Important Information Regarding Forward-Looking Statements

Portions of this Quarterly Report on Form 10-Q (including information incorporated by reference) include “forward-looking statements” based on our current beliefs, expectations, and projections regarding our business strategies, market potential, future financial performance, industry, and other matters. This includes, in particular, “Item 2—Management’s Discussion and Analysis of Financial Condition and Results of Operations” of this Quarterly Report on Form 10-Q, as well as other portions of this Quarterly Report on Form 10-Q. The words “believe,” “expect,” “anticipate,” “project,” “could,” “would,” and similar expressions, among others, generally identify forward-looking statements, which speak only as of the date the statements were made. The matters discussed in these forward-looking statements are subject to risks, uncertainties and other factors that could cause our actual results to differ materially from those projected, anticipated, or implied in the forward-looking statements. The most significant of these risks, uncertainties, and other factors are described in “Item 1A—Risk Factors” of this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014 filed with the Securities and Exchange Commission on March 6, 2015. Except to the limited extent required by applicable law, we undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

DIGIRAD CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. The Company

Digirad Corporation ("Digirad"), a Delaware corporation, is one of the largest national providers of in-office nuclear cardiology imaging and ultrasound services, and also provides cardiac event monitoring services. These services are provided to physician practices, hospitals, and imaging centers through our Diagnostic Services reportable segment. Digirad also sells solid-state gamma cameras for nuclear cardiology and general nuclear medicine applications, as well as provides service on the products sold, through our Diagnostic Imaging reportable segment. These two reportable segments, Diagnostic Services and Diagnostic Imaging, are collectively referred to herein as the "Company."

The accompanying condensed consolidated financial statements include the operations of both segments.

Intercompany accounts and transactions are accounted for at cost and have been eliminated in consolidation. All our long-lived assets are located in the United States and substantially all of our revenues arise from sales activity in the United States.

Basis of Presentation

The unaudited condensed consolidated financial statements included in this Form 10-Q have been prepared in accordance with the U.S. Securities and Exchange Commission (SEC) instructions for Quarterly Reports on Form 10-Q. Accordingly, the condensed consolidated financial statements are unaudited and do not contain all the information required by U.S. generally accepted accounting principles (GAAP) to be included in a full set of financial statements. The unaudited condensed consolidated balance sheet at December 31, 2014 has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by GAAP for a complete set of financial statements. The audited consolidated financial statements for our fiscal year ended December 31, 2014, filed with the SEC on Form 10-K on March 6, 2015, include a summary of our significant accounting policies and should be read in conjunction with this Form 10-Q. In the opinion of management, all material adjustments necessary to present fairly the results of operations, cash flows, and balance sheets for such periods have been included in this Form 10-Q. All such adjustments are of a normal recurring nature. In addition, certain reclassifications have been made to the prior period financial statements to conform to the current period presentation. The results of operations for interim periods are not necessarily indicative of the results of operations for the entire year.

Preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities and the reported amounts of revenues and expenses. By their nature, estimates are subject to an inherent degree of uncertainty. Actual results could differ from management's estimates.

The financial results for the three and six months ended June 30, 2015 include the financial results of MD Office Solutions and Telerhythmics, LLC. See Note 3 to the unaudited condensed consolidated financial statements for more information related to the acquisition of MD Office Solutions and Telerhythmics, LLC.

Recent Accounting Pronouncement

In May 2014, the FASB issued guidance that outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers which supersedes most current revenue recognition guidance, including industry-specific guidance. The guidance provides that an entity recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This guidance also requires additional disclosure about the nature, amount, timing, and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments, and assets recognized from costs incurred to obtain or fulfill a contract. The guidance allows for either full retrospective or modified retrospective adoption and is currently scheduled to become effective for us in the first quarter of 2018. We are currently evaluating the alternative transition methods and the potential effects of the adoption of this guidance on our financial statements.

We believe that no other new accounting guidance was adopted or issued during 2015 that is relevant to the readers of our financial statements. However, there are numerous new proposals under development which, if and when enacted,

may have a significant impact on our financial reporting.

Note 2. Basic and Diluted Net Income Per Share

For the three and six months ended June 30, 2015 and 2014, basic net income per common share is computed by dividing net income by the weighted average number of common shares and vested restricted stock units outstanding during the period. Diluted net income per common share is calculated to give effect to all dilutive securities, if applicable, using the treasury stock method.

The following table sets forth the reconciliation of shares used to compute basic and diluted net income per share for the periods indicated:

	Three Months Ended June 30,		Six Months Ended June 30,	
(shares in thousands)	2015	2014	2015	2014
Weighted average shares outstanding - basic	19,263	18,554	19,036	18,536
Dilutive potential common stock outstanding:				
Stock options	445	285	459	295
Restricted stock units	18	—	16	—
Weighted average shares outstanding - diluted	19,726	18,839	19,511	18,831

The following weighted average outstanding common stock equivalents were not included in the calculation of diluted net income per share because their effect was anti-dilutive:

	Three Months Ended June 30,		Six Months Ended June 30,	
(shares in thousands)	2015	2014	2015	2014
Stock options	2	102	2	83
Restricted stock units	—	—	—	—
Total	2	102	2	83

Note 3. Acquisitions

MD Office Solutions (2015)

On March 5, 2015, we entered into an Agreement of Merger and Plan of Reorganization (the Merger Agreement) to acquire MD Office Solutions (MD Office). MD Office is a provider of in-office nuclear cardiology imaging in the northern and central California regions. The acquisition expands the geographical region in which we are able to provide our in-office nuclear cardiology imaging services.

Total consideration related to the Merger Agreement paid to the sellers was 610,000 shares of common stock of Digirad Corporation, with a total value at closing of \$2,684,000, as well as settlement of a \$15,000 accounts receivable balance owed to the Company. The Company issued new shares for the consideration. In addition, there is an earn-out opportunity of up to \$400,000 in cash over approximately three years based on the MD Office business meeting certain earnings before interest, taxes, depreciation, and amortization (EBITDA) milestones. The sellers will receive fifty percent of the EBITDA generated by the MD Office business in excess of the EBITDA milestone amounts, which are \$650,000 for each of the annual periods ending December 31, 2015, 2016, and 2017, with the target for 2015 being prorated based on the close date.

At June 30, 2015, we have estimated the fair value of the contingent earn-out opportunity to be \$6,000. The earn-out opportunity is estimated based on the expected performance of the business over the period from the acquisition date through December 31, 2017, utilizing an income approach. It is reasonably possible that our estimate of the earn-out potential could change in the near term. Any adjustment in the estimated earn-out opportunity until settled will be recorded as a gain or loss to current operations in the period the estimate changes.

The Merger Agreement was also subject to a post-closing purchase price adjustment based on the final working capital balance, as defined in the Merger Agreement, as well as a Registration Rights Agreement related to the common shares provided to the sellers as part of the consideration.

As of June 30, 2015, the preliminary allocation of the purchase price to the assets acquired and liabilities assumed on the acquisition date was as follows (in thousands):

(in thousands)	Allocation of purchase price
Assets	
Current assets:	
Cash and cash equivalents	\$3
Accounts receivable	457
Other current assets	32
Total current assets	492
Property and equipment	481
Intangible assets	1,007
Goodwill	1,560
Other assets	26
Total assets	\$3,566
Liabilities	
Current liabilities:	
Accounts payable	\$149
Accrued compensation	81
Other accrued liabilities	87
Total current liabilities	317
Deferred tax liability	544
Other liabilities	6
Total liabilities	\$867

The goodwill recognized as part of the transaction primarily represents synergies between Digirad and MD Office that were not separately identified as part of the acquisition valuation process. MD Office activities are included within the Diagnostic Services reportable segment. The resulting goodwill from the acquisition is not deductible for federal and state tax reporting purposes.

The following table summarizes the fair value of acquired identifiable intangible assets as of the acquisition date:

(in thousands)	Weighted Average Useful Lives (in years)	Fair Value
Customer relationships	7.0	\$639
Trademarks	5.0	187
Covenants not to compete	5.0	181
Total intangible assets acquired, excluding goodwill	6.3	\$1,007

As of June 30, 2015, we are continuing to obtain and evaluate certain information related to the assets acquired and liabilities assumed, and therefore the accounting for the acquisition is incomplete. We anticipate closing the measurement period by September 30, 2015.

The below tables display estimated proforma results had the business acquisition been completed as of January 1, 2014. In deriving the proforma results, we utilized the historical operating results of MD Office and adjusted for the impact of the purchase accounting and transaction costs as if the acquisition occurred on January 1, 2014.

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Revenues	\$15,547	\$15,395	\$29,953	\$29,146
Net income	\$1,150	\$805	\$2,045	\$481

Included within our consolidated operating results for the three and six months ended June 30, 2015 are MD Office operations for the period March 6, 2015 through June 30, 2015 as follows:

(in thousands)	Three Months Ended June 30, 2015	Six Months Ended June 30, 2015
Revenues	\$765	\$981
Net income (loss)	\$41	\$(78)

Included within the results for MD Office for the six months ended June 30, 2015 is approximately \$188,000 of transaction costs related to the acquisition. These costs are classified as general and administrative expenses in the consolidated statements of comprehensive income.

Telerhythmics, LLC (2014)

On March 13, 2014, we acquired 100% of the membership interest of Telerhythmics, LLC (Telerhythmics), a provider of 24 hour cardiac monitoring services. We paid to the sellers of the membership interest (the Sellers) aggregate up front consideration of \$3.4 million and assumed approximately \$131,000 in debt. In addition, there is an aggregate earn-out opportunity of up to \$501,000 from the period March 14, 2014 through December 31, 2016 based on the Telerhythmics business meeting certain earnings before interest, taxes, depreciation and amortization (EBITDA) milestones. The Sellers will receive fifty percent (50%) of the EBITDA generated by the Telerhythmics business in excess of the EBITDA milestone amounts, which are as follows:

\$415,000 of EBITDA for the period from the closing date through December 31, 2014,

\$825,000 of EBITDA for the period from January 1, 2015 through December 31, 2015; and

\$825,000 of EBITDA for the period from January 1, 2016 through December 31, 2016.

At June 30, 2015, we have estimated the fair value of the contingent earn-out opportunity to be \$56,000. The earn-out opportunity is estimated based on the expected performance of the business over the period from January 1, 2015 through December 31, 2016, utilizing an income approach. No earn-out consideration was earned by the Sellers for the period from the closing date through December 31, 2014. It is reasonably possible that our estimate of the earn-out potential could change in the near term. Any adjustment in the estimated earn-out opportunity until settled will be recorded as a gain or loss to current operations in the period the estimate changes. During the three months ended June 30, 2015, the estimate of the fair value of the contingent consideration related to the Telerhythmics acquisition was reduced by \$173,000. The resulting gain was recognized as a reduction of general and administrative operating expense.

The allocation of the purchase price to the assets acquired and liabilities assumed on the acquisition date was as follows:

	Allocation of purchase price
Assets	
Current assets:	
Accounts receivable	\$256
Other current assets	34
Total current assets	290
Property and equipment	290
Intangible assets	2,580
Goodwill	1,153
Total assets	\$4,313
Accounts payable	\$36
Accrued compensation	169
Other accrued liabilities	356
Current portion of long-term debt	131
Total current liabilities	692

Other liabilities	174
Total liabilities	\$866
The long-term debt was subsequently paid in full on March 28, 2014.	

The goodwill recognized as part of the transaction primarily represents synergies between Digirad and Telerhythmics that were not separately identified as part of the acquisition valuation process. Telerhythmics activities are considered their own operating segment, which is aggregated into our Diagnostic Services reportable segment. The resulting goodwill from the acquisition is expected to be deductible for federal and state tax reporting purposes.

The below tables display estimated proforma results had the business acquisition been completed as of January 1, 2013. In deriving the proforma results, we utilized the historical operating results of Telerhythmics and adjusted for the impact of the purchase accounting and transaction costs as if the acquisition occurred on January 1, 2013.

	Three Months Ended June 30,		Six Months Ended June 30,	
(in thousands)	2014	2013	2014	2013

Intangible assets with finite useful lives:				
Customer relationships	8.6	\$4,850	\$ (2,904)	\$1,946
Trademarks	9.0	600	(53)	547
Patents	13.2	141	(116)	25
Covenants not to compete	5.0	70	(11)	59
Total intangible assets, net		\$5,661	\$ (3,084)	\$2,577

Amortization expense for intangible assets, net was \$0.2 million and \$0.2 million for the six months ended June 30, 2015 and 2014, respectively. Estimated amortization expense for intangible assets for the remainder of 2015 is \$0.3 million, for 2016 is \$0.5 million, for 2017 is \$0.5 million, for 2018 is \$0.5 million, for 2019 is \$0.4 million, for 2020 is \$0.4 million, and thereafter is \$0.7 million.

(2) As a result of our acquisition of MD Office on March 5, 2015, we recorded certain intangible assets (See Note 3).

Note 7. Restructuring Charges

Facilities restructuring initiative

On January 27, 2014, we announced a plan to exit our 47,000 square foot former headquarters facility in Poway, California (the Facilities restructuring initiative). This action was undertaken as the facility had excess space and capacity given our current operating plan. We entered into a termination agreement to end the lease on the facility as of April 30, 2014. The original term of the lease would have continued through February 29, 2016. Concurrently with the termination of the lease for the 47,000 square foot Poway, California facility, we entered into a new lease agreement on January 23, 2014 for a separate 21,300 square foot facility in Poway, California to house our Diagnostic Imaging operations.

As a result of the Facilities restructuring initiative, we incurred a total of \$0.7 million in restructuring charges which occurred solely during fiscal year 2014. Facilities restructuring charges of \$0.1 million and \$0.6 million were incurred during the three and six months ended June 30, 2014, respectively. No Facilities restructuring charges were incurred during the three or six months ended June 30, 2015. The charges were comprised of lease termination, moving, and other related costs. All Facilities restructuring charges were included in the Diagnostic Imaging segment.

Restructuring liabilities and associated charges were measured at fair value as incurred.

Note 8. Financial Instruments

Assets and Liabilities Measured at Fair Value on a Recurring Basis. The following table presents information about our financial assets and liabilities that are measured at fair value on a recurring basis, and indicates the fair value hierarchy of the valuation techniques we utilize to determine such fair value at June 30, 2015 and December 31, 2014.

(in thousands)	Fair Value as of June 30, 2015			Total
	Level 1	Level 2	Level 3	
Assets:				
Corporate debt securities	\$—	\$6,780	\$—	\$6,780
Liabilities:				
Acquisition related contingent consideration	\$—	\$—	\$62	\$62

(in thousands)	Fair Value as of December 31, 2014			Total
	Level 1	Level 2	Level 3	
Assets:				
Corporate debt securities	\$—	\$7,935	\$—	\$7,935
Liabilities:				
Acquisition related contingent consideration	\$—	\$—	\$229	\$229

The fair value of our corporate debt securities is determined using proprietary valuation models and analytical tools. These valuation models and analytical tools use market pricing or prices for similar instruments that are both objective and publicly available, including matrix pricing or reported trades, benchmark yields, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, and/or offers. We did not reclassify any investments between levels in the fair value hierarchy during the six months ended June 30, 2015.

The acquisition related contingent consideration is related to our acquisition of Telerhythmics on March 13, 2014 and acquisition of MD Office on March 5, 2015 (See Note 3). We reassess the fair value of the contingent consideration to be settled in cash related to our acquisitions of Telerhythmics and MD Office on a quarterly basis using the income approach, which is a Level 3 measurement. During the six months ended June 30, 2015, \$6,000 of contingent consideration was established related to the MD Office acquisition, and the contingent consideration related to the Telerhythmics acquisition was reduced by \$173,000. The resulting gain related to the reduction of the Telerhythmics acquisition contingent consideration was recognized as a reduction of general and administrative operating expense. Significant assumptions used in the measurement include probabilities of achieving the EBITDA milestones and estimated future earnings.

Securities Available for Sale

Securities available-for-sale primarily consist of investment grade corporate debt securities. We classify all securities as available-for-sale and as current assets, as the sale of such securities may be required prior to maturity to execute management strategies. These securities are carried at fair value, with the unrealized gains and losses reported as a component of accumulated other comprehensive income (loss) in stockholders' equity until realized. Realized gains and losses from the sale of available-for-sale securities, if any, are determined on a specific identification basis. A decline in the market value of any available-for-sale security below cost that is determined to be other than temporary will result in an impairment charge to earnings and a new cost basis for the security is established. No such impairment charges were recorded for any period presented. It is not more likely than not that we will be required to sell investments before recovery of their amortized costs. Premiums and discounts are amortized or accreted over the life of the related security as an adjustment to yield using the straight-line method and included in interest income. Interest income is recognized when earned. Realized gains and losses on investments in securities are included in other income (expense) within the condensed consolidated statements of comprehensive income. The realized gains and losses on these sales were minimal for the three and six months ended June 30, 2015 and 2014.

The following table sets forth the composition of securities available-for-sale as of June 30, 2015 and December 31, 2014.

As of June 30, 2015 (in thousands)	Maturity in Years	Amortized Cost	Unrealized Gains	Losses	Fair Value
Corporate debt securities	Less than 1 year	\$ 4,495	\$—	\$(2) \$4,493
Corporate debt securities	1-3 years	2,291	—	(4) 2,287
		\$ 6,786	\$—	\$(6) \$6,780

As of December 31, 2014 (in thousands)	Maturity in Years	Amortized Cost	Unrealized Gains	Losses	Fair Value
Corporate debt securities	Less than 1 year	\$ 4,650	\$—	\$(5) \$4,645
Corporate debt securities	1-3 years	3,304	—	(14) 3,290
		\$ 7,954	\$—	\$(19) \$7,935

Note 9. Commitments and Contingencies

Other matters. In the normal course of business, we have been, and will likely continue to be, subject to litigation or administrative proceedings incidental to our business, such as claims related to customer disputes, employment practices, wage and hour disputes, product liability, professional liability, commercial disputes, licensure restrictions or denials, and warranty or patent infringement. Responding to litigation or administrative proceedings, regardless of whether they have merit, can be expensive and disruptive to normal business operations. We are not able to predict the timing or outcome of these matters.

Note 10. Income Taxes

During the six months ended June 30, 2015, we recorded an income tax benefit of approximately \$0.5 million related to the release of valuation allowance associated with the acquisition of MD Office. The valuation allowance release occurred when we recorded an increase to our deferred tax liability balance as a result of book and tax basis differences in acquired fixed, intangible and other assets of MD Office.

As of December 31, 2014, we had unrecognized tax benefits of approximately \$1.6 million. Included in the unrecognized tax benefits were \$1.3 million of tax benefits that, if recognized, would reduce our annual effective tax rate, subject to the valuation allowance. We do not expect our unrecognized tax benefits to change significantly over the next 12 months.

We assess the available positive and negative evidence to estimate if sufficient future taxable income will be generated to use the existing deferred tax assets. A significant piece of objective negative evidence evaluated was our cumulative profitability over the three-year period ended June 30, 2015. Such objective evidence limits the ability to consider other subjective evidence such as our projections for future income. On the basis of this evaluation, as of June 30, 2015, a valuation allowance has been recorded as we cannot conclude that it is more likely than not that the existing deferred tax assets will be realized. The amount of the deferred tax asset considered realizable, however, could be adjusted if objective negative evidence in the form of cumulative losses is no longer present and additional weight may be given to subjective evidence such as our projected future income. Should our recent positive earnings trend continue into the future, it is reasonably possible that sufficient positive evidence will exist later in 2015 or 2016 to conclude that it is more likely than not that some or all of our existing deferred tax assets will be realized.

We file income tax returns in the U.S. and in various state jurisdictions with varying statutes of limitations. We are no longer subject to income tax examination by tax authorities for years prior to 2009; however, our net operating loss and research credit carry-forwards arising prior to that year are subject to adjustment. It is our policy to recognize interest expense and penalties related to income tax matters as a component of income tax expense.

Note 11. Segments

Our reporting segments have been determined based on the nature of the products and/or services offered to customers or the nature of their function in the organization. We evaluate performance based on the operating income (loss) contributed by each segment.

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Gross profit by segment:				
Diagnostic Services	\$2,966	\$3,136	\$5,023	\$5,157
Diagnostic Imaging	1,801	1,369	3,392	2,790
Condensed consolidated gross profit	\$4,767	\$4,505	\$8,415	\$7,947

Income (loss) from operations by segment:

Diagnostic Services	\$407	\$441	\$(130)) \$108
Diagnostic Imaging ⁽¹⁾	756	384	1,458	562
Condensed consolidated income from operations	\$1,163	\$825	\$1,328	\$670

Depreciation and amortization:

Diagnostic Services	\$526	\$431	\$943	\$806
Diagnostic Imaging	72	60	143	138
Condensed consolidated depreciation and amortization	\$598	\$491	\$1,086	\$944

(in thousands)	June 30, 2015	December 31, 2014
Identifiable assets by segment:		
Diagnostic Services	\$22,260	\$18,724
Diagnostic Imaging	24,164	23,177
Condensed Consolidated assets	\$46,424	\$41,901

⁽¹⁾ Included in the Diagnostic Imaging income from operations for the three and six months ended June 30, 2014, are approximately \$0.1 million and \$0.6 million of charges, respectively, associated with our Facilities restructuring initiative (See Note 7).

Note 12. Subsequent Events

Investment in Perma-Fix Medical, S.A.

On July 27, 2015, we entered into a stock subscription agreement (the Agreement) with Perma-Fix Medical, S.A. (Perma-Fix Medical), a publicly traded company listed on the NewConnect market of the Warsaw Stock Exchange. Perma-Fix Medical is a subsidiary of Perma-Fix Environmental Services, Inc. (NASDAQ: PESI). Perma-Fix Medical is developing a proprietary process to produce Technetium-99m (Tc-99m) resin from non-enriched uranium sources for purposes of creating nuclear imaging isotopes.

Under the terms of the Agreement, we invested \$1 million USD in exchange for 71,429 ordinary shares of Perma-Fix Medical. In connection with the Investment, the Company's President and CEO was appointed to the Supervisory Board of Perma-Fix Medical. Upon Perma-Fix Medical successfully completing development of the new Tc-99m resin, Perma-Fix Medical will supply us or our preferred nuclear pharmacy supplier with Tc-99m at a preferred rate and we will purchase agreed upon quantities of such Tc-99m for our nuclear imaging operations either directly or in conjunction with our preferred nuclear pharmacy supplier.

Dividend

On August 7, 2015, the Company announced a cash dividend of \$0.05 per share payable on August 31, 2015 to shareholders of record on August 21, 2015.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This management's discussion and analysis of financial condition and results of operations (MD&A), contains forward-looking statements that involve risks and uncertainties. Please see "Important Information Regarding Forward-Looking Statements" for a discussion of the uncertainties, risks, and assumptions that may cause our actual results to differ materially from those discussed in the forward-looking statements. This discussion should be read in conjunction with our unaudited condensed consolidated financial statements and related notes thereto and the other disclosures contained elsewhere in this Quarterly Report on Form 10-Q, and the audited consolidated financial statements and related notes thereto for the fiscal year ended December 31, 2014, which were included in our Form 10-K, filed with the U.S. Securities and Exchange Commission (SEC) on March 6, 2015.

The results of operations for the periods reflected herein are not necessarily indicative of results that may be expected for future periods.

Overview

We are one of the largest national providers of in-office nuclear cardiology imaging and ultrasound services, and also provide cardiac event monitoring services. Our services are provided to physician practices, hospitals, and imaging centers through our Diagnostic Services reportable segment. We also sell solid-state gamma cameras for nuclear cardiology and general nuclear medicine applications, as well as provide service on the products we sell through our Diagnostic Imaging reportable segment. We designed and commercialized the first solid-state nuclear gamma camera for the detection of cardiovascular disease and other medical conditions. Our imaging systems are sold in both portable and fixed configurations, and provide enhanced operability and improved patient comfort. Our nuclear cameras fit easily into floor spaces as small as seven feet by eight feet, and facilitate the delivery of nuclear medicine procedures in a physician's office, an outpatient hospital setting, or within multiple departments of a hospital, (e.g., emergency and operating rooms).

Through Diagnostic Services, we offer a convenient and economically efficient imaging services program as an alternative to purchasing a gamma camera or ultrasound equipment or outsourcing the procedures to another physician or imaging center. For physicians who wish to perform nuclear imaging, echocardiography, vascular or general ultrasound tests, or any combination of these procedures in their offices, we provide the ability for them to engage our services, which includes the use of our imaging system, qualified personnel, and related items required to perform imaging in their own offices and bill Medicare, Medicaid, or one of the third-party healthcare insurers directly for those services. The flexibility of our products and our service allows physicians to ensure continuity of care and convenience for their patients and allows them to retain revenue from procedures they would otherwise refer to imaging centers and hospitals. The imaging services are primarily provided to cardiologists, internal medicine physicians, and family practice doctors who enter into annual contracts for a set number of days ranging from once per month to five times per week. We experience some seasonality related to vacations, holidays, and inclement weather. Most of the imaging services are focused on cardiac care. Many of our physician customers are reliant on reimbursements from Medicare, Medicaid, and third-party insurers where, in the past, there has been downward price pressure and uncertainty of reimbursement rates due to factors outside the physicians' control. The uncertainty created by the 2010 healthcare reform laws and other legislation has impacted our business in the past, and will likely have some impact on our business in the future. Future changes and related impacts may require modifications to our current business model in order for our physician customers and us to maintain a viable economic model.

With the acquisition of Telerhythmics, LLC on March 13, 2014, we broadened our suite of service offerings provided through the Diagnostic Services segment, enabling the provision of outsourced cardiac event monitoring services. Providing these services offers flexibility and convenience to our customers who do not have to incur the costs of staffing, equipment, and logistics to monitor patients as part of their standard of care. Our cardiac event monitoring services are provided primarily through an independent diagnostic testing facility model which allows us to bill Medicare, Medicaid, or one of the third-party healthcare insurers directly for services provided. As such, our cardiac event monitoring services are directly subject to reimbursements from Medicare, Medicaid, and third-party insurers which are subject to change on a periodic basis. Our cardiac event monitoring services are mainly provided to physician practices and hospitals.

Our Diagnostic Imaging segment revenue results primarily from selling solid-state gamma cameras and camera maintenance contracts. We sell our imaging systems to physician offices and hospitals primarily in the United States, although we have sold a small number of imaging systems internationally.

For many years since our Initial Public Offering in 2004, we focused significant efforts on research and development activities to develop and further enhance our nuclear imaging cameras, primarily for alternative uses within the healthcare environment. These efforts, along with a fixed infrastructure that was sized for a much higher volume of manufacturing and sales of our nuclear imaging cameras than we have experienced, resulted in several years of financial losses. On February 28, 2013, we announced a plan to restructure our Diagnostic Imaging business to significantly reduce costs and improve profitability (the "Diagnostic Imaging restructuring initiative"). The Diagnostic Imaging restructuring initiative involved a reduction in force focused on manufacturing, research and development, and administrative personnel. In addition, we entered into an agreement in September 2013 with a third

party to outsource the majority of the manufacturing associated with our cameras. All restructuring efforts associated with this initiative were complete as of June 30, 2014. Further, on January 27, 2014, we entered into a termination agreement to end the lease on our 47,000 square foot former headquarters facility in Poway, California (the "Facilities restructuring initiative") and moved our Diagnostic Imaging operations into a separate 21,300 square foot facility. All restructuring efforts associated with the Facilities restructuring initiative were complete as of December 31, 2014. With these restructuring initiatives complete, we plan to continue selling and servicing our cameras, but at a more profitable level with our restructured, leaner infrastructure. We believe that our cameras have underlying technology and related patents that make them relevant into the future.

Our main strategic focus moving forward is on growing our Diagnostic Services business, which we plan to accomplish by driving revenue density with our existing customers by providing additional service offerings, such as cardiac event monitoring, as well as by increasing our overall number of customers through territory expansion and acquisition of other diagnostic services companies. On March 5, 2015, we acquired MD Office Solutions, a provider of in-office nuclear cardiology imaging in the northern and central California regions. We will also continue to evaluate acquisition opportunities related to complementary healthcare services and products to diversify and expand our current offerings.

Critical Accounting Policies and Estimates

In preparing our financial statements, we make estimates, assumptions, and judgments that can have a significant impact on our revenue and net income or loss, as well as on the value of certain assets and liabilities on our balance sheet. We believe that the estimates, assumptions, and judgments involved in the accounting policies described in Management's Discussion and Analysis of Financial Condition and Results of Operations in Item 7 of our Annual Report on Form 10-K for the fiscal year ended December 31, 2014 have the greatest potential impact on our financial statements, so we consider them to be our critical accounting policies and estimates. We believe that there were no significant changes in those critical accounting policies and estimates during the six months ended June 30, 2015.

Results of Operations

The following tables set forth our results from operations for the three and six months ended June 30, 2015 and 2014:

(in thousands)	Three Months Ended June 30,							
	2015	Percent of 2015 Revenues	2014	Percent of 2014 Revenues	Change from Prior Year			
					Dollars		Percent

Comparison of the Three Months Ended June 30, 2015 and 2014

Revenues

Consolidated. Consolidated revenue was \$15.5 million for the three months ended June 30, 2015, an increase of \$1.0 million, or 6.6%, compared to the prior year quarter, primarily due to an increase in revenue associated with our Diagnostic Services business, driven by \$0.8 million of incremental revenue associated with the MD Office acquisition, which occurred on March 5, 2015. Excluding the impact of the MD Office acquisition, revenue in the Diagnostic Services business was consistent with the prior year quarter driven by a greater number of imaging days provided offset by a decrease in the average mobile imaging rate per day and decreased ancillary revenue from short-term equipment rentals. Diagnostic Imaging revenue for the three months ended June 30, 2015 increased \$0.1 million compared to the prior year quarter due to an increase in the number of cameras sold, as well as a more favorable product mix sold during the three months ended June 30, 2015 as compared to the prior year quarter which led to a higher blended average selling price per camera quarter over quarter, offset partially by attrition in the number of associated camera maintenance contracts. Diagnostic Services revenue accounted for 78.3% of total revenues for the three months ended June 30, 2015, compared to 77.7% for the prior year quarter. The percentage of consolidated revenue associated with our Diagnostic Services segment was higher for the three months ended June 30, 2015 compared to the prior year quarter, primarily as a result of incremental revenue associated with the MD Office acquisition. We expect our Diagnostic Services revenue to continue to represent the larger percentage of our consolidated revenue, however the percentage will fluctuate quarter by quarter given the significant variability in the timing and volume of camera unit sales.

Cost of Revenue and Gross Profit

Consolidated. Consolidated gross profit was \$4.8 million for the three months ended June 30, 2015, an increase of \$0.3 million, or 5.8%, compared to the prior year quarter. The increase in consolidated gross profit is primarily the result of improved gross profit as a percentage of revenue in our Diagnostic Imaging segment. Our Diagnostic Imaging segment benefited from a more favorable mix of cameras sold during the three months ended June 30, 2015 compared to the prior year quarter, as well as a release of excess inventory reserves due to the sale of previously reserved inventory and reduced manufacturing and overhead costs.

Diagnostic Services gross profit decreased for the three months ended June 30, 2015 compared to the prior year quarter, driven by a decrease in gross profit as a percentage of revenue as a result of decreases in the average mobile imaging rate per day, offset partially by increased revenue. Consolidated gross profit as a percentage of revenue decreased slightly to 30.7% for the three months ended June 30, 2015, from 30.9% for the prior year quarter, driven by unfavorability in our Diagnostic Services business partially offset by favorability in our Diagnostic Imaging business.

Diagnostic Services. Cost of Diagnostic Services revenue primarily consists of labor, radiopharmaceuticals, equipment depreciation, and other costs associated with providing our services. Cost of Diagnostic Services revenue was \$9.2 million for the three months ended June 30, 2015, an increase of \$1.0 million, or 12.3%, compared to the prior year quarter. The increase in cost of Diagnostic Services revenue for the three months ended June 30, 2015 as compared to the prior year quarter, is primarily a result of an increased amount of imaging days provided, driven in part by the MD Office acquisition. Diagnostic Services gross profit was \$3.0 million for the three months ended June 30, 2015, a decrease of \$0.2 million, or 5.4%, from gross profit of \$3.1 million for the prior year quarter, primarily as a result of decreased gross profit as a percentage of revenue offset partially by increased revenue volume. Diagnostic Services gross profit as a percentage of Diagnostic Services revenue decreased to 24.4% for the three months ended June 30, 2015 from 27.7% for the prior year quarter primarily due to a decrease in the average mobile imaging rate per day with the associated service costs remaining relatively consistent, as well as decreased profit from short-term equipment rentals and ancillary services.

Diagnostic Imaging. Cost of Diagnostic Imaging revenue primarily consists of materials, labor, and overhead costs associated with the manufacturing, warranty, and service contracts associated with our products. Cost of Diagnostic Imaging revenue was \$1.6 million for the three months ended June 30, 2015, a decrease of \$0.3 million, or 16.6%, compared to the prior year quarter, primarily as a result of a \$0.2 million increase in release of excess inventory reserves due to the sale of previously reserved inventory in the three months ended June 30, 2015 compared to the prior year quarter, as well as reduced manufacturing and overhead costs. At the current expected level of camera sales, we expect to have further sales of previously reserved inventory during the remainder of 2015 and a portion of 2016, and do not anticipate significant further reserve releases thereafter. Diagnostic Imaging gross profit was \$1.8 million for the three months ended June 30, 2015, an increase of \$0.4 million, or 31.6%, compared to the prior year quarter as a result of a greater volume and more favorable mix of camera sales, as well as the release of excess inventory reserves due to the sale of previously reserved inventory and reduced manufacturing and overhead costs. Diagnostic Imaging gross profit as a percentage of Diagnostic Imaging revenue was 53.5% for the three months ended June 30, 2015, compared to 42.2% for the prior year quarter due to a greater volume and more favorable mix of camera sales, the release of excess inventory reserves related to the sale of previously reserved inventory, and reduced manufacturing and overhead costs.

Operating Expenses

Marketing and Sales. Marketing and sales expenses consist primarily of salaries, commissions, bonuses, recruiting costs, travel, marketing and collateral materials, and trade show costs. Marketing and sales expenses were \$1.3 million for the three months ended June 30, 2015, an increase of \$23,000, or 1.8%, compared to the prior year quarter, primarily as a result of an increased investment in marketing mostly offset by decreased commissions and variable compensation. On a go forward basis, we expect marketing and sales expense to generally approximate the level of expense noted in the three months ended June 30, 2015.

General and Administrative. General and administrative expenses consist primarily of salaries and other related costs for accounting, human resources, information technology, executive personnel, legal related costs, professional fees, outside services, insurance, and costs related to our board of directors. General and administrative expenses were \$2.2 million for the three months ended June 30, 2015, an increase of \$10,000, or 0.5%, compared to the prior year quarter. Expenditures during the three months ended June 30, 2015 were consistent with, and generally approximated expenditures during the prior year quarter. On a go forward basis, we expect general and administrative expense to generally approximate the level of expense noted in the three months ended June 30, 2015 notwithstanding any one-time initiatives.

Restructuring. On January 27, 2014, we announced a plan to exit our 47,000 square foot former headquarters facility in Poway, California (the "Facilities restructuring initiative"). This action was undertaken as the facility had excess space and capacity given our current operating plan. We entered into a termination agreement to end the lease on the facility as of April 30, 2014. The original term of the lease would have continued through February 29, 2016.

Concurrently with the termination of the lease for the 47,000 square foot Poway, California facility, we entered into a new lease agreement on January 23, 2014 for a separate 21,300 square foot facility in Poway, California to house our Diagnostic Imaging operations. As a result of the Facilities restructuring initiative, we incurred a total of \$0.7 million of restructuring charges, all of which were incurred during the year ended December 31, 2014. No costs were incurred related to the initiative in the three months ended June 30, 2015, which represents a decrease of \$0.1 million compared to the prior year quarter. We do not expect to incur restructuring charges in fiscal year 2015, although we will continue to assess the need to restructure our business to address market changes and achieve corporate objectives.

Comparison of the Six Months Ended June 30, 2015 and 2014

Revenues

Consolidated. Consolidated revenue was \$29.4 million for the six months ended June 30, 2015, an increase of \$1.8 million, or 6.5%, compared to the prior year period, due to an increase in revenue associated with our Diagnostic Services business, driven by \$1.0 million of incremental revenue associated with the MD Office acquisition, which occurred on March 5, 2015, as well as \$0.8 million of incremental cardiac event monitoring revenue associated with the Telerhythmics acquisition, which occurred on March 13, 2014. Excluding the impact of acquisitions, revenue in the Diagnostic Services business increased slightly compared to the prior year period driven by a greater number of imaging days provided, offset partially by a decrease in the average mobile imaging rate per day and a decrease in ancillary revenue from short-term equipment rentals. Diagnostic Imaging revenue decreased slightly in the six months ended June 30, 2015 compared to the prior year period, due to attrition in the number of camera maintenance contracts, offset partially by a more favorable product mix sold during the six months ended June 30, 2015 as compared to the prior year period which led to a higher blended average selling price per camera period over period. Diagnostic Services revenue accounted for 77.4% of total revenues for the six months ended June 30, 2015, compared to 75.8% for the prior year period. The percentage of revenue associated with our Diagnostic Services segment was higher for the six months ended June 30, 2015 compared to the same period in the prior year, primarily as a result of incremental revenue associated with the Telerhythmics and MD Office acquisitions.

Cost of Revenue and Gross Profit

Consolidated. Consolidated gross profit was \$8.4 million for the six months ended June 30, 2015, an increase of \$0.5 million, or 5.9%, compared to the prior year period. The increase in consolidated gross profit is primarily the result of improved gross profit as a percentage of revenue in our Diagnostic Imaging segment. Our Diagnostic Imaging segment benefited from a more favorable mix of cameras sold during the six months ended June 30, 2015 compared to the prior year period, as well as a release of excess inventory reserves due to the sale of previously reserved inventory and reduced manufacturing and overhead costs. Diagnostic Services gross profit decreased for the six months ended June 30, 2015 compared to the prior year period, driven by a decrease in gross profit as a percentage of revenue, offset partially by increased revenue. Consolidated gross profit as a percentage of revenue decreased slightly to 28.6% for the six months ended June 30, 2015 from 28.8% for the prior year period.

Diagnostic Services. Cost of Diagnostic Services revenue was \$17.7 million for the six months ended June 30, 2015, an increase of \$2.0 million, or 12.6%, compared to the prior year period. The increase in cost of Diagnostic Services revenue is primarily due to provision of incremental cardiac event monitoring services associated with the Telerhythmics acquisition, and an increased amount of imaging days provided, driven in part by the MD Office acquisition. Diagnostic Services gross profit was \$5.0 million for the six months ended June 30, 2015, a decrease of \$0.1 million, or 2.6%, compared to the prior year period, primarily as a result of decreased gross profit as a percentage of revenue offset partially by increased revenue volume. Diagnostic Services gross profit as a percentage of Diagnostic Services revenue decreased to 22.1% for the six months ended June 30, 2015, from 24.7% for the prior year period due to a decrease in the average mobile imaging rate per day with the associated service costs remaining relatively consistent, as well as decreased profit from short-term equipment rentals and ancillary services.

Diagnostic Imaging. Cost of Diagnostic Imaging revenue was \$3.3 million for the six months ended June 30, 2015, a decrease of \$0.6 million, or 16.6%, compared to the prior year period, primarily as a result of a \$0.2 million increase in release of excess inventory reserves due to the sale of previously reserved inventory in the six months ended June 30, 2015 compared to the prior year period, as well as reduced manufacturing and overhead costs. Diagnostic Imaging gross profit was \$3.4 million for the six months ended June 30, 2015, an increase of \$0.6 million, or 21.6%, compared to the prior year period primarily as a result of a more favorable mix of camera sales, as well as the release of excess inventory reserves due to the sale of previously reserved inventory and reduced manufacturing and overhead costs. Diagnostic Imaging gross profit as a percentage of Diagnostic Imaging revenue was 51.0% for the six months ended June 30, 2015, compared to 41.7% for the prior year period primarily due to a more favorable mix of camera sales, the release of excess inventory reserves related to the sale of previously reserved inventory, and reduced manufacturing and overhead costs.

Operating Expenses

Marketing and Sales. Marketing and sales expenses were \$2.5 million for the six months ended June 30, 2015, an increase of \$0.1 million, or 5.9%, compared to the prior year period, primarily as a result of increased investment in marketing and sales resources associated with the Telerhythmics business, partially offset by decreased commissions and variable compensation.

General and Administrative. General and administrative expenses were \$4.4 million for the six months ended June 30, 2015, an increase of \$0.2 million, or 4.4%, compared to the prior year period, primarily as a result of increased costs related to the administration of the Telerhythmics business.

Restructuring. On January 27, 2014, we announced a plan to exit our 47,000 square foot former headquarters facility in Poway, California (the "Facilities restructuring initiative"). We entered into a termination agreement to end the lease on the facility as of April 30, 2014. The original term of the lease would have continued through February 29, 2016. Concurrently with the termination

of the lease for the 47,000 square foot Poway, California facility, we entered into a new lease agreement on January 23, 2014 for a separate 21,300 square foot facility in Poway, California to house our Diagnostic Imaging operations. As a result of the Facilities restructuring initiative, we incurred a total of \$0.7 million of restructuring charges, all of which were incurred during the year ended December 31, 2014. No costs were incurred related to the initiative in the six months ended June 30, 2015, which represents a decrease of \$0.6 million compared to the prior year period.

Income Tax Benefit (Expense)

Consolidated. Income tax benefit was \$0.5 million for the six months ended June 30, 2015, an increase of \$0.5 million compared to the prior year period. An income tax benefit of approximately \$0.5 million was generated in the six months ended June 30, 2015 due to the acquisition of MD Office, as a result of the timing and deductibility of certain items for income tax purposes. The income tax benefit related to the MD Office acquisition is a one-time benefit which will not recoccur in future periods. For future periods, our provision for income taxes is expected to be based on income tax benefit or expense from normal business operations, not withstanding any potential one-time events such as future acquisitions or the release of all or a portion of the deferred tax asset valuation allowance. Should our recent positive earnings trend continue into the future, it is reasonably possible that we could recognize a material income tax benefit related to the release of a portion or all of our deferred tax asset valuation allowance during 2015 or 2016.

Liquidity and Capital Resources

We generated \$2.2 million of positive cash flow from operations during the six months ended June 30, 2015, and expect to continue to generate positive cash flow from operations on an annual basis in the future. Cash flows from operations primarily represent inflows from net income (adjusted for depreciation, amortization, and other non-cash items), as well as the net effect of changes in working capital. Cash flows from investing activities primarily represent our investment in capital equipment required to grow our business, as well as acquisition and divestiture activity. Cash flows from financing activities primarily represent outflows related to dividend payments and share repurchases, offset by the receipt of cash related to the exercise of stock options.

Our principal sources of liquidity are our existing cash and cash equivalents, short-term investments, and cash generated from operations. As of June 30, 2015, we had cash, cash equivalents, and securities available-for-sale of \$21.7 million. We generally invest our cash reserves in money market funds, U.S. treasury, and corporate debt securities. In addition, we currently have available a shelf registration statement that provides us with increased capital flexibility to pursue corporate objectives by allowing us to offer and sell up to \$20.0 million of securities.

We require capital principally for capital expenditures, acquisition activity, dividend payments, and to finance accounts receivable and inventory. Our working capital requirements vary from period to period depending on inventory requirements, the timing of deliveries, and the payment cycles of our customers. Our capital expenditures consist primarily of nuclear cameras, cardiac monitoring devices, ultrasound machines, vans, and computer hardware and software. Based upon our current level of expenditures, we believe our current working capital, together with cash flows from operating activities, will be more than adequate to meet our anticipated cash requirements for at least the next 12 months.

Cash Flows

The following table shows cash flow information for the six months ended June 30, 2015 and 2014:

(in thousands)	Six Months Ended June 30,	
	2015	2014
Net cash provided by operating activities	\$2,246	\$1,230
Net cash provided by (used in) investing activities	241	(6,480)
Net cash used in financing activities	(1,652)	(1,915)

Operating Activities

Net cash provided by operating activities increased \$1.0 million for the six months ended June 30, 2015 compared to the prior year period. This provision of cash was primarily related to greater net income generated in the six months ended June 30, 2015 compared to the prior year period.

Investing Activities

Net cash provided by investing activities increased \$6.7 million for the six months ended June 30, 2015 compared to the prior year period. This increase was primarily attributable to cash provided by maturities of available-for-sale securities in the six months ended June 30, 2015, compared to the outlay of cash to acquire Telerhythmics and purchases of available-for-sale securities and property and equipment in the six months ended June 30, 2014. See Note 3 to the unaudited condensed consolidated financial statements for further information related to the acquisition of Telerhythmics.

Financing Activities

Net cash used in financing activities decreased by \$0.3 million for the six months ended June 30, 2015 compared to the prior year period. This decrease was primarily attributable to increased proceeds received from stock option exercises during the six months ended June 30, 2015.

Off-Balance Sheet Arrangements

As part of our ongoing business, we do not participate in transactions that generate relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, or SPEs, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. As of June 30, 2015, we were not involved in any unconsolidated SPE transactions.

Contractual Obligations

There have been no material changes outside of the ordinary course of business in our outstanding contractual obligations from those disclosed within "Management's Discussion and Analysis of Financial Condition and Results of Operations," as contained in our Annual Report on Form 10-K filed with the SEC on March 6, 2015.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our exposure to market risk due to changes in interest rates relates primarily to the increase or decrease in the value of debt securities in our investment portfolio. Our risk associated with fluctuating interest rates is limited to our investments in interest rate sensitive financial instruments. Under our current policies, we do not use interest rate derivative instruments to manage exposure to interest rate changes. We attempt to increase the safety and preservation of our invested principal funds by limiting default risk, market risk, and reinvestment risk. We mitigate default risk by investing in investment grade securities. A 100 basis point adverse move in interest rates along the entire interest rate yield curve would not materially affect the fair value of our interest sensitive financial instruments. Changes in interest rates over time will increase or decrease our interest income.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Securities and Exchange Commission Act of 1934 reports is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, we recognize that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by Securities and Exchange Commission Rule 13a-15(e) and 15d-15(e), we carried out an evaluation, under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level.

Our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives as specified above. Management does not expect, however, that our disclosure controls and procedures will prevent or detect all errors and fraud. Any control system, no matter how well designed and operated, is based upon certain assumptions and can provide only reasonable, not absolute, assurance that its objectives will be met. Further, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected.

Changes in Internal Control over Financial Reporting

There has been no change in our internal controls over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

See Note 9 to the unaudited Condensed Consolidated Financial Statements for a summary of legal proceedings.

ITEM 1A. RISK FACTORS

In evaluating us and our common stock, we urge you to carefully consider the risks and other information in this Quarterly Report on Form 10-Q, as well as the risk factors disclosed in Item 1A to Part I of our Annual Report on Form 10-K for the fiscal year ended December 31, 2014, which we filed with the SEC on March 6, 2015. The risks and uncertainties described in “Item 1A – Risk Factors” of our Annual Report on Form 10-K have not materially changed. Any of the risks discussed in this Quarterly Report on Form 10-Q or any of the risks disclosed in Item 1A to Part I of our Annual Report on Form 10-K for the fiscal year ended December 31, 2014, as well as additional risks and uncertainties not currently known to us or that we currently deem immaterial, could materially and adversely affect our results of operations or financial condition.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS

Exhibit Number	Description
2.1	Membership Interest Purchase Agreement, dated March 13, 2014 by and among Digirad Imaging Solutions, Inc., Digirad Corporation, the Sellers party thereto, and TD Properties, LLC in its capacity as Seller Representative (Incorporated by reference to the exhibits to the Company's report on Form 8-K filed with the Commission on March 14, 2014.)
2.2	Agreement of Merger and Plan of Reorganization, dated March 5, 2015 by and between Digirad Corporation, Maleah Incorporated, MD Office Solutions, and the Stockholders party thereto (Incorporated by reference to the exhibits to the Company's report on Form 8-K filed with the Commission on March 6, 2015). Schedules and exhibits have been omitted pursuant to Item 601(b)(2) of Regulation S-K. The Company hereby agrees to furnish supplementary copies of any of the omitted schedules or exhibits upon request by the Securities and Exchange Commission.
3.1	Restated Certificate of Incorporation of Digirad Corporation (Incorporated by reference to the exhibits to the Company's report on Form 8-K originally filed with the Commission on May 3, 2006, as amended thereafter).
3.2	Certificate of Designation of Rights, Preferences and Privileges of Series B Participating Preferred Stock (Incorporated by reference to the exhibits to the Company's report on Form 8-K filed with the Commission on May 24, 2013).
3.3	Certificate of Amendment of the Restated Certificate of Incorporation of Digirad Corporation (Incorporated by reference to the exhibits to the Company's report on Form 8-K filed with the Commission on May 5, 2015).
31.1*	Certification of the Principal Executive Officer pursuant to Rules 13a-14(a) and 15d-14(a) promulgated pursuant to the Securities Exchange Act of 1934, as amended.
31.2*	Certification of the Principal Financial Officer pursuant to Rules 13a-14(a) and 15d-14(a) promulgated pursuant to the Securities Exchange Act of 1934, as amended.
32.1**	Certification of the Principal Executive Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
32.2**	Certification of the Principal Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
