NOTES TO UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. Basis of Presentation

As used herein, the "Company," "we," "us," or "our" refers to Selective Insurance Group, Inc. (the "Parent"), and its subsidiaries, except as expressly indicated or unless the context otherwise requires. Our interim unaudited consolidated financial statements ("Financial Statements") have been prepared by us in conformity with U.S. generally accepted accounting principles ("GAAP") and the rules and regulations of the U.S. Securities and Exchange Commission ("SEC") regarding interim financial reporting. The preparation of the Financial Statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported financial statement balances, as well as the disclosure of contingent assets and liabilities. Actual results could differ from those estimates. All significant intercompany accounts and transactions between the Parent and its subsidiaries are eliminated in consolidation.

Certain amounts in our prior years' Financial Statements and related notes have been reclassified to conform to the 2018 presentation. Specifically, we reclassified restricted cash balances related to our participation in the National Flood Insurance Program ("NFIP") from other assets in our consolidated balance sheet into a separate line item on the face of that statement. Additionally, refer to Note 2. "Adoption of Accounting Pronouncements" below for a discussion of the retroactive restatements that are included in these financial statements in relation to the adoption of new accounting pronouncements for the treatment of restricted cash and distributions from equity method investments on the consolidated statements of cash flows.

Our Financial Statements reflect all adjustments that, in our opinion, are normal, recurring, and necessary for a fair presentation of our results of operations and financial condition. Our Financial Statements cover the first quarters ended March 31, 2018 ("First Quarter 2018") and March 31, 2017 ("First Quarter 2017"). The Financial Statements do not include all of the information and disclosures required by GAAP and the SEC for audited annual financial statements. Results of operations for any interim period are not necessarily indicative of results for a full year. Consequently, our Financial Statements should be read in conjunction with the consolidated financial statements contained in our Annual Report on Form 10-K for the year ended December 31, 2017 ("2017 Annual Report") filed with the SEC.

NOTE 2. Adoption of Accounting Pronouncements

In January 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-01, Financial Instruments - Overall: Recognition and Measurement of Financial Assets and Financial Liabilities ("ASU 2016-01"). ASU 2016-01 provides guidance to improve certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. Specifically the guidance: (i) requires equity securities held in our investment portfolio to be measured at fair value with changes in fair value recognized in earnings; (ii) simplifies the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment; (iii) eliminates the requirement to disclose the methods and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost; (iv) requires the use of the exit price notion when measuring the fair value of financial instruments for disclosure purposes; and (v) clarifies that the need for a valuation allowance on a deferred tax asset related to an available-for-sale ("AFS") security should be evaluated with other deferred tax assets.

We adopted ASU 2016-01 in First Quarter 2018 and recognized a \$30.7 million cumulative-effect adjustment to the opening balances of accumulated other comprehensive income ("AOCI") and retained earnings, which represents the after-tax net unrealized gain on our equity portfolio as of December 31, 2017. Additionally, beginning in First Quarter 2018, changes in unrealized gains or losses on this portfolio are no longer recorded to AOCI, but are instead recognized in income through "Unrealized losses on equity securities" on our Consolidated Statements of Income. See Note 4 (j) below for information regarding unrealized equity losses recognized in income in First Quarter 2018.

There were two accounting updates that we adopted with a retrospective transition in First Quarter 2018 that related to our statements of cash flows. These accounting updates impacted our categorization of distributions from equity method investees (ASU 2016-15, Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments ("ASU 2016-15")) and the presentation of restricted cash (ASU 2016-18, Statement of Cash Flows: Restricted Cash ("ASU 2016-18")). These ASUs are discussed below and the discussions are followed with a table presenting the impact of the prior period restatements.

In August 2016, the FASB issued ASU 2016-15. As mentioned above, this ASU adds guidance on the categorization of distributions from equity method investees within the statement of cash flows. In accordance with this guidance, we made an accounting policy election to classify these distributions using the cumulative earnings approach. This election resulted in a restatement to operating and investing cash flows as outlined in the table below. ASU 2016-15 also added or clarified guidance on the cash flow classification of certain cash receipts and payments, including, but not limited to: (i) debt prepayment or debt extinguishment costs; (ii) proceeds from the settlement of corporate-owned life insurance policies, including bank-owned life

Table of Contents

insurance policies; and (iii) separately identifiable cash flows and application of the predominance principle. The updated guidance for these topics did not impact our statement of cash flows.

In November 2016, the FASB issued ASU 2016-18. ASU 2016-18, requires restricted cash and restricted cash equivalents to be included with cash and cash equivalents in the reconciliation of beginning and ending cash on the statements of cash flows. This update also requires a reconciliation of the statement of the cash flows to the balance sheet if the balance sheet includes more than one line item containing cash, cash equivalents, and restricted cash. We have restricted cash related to our participation in the NFIP, which we had previously reported as part of "Other assets" on the Consolidated Balance Sheet. Beginning in First Quarter 2018, we are reporting restricted cash in its own line item on the Consolidated Balance Sheets to aid in the reconciliation of the amounts presented on the Consolidated Statements of Cash Flows. We have also restated prior year balances on the Consolidated Balance Sheets to conform to the current year presentation.

The adoption of this guidance resulted in a restatement of operating cash flows in First Quarter 2017 to remove the impact of the change in restricted cash from operating activities and include the restricted cash balance in the reconciliation of beginning and ending cash balances on the Statements of Cash Flows. In addition, we have included the required reconciliation in Note 3. "Statements of Cash Flows" below.

ASU 2016-15 and ASU 2016-18 resulted in the following line item restatements within operating and investing cash flows on the Statements of Cash Flows:

| (in thousands) | March 31, 2017 | |
|---|-------------------|----------------|
| | Prior to Adoption | After Adoption |
| Undistributed gains of equity method investments | (665) | (685) |

In January 2017, the FASB issued ASU 2017-04, Intangibles-Goodwill and Other: Simplifying the Test for Goodwill Impairment ("ASU 2017-04"). ASU 2017-04 eliminates the second step of the two part goodwill impairment test, which required entities to determine the fair value of individual assets and liabilities of a reporting unit to measure the goodwill impairment. Under the new guidance, a goodwill impairment is calculated as the amount by which a reporting unit's carrying value exceeds its fair value, not to exceed the carrying amount of goodwill. An entity still has the option to perform the qualitative assessment for a reporting unit to determine if the quantitative impairment test is necessary. The amendments in this update should be applied on a prospective basis for annual or interim goodwill impairment tests in fiscal years beginning after December 15, 2019. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. We adopted ASU 2017-04 in First Quarter 2018 and it had no impact on us.

In February 2018, the FASB issued ASU 2018-02, Income Statement - Reporting Comprehensive Income ("ASU 2018-02"). ASU 2018-02 allows a one-time reclassification from AOCI to retained earnings for the stranded tax assets that were created in AOCI from the enactment of the Tax Cuts and Jobs Act of 2017 ("Tax Reform"). We adopted ASU 2018-02 in First Quarter 2018 and recognized a \$5.7 million cumulative-effect adjustment for the deferred tax charge to income in the fourth quarter of 2017 that was associated with net unrealized gains on our investment portfolio and pension plan resulting from the enactment of Tax Reform.

The following table provides a reconciliation of cash and restricted cash reported within the Consolidated Balance Sheets that equate to the amount reported in the Consolidated Statements of Cash Flows:

| (\$ in thousands) | March | December |
|--|----------|----------|
| | 31, 2018 | 31, 2017 |
| Cash | \$674 | 534 |
| Restricted cash | 16,258 | 44,176 |
| Total cash and restricted cash shown in the Statements of Cash Flows | \$16,932 | 44,710 |

Amounts included in restricted cash represent cash received from the NFIP, which is restricted to pay flood claims under the Write Your Own Program.

NOTE 4. Investments

(a) Information regarding our held-to-maturity ("HTM") fixed income securities as of March 31, 2018 and December 31, 2017 was as follows:

March 31, 2018

| (\$ in thousands) | Amortized Cost | Net Unrealized | | Carrying Value | Unrecognized Holding Gains | Unrecognized Holding Losses | Fair Value |

Unrealized gains and losses of AFS securities represent fair value fluctuations from the later of: (i) the date a security is designated as AFS; or (ii) the date that an OTTI charge is recognized on an AFS security, through the date of the balance sheet. These unrealized gains and losses are recorded in AOCI on the Consolidated Balance Sheets. As of First Quarter 2018, equity securities are no longer required to be included in the table above with the adoption of new accounting guidance through which unrealized gains and losses on equity securities are no longer recognized in AOCI, but are instead recognized through income. Refer to Note 2. "Adoption of Accounting Pronouncements" for additional information regarding the adoption of ASU 2016-01.

(c) The severity of impairment on securities in an unrealized/unrecognized loss position averaged 1% of amortized cost at both March 31, 2018 and December 31, 2017. Quantitative information regarding unrealized losses on our AFS portfolio is provided below. Our HTM portfolio had no unrealized/unrecognized losses at March 31, 2018, and \$0.1 million of unrealized/unrecognized losses at December 31, 2017.

¹ Gross unrealized losses include non-OTTI unrealized amounts and OTTI losses recognized in AOCI.

The increase in the less than 12 months unrealized loss position was driven by higher interest rates and not underlying credit concerns. Fixed income security pricing in the marketplace has declined, reflecting a 33-basis point increase in 10-year U.S. Treasury Note yields during First Quarter 2018. Additionally, we do not intend to sell any of the securities in the tables above, nor will we be required to sell any of these securities. Considering these factors, and in accordance with our review of these securities under our OTTI policy, as described in Note 2. "Summary of Significant Accounting Policies" within Item 8. "Financial Statements and Supplementary Data." of our 2017 Annual Report, we have concluded that they are temporarily impaired. This conclusion reflects our current judgment as to the financial position and future prospects of the entity that issued the investment security and underlying collateral.

(d) Fixed income securities at March 31, 2018, by contractual maturity, are shown below. Mortgage-backed securities ("MBS") are included in the maturity tables using the estimated average life of each security. Expected maturities may differ from contractual maturities because issuers may have the right to call or prepay obligations, with or without call or prepayment penalties.

Listed below are the contractual maturities of fixed income securities at March 31, 2018:

¹The maximum exposure to loss includes both the carry value of these investments and the related unfunded commitments. In addition, tax credits that have been previously recognized in Other securities are subject to the risk of recapture, which we do not consider significant.

Table of Contents

We do not have a future obligation to fund losses or debts on behalf of the investments above; however, we are contractually committed to make additional investments up to the remaining commitment outlined above. We have not provided any non-contractual financial support at any time during 2018 or 2017.

The following table sets forth gross summarized financial information for our other investments portfolio, including the portion not owned by us. The majority of these investments are carried under the equity method of accounting. The last line of the table below reflects our share of the aggregate income or loss, which is the portion included in our Financial Statements. As the majority of these investments report results to us on a one quarter lag, the summarized financial statement information for the three-month period ended December 31 is included in our First Quarter results. This information is as follows:

| Income Statement Information (\$ in millions) | Quarter ended March 31, | |
|--|----------------------------|----------|
| | 2018 | 2017 |
| Net investment (loss) income | \$(35.4) | 25.6 |

(f) We have pledged certain AFS fixed income securities as collateral related to our relationships with the Federal Home Loan Bank of Indianapolis ("FHLBI") and the Federal Home Loan Bank of New York ("FHLBNY"). In addition, certain securities were on deposit with various state and regulatory agencies at March 31, 2018 to comply with insurance laws. We retain all rights regarding all securities pledged as collateral. The market value of FHLBNY collateral increased \$82.3 million compared to December 31, 2017 due to additional borrowings from FHLBNY in First Quarter 2018. Refer to Note 5. "Indebtedness" below for additional information regarding these borrowings.

The following table summarizes the market value of these securities at March 31, 2018:

| (\$ in millions) | FHLBI Collateral | FHLBNY Collateral | State and Regulatory Deposits | Total |

Realized gains and losses on the sale of investments are determined on the basis of the cost of the specific investments sold. Net realized gains in First Quarter 2018 were primarily driven by opportunistic sales in our equity portfolio and higher trading volume in our fixed income securities portfolio. Proceeds from the sale of AFS fixed income securities were \$675.4 million and \$594.8 million in First Quarter 2018 and First Quarter 2017, respectively. Proceeds from the sale of equity securities were \$40.7 million and \$5.5 million in First Quarter 2018 and First Quarter 2017, respectively.

NOTE 5. Indebtedness

Our long-term debt balance has not changed materially since December 31, 2017. However, Selective Insurance Company of America ("SICA") borrowed the following short-term funds in First Quarter 2018 from the FHLBNY:

•

On February 27, 2018, SICA borrowed \$75 million at an interest rate of 1.75%. This borrowing was repaid on March 20, 2018; and

On March 28, 2018, SICA borrowed \$55 million at an interest rate of 1.98%. This borrowing was repaid on April 18, 2018.

For detailed information on our indebtedness, see Note 10. "Indebtedness" in Item 8. "Financial Statements and Supplementary Data." of our 2017 Annual Report.

NOTE 6. Fair Value Measurements

Our financial assets are measured at fair value as disclosed on the Consolidated Balance Sheets. The fair values of our long-term debt are provided in this footnote and the related carry values have changed by less than 1% during First Quarter 2018. During First Quarter 2018, we borrowed \$55 million from the FHLBNY. This borrowing, with a fair value and carry value of \$55 million, was outstanding at March 31, 2018 and repaid on April 18, 2018. For a discussion of the fair value and hierarchy of the techniques used to value our financial assets and liabilities, refer to Note 2. "Summary of Significant Accounting Policies" in Item 8. "Financial Statements and Supplementary Data." of our 2017 Annual Report.

The following tables provide quantitative disclosures of our financial assets that were measured and recorded at fair value at March 31, 2018 and December 31, 2017:

¹ There were no transfers of securities between Level 1 and Level 2.

Investments amounting to \$25.0 million at March 31, 2018, and \$23.7 million at December 31, 2017, were measured at fair value using the net asset value per share (or its practical expedient) and have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to total assets measured at fair value.

| Prior years | (3,860) | (13,859) |
| Total incurred loss and loss expense | 384,941 | 317,472 |
| Paid loss and loss expense for claims occurring in the: | | |
| Current year | 79,345 | 54,708 |
| Prior years | 248,738 | 235,742 |
| Total paid loss and loss expense | 328,083 | 290,450 |
| Net reserve for loss and loss expense, at end of period | 3,242,243 | 3,107,541 |
| Add: Reinsurance recoverable on unpaid loss and loss expense, at end of period | 549,837 | 571,930 |
| Gross reserve for loss and loss expense at end of period | \$3,792,080 | 3,679,471 |

The \$57.5 million increase in current year loss and loss expense incurred illustrated in the table above was driven by catastrophe losses and non-catastrophe property losses. Catastrophe losses, which increased \$13.8 million, to \$26.0 million in First Quarter 2018, were primarily related to the winter storms that impacted the east coast of the United States in early January and several Nor'easters in March. Non-catastrophe property losses, which increased \$34.3 million, to \$105.7 million in First Quarter 2018, were principally related to the early January deep freeze in our footprint states and a relatively large number of severe fire losses.

Prior year development in First Quarter 2018 of \$3.9 million included \$8.0 million of favorable casualty development and \$4.1 million of unfavorable property development. The favorable casualty development included \$16.0 million of development in our workers compensation line of business, partially offset by \$8.0 million of unfavorable casualty reserve development in our commercial automobile line of business.

Prior year development in First Quarter 2017 of \$13.9 million was primarily due to favorable casualty reserve development of \$22.4 million in our general liability line of business. This was partially offset by unfavorable casualty reserve development of \$6.0 million in our commercial automobile line of business.

For a discussion of the trends and recent developments impacting these lines, refer to the "Critical Accounting Policies and Estimates" section of Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations." in our 2017 Annual Report.

NOTE 9. Segment Information

The disaggregated results of our four reportable segments are used by senior management to manage our operations. These reportable segments are evaluated as follows:

Our Standard Commercial Lines, Standard Personal Lines, and E&S Lines are evaluated based on before and after-tax underwriting results (net premiums earned, incurred loss and loss expense, policyholder dividends, policy acquisition costs, and other underwriting expenses), and combined ratios.

Our Investments segment is evaluated based on after-tax net investment income and net realized gains and losses.

In computing the results of each segment, we do not make adjustments for interest expense or corporate expenses. We do not maintain separate investment portfolios for the segments and therefore, do not allocate assets to the segments.

The following summaries present revenues (net investment income and net realized gains on investments in the case of the Investments segment) and pre-tax income for the individual segments:

NOTE 10. Retirement Plans

SICA's primary pension plan is the Retirement Income Plan for Selective Insurance Company of America (the "Pension Plan"). SICA also sponsors the Supplemental Excess Retirement Plan (the "Excess Plan") and a life insurance benefit plan. All plans are closed to new entrants and benefits ceased accruing under the Pension Plan and the Excess Plan after March 31, 2016. For more information concerning SICA's retirement plans, refer to Note 14. "Retirement Plans" in Item 8. "Financial Statements and Supplementary Data." of our 2017 Annual Report.

NOTE 12. Federal Income Taxes

(a) On December 22, 2017, Tax Reform was signed into law, which among other implications, reduced our statutory corporate tax rate from 35% to 21% beginning with our 2018 tax year.

We continue to provide provisional amounts for loss reserve discounting because the Internal Revenue Service ("IRS") has not yet issued guidance with regard to the discount rates to be used under Tax Reform. For additional information, refer to Note 13. "Federal Income Taxes" in Item 8. "Financial Statements and Supplementary Data." of our 2017 Annual Report.

During 2018, we will continue to monitor IRS guidance to complete the analysis of loss reserve discounting.

(b) A reconciliation of federal income tax on income at the corporate rate to the effective tax rate is as follows:

| (\$ in thousands) | Quarter ended March 31, | |
|------------------------------|----------------------------|----------|
| | 2018 | 2017 |

| Federal income tax expense | \$1,006 | 17,134 |

NOTE 13. Litigation

In the ordinary course of conducting business, we are named as defendants in various legal proceedings. Most of these proceedings are claims litigation involving our ten insurance subsidiaries ("Insurance Subsidiaries") as either: (i) liability insurers defending or providing indemnity for third-party claims brought against our customers; or (ii) insurers defending first-party coverage claims brought against them. We account for such activity through the establishment of unpaid losses and loss expense reserves. We expect that any potential ultimate liability in such ordinary course claims litigation will not be material to our consolidated financial condition, results of operations, or cash flows after consideration of provisions made for potential losses and costs of defense.

From time to time, our Insurance Subsidiaries also are named as defendants in other legal actions, some of which assert claims for substantial amounts. These actions include, among others, putative class actions seeking certification of a state or national

Table of Contents

class. Such putative class actions have alleged, for example, improper reimbursement of medical providers paid under workers compensation and personal and commercial automobile insurance policies. Similarly, our Insurance Subsidiaries are also named from time-to-time in individual actions seeking extra-contractual damages, punitive damages, or penalties, some of which allege bad faith in the handling of insurance claims. We believe that we have valid defenses to these cases. We expect that any potential ultimate liability in any such lawsuit will not be material to our consolidated financial condition, after consideration of provisions made for estimated losses. Nonetheless, given the inherent unpredictability of litigation and the large or indeterminate amounts sought in certain of these actions, an adverse outcome in certain matters could possibly have a material adverse effect on our consolidated results of operations or cash flows in particular quarterly or annual periods.

As of March 31, 2018, we do not believe the Company was involved in any legal action that could have a material adverse effect on our consolidated financial condition, results of operations, or cash flows.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Forward-Looking Statements

As used herein, the "Company," "we," "us," or "our" refers to Selective Insurance Group, Inc. (the "Parent"), and its subsidiaries, except as expressly indicated or unless the context otherwise requires. In this Quarterly Report on Form 10-Q, we discuss and make statements regarding our intentions, beliefs, current expectations, and projections regarding our company's future operations and performance. Such statements are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are often identified by words such as "anticipates," "believes," "expects," "will," "should," and "intends" and their negatives. We caution prospective investors that such forward-looking statements are not guarantees of future performance. Risks and uncertainties are inherent in our future performance. Factors that could cause actual results to differ materially from those indicated by such forward-looking statements include, but are not limited to, those discussed under Item 1A. "Risk Factors" below in Part II. "Other Information." These risk factors may not be exhaustive. We operate in a continually changing business environment and new risk factors emerge from time to time. We can neither predict such new risk factors nor can we assess the impact, if any, of such new risk factors on our businesses or the extent to which any factor or combination of factors may cause actual results to differ materially from those expressed or implied in any forward-looking statements in this report. In light of these risks, uncertainties, and assumptions, the forward-looking events discussed in this report might not occur. We make forward-looking statements based on currently available information and assume no obligation to update these statements due to changes in underlying factors, new information, future developments, or otherwise.

Introduction

The Parent, through its ten insurance subsidiaries, collectively referred to as the "Insurance Subsidiaries," offers property and casualty insurance products in the standard and excess and surplus ("E&S") marketplaces. We classify our business into four reportable segments, which are as follows:

Standard Commercial Lines;
Standard Personal Lines;
E&S Lines; and
Investments.

For further details regarding these segments, refer to Note 9. "Segment Information" in Item 1. "Financial Statements." of this Form 10-Q and Note 11. "Segment Information" in Item 8. "Financial Statements and Supplementary Data." of our Annual Report on Form 10-K for the year ended December 31, 2017 ("2017 Annual Report").

Our Standard Commercial and Standard Personal Lines products and services are written through nine of our Insurance Subsidiaries, some of which write flood business through the Write Your Own ("WYO") program of the National Flood Insurance Program ("NFIP"). Our E&S products and services are written through one subsidiary, Mesa Underwriters Specialty Insurance Company ("MUSIC"). This subsidiary provides us with a nationally-authorized non-admitted platform to offer insurance products and services to customers who have not obtained coverage in the standard marketplace.

The following is Management's Discussion and Analysis ("MD&A") of the consolidated results of operations and financial condition, as well as known trends and uncertainties, that may have a material impact in future periods. Consequently, investors should read the MD&A in conjunction with Item 1. "Financial Statements." of this Form 10-Q and the consolidated financial statements in our 2017 Annual Report filed with the U.S. Securities and Exchange Commission.

Table of Contents

In the MD&A, we will discuss and analyze the following:

• Critical Accounting Policies and Estimates;

• Financial Highlights of Results for the first quarters ended March 31, 2018 ("First Quarter 2018") and March 31, 2017 ("First Quarter 2017");

• Results of Operations and Related Information by Segment;

• Federal Income Taxes;

• Financial Condition, Liquidity, and Capital Resources;

• Ratings;

• Off-Balance Sheet Arrangements; and

• Contractual Obligations, Contingent Liabilities, and Commitments.

Critical Accounting Policies and Estimates

Our unaudited interim consolidated financial statements include amounts based on our informed estimates and judgments for those transactions that are not yet complete. Such estimates and judgments affect the reported amounts in the consolidated financial statements. Those estimates and judgments that were most critical to the preparation of the consolidated financial statements involved the following: (i) reserves for loss and loss expense; (ii) pension and post-retirement benefit plan actuarial assumptions; (iii) investment valuation and other-than-temporary-impairments ("OTTI"); and (iv) reinsurance. These estimates and judgments require the use of assumptions about matters that are highly uncertain and, therefore, are subject to change as facts and circumstances develop. If different estimates and judgments had been applied, materially different amounts might have been reported in the financial statements. For additional information regarding our critical accounting policies, refer to pages 36 through 44 of our 2017 Annual Report.

¹ Refer to the Glossary of Terms attached to our 2017 Annual Report as Exhibit 99.1 for definitions of terms used in this Form 10-Q.

² Non-GAAP operating income is used as an important financial measure by us, analysts, and investors, because the realization of investment gains and losses on sales of securities in any given period is largely discretionary as to timing. In addition, these net realized investment gains and losses, as well as OTTI that are charged to earnings, and unrealized gains and losses on equity securities, could distort the analysis of trends.

Reconciliations of net income, net income per share, and annualized ROE to non-GAAP operating income, non-GAAP operating income per share, and annualized non-GAAP operating ROE, respectively, are provided in the tables below:

In First Quarter 2018, our insurance operations generated an annualized ROE of 0.9%, which is down from 8.2% in First Quarter 2017. The decrease in ROE reflects an 8.0-point increase in our combined ratio from 91.2% in First Quarter 2017 to 99.2% in First Quarter 2018. The combined ratio increase was driven by catastrophe and non-catastrophe property losses which, in the aggregate, are 7.4 points higher than First Quarter 2017. Non-catastrophe property losses contributed 5.2 points to this variance, while catastrophe losses contributed the remaining 2.2 points. Non-catastrophe property losses were driven by the early January deep freeze in our footprint states and a relatively large number of severe fire losses. Catastrophe losses were driven by the winter storm that impacted the east coast of the United States in early January and several Nor'easters in March.

Our First Quarter 2018 results continue to reflect our efforts to: (i) achieve renewal pure price increases at the account level within our Standard Commercial Lines segment and overall rate level increases in our Standard Personal Lines and E&S segments; (ii) generate new business; and (iii) improve the underlying profitability of our business through various underwriting and claims initiatives. Our net premiums written ("NPW") growth of 4% for First Quarter 2018 was aided by the net appointment of 109 retail agents in 2017 and 44 retail agents in First Quarter 2018. Included in these net appointments were 26 agents that were appointed in our new states of Arizona and New Hampshire in 2017 and 11 agents that were appointed in Arizona, New Hampshire, and Colorado in First Quarter 2018.

In addition to the cumulative renewal pure price increases we have achieved over the past several years, we have driven underwriting and claims process enhancements, and have improved our mix of business based on expected

future profitability. For example, our workers compensation book of business, which represents approximately 17% of our Standard Commercial Lines business, continues to benefit from: (i) an improved business mix that is shifting towards lower hazard and smaller accounts from higher hazard and larger accounts; (ii) claims initiatives, such as reducing workers compensation medical costs through more favorable Preferred Provider Organization ("PPO") contracts and greater PPO penetration; and (iii) better outcomes driven by our workers compensation strategic case unit. For a full discussion of the claims initiatives that we have deployed, refer to the "Reserves for Loss and Loss Expense" section within Critical Accounting Policies and Estimates in Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations." of our 2017 Annual Report.

Table of Contents

Our commercial automobile line of business has been unprofitable in recent years and remains an area of focus as we are taking steps to improve profitability in this line of business. In First Quarter 2018, we recorded unfavorable prior year casualty reserve development for this line. Poor commercial automobile underwriting results have been an industry-wide problem, with industry statutory combined ratios averaging approximately 110% for the past three-year period. The industry has been experiencing higher than expected claim frequency, which we believe is largely due to increased miles driven as a result of lower unemployment, lower gasoline prices, and an improving economy, as well as an increase in distracted driving. We achieved renewal pure price increases on this line of 7.3% in First Quarter 2018, compared to the quarterly average rate achieved by the industry in 2017 of 7.9% as reported by the Willis Towers Watson Commercial Lines Insurance Pricing (or CLIPs) Survey. We expect the unfavorable trends in the industry to continue to drive improved pricing on this line of business. We have also been managing our commercial automobile in-force book of business in targeted industry segments and reducing exposures in higher hazard classes to improve the underlying profitability of this business.

Our E&S Lines segment also remains a focus area, with a combined ratio of 101.1% for First Quarter 2018. We face a competitive environment in this segment, and our pricing and underwriting initiatives aimed at improving profitability have resulted in a decline in new business volume. Our focus in E&S is to improve profitability through pure price increases, business mix changes, and enhanced claims management practices. We expect continued pressure on NPW growth in this segment until we achieve our risk-adjusted return expectations.

Pre-tax net investment income grew 16% in First Quarter 2018 compared to First Quarter 2017, driven by higher yields on our fixed income securities portfolio. We have continued to diversify and modestly increase our exposure to risk assets and move towards a long-term allocation of approximately 10% of total invested assets. Risk assets, which principally include public equities, high-yield fixed income securities, and private assets, represented 8% of our total invested assets at March 31, 2018.

We generated an annualized non-GAAP operating ROE of 6.5% in First Quarter 2018, compared to 13.1% in First Quarter 2017. This decrease was mainly due to lower levels of underwriting income as discussed above, partially offset by an increase in investment income. In addition, the impact of Tax Cuts and Jobs Act of 2017 ("Tax Reform") improved our overall operating ROE by 0.4 points.

Insurance Operations

The key metric in understanding our insurance segments' contribution to annualized non-GAAP operating ROE is the GAAP combined ratio. The following table provides a quantitative foundation for analyzing this ratio:

| All Lines (\$ in thousands) | Quarter ended March 31, | | Change | |
|--------------------------------------|-------------------------|---------|--------|--------|
| | 2018 | 2017 | % or | Points |

The combined ratio increased 8.0 points in First Quarter 2018 compared to the same prior year period, driven by the loss ratio, which included the following fluctuations:

| (\$ in millions) | First Quarter 2018 | | | First Quarter 2017 | | | Change in Ratio |
|---|--------------------------------|---------------------------------------|-----|--------------------------------|---------------------------------------|-----|-----------------|
| | Loss and Loss Expense Incurred | Impact on Loss and Loss Expense Ratio | pts | Loss and Loss Expense Incurred | Impact on Loss and Loss Expense Ratio | pts | |

"Results of Operations and Related Information by Segment."

Other

Our interest and other corporate expenses, which are primarily comprised of stock compensation expense at the holding company level, reduced our overall annualized ROE by 2.9 points in First Quarter 2018, compared to 2.1 points in First Quarter 2017. The deterioration in ROE contribution is principally driven by Tax Reform, as the tax benefit related to these expenses has been reduced by the reduction in the corporate tax rate in 2018.

Outlook

Despite our strong financial performance in 2017 and expectations for 2018, the U.S. property and casualty insurance industry continues to be characterized by an abundance of capital, intense competition, and low overall premium growth. According to A.M. Best Company's ("A.M. Best") "US Property/Casualty: 2018 Review & Preview," for 2018, rate increases are expected to remain in the low single digits for most lines of business. A.M. Best is estimating an overall statutory combined ratio for the industry for 2018 of 100.0% and an estimated after-tax return on surplus of 5.8%. In addition, A.M. Best estimates that property and casualty insurance industry loss and loss adjustment expense reserve adequacy peaked several years ago and has been declining since that time.

Our long-term growth plans include: (i) increasing the Standard Commercial Lines market share held by our "ivy league" distribution partners to at least 25%; (ii) increasing our share of the business within these distribution partners, which we refer to as our "share of wallet," to 12%; and (iii) geographic expansion. To date, we write Standard Commercial Lines business in 25 states and the District of Columbia, which, at a 3% market share, would create a corporate Standard Commercial Lines profile in excess of \$4 billion of NPW.

In 2017, we opened Arizona and New Hampshire for Standard Commercial Lines business, and effective January 1, 2018, we started writing Standard Commercial Lines business in Colorado. We expect to open New Mexico and Utah by the end of 2018. We also expect to open Arizona and Utah for Standard Personal Lines business by early 2019. We have appointed an aggregate of 37 agents in these states, with appointments in most states controlling approximately 20% of that state's available Standard Commercial Lines premium.

Investing in the development and implementation of leading technologies to enhance our underwriting is integral to our overall strategy. The ability to segment our business and present specific account-level pricing guidance to our underwriters based on expected future profitability has positioned us to achieve strong renewal pure price without negatively impacting retention. We

Table of Contents

continue to expand the use of our newest underwriting tool that provides real-time insights into how each prospective new business account compares with similar accounts already in our portfolio. We believe this tool positions us better to grow the business regardless of overall market dynamics.

As an organization, we are making significant investments focused on enhancing the overall customer experience in an omni-channel environment. To that end, we have recently deployed a new customer experience desktop to our contact center employees, and are working closely with our distribution partners to ensure we present our customers with a seamless experience. We recognize that our customers' expectations on how they engage with us and our agents are rapidly evolving, and we continue to strive towards providing "best-in-class" customer service in a 24-hour, 365-day environment. Our goals in this area are centered around leveraging technology to improve customer retention rates, which should, over time, enhance the quality of our business.

Our investment portfolio generated pre-tax net investment income of \$43.2 million in First Quarter 2018, which was a 16% increase over the same period in 2017. Although interest rates remain under pressure, we have generated strong investment returns while maintaining a similar level of credit quality and duration risk on the portfolio, as a result of active investment management and security selection, principally in our core fixed income portfolio. Risk assets, which principally include high-yield fixed income securities, equities, and our alternative investment portfolio, were 8% of our overall portfolio as of March 31, 2018, which is consistent with year-end 2017. We have been gradually diversifying our portfolio, and will likely continue to modestly increase our risk asset allocation over time, up to approximately 10% of our invested assets, depending on market conditions.

After one quarter of results that were below our expectations, we are revising our full-year 2018 guidance to the following:

- A GAAP combined ratio, excluding catastrophe losses, of approximately 92.0%. This assumes no additional prior year casualty reserve development;

- Catastrophe losses of 3.5 points;

- After-tax net investment income of \$150 million, which includes \$8 million of after-tax net investment income from our alternative investments;

- An overall effective tax rate of approximately 18%, which includes an effective tax rate of 17% for net investment income, reflecting a tax rate of 5.25% for tax-advantaged municipal bonds and a tax rate of approximately 21% for all other investments; and

- Weighted average shares of approximately 59.6 million.

The increase in the combined ratio of 3.7 points in First Quarter 2018 compared to First Quarter 2017 was driven by: (i) higher non-catastrophe property losses; and (ii) higher unfavorable prior year casualty reserve development. First Quarter 2017: Development was primarily due to higher claims frequencies in the 2015 accident year.

The increases in the combined ratio in First Quarter 2018 compared to the same prior year period were driven by the following:

| | First Quarter 2018 | | First Quarter 2017 | | Change | |
|---------------------------------|--|----------|--|---------|-------------|-----|
| (\$ in millions) | (Benefit impact on Expense Combined Ratio) | | (Benefit impact on Expense Combined Ratio) | | % or Points | |

| Total | 57.9 | 72.1 | 33.1 | 43.3 | 28.8 | |

The increase in catastrophe losses in First Quarter 2018 compared to the same prior year period primarily related to the winter storm that impacted the east coast of the United States in early January and several Nor'easters in March. The increase in non-catastrophe property losses were principally related to the January deep freeze in our footprint states and a relatively large number of severe fire losses.

The increase in NPW in First Quarter 2018 compared to First Quarter 2017 was due primarily to: (i) new business; (ii) renewal pure price increases; and (iii) improving retention.

The GAAP loss and loss expense ratio increased 12.4 points in First Quarter 2018 compared to First Quarter 2017. Quantitative information on the drivers of this decrease is as follows:

The increase in catastrophe losses in First Quarter 2018 compared to the same prior year period primarily related to the winter storm that impacted the east coast of the United States in early January and several Nor'easters in March.

Table of Contents

The GAAP underwriting expense ratio decreased 3.2 points in First Quarter 2018 compared to First Quarter 2017 primarily driven by:

• A reduction in costs associated with the internally-developed software platform used in this segment of our business, which was fully amortized in the fourth quarter of 2017; and

• A reduction in commissions to our distribution partners in First Quarter 2018, including lower supplemental commission expense.

We continue to focus on profitability drivers in our E&S operations and have been actively managing price increases. While NPW has declined as a consequence of these actions, our primary focus is to bring this segment to targeted levels of profitability. Quantitative information regarding new business and price increases is as follows:

| | Quarter ended March 31, | |
|-------------------------------------|-------------------------------|------|
| (\$ in millions) | 2018 | 2017 |
| Direct new business | \$18.3 | 23.8 |
| Overall new/renewal price increases | 4.4 | %7.1 |

The NPE increase in First Quarter 2018 compared to First Quarter 2017 was consistent with the fluctuation in NPW for the twelve-month period ended March 31, 2018 compared with the twelve-month period ended March 31, 2017.

The GAAP loss and loss expense ratio increased 7.3 points in First Quarter 2018 compared to the same prior year period, driven by: (i) higher non-catastrophe property losses; and (ii) an increase in current year loss costs of 4.8 points. Offsetting these was a 3.9 point decrease in catastrophe losses driven by updated loss estimates in First Quarter 2018 for 2017 hurricanes. Quantitative information on these drivers is as follows:

| (\$ in millions) | First Quarter 2018 | First Quarter 2017 | Change in Ratio |
|------------------|--|--|-----------------------|

| Total | 8.7 | 16.6 | | 6.7 | 13.0 | | 3.6 | |

There was a 3.1 point decrease in the GAAP underwriting expense ratio in First Quarter 2018 compared to First Quarter 2017, which was primarily driven by a reduction in profit-based compensation to our distribution partners and employees.

Investments

The primary objective of the investment portfolio is to maximize after-tax net investment income and the overall total return of the portfolio, while maintaining a high credit quality core fixed income portfolio and managing our duration risk profile. Our investment philosophy includes certain return and risk objectives for the fixed income, equity, and other investment portfolios. After-tax yield and net investment income generation are key drivers to our investment strategy, which we believe will be obtained through active management of the portfolio.

Total Invested Assets

| (\$ in thousands) | March 31, 2018 | December 31, 2017 | Change % or Points |
|--|-------------------|----------------------|--------------------------|
| Total invested assets | \$5,678,604 | 5,685,179 | — % |
| Invested assets per dollar of stockholders' equity | 3.42 | 3.32 | 3 |
| Unrealized gain – before tax | 29,833 | 124,679 | (76) |
| Unrealized gain – after tax | 23,568 | 80,575 | (71) |

Invested assets remained relatively unchanged at March 31, 2018 compared to December 31, 2017. The decrease in unrealized gains was driven by our fixed income securities portfolio, which was unfavorably impacted by rising interest rates and widening credit spreads.

Fixed Income Securities

At March 31, 2018, our fixed income securities portfolio represented 92% of our total invested assets, largely unchanged compared to December 31, 2017. The effective duration of the fixed income securities portfolio as of March 31, 2018 was 3.9 years, compared to the Insurance Subsidiaries' liability duration of approximately 3.8 years. The effective duration of the fixed income securities portfolio is monitored and managed to maximize yield while managing interest rate risk and credit risk, respectively, at an acceptable level. We maintain a well-diversified portfolio across sectors, credit quality, and maturities that affords us ample liquidity. Purchases and sales are made with the intent of maximizing investment returns in the current market environment while balancing capital preservation. Over time, we may seek to increase or decrease the duration and overall credit quality of the portfolio based on market conditions.

Our fixed income securities portfolio had a weighted average credit rating of “AA-,” with 97% of the securities in the portfolio being investment grade quality at both March 31, 2018 and December 31, 2017. Within our fixed income securities portfolio, we maintained an allocation of non-investment grade high-yield securities, which represented 3% of our fixed income securities portfolio as of both March 31, 2018 and December 31, 2017. The sector composition and credit quality of our major asset categories within our fixed income securities portfolio did not significantly change from December 31, 2017.

For details regarding the credit quality of our portfolio, see Item 7A. “Quantitative and Qualitative Disclosures About Market Risk.” of our 2017 Annual Report.

Net Investment Income

The components of net investment income earned for the indicated periods were as follows:

| Annualized after-tax yield on fixed income securities | 2.7 | 2.2 | 0.5 |
| Annualized after-tax yield on investment portfolio | 2.5 | 2.0 | 0.5 |

Table of Contents

The increase in net investment income in First Quarter 2018 compared to First Quarter 2017 was driven primarily by our fixed income securities portfolio, which benefited from improved new money reinvestment yields and repositioning of the investment grade securities as a result of active investment management and security selection, principally in our core fixed income portfolio. The effective tax rate decreased from Tax Reform. See the "Federal Income Taxes" discussion below for additional information regarding the impact of this legislation.

Realized and Unrealized Gains and Losses

Our general philosophy for sales of securities is to reduce our exposure to securities and sectors based on economic evaluations and when the fundamentals for that security or sector have deteriorated, or to opportunistically trade out of securities to other securities with better economic return characteristics. Net realized and unrealized losses for the indicated periods were as follows:

| (\$ in thousands) | Quarter ended March 31, | |
|---|----------------------------|---------|
| | 2018 | 2017 |
| Net realized gains on disposals, excluding OTTI | \$4,731 | 2,430 |
| OTTI charges | (1,212) | (3,475) |
| Unrealized losses recognized in income on equity securities | (14,068) | — |
| Total net realized and unrealized losses | \$(10,549) | (1,045) |

For further discussion of our realized gains and losses, as well as our OTTI methodology, see Note 2. "Summary of Significant Accounting Policies" in Item 8. "Financial Statements and Supplementary Data." of our 2017 Annual Report. For additional information about unrealized losses on our equity portfolio, as well as information on our OTTI charges, see Note 2. "Adoption of Accounting Pronouncements" and Note 4. "Investments" in Item 1. "Financial Statements." of this Form 10-Q.

Federal Income Taxes

The following table provides information regarding federal income taxes:

| (\$ in millions) | Quarter ended March 31, | |
|----------------------------|-------------------------------|------|
| | 2018 | 2017 |
| Federal income tax expense | \$1.0 | 17.1 |
| Effective tax rate | 5.0 % | 25.4 |

On December 22, 2017, Tax Reform was signed into law, which among other provisions, reduced our statutory corporate tax rate from 35% to 21% beginning on January 1, 2018. The reduction in the effective tax rate in the table above for First Quarter 2018 compared to First Quarter 2017 reflects: (i) the lower statutory rate; (ii) the contribution of tax-advantaged interest and dividend income in relation to overall pre-tax income this year compared to last; and (iii) an increase in the tax benefit of our share-based payment awards that are recognized through income, which was driven by growth in our stock price.

In general, our effective tax rate differs from the statutory rate principally due to the benefit of tax-advantaged interest and dividend income, which are taxed at lower rates. For a reconciliation of tax expense at the statutory rate to tax expense on our Consolidated Statements of Income, refer to Note 12. "Federal Income Taxes" in Item 1. "Financial Statements" of this Form 10-Q.

We believe that our future effective tax rate will continue to be impacted by similar items, assuming no significant changes to tax laws. However, for full-year 2018, we expect an overall effective tax rate of 18%, which is higher than our effective tax rate for First Quarter 2018, as we expect a greater income contribution from our insurance operations

for the remainder of the year compared to the relative contribution this quarter.

Financial Condition, Liquidity, and Capital Resources

Capital resources and liquidity reflect our ability to generate cash flows from business operations, borrow funds at competitive rates, and raise new capital to meet operating and growth needs.

Liquidity

We manage liquidity with a focus on generating sufficient cash flows to meet the short-term and long-term cash requirements of our business operations. Our cash and short-term investment position of \$184 million at March 31, 2018 was comprised of \$29 million at the Parent and \$155 million at the Insurance Subsidiaries. Short-term investments are generally maintained in "AAA" rated money market funds approved by the National Association of Insurance Commissioners. The Parent maintains a fixed income security investment portfolio containing high-quality, highly-liquid government and corporate fixed income securities. This portfolio amounted to \$87 million at March 31, 2018, compared to \$90 million at December 31, 2017, for a

Table of Contents

total of \$115 million of cash and liquid investments at the Parent at March 31, 2018 compared to \$114 million at December 31, 2017. We expect to continue to increase the level of cash and invested assets at the Parent over time, although there will be fluctuations in these balances based on various factors, including the amount and availability of dividends from our Insurance Subsidiaries, investment income, expenses, and other liquidity needs of the Parent. Our target is to hold cash and other liquid assets at the Parent sufficient to meet two years of its expected annual needs.

Sources of Liquidity

Sources of cash for the Parent have historically consisted of dividends from the Insurance Subsidiaries, the investment portfolio discussed above, borrowings under lines of credit and loan agreements with certain Insurance Subsidiaries, and the issuance of stock and debt securities. We continue to monitor these sources, giving consideration to our long-term liquidity and capital preservation strategies.

Insurance Subsidiary Dividends

We currently anticipate that the Insurance Subsidiaries will pay \$100 million in total dividends to the Parent in 2018, a \$20 million increase compared to \$80 million paid in 2017, of which \$25 million was paid during First Quarter 2018. As of December 31, 2017, our allowable ordinary maximum dividend was \$211 million for 2018.

Any dividends to the Parent are subject to the approval and/or review of the insurance regulators in the respective Insurance Subsidiaries' domiciliary states and are generally payable only from earned surplus as reported in the statutory annual statements of those subsidiaries as of the preceding December 31. Although past dividends have historically been met with regulatory approval, there is no assurance that future dividends that may be declared will be approved. For additional information regarding dividend restrictions, refer to Note 19. "Statutory Financial Information, Capital Requirements, and Restrictions on Dividends and Transfers of Funds" in Item 8. "Financial Statements and Supplementary Data." of our 2017 Annual Report.

The Insurance Subsidiaries generate liquidity through insurance float, which is created by collecting premiums and earning investment income before losses are paid. The period of the float can extend over many years. Our investment portfolio consists of maturity dates that continually provide a source of cash flows for claims payments in the ordinary course of business. The effective duration of the fixed income securities portfolio was 3.9 years as of March 31, 2018, while the liabilities of the Insurance Subsidiaries have a duration of 3.8 years. As protection for the capital resources of the Insurance Subsidiaries, we purchase reinsurance coverage for significantly large claims or catastrophes that may occur during the year.

Line of Credit

The Parent's line of credit with Wells Fargo Bank, National Association, as administrative agent, and Branch Banking and Trust Company (BB&T) (referred to as our "Line of Credit"), was renewed effective December 1, 2015 with a borrowing capacity of \$30 million, which can be increased to \$50 million with the approval of both lending partners. This Line of Credit expires on December 1, 2020 and has an interest rate which varies and is based on, among other factors, the Parent's debt ratings. There were no balances outstanding under the Line of Credit at March 31, 2018 or at any time during 2018.

The Line of Credit agreement contains representations, warranties, and covenants that are customary for credit facilities of this type, including, without limitation, financial covenants under which we are obligated to maintain a minimum consolidated net worth, a minimum combined statutory surplus, and a maximum ratio of consolidated debt to total capitalization, as well as covenants limiting our ability to: (i) merge or liquidate; (ii) incur debt or liens; (iii) dispose of assets; (iv) make certain investments and acquisitions; and (v) engage in transactions with affiliates.

The table below outlines information regarding certain of the covenants in the Line of Credit:

| | Required as of March 31, 2018 | Actual as of March 31, 2018 |

Several of our Insurance Subsidiaries are members of certain branches of the Federal Home Loan Bank, which provides those subsidiaries with additional access to liquidity. Membership is as follows:

| Branch | Insurance Subsidiary Member |
|--|--|
| Federal Home Loan Bank of Indianapolis ("FHLBI") | Selective Insurance Company of South Carolina ("SICSC") ¹ |
| | Selective Insurance Company of the Southeast ("SICSE") ¹ |
| Federal Home Loan Bank of New York ("FHLBNY") | Selective Insurance Company of America ("SICA") |
| | Selective Insurance Company of New York ("SICNY") |

¹These subsidiaries are jointly referred to as the "Indiana Subsidiaries" as they are domiciled in Indiana.

The Line of Credit permits aggregate borrowings from the FHLBI and the FHLBNY up to 10% of the respective member company's admitted assets for the previous year end. Additionally, as SICNY is domiciled in New York, this company's borrowings from the FHLBNY are limited to the lower of 5% of admitted assets for the most recently completed fiscal quarter or 10% of admitted assets for the previous year end.

All borrowings from both the FHLBI and the FHLBNY are required to be secured by investments pledged as collateral. For additional information regarding collateral outstanding, refer to Note 4. "Investments" in Item 1. "Financial Statements." of this Form 10-Q. The following table provides information on the remaining capacity for Federal Home Loan Bank borrowings based on these restrictions, as well as the amount of additional stock that would need to be purchased to allow these member companies to borrow their remaining capacity:

| (\$ in millions) | Admitted Assets | Borrowing Limitation | Amount Borrowed | Remaining Capacity | Additional Stock Requirements |
|------------------|-----------------|----------------------|-----------------|--------------------|-------------------------------|
| SICSC | \$ 648.0 | \$ 64.8 | 32.0 | 32.8 | 1.4 |

| SICNY | 442.5 | 22.1 | — | 22.1 | 1.0 |
| Total | | \$ 381.2 | 165.0 | 216.2 | 9.6 |

Short-term Borrowings

In First Quarter 2018, SICA borrowed: (i) \$75 million from the FHLBNY, which was repaid on March 20, 2018; and (ii) \$55 million from the FHLBNY, which was repaid on April 18, 2018. For further information regarding this borrowing, see Note 5. "Indebtedness" in Item 1. "Financial Statements." of this Form 10-Q.

Intercompany Loan Agreements

The Parent has lending agreements with the Indiana Subsidiaries that have been approved by the Indiana Department of Insurance, which provide additional liquidity to the Parent. Similar to the Line of Credit agreement, these lending agreements limit borrowings by the Parent from the Indiana Subsidiaries to 10% of the admitted assets of the respective Indiana Subsidiary. The following table provides information on the Parent's borrowings and remaining borrowing capacity from the Indiana Subsidiaries:

| (\$ in millions) | Admitted Assets as of December 31, 2017 | Borrowing Limitation | Amount Borrowed | Remaining Capacity |
|----------------------|---|----------------------|-----------------|--------------------|
| As of March 31, 2018 | | | | |
| SICSC | \$ 648.0 | \$ 64.8 | 27.0 | 37.8 |
| SICSE | 507.5 | 50.8 | 18.0 | 32.8 |
| Total | | \$ 115.6 | 45.0 | 70.6 |

Capital Market Activities

The Parent had no private or public issuances of stock or debt instruments during First Quarter 2018.

Uses of Liquidity

The liquidity generated from the sources discussed above is used, among other things, to pay dividends to our shareholders. Dividends on shares of the Parent's common stock are declared and paid at the discretion of the Board of Directors based on our operating results, financial condition, capital requirements, contractual restrictions, and other relevant factors.

Our ability to meet our interest and principal repayment obligations on our debt, as well as our ability to continue to pay dividends to our stockholders, is dependent on liquidity at the Parent coupled with the ability of the Insurance Subsidiaries to pay dividends, if necessary, and/or the availability of other sources of liquidity to the Parent. Our next two principal

Table of Contents

repayments, each in the amount of \$25 million, are due in 2021, with the next following principal payment due in 2026. We

have \$185 million of Senior Notes due February 9, 2043 that became callable on February 8, 2018, which we may elect to call, in whole or in part, at any time. If we were to call and redeem these Senior Notes, we would expense the associated unamortized debt issuance costs. The balance of the unamortized debt issuance costs associated with our \$185 million of Senior Notes was \$4.5 million at March 31, 2018.

Restrictions on the ability of the Insurance Subsidiaries to declare and pay dividends, without alternative liquidity options, could materially affect our ability to service debt and pay dividends on common stock.

Capital Resources

Capital resources provide protection for policyholders, furnish the financial strength to support the business of underwriting insurance risks, and facilitate continued business growth. At March 31, 2018, we had GAAP stockholders' equity and statutory surplus of \$1.7 billion. With total debt of \$494.2 million, our debt-to-capital ratio was approximately 22.9% at March 31, 2018.

Our cash requirements include, but are not limited to, principal and interest payments on various notes payable, dividends to stockholders, payment of claims, payment of commitments under limited partnership agreements and capital expenditures, as well as other operating expenses, which include commissions to our distribution partners, labor costs, premium taxes, general and administrative expenses, and income taxes. For further details regarding our cash requirements, refer to the section below entitled, "Contractual Obligations, Contingent Liabilities, and Commitments."

We continually monitor our cash requirements and the amount of capital resources that we maintain at the holding company and operating subsidiary levels. As part of our long-term capital strategy, we strive to maintain capital metrics, relative to the macroeconomic environment, that support our targeted financial strength. Based on our analysis and market conditions, we may take a variety of actions, including, but not limited to, contributing capital to the Insurance Subsidiaries in our insurance operations, issuing additional debt and/or equity securities, calling existing debt, repurchasing shares of the Parent's common stock, and increasing stockholders' dividends.

Our capital management strategy is intended to protect the interests of the policyholders of the Insurance Subsidiaries and our stockholders, while enhancing our financial strength and underwriting capacity.

Book value per share decreased to \$28.25, or 4%, as of March 31, 2018, from \$29.28 as of December 31, 2017, due to \$1.09 in unrealized losses on our investment portfolio and \$0.18 in dividends to our shareholders, partially offset by \$0.32 in net income per share.

Ratings

We are rated by major rating agencies that issue opinions on our financial strength, operating performance, strategic position, and ability to meet policyholder obligations. We believe that our ability to write insurance business is most influenced by our rating from A.M. Best. We have been rated "A" or higher by A.M. Best for the past 87 years. A downgrade from A.M. Best to a rating below "A-" is an event of default under our Line of Credit and could affect our ability to write new business with customers and/or distribution partners, some of whom are required (under various third-party agreements) to maintain insurance with a carrier that maintains a specified A.M. Best minimum rating.

Our ratings have not changed from those reported in our "Ratings" section of Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations." in our 2017 Annual Report and continue to be as follows:

| | | |
|-----------|---------------------------|---------|
| NRSRO | Financial Strength Rating | Outlook |
| A.M. Best | A | Stable |

Edgar Filing: SELECTIVE INSURANCE GROUP INC - Form 10-Q

| | | |
|--|----|--------|
| Moody's Investor Services ("Moody's") | A2 | Stable |
| Fitch Ratings ("Fitch") | A+ | Stable |
| Standard & Poor's Global Ratings ("S&P") | A | Stable |

In First Quarter 2018, Moody's reaffirmed our "A2" rating with a "stable" outlook. In taking this action, Moody's cited our solid risk-adjusted capitalization, strong asset quality, and underwriting profitability, as well as our good regional presence and established independent agency support.

Table of Contents

Our S&P, Moody's, and Fitch financial strength and associated credit ratings affect our ability to access capital markets. The interest rate on our Line of Credit varies and is based on, among other factors, the Parent's debt ratings. There can be no assurance that our ratings will continue for any given period of time or that they will not be changed. It is possible that positive or negative ratings actions by one or more of the rating agencies may occur in the future.

Off-Balance Sheet Arrangements

At March 31, 2018 and December 31, 2017, we did not have any material relationships with unconsolidated entities or financial partnerships, such entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or for other contractually narrow or limited purposes. As such, we are not exposed to any material financing, liquidity, market, or credit risk that could arise if we had engaged in such relationships.

Contractual Obligations, Contingent Liabilities, and Commitments

Our future cash payments associated with: (i) loss and loss expense reserves; (ii) contractual obligations pursuant to operating leases for office space and equipment; and (iii) debt have not materially changed since December 31, 2017. As of March 31, 2018, we had contractual obligations that expire at various dates through 2032 that may require us to invest up to \$232.7 million in alternative investments. There is no certainty that any such additional investment will be required. Additionally, as of March 31, 2018, we had the following contractual obligations: (i) \$15.1 million in non-publicly traded common stock within our equity portfolio that expire through 2023, and (ii) \$19.2 million in a non-publicly traded collateralized loan obligation in our fixed income securities portfolio that expires in 2030. We expect to have the capacity to repay and/or refinance these obligations as they come due.

We have issued no material guarantees on behalf of others and have no trading activities involving non-exchange traded contracts accounted for at fair value. For additional details on transactions with related parties, see Note 16. "Related Party Transactions" in Item 8. "Financial Statements and Supplementary Data." in our 2017 Annual Report.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

There have been no material changes in the information about market risk set forth in our 2017 Annual Report.

ITEM 4. CONTROLS AND PROCEDURES.

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of the end of the period covered by this report. In performing this evaluation, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in Internal Control – Integrated Framework ("COSO Framework") in 2013. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, our disclosure controls and procedures are: (i) effective in recording, processing, summarizing, and reporting information on a timely basis that we are required to disclose in the reports that we file or submit under the Exchange Act; and (ii) effective in ensuring that information that we are required to disclose in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Except for internal controls over financial reporting related to the implementation of a new investment accounting platform, no changes in our internal control over financial reporting (as such term is defined in Rule 13a-15(f) of the Exchange Act) occurred during First Quarter 2018 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Management reviewed and tested the effectiveness of internal controls over financial reporting related to the new investment accounting platform and concluded they were effective.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

In the ordinary course of conducting business, we are named as defendants in various legal proceedings. Most of these proceedings are claims litigation involving our Insurance Subsidiaries as either: (i) liability insurers defending or providing indemnity for third-party claims brought against our customers; or (ii) insurers defending first-party coverage claims brought against them. We account for such activity through the establishment of unpaid losses and loss expense reserves. We expect that any potential ultimate liability in such ordinary course claims litigation will not be material to our consolidated financial condition, results of operations, or cash flows after consideration of provisions made for potential losses and costs of defense.

Table of Contents

From time to time, our insurance subsidiaries also are named as defendants in other legal actions, some of which assert claims for substantial amounts. These actions include, among others, putative class actions seeking certification of a state or national class. Such putative class actions have alleged, for example, improper reimbursement of medical providers paid under workers compensation and personal and commercial automobile insurance policies. Similarly, our Insurance Subsidiaries are also named from time-to-time in individual actions seeking extra-contractual damages, punitive damages, or penalties, some of which allege bad faith in the handling of insurance claims. We believe that we have valid defenses to these cases. We expect that any potential ultimate liability in any such lawsuit will not be material to our consolidated financial condition, after consideration of provisions made for estimated losses. Nonetheless, given the inherent unpredictability of litigation and the large or indeterminate amounts sought in certain of these actions, an adverse outcome in certain matters could possibly have a material adverse effect on our consolidated results of operations or cash flows in particular quarterly or annual periods.

As of March 31, 2018, we do not believe the Company was involved in any legal action that could have a material adverse effect on our consolidated financial condition, results of operations, or cash flows.

ITEM 1A. RISK FACTORS.

Certain risk factors exist that can have a significant impact on our business, liquidity, capital resources, results of operations, financial condition, and debt ratings. These risk factors might affect, alter, or change actions that we might take in executing our long-term capital strategy, including but not limited to, contributing capital to any or all of the Insurance Subsidiaries, issuing additional debt and/or equity securities, repurchasing our equity securities, redeeming our fixed income securities, or increasing or decreasing stockholders' dividends. We operate in a continually changing business environment and new risk factors emerge from time to time. Consequently, we can neither predict such new risk factors nor assess the potential future impact, if any, they might have on our business. There have been no material changes from the risk factors disclosed in Item 1A. "Risk Factors." in our 2017 Annual Report other than as discussed below.

We face risks regarding our flood business because of uncertainties regarding the NFIP.

We are the fifth largest insurance group participating in the WYO arrangement of the NFIP, which is managed by the Mitigation Division of the Federal Emergency Management Agency ("FEMA") in the U.S. Department of Homeland Security. Under the arrangement, we receive an expense allowance for policies written and a servicing fee for claims administered, and all losses are 100% reinsured by the Federal Government. The current expense allowance is 30.9% of direct premium written. The servicing fee is the combination of 0.9% of direct premium written and 1.5% of incurred losses.

As a WYO carrier, we are required to follow certain NFIP procedures in the administration of flood policies and claims. Some of these requirements may differ from our normal business practices and may present a reputational risk to our brand. While insurance companies are regulated by the states and the NFIP requires WYO carriers to be licensed in the states in which they operate, the NFIP is a federal program and WYO carriers are fiscal agents of the U.S. Government and must follow the NFIP's directives. Consequently, we have the risk that directives from the NFIP and a state regulator on the same issue may conflict.

The NFIP is currently authorized until July 31, 2018. There continues to be significant public policy and political debate in Congress about extension of the NFIP and solutions for flood risk throughout the country. In November 2017, the U.S. House of Representatives passed the 21st Century Flood Reform Act, which would extend the NFIP for five years but reduce the WYO expense allowance over a three-year period by three points, from its current 30.9% to 27.9%. The bill also proposes changes in certain operational processes and provides incentives for the private flood insurance market. The U.S. Senate has yet to consider this bill. FEMA, on its own initiative however, revised the arrangement by: (i) reducing the WYO's expense allowance by one percentage point, from 30.9% to 29.9% effective October 2018; and (ii) eliminating the provision allowing FEMA to increase a WYO's expense allowance by one

percentage point to cover additional incurred expenses.

Our flood business could be impacted by: (i) a lapse in program authorization; (ii) any mandate for primary insurance carriers to provide flood insurance; or (iii) private writers becoming more prevalent in the marketplace. The uncertainty created by the public policy debate and politics of flood insurance reform make it difficult for us to predict the future of the NFIP and our continued participation in the program.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

The following table provides information regarding our purchases of our common stock in First Quarter 2018:

| Period | Total Number of Shares Purchased ¹ | Average Price Paid per Share | Total Number of Shares Purchased as Part of Publicly Announced Programs | Maximum Number of Shares that May Yet Be Purchased Under the Announced Programs |
|-----------------------|--|---------------------------------------|--|---|
| January 1 – 31, 2018 | — | \$ — | — | — |
| February 1 - 28, 2018 | 100,565 | 59.30 | — | — |
| March 1 - 31, 2018 | 2,605 | 58.38 | — | — |
| Total | 103,170 | \$ 59.28 | — | — |

¹During First Quarter 2018, 103,170 shares were purchased from employees in connection with the vesting of restricted stock units. These repurchases were made to satisfy tax withholding obligations with respect to those employees. These shares were not purchased as part of any publicly announced program. The shares that were purchased in connection with the vesting of restricted stock units were purchased at fair market value as defined in the Selective Insurance Group, Inc. 2014 Omnibus Stock Plan.
