complex genomic and proteomic analysis with actionable health information, enabling clinicians to make informed decisions and select personalized cancer treatment plans for their patients. Through our collaboration with NantHealth, we plan to develop and deliver cutting-edge, precision medicine solutions directly to the point of care for our EHR clients.

Specific to the United States, the healthcare IT industry in which we operate is in the midst of a period of rapid evolution, primarily due to new laws and regulations, as well as changes in industry standards. Various incentives that exist today (including electronic prescribing and alternative payment models that reward high value care delivery) are rapidly moving health care toward a time where EHRs are as common as practice management systems in all provider offices. As a result, we believe that legislation, such as the Health Information Technology for Economic and Clinical Health Act of 2009 (“HITECH”) and the aforementioned MACRA, as well as other government-driven initiatives, will continue to markedly affect healthcare IT adoption and expansion, including products and solutions like ours. We also believe that we are well-positioned in the market to take advantage of the ongoing opportunity presented by these changes.

Given that we expect CMS will release further future regulations related to EHRs, even as we comply with the previously published Final Rules associated with the Quality Payment Program (“QPP”), as well as Stage 3 of the Meaningful Use program for those organizations not eligible for the QPP, our industry is preparing for additional areas in which we must execute compliance. Similarly, our ability to achieve applicable product certifications, any changing frequency of the Office of the National Coordinator for Health Information Technology (“ONC”) certification program, and the length, if any, of additional related development and other efforts required to meet regulatory standards could materially impact our capacity to maximize the market opportunity. All of our market-facing EHR solutions were certified as 2014-compliant by an ONC-Authorized Certification Body, in accordance with the applicable provider or hospital certification criteria adopted by the United States Secretary of Health and Human Services, as well as the Allscripts EDTM, dbMotion and FollowMyHealth® products under the modular certification option, and they are currently undergoing the certification process for the 2015 requirements.

Conversations around the Medicare Sustainable Growth Rate reimbursement model concluded in the United States Congress in 2015 when the MACRA was passed, which further encouraged the adoption of health IT necessary to satisfy new requirements more closely associating the report of quality measurements to Medicare payments. With the finalization of the rule for the QPP in 2017, providers accepting payment from Medicare will have an opportunity to select one of two payment models: the Merit-based Incentive Payment System (“MIPS”) or an Advanced Alternative Payment Model (“APM”), as allowed by the regulation. These programs will require increased reporting on quality measures, which will be determined by the Secretary of Health and Human Services; additionally, the MIPS will consolidate several preexisting incentive programs, including Meaningful Use and Physician Quality Reporting System (“PQRS”), under one umbrella. The implementation of this new law could drive additional interest in our products among providers who were not eligible for or chose not to participate in the HITECH incentive program but now see sufficient reason to adopt EHRs and other health information technologies or by those needing to purchase more robust systems to help them be successful under the more complex MACRA requirements. Regulations released in the fourth quarter of 2016 in response to the MACRA law also addressed, at least in part, current ambiguities among physician populations and healthcare organizations, enabling them to make strategic decisions about the purchase of analytic software or other solutions important to comply with the new law and associated regulations. Such regulations are expected to be released on an annual basis.

We believe that HITECH resulted in additional related new orders for our EHR products. Large physician groups will continue to purchase and enhance their use of EHR technology; however, the number of very large practices with over

100 physicians that have not yet acquired such technology is quickly decreasing. Such practices may choose to replace older EHR technology in the future as regulatory requirements (such as those related to QPP-related programs for Alternative APMs) and business realities dictate the need for updates and upgrades, as well as additional features and functionality. Additionally, we believe that a number of companies who certified their EHR products for Stage 1 or Stage 2 of Meaningful Use will demonstrate that they will not be able to comply with the requirements for the 2015 Edition, which continues to present additional opportunities in the replacement market, particularly in the smaller physician space. As the incentive payments have begun to wind down, the payment adjustment phase of the program, which penalizes organizations not participating in the EHR Incentive program, is providing a different motivation for purchase and expansion, particularly among hospitals, which did not receive any relief from the payment adjustments under MACRA.

29

We also continue to see activity in local community-based buying whereby individual hospitals, health systems and integrated delivery networks are subsidizing the purchase of EHR licenses or related services for local, affiliated physicians and across their employed physician base as part of an offer to leverage buying power and help those practices take advantage of the HITECH incentives and other payment reform opportunities. This activity has also resulted in a pull-through effect where smaller practices affiliated with a community hospital are motivated to participate in the incentive program, while the subsidizing health system expands connectivity within the local provider community. We believe that the 2013 extension of the Stark and Anti-kickback exceptions, which allowed hospitals and other organizations to subsidize the purchase of EHRs, will contribute to the continuation of this market dynamic. We also believe that new orders driven by the MACRA legislation and related to EHR and community-based activity will continue to come in as physicians in those small- and medium-sized practices who have not yet participated seek to avoid payment adjustments stemming from the QPP. The associated challenge we face is to successfully position, sell, implement and support our products to the hospital, health system or integrated delivery network that is subsidizing its affiliated physicians. We believe the community programs we have in place will aid us in penetrating this market.

We believe we have taken and continue to take the proper steps to maximize the opportunity presented by HITECH and the QPP. However, given the effects the laws are having on our clients, there can be no assurance that they will result in significant new orders for us in the near term, and if they do, that we will have the capacity to meet the additional market demand in a timely fashion.

Additionally, other public laws to reform the United States healthcare system contain various provisions which may impact us and our clients. Some of these provisions may have a positive impact by requiring the expanded use of EHRs, quality measurement and analytics tools to participate in certain government programs, while others, such as those mandating reductions in reimbursement for certain types of providers or increasing regulatory oversight of our products or our business practices, may have a negative impact by reducing the resources available to purchase our products. Increases in fraud and abuse enforcement and payment adjustments for non-participation in certain programs may also adversely affect participants in the healthcare sector, including us. Generally, Congressional oversight of EHRs and health information technology has increased in recent years, including a specific focus on perceived interoperability failures in the industry, including any contributive factors to such failures, which could impact our clients and our business.

Starting October 1, 2015, all entities covered by HIPAA were required to have upgraded to the tenth revision of the International Statistical Classification of Diseases and Related Health Problems promulgated by the World Health Organization, also known as ICD-10, for use in reporting medical diagnoses and inpatient procedures. These changes in coding standards presented a significant opportunity for our clients in the United States to get to the most advanced versions of our products, but also posed a challenge due to the scale of the challenge for the industry, particularly among smaller independent physician practices. This initiative was largely reported as successful by all stakeholders, but there still remains a risk to us in the event that clients experience problems with payments from Medicare, Medicaid or commercial payers related to the transition in the coming months. New payment and delivery system reform programs, as have been launched related to the Medicare program, are also increasingly being rolled out at the state level through Medicaid administrators, as well as through the private sector, presenting additional opportunity for us to provide software and services to our clients who participate.

We primarily derive our revenues from sales of our proprietary software (either as a perpetual license sale or under a subscription delivery model), support and maintenance services, and managed services, such as outsourcing, private cloud hosting and revenue cycle management.

During 2016, in an effort to further streamline and align our operating structure around our key ambulatory, acute and population health management solutions, we made several changes to our organizational and reporting structure. These changes included (i) the separation of the former Touchworks strategic business unit and its dedicated leadership team into acute and ambulatory businesses, (ii) the transfer of several ancillary analytics-type products

between our existing Clinical and Financial Solutions and Population Health reportable segments, and (iii) the establishment of the FollowMyHealth® and EPSi™ business units effective September 30, 2016. Furthermore, the establishment of Netsmart on April 19, 2016 resulted in the formation of a new separate operating and reportable segment.

Critical Accounting Policies and Estimates

There were no material changes to our critical accounting policies and estimates from those previously disclosed in our Form 10-K.

Third Quarter 2016 Summary

During the third quarter of 2016, we remained focused on our key strategic, financial and operational imperatives aimed at driving higher client satisfaction, improving our competitive position by expanding the depth and breadth of our products and, ultimately, positioning Allscripts for sustainable long-term growth both domestically and globally. In that regard, we had success across the four key areas that we expect will drive our future growth: EHR replacement market, population health management, international markets and provision of high value-added, strategic services to our clients. During the third quarter of 2016, as the healthcare industry continues to transition to a value-based care model, we continued to expand our client base for our Sunrise integrated platform and our CareInMotion platform, which enable such transition for our clients. We also continued to look for opportunities to streamline our operations and made some organizational changes related to our population health product portfolio. The benefits of improving operating leverage are visible in our cash flows from operations which increased by \$57 million to \$185 million during the nine months ended September 30, 2016 compared with \$128 million during the nine months ended September 30, 2015. We used a portion of our operating cash flows to repurchase \$19 million and \$71 million of our common stock during the three and nine months ended September 30, 2016, respectively. We also invested in a majority interest in a third party which broadens our solution portfolio.

Our bookings, which reflect the value of executed contracts for software, hardware, other client services, private cloud hosting, outsourcing and subscription-based services, totaled \$291 million for the third quarter of 2016, compared with \$362 million for the second quarter of 2016 and \$272 million for the third quarter of 2015. Excluding Netsmart, bookings totaled \$270 million for the third quarter of 2016, or a 1% decline compared with the third quarter of 2015. The decrease in consolidated bookings on a sequential quarter basis was in part driven by bookings related to a large new multi-year relationship with a commercial partner that was executed during the second quarter of 2016. During the third quarter of 2016, higher bookings from sales of our Sunrise suite and population health management portfolio “CareInMotion” as well as growth in private cloud hosting and revenue cycle management services bookings were offset by lower managed services bookings, specifically outsourcing services, compared with the third quarter of 2015, which included several large outsourcing deals. Software delivery bookings grew 25% while services-related bookings decreased 7% during the third quarter of 2016 compared with the third quarter of 2015. Bookings mix between software and services can fluctuate quarter-to-quarter based on the timing of the execution of multi-year contracts and the combination of types of solutions sold.

Overview of Consolidated Results

Three and Nine Months Ended September 30, 2016 Compared with the Three and Nine Months Ended September 30, 2015

Three and Nine Months Ended September 30, 2016 Compared with the Three and Nine Months Ended September 30, 2015

The increases in total revenue reflect additional revenue from the consolidation of Netsmart effective as of April 19, 2016, partly offset by \$12 million and \$22 million of amortization of acquisition-related deferred revenue adjustments during the three and nine months ended September 30, 2016, respectively. Adjusting for the impact of Netsmart, revenue during the three and nine months ended September 30, 2016 remained essentially equivalent and increased by 1%, respectively, compared with the prior year comparable periods as higher recurring services revenue was mostly offset by lower non-recurring services revenue. The changes in recurring and non-recurring revenue during the 2016 periods compared with the prior year comparable periods were caused by similar drivers, as explained below.

Software delivery, support and maintenance revenue consists of recurring subscription-based software sales, support and maintenance revenue, and recurring transactions revenue, and non-recurring perpetual software licenses sales, hardware resale and non-recurring transactions revenue. The growth in recurring and non-recurring software delivery, support and maintenance revenue was largely driven by additional revenue from Netsmart. Adjusting for the impact of Netsmart, our recurring revenue increased slightly and remained essentially equivalent during the three and nine months ended September 30, 2016, respectively, compared with the prior year comparable periods as the expansion of our client base for our population health management portfolio “CareInMotion” and ambulatory EHR solutions was offset by anticipated changes in our client base and a challenging comparison with last year. Support and maintenance revenue can also experience some quarterly variability related to contract restructurings and the achievement of client activation milestones. Adjusting for the impact of Netsmart, non-recurring software delivery, support and maintenance revenue decreased by 4% during the three months ended September 30, 2016 compared with the three months ended September 30, 2015, as there were several large software license sales of our acute solutions in the prior year period. Adjusting for the impact of Netsmart, non-recurring software delivery, support and maintenance revenue increased by 4% during the nine months ended September 30, 2016 compared with the three months ended September 30, 2015, primarily driven by higher software license sales of our acute and certain population health management solutions.

Client services revenue consists of recurring revenue from managed services solutions, such as outsourcing, private cloud hosting and revenue cycle management, as well as non-recurring project-based client services revenue. The growth in client services revenue was also largely driven by additional revenue from Netsmart. Adjusting for the impact of Netsmart, recurring client services revenue increased during the three and nine months periods ended September 30, 2016 compared with the comparable prior year periods, primarily due to expanding our outsourcing services at several large clients, adding new outsourcing clients as well as revenue related to our acquisition of a majority interest in a third party in April 2015, the results of which are consolidated with our financial results from the

date of this transaction. Revenue related to private cloud hosting services also increased as we experienced increased demand for these services and several large clients went live. Adjusting for the impact of Netsmart, non-recurring revenue declined during the three and nine months periods ended September 30, 2016 compared with the comparable prior year periods, primarily as a result of a decrease in implementation services attributable to fewer large implementations of our ambulatory and acute solutions, changes to our business model requiring less upfront services and some clients choosing to delay upgrade implementations as they awaited the release of the final CMS rules related to the Quality Payment Program and changes to Stage 3 of the Meaningful Use program. Additionally, the second quarter of 2015 also included the recognition of services revenue upon the achievement of a key implementation milestone with a large client, which did not recur during 2016. Non-recurring client services revenue can also vary between periods from the timing of implementation services revenue recognition associated with large-scale implementation contracts and the achievement of key delivery milestones and the timing of special projects.

The percentage of recurring and non-recurring revenue of our total revenue was 78% and 22% and 77% and 23%, respectively, during the three and nine months ended September 30, 2016, representing a slight shift compared with 75% and 25% and 76% and 24%, respectively, during the comparable prior year periods.

Gross Profit

(In thousands)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2016	2015	% Change	2016	2015	% Change
Total cost of revenue	\$226,225	\$201,128	12.5 %	\$639,722	\$613,984	4.2 %
Gross profit	\$166,159	\$153,348	8.4 %	\$484,741	\$426,762	13.6 %
Gross margin %	42.3 %	43.3 %		43.1 %	41.0 %	

Three and Nine Months Ended September 30, 2016 Compared with the Three and Nine Months Ended September 30, 2015

Gross profit increased during the three and nine months ended September 30, 2016 compared with the three and nine months ended September 30, 2015. The decrease in gross margin as a percent of revenue during the three months ended September 30, 2016 compared with the three months ended September 30, 2015 was primarily driven by the \$12 million amortization of acquisition-related deferred revenue adjustments recorded in the current quarter. Adjusting for the impact of the Netsmart consolidation and the amortization of acquisition-related deferred revenue adjustments, gross margin increased during the three months ended September 30, 2016 compared with the prior year comparable period. Gross margin for the three and nine months ended September 30, 2016 reflects improving profitability from the delivery of recurring client services, particularly private cloud hosting and outsourcing, as we continue to expand our customer base for these services. The overall profitability associated with non-recurring client services revenue also improved compared with last year as the 2016 periods reflect the full effect of cost reduction initiatives completed during the first half of 2015. Additionally, gross profit and gross margin increased for the nine months ended September 30, 2016 due to improved profitability associated with recurring subscription-based software as we were able to generate higher revenue while maintaining a fairly stable cost base to deliver these solutions.

Selling, General and Administrative Expenses

(In thousands)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2016	2015	% Change	2016	2015	% Change
Selling, general and administrative expenses	\$98,778	\$91,043	8.5 %	\$277,733	\$259,821	6.9 %

Three and Nine Months Ended September 30, 2016 Compared with the Three and Nine Months Ended September 30, 2015

During the three and nine months ended September 30, 2016, selling, general and administrative expenses increased compared with the three and nine months ended September 30, 2015 primarily due to the consolidation of Netsmart in the second quarter of 2016, which resulted in \$20 million and \$33 million of additional costs in the respective current year periods. During the three and nine months ended September 30, 2015, we recognized \$9 million and \$23 million, respectively, of severance and other costs which were primarily associated with headcount reductions made during the first half of 2015 and certain legal settlements. After adjusting for Netsmart and the severance costs, selling, general and administrative expenses decreased \$3 million during the three months ended September 30, 2016 primarily due to the timing of incentive compensation. Similarly, when considering the same adjustment, selling, general and administrative expenses increased \$8 million during the nine months ended September 30, 2016 primarily due to higher transaction-related and legal expenses, including \$4 million of costs associated with the Netsmart Transaction, and the timing of incentive and stock-based compensation.

Research and Development

(In thousands)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2016	2015	% Change	2016	2015	% Change
Research and development	\$45,142	\$47,702	(5.4 %)	\$140,070	\$138,796	0.9 %

Three and Nine Months Ended September 30, 2016 Compared with the Three and Nine Months Ended September 30, 2015

Research and development expenses decreased during the three months ended September 30, 2016 compared with the prior year comparable period primarily due to an increase in the amount of capitalized software development costs during the current quarter, partly offset by additional research and development expenses from Netsmart. The increase in capitalized software development costs was primarily driven by incremental investments in the emerging areas of precision medicine and population health analytics as well as our continued investment in expanding the capabilities and competitiveness of our traditional ambulatory and acute platforms, including in response to new regulatory requirements. Research and development expenses for the nine months ended September 30, 2016 increased slightly compared with the prior comparable period, driven by similar factors, as additional research and development expense from Netsmart more than offset the increase in capitalized software development costs. The capitalization of software development costs is highly dependent on the nature of the work being performed and the development status of projects and, therefore, it is common for the amount of capitalized software development costs to fluctuate.

Asset Impairment Charges

(In thousands)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2016	2015	% Change	2016	2015	% Change
Asset impairment charges	\$0	\$22	(100.0 %)	\$4,650	\$341	NM

Three and Nine Months Ended September 30, 2016 Compared with the Three and Nine Months Ended September 30, 2015

During the nine months ended September 30, 2016, we incurred non-cash asset impairment charges totaling \$4.7 million, all of which were incurred in the first quarter of 2016. Included in these charges was \$2.2 million for the impairment of capitalized software as a result of our decision to discontinue several software development projects, \$2.1 million for the impairment of one of our cost method equity investments, and other charges of \$0.4 million to write down a long-term asset to its estimated net realizable value. Asset impairment charges for the nine months ended September 30, 2015 were not significant.

Amortization of Intangible Assets

(In thousands)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2016	2015	% Change	2016	2015	% Change
Amortization of intangible and acquisition-related assets	\$5,365	\$5,712	(6.1 %)	\$14,944	\$19,039	(21.5 %)

Three and Nine Months Ended September 30, 2016 Compared with the Three and Nine Months Ended September 30, 2015

Amortization of intangible assets decreased during the three and nine months ended September 30, 2016 compared with the prior year comparable periods as several intangible assets were fully amortized during the first half of 2015. As a result, the nine months ended September 30, 2015 include amortization that did not recur during the nine months ended September 30, 2016. This impact was partially offset by additional amortization associated with intangible assets acquired as part of the Netsmart acquisition in April 2016 and our acquisition of a majority interest in a third party in April 2015.

Interest Expense

(In thousands)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2016	2015	% Change	2016	2015	% Change
Interest expense	\$19,367	\$9,254	109.3 %	\$42,757	\$23,993	78.2 %

Three and Nine Months Ended September 30, 2016 Compared with the Three and Nine Months Ended September 30, 2015

Interest expense increased during the three and nine months ended September 30, 2016 compared with the prior year comparable periods primarily due to \$12 million and \$21 million of interest expenses, respectively, associated with the Netsmart's non-recourse debt incurred since April 19, 2016. After adjusting for Netsmart, interest expense decreased slightly primarily due to lower borrowing costs resulting from the amendment of our senior secured credit

facility during the third quarter of 2015.

Other Income, Net

(In thousands)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2016	2015	Change %	2016	2015	Change %
Other (expense) income, net	\$(6)	\$423	(101.4 %)	\$466	\$2,281	(79.6 %)

Three and Nine Months Ended September 30, 2016 Compared with the Three and Nine Months Ended September 30, 2015

Other income, net for the three and nine months ended September 30, 2016 and 2015 consists of miscellaneous receipts. The nine months ended September 30, 2015 also included the recognition of unrealized gains from accumulated other comprehensive loss related to our available-for-sale marketable securities that were sold during the first quarter of 2015.

Equity in Net Earnings of Unconsolidated Investments

(In thousands)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2016	2015	% Change	2016	2015	% Change
Equity in net earnings of unconsolidated investments	\$0	\$(1,479)	100.0 %	\$(7,501)	\$(1,303)	NM

Three and Nine Months Ended September 30, 2016 Compared with the Three and Nine Months Ended September 30, 2015

Equity in net earnings of unconsolidated investments represent our share of the equity earnings (losses) of our investments in third parties accounted for under the equity method, including the amortization of cost basis adjustments. The amounts recognized during the nine months ended September 30, 2016 represent our share of the net loss incurred by NantHealth along with the amortization of cost basis adjustments prior to its initial public offering in June 2016.

Income Taxes

(In thousands)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2016	2015	% Change	2016	2015	% Change
Income tax benefit (provision)	\$2,656	\$(3,692)	171.9 %	\$2,596	\$(4,183)	162.1 %

Three and Nine Months Ended September 30, 2016 Compared with the Three and Nine Months Ended September 30, 2015

Our provision for income taxes differs from the tax computed at the U.S. federal statutory income tax rate due primarily to valuation allowance, permanent differences, income attributable to foreign jurisdictions taxed at lower rates, state taxes, tax credits and certain discrete items. Our effective tax rate for the three and nine months ended September 30, 2016, compared with the prior year comparable periods, differs primarily due to release of valuation allowance of \$1.4 million in the three and nine months ended September 30, 2016, compared to valuation allowance of \$5.9 million recorded in the three and nine months ended September 30, 2015. Additionally, no estimate of the research and development credit was included in the effective tax rate for the three and nine months ended September 30, 2015 as the credit had not been reinstated for 2015 until December 18, 2015. Lastly, the effective tax rate for the three and nine months ended September 30, 2016, was impacted by the consolidation of Netsmart's financial results starting on April 19, 2016.

Non-Controlling Interests

(In thousands)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2016	2015	% Change	2016	2015	% Change

Accretion of redemption preference	\$(10,191)	\$0	NM	\$(18,344)	\$0	NM

on redeemable convertible

non-controlling interest - Netsmart

Three and Nine Months Ended September 30, 2016 Compared with the Three and Nine Months Ended September 30, 2015

The net income attributable to non-controlling interest represents the share of earnings of a consolidated affiliate that is attributable to the affiliate's common stock that is not owned by us for each of the periods presented. The accretion of redemption preference on redeemable convertible non-controlling interest represents the accretion of liquidation preference at 11% per annum to the value of the preferred units of Netsmart for each of the periods presented. Refer to Note 2, "Business Combinations" in the Notes to consolidated financial statements for additional information regarding such liquidation preference.

Clinical and Financial Solutions

Our Clinical and Financial Solutions segment derives its revenue from the sale of integrated clinical software applications and financial and information solutions, which primarily include EHR-related software, financial and practice management software, related installation, support and maintenance, outsourcing, private cloud hosting, revenue cycle management, training and electronic claims administration services.

(In thousands)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2016	2015	% Change	2016	2015	% Change
Revenue	\$276,503	\$284,677	(2.9 %)	\$829,656	\$830,743	(0.1 %)

Gross margin %	41.1 %	42.5 %		42.0 %	39.9 %	
Income from operations	\$59,921	\$66,184	(9.5 %)	\$187,676	\$166,607	12.6 %
Operating margin %	21.7 %	23.2 %		22.6 %	20.1 %	

Three and Nine Months Ended September 30, 2016 Compared with the Three and Nine Months Ended September 30, 2015

Clinical and Financial Solutions revenue decreased during the three months ended September 30, 2016 compared with the three months ended September 30, 2015, as lower non-recurring client services and software delivery, support and maintenance revenue was partly offset by higher revenue from recurring managed services. The decrease in non-recurring revenue was the result of a decrease in implementation services attributable to fewer large

implementations of our ambulatory and acute solutions and several large software license sales of our acute solutions in the prior year period. The higher revenue from recurring outsourcing and revenue cycle management client services was due to an increase in our client base for such services. This increase in revenue included additional revenue associated with expanding our outsourcing services at several large clients, adding new outsourcing clients as well as revenue related to our acquisition of a majority interest in a third party in April 2015. Revenue related to private cloud hosting also increased as we experienced increased demand for these services.

Clinical and Financial Solutions revenue remained essentially equivalent during the nine months ended September 30, 2016 compared with the nine months ended September 30, 2015, as higher revenue from recurring outsourcing, revenue cycle management

and private cloud hosting client services was offset by lower non-recurring client services and software delivery, support and maintenance revenue.

The decrease in profitability during the three months ended September 30, 2016 compared with the three months ended September 30, 2015 was primarily attributable to non-recurring client services as the decrease in revenue was only partly offset by lower third-party and internal cost associated with the delivery of these services. The improvement in profitability during the nine months ended September 30, 2016 compared with the prior year comparable period was primarily driven by our various client services revenue streams. The first nine months of 2016 reflect the full effect of cost reduction initiatives completed during the first half of 2015, which resulted in both lower overall third-party resources utilization and internal costs associated with the delivery of client services compared with the first nine months of 2015. Additionally, we capitalized a higher amount of software development costs during both the three and nine months ended September 30, 2016 compared with the three and nine months ended September 30, 2015.

Population Health

Our Population Health segment derives its revenue from the sale of health management and coordinated care solutions, which are mainly targeted at hospitals, health systems, other care facilities and ACOs. These solutions enable clients to connect, transition, analyze and coordinate care across the entire care community.

Three and Nine Months Ended September 30, 2016 Compared with the Three and Nine Months Ended September 30, 2015

Population Health revenue increased during the three and nine months ended September 30, 2016 compared with the prior year comparable periods in part due to higher recurring subscription-based revenue associated with our population health management portfolio "CareInMotion". This increase was partially offset by lower revenue from non-recurring client services due to the timing of implementation project commencements and lower number of implementations during the first nine months of 2016 compared with the first nine months of 2015.

Gross profit and gross margin increased during the three and nine months ended September 30, 2016 compared with the prior year comparable periods, primarily due to a combination of higher recurring subscription-based revenue and lower overall internal costs associated with this revenue stream, as a result of headcount reductions made during the first half of 2015. Income from operations and operating margin percentage also increased during the three and nine months ended September 30, 2016 compared with the three and nine months ended September 30, 2015 primarily due to the same factors as selling, general and administrative expenses remained essentially equivalent.

Netsmart

Our Netsmart segment is a new segment that was established as part of the Netsmart Transaction and is comprised of the combination of our HomecareTM business with Netsmart, Inc. The Netsmart segment operates in the home care and behavioral healthcare information technology field throughout the United States. It provides software and technology solutions to the health and human services industry, which is comprised of behavioral health, addiction

treatment, intellectual and developmental disability services, child and family services, and public health segments, as well as to post-acute home care organizations.

38

Three and Nine Months Ended September 30, 2016 Compared with the Three and Nine Months Ended September 30, 2015

Revenue for the three and nine months ended September 30, 2016 includes two revenue categories, business services and system sales. Business services includes both subscription revenue and services and support revenue. System sales includes revenue from software licenses, sold either as perpetual licenses or fixed-term licenses, and revenue from third party software licenses and hardware products. Overall, revenues are negatively impacted by the deferred revenue adjustment related to the Netsmart Transaction totaling \$12 million and \$22 million, respectively, for the three and nine months ended September 30, 2016. Gross profit is also negatively impacted by this same deferred revenue adjustment in addition to the amortization of intangibles acquired in the Netsmart Transaction and capitalized software totaling \$6 million and \$11 million, respectively, for the three and nine months ended September 30, 2016.

Unallocated Amounts

In determining revenue, gross profit and income from operations for our segments, with the exception of the Netsmart segment, we do not include in revenue the amortization of acquisition-related deferred revenue adjustments, which reflect the fair value adjustments to deferred revenues acquired in a business acquisition. With the exception of the Netsmart segment, we also exclude the amortization of intangible assets, stock-based compensation, non-recurring expenses and transaction-related costs, and non-cash asset impairment charges from the operating segment data provided to our CODM. Non-recurring expenses relate to certain severance, product consolidation, legal, consulting and other charges incurred in connection with activities that are considered one-time. Accordingly, these amounts are not included in our reportable segment results and are included in the “Unallocated Amounts” category. The “Unallocated Amounts” category also includes corporate general and administrative expenses (including marketing expenses) which are centrally managed, as well as revenue and the associated cost from the resale of certain ancillary products, primarily hardware, other than the respective amounts associated with the Netsmart segment. The historical results of our Homecare™ business prior to the Netsmart Transaction are also included in the “Unallocated Amounts” category. The Netsmart segment, as presented, includes all revenue and expenses incurred by Netsmart since it operates as a stand-alone business entity and its resources allocation and performance are reviewed and measured at such all-inclusive level. The eliminations of intercompany transactions between Allscripts and Netsmart are also included in the “Unallocated Amounts” category.

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2016	2015	% Change	2016	2015	% Change
(In thousands)						
Revenue	\$1,538	\$15,394	(90.0 %)	\$26,606	\$44,965	(40.8 %)
Gross profit	\$(11,233)	\$(4,686)	139.7 %	\$(21,848)	\$(15,115)	44.5 %
Gross margin %	NM	(30.4 %)		(82.1 %)	(33.6 %)	
Loss from operations	\$(69,598)	\$(81,497)	(14.6 %)	\$(214,416)	\$(225,784)	(5.0 %)
Operating margin %	NM	NM		NM	NM	

Three and Nine Months Ended September 30, 2016 Compared with the Three and Nine Months Ended September 30, 2015

Revenue from the resale of ancillary products, primarily consisting of hardware, is customer and project driven and, as a result, can fluctuate from period to period. Revenue for the three and nine months ended September 30, 2016 includes the elimination of \$2 million and \$4 million, respectively, of revenue associated with transactions between Allscripts and Netsmart since the Netsmart acquisition on April 19, 2016. Revenue for the three and nine months ended September 30, 2016 decreased primarily due to the results of our Homecare™ business being included in the prior year period but excluded in the current year period, as Homecare™ results are included as part of the Netsmart reportable segment.

Gross unallocated expenses, which represent the unallocated loss from operations excluding the impact of revenue, totaled \$71 million for the three months ended September 30, 2016 compared to \$97 million for the three months ended September 30, 2015. This decline was primarily the result of decreases in both cost of revenue and operating expenses. Cost of revenue decreased \$7 million primarily due to the results of our Homecare™ business being included in the prior year period but excluded in the current year period, as Homecare™ results are included as part of the Netsmart reportable segment. Selling, general and administrative expenses decreased \$12 million primarily due to higher legal fees and severance costs associated with headcount reductions taken in 2015. The remaining decrease of \$7 million was driven by lower research and development expenses and lower amortization of software development and acquisition-related assets due to several intangible assets becoming fully amortized during the first half of 2015.

Gross unallocated expenses, which represent the unallocated loss from operations excluding the impact of revenue, totaled \$241 million for the nine months ended September 30, 2016 compared to \$271 million for the nine months ended September 30, 2015. This decline was the primarily the result of decreases in both cost of revenue and operating expenses. Cost of revenue decreased \$12 million primarily due to the results of our Homecare™ business being included in the prior year period while the current year period only includes the results for this business through the Netsmart Transaction date of April 19, 2016. Selling, general and administrative expenses decreased \$14 million primarily due to due to higher legal fees and severance costs associated with headcount reductions taken in 2015. The remaining decrease was primarily driven by lower amortization of software development and acquisition-related assets due to several intangible assets becoming fully amortized during the first half of 2015. These decreases were partially offset by \$4 million of asset impairment charges recognized during the nine months ended September 30, 2016.

Contract Backlog

Contract backlog represents the value of bookings and support and maintenance contracts that have not yet been recognized as revenue. A summary of contract backlog by revenue category is as follows:

(In millions)	As of	As of	As of	% Change from	
	September 30, 2016	December 31, 2015	September 30, 2015	September 30, 2015	September 30, 2015
Software delivery, support and maintenance	\$ 2,300	\$ 2,151	\$ 2,119	6.9%	8.5%
Client services	1,622	1,500	1,445	8.1%	12.2%
Total contract backlog	\$ 3,922	\$ 3,651	\$ 3,564	7.4%	10.0%

Total contract backlog as of September 30, 2016 increased compared with December 31, 2015 and September 30, 2015. The backlog as of September 30, 2016 includes \$295 million of backlog from Netsmart. Total contract backlog can fluctuate between periods based on the level of revenue and bookings as well as the timing and mix of renewal activity and periodic revalidations.

Liquidity and Capital Resources

The primary factors that influence our liquidity include, but are not limited to, the amount and timing of our revenues, cash collections from our clients, capital expenditures and investments in research and development efforts, including investments in or acquisitions of third-parties. As of September 30, 2016, our principal sources of liquidity consisted of cash and cash equivalents of \$77 million and available borrowing capacity of \$399 million under our revolving credit facility and \$49 million under the Netsmart revolving credit facility. The change in our cash and cash equivalents balance is reflective of the following:

Operating Cash Flow Activities

(In thousands)	Nine Months Ended September 30,		
	2016	2015	\$ Change
Net income (loss)	\$148	(18,433)	18,581
Non-cash adjustments to net income (loss)	159,228	156,317	2,911
Cash impact of changes in operating assets and liabilities	25,782	(9,571)	35,353
Net cash provided by operating activities	\$185,158	\$128,313	\$56,845

Nine Months Ended September 30, 2016 Compared with the Nine Months Ended September 30, 2015

Net cash provided by operating activities increased during the nine months ended September 30, 2016 compared with the prior year comparable period. This increase reflects the beneficial impact of our continued efforts to streamline our organizational structure, cut long-term costs, reduce discretionary spending and improve efficiency as evidenced by our breakeven results for the nine months ended September 30, 2016 compared with a net loss of \$18 million for the prior year comparable period. In addition, improved working capital management generated a \$26 million increase in cash flows from operating activities during the nine months ended September 30, 2016 as compared with the prior year comparable period.

Edgar Filing: ALLSCRIPTS HEALTHCARE SOLUTIONS, INC. - Form 10-Q

Nine Months Ended September 30, 2016 Compared with the Nine Months Ended September 30, 2015

Net cash used in investing activities increased during the nine months ended September 30, 2016 compared with the prior year comparable period, primarily due to the acquisition of Netsmart, Inc. for \$906 million, net of cash acquired, the acquisition of a minority interest in a third party for \$29 million, net of cash acquired, \$21 million of new third-party investments and increased spending for capital expenditures and capitalized software costs. During the nine months ended September 30, 2015 we paid cash of \$200 million related to our investment in NantHealth, acquired a majority interest in a third party, net of cash acquired, for \$9 million and extended a loan to the third party for \$9 million.

Financing Cash Flow Activities

(In thousands)	Nine Months Ended September 30,

Repurchase of common stock	(71,082)	0	(71,082)
Net cash provided by financing activities	\$825,971	\$176,219	\$649,752

Nine Months Ended September 30, 2016 Compared with the Nine Months Ended September 30, 2015

Net cash provided by financing activities increased during the nine months ended September 30, 2016 compared with the prior year comparable period, primarily due to \$534 million, net of issuance costs, borrowed under the Netsmart Credit Agreements and \$45 million borrowed under our revolving credit facility to partially finance the Netsmart Acquisition during the second quarter of 2016. During the third quarter of 2016, we borrowed an additional \$30 million under our revolving credit facility to finance the acquisition of a majority interest in a third party. In addition, Netsmart received \$334 million in proceeds from the issuance of redeemable convertible preferred stock during the second quarter of 2016. During the nine months ended September 30, 2015, we borrowed \$100 million under our revolving credit facility to partially finance our \$200 million investment in NantHealth and received \$100 million in proceeds from the sale of our common stock and warrants to Nant Capital LLC.

Future Capital Requirements

The following table summarizes our future payments under the 1.25% Notes, the Senior Secured Credit Facility and Netsmart's Non-Recourse Debt as of September 30, 2016:

41

- (1) Assumes no cash conversions of the 1.25% Notes prior to their maturity on July 1, 2020.
- (2) Assumes no additional borrowings after September 30, 2016 and that all drawn amounts are repaid upon maturity.
- (3) Assumes LIBOR plus the applicable margin remain constant at the rate in effect on September 30, 2016, which was 2.52%.
- (4) Assumes Adjusted LIBO Rate plus the applicable margin remain constant at the rate in effect on September 30, 2016, which was 5.75%.
- (5) Assumes commitment fee remain constant at the rate in effect on September 30, 2016, which was 0.5%.
- (6) Assumes Adjusted LIBO Rate plus the applicable margin remain constant at the rate in effect on September 30, 2016, which was 10.5%.

Netsmart Non-Recourse Debt

On April 19, 2016, Netsmart entered into a First and Second Lien Credit Agreement (the “Netsmart First Lien Credit Agreement” and the “Netsmart Second Lien Credit Agreement”, respectively), with a syndicate of financial institutions and UBS AG, Stamford Branch, as administrative agent. The Netsmart First Lien Credit Agreement provides for a \$395 million senior secured 7-year term loan credit facility (the “Netsmart First Lien Term Loan”) and a \$50 million senior secured 5-year revolving loan credit facility (the “Netsmart Revolving Facility”). The Netsmart Second Lien Credit Agreement provides for a \$167 million senior secured 7.5-year term loan credit facility (the “Netsmart Second Lien Term Loan,” and, together with the Netsmart First Lien Credit Agreement, the “Netsmart Credit Agreements”). Each of Netsmart’s obligations under the Netsmart Credit Agreements are guaranteed by Intermediate, each other Borrower, each Subsidiary Guarantor and any other person who becomes a party to the Netsmart Credit Agreements, under an unconditional guaranty. Netsmart’s debt under the Netsmart Credit Agreements is non-recourse to Allscripts and its wholly-owned subsidiaries.

The Netsmart Revolving Facility will terminate on April 19, 2021 and the Netsmart First Lien Term Loan matures on April 19, 2023. The Netsmart Second Lien Term Loan matures on October 19, 2023. All unpaid principal of, and interest accrued on, such loans must be repaid on their respective maturity dates. The outstanding principal amount of the Netsmart First Lien Term Loan and the Netsmart Revolving Facility bear interest at a rate equal to (a) with respect to LIBO Rate Loans, Adjusted LIBO Rate plus 4.75% and (b) with respect to ABR Loans, 3.75% (provided, however, that in respect of the Netsmart Revolving Loans, such rate may step-down to 4.25% and 3.25%, respectively, depending on the then-applicable leverage ratio). The outstanding amount of the Netsmart Second Lien Term Loan bears interest at a rate equal to (a) with respect to LIBO Rate Loans, Adjusted LIBO Rate plus 9.50% and (b) with respect to ABR Loans, 8.50%. The proceeds from the funding of the Netsmart Credit Agreements were used to, inter alia, finance a portion of the Netsmart Purchase Price and to pay fees and expenses in connection therewith.

The Netsmart Credit Agreements contain a financial covenant that Intermediate and its subsidiaries maintain a maximum ratio of total debt to Consolidated Adjusted EBITDA. The entire principal amount of the Netsmart Credit Agreements and any accrued but unpaid interest may be declared immediately due and payable if an event of default occurs. Events of default under the Netsmart Credit Agreements include (but are not limited to) failure to make payments when due, a default in the performance of any covenants in the Netsmart Credit Agreements or related documents or certain changes of control of Intermediate and/or of Netsmart.

The Netsmart First Lien Credit Agreement requires Netsmart to maintain a total net leverage ratio of not more than 8.75 to 1.00 commencing with the September 30, 2016 period, with gradual step downs to 6.75 to 1.00 for the period ending March 31, 2019 and each period ending thereafter. The Netsmart Second Lien Credit Agreement requires Netsmart to maintain a certain total leverage ratio of not more than 9.75 to 1.00 commencing with the September 30, 2016 period, with gradual step downs to 7.75 to 1.00 for the period ending March 31, 2019 and each period ending thereafter.

Other Matters Affecting Future Capital Requirements

We are currently in our sixth year of a ten-year agreement with Atos (formerly known as Xerox Consultant Services) to provide services to support our private cloud hosting services for our Sunrise acute care clients. We maintain all client relationships and domain expertise with respect to the hosted applications. The agreement includes the payment of an initial base amount of \$50 million per year plus charges for services incremental to the base agreement. During the nine months ended September 30, 2016, we incurred \$46.2 million of expenses under this agreement, which are included in cost of revenue in our consolidated statements of operations.

During 2015, we completed renegotiations with Atos and our other largest hosting partner to improve the operating cost structure of our private cloud hosting operations. As a result of these renegotiations, starting with the first quarter of 2016, we began to realize the benefits from the reductions in our base service payments.

Our total investment in research and development efforts during 2016 is expected to increase compared with 2015 as we begin to build and expand our capabilities in emerging areas of health care, such as precision medicine and population health analytics, and our traditional offerings in the ambulatory and acute markets. Our total spending consists of research and development costs directly recorded to expense which are offset by the capitalization of eligible development costs. To supplement our statement of operations, the table below presents a non-GAAP measure of research and development-related expenses that we believe is a useful metric for evaluating how we are investing in research and development.

(In thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Research and development costs directly recorded to expense	\$45,142	\$47,702	\$140,070	\$138,796
Capitalized software development costs	32,888	11,012	69,994	32,696
Total non-GAAP R&D-related spending	\$78,030	\$58,714	\$210,064	\$171,492
Total revenue	\$392,384	\$354,476	\$1,124,463	\$1,040,746
Total non-GAAP R&D-related spending as a % of total revenue	19.9	% 16.6	% 18.7	% 16.5

We believe that our cash and cash equivalents of \$77 million as of September 30, 2016, our future cash flows, and our borrowing capacity under our revolving credit facility, taken together, provide adequate resources to fund our ongoing cash requirements for the next twelve months. We cannot provide assurance that our actual cash requirements will not be greater than we expect as of the date of this Form 10-Q. We will, from time to time, consider the acquisition of, or investment in, complementary businesses, products, services and technologies, each of which might impact our liquidity requirements or cause us to issue additional equity or debt securities.

If sources of liquidity are not available or if we cannot generate sufficient cash flow from operations during the next twelve months, we might be required to obtain additional sources of funds through additional operating improvements, capital market transactions, asset sales or financing from third parties, a combination thereof or otherwise. We cannot provide assurance that these additional sources of funds will be available or, if available, would have reasonable terms.

Contractual Obligations, Commitments and Off Balance Sheet Arrangements

We have various contractual obligations, which are recorded as liabilities in our consolidated financial statements. Other items, such as operating lease contract obligations, are not recognized as liabilities in our consolidated financial statements but are required to be disclosed.

During the nine months ended September 30, 2016, in the ordinary course of business, we entered into and renewed several multi-year software licensing and support agreements with third-party vendors. These renewals resulted in increases of \$38 million, \$14 million, \$9 million, \$5 million, \$5 million and \$2 million to our future purchase obligations amounts for the years ending December 31, 2016, 2017, 2018, 2019, 2020 and thereafter, respectively, previously disclosed in our Form 10-K.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our market risk disclosures set forth in Part II, Item 7A, “Quantitative and Qualitative Disclosures About Market Risk” of our Form 10-K have not changed materially during the quarter ended September 30, 2016.

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures

Under the direction of our chief executive officer and chief financial officer, we evaluated our disclosure controls and procedures pursuant to Rule 13a-15(b) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and concluded that our disclosure controls and procedures were effective as of September 30, 2016.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting during the quarter ended September 30, 2016, which were identified in connection with management’s evaluation required by paragraph (d) of Rules 13a-15 and 15d-15 under the Exchange Act, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. We excluded Netsmart from our evaluation of internal control over financial reporting as of September 30, 2016 because the acquisition was completed during the second quarter of 2016, as further described in Note 2, “Business Combinations” in the notes to consolidated financial statements.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

We hereby incorporate by reference Note 12, "Contingencies," of the Notes to Consolidated Financial Statements in Part I, Item 1 of this Form 10-Q.

Item 1A. Risk Factors

There have been no material changes during the quarter ended September 30, 2016 from the risk factors as previously disclosed in our Form 10-K or March 31, 2016 Form 10-Q.

Item 2. Unregistered Sales of Equity Securities, Use of Proceeds and Issuer Purchases of Equity Securities

In November 2015, our Board of Directors approved a stock repurchase program under which we may purchase up to \$150.0 million of our common stock through December 31, 2018. Any share repurchases may be made through open market transactions, block trades, privately negotiated transactions (including accelerated share repurchase transactions) or other means, subject to market conditions.

Any repurchase activity will depend on many factors such as our working capital needs, cash requirements for investments, debt repayment obligations, economic and market conditions at the time, including the price of our common stock, and other factors that we consider relevant. Our stock repurchase program may be accelerated, suspended, delayed or discontinued at any time.

The following table summarizes the stock repurchase activity for the three months ended September 30, 2016 and the approximate dollar value of shares that may yet be purchased pursuant to our stock repurchase program:

(In thousands, except per share amounts)

Period (Based on Trade Date)	Total Number Of Shares Purchased	Average Price Paid Per Share	Publicly Announced Plans Or Programs	Total Number Of Shares Purchased As Part Of Publicly Announced Plans Or Programs	Approximate Dollar Value Of Shares That May Yet Be Purchased Under The Plans Or Programs
