Definitions and Reconciliation of Non-GAAP Measures to GAAP Adjusted EBITDA, or earnings before interest, taxes on income, stock-based compensation, management fees, depreciation, amortization, and gains and/or losses on dispositions of property is not a measure of performance or liquidity calculated in

Edgar Filing: PINNACLE ENTERTAINMENT INC. - Form 425

accordance with GAAP. Adjusted EBITDA information is presented as a supplemental disclosure. Adjusted EBITDA should not be construed as an alternative to operating income, as an indicator of the Company's operating performance, as an alternative to cash flows from operating activities, as a measure of liquidity, or as any other measure of performance determined in accordance with GAAP. The Company has significant uses of cash flows, including capital expenditures, interest payments, dividend payments, taxes and debt principal repayments, which are not reflected in adjusted EBITDA. Adjusted EBITDA is presented as a supplemental disclosure as this measure is considered by many to be a better indicator of the Company's operating results than net income (computed in accordance with GAAP). A reconciliation of the Company's adjusted EBITDA to net income (computed in accordance with GAAP) is included in the Company's news announcements and financial schedules available on the Company's website. Adjusted EBITDAR is Adjusted EBITDA excluding rent. Funds From Operations ("FFO") is equal to net income, excluding gains or losses from dispositions of property, and real estate depreciation. FFO is defined by NAREIT (the National Association of Real Estate Investment Trusts, the trade organization for REITs) as "the most commonly accepted and reported measure of REIT operating performance." Adjusted Funds From Operations ("AFFO") is defined as FFO excluding stock based compensation expense, the amortization of debt issuance costs and other depreciation reduced by maintenance capex. A reconciliation of FFO and AFFO to net income (computed in accordance with GAAP) is included in the news announcements and financial schedules available on the Company's website. FFO and AFFO do not represent cash flow from operations as defined by GAAP, should not be considered as an alternative to net income as defined by GAAP and are not indicative of cash available to fund all cash flow needs. Notwithstanding the foregoing, GLPI's measures of adjusted EBITDA, FFO and AFFO may not be comparable to similarly titled measures used by other companies 18 Gaming & Leisure Properties, Inc.
