POLARIS INDUSTRIES INC.
(Exact name of registrant as specified in its charter)

Minnesota

(State or other jurisdiction of
incorporation or organization)

41-1790959
(I.R.S.
Employer
Identification
No.)

2100 Highway 55, Medina MN
(Address of principal executive offices)

55340
(Zip Code)

(763) 542-0500
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):
Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

APPLICABLE ONLY TO CORPORATE ISSUERS:

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

As of April 19, 2018, 63,144,648 shares of Common Stock, \$.01 par value, of the registrant were outstanding.

POLARIS INDUSTRIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Significant Accounting Policies

Basis of presentation. The accompanying unaudited consolidated financial statements of Polaris Industries Inc. (“Polaris” or the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States for interim financial statements and, therefore, do not include all information and disclosures of results of operations, financial position and changes in cash flow in conformity with accounting principles generally accepted in the United States for complete financial statements. Accordingly, such statements should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended December 31, 2017 previously filed with the Securities and Exchange Commission (“SEC”). In the opinion of management, such statements reflect all adjustments (which include only normal recurring adjustments) necessary for a fair presentation of the financial position, results of operations, and cash flows for the periods presented. Due to the seasonality trends for certain products and to certain changes in production and shipping cycles, results of such periods are not necessarily indicative of the results to be expected for the complete year.

Fair value measurements. Fair value is the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Assets and liabilities measured at fair value are classified using the following hierarchy, which is based upon the transparency of inputs to the valuation as of the measurement date:

Level 1 — Quoted prices in active markets for identical assets or liabilities.

Level 2 — Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

In making fair value measurements, observable market data must be used when available. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement. The Company utilizes the market approach to measure fair value for its non-qualified deferred compensation assets and liabilities, and the income approach for foreign currency contracts and commodity contracts. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities, and for the income approach, the Company uses significant other observable inputs to value its derivative instruments used to hedge foreign currency and commodity transactions.

Assets and liabilities measured at fair value on a recurring basis are summarized below (in thousands):

Asset (Liability)	Fair Value Measurements as of March 31, 2018			
	Total	Level 1	Level 2	Level 3
Non-qualified deferred compensation assets	\$ 55,400	\$ 55,400	\$ —	\$ —
Foreign exchange contracts, net	5,264	—	5,264	—
Total assets at fair value	\$ 60,664	\$ 55,400	\$ 5,264	\$ —
Non-qualified deferred compensation liabilities	\$ (55,400)	\$ (55,400)	\$ —	\$ —
Total liabilities at fair value	\$ (55,400)	\$ (55,400)	\$ —	\$ —

Asset (Liability)	Fair Value Measurements as of December 31, 2017			
	Total	Level 1	Level 2	Level 3
Non-qualified deferred compensation assets	\$ 54,244	\$ 54,244	\$ —	\$ —
Total assets at fair value	\$ 54,244	\$ 54,244	\$ —	\$ —
Non-qualified deferred compensation liabilities	\$ (54,244)	\$ (54,244)	\$ —	\$ —

Fair value of other financial instruments. The carrying values of the Company's short-term financial instruments, including cash and cash equivalents, trade receivables and short-term debt, including current maturities of long-term debt, capital lease

7

Table of Contents

obligations and notes payable, approximate their fair values. At March 31, 2018 and December 31, 2017, the fair value of the Company's long-term debt, capital lease obligations and notes payable was approximately \$1,035,424,000 and \$922,123,000, respectively, and was determined using Level 2 inputs, including quoted market prices or discounted cash flows based on quoted market rates for similar types of debt. The carrying value of long-term debt, capital lease obligations and notes payable including current maturities was \$1,029,479,000 and \$913,012,000 as of March 31, 2018 and December 31, 2017, respectively.

Inventories. Inventory costs include material, labor and manufacturing overhead costs, including depreciation expense associated with the manufacture and distribution of the Company's products. Inventories are stated at the lower of cost (first-in, first-out method) or market. The major components of inventories are as follows (in thousands):

	March 31,	December
	2018	31, 2017
Raw materials and purchased components	\$220,301	\$194,108
Service parts, garments and accessories	320,237	307,684
Finished goods	428,894	329,288
Less: reserves	(46,507)	(47,119)
Inventories	\$922,925	\$783,961

Product warranties. Polaris provides a limited warranty for its vehicles for a period of six months to two years, depending on the product. Polaris provides longer warranties in certain geographical markets as determined by local regulations and market conditions and may also provide longer warranties related to certain promotional programs. Polaris' standard warranties require the Company or its dealers to repair or replace defective products during such warranty periods at no cost to the consumer. The warranty reserve is established at the time of sale to the dealer or distributor based on management's best estimate using historical rates and trends. Adjustments to the warranty reserve are made from time to time as actual claims become known in order to properly estimate the amounts necessary to settle future and existing claims on products sold as of the balance sheet date. Factors that could have an impact on the warranty accrual in any given period include the following: change in manufacturing quality, shifts in product mix, changes in warranty coverage periods, snowfall and its impact on snowmobile usage, product recalls and any significant changes in sales volume. The activity in the warranty reserve during the periods presented was as follows (in thousands):

	Three months ended	
	March 31,	
	2018	2017
Balance at beginning of period	\$123,840	\$119,274
Additions charged to expense	16,031	31,694
Warranty claims paid, net	(23,585)	(41,116)
Balance at end of period	\$116,286	\$109,852

New accounting pronouncements.

Revenue from contracts with customers. Effective January 1, 2018, the Company adopted ASU No. 2014-09, Revenue from Contracts with Customers, ASU 2016-08, Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net), and ASU 2016-12, Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients using the modified retrospective approach. The adoption of these ASUs did not have a material impact on the Company's consolidated financial position, results of operations, equity or cash flows as of the adoption date or for the three months ended March 31, 2018. The Company has included the disclosures required by ASU 2014-09 in Note 2.

Statement of cash flows. During the first quarter of 2018, the Company adopted ASU No. 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash, which requires that restricted cash be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. Prior periods were retrospectively adjusted to conform to the current period's presentation. Upon adoption of ASU 2016-18, the Company recorded a decrease of \$3,887,000 in net cash provided by operating activities for the

three months ended March 31, 2017 related to reclassifying the changes in our restricted cash balance from operating activities to the cash and cash equivalent balances within the Consolidated Statements of Cash Flows.

Leases. In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842). This ASU requires most lessees to recognize right of use assets and lease liabilities, but recognize expenses in a manner similar with current accounting standards. The standard is effective for fiscal years and interim periods beginning after December 15, 2018 and is effective

Table of Contents

for the Company's fiscal year beginning January 1, 2019. Entities are required to use a modified retrospective approach, with early adoption permitted. The Company is evaluating the impact of this new standard on the financial statements.

Derivatives and hedging. In August 2017, the FASB issued ASU No. 2017-12, Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities. This ASU better aligns accounting rules with a company's risk management activities; better reflects economic results of hedging in financial statements; and simplifies hedge accounting treatment. The standard is effective for fiscal years and interim periods beginning after December 15, 2018 and is effective for the Company's fiscal year beginning January 1, 2019, with early adoption permitted. The Company is evaluating the impact of this new standard on the financial statements.

Income Taxes. The Tax Cuts and Jobs Act (the "Act") was enacted on December 22, 2017. The Act reduces the U.S. federal corporate tax rate from 35% to 21%, requires companies to pay a one-time transition tax on earnings of certain foreign subsidiaries that were previously tax deferred and creates new taxes on certain foreign-sourced earnings.

The Company has applied the guidance in ASU 2018-05, Income Taxes (Topic 740): Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 118, when accounting for the enactment-date effects of the Act. At March 31, 2018, the Company has not completed its accounting for the tax effects of the Act, as the Company is in the process of analyzing certain aspects of the Act, obtaining information, and refining its calculations of the Act's impact. There have been no material measurement period adjustments made during the quarter ended March 31, 2018 related to the provisional amounts recorded and disclosed in the Company's fiscal 2017 Annual Report filed on Form 10-K. The Company expects to complete the accounting for the tax effects of the Act during 2018.

There are no other new accounting pronouncements that are expected to have a significant impact on the Company's consolidated financial statements.

Note 2. Revenue Recognition

The following tables disaggregate the Company's revenue by major product type and geography (in thousands):

For the period ended March 31, 2018

	ORV / Snowmobiles	Motorcycles	Global Adj. Markets	Aftermarket	Consolidated
Revenue by product type					
Wholegoods	\$683,504	\$114,108	\$92,012	—	\$889,624
PG&A	149,060	17,449	21,315	\$220,025	407,849
Total revenue	\$832,564	\$131,557	\$113,327	\$220,025	\$1,297,473
Revenue by geography					
United States	\$662,595	\$83,897	\$50,053	\$210,994	\$1,007,539
Canada	57,755	6,940	5,369	9,031	79,095
EMEA	78,929	26,671	56,921	—	162,521
APLA	33,285	14,049	984	—	48,318
Total revenue	\$832,564	\$131,557	\$113,327	\$220,025	\$1,297,473

Revenue is recognized when obligations under the terms of a contract with the Company's customer are satisfied which generally occurs with the transfer of control of the wholegood vehicles, parts, garments or accessories, or services. Revenue is measured as the amount of consideration the Company expects to receive in exchange for transferring goods or providing services. Sales, value add, and other taxes the Company collects concurrent with revenue-producing activities are excluded from revenue. Incidental items that are immaterial in the context of the contract are recognized as expense. The expected costs associated with the Company's limited warranties and field service bulletin actions continue to be recognized as expense when the products are sold. The Company recognizes revenue for vehicle service contracts that extend mechanical and maintenance beyond the Company's limited warranties over the life of the contract.

ORV/Snowmobiles, Motorcycles and Global Adjacent Markets segments

Wholegood vehicles and parts, garments and accessories. For the majority of wholegood vehicles, parts, garments and accessories (PG&A), the Company transfers control and recognizes a sale when it ships the product from its manufacturing facility, distribution center, or vehicle holding center to its customer (primarily dealers and distributors). The amount of consideration the Company receives and revenue it recognizes varies with changes in marketing incentives and returns it

Table of Contents

offers to its dealers and their customers. Sales returns are not material. The Company adjusts its estimate of revenue at the earlier of when the most likely amount of consideration it expects to receive changes or when the consideration becomes fixed.

Depending on the terms of the arrangement, the Company may also defer the recognition of a portion of the consideration received because it has to satisfy a future obligation (e.g., free extended service contracts). The Company uses an observable price to determine the stand-alone selling price for separate performance obligations. The Company has elected to recognize the cost for freight and shipping when control over vehicles, parts, garments or accessories have transferred to the customer as an expense in Cost of sales.

Extended Service Contracts. The Company sells separately-priced service contracts that extend mechanical and maintenance coverages beyond its base limited warranty agreements to vehicle owners. The separately priced service contracts range from 12 months to 84 months. The Company receives payment at the inception of the contract and recognizes revenue over the term of the agreement in proportion to the costs expected to be incurred in satisfying the obligations under the contract.

Aftermarket segment

The Company's Aftermarket products are sold through dealer, distributor, retail, and e-commerce channels. The Company transfers control and recognizes a sale when products are shipped or delivered to its customer. The amount of consideration the Company receives and revenue it recognizes varies with changes in marketing incentives and return rights it offers to its customers and their customers. When the Company gives its customers the right to return eligible parts and accessories, it estimates the expected returns based on an analysis of historical experience. The Company adjusts its estimate of revenue at the earlier of when the most likely amount of consideration it expects to receive changes or when the consideration becomes fixed.

Service revenue. At the Company's Transamerican Auto Parts ("TAP") retail stores (4 Wheel Parts), it offers installation services for parts that the retail store sells. Service revenues are recognized upon completion of the service.

Depending on the terms of the arrangement, the Company may also defer the recognition of a portion of the consideration received because it has to satisfy a future obligation (e.g., extended service contracts). The Company uses an observable price to determine the stand-alone selling price for separate performance obligations. The Company has elected to recognize the cost for freight and shipping when control over parts, garments or accessories have transferred to the customer as an expense in cost of sales.

Deferred revenue

In 2016, Polaris began financing its self-insured risks related to extended service contracts ("ESCs"). The premiums for ESCs are primarily recognized in income in proportion to the costs expected to be incurred over the contract period.

TAP recognizes revenues related to sales of its extended warranty programs for tires and other products over the term of the warranty period, which varies from two to five years. Warranty costs are recognized as incurred. Revenues related to sales of its extended warranty program for powertrains and related accrued costs for claims are deferred and amortized over the warranty period, generally five years, while warranty administrative costs are recognized as incurred.

At January 1, 2018, \$45,760,000 of unearned revenue associated with outstanding contracts was reported in other current liabilities and other long-term liabilities. At March 31, 2018, the unearned amount was \$49,345,000. The Company expects to recognize approximately \$20,510,000 of the unearned amount in 2018 and \$28,835,000 thereafter. The activity in the deferred revenue reserve during the periods presented was as follows (in thousands):

	Three months ended March 31,	
	2018	2017
Balance at beginning of period	\$45,760	\$26,157
New contracts sold	8,324	6,342
Less: reductions for revenue recognized	(4,739)	(2,054)
Balance at end of period (1)	\$49,345	\$30,445

(1) The unamortized ESC premiums (deferred revenue) recorded in other current liabilities totaled \$20,510,000 and \$12,569,000 as of March 31, 2018 and 2017, respectively, while the amount recorded in other long-term liabilities

totaled \$28,835,000 and \$17,876,000 as of March 31, 2018 and 2017, respectively.

Table of Contents

Note 3. Share-Based Compensation

The amount of compensation cost for share-based awards to be recognized during a period is based on the portion of the awards that are ultimately expected to vest. The Company estimates forfeitures at the time of grant and revises those estimates in subsequent periods if actual forfeitures differ from those estimates. The Company analyzes historical data to estimate pre-vesting forfeitures and records share-based compensation expense for those awards expected to vest.

Total share-based compensation expenses were comprised as follows (in thousands):

	Three months ended March 31,	
	2018	2017
Option plan	\$3,057	\$1,422
Other share-based awards	5,889	9,092
Total share-based compensation before tax	8,946	10,514
Tax benefit	2,129	3,905
Total share-based compensation expense included in net income	\$6,817	\$6,609

In addition to the above share-based compensation expenses, Polaris sponsors a qualified non-leveraged employee stock ownership plan (ESOP). Shares allocated to eligible participants' accounts vest at various percentage rates based on years of service and require no cash payments from the recipient.

At March 31, 2018, there was \$152,169,000 of total unrecognized share-based compensation expense related to unvested share-based equity awards. Unrecognized share-based compensation expense is expected to be recognized over a weighted-average period of 1.89 years. Included in unrecognized share-based compensation expense is approximately \$44,181,000 related to stock options and \$107,988,000 for restricted stock.

Note 4. Financing Agreements

The carrying value of debt, capital lease obligations, and notes payable and the average related interest rates were as follows (in thousands):

	Average interest rate at March 31, 2018	Maturity	March 31, 2018	December 31, 2017
Revolving loan facility	2.82%	May 2021	\$120,600	\$3,000
Term loan facility	3.11%	May 2021	680,000	680,000
Senior notes—fixed rate	3.81%	May 2018	25,000	25,000
Senior notes—fixed rate	4.60%	May 2021	75,000	75,000
Senior notes—fixed rate	3.13%	December 2020	100,000	100,000
Capital lease obligations	5.18%	Various through 2029	20,035	19,889
Notes payable and other	3.50%	June 2027	10,874	12,384
Debt issuance costs			(2,030)	(2,261)
Total debt, capital lease obligations, and notes payable			\$1,029,479	\$913,012
Less: current maturities			65,245	47,746
Total long-term debt, capital lease obligations, and notes payable			\$964,234	\$865,266

In August 2011, Polaris entered into a \$350,000,000 unsecured revolving loan facility. In March 2015, Polaris amended the loan facility to increase the facility to \$500,000,000 and to provide more beneficial covenant and interest rate terms. The amended terms also extended the expiration date to March 2020. Interest is charged at rates based on a LIBOR or "prime" base rate. In May 2016, Polaris amended the revolving loan facility to increase the facility to \$600,000,000 and extend the expiration date to May 2021. The amended terms also established a \$500,000,000 term loan facility. In November 2016, Polaris amended the revolving loan facility to increase the term loan facility to

\$750,000,000, of which \$680,000,000 is outstanding as of March 31, 2018. Under the facility, the Company is required to make principal payments totaling \$37,500,000 over the next 12 months, which are classified as current maturities.

In December 2010, the Company entered into a Master Note Purchase Agreement to issue \$25,000,000 of unsecured senior notes due May 2018 and \$75,000,000 of unsecured senior notes due May 2021 (collectively, the "Senior Notes"). The Senior

Table of Contents

Notes were issued in May 2011. In December 2013, the Company entered into a First Supplement to Master Note Purchase Agreement, under which the Company issued \$100,000,000 of unsecured senior notes due December 2020. The unsecured revolving loan facility and the Master Note Purchase Agreement contain covenants that require Polaris to maintain certain financial ratios, including minimum interest coverage and maximum leverage ratios. Polaris was in compliance with all such covenants as of March 31, 2018.

The debt issuance costs are recognized as a reduction in the carrying value of the related long-term debt in the consolidated balance sheets and are being amortized to interest expense in our consolidated statements of income over the expected remaining terms of the related debt.

A property lease agreement for a manufacturing facility which Polaris began occupying in Opole, Poland commenced in February 2014. The Poland property lease is accounted for as a capital lease.

The Company has a mortgage note payable agreement for land, on which Polaris built the Huntsville, Alabama manufacturing facility in 2016. The original mortgage note payable was for \$14,500,000, of which \$10,874,000 is outstanding as of March 31, 2018. The payment of principal and interest for the note payable is forgivable if the Company satisfies certain job commitments over the term of the note. The Company has met the required commitments to date. Forgivable loans related to other Company facilities are also included within notes payable.

Note 5. Goodwill and Other Intangible Assets

Goodwill and other intangible assets, net of accumulated amortization, as of March 31, 2018 and December 31, 2017 are as follows (in thousands):

	March 31, 2018	December 31, 2017
Goodwill	\$435,640	\$433,374
Other intangible assets, net	342,204	347,212
Total goodwill and other intangible assets, net	\$777,844	\$780,586

There were no material additions to goodwill and other intangible assets in 2018 or 2017.

The changes in the carrying amount of goodwill for the three months ended March 31, 2018 were as follows (in thousands):

	Three months ended March 31, 2018
Goodwill, beginning of period	\$433,374
Currency translation effect on foreign goodwill balances	2,266
Goodwill, end of period	\$435,640

The components of other intangible assets were as follows (in thousands):

	Total estimated life (years)	March 31, 2018	December 31, 2017
Non-amortizable—indefinite lived:			
Brand names		\$231,084	\$230,709
Amortizable:			
Non-compete agreements	5	540	540
Dealer/customer related	5-10	170,958	169,694
Developed technology	5-7	23,707	22,903
Total amortizable		195,205	193,137
Less: Accumulated amortization		(84,085)	(76,634)
Net amortized other intangible assets		111,120	116,503
Total other intangible assets, net		\$342,204	\$347,212

Amortization expense for intangible assets for the three months ended March 31, 2018 and 2017 was \$6,126,000 and \$6,210,000, respectively. Estimated amortization expense for the remainder of 2018 through 2023 is as follows: 2018 (remainder), \$18,400,000; 2019, \$22,600,000; 2020, \$17,400,000; 2021, \$14,500,000; 2022, \$9,800,000; 2023, \$28,200,000; and after 2023, \$200,000. The preceding expected amortization expense is an estimate and actual amounts could differ due to additional intangible asset acquisitions, changes in foreign currency rates or impairment of intangible assets.

Table of Contents

Note 6. Shareholders' Equity

During the three months ended March 31, 2018, Polaris paid \$14,987,000 to repurchase and retire approximately 133,000 shares of its common stock. As of March 31, 2018, the Board of Directors has authorized the Company to repurchase up to an additional 6,303,000 shares of Polaris stock. The repurchase of any or all such shares authorized for repurchase will be governed by applicable SEC rules and dependent on management's assessment of market conditions. Polaris paid a regular cash dividend of \$0.60 per share on March 15, 2018 to holders of record at the close of business on March 1, 2018. On April 25, 2018, the Polaris Board of Directors declared a regular cash dividend of \$0.60 per share payable on June 15, 2018 to holders of record of such shares at the close of business on June 1, 2018. Cash dividends declared and paid per common share for the three months ended March 31, 2018 and 2017, were as follows:

	Three months ended March 31, 2018 2017	
Cash dividends declared and paid per common share	\$0.60	\$0.58

Net income (loss) per share

Basic income (loss) per share is computed by dividing net income (loss) available to common shareholders by the weighted average number of common shares outstanding during each period, including shares earned under the Deferred Compensation Plan for Directors ("Director Plan") and the ESOP and deferred stock units under the 2007 Omnibus Incentive Plan ("Omnibus Plan"). Diluted income (loss) per share is computed under the treasury stock method and is calculated to compute the dilutive effect of outstanding stock options and certain shares issued under the Omnibus Plan. A reconciliation of these amounts is as follows (in thousands):

	Three months ended March 31, 2018 2017	
Weighted average number of common shares outstanding	63,050	62,873
Director Plan and deferred stock units	166	145
ESOP	87	110
Common shares outstanding—basic	63,303	63,128
Dilutive effect of Omnibus Plan	1,916	1,005
Common and potential common shares outstanding—diluted	65,219	64,133

During the three months ended March 31, 2018, the number of options that were not included in the computation of diluted income (loss) per share because the option exercise price was greater than the market price, and therefore, the effect would have been anti-dilutive, was 1,540,000 compared to 3,167,000 for the same period in 2017.

Accumulated other comprehensive loss

Changes in the accumulated other comprehensive loss balance is as follows (in thousands):

	Foreign Currency Items	Cash Flow Hedging	Derivatives	Retirement Benefit Plan Activity	Accumulated Other Comprehensive Loss
Balance as of December 31, 2017	\$(42,442)	\$ (34)	\$ (3,153)	\$ (45,629)
Reclassification to the statement of income	—	(125)	85	(40)
Change in fair value	10,978	4,654		—	15,632
Balance as of March 31, 2018	\$(31,464)	\$ 4,495		\$(3,068)	\$ (30,037)

Table of Contents

The table below provides data about the amount of gains and losses, net of tax, reclassified from accumulated other comprehensive loss into the statements of income for cash flow derivatives designated as hedging instruments for the three months ended March 31, 2018 and 2017 (in thousands):

Derivatives in Cash Flow Hedging Relationships	Location of (Gain) Loss Reclassified from Accumulated Other Comprehensive Loss into Income	Three months ended March 31,	
		2018	2017
Foreign currency contracts	Other expense, net	\$ 157	\$ 1,227
Foreign currency contracts	Cost of sales	(32)	(404)
Retirement benefit plan activity	Operating expenses	(85)	—
Total		\$ 40	\$ 823

The net amount of the existing gains or losses at March 31, 2018 that is expected to be reclassified into the statements of income within the next 12 months is not expected to be material. See Note 10 for further information regarding Polaris' derivative activities.

Note 7. Financial Services Arrangements

Polaris Acceptance, a joint venture between Polaris and Wells Fargo Commercial Distribution Finance, a direct subsidiary of Wells Fargo Bank, N.A. ("Wells Fargo"), which is supported by a partnership agreement between their respective wholly owned subsidiaries, finances substantially all of Polaris' United States sales whereby Polaris receives payment within a few days of shipment of the product.

Polaris' subsidiary has a 50 percent equity interest in Polaris Acceptance. Polaris Acceptance sells a majority of its receivable portfolio to a securitization facility (the "Securitization Facility") arranged by Wells Fargo. The sale of receivables from Polaris Acceptance to the Securitization Facility is accounted for in Polaris Acceptance's financial statements as a "true-sale" under Accounting Standards Codification ("ASC") Topic 860. Polaris' allocable share of the income of Polaris Acceptance has been included as a component of income from financial services in the accompanying consolidated statements of income. The partnership agreement is effective through February 2022. Polaris' total investment in Polaris Acceptance of \$95,511,000 at March 31, 2018 is accounted for under the equity method, and is recorded in investment in finance affiliate in the accompanying consolidated balance sheets. At March 31, 2018, the outstanding amount of net receivables financed for dealers under this arrangement was \$1,203,580,000, which included \$539,574,000 in the Polaris Acceptance portfolio and \$664,006,000 of receivables within the Securitization Facility ("Securitized Receivables").

Polaris has agreed to repurchase products repossessed by Polaris Acceptance up to an annual maximum of 15 percent of the aggregate average month-end outstanding Polaris Acceptance receivables and Securitized Receivables during the prior calendar year. For calendar year 2018, the potential 15 percent aggregate repurchase obligation is approximately \$164,969,000. Polaris' financial exposure under this arrangement is limited to the difference between the amounts unpaid by the dealer with respect to the repossessed product plus costs of repossession and the amount received on the resale of the repossessed product. No material losses have been incurred under this agreement during the periods presented.

Polaris has agreements with Performance Finance, Sheffield Financial and Synchrony Bank, under which these financial institutions provide financing to end consumers of Polaris products. Polaris' income generated from these agreements has been included as a component of income from financial services in the accompanying consolidated statements of income.

Polaris also administers and provides extended service contracts to consumers and certain insurance contracts to dealers and consumers through various third-party suppliers. Polaris finances its self-insured risks related to extended service contracts, but does not retain any insurance or financial risk under any of the other arrangements. Polaris' service fee income generated from these arrangements has been included as a component of income from financial services in the accompanying consolidated statements of income.

Note 8. Investment in Other Affiliates

The Company has certain investments in nonmarketable securities of strategic companies. As of December 31, 2017, the Company's investment in Eicher-Polaris Private Limited (EPPL) represented the majority of these investments and is recorded as a component of other long-term assets in the accompanying consolidated balance sheets.

Table of Contents

EPPL is a joint venture established in 2012 with Eicher Motors Limited (“Eicher”). Polaris and Eicher each control 50 percent of the joint venture, which is intended to design, develop and manufacture a full range of new vehicles for India and other emerging markets. The investment in EPPL is accounted for under the equity method, with Polaris’ proportionate share of income or loss recorded within the consolidated financial statements on a one month lag due to financial information not being available timely.

During the first quarter of 2018, the Board of Directors of EPPL approved a shut down of the operations of the EPPL joint venture. As a result of the expected closure, the Company fully impaired its investment in EPPL by recording an impairment charge of \$18,733,000 within Equity in loss of other affiliates in the March 31, 2018 consolidated statement of income.

As of March 31, 2018 and December 31, 2017, the carrying value of the Company’s investment in EPPL was \$0 and \$18,616,000, respectively.

Polaris will impair or write off an investment and recognize a loss if and when events or circumstances indicate there is impairment in the investment that is other-than-temporary. When necessary, Polaris evaluates investments in nonmarketable securities for impairment, utilizing Level 3 fair value inputs. As a result of the Victory® Motorcycles wind down, the Company recorded an impairment of substantially all of its cost-method investment in Brammo, Inc. in the first quarter of 2017. See Note 12 for additional discussion related to charges incurred related to the Victory Motorcycles wind down.

In October 2017, an agreement was signed to sell the assets of Brammo, Inc. to a third party. The sale was completed in the fourth quarter of 2017, and as a result of the sale, Polaris recorded a gain, which is included in Other expense (income), net on the 2017 consolidated statements of income. During the first quarter of 2018, Polaris received additional distributions from Brammo and recorded a gain of \$13,478,000, which is included in Other expense (income) on the consolidated statements of income.

Note 9. Commitments and Contingencies

Polaris is subject to product liability claims in the normal course of business. The Company carries excess insurance coverage for catastrophic product liability claims. Polaris self-insures product liability claims before the policy date and up to the purchased catastrophic insurance coverage after the policy date. The estimated costs resulting from any losses are charged to operating expenses when it is probable a loss has been incurred and the amount of the loss is reasonably determinable. The Company utilizes historical trends and actuarial analysis tools, along with an analysis of current claims, to assist in determining the appropriate loss reserve levels. At March 31, 2018, the Company had an accrual of \$47,140,000 for the probable payment of pending claims related to continuing product liability litigation associated with Polaris products. This accrual is included as a component of other accrued expenses in the accompanying consolidated balance sheets.

Polaris is a defendant in lawsuits and subject to other claims arising in the normal course of business, including putative class action lawsuits. As of March 31, 2018, the Company is aware of four putative class actions pending against Polaris in the United States. As these proceedings are in the early stages, the Company is unable to provide an evaluation of the likelihood that a loss will be incurred or an estimate of the range of possible loss. In the opinion of management, it is unlikely that any legal proceedings pending against or involving Polaris will have a material adverse effect on Polaris’ financial position or results of operations.

In the normal course of business, the Company’s products are subject to extensive laws and regulations relating to safety, environmental and other regulations promulgated by the United States federal government and individual states, as well as international regulatory authorities. Failure to comply with applicable regulations could result in fines, penalties or other costs. At March 31, 2018 and December 31, 2017, the Company has accrued for probable losses.

On April 2, 2018, the Company agreed to a \$27,250,000 settlement with the Consumer Product Safety Commission that resolves two 2016 late-reporting claims. The payment is accrued for on the Company's consolidated balance sheets within other accrued expenses as of March 31, 2018 and December 31, 2017.

Note 10. Derivative Instruments and Hedging Activities

The Company is exposed to certain risks relating to its ongoing business operations. From time to time, the primary risks managed by using derivative instruments are foreign currency risk, interest rate risk and commodity price fluctuations. Derivative contracts on various currencies are entered into in order to manage foreign currency exposures associated with certain product sourcing activities and intercompany cash flows. Interest rate swaps are occasionally entered into in order to maintain a balanced risk of fixed and floating interest rates associated with the Company's long-term debt. Commodity hedging contracts are occasionally entered into in order to manage fluctuating market prices of certain purchased commodities and raw materials that are integrated into the Company's end products.

Table of Contents

The Company's foreign currency management objective is to mitigate the potential impact of currency fluctuations on the value of its U.S. dollar cash flows and to reduce the variability of certain cash flows at the subsidiary level. The Company actively manages certain forecasted foreign currency exposures and uses a centralized currency management operation to take advantage of potential opportunities to naturally offset foreign currency exposures against each other. The decision of whether and when to execute derivative instruments, along with the duration of the instrument, can vary from period to period depending on market conditions, the relative costs of the instruments and capacity to hedge. The duration is linked to the timing of the underlying exposure, with the connection between the two being regularly monitored. Polaris does not use any financial contracts for trading purposes.

At March 31, 2018, Polaris had the following open foreign currency contracts (in thousands):

Foreign Currency	Notional Amounts (in U.S. Dollars)	Net Unrealized Gain
Australian Dollar	\$ 26,496	\$ 470
Canadian Dollar	154,671	3,796
Mexican Peso	17,080	998
Total	\$ 198,247	\$ 5,264

These contracts, with maturities through March 2019, met the criteria for cash flow hedges, and the unrealized gains or losses, after tax, are recorded as a component of accumulated other comprehensive loss in shareholders' equity. The table below summarizes the carrying values of derivative instruments as of March 31, 2018 and December 31, 2017 (in thousands):

	Carrying Values of Derivative Instruments as of March 31, 2018		
	Fair Value— Assets	Fair Value— (Liabilities)	Derivative Net Carrying Value
Derivatives designated as hedging instruments			
Foreign exchange contracts(1)	\$ 5,292	\$ (28)	\$ 5,264
Total derivatives designated as hedging instruments	\$ 5,292	\$ (28)	\$ 5,264
Total derivatives	\$ 5,292	\$ (28)	\$ 5,264
	Carrying Values of Derivative Instruments as of December 31, 2017		
	Fair Value— Assets	Fair Value— (Liabilities)	Derivative Net Carrying Value
Derivatives designated as hedging instruments			
Foreign exchange contracts(1)	\$ 621	\$ (1,047)	\$ (426)
Total derivatives designated as hedging instruments	\$ 621	\$ (1,047)	\$ (426)
Total derivatives	\$ 621	\$ (1,047)	\$ (426)

(1) Assets are included in prepaid expenses and other and liabilities are included in other accrued expenses on the accompanying consolidated balance sheets.

For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the gain or loss on the derivative is reported as a component of accumulated other comprehensive loss and reclassified into the statements of income in the same period or periods during which the hedged transaction affects the statements of income. Gains and losses on the derivative representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in the current statement of income.

The amount of gains, net of tax, related to the effective portion of derivative instruments designated as cash flow hedges included in accumulated other comprehensive income (loss) for the three months ended March 31, 2018 and 2017 was \$4,529,000 and \$356,000, respectively.

See Note 6 for information about the amount of gains and losses, net of tax, reclassified from accumulated other comprehensive loss into the statements of income for derivative instruments designated as hedging instruments. The ineffective portion of foreign currency contracts was not material for the three month period ended March 31, 2018.

Table of Contents

Note 11. Segment Reporting

The Company's reportable segments are based on the Company's method of internal reporting, which generally segregates the operating segments by product line, inclusive of wholegoods and PG&A. The internal reporting of these operating segments is defined based, in part, on the reporting and review process used by the Company's Chief Executive Officer. The Company has five operating segments: 1) ORV, 2) Snowmobiles, 3) Motorcycles, 4) Global Adjacent Markets and 5) Aftermarket, and four reportable segments: 1) ORV/Snowmobiles, 2) Motorcycles, 3) Global Adjacent Markets, and 4) Aftermarket.

The ORV/Snowmobiles segment includes the aggregated results of our ORV and Snowmobiles operating segments. The Motorcycles, Global Adjacent Markets and Aftermarket segments include the results for those respective operating segments. The Corporate amounts include costs that are not allocated to individual segments, which include incentive-based compensation and other unallocated manufacturing costs. Additionally, given the commonality of customers, manufacturing and asset management, the Company does not maintain separate balance sheets for each segment. Accordingly, the segment information presented below is limited to sales and gross profit data (in thousands):

	Three months ended	
	March 31,	
	2018	2017
Sales		
ORV/Snowmobiles	\$832,564	\$724,103
Motorcycles	131,557	120,289
Global Adjacent Markets	113,327	91,555
Aftermarket	220,025	217,835
Total sales	\$1,297,473	\$1,153,782
Gross profit		
ORV/Snowmobiles	\$243,561	\$212,959
Motorcycles	16,568	(19,881)
Global Adjacent Markets	31,258	28,098
Aftermarket	58,452	41,564
Corporate	(26,358)	(20,249)
Total gross profit	\$323,481	\$242,491

Note 12. Victory Motorcycles Wind Down

On January 9, 2017, the Company's Board of Directors approved a strategic plan to wind down the Victory Motorcycles brand. The Company began wind down activities during the first quarter of 2017. As a result of the activities, the Company recognized total pretax charges of \$1,388,000 and \$45,782,000 for the three month periods ended March 31, 2018 and 2017, respectively, that are within the scope of ASC 420, Exit or Disposal Cost Obligations (ASC 420). These totals exclude the positive promotional pretax impact of \$719,000 incurred for the three month period ended March 31, 2018 and the negative promotional pretax impact of \$11,798,000 incurred for the three month period ended March 31, 2017. The Company estimates that the total impact of wind down activities in 2018 will be in the range of \$5,000,000 to \$10,000,000, inclusive of promotional activity. Substantially all costs related to wind down activities are expected to be recognized by the end of 2018.

As a result of the wind down activities, the Company has incurred expenses within the scope of ASC 420 consisting of dealer termination, supplier termination, dealer litigation, employee separation, asset impairment charges, including the impairment of a cost method investment, inventory write-down charges and other costs. The wind down expenses have been included as components of cost of sales, selling and marketing expenses, general and administrative expenses or other expense (income), net, in the consolidated statements of income. Charges related to the wind down plan for the three months ended March 31, 2018 and 2017 within the scope of ASC 420 were as follows (in thousands):

Table of Contents

	Three months ended March 31,	
	2018	2017
Contract termination charges	\$764	\$14,307
Asset impairment charges	—	18,760
Inventory charges	—	7,451
Other costs	624	5,264
Total	\$1,388	\$45,782

Total reserves related to the Victory Motorcycles wind down activities are \$3,651,000 as of March 31, 2018. These reserves are included in other accrued expenses and inventory in the consolidated balance sheets. Changes to the reserves during the three months ended March 31, 2018 were as follows (in thousands):

	Contract termination charges	Inventory charges	Other costs	Total
Reserves balance as of January 1, 2018	\$ 3,187	\$ 777	\$1,681	\$5,645
Expenses	764	—	624	1,388
Cash payments / scrapped inventory	(2,813)	(29)	(540)	(3,382)
Reserves balance as of March 31, 2018	\$ 1,138	\$ 748	\$1,765	\$3,651

Item 2 – MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

The following discussion pertains to the results of operations and financial position of Polaris Industries Inc., a Minnesota corporation, for the three month period ended March 31, 2018 compared to the three month period ended March 31, 2017. The terms “Polaris,” the “Company,” “we,” “us,” and “our” as used herein refer to the business and operations of Polaris Industries Inc., its subsidiaries and its predecessors, which began doing business in 1954. We design, engineer and manufacture powersports vehicles, which include Off-Road Vehicles (ORV), including all-terrain vehicles (ATV) and side-by-side vehicles; motorcycles; Global Adjacent Markets vehicles, including Commercial, Government, and Defense vehicles; and related Parts, Garments and Accessories (PG&A), as well as Aftermarket accessories and apparel. Due to the seasonality of certain products and to certain changes in production and shipping cycles, results of such periods are not necessarily indicative of the results to be expected for the complete year. We reported net income of \$55.7 million, or \$0.85 per diluted share, compared to a 2017 first quarter net loss of \$2.9 million, or \$0.05 per diluted share. Sales totaled \$1,297.5 million, an increase of 12 percent from last year’s first quarter sales of \$1,153.8 million. The sales increase was driven primarily by strong ORV, motorcycle, and Global Adjacent Market sales. Our unit retail sales to consumers in North America increased three percent in the first quarter of 2018, primarily driven by increased retail demand for ATVs and side-by-sides. Our first quarter sales to North American customers increased 10 percent, driven by growth in all segments. Our sales to customers outside of North America increased 27 percent, primarily driven by strong sales in the Company’s EMEA business. Our gross profit of \$323.5 million increased 33 percent from \$242.5 million in the comparable prior year period. The increase in gross profit dollars was primarily driven by lower warranty costs, savings generated through lean initiatives and positive foreign exchange benefits, offset in part by unfavorable product mix and increases in commodity prices and freight costs during the quarter. Additionally, gross profit in 2017 was impacted by significant costs related to the Victory Motorcycle wind down and the TAP inventory step up. Our liquidity remained healthy with \$166.4 million of cash on hand and \$479.0 million of availability on the revolving loan facility at March 31, 2018.

As a result of our decision to wind down the Victory Motorcycles brand, total non-recurring wind down activities had a negative pretax impact of \$0.7 million and \$57.6 million for the three month periods ended March 31, 2018 and 2017, respectively. We estimate the total pre-tax impact of non-recurring wind down activities in 2018 to be in the

range of \$5.0 million to \$10.0 million. Substantially all costs related to wind down activities are expected to be recognized by the end of 2018.

18

Table of Contents

Results of Operations

Unless otherwise noted, all “quarter” comparisons are from the first quarter 2018 to the first quarter 2017.

Sales:

Quarter sales were \$1,297.5 million, a 12 percent increase from \$1,153.8 million of quarter sales in the prior year. The following table is an analysis of the percentage change in total Company sales:

	Percent change in total Company sales compared to corresponding period of the prior year Three months ended March 31, 2018	
Volume	10	%
Currency	2	
	12	%

The volume increase is primarily driven by increased shipments from all segments.

Our sales by reporting segment, which includes the respective PG&A, were as follows:

Three months ended March 31,

(\$ in millions)	2018	Percent of Total Sales		2017	Percent of Total Sales		Percent Change 2018 vs. 2017	
ORV/Snowmobiles	\$832.6	64	%	\$724.1	63	%	15	%
Motorcycles	131.6	10	%	120.3	10	%	9	%
Global Adjacent Markets	113.3	9	%	91.6	8	%	24	%
Aftermarket	220.0	17	%	217.8	19	%	1	%
Total sales	\$1,297.5	100	%	\$1,153.8	100	%	12	%

ORV/Snowmobiles

ORVs: Quarter sales, including PG&A, increased 15 percent primarily due to strong RANGER®, RZR®, and ATV shipments. Sales outside North America increased 12 percent in the quarter, primarily due to increased RANGER and ATV shipments. The quarter average per unit sales price increased four percent.

Our North American ORV quarter unit retail sales to consumers increased mid-single digit percent compared to the 2017 first quarter, with consumer purchases of side-by-side vehicles, which include RANGER, RZR, and Polaris GENERAL™, increasing high-single digit percent and ATVs increasing low-single digit percent over the prior year. The Company estimates that North American industry ORV retail sales increased low-single digit percent from the first quarter of 2017. Polaris’ North American dealer unit inventory was flat compared to the first quarter of 2017.

Snowmobiles: Quarter sales, including PG&A, increased 18 percent due to strong international sales. Sales outside North America doubled in the quarter compared to the prior year. The quarter average snowmobile per unit sales price increased two percent.

For the snowmobile season ended March 31, 2018 compared to the season ended March 31, 2017, the North American industry retail sales were up mid-single digit percent. Our North American retail sales decreased approximately 10 percent for the full 2017-2018 season, resulting in a decrease in market share due to a lack of snow in certain regions.

Motorcycles

Quarter sales increased nine percent compared to the prior year, as a result of increased shipments of Indian Motorcycle®. Indian Motorcycle wholegood sales increased in the low-double digits percent range in the first quarter of 2018, while Slingshot® sales were down low-double digits percent. The quarter average per unit sales price decreased five percent, excluding Victory Motorcycles, driven by a shift in sales mix towards more mid-sized motorcycles.

Consumer North American retail sales for Indian Motorcycle and Slingshot increased low-single digits percent for the quarter. Indian Motorcycle retail sales increased low-single digit percent and gained market share. Slingshot retail sales decreased mid-single digit during the quarter. North American industry retail sales, 900cc and above, decreased mid-teens percent in the quarter. North American Polaris dealer inventory increased low-double digits percent.

Table of Contents

Global Adjacent Markets

Quarter sales increased due primarily to strong Aixam quadricycle and Commercial, Government, and Defense sales, including our light-utility business at Goupil as well as defense business.

Aftermarket

Quarter sales, which includes Transamerican Auto Parts (TAP), along with our other aftermarket brands of Klim, Kolpin, ProArmor, Trail Tech and 509, increased one percent, with the low growth attributed to soft light-duty truck industry sales during the 2018 first quarter, which impacted TAP aftermarket accessory sales.

Sales by Geography

Sales by geographic region were as follows:

(\$ in millions)	Three months ended March 31,						
	2018	Percent of Total Sales	2017	Percent of Total Sales	Percent Change 2018 vs. 2017		
United States	\$1,007.6	78 %	\$930.6	81 %	8 %		
Canada	79.1	6 %	57.0	5 %	39 %		
Other foreign countries	210.8	16 %	166.2	14 %	27 %		
Total sales	\$1,297.5	100 %	\$1,153.8	100 %	12 %		

United States: Quarter sales in the U.S. increased primarily due to increased ORV shipments.

Canada: Quarter sales in Canada increased primarily due to increased ORV shipments and favorable currency rates.

Currency rate movement had a favorable impact of six percent on quarter sales.

Other foreign countries: Quarter sales in other foreign countries increased due to increased shipments of all segments and favorable currency rates. Currency rate movements had a favorable impact of 11 percent on quarter sales.

Cost of Sales:

(\$ in millions)	Three months ended March 31,						
	2018	Percent of Total Cost of Sales	2017	Percent of Total Cost of Sales	Change of 2018 vs. 2017		
Purchased materials and services	\$844.4	87 %	\$779.6	86 %	8 %		
Labor and benefits	81.8	8 %	65.5	7 %	25 %		
Depreciation and amortization	31.7	3 %	34.5	4 %	(8)%		
Warranty costs	16.0	2 %	31.7	3 %	(49)%		
Total cost of sales	\$973.9	100 %	\$911.3	100 %	7 %		
Percentage of sales	75.1 %		79.0 %		-391 basis points		

The increase in quarter cost of sales dollars resulted primarily from purchased materials and services.

Gross Profit:

(\$ in millions)	Three months ended March 31,						
	2018	Percent of Sales	2017	Percent of Sales	Change 2018 vs. 2017		
ORV/Snowmobiles	\$243.6	29.3 %	\$213.0	29.4 %	14 %		
Motorcycles	16.6	12.6 %	(19.9)	(16.5)%	NM		
Global Adjacent Markets	31.3	27.6 %	28.1	30.7 %	11 %		
Aftermarket	58.4	26.6 %	41.6	19.1 %	41 %		
Corporate	(26.4)		(20.3)		30 %		
Total gross profit dollars	\$323.5		\$242.5		33 %		

Percentage of sales	24.9	%	21.0	%	+391 basis points
---------------------	------	---	------	---	----------------------

NM = not meaningful

20

Table of Contents

Consolidated. Our gross profit of \$323.5 million increased 33 percent from \$242.5 million in the comparable prior year period, primarily due to lower warranty costs, savings generated through lean initiatives and positive foreign exchange, offset in part by unfavorable product mix and increases in commodity prices and freight costs during the quarter. Gross profit for the quarter ended March 31, 2018 includes the negative impact of \$5.8 million of corporate restructuring, network realignment, and supply chain transformation costs. Gross profit for the quarter ended March 31, 2017 includes the negative impact of \$38.6 million of Victory Motorcycles wind down costs and \$12.9 million of inventory step-up accounting adjustments related to the TAP acquisition. We expect commodity price increases, higher freight costs, and additional tariffs throughout the remainder of 2018.

ORV/Snowmobiles. Gross profit, as a percentage of sales, was flat compared to the prior year, as a result of an unfavorable product mix and higher commodity costs and freight pressures, offset by lower warranty expense.

Motorcycles. Gross profit, as a percentage of sales, increased significantly for the quarter, primarily due to lower costs associated with the wind down of Victory Motorcycles, partially offset by higher warranty costs for Slingshot.

Global Adjacent Markets. Gross profit, as a percentage of sales, decreased for the quarter, primarily due to sales mix.

Aftermarket. Gross profit, as a percentage of sales, increased significantly for the quarter, primarily due to the fact that the prior year comparable period included the negative impact of \$12.9 million of inventory step-up adjustments related to the TAP acquisition.

Operating Expenses:

(\$ in millions)	Three months ended March 31,			
	2018	2017	Change 2018 vs. 2017	
Selling and marketing	\$ 117.7	\$ 114.3	3	%
Research and development	65.2	52.0	25	%
General and administrative	78.7	75.5	4	%
Total operating expenses	\$ 261.6	\$ 241.8	8	%
Percentage of sales	20.2	% 21.0	%	-80 basis points

Operating expenses, in absolute dollars, for the quarter increased primarily due to higher research and development expenses to support ongoing product refinement and innovation.

Income from Financial Services:

(\$ in millions)	Three months ended March 31,			
	2018	2017	Change 2018 vs. 2017	
Income from financial services	\$ 21.4	\$ 20.4	5	%
Percentage of sales	1.7	% 1.8	%	-12 basis points

The increase for the quarter in income from financial services is directly related to improved retail financing penetration rates and an increase in income generated from extended service contracts. Further discussion can be found in the "Liquidity and Capital Resources" section below.

Table of Contents

Remainder of the Statement of Income:

(\$ in millions, except per share data)	Three months ended March 31,		
	2018	2017	Change 2018 vs. 2017
Interest expense	\$8.0	\$7.9	2 %
Equity in loss of other affiliates	\$21.5	\$1.9	NM
Other expense (income), net	\$(20.0)	\$11.6	NM
Income (loss) before taxes	\$73.7	\$(0.3)	NM
Provision for income taxes	\$18.0	\$2.6	NM
Percentage of income (loss) before taxes	24.4 %	(774.2)%	NM
Net income (loss)	\$55.7	\$(2.9)	NM
Diluted net income (loss) per share:	\$0.85	\$(0.05)	NM
Weighted average diluted shares outstanding	65.2	64.1	2 %

NM = not meaningful

Interest expense: Interest expense was up 2% primarily due to higher interest rates offset in part by lower debt levels.
Equity in loss of other affiliates: As a result of the decision by the Eicher-Polaris Private Limited (EPPL) Board of Directors to shut down the operations of the EPPL joint venture, we fully impaired our investment in EPPL and recorded charges of \$20 million, including the impairment, within equity in loss of other affiliates during the three month period ended March 31, 2018. Additional costs associated with the wind down of the joint venture, if any, are expected to be immaterial for the remainder of 2018.

Other expense (income), net: The quarter change primarily relates to a gain on our investment in Brammo Inc., in addition to foreign currency exchange rate movements and the corresponding effects on foreign currency transactions and balance sheet positions related to our foreign subsidiaries from period to period.

Provision for income taxes: The effective income tax rate was 24.4% for the first quarter of 2018, compared with (774.2)% for the first quarter of 2017. The difference between the effective income tax rates for the first quarter of 2018, compared with 2017, is primarily due to the reduction in the federal statutory tax rate to 21% as a result of U.S. Tax Reform and the small pretax loss generated in the first quarter of 2017.

Weighted average shares outstanding: Over the time period within and between the comparable quarter, weighted average shares outstanding increased approximately two percent due primarily to the dilutive effects of stock issuances under employee compensation plans.

Cash Dividends:

We paid a regular cash dividend of \$0.60 per share on March 15, 2018 to holders of record at the close of business on March 1, 2018. On April 25, 2018, the Polaris Board of Directors declared a regular cash dividend of \$0.60 per share payable on June 15, 2018 to holders of record of such shares at the close of business on June 1, 2018.

Liquidity and Capital Resources

Our primary source of funds has been cash provided by operating and financing activities. Our primary uses of funds have been for acquisitions, repurchase and retirement of common stock, capital investment, new product development and cash dividends to shareholders.

We believe that existing cash balances and cash flow to be generated from operating activities and borrowing capacity under the credit facility arrangement will be sufficient to fund operations, new product development, cash dividends, share repurchases and capital requirements for the foreseeable future. At this time, management is not aware of any factors that would have a material adverse impact on cash flow.

Table of Contents

Cash Flows

The following table summarizes the cash flows from operating, investing and financing activities:

(\$ in millions)	Three months ended		
	March 31,		
	2018	2017	Change
Total cash provided by (used for):			
Operating activities	\$ (3.2)	\$ 47.0	\$ (50.2)
Investing activities	(44.1)	(24.7)	(19.4)
Financing activities	75.2	(20.0)	95.2
Impact of currency exchange rates on cash balances	1.9	4.0	(2.1)
Increase in cash, cash equivalents and restricted cash	\$ 29.8	\$ 6.3	\$ 23.5

Operating activities: Net cash used by operating activities was \$3.2 million for the first quarter of 2018, compared to net cash provided by operating activities of \$47.0 million for the same period in 2017. The decrease in net cash provided by operating activities for the 2018 period was primarily due to planned higher factory inventory to support future demand, offset in part by increased net income.

Investing activities: The primary use of cash was for the purchase of property and equipment and tooling for continued capacity and capability at our manufacturing facilities.

Financing activities: Cash provided by financing activities changed primarily due to net borrowings under debt arrangements, capital lease obligations and notes payable of \$116.1 million compared to net borrowings of \$33.9 million in the 2017 comparable period. Common stock repurchases were \$15.0 million compared to \$21.8 million in the 2017 comparable period and proceeds from the issuance of stock under employee plans were \$11.9 million and \$4.3 million for the three months ended March 31, 2018 and 2017, respectively. Additionally, we paid cash dividends of \$37.8 million and \$36.4 million for the three months ended March 31, 2018 and 2017, respectively.

The seasonality of production and shipments cause working capital requirements to fluctuate during the year.

Debt and Capital

We are party to a \$600 million variable interest rate bank lending agreement and a Master Note Purchase Agreement, as amended and supplemented, under which we have unsecured borrowings. We are also party to a \$750 million term loan facility, of which \$680 million is outstanding as of March 31, 2018.

We enter into leasing arrangements to finance the use of certain property and equipment.

We have a mortgage note payable agreement for land, on which Polaris built our Huntsville, Alabama manufacturing facility in 2016. The original mortgage note payable was for \$14.5 million, of which \$10.9 million is outstanding as of March 31, 2018. The payment of principal and interest for the note payable is forgivable if the Company satisfies certain job commitments over the term of the note. We have met the required commitments to date, and expect to comply with the commitments in the future.

Debt, capital lease obligations, notes payable, and the average related interest rates at March 31, 2018 were as follows:

(\$ in millions)	Average interest rate at March 31, 2018	Maturity	March 31, 2018
Revolving loan facility	2.82%	May 2021	\$ 120.6
Term loan facility	3.11%	May 2021	680.0
Senior notes—fixed rate	3.81%	May 2018	25.0
Senior notes—fixed rate	4.60%	May 2021	75.0
Senior notes—fixed rate	3.13%	December 2020	100.0
Capital lease obligations	5.18%	Various through 2029	20.0
Notes payable and other	3.50%	June 2027	10.9
Debt issuance costs			(2.0)
Total debt, capital lease obligations, and notes payable			\$ 1,029.5
Less: current maturities			65.3

Long-term debt, capital lease obligations, and notes payable

\$964.2

23

Table of Contents

Our debt to total capital ratio was 51 percent and 58 percent at March 31, 2018 and 2017, respectively. Additionally, at March 31, 2018, we had letters of credit outstanding of \$11.1 million, primarily related to purchase obligations for raw materials.

Share Repurchases

Our Board of Directors has authorized the cumulative repurchase of up to 86.5 million shares of our common stock. Of that total, approximately 80.2 million shares have been repurchased cumulatively from 1996 through March 31, 2018. We repurchased approximately 0.1 million shares of our common stock for \$15.0 million during the first three months of 2018, which had an immaterial impact on earnings per share. We have authorization from our Board of Directors to repurchase up to an additional 6.3 million shares of our common stock as of March 31, 2018. The repurchase of any or all such shares authorized remaining for repurchase will be governed by applicable SEC rules.

Other Financial Arrangements

Polaris Acceptance, a joint venture between Polaris and Wells Fargo Commercial Distribution Finance (“WFCDF”), a direct subsidiary of Wells Fargo Bank, N.A. (“Wells Fargo”), which is supported by a partnership agreement between their respective wholly owned subsidiaries, finances substantially all of Polaris’ U.S. sales, whereby Polaris receives payment within a few days of shipment of the product. The partnership agreement is effective through February 2022. Polaris Acceptance sells a majority of its receivables portfolio (the “Securitized Receivables”) to a securitization facility (“Securitization Facility”) arranged by Wells Fargo, a WFCDF affiliate. Polaris Acceptance is not responsible for any continuing servicing costs or obligations with respect to the Securitized Receivables. At March 31, 2018, the outstanding amount of net receivables financed for dealers under this arrangement, including Securitized Receivables, was \$1,203.6 million, a four percent increase from \$1,156.0 million at March 31, 2017.

We account for our investment in Polaris Acceptance under the equity method. Polaris Acceptance is funded through equal equity cash investments from the partners and a loan from an affiliate of WFCDF. We do not guarantee the outstanding indebtedness of Polaris Acceptance. The partnership agreement provides that all income and losses of Polaris Acceptance are shared 50 percent by our wholly owned subsidiary and 50 percent by WFCDF’s subsidiary. Our total investment in Polaris Acceptance at March 31, 2018 was \$95.5 million. Our exposure to losses of Polaris Acceptance is limited to our equity in Polaris Acceptance. Credit losses in the Polaris Acceptance portfolio have been modest, averaging less than one percent of the portfolio.

We have agreed to repurchase products repossessed by Polaris Acceptance up to an annual maximum of 15 percent of the aggregate average month-end outstanding Polaris Acceptance receivables and Securitized Receivables during the prior calendar year. For calendar year 2018, the potential 15 percent aggregate repurchase obligation is approximately \$165.0 million. Our financial exposure under this arrangement is limited to the difference between the amount paid to the finance company for repurchases and the amount received on the resale of the repossessed product. No material losses have been incurred under this agreement.

See Note 7 in the Notes to Consolidated Financial Statements for further discussion of Polaris Acceptance.

We have agreements with certain financial institutions, under which these financial institutions provide financing to end consumers of our products in the United States. The income generated from these agreements has been included as a component of income from financial services in the accompanying consolidated statements of income. At March 31, 2018, the agreements in place were as follows:

Financial institution	Agreement expiration date
Performance Finance	December 2021
Sheffield Financial	February 2021
Synchrony Bank	December 2020

Inflation and Foreign Exchange Rates

The changing relationships of the U.S. dollar to the Mexican peso, the Canadian dollar, the Australian dollar, the Euro, the Swiss franc and other foreign currencies have had a material impact from time to time. We actively manage our exposure to fluctuating foreign currency exchange rates by entering into foreign exchange hedging contracts. Mexican Peso: With increased production at our Monterrey, Mexico facility, our costs in the Mexican peso have continued to increase. We also market and sell to customers in Mexico through a wholly owned subsidiary.

Fluctuations in the peso to U.S. dollar exchange rate primarily impacts sales, cost of sales, and net income.

Table of Contents

Canadian Dollar: We operate in Canada through a wholly owned subsidiary. The relationship of the U.S. dollar in relation to the Canadian dollar impacts both sales and net income.

Other currencies: We operate in various countries, principally in Europe and Australia, through wholly owned subsidiaries and also sell to certain distributors in other countries. We also purchase components from certain suppliers directly for our U.S. operations in transactions denominated in Euros and other foreign currencies. The relationship of the U.S. dollar in relation to these other currencies impacts each of sales, cost of sales and net income.

At March 31, 2018, we had the following open foreign currency hedging contracts:

Foreign Currency	Currency Position	Foreign currency hedging contracts	
		Notional amounts (in thousands of U.S. Dollars)	Average exchange rate of open contracts
Australian Dollar (AUD)	Long	\$26,496	\$0.78 to 1 AUD
Canadian Dollar (CAD)	Long	154,671	\$0.80 to 1 CAD
Mexican Peso	Short	17,080	19.5 Peso to \$1

The assets and liabilities in all our foreign entities are translated at the foreign exchange rate in effect at the balance sheet date. Translation gains and losses are reflected as a component of accumulated other comprehensive loss, net in the shareholders' equity section of the accompanying consolidated balance sheets. Revenues and expenses in all of our foreign entities are translated at the average foreign exchange rate in effect for each month of the quarter. Certain assets and liabilities related to intercompany positions reported on our consolidated balance sheet that are denominated in a currency other than the entity's functional currency are translated at the foreign exchange rates at the balance sheet date and the associated gains and losses are included in net income. We expect currencies to have a slightly favorable impact on net income in 2018 compared to 2017.

We are subject to market risk from fluctuating market prices of certain purchased commodities and raw materials, including steel, aluminum, petroleum-based resins, certain rare earth metals and diesel fuel. In addition, we are a purchaser of components and parts containing various commodities, including steel, aluminum, rubber and others, which are integrated into the Company's end products. While such materials are typically available from numerous suppliers, commodity raw materials are subject to price fluctuations. This includes the effects of new or modified tariffs or penalties on raw materials, commodities, and products manufactured outside of the United States. We generally buy these commodities and components based upon market prices that are established with the vendor as part of the purchase process and from time to time will enter into derivative contracts to hedge a portion of the exposure to commodity risk. At March 31, 2018, we did not have any outstanding commodity derivative contracts in place. Based on our current outlook for commodity prices, the total impact of commodities is expected to have a negative impact on our gross profit margins for 2018 when compared to 2017.

We are a party to a credit agreement with various lenders consisting of a \$600 million revolving loan facility and a \$750 million term loan facility. Interest accrues on the revolving loan at variable rates based on LIBOR or "prime" plus the applicable add-on percentage as defined. At March 31, 2018, we had an outstanding balance of \$120.6 million on the revolving loan facility, and an outstanding balance of \$680.0 million on the term loan facility.

Critical Accounting Policies

See our most recent Annual Report on Form 10-K for the year ended December 31, 2017 for a discussion of our critical accounting policies.

Table of Contents

Note Regarding Forward Looking Statements

Certain matters discussed in this report are “forward-looking statements” intended to qualify for the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These “forward-looking statements,” including but not limited to the impact of foreign exchange rate movements on sales and net income, and commodity price changes on gross profit margins, can generally be identified as such because the context of the statement will include words such as the Company or management “believes,” “anticipates,” “expects,” “estimates” or words of similar import. Similarly, statements that describe the Company’s future plans, objectives or goals are also forward-looking. Forward-looking statements may also be made from time to time in oral presentations, including telephone, conferences and/or webcasts open to the public. Shareholders, potential investors and others are cautioned that all forward-looking statements involve risks and uncertainties that could cause results in future periods to differ materially from those anticipated by some of the statements made in this report, including the risks and uncertainties described under the heading titled “Item 1A-Risk Factors” appearing in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017. In addition to the factors discussed above, among the other factors that could cause actual results to differ materially are the following: future conduct of litigation processes; product recalls and warranty expenses; overall economic conditions, including inflation and consumer confidence and spending; interruptions in informal supply arrangements; raw material, commodity and transportation costs; tariffs; foreign currency exchange rate fluctuations; product offerings, promotional activities and pricing strategies by competitors; disruptions in manufacturing facilities; the ability to provide products that respond to consumer’s needs and preferences; strategic partners’ sensitivity to economic conditions; acquisition integration costs; environmental and product safety regulatory activity; appropriate levels of dealer and distributor relationships; uncertainty in the retail and wholesale credit markets and relationships with Performance Finance, Sheffield Financial and Synchrony Bank; the ability to protect our intellectual property; the ability to manage our international operations; effects of weather; impairment of goodwill or trade names; the ability to comply with our outstanding debt agreements; changes in tax policy; attracting and retaining skilled employees; and disruptions or breaches of information technology systems. The Company does not undertake any duty to any person to provide updates to its forward-looking statements.

Item 3 – QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Refer to the Company’s Annual Report on Form 10-K for the year ended December 31, 2017 for a complete discussion on the Company’s market risk. There have been no material changes in market risk from those disclosed in the Company’s Form 10-K for the year ended December 31, 2017.

Item 4 – CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company carried out an evaluation, under the supervision and with the participation of the Company’s management, including the Company’s Chief Executive Officer and its Executive Vice President — Finance and Chief Financial Officer, of the effectiveness of the design and operation of the Company’s disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 Rule 13a-15) as of the end of the period covered by this report. Based on that evaluation, the Company’s Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this Quarterly Report on Form 10-Q, the Company’s disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 is (1) recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms, and (2) accumulated and communicated to the Company’s management, including its Chief Executive Officer and Executive Vice President — Finance and Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure.

Changes in Internal Controls

There have been no changes in the Company’s internal controls over financial reporting during the period covered by this quarterly report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, the Company’s internal controls over financial reporting.

Part II OTHER INFORMATION

Item 1 – LEGAL PROCEEDINGS

We are, and from time to time may become, subject to various legal claims or litigation arising in the normal course of business activities, such as intellectual property, commercial and product liability claims, lawsuits, class actions and other

26

Table of Contents

legal matters. Generally, such actions seek compensatory or punitive damages, attorneys' fees, injunctive relief, or a combination thereof. Adverse and/or unexpected developments, settlements, or resolutions may occur. If a potential settlement or resolution is probable and reasonably estimable, we record the estimated liability based on knowledge, circumstances, and assumptions existing at the time. Although the outcome of these matters cannot be predicted with certainty, management does not presently believe that the ultimate resolution of these matters will have a material adverse effect on our financial condition or results of operations.

As of the date hereof, we are aware of four putative class actions pending against Polaris in the U.S. Three class actions arise out of allegations that certain Polaris products suffer from unresolved fire hazards allegedly resulting in economic loss. Polaris has been served in one of these putative class actions: James Bruner, Michael Zeeck and Ed Beatie, individually and on behalf of all others similarly situated v. Polaris Industries/Sales Inc. (D. MN), April 5, 2018. Polaris has received pre-suit notice of the remaining two putative class actions pursuant to the California Legal Remedies Act but has not yet been served: Les Willmon, individually and on behalf of all others similarly situated v. Polaris Sales Inc. (E.D. CA), April 5, 2018, and Jose Luna, individually and on behalf of all others similarly situated v. Polaris Sales Inc. (D. MN), April 10, 2018. The fourth putative class action is pending in the federal district court of Minnesota and alleges excessive heat hazards on certain other Polaris products and seeks damages for alleged personal injury and economic loss: Riley Johannesson, Daniel Badilla, James Kelley, Ronald Krans, Kevin Wonders, William Bates and James Pinion, individually and on behalf of all others similarly situated v. Polaris Industries (D. MN), October 4, 2016. As these proceedings are in the early stages, we are unable to provide an evaluation of the likelihood that a loss will be incurred or an estimate of the range of possible loss.

Item 1A – RISK FACTORS

Please consider the factors discussed in “Part I, Item 1A. Risk Factors” in our fiscal 2017 Annual Report filed on Form 10-K. There have been no material changes or additions to our risk factors discussed in such report, which could materially affect the Company's business, financial condition, or future results, with the exception of the following risk factors which amend and supersede their equivalents previously discussed in our fiscal 2017 Annual Report filed on Form 10-K:

Increases in the cost of raw material, commodity and transportation costs and shortages of certain raw materials could negatively impact our business.

The primary commodities used in manufacturing our products are aluminum, steel, petroleum-based resins and certain rare earth metals used in our charging systems, as well as diesel fuel to transport the products. Our profitability is affected by significant fluctuations in the prices of the raw materials and commodities we use in our products.

Additionally, the current political landscape has introduced significant uncertainty with respect to future trade regulations and existing international trade agreements. This includes the possibility of imposing tariffs or penalties on raw materials, commodities, and products manufactured outside the United States. We cannot predict whether, and to what extent, there may be changes to international trade agreements or whether quotas, duties, tariffs, exchange controls or other restrictions on these raw materials, commodities, and products will be changed or imposed. If we are unable to source our products from the countries where we wish to purchase them, either because of such regulatory changes or for any other reason, or if the cost of doing so increases, we may not be able to pass along any price increases in our raw materials to our customers. As a result, an increase in the cost of raw materials, commodities, labor or other costs associated with the manufacturing of our products could increase our costs of sales and reduce our profitability.

Our international operations require significant management attention and financial resources, expose us to difficulties presented by international economic, political, legal, accounting, and business factors, and may not be successful or produce desired levels of sales and profitability.

Approximately 13 percent of our total sales are generated outside of North America, and we intend to continue to expand our international operations. Expanding international sales and operations is a part of our long-term strategic objectives. To support that strategy, we must increase our presence outside of North America, including additional employees and investment in business infrastructure and operations. International operations and sales are subject to various risks, including political and economic instability, local labor market conditions, the imposition of foreign

tariffs and other trade barriers, the impact of foreign government laws and regulations and United States laws and regulations that apply to international operations, and the effects of income and withholding taxes, governmental expropriation and differences in business practices. We may incur increased costs and experience delays or disruptions in product deliveries and payments in connection with international operations and sales that could cause loss of revenues and earnings. Unfavorable changes in the political, regulatory and business climate could have a material adverse effect on our total sales, financial condition, profitability or cash flows. Violations of laws that apply to our foreign operations, such as the United States Foreign Corrupt

Table of Contents

Practices Act, could result in severe criminal or civil sanctions, could disrupt our business and result in an adverse effect on our reputation, business and results of operations.

The current political landscape has introduced greater uncertainty with respect to tax and trade policies, tariffs and government regulations affecting trade between the United States and other countries. We have sourcing and manufacturing operations in international locations. Major developments in tax policy or trade relations, such as the disallowance of tax deductions for imported or exported products or the imposition of unilateral tariffs on imported products, could have a material adverse effect on our business and results of operations.

Item 2 – UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number of Shares That May Yet Be Purchased Under the Program (1)
January 1 — 31, 2018	88,000	\$ 123.06	8,000	6,428,000
February 1 — 28, 2018	24,000	\$ 111.95	124,000	6,304,000
March 1 — 31, 2018	1,000	\$ 113.67	1,000	6,303,000
Total	133,000	\$ 112.61	133,000	6,303,000

(1) The Board of Directors has authorized the cumulative repurchase of up to an aggregate of 86.5 million shares of the Company's common stock (the "Program"). Of that total, 80.2 million shares have been repurchased cumulatively from 1996 through March 31, 2018. The Program does not have an expiration date.

Item 4 – MINE SAFETY DISCLOSURES

Not applicable.

Item 6 – EXHIBITS

A list of exhibits to this Form 10-Q is set forth on the Exhibit Index and is incorporated herein by reference.

Table of Contents

Exhibit Index

Exhibit
Number Description

3.a Restated Articles of Incorporation of Polaris Industries Inc. (the “Company”), effective April 28, 2017, incorporated by reference to Exhibit 3.b to the Company’s Current Report on Form 8-K filed May 2, 2017.

3.b Bylaws of the Company, as amended and restated on February 27, 2018, incorporated by reference to Exhibit 3.2 to the Company’s Current Report on Form 8-K filed February 27, 2018.

10.a Polaris Industries Inc. Senior Executive Annual Incentive Plan, as amended and restated effective February 27, 2018.

31.a Certification of Chief Executive Officer required by Exchange Act Rule 13a-14(a).
