SALES OF FOUR GAS DISTRIBUTION NETWORKS COMPLETED

National Grid Transco plc today announces that it has completed the sales of four of its regional gas distribution networks for a total cash consideration of £5.8 billion.

The North of England distribution network has been sold to a consortium led by Cheung Kong Infrastructure Holdings Limited and including United Utilities PLC for a cash consideration of £1.4 billion. The South of England and the Scotland distribution networks have been sold to a consortium comprising Scottish and Southern Energy plc, Borealis Infrastructure Management Inc and Ontario Teacher's Pension Plan for a cash consideration of £3.2 billion. The Wales & the West distribution network has been sold to a consortium led by the Macquarie European Infrastructure Fund (a wholesale fund managed by a member of the Macquarie Bank Group), for a cash consideration of £1.2 billion.

Roger Urwin, Chief Executive of National Grid Transco, said:

"We are delighted to announce completion of our network sales. This very successfully concludes a long and complex process, led by Steve Holliday and his team, working closely with Ofgem, the Department of Trade and Industry, and the new owners. It marks the inauguration of what is in effect a new gas distribution industry for the UK. We look forward to taking forward our retained gas distribution business, by far the largest in the UK, and setting new levels of efficiency to the benefit of customers and shareholders alike."

**National Grid 1996 Employee Benefit Trust (ESOP)
(Notification of Directors' Interests,
pursuant to Section 324(2) of The Companies Act 1985)**

Directors' Interests- Dr R J Urwin

NGT today received a further notification from the ESOP Trustee; that certain Executive Directors of NGT (E Astle, S Holliday, R Urwin and N Winsor) ceased to be technically interested in a total of 17,425 NGT Ordinary shares, by virtue of the Trustee having transferred the shares to a participant on 24 May 2005.

(Note: For Companies Act purposes, these Executive Directors of NGT are deemed to have a technical interest in all the shares held by the ESOP, together with all participating employees. The interest ceases when shares are transferred to participants by the exercise of executive share options or under another employees' share scheme.)

One of NGT's Directors, Dr R J Urwin, was the participant involved. The 17,425 shares were transferred to him on exercising the Sharematch awards granted under the National Grid Share Matching Scheme operations in 1998, 1999, 2000 and 2001.

His total personal interest in NGT shares is unchanged, as he retained the shares.
