NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(IN THOUSANDS, EXCEPT PER SHARE AND PER UNIT AMOUNTS)

1. Basis of Presentation

The accompanying consolidated financial statements include the accounts of Weight Watchers International, Inc. and all of its subsidiaries. The terms “Company” and “WWI” as used throughout these notes is used to indicate Weight Watchers International, Inc. and all of its operations consolidated for purposes of its financial statements. The Company’s “meetings” business refers to providing access to combined meetings and digital offerings to the Company’s commitment plan subscribers (including Total Access subscribers), as well as access to meetings to the Company’s “pay-as-you-go” members and other meetings members. “Online” refers to Weight Watchers Online, Weight Watchers OnlinePlus, Personal Coaching and other digital subscription products.

The consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and include amounts that are based on management’s best estimates and judgments. While all available information has been considered, actual amounts could differ from those estimates. The consolidated financial statements include all of the Company’s majority-owned subsidiaries. All entities acquired, and any entity of which a majority interest was acquired, are included in the consolidated financial statements from the date of acquisition. All intercompany accounts and transactions have been eliminated in consolidation. The Company’s operating results for any interim period are not necessarily indicative of future or annual results. The consolidated financial statements are unaudited and, accordingly, they do not include all of the information necessary for a comprehensive presentation of results of operations, financial position and cash flow activity required by GAAP for complete financial statements but, in the opinion of management, reflect all adjustments including those of a normal recurring nature necessary for a fair statement of the interim results presented.

These statements should be read in conjunction with the Company’s Annual Report on Form 10-K for fiscal 2017 filed on February 28, 2018, which includes additional information about the Company, its results of operations, its financial position and its cash flows.

2. Recently Issued Accounting Standards

In February 2016, the Financial Accounting Standards Board (the “FASB”) issued updated guidance regarding leases, requiring lessees to recognize a right-of-use asset and a lease liability on the balance sheet for all leases with the exception of short-term leases. For lessees, leases will continue to be classified as either operating or finance leases in the income statement. Lessor accounting is similar to the current model but will be updated to align with certain changes to the lessee model. Lessors will continue to classify leases as operating, direct financing or sales-type leases. The effective date of the new guidance for public companies is for fiscal years beginning after December 15, 2018 and interim periods within those fiscal years. Early adoption is permitted. As currently issued, the updated guidance must be adopted using a modified retrospective transition and requires application of the new guidance at the beginning of the earliest comparative period presented. The updated guidance is effective for the Company beginning in the first quarter of fiscal 2019. The Company is currently evaluating the impact that the adoption of this guidance will have on the consolidated financial statements and related disclosures of the Company.

For a discussion of the Company’s other significant accounting policies, see “Summary of Significant Accounting Policies” in the Notes to Consolidated Financial Statements of the Company’s Annual Report on Form 10-K for fiscal 2017. For a discussion of accounting standards adopted in the current period, see Note 3.

3. Accounting Standards Adopted in Current Period

In March 2016, the FASB issued updated guidance on revenue from contracts with customers, which is intended to clarify the implementation guidance on principal versus agent considerations. The amendments in this update do not change the core principle of the guidance, but are intended to improve the operability and understandability of the implementation guidance on principal versus agent considerations by including indicators to assist an entity in determining whether it controls a specified good or service before it is transferred to the customer. In April 2016, the FASB issued updated guidance on revenue from contracts with customers, which is intended to clarify guidance related to identifying performance obligations and licensing implementation guidance contained in the new revenue recognition standard. In May 2016, the FASB issued updated guidance on revenue from contracts with customers, which is intended to provide narrow scope guidance and practical expedients contained in the new revenue standard. In December 2016, the FASB issued updated guidance on revenue from contracts with customers for technical corrections and improvements on narrow aspects within the original and amended guidance. The amendments in these updates are effective for annual periods beginning after December 15, 2017 and interim periods within those fiscal years, with early adoption permitted. On December 31, 2017, the Company adopted the updated guidance on revenue from contracts with customers on a modified retrospective basis. See Note 4 for further details.

WEIGHT WATCHERS INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(IN THOUSANDS, EXCEPT PER SHARE AND PER UNIT AMOUNTS)

In October 2016, the FASB issued updated guidance on intra-equity transfers of assets other than inventory which is intended to improve the accounting for income tax consequences by eliminating the deferral of tax effects of intra-entity asset transfers other than inventory within the consolidated entity. The current guidance to defer the recognition of any tax impact on the transfer of inventory within the consolidated entity until it is sold to a third party remains unaffected. The updated guidance is effective for annual periods beginning after December 15, 2017 and interim periods within those fiscal years, with early adoption permitted. The updated guidance must be applied on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings as of the beginning of the period of adoption. The Company adopted this guidance the first day of the first quarter of 2018, and as a result, recorded a net deferred tax liability with a corresponding cumulative adjustment to decrease retained earnings of \$48,624 associated with an intra-entity transfer of certain intellectual property rights related to the Company's non-U.S. business to its Canadian entity. Before the 2017 Tax Act was passed, the Company's position was that this transaction was net neutral from a tax perspective and therefore a cumulative effect entry might not be required. However, after further analysis of the new tax law during the quarter, the Company concluded an entry to retained earnings was necessary.

In February 2018, the FASB issued updated guidance on tax effects of items within accumulated other comprehensive income resulting from Tax Cuts and Jobs Act of 2017 (the "2017 Tax Act"). This update eliminates the stranded tax effects from the Act and permits a company to make an accounting policy election to reclassify those effects from accumulated other comprehensive income ("AOCI") to retained earnings. The updated guidance is effective for the Company beginning in the first quarter of fiscal 2019 and early adoption is permitted. The Company adopted this guidance the first day of the first quarter of fiscal 2018, and the election was made to reclassify the income tax effects of the 2017 Tax Act from accumulated other comprehensive loss to retained earnings, resulting in a \$2,485 increase to retained earnings in the consolidated balance sheet at March 31, 2018. There were no other income tax effects related to the application of the 2017 Tax Act with the adoption of this updated guidance.

In March 2018, the FASB issued guidance pursuant to the amendments issued by the staff of the U.S. Securities and Exchange Commission. The amendments provide guidance on when to record and disclose provisional amounts for certain income tax effects of the 2017 Tax Act. The amendments also require any provisional amounts or subsequent adjustments to be included in net income from continuing operations. Additionally, this guidance discusses required disclosures that an entity must make with regard to the 2017 Tax Act. This guidance is effective immediately as new information is available to adjust provisional amounts that were previously recorded. The Company adopted this guidance and will continue to evaluate indicators that may give rise to a change in our tax provision as a result of the 2017 Tax Act. See Note 9 for additional information on the 2017 Tax Act.

4. Revenue

Adoption of Revenue from Contracts with Customers

On December 31, 2017, the Company adopted the updated guidance on revenue from contracts with customers using the modified retrospective method applied to those contracts which were not completed as of December 31, 2017. Results for reporting periods beginning after December 31, 2017 are presented under the updated guidance, while prior period amounts are not adjusted and continue to be reported in accordance with the Company's historical revenue accounting.

The Company recorded a net increase to opening retained earnings of \$2,145 as of December 31, 2017 due to the cumulative impact of adopting the updated guidance, inclusive of a \$3,501 decrease to deferred revenue, a decrease of \$568 to prepaid expenses and other current assets and an increase to the deferred income tax liability of \$788.

Revenue Recognition

Revenues are recognized when control of the promised services or goods is transferred to the Company's customers, in an amount that reflects the consideration it expects to be entitled to in exchange for those services or goods.

WWI earns revenue by conducting meetings, for which it charges a fee, predominantly through commitment plans, prepayment plans or the "pay-as-you-go" arrangement. WWI also earns revenue from subscriptions for the Company's Online products, selling products (including publications) in its meetings, online and to its franchisees, collecting commissions from franchisees, collecting royalties related to licensing agreements, selling magazine subscriptions, publishing, selling advertising space on its websites and in copies of its publications and By Mail product sales.

WEIGHT WATCHERS INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(IN THOUSANDS, EXCEPT PER SHARE AND PER UNIT AMOUNTS)

Commitment plans, prepaid meeting fees and magazine subscription revenue is recorded to deferred revenue and amortized into revenue as control is transferred over the period earned since the performance obligations are satisfied over time. In the meetings business, WWI generally charges non-refundable registration and starter fees in exchange for an introductory information session and materials it provides to new members. Revenue from these registration and starter fees is considered immaterial in the context of the contract and are recorded to deferred revenue and amortized into revenue over the commitment period. Online subscription revenues, consisting of the fees associated with subscriptions for the Company's Online subscription products, including its Personal Coaching product, are deferred and recognized on a straight-line basis as control is transferred over the subscription period. One-time Online sign-up fees are considered immaterial in the context of the contract and the related revenue is recorded to deferred revenue and amortized into revenue over the commitment period. Revenue from "pay-as-you-go" meeting fees, product sales, By Mail, commissions and royalties is recognized at the point in time control is transferred, when services are rendered, products are shipped to customers and title and risk of loss passes to the customers, and commissions and royalties are earned, respectively. Revenue from advertising in magazines is recognized when advertisements are published. Revenue from magazine sales is recognized when the magazine is sent to the customer. For revenue transactions that involve multiple performance obligations, the amount of revenue recognized is determined using the relative fair value approach, which is generally based on each performance obligation's stand-alone selling price. Discounts to customers, including free registration offers, are recorded as a deduction from gross revenue in the period such revenue was recognized. Revenue from advertising on its websites is recognized when the advertisement is viewed by the user.

The Company grants refunds in aggregate amounts that historically have not been material. Because the period of payment of the refund generally approximates the period revenue was originally recognized, refunds are recorded as a reduction of revenue over the same period.

Information about Contract Balances

For Service Revenues, the Company typically collects payment in advance of providing services. Any amounts collected in advance of services being provided are recorded in deferred revenue. In the case where amounts are not collected, but the service has been provided and the revenue has been recognized, the amounts are recorded in accounts receivable. The opening and ending balances of the Company's deferred revenues are as follows:

	Deferred Revenue	Deferred Revenue-Long Term
Balance as of December 30, 2017	\$74,332	\$ 2,049
Net increase (decrease) during the period	20,341	(276)
Balance as of March 31, 2018	\$94,673	\$ 1,773

Revenue recognized from amounts included in current deferred revenue as of December 30, 2017 was \$65,043 for the first quarter ended March 31, 2018. The Company's long-term deferred revenue, which is included in other liabilities on the Company's consolidated balance sheet, had a balance of \$1,773 at March 31, 2018 related to upfront payments received as an inducement for entering into certain sales-based royalty agreements with third party licensees. This revenue is amortized on a straight-line basis over the term of the agreements.

Practical Expedients and Exemptions

The Company elected to apply the updated guidance only to contracts that were not completed as of December 31, 2017, the date of adoption. The Company does not disclose the value of unsatisfied performance obligations for contracts with an original expected length of one year or less. The Company expenses sales commissions when incurred (amortization period would have been one year or less) and these expenses are recorded within selling, general and administrative expenses. The Company treats shipping and handling fees as fulfillment costs and not as a separate performance obligation, and as a result, any fees received from customers are included in the transaction price allocated to the performance obligation of providing goods with a corresponding amount accrued within cost of product sales and other for amounts paid to applicable carriers. Sales tax, value-added tax, and other taxes the Company collects concurrent with revenue-producing activities are excluded from revenue.

5. Franchise Rights Acquired, Goodwill and Other Intangible Assets

Franchise rights acquired are due to acquisitions of the Company's franchised territories as well as the acquisition of franchise promotion agreements and other factors associated with the acquired franchise territories. For the three months ended March 31, 2018, the change in the carrying value of franchise rights acquired is due to the effect of exchange rate changes.

(1) Includes amortization of deferred financing costs and debt discount. For fiscal 2017, the effective interest rate for the tranche B-2 term facility of the Company's then-existing term loan facility was computed based on interest expense incurred over the period for which borrowings were outstanding.

On November 29, 2017, the Company refinanced its then-existing credit facilities (hereinafter referred to as "the November 2017 debt refinancing") consisting of \$1,930,386 of borrowings under a term loan facility and an undrawn \$50,000 revolving credit facility with \$1,565,000 of borrowings under its new credit facilities, consisting of a \$1,540,000 term loan facility, and a \$150,000 revolving credit facility (of which \$25,000 was drawn upon at the time of the November 2017 debt refinancing) (collectively, the "New Credit Facilities"), and \$300,000 in aggregate principal

amount of 8.625% Senior Notes due 2025 (the “Notes”). During the fourth quarter of fiscal 2017, the Company incurred fees of \$53,832 (which included \$30,800 of a debt discount) in connection with the November 2017 debt refinancing. In addition, the Company recorded a loss on early extinguishment of debt of \$10,524 in connection thereto. This early extinguishment of debt write-off was comprised of \$5,716 of deferred financing fees paid in connection with the November 2017 debt refinancing and \$4,808 of pre-existing deferred financing fees.

Senior Secured Credit Facilities

The New Credit Facilities were issued under a new credit agreement, dated November 29, 2017 (the “Credit Agreement”), among the Company, as borrower, the lenders party thereto, JPMorgan Chase Bank, N.A. (“JPMorgan Chase”), as administrative agent and an issuing bank, Bank of America, N.A., as an issuing bank, and Citibank, N.A., as an issuing bank. The New Credit Facilities consist of (1) \$1,540,000 in aggregate principal amount of senior secured tranche B term loans due in 2024 (the “New Term Loan Facility”) and (2) a \$150,000 senior secured revolving credit facility (which includes borrowing capacity available for letters of credit) due in 2022 (the “New Revolving Credit Facility”).

As of March 31, 2018, the Company had \$1,520,750 of debt outstanding under the New Credit Facilities, with \$148,735 of availability and \$1,265 in issued but undrawn letters of credit outstanding under the New Revolving Credit Facility. The outstanding balance under the New Revolving Credit Facility was included in current portion of long-term debt on the accompanying consolidated balance sheet as of December 30, 2017 included in these consolidated financial statements.

All obligations under the Credit Agreement are guaranteed by, subject to certain exceptions, each of the Company's current and future wholly-owned material domestic restricted subsidiaries. All obligations under the Credit Agreement, and the guarantees of those obligations, are secured by substantially all of the assets of the Company and each guarantor, subject to customary exceptions, including:

- a pledge of 100% of the equity interests directly held by the Company and each guarantor in any wholly-owned domestic material subsidiary of the Company or any guarantor (which pledge, in the case of any non-U.S. subsidiary of a U.S. subsidiary, will not include more than 65% of the voting stock of such first-tier non-U.S. subsidiary), subject to certain exceptions; and
- a security interest in substantially all other tangible and intangible assets of the Company and each guarantor, subject to certain exceptions.

Under the terms of the Credit Agreement, depending on the Company's Consolidated Leverage Ratio (as defined in the Credit Agreement), on an annual basis on or about the time the Company is required to deliver its financial statements for any fiscal year, the Company is obligated to offer to prepay a portion of the outstanding principal amount of the New Term Loan Facility in an aggregate amount determined by a percentage of its annual excess cash flow (as defined in the Credit Agreement) (said payment, a "Cash Flow Sweep").

Borrowings under the New Term Loan Facility bear interest at a rate per annum equal to, at the Company's option, either (1) an applicable margin plus a base rate determined by reference to the highest of (a) 0.50% per annum plus the higher of (i) the Federal Funds Effective Rate and (ii) the Overnight Bank Funding Rate as determined by the Federal Reserve Bank of New York, (b) the prime rate of JPMorgan Chase and (c) the LIBOR rate determined by reference to the cost of funds for U.S. dollar deposits for an interest period of one month adjusted for certain additional costs, plus 1.00%; provided that such rate is not lower than a floor of 1.75% or (2) an applicable margin plus a LIBOR rate determined by reference to the costs of funds for U.S. dollar deposits for the interest period relevant to such borrowing adjusted for certain additional costs, provided that LIBOR is not lower than a floor of 0.75%. Borrowings under the New Revolving Credit Facility bear interest at a rate per annum equal to an applicable margin based upon a leverage-based pricing grid, plus, at the Company's option, either (1) a base rate determined by reference to the highest of (a) 0.50% per annum plus the higher of (i) the Federal Funds Effective Rate and (ii) the Overnight Bank Funding Rate as determined by the Federal Reserve Bank of New York, (b) the prime rate of JPMorgan Chase and (c) the LIBOR rate determined by reference to the cost of funds for U.S. dollar deposits for an interest period of one month adjusted for certain additional costs, plus 1.00% or (2) a LIBOR rate determined by reference to the costs of funds for U.S. dollar deposits for the interest period relevant to such borrowing adjusted for certain additional costs. As of March 31, 2018, the applicable margins for the LIBOR rate borrowings under the New Term Loan Facility and the New Revolving Credit Facility were 4.75% and 2.75%, respectively.

On a quarterly basis, the Company pays a commitment fee to the lenders under the New Revolving Credit Facility in respect of unutilized commitments thereunder, which commitment fee fluctuates depending upon the Company's Consolidated Leverage Ratio. Based on the Company's Consolidated Leverage Ratio as of March 31, 2018, the commitment fee was 0.50% per annum.

The Credit Agreement contains other customary terms, including (1) representations, warranties and affirmative covenants, (2) negative covenants, including limitations on indebtedness, liens, mergers, acquisitions, asset sales, investments, distributions, prepayments of subordinated debt, amendments of material agreements governing subordinated indebtedness, changes to lines of business and transactions with affiliates, in each case subject to baskets, thresholds and other exceptions, and (3) customary events of default.

The availability of certain baskets and the ability to enter into certain transactions are also subject to compliance with certain financial ratios. In addition, the New Revolving Credit Facility includes a maintenance covenant that will require, in certain circumstances, compliance with certain first lien secured net leverage ratios.

As of March 31, 2018, the Company was in compliance with all financial covenants in the Credit Agreement governing the New Credit Facilities.

Senior Notes

The Notes were issued pursuant to an Indenture, dated as of November 29, 2017 (the “Indenture”), among the Company, the guarantors named therein and The Bank of New York Mellon, as trustee. The Indenture contains customary covenants, events of default and other provisions for an issuer of non-investment grade debt securities. These covenants include limitations on

indebtedness, liens, mergers, acquisitions, asset sales, investments, distributions, prepayments of subordinated debt and transactions with affiliates, in each case subject to baskets, thresholds and other exceptions.

The Notes accrue interest at a rate per annum equal to 8.625% and are due on December 1, 2025. Interest on the Notes is payable semi-annually on June 1 and December 1 of each year, beginning on June 1, 2018. On or after December 1, 2020, the Company may on any one or more occasions redeem some or all of the Notes at a purchase price equal to 104.313% of the principal amount of the Notes, plus accrued and unpaid interest, if any, to, but not including, the redemption date, such optional redemption price decreasing to 102.156% on or after December 1, 2021 and to 100.000% on or after December 1, 2022. Prior to December 1, 2020, the Company may on any one or more occasions redeem up to 40% of the aggregate principal amount of the Notes with an amount not to exceed the net proceeds of certain equity offerings at 108.625% of the aggregate principal amount thereof, plus accrued and unpaid interest, if any, to, but not including, the redemption date. Prior to December 1, 2020, the Company may redeem some or all of the Notes at a make-whole price plus accrued and unpaid interest, if any, to, but not including, the redemption date. If a change of control occurs, the Company must offer to purchase for cash the Notes at a purchase price equal to 101% of the principal amount of the Notes, plus accrued and unpaid interest, if any, to, but not including, the purchase date. Following the sale of certain assets and subject to certain conditions, the Company must offer to purchase for cash the Notes at a purchase price equal to 100% of the principal amount of the Notes, plus accrued and unpaid interest, if any, to, but not including, the purchase date. The Notes are guaranteed on a senior unsecured basis by the Company's subsidiaries that guarantee the New Credit Facilities.

Outstanding Debt

At March 31, 2018, the Company had \$1,820,750 outstanding under the New Credit Facilities, consisting of the New Term Loan Facility of \$1,520,750 and \$0 drawn down on the New Revolving Credit Facility, and \$300,000 in aggregate principal amount of Notes issued and outstanding.

At March 31, 2018 and December 30, 2017, the Company's debt consisted of both fixed and variable-rate instruments. An interest rate swap was entered into to hedge a portion of the cash flow exposure associated with the Company's variable-rate borrowings. See Note 11 for information on the Company's interest rate swap. The weighted average interest rate (which includes amortization of deferred financing costs and debt discount) on the Company's outstanding debt, exclusive of the impact of the swap, was 7.19% and 7.12% per annum based on interest rates at March 31, 2018 and December 30, 2017, respectively. The weighted average interest rate (which includes amortization of deferred financing costs and debt discount) on the Company's outstanding debt, including the impact of the swap, was 7.35% and 7.34% per annum based on interest rates at March 31, 2018 and December 30, 2017, respectively.

7. Earnings Per Share

Basic earnings per share ("EPS") are calculated utilizing the weighted average number of common shares outstanding during the periods presented. 8. Stock Plans

On May 6, 2008 and May 12, 2004, respectively, the Company's shareholders approved the 2008 Stock Incentive Plan (the "2008 Plan") and the 2004 Stock Incentive Plan (the "2004 Plan"). On May 6, 2014, the Company's shareholders approved the 2014 Stock Incentive Plan (as amended and restated, the "2014 Plan", and together with the 2004 Plan and the 2008 Plan, the "Stock Plans"), which replaced the 2008 Plan and 2004 Plan for all equity-based awards granted on or after May 6, 2014. The 2014 Plan is designed to promote the long-term financial interests and growth of the Company by attracting, motivating and retaining employees with the ability to contribute to the success of the business and to align compensation for the Company's employees over a multi-year period directly with the interests of the shareholders of the Company. The Company's long-term equity incentive compensation program has historically included time-vesting non-qualified stock option and/or restricted stock unit (including performance-based stock unit with both time- and performance-vesting criteria ("PSUs")) awards. The Company's Board of Directors or a committee thereof administers the 2014 Plan.

In fiscal 2017, the Company granted 98.5 PSUs in May 2017 and 47.9 PSUs in July 2017, all having both time- and performance-vesting criteria. The time-vesting criteria for these PSUs will be satisfied on May 15, 2020. The performance-vesting criteria for these PSUs will be satisfied if the Company has achieved, in the case of the May 2017 awards, certain annual operating income objectives and, in the case of the July 2017 award, certain net income or operating income objectives, as applicable for each performance year, in each fiscal year over a three-year period (i.e., fiscal 2017 through fiscal 2019) (each, a “2017 Award Performance Year”). When the performance measure has been met for a particular 2017 Award Performance Year, that portion of units is “banked” for potential issuance following the satisfaction of the time-vesting criteria. Such portion of units to be “banked” shall be equal to (x) the target number of PSUs granted for the applicable 2017 Award Performance Year multiplied by (y) the applicable achievement percentage, rounded down to avoid the issuance of fractional shares. If all of these awards fully meet the time-vesting criteria and, in the case of the performance criteria, taking into account that the fiscal 2017 performance objective was satisfied at the "maximum" achievement level and assuming the minimum performance condition is attained in each of fiscal 2018 and fiscal 2019, depending on the Company's performance achievement in those two years, the number of shares of the Company's common stock issuable under these PSUs range from 106.0 to 227.2. The Company is currently accruing compensation expense to what it believes is the probable outcome upon vesting.

Additionally, in fiscal 2016, the Company granted 289.9 PSUs having both time- and performance-vesting criteria. The time-vesting criteria for these PSUs will be satisfied on the third anniversary of the grant date (i.e., May 16, 2019). The performance-vesting criteria for these PSUs will be satisfied if the Company has achieved a Debt Ratio (as defined in the applicable term sheet for these PSU awards and based on a Debt to EBITDAS ratio (each, as defined therein)) at levels at or below 4.5x over the performance period from December 31, 2017 to December 29, 2018. Pursuant to these awards, the number of PSUs that become vested, if any,

WEIGHT WATCHERS INTERNATIONAL, INC. AND SUBSIDIARIES

upon the satisfaction of both vesting criteria, shall be equal to (x) the target number of PSUs granted multiplied by (y) the applicable Debt Ratio achievement percentage, rounded down to avoid the issuance of fractional shares. If all of these awards fully meet the time-vesting criteria and the minimum performance condition is attained, depending on the Company's Debt Ratio achievement, the number of shares of the Company's common stock issuable under these PSUs range from 56.1 to 280.3. The Company is currently accruing compensation expense to what it believes is the probable outcome upon vesting.

9. Income Taxes

On December 22, 2017, the Tax Cuts and Jobs Act of 2017 (the "2017 Tax Act") was enacted, which, among other things, lowered the U.S. corporate income tax rate to 21% from 35% and established a modified territorial system requiring a mandatory deemed repatriation tax on undistributed earnings of foreign subsidiaries. Beginning in 2018, the 2017 Tax Act also requires a minimum tax on certain earnings generated by foreign subsidiaries while providing for tax-free repatriation of such earnings through a 100% dividends-received deduction. The Company's effective income tax rate in 2017 included a provisional charge of \$56,560, recorded in the fourth quarter of 2017, related to the 2017 Tax Act using information and estimates available as of December 30, 2017. Given the significant complexity of the 2017 Tax Act, recent and anticipated further guidance from the U.S. Treasury about implementing the 2017 Tax Act and the potential for additional guidance from the SEC or the FASB related to the 2017 Tax Act or additional information becoming available, the Company's provisional charge may be adjusted during 2018 and is expected to be finalized no later than the fourth quarter of 2018. Other provisions of the 2017 Tax Act that impact future tax years are still being assessed. The aforementioned guidance and additional information regarding the 2017 Tax Act may also impact the Company's 2018 effective income tax rate, exclusive of any adjustment to the provisional charge.

Additionally, the Company continues to evaluate the impact of the Global Intangible Low Taxes Income ("GILTI") provisions under the 2017 Tax Act which are complex and subject to continuing regulatory interpretation by the U.S. Internal Revenue Service ("IRS"). The Company is required to make an accounting policy election of either (1) treating taxes due on future U.S. inclusions in taxable income related to GILTI as a current period expense when incurred (the "period cost policy") or (2) factoring such amounts into the Company's measurement of its deferred taxes (the "deferred policy"). The Company's accounting policy election with respect to the new GILTI Tax rules will depend, in part, on further guidance issued by the IRS, and on analyzing its global income to determine whether it can reasonably estimate the tax impact. While the Company has included an estimate of GILTI in its estimated effective tax rate for 2018, it has not completed its analysis and is not yet able to determine which method to elect. Adjustments related to the amount of GILTI Tax recorded in its consolidated financial statements may be required based on the outcome of this election.

The effective tax rates for the three months ended March 31, 2018 and April 1, 2017 were (47.7%) and (629.2%), respectively. For the three months ended March 31, 2018, the primary difference between the US federal statutory tax rate and the Company's consolidated effective tax rate was due to the \$18,105 tax benefit related to tax windfalls from

stock compensation and a \$1,859 tax benefit related to the cessation of operations of the Company's Mexican subsidiary.

For the three months ended April 1, 2017, the primary difference between the US federal statutory tax rate and the Company's consolidated effective tax rate was due to the \$11,940 tax benefit related to the cessation of operations of the Company's Spanish subsidiary, partially offset by \$1,184 of tax expense related to tax shortfalls in connection with the updated guidance on stock compensation the Company adopted in the first quarter of fiscal 2017.

10. Legal

Due to the nature of the Company's activities, it is, at times, subject to pending and threatened legal actions that arise out of the ordinary course of business. In the opinion of management, the disposition of any such matters is not expected, individually or in the aggregate, to have a material adverse effect on the Company's results of operations, financial condition or cash flows.

11. Derivative Instruments and Hedging

As of March 31, 2018 and December 30, 2017, the Company had in effect an interest rate swap with a notional amount totaling \$1,250,000.

On July 26, 2013, in order to hedge a portion of its variable rate debt, the Company entered into a forward-starting interest rate swap with an effective date of March 31, 2014 and a termination date of April 2, 2020. The initial notional amount of this swap was \$1,500,000. During the term of this swap, the notional amount decreased from \$1,500,000 effective March 31, 2014 to \$1,250,000 on April 3, 2017, and will decrease to \$1,000,000 on April 1, 2019. This interest rate swap effectively fixes the variable interest rate on the notional amount of this swap at 2.41%. This swap qualifies for hedge accounting and, therefore, changes in the fair value of this swap have been recorded in accumulated other comprehensive loss.

As of March 31, 2018 and December 30, 2017, cumulative unrealized gains (losses) for qualifying hedges were reported as a component of accumulated other comprehensive loss in the amount of \$1,782 (\$2,328 before taxes) and

\$(5,392) ((\$8,839) before taxes), respectively. As of March 31, 2018, the fair value of the swap was an asset of \$146 which is included in prepaid expenses and other current assets in the consolidated balance sheet. As of December 30, 2017, the fair value of the swap was a liability of \$12,171 which is included in derivative payable in the consolidated balance sheet.

The Company is hedging forecasted transactions for periods not exceeding the next three years. The Company expects approximately \$412 (\$553 before taxes) of derivative losses included in accumulated other comprehensive loss at March 31, 2018, based on current market rates, will be reclassified into earnings within the next 12 months.

12. Fair Value Measurements

Accounting guidance on fair value measurements for certain financial assets and liabilities requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

16

WEIGHT WATCHERS INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(IN THOUSANDS, EXCEPT PER SHARE AND PER UNIT AMOUNTS)

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

When measuring fair value, the Company is required to maximize the use of observable inputs and minimize the use of unobservable inputs.

Fair Value of Financial Instruments

The Company's significant financial instruments include long-term debt and an interest rate swap agreement as of March 31, 2018 and December 30, 2017. The fair value of the Company's borrowings under the New Revolving Credit Facility approximated a carrying value of \$0 and \$25,000 at March 31, 2018 and December 30, 2017, respectively, due to the nature of the debt (Level 2 input).

The fair value of the Company's New Credit Facilities is determined by utilizing average bid prices on or near the end of each fiscal quarter (Level 2 input). As of March 31, 2018 and December 30, 2017, the fair value of the Company's long-term debt was approximately \$1,822,740 and \$1,810,085, respectively, as compared to the carrying value (net of deferred financing costs and debt discount) of \$1,780,725 and \$1,798,362, respectively.

Derivative Financial Instruments

The fair values for the Company's derivative financial instruments are determined using observable current market information such as the prevailing LIBOR interest rate and LIBOR yield curve rates and include consideration of counterparty credit risk. See Note 11 for disclosures related to derivative financial instruments.

The following table presents the aggregate fair value of the Company's derivative financial instruments:

	Total Fair Value	Fair Value Measurements Using: Quoted Prices in		
		Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Interest rate swap asset at March 31, 2018	\$146	\$0	\$ 146	\$ 0
Interest rate swap liability at December 30, 2017	\$12,171	\$0	\$ 12,171	\$ 0

The Company did not have any transfers into or out of Levels 1 and 2, and did not maintain any assets or liabilities classified as Level 3, during the three months ended March 31, 2018 and the fiscal year ended December 30, 2017.

You should read the following discussion in conjunction with our Annual Report on Form 10-K for fiscal 2017 that includes additional information about us, our results of operations, our financial position and our cash flows, and with our unaudited consolidated financial statements and related notes included in Item 1 of this Quarterly Report on Form 10-Q (collectively referred to as the “Consolidated Financial Statements”).

NON-GAAP FINANCIAL MEASURES

To supplement our consolidated results presented in accordance with accounting principles generally accepted in the United States, or GAAP, we have disclosed non-GAAP financial measures of operating results that exclude or adjust certain items. We present within this Quarterly Report on Form 10-Q the non-GAAP financial measures earnings before interest, taxes, depreciation, amortization and stock-based compensation (“EBITDAS”), earnings before interest, taxes, depreciation, amortization, stock-based compensation and goodwill impairment (“Adjusted EBITDAS”) and net debt. See “—Liquidity and Capital Resources—EBITDAS, Adjusted EBITDAS and Net Debt” for the calculations. Our

management believes these non-GAAP financial measures provide useful supplemental information to investors regarding the performance of our business and are useful for period-over-period comparisons of the performance of our business. While we believe that these non-GAAP financial measures are useful in evaluating our business, this information should be considered as supplemental in nature and is not meant to be considered in isolation or as a substitute for the related financial information prepared in accordance with GAAP. In addition, these non-GAAP financial measures may not be the same as similarly entitled measures reported by other companies.

USE OF CONSTANT CURRENCY

As exchange rates are an important factor in understanding period-to-period comparisons, we believe in certain cases the presentation of results on a constant currency basis in addition to reported results helps improve investors' ability to understand our operating results and evaluate our performance in comparison to prior periods. Constant currency information compares results between periods as if exchange rates had remained constant period-over-period. We use results on a constant currency basis as one measure to evaluate our performance. In this Quarterly Report on Form 10-Q, we calculate constant currency by calculating current-year results using prior-year foreign currency exchange rates. We generally refer to such amounts calculated on a constant currency basis as excluding or adjusting for the impact of foreign currency or being on a constant currency basis. These results should be considered in addition to, not as a substitute for, results reported in accordance with GAAP and are not meant to be considered in isolation. Results on a constant currency basis, as we present them, may not be comparable to similarly titled measures used by other companies and are not measures of performance presented in accordance with GAAP.

CRITICAL ACCOUNTING POLICIES

For a discussion of the critical accounting policies affecting us, see "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies" of our Annual Report on Form 10-K for fiscal 2017. Our critical accounting policies have not changed since the end of fiscal 2017.

Consolidated Results

Revenues

Revenues in the first quarter of fiscal 2018 were \$408.2 million, an increase of \$79.2 million, or 24.1%, versus the first quarter of fiscal 2017. Excluding the impact of foreign currency, which positively impacted our revenues for the first quarter of fiscal 2018 by \$14.9 million, revenues in the first quarter of fiscal 2018 would have increased 19.5% versus the prior year period. This increase was driven by revenue growth in all major markets. See “—Segment Results” for additional details on revenues.

Cost of Revenues and Gross Profit

Total cost of revenues in the first quarter of fiscal 2018 increased \$22.3 million, or 13.5%, versus the prior year period. Gross profit increased \$56.9 million, or 34.7%, in the first quarter of fiscal 2018 compared to the first quarter of fiscal 2017 primarily due to the increase in revenues. Excluding the impact of foreign currency, which positively impacted gross profit for the first quarter of fiscal 2018 by \$8.6 million, gross profit in the first quarter of fiscal 2018 would have increased 29.5% versus the prior year period. Gross

margin in the first quarter of fiscal 2018 increased 4.3% to 54.1% versus 49.9% in the first quarter of fiscal 2017. Gross margin expansion was driven primarily by improved operating leverage and a mix shift to the higher margin Online business.

Marketing

Marketing expenses for the first quarter of fiscal 2018 increased \$12.5 million, or 14.5%, versus the first quarter of fiscal 2017. Excluding the impact of foreign currency, which increased marketing expenses for the first quarter of fiscal 2018 by \$4.2 million, marketing expenses in the first quarter of fiscal 2018 would have increased 9.5% versus the first quarter of fiscal 2017. This increase in marketing expense was driven primarily by new digital marketing initiatives. Marketing expenses as a percentage of revenue decreased to 24.2% in the first quarter of fiscal 2018 as compared to 26.3% in the prior year period.

Selling, General and Administrative

Selling, general and administrative expenses for the first quarter of fiscal 2018 increased \$12.6 million, or 26.5%, versus the first quarter of fiscal 2017. Excluding the impact of foreign currency, which increased selling, general and administrative expenses for the first quarter of fiscal 2018 by \$1.4 million, selling, general and administrative expenses in the first quarter of fiscal 2018 would have increased 23.6% versus the prior year period. The increase in selling, general and administrative expenses in the first quarter of fiscal 2018 was driven primarily by higher compensation and incentive-related costs and investments in brand initiatives. Selling, general and administrative expenses as a percentage of revenue for the first quarter of fiscal 2018 increased to 14.7% from 14.4% for the first quarter of fiscal 2017.

Excluding the impact of foreign currency, which positively impacted operating income for the first quarter of fiscal 2018 by \$2.9 million, operating income in the first quarter of fiscal 2018 would have increased 95.6% versus the prior year period. This increase in operating income was driven by higher operating income in all major markets as compared to the prior year period. Operating income margin increased 6.0% for the first quarter of fiscal 2018 compared to the first quarter of fiscal 2017. This increase in operating income margin was driven primarily by an increase in gross margin and a decrease in marketing expenses as a percentage of revenue, both as compared to the prior year period.

Interest Expense

Interest expense in the first quarter of fiscal 2018 increased \$7.7 million, or 27.4%, versus the first quarter of fiscal 2017. The increase in interest expense was driven primarily by higher interest expense arising from the interest rates under our New Term Loan Facility (defined hereafter) and on our Notes (defined hereafter) in connection with our November 2017 debt refinancing. The effective interest rate on our debt, based on interest incurred (which includes amortization of our deferred financing costs and debt discount) and our average borrowings during the first quarter of fiscal 2018 and the first quarter of fiscal 2017 and excluding the impact of our interest rate swap, increased to 7.15% per annum at the end of the first quarter of fiscal 2018 from 4.52% per annum at the end of the first quarter of fiscal 2017. Including the impact of our interest rate swap, the effective interest rate on our debt, based on interest incurred (which includes amortization of our deferred financing costs and debt discount) and our average borrowings during the first quarter of fiscal 2018 and the first quarter of fiscal 2017, increased to 7.64% per annum at the end of the first

The effective tax rate in the first quarter of fiscal 2017 was impacted by an \$11.9 million tax benefit related to the cessation of operations of our Spanish subsidiary. This benefit was partially offset by \$1.2 million of tax expense related to tax shortfalls in connection with the updated guidance on stock compensation in the first quarter of fiscal 2017.

Net Income Attributable to the Company and Earnings Per Share

Net income attributable to the Company in the first quarter of fiscal 2018 increased \$28.5 million, or 267.2%, from the first quarter of fiscal 2017. LIQUIDITY AND CAPITAL RESOURCES

Cash flows provided by operating activities have historically supplied, and are expected to continue to supply, us with our primary source of liquidity. We use these cash flows, supplemented with long-term debt and short-term borrowings, to fund our operations and global strategic initiatives, pay down debt and engage in selective acquisitions. We believe that cash generated by operations during fiscal 2018, our cash on hand of approximately \$117.6 million at March 31, 2018, our \$148.7 million of availability under our New Revolving Credit Facility and our continued cost focus will provide us with sufficient liquidity to meet our obligations for the next twelve months.

Balance Sheet Working Capital

The following table sets forth certain relevant measures of our balance sheet working capital at:

	March 31, 2018 (in millions)	December 30, 2017	Increase/ (Decrease)
Total current assets	\$257.0	\$ 209.0	\$ 48.0
Total current liabilities	356.4	343.0	13.4
Working capital deficit	(99.4)	(134.0)	(34.6)
Cash and cash equivalents	117.6	83.1	34.6
Current portion of long-term debt	77.0	82.8	(5.8)
Working capital deficit, excluding cash and cash equivalents and current portion of long-term debt	\$(140.0)	\$ (134.3)	\$ 5.7

Note: Totals may not sum due to rounding.

The following table sets forth a summary of the primary factors contributing to this \$5.7 million increase in our working capital deficit:

	March 31, 2018 (in millions)	December 30, 2017	Increase/ (Decrease)	Impact to Working Capital Deficit
Derivative payable	\$-	\$ 12.2	\$ (12.2)	\$ (12.2)
Operational liabilities and other, net of assets	\$82.8	\$ 55.8	\$ 27.0	\$ 27.0
Deferred revenue	\$94.7	\$ 74.3	\$ 20.3	\$ 20.3
Other current assets	\$26.7	\$ 26.8	\$ (0.2)	\$ 0.2
Accrued salaries and wages	\$47.9	\$ 62.2	\$ (14.3)	\$ (14.3)
Prepaid income taxes	\$58.7	\$ 43.4	\$ 15.2	\$ (15.2)
Working capital deficit change				\$ 5.7

Note: Totals may not sum due to rounding.

The increase in deferred revenue was driven by improved business performance. The increase in operational liabilities and other, net of assets, and the decrease in accrued salaries and wages was driven primarily by the timing of payments.

Cash Flows

The following table sets forth a summary of the Company's cash flows for the three months ended:

	March 31, 2018	April 1, 2017
	(in millions)	
Net cash provided by operating activities	\$73.5	\$42.3
Net cash used for investing activities	\$(7.7)	\$(10.5)
Net cash used for financing activities	\$(31.7)	\$(5.8)

Operating Activities

First Quarter of Fiscal 2018

Cash flows provided by operating activities of \$73.5 million for the first quarter of fiscal 2018 reflected an increase of \$31.1 million from \$42.3 million of cash flows provided by operating activities in the first quarter of fiscal 2017. The increase in cash provided by operating activities was primarily the result of an increase in net income attributable to the Company of \$28.5 million in the first quarter of fiscal 2018 as compared to the prior year period.

First Quarter of Fiscal 2017

Cash flows provided by operating activities of \$42.3 million for the first quarter of fiscal 2017 reflected a decrease of \$1.0 million from \$43.3 million of cash flows used for operating activities in the first quarter of fiscal 2016. The decrease in cash provided by operating activities was primarily the result of \$26.8 million of deficit from year-over-year change in working capital, which consisted of a decrease in accounts payable, accrued expenses and prepaid expenses, partially offset by an increase in deferred revenue and inventory in the first quarter of fiscal 2017 as compared to the prior year period.

Investing Activities

First Quarter of Fiscal 2018

Net cash used for investing activities totaled \$7.7 million in the first quarter of fiscal 2018, a decrease of \$2.7 million as compared to the first quarter of fiscal 2017. This decrease was due to a greater investment in operating infrastructure in the first quarter of fiscal 2017 as compared to the first quarter of fiscal 2018.

First Quarter of Fiscal 2017

Net cash used for investing activities totaled \$10.5 million in the first quarter of fiscal 2017, an increase of \$1.5 million as compared to the first quarter of fiscal 2016. This increase was due to a greater investment in operating infrastructure in the first quarter of fiscal 2017 as compared to the first quarter of fiscal 2016.

Financing Activities

First Quarter of Fiscal 2018

Net cash used for financing activities totaled \$31.7 million in the first quarter of fiscal 2018, primarily due to \$25.0 million of net repayments on the outstanding principal amount on the New Revolving Credit Facility and \$19.3 million used for the scheduled debt repayments under our New Term Loan Facility, which was offset by \$14.7 million in proceeds from stock options exercised.

First Quarter of Fiscal 2017

Net cash used for financing activities totaled \$5.8 million in the first quarter of fiscal 2017, primarily due to scheduled debt repayments of \$5.2 million in connection with our then-existing tranche B-2 term facility in the first quarter of fiscal 2017.

Long-Term Debt

We currently plan to meet our long-term debt obligations by using cash flows provided by operating activities and opportunistically using other means to repay or refinance our obligations as we determine appropriate.

The following schedule sets forth our long-term debt obligations at March 31, 2018:

Long-Term Debt

At March 31, 2018

(Balances in millions)

	Balance
New Term Loan Facility due	
November 29, 2024	\$1,520.8
Notes due December 1, 2025	300.0
Total	1,820.8
Less: Current Portion	77.0
Unamortized Deferred Financing Costs	10.7
Unamortized Debt Discount	29.3
Total Long-Term Debt	\$1,703.7

Note: Totals may not sum due to rounding.

On November 29, 2017, we refinanced our then-existing credit facilities consisting of \$1,930.4 million of borrowings under a term loan facility and an undrawn \$50.0 million revolving credit facility with \$1,565.0 million of borrowings under our new credit facilities, consisting of a \$1,540.0 million term loan facility and a \$150.0 million revolving credit facility (of which \$25.0 million was drawn upon at the time of the November 2017 debt refinancing) (collectively referred to herein as the New Credit Facilities), and \$300.0 million in aggregate principal amount of 8.625% Senior Notes due 2025, or the Notes. During the fourth quarter of fiscal 2017, we incurred fees of \$53.8 million (which included \$30.8 million of a debt discount) in connection with the November 2017 debt refinancing. In addition, we recorded a loss on early extinguishment of debt of \$10.5 million in connection thereto. This early extinguishment of debt write-off was comprised of \$5.7 million of deferred financing fees paid in connection with the November 2017 debt refinancing and \$4.8 million of pre-existing deferred financing fees.

Senior Secured Credit Facilities

The New Credit Facilities were issued under a new credit agreement, dated November 29, 2017, or the Credit Agreement, among the Company, as borrower, the lenders party thereto, JPMorgan Chase Bank, N.A., or JPMorgan Chase, as administrative agent and an issuing bank, Bank of America, N.A., as an issuing bank, and Citibank, N.A., as an issuing bank. The New Credit Facilities consist of (1) \$1,540.0 million in aggregate principal amount of senior secured tranche B term loans due in 2024, or the New Term Loan Facility, and (2) a \$150.0 million senior secured revolving credit facility (which includes borrowing capacity available for letters of credit) due in 2022, or the New

Revolving Credit Facility.

As of March 31, 2018, we had \$1,520.8 million of debt outstanding under the New Credit Facilities, with \$148.7 million of availability and \$1.3 million in issued but undrawn letters of credit outstanding under the New Revolving Credit Facility. The outstanding balance under the New Revolving Credit Facility is included in the current portion of long-term debt on the accompanying consolidated balance sheet as of December 30, 2017 included elsewhere in this Quarterly Report on Form 10-Q, due to our intent to repay the borrowings within the next twelve months.

All obligations under the Credit Agreement are guaranteed by, subject to certain exceptions, each of the Company's current and future wholly-owned material domestic restricted subsidiaries. All obligations under the Credit Agreement, and the guarantees of those obligations, are secured by substantially all of the assets of the Company and each guarantor, subject to customary exceptions, including:

- a pledge of 100% of the equity interests directly held by the Company and each guarantor in any wholly-owned domestic material subsidiary of the Company or any guarantor (which pledge, in the case of any non-U.S. subsidiary of a U.S. subsidiary, will not include more than 65% of the voting stock of such first-tier non-U.S. subsidiary), subject to certain exceptions; and
- a security interest in substantially all other tangible and intangible assets of the Company and each guarantor, subject to certain exceptions.

Under the terms of the Credit Agreement, depending on our Consolidated Leverage Ratio (as defined in the Credit Agreement), on an annual basis on or about the time we are required to deliver our financial statements for any fiscal year, we are obligated to offer to prepay a portion of the outstanding principal amount of the New Term Loan Facility in an aggregate amount determined by a percentage of our annual excess cash flow (as defined in the Credit Agreement) (said payment referred to herein as a Cash Flow Sweep).

Borrowings under the New Term Loan Facility bear interest at a rate per annum equal to, at our option, either (1) an applicable margin plus a base rate determined by reference to the highest of (a) 0.50% per annum plus the higher of (i) the Federal Funds Effective Rate and (ii) the Overnight Bank Funding Rate as determined by the Federal Reserve Bank of New York, (b) the prime rate of JPMorgan Chase and (c) the LIBOR rate determined by reference to the cost of funds for U.S. dollar deposits for an interest period of one month adjusted for certain additional costs, plus 1.00%; provided that such rate is not lower than a floor of 1.75% or (2) an applicable margin plus a LIBOR rate determined by reference to the costs of funds for U.S. dollar deposits for the interest period relevant to such borrowing adjusted for certain additional costs, provided that LIBOR is not lower than a floor of 0.75%. Borrowings under the New Revolving Credit Facility bear interest at a rate per annum equal to an applicable margin based upon a leverage-based pricing grid, plus, at our option, either (1) a base rate determined by reference to the highest of (a) 0.50% per annum plus the higher of (i) the Federal Funds Effective Rate and (ii) the Overnight Bank Funding Rate as determined by the Federal Reserve Bank of New York, (b) the prime rate of JPMorgan Chase and (c) the LIBOR rate determined by reference to the cost of funds for U.S. dollar deposits for an interest period of one month adjusted for certain additional costs, plus 1.00% or (2) a LIBOR rate determined by reference to the costs of funds for U.S. dollar deposits for the interest period relevant to such borrowing adjusted for certain additional costs. As of March 31, 2018, the applicable margins for the LIBOR rate borrowings under the New Term Loan Facility and the New Revolving Credit Facility were 4.75% and 2.75%, respectively.

On a quarterly basis, we pay a commitment fee to the lenders under the New Revolving Credit Facility in respect of unutilized commitments thereunder, which commitment fee fluctuates depending upon our Consolidated Leverage Ratio. Based on our Consolidated Leverage Ratio as of March 31, 2018, the commitment fee was 0.50% per annum.

The Credit Agreement contains other customary terms, including (1) representations, warranties and affirmative covenants, (2) negative covenants, including limitations on indebtedness, liens, mergers, acquisitions, asset sales, investments, distributions, prepayments of subordinated debt, amendments of material agreements governing subordinated indebtedness, changes to lines of business and transactions with affiliates, in each case subject to baskets, thresholds and other exceptions, and (3) customary events of default.

The availability of certain baskets and the ability to enter into certain transactions are also subject to compliance with certain financial ratios. In addition, the New Revolving Credit Facility includes a maintenance covenant that will require, in certain circumstances, compliance with certain first lien secured net leverage ratios.

As of March 31, 2018, we were in compliance with all covenants in the Credit Agreement governing the New Credit Facilities.

Senior Notes

The Notes were issued pursuant to an Indenture, dated as of November 29, 2017, or the Indenture, among the Company, the guarantors named therein and The Bank of New York Mellon, as trustee. The Indenture contains customary covenants, events of default and other provisions for an issuer of non-investment grade debt securities. These covenants include limitations on indebtedness, liens, mergers, acquisitions, asset sales, investments, distributions, prepayments of subordinated debt and transactions with affiliates, in each case subject to baskets, thresholds and other exceptions.

The Notes accrue interest at a rate per annum equal to 8.625% and are due on December 1, 2025. Interest on the Notes is payable semi-annually on June 1 and December 1 of each year, beginning on June 1, 2018. On or after December 1, 2020, the Company may on any one or more occasions redeem some or all of the Notes at a purchase price equal to 104.313% of the principal amount of the Notes, plus accrued and unpaid interest, if any, to, but not including, the redemption date, such optional redemption price decreasing to 102.156% on or after December 1, 2021 and to 100.000% on or after December 1, 2022. Prior to December 1, 2020, the Company may on any one or more occasions redeem up to 40% of the aggregate principal amount of the Notes with an amount not to exceed the net proceeds of certain equity offerings at 108.625% of the aggregate principal amount thereof, plus accrued and unpaid interest, if any, to, but not including, the redemption date. Prior to December 1, 2020, the Company may redeem some or all of the Notes at a make-whole price plus accrued and unpaid interest, if any, to, but not including, the redemption date. If a change of control occurs, the Company must offer to purchase for cash the Notes at a purchase price equal to 101% of the principal amount of the Notes, plus accrued and unpaid interest, if any, to, but not including, the purchase date. Following the sale of certain assets and subject to certain conditions, the Company must offer to purchase for cash the Notes at a purchase price equal to 100% of the principal amount of the Notes, plus accrued and unpaid interest, if any, to, but not including, the purchase date. The Notes are guaranteed on a senior unsecured basis by the Company's subsidiaries that guarantee the New Credit Facilities.

Outstanding Debt

At March 31, 2018, we had \$1,820.8 million outstanding under the New Credit Facilities consisting of the New Term Loan Facility of \$1,520.8 million and \$0 drawn down on the New Revolving Credit Facility, and \$300.0 million in aggregate principal amount of Notes issued and outstanding.

At March 31, 2018 and December 30, 2017, our debt consisted of both fixed and variable-rate instruments. An interest rate swap was entered into to hedge a portion of the cash flow exposure associated with our variable-rate borrowings. Further information regarding our interest rate swap can be found in Part I, Item 1 of this Quarterly Report on Form 10-Q under Note 11 “Derivative Instruments and Hedging” in the Notes to the Consolidated Financial Statements. The weighted average interest rate (which includes amortization of deferred financing costs and debt discount) on our outstanding debt, exclusive of the impact of the swap, was 7.19%, and 7.12% per annum at March 31, 2018 and December 30, 2017, respectively, based on interest rates on the applicable dates. The weighted average interest rate (which includes amortization of deferred financing costs and debt discount) on our outstanding debt, including the impact of the swap, was 7.35% and 7.34% per annum at March 31, 2018 and December 30, 2017, respectively, based on interest rates on the applicable dates.

The following schedule sets forth our year-by-year debt obligations at March 31, 2018:

Dividends and Stock Transactions

We do not currently pay a dividend and we have no current plans to pay dividends in the foreseeable future. Any future determination to declare and pay dividends will be made at the sole discretion of our Board of Directors, after taking into account our financial condition and results of operations, capital requirements, contractual, legal, tax and regulatory restrictions, the provisions of Virginia law affecting the payment of distributions to shareholders and such other factors our Board of Directors may deem relevant. In addition, our ability to pay dividends may be limited by covenants in our existing indebtedness, including the New Credit Facilities and the indenture governing the Notes, and may be limited by the agreements governing other indebtedness we or our subsidiaries incur in the future.

On October 9, 2003, our Board of Directors authorized, and we announced, a program to repurchase up to \$250.0 million of our outstanding common stock. On each of June 13, 2005, May 25, 2006 and October 21, 2010, our Board of Directors authorized, and we announced, adding \$250.0 million to this program. The repurchase program allows for shares to be purchased from time to time in the open market or through privately negotiated transactions. No shares will be purchased from Artal Holdings Sp. z o.o., Succursale de Luxembourg and its parents and subsidiaries under this program. The repurchase program currently has no expiration date. During the three months ended March 31, 2018 and April 1, 2017, we repurchased no shares of our common stock in the open market under this program.

EBITDAS, Adjusted EBITDAS and Net Debt

We define EBITDAS, a non-GAAP financial measure, as earnings before interest, taxes, depreciation, amortization and stock-based compensation and Adjusted EBITDAS, a non-GAAP financial measure, as earnings before interest, taxes, depreciation, amortization and stock-based compensation and goodwill impairment. The table below sets forth the calculations for EBITDAS for the three months ended March 31, 2018 and April 1, 2017, and EBITDAS and Adjusted EBITDAS for the trailing twelve months ended March 31, 2018:

(in millions)

(in millions)

	March

Note: Totals may not sum due to rounding.

We present EBITDAS, Adjusted EBITDAS and net debt/Adjusted EBITDAS because we consider them to be useful supplemental measures of our performance. In addition, we believe EBITDAS and net debt/Adjusted EBITDAS are useful to investors, analysts and rating agencies in measuring the ability of a company to meet its debt service obligations. See “—Non-GAAP Financial Measures” herein for an explanation of our use of these non-GAAP financial

measures.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As of March 31, 2018, the market risk disclosures appearing in “Item 7A. Quantitative and Qualitative Disclosures about Market Risk” of our Annual Report on Form 10-K for fiscal 2017 have not materially changed from December 30, 2017.

At the end of the first quarter of fiscal 2018, borrowings under the New Term Loan Facility bore interest at LIBOR plus an applicable margin of 4.75%. For the New Term Loan Facility, the minimum interest rate for LIBOR applicable to such facility pursuant to the terms of the Credit Agreement is set at 0.75%, referred to herein as the LIBOR Floor. In addition, as of March 31, 2018, our interest rate swap in effect had a notional amount of \$1.25 billion. Accordingly, as of March 31, 2018, based on the amount of variable rate debt outstanding and the then-current LIBOR rate, after giving consideration to the impact of the interest rate swap and the LIBOR Floor, a hypothetical 75 basis point increase in interest rates would have increased annual interest expense by approximately \$2.0 million and a hypothetical 75 basis point decrease in interest rates would have decreased annual interest expense by approximately \$3.1 million. This increase is driven primarily by the interest rate applicable to our New Term Loan Facility. This decrease is driven primarily by the lower outstanding debt balance as of March 31, 2018 as compared to December 30, 2017.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and our principal financial officer, as appropriate, to allow timely decisions regarding required disclosures. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Our management, with the participation of our principal executive officer and our principal financial officer, has evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2018, the end of the first quarter of fiscal 2018. Based upon that evaluation and subject to the foregoing, our principal executive officer and our principal financial officer concluded that, as of the end of the first quarter of fiscal 2018, the design and operation of our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting that occurred during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
