INTERNAL CONTROL MEASURES FOR THE CONTINUING CONNECTED TRANSACTIONS

The Continuing Connected Transactions will be settled in accordance with the relevant agreement for each transaction. The Company has in place a series of internal control measures to ensure that the terms of the Centralised Fund Management Agreement and the Framework Agreement are fair and reasonable and that the Continuing Connected Transactions will be conducted on normal commercial terms. As the Continuing Connected Transactions also constitute related party transactions for the Company, they will be subject to the related party transaction policy of the Group, which is further explained below.

1. SMSC has established a related and connected party transaction review committee (the “Review Committee”), which is set up under the board of directors of SMSC. The Review Committee shall report to the board of directors of SMSC and shall be accountable to the board of directors of SMSC. The Review Committee comprised of three members of which one of them was appointed by SMIC Holdings Corporation and Semiconductor Manufacturing International (Shanghai) Corporation (“SMIC Shanghai”) and the other two were appointed by each of Shanghai Integrated Circuit Industry Investment Fund Management Co., Ltd (“Shanghai IC Fund”) and China IC Fund. Poll system is adopted for the voting of the Review Committee and resolutions of the committee should be passed by votes of more than half of the members of the committee. The Review Committee is responsible for reviewing and approving the framework agreement and pricing policy of related and connected transactions entered into by SMSC and the Group. The Review Committee shall monitor and review related and connected party transactions between SMSC and the Group;

2. The Company's compliance office will perform quarterly check on transactions entered under the Centralised Fund Management Agreement and the Framework Agreement to ensure compliance with pricing policies and annual caps are not exceeded;
3. The Company's external auditors will conduct an annual review of the transactions entered into under the Centralised Fund Management Agreement and the Framework Agreements to ensure the transaction amounts are within the annual caps and the transactions are in accordance with the terms set out in the Centralised Fund Management Agreement and the Framework Agreements; and
4. Specific to the Framework Agreement CCT, Group A and SMSC each employs and maintains separate business, operation and accounting personnel of its own. There is clear segregation of approval authority and duty between the two entities. In general, for each type of the Framework Agreement CCT under the Framework Agreement, either the Company or SMSC would propose the transaction price after the review and approval by the relevant department(s), such as the manufacturing department, business administration department, the finance and accounting department, depending on the type of the transaction. The counter party of the relevant department(s) will then, also review and approve the pricing of the transaction before acceptance. As the Company and SMSC maintains separate business units and separate personnel, the relevant department(s) that proposes the transaction price and the relevant department(s) of the counter party that accepts such transaction price would be different persons and under different departmental management;

In accordance with the Listing Rules, the independent non-executive Directors and the auditors of the Company will also perform an annual review of the terms of the Continuing Connected Transactions to ensure that the pricing policy and the annual caps remain fair and reasonable and that appropriate internal control procedures are in place, and will confirm so each year in the annual report published by the Company.

Considering the general principles and the detailed pricing policies, the Directors (including the independent non-executive Directors) are of the view that the methods and procedures are sufficient to ensure that the Continuing Connected Transactions will be conducted on normal commercial terms or better and not prejudicial to the interests of the Company and its minority Shareholders.

REASONS FOR AND BENEFITS OF THE CONTINUING CONNECTED TRANSACTIONS

The Company considers that the entry into of the Centralised Fund Management Agreement and the transactions contemplated thereunder will have the following benefits:

1. Open up the domestic and foreign funding channels of the Group;
2. Reduce the Group's overall debt levels and increase efficient fund usage;
3. Reduce the Group's interest expense; and
4. Obtain favorable exchange rate for the Group.

The Company considers that the entry into the Framework Agreement and the transactions contemplated thereunder will bring the Company an effective and complete wafer production needs.

SMSC operates a 12-inch wafer fab with advanced process capability. As the market demand for advanced process continues to surge, the Company will allocate some of its advanced node manufacturing to SMSC to ensure future wafer production needs of the Company are met.

The business partnership between the Company and SMSC will help to eliminate some duplicated efforts in introducing and manufacturing advanced nodes for IC design houses, thereby reducing the time to market and some overhead expenses for both parties. With the expansion of its capacity and continuous innovation, the Company believes that it will be able to enhance its position in the industry and benefit from the increase in its economies of scale.

The Directors (including the independent non-executive Directors) are of the view that it is in the best interests of the Company and the Shareholders as a whole to enter into the Centralised Fund Management Agreement, the Framework Agreement and the transactions contemplated thereunder, the terms of the Centralised Fund Management Agreement and the Framework Agreement including the proposed annual caps are fair and reasonable, and the entering into of the Centralised Fund Management Agreement, the Framework Agreement and the transactions contemplated thereunder are on normal commercial terms or better, in the ordinary and usual course of business of the Group and in the interests of the Company and the Shareholders as a whole.

No Director is considered to have a material interest in the Centralised Fund Management Agreement or the Framework Agreement which would have required the Director to abstain from voting at the board meeting authorising the Centralised Fund Management Agreement and the Framework Agreement.

IMPLICATIONS UNDER THE LISTING RULES

The Centralised Fund Management Agreement and the Framework Agreement were entered into by the parties at a time when SMSC was not a connected person. Due to the completion of the Contribution by China IC Fund (which indirectly holds approximately 14.82% equity interest in the Company and is therefore a connected person of the Company at the issuer level) in approximately 24.71% equity interest in SMSC as disclosed in the Company's announcement dated 30 January 2018, SMSC has therefore become a connected subsidiary of the Company as defined under Rule 14A.16 of the Listing Rules, and is thus a connected person of the Company. The Centralised Fund Management Agreement, the Framework Agreement and the transactions contemplated thereunder constitute continuing transactions which have subsequently become continuing connected transactions upon the completion of the Contribution by China IC Fund.

This announcement is made pursuant to Rule 14A.60 of the Listing Rules, which requires the Company to comply with the annual review and disclosure requirements and re-comply with all applicable connected transaction requirements upon renewal or variation of the Centralised Fund Management Agreement or the Framework Agreement (as the case maybe).
