AMERICAN PHYSICIANS SERVICE GROUP, INC.

ANNUAL REPORT ON FORM 10-KSB

FOR THE FISCAL YEAR ENDED DECEMBER 31, 2003

References in this report to "we", "us", "our", and the "Company" mean American Physicians Service Group, Inc.

PART I

ITEM 1. DESCRIPTION OF BUSINESS

GENERAL

We, through our subsidiaries, provide services that include brokerage and investment services to individuals and institutions, and management and agency services to malpractice insurance companies.

We were organized in October 1974 under the laws of the State of Texas. Our principal executive office is at 1301 Capital of Texas Highway, Suite C-300, Austin, Texas 78746, and our telephone number is (512) 328-0888. Our website is www.amph.com. We make available free of charge on our website our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and any amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 as soon as reasonably practicable after such material is electronically filed with, or furnished to, the Securities and Exchange Commission ("SEC")

Financial information about our industry segments is disclosed in Note 16 to our accompanying Consolidated Financial Statements in Appendix A.

OUR FINANCIAL SERVICES

Through our subsidiaries, APS Financial Corporation, or APS Financial, and APS Asset Management, Inc., or Asset Management, we provide investment and investment advisory services to institutions and individuals throughout the United States. Our revenues from this segment were 64% and 59% of our total revenues in 2003 and 2002, respectively.

APS Financial is a fully licensed broker/dealer that provides brokerage and investment services primarily to institutional and high net worth individual clients. APS Financial also provides portfolio accounting, analysis, and other

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

services, to insurance companies, banks, and public funds. APS Financial has its main office in Austin, Texas with branch offices in Houston, Texas and Redmond, Washington.

APS Financial charges commissions on both exchange and over-the-counter, or OTC, transactions in accordance with industry practice. When APS Financial executes OTC transactions as a dealer, it receives, in lieu of commissions, markups or markdowns.

APS Financial is a member of the National Association of Securities Dealers, Inc., or NASD, the Securities Investor Protection Corporation, or SIPC, the Securities Industry Association, and, in addition, is licensed in 44 states and Washington D.C.

3

Every registered broker/dealer doing business with the public is subject to stringent rules with respect to net capital requirements promulgated by the Securities and Exchange Commission, or SEC. These rules, which are designed to measure the financial soundness and liquidity of broker/dealers, specify minimum net capital requirements. Since we (as opposed to APS Financial) are not a registered broker/dealer, we are not subject to these rules. However, APS Financial is subject to these rules. Compliance with applicable net capital requirements could limit APS Financial's operations, such as limiting or prohibiting trading activities that require the use of significant amounts of capital. A significant operating loss or an extraordinary charge against net capital could adversely affect the ability of APS Financial to expand or even maintain its present levels of business. At February 28, 2004, APS Financial was in compliance with all applicable net capital requirements.

APS Financial clears its transactions through SWS Securities, Inc., or SWS, on a fully disclosed basis. SWS also processes orders and floor reports, matches trades, transmits execution reports to APS Financial and records all data pertinent to trades. APS Financial pays SWS a fee based on the number and type of transactions.

Asset Management, a registered investment adviser under the Investment Advisers Act of 1940, was formed and registered with the SEC in 1998. We formed Asset Management to manage fixed income and equity assets for institutional and individual clients on a fee basis. Asset Management's mission is to provide clients with investment results within specific client-determined risk parameters.

OUR INSURANCE SERVICES

As of December 31, 2003, APS Insurance Services, Inc., or Insurance Services, is a wholly-owned subsidiary of ours. Prior to October 1, 2003, we owned 80% of Insurance Services. On October 1, 2003 we acquired the remaining 20% minority interest in APS Insurance Services for approximately \$2.0 million in cash (see Note 14). APS Insurance Services, through its wholly-owned subsidiaries APS Facilities Management, Inc., dba APMC Insurance Services, Inc., or FMI, and American Physicians Insurance Agency, Inc., or Agency, provides management and agency services to medical malpractice insurance companies. Our revenues from this segment contributed 36% and 41% of our total revenues in 2003 and 2002, respectively.

Substantially all of our revenue from this segment was attributable to FMI providing management services to American Physicians Insurance Exchange, or APIE, a reciprocal insurance exchange, wholly-owned by its subscriber physicians. A reciprocal insurance exchange is an organization that sells insurance only to its subscribers, who pay, in addition to their annual insurance premiums, a

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

contribution to the exchange's surplus. These exchanges generally have no paid employees but instead enter into a contract with an "attorney-in-fact" that provides all management and administrative services for the exchange. As the attorney-in-fact for APIE, FMI receives a percentage of the earned premiums of APIE, as well as a portion of APIE's profits. The amount of these premiums can be adversely affected by competition. Substantial underwriting losses, which might result in a curtailment or cessation of operations by APIE, would also adversely affect FMI's revenue and, accordingly, our revenue. To limit possible underwriting losses, APIE currently reinsures its risk in excess of \$250,000 per medical incident. APIE offers medical professional liability insurance for physicians in Texas and Arkansas. FMI's assets are not subject to any insurance claims by policyholders of APIE.

APIE was organized in 1975, and FMI has been its exclusive manager since its inception. The management agreement between FMI and APIE basically provides for full management by FMI of the affairs of APIE under the direction of APIE's physician board of directors. Subject to the direction of this board, FMI sells and issues policies, investigates, settles and defends claims, and otherwise manages APIE's affairs. In consideration for performing its services, FMI receives a percentage fee based on APIE's earned premiums (before payment of reinsurance premiums), as well as a portion of APIE's profits. FMI pays salaries and personnel related expenses, rent and office operations costs, data processing costs and many other operating expenses of APIE. APIE is responsible for the payment of all claims, claims expenses, peer review expenses, directors' fees and expenses, legal, actuarial and auditing expenses, its taxes, outside agent commissions and certain other specific expenses. Under the management agreement, FMI's authority to act as manager of APIE is automatically renewed each year unless a majority of the subscribers to APIE elect to terminate the

4

management agreement by reason of an adjudication that FMI has been grossly negligent, has acted in bad faith or with fraudulent intent or has committed willful misfeasance in its management activities. Termination of FMI's management agreement with APIE would have a material adverse effect on us.

APIE is authorized to do business in the states of Texas and Arkansas, and specializes in writing medical professional liability insurance for health care providers. It writes insurance in Texas primarily through purchasing groups and is not subject to certain rate and policy form regulations issued by the Texas Department of Insurance. It reviews applicants for insurance coverage based on the nature of their practices, prior claims records and other underwriting criteria. APIE is one of the largest medical professional liability insurance companies in the State of Texas. APIE is the only professional liability insurance company based in Texas that is wholly-owned by its subscriber physicians.

Generally, medical professional liability insurance is offered on either a "claims made" basis or an "occurrence" basis. "Claims made" policies insure physicians only against claims that occur and that are reported during the period covered by the policy. "Occurrence" policies insure physicians against claims based on occurrences during the policy period regardless of when they are reported. APIE offers only a "claims made" policy in Texas and Arkansas, but provides for an extended reporting option upon termination. APIE reinsures 100% of all Texas and Arkansas coverage per medical incident between \$250,000 and \$1,000,000, primarily through certain domestic and international insurance companies.

The following table presents selected financial and other data for APIE. The management agreement with FMI obligates APIE to pay management fees to FMI based on APIE's earned premiums before payment of reinsurance premiums. The

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

management fee percentage is 13.5% with the provision that any profits of APIE will be shared equally with FMI so long as the total payment (fees and profit sharing) does not exceed a cap based on premium levels. In 2003, 2002, 2001, 2000, and 1999, management fees attributable to profit sharing were \$722,000, \$0, \$0, \$0, and \$329,000, respectively. While APIE was profitable in 2001 and 2002 there was no profit sharing with FMI due to the management agreement requiring that prior year losses be applied against future pretax income. Only after prior year losses are completely offset can FMI then share equally the profits at APIE.

	Years Ended December 31		
	2003	2002	2001
	(Unaudited, in thousand, except for)		
Earned premiums before reinsurance premiums	\$ 51,904	\$ 46,078	\$ 35,866
Total assets	102,728	80,721	64,557
Total surplus	15,783	12,985	11,475
Management fees (including profit sharing) and commissions to FMI and Agency (1)	7,789	6,221	5,084
Number of insureds	3,073	3,181	3,101

(1) Includes commissions of \$513, \$3,103, \$2,886, \$1,898, and \$1,191 in 2003, 2002, 2001, 2000, and 1999, respectively, from other carriers directly related to APIE's controlled business.

OUR OTHER INVESTMENTS

At December 31, 2003, we owned less than 5% of the outstanding common stock of Prime Medical Services, Inc., or Prime Medical, having reduced our ownership from 15% with the sale of 1,591,000 shares during 2002. Prior to that sale we recorded our pro-rata share of Prime Medical's earnings using the equity method of accounting. As a result of our reduced ownership, we now account for our investment as an available-for-sale equity security, with changes in market value, net of tax, reflected in shareholders' equity as "accumulated other

5

comprehensive income." Prime Medical is the largest provider of lithotripsy services in the United States, currently servicing over 372 hospitals and surgery centers in 26 states. Lithotripsy is a non-invasive method of treating kidney stones through the use of shock waves. Prime is also an international supplier of specialty vehicles for the transport of high technology medical, broadcast/communications and homeland security equipment. At December 31, 2003, our investments in Prime Medical Securities include common stock and fixed income securities with an aggregate fair market value of \$4,313,000. A material decline in the value of this investment could have a material effect in our financial condition and results of operations.

The common stock of Prime Medical is quoted on the NASDAQ National Market under the symbol "PMSI". Prime Medical is a Delaware corporation and is required to file annual, quarterly and other reports and documents with the SEC. The summary information in the accompanying consolidated financial statements

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

regarding Prime Medical is qualified in its entirety by reference to such reports and documents. Such reports and documents may be examined and copies may be obtained from the SEC.

On June 4, 2003 we purchased from Financial Industries Corporation ("FIC") (NASDAQ: FNIN) and a foundation 339,879 shares of FIC's common stock as an investment. The purchase price was approximately \$5,000,000, which was sourced from our cash reserves. Earlier in 2003 we had purchased 45,121 FIC shares in the open market. The 385,000 shares represents an approximate 4% ownership in FIC. The shares purchased from FIC and the foundation are not registered, but are subject to a registration rights agreement requiring FIC's best efforts to register them within one year of the transaction. We have classified all of these shares as securities available-for-sale and have recorded changes in their value, net of tax, in our balance sheet as part of "accumulated other comprehensive income". A material decline in the value of this investment could have a material effect in our financial condition and results of operations. At December 31, 2003, the fair market value of our investment in FIC stock was \$5,313,000.

As part of this transaction we were granted options to purchase an additional 323,000 shares of FIC's common stock at \$16.42 per share. There is a significant revenue-related performance requirement that must be met before these options are exercisable. We have assigned no value to this option.

FIC is a Texas corporation and is required to file annual, quarterly and other reports and documents with the SEC. (The summary information in the accompanying consolidated financial statements regarding FIC is qualified in its entirety by reference to such reports and documents.) Such reports and documents may be obtained from the SEC.

DISCONTINUED OPERATIONS

Effective November 1, 2002, we completed the sale of APS Consulting to its management as we determined the division's operations were not consistent with our long-term strategic plan. We sold all of our APS Consulting shares for a de minimus amount of cash plus a \$250,000 seven-year term note at the prime rate plus 3%. Our existing contract, which was entered into October 1, 2002, provides administrative support services to APS Consulting for a period of approximately seven years remains in effect. Fees under this contract are dependent on APS Consulting's pre-tax earnings but may not be less than \$200,000 or more than \$518,000 over the life of the agreement. Because we were dependent upon the future successful operation of the division to collect our proceeds from the disposal and because we had a security interest in the assets of the division, we had retained a sufficient risk of loss to preclude us from recognizing the divestiture of APS Consulting under the guidance of FASB Interpretation No 46. Accordingly, we did not recognize the divestiture of APS Consulting and continued to consolidate the division as an entity in which we have a variable interest that will absorb the majority of the entity's operating losses if they occurred.

Effective November 1, 2003, APS Consulting was able to obtain third party financing and repay their note payable to us in exchange for our agreeing to discount the note by \$35,000. We provided no guarantees or credit enhancements in connection with APS Consulting securing this financing. Accordingly, we no

longer have a risk of loss related to these operations and have recognized the transaction as a divestiture. As a result, we ceased consolidation of APS

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

Consulting financial statements effective November 1, 2003. In addition, we were able to recognize a gain of \$27,000, net of tax, and administrative support fees totaling \$84,000 for the period from November 1, 2002 through October 31, 2003 that had previously been eliminated as intercompany revenues.

COMPETITION

APS Financial and Asset Management are both engaged in a highly competitive business. Their competitors include, with respect to one or more aspects of their business, all of the member organizations of the New York Stock Exchange and other registered securities exchanges, all members of the NASD, registered investment advisors, members of the various commodity exchanges and commercial banks and thrift institutions. Many of these organizations are national rather than regional firms and have substantially greater personnel and financial resources than us. In many instances APS Financial is competing directly with these organizations. In addition, there is competition for investment funds from the real estate, insurance, banking and thrift industries.

APIE competes with Medical Protective Insurance Company, Texas Medical Liability Trust, and the Texas Medical Liability Insurance Underwriting Association (JUA), which is the State sponsored insurer of last resort. APIE does not have the capacity to write the volume of business equal to that of the other major carriers. Great focus has been given to the area of underwriting and the selection of our insured physicians. With the successful passing of tort reform in late 2003, there is an increased likelihood of additional companies re-entering the Texas market. APIE anticipates maintaining its market share through a combination of unique and tailored coverages, and a continued commitment to claims, risk management and underwriting services.

REGULATION

APS Financial and Asset Management are subject to extensive regulation under both federal and state laws. The SEC is the federal agency charged with administration of the federal securities and investment advisor laws. Much of the regulation of broker/dealers, however, has been delegated to self-regulatory organizations, principally the NASD and the national securities exchanges. These self-regulatory organizations adopt rules (subject to approval by the SEC), which govern the industry and conduct periodic examinations of member broker/dealers. APS Financial is also subject to regulation by state and District of Columbia securities commissions.

The regulations to which APS Financial is subject cover all aspects of the securities business, including sales methods, trade practices among broker/dealers, uses and safekeeping of customers' funds and securities, capital structure of securities firms, record keeping and the conduct of directors, officers and employees. Additional legislation, changes in rules promulgated by the SEC and by self-regulatory organizations, or changes in the interpretation or enforcement of existing laws and rules, may directly affect the method of operation and profitability of APS Financial and, accordingly, us. The SEC, self regulatory organizations and state securities commissions may conduct administrative proceedings which can result in censure, fine, suspension or expulsion of APS Financial, its officers or employees. The principal purpose of regulation and discipline of broker/dealers is the protection of customers and the securities markets, rather than protection of creditors and shareholders of broker/dealers.

APS Financial, as a registered broker/dealer and NASD member organization, is required by federal law to belong to the SIPC. When the SIPC fund falls below a certain minimum amount, members are required to pay annual assessments in varying amounts not to exceed .5% of their adjusted gross revenues to restore the fund. The SIPC fund provides protection for customer accounts up to \$500,000

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

per customer, with a limitation of \$100,000 on claims for cash balances.

FMI has received certificates of authority from the Texas and Arkansas insurance departments, licensing it on behalf of the subscribers of APIE. APIE,

7

as an insurance company, is subject to regulation by the insurance departments of the States of Texas and Arkansas. These regulations strictly limit all financial dealings of a reciprocal insurance exchange with its officers, directors, affiliates and subsidiaries, including FMI. Premium rates, advertising, solicitation of insurance, types of insurance issued and general corporate activity are also subject to regulation by various state agencies.

EMPLOYEES

At March 1, 2004, we employed, on a full time basis, approximately 107 persons, including 56 by Insurance Services, 42 by APS Financial and Asset Management, and 9 directly by us. We consider our employee relations to be good. None of our employees are represented by a labor union and we have experienced no work stoppages.

EXECUTIVE OFFICERS

As of March 15, 2004, our executive officers were as follows:

Name	Age	Position
Kenneth S. Shifrin	54	Chairman of the Board, President and Chief Executive Officer
William H. Hayes	56	Senior Vice President -Finance, Secretary, Chief Financial Officer
Maury L. Magids	39	Senior Vice President - Insurance
Thomas R. Solimine	45	Controller

Our officers serve until the next annual meeting of our directors and until their successors are elected and qualified.

Mr. Shifrin has been our Chairman of the Board since March 1990. He has been our President and Chief Executive Officer since March 1989 and he was President and Chief Operating Officer from June 1987 to February 1989. He has been a director of ours since February 1987. From February 1985 until June 1987, Mr. Shifrin served as our Senior Vice President - Finance and Treasurer. Mr. Shifrin also has been a director of Financial Industries Corporation since June 2003 and Chairman of the Board of Prime Medical since October 1989. Mr. Shifrin is a member of the World Presidents Organization.

Mr. Hayes has been our Senior Vice President - Finance since June 1995. Mr. Hayes was our Vice President from June 1988 to June 1995 and was our Controller from June 1985 to June 1987. He has been our Secretary since February 1987 and our Chief Financial Officer since June 1987. Mr. Hayes is a Certified Public Accountant.

Mr. Magids has been our Senior Vice President - Insurance Services since June 2001 and has been President and Chief Operating Officer of FMI since November 1998. Mr. Magids joined us in October 1996. Mr. Magids is a Certified Public Accountant and was with Arthur Andersen LLP from August 1986 until

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

September 1996, most recently as Director of Business Development.

Mr. Solimine has been our Controller since June 1994. He has served as Secretary for APS Financial since February 1995. From July 1989 to June 1994, Mr. Solimine served as our Manager of Accounting.

There are no family relationships, as defined, between any of our executive officers, and there is no arrangement or understanding between any of our executive officers and any other person pursuant to which he or she was selected as an officer. Each of our executive officers was elected by our board of directors to hold office until the next annual election of officers and until

8

his or her successor is elected and qualified or until his or her earlier resignation or removal. Our board of directors elects our officers in conjunction with each annual meeting of our shareholders.

AVAILABLE INFORMATION

We file annual, quarterly, and current reports, proxy statements, and other documents with the SEC under the Securities Exchange Act of 1934 (the "Exchange Act"). You may read and copy any materials that we file with the SEC at the SEC's public reference room at 450 Fifth Street, NW, Washington, DC 20549. The public may obtain information on the operation of the public reference room by calling the SEC at 1-800-SEC-0330. Also, the SEC maintains a website that contains these SEC filings. You can obtain these filings at the SEC's website at <http://www.sec.gov>.

We also make available free of charge on or through our website (<http://www.amph.com>) our Annual Report on Form 10-KSB, Quarterly Reports on Form 10-QSB, Current Reports on Form 8-K, and, if applicable, amendments to those reports filed or furnished pursuant to Section 13(a) of the Exchange Act as soon as reasonably practicable after we electronically file such material with, or furnish it to, the SEC.

ITEM 2. DESCRIPTION OF PROPERTY

We lease approximately 23,000 square feet of condominium space from Prime Medical in an office project at 1301 Capital of Texas Hwy., Suite C-300, Austin, Texas as our principal executive offices.

We also lease office space for our financial services subsidiary at 2550 Gray Falls Dr, Suite 350, Houston, Texas, and 7981 168th Ave, N.E. Suite 108, Redmond, Washington.

We also lease office space for our insurance services subsidiary at 5401 North Central Expressway, Suite 316, LB #B4, Dallas, Texas.

ITEM 3. LEGAL PROCEEDINGS

We are involved in various claims and legal actions that have arisen in the ordinary course of our business. We believe that any liabilities arising from these actions will not have a material adverse effect on our financial condition or results of operations.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

None.

PART II

ITEM 5. MARKET FOR COMMON EQUITY RELATED STOCKHOLDER MATTERS AND SMALL BUSINESS ISSUER PURCHASES OF EQUITY SECURITIES

The following table represents the high and low prices of our common stock as reported by the Nasdaq Smallcap Market for years ended December 31, 2003 and 2002. On March 18, 2004, we had approximately 250 holders of record of our common stock.

	2003		2002	
	High	Low	High	Low
First Quarter	\$4.29	\$3.51	\$4.90	\$2.64
Second Quarter	\$5.49	\$3.58	\$4.67	\$3.49
Third Quarter	\$5.67	\$4.51	\$4.90	\$3.58
Fourth Quarter	\$10.77	\$5.10	\$4.57	\$3.51

We have not declared any cash dividends on our common stock during the last two years and have no present intention of paying any cash dividends in the foreseeable future. Our policy is to retain all earnings to provide funds for growth. Whether we decide to declare and pay dividends in the future will be based upon our earnings, financial condition, capital requirements and such other factors, as we may deem relevant.

The following table represents securities authorized for issuance under equity compensation plans, as described in Note 11 to the consolidated financial statements at December 31, 2003.

Equity Compensation Plan Information

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights.	Weighted-average exercise price of outstanding options, warrants and rights.
	(a)	(b)
Equity Compensation plans approved by security holders	815,000	\$4.49
Equity compensation		

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

plans not approved by security holders	none	none

Total	815,000	\$4.49

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Forward-Looking Statements

Our statements contained in this report that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including statements regarding our expectations, hopes, intentions or strategies regarding the future. You should not place undue reliance on forward-looking statements. All forward-looking statements included in this report are based on information available to us on the date hereof, and we assume no obligation to update any such forward-looking statements. It is important to note that our actual results could differ materially from those in the forward-looking statements. In addition to any risks and uncertainties specifically identified in the text surrounding the forward-looking statements, you should consult our reports on Forms 10-QSB and our other filings under the Securities Act of 1933 and the Securities Exchange Act of 1934, for factors that could cause our actual results to differ materially from those presented.

10

The forward-looking statements included herein are necessarily based on various assumptions and estimates and are inherently subject to various risks and uncertainties, including risks and uncertainties relating to the possible invalidity of the underlying assumptions and estimates and possible changes or developments in social, economic, business, industry, market, legal and regulatory circumstances and conditions and actions taken or omitted to be taken by third parties, including customers, suppliers, business partners and competitors and legislative, judicial and other governmental authorities and officials. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond our control. Any of these assumptions could be inaccurate and, therefore, there can be no assurance that the forward-looking statements included in this report will prove to be accurate.

GENERAL

We provide (1) financial services, including brokerage and investment services to individuals and institutions, and (2) insurance services, including management and agency services to medical malpractice insurance companies.

Financial Services. We provide investment and investment advisory services to institutions and individuals throughout the United States through the following subsidiaries:

- o APS Financial. APS Financial is a fully licensed broker/dealer that provides brokerage and investment services primarily to institutional and high net worth individual clients. APS Financial also provides portfolio accounting, analysis, and other services to insurance

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

companies, banks and public funds. We recognize commissions revenue, and the related compensation expense, on a trade date basis.

- o Asset Management. Asset Management manages fixed income and equity assets for institutional and individual clients on a fee basis. We recognize fee revenues monthly based on the amount of funds under management.

Insurance Services. Through Insurance Services we provide management and agency services to medical malpractice insurance companies through the following subsidiary:

- o FMI. FMI provides management and administrative services to APIE, a regional insurance exchange that sells medical professional liability insurance only to its physician subscribers, who pay annual insurance premiums and surplus contributions to APIE. APIE is governed by a physician board of directors. Pursuant to a management agreement and the direction of this board, FMI manages and operates APIE, including performing policy issuance, claims investigation and settlement, and all other management and operational functions. As a management fee, FMI receives a percentage of APIE's earned premiums and a portion of APIE's profit, subject to a cap based on premium levels. We recognize revenues for the management fee portion based on a percentage of earned premium on a monthly basis, and we recognize revenues for the management fee portion based on profit sharing when it is reasonably certain the managed company will have an annual profit, generally in the fourth quarter. FMI's assets are not subject to APIE policyholder claims.

In addition, as of December 31, 2003, we have the following significant investments accounted for as available-for-sale securities: (1) we own approximately 728,000 shares of Prime Medical common stock, representing approximately 4% of its outstanding common stock, and (2) we own 385,000 shares of Financial Industries Corporation, representing approximately 4% of its outstanding common stock. We account for these investments as available-for-sale securities, which means they are reflected on our consolidated balance sheets at fair value, and fluctuations in fair value are recognized as unrealized gains or losses excluded from earnings and reported as a separate component of stockholders' equity, net income taxes.

11

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of our consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. On an on-going basis, we evaluate our estimates, including those related to, impairment of assets; bad debts; income taxes; and contingencies and litigation. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We believe the following critical accounting policies and estimates affect our more significant judgments and estimates used in the preparation of our consolidated financial statements. We periodically review the carrying value of our assets to determine if events and circumstances exist indicating that assets might be impaired. If facts and circumstances support this possibility of impairment, our management will prepare undiscounted and discounted cash flow projections, which require judgments that are both subjective and complex.

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

Management may also obtain independent valuations.

Our financial services revenues are composed primarily of commissions on securities trades and asset management fees. Revenues related to securities transactions are recognized on a trade date basis. Asset management fees are recognized as a percentage of assets under management during the period based upon the terms of agreements with the applicable customers.

Our insurance services revenues are primarily related to management fees based on the earned premiums of the managed company and include a profit sharing component, as defined in the management agreement, related to the managed company's annual earnings. Management fees are recorded, based upon the terms of the management agreement, in the period the related premiums are earned by the managed company. The managed company recognizes premiums as earned ratably over the terms of the related policy. The profit sharing component is recognized when it is reasonably certain the managed company will have an annual profit, and, typically, has been recognized during the fourth quarter.

When necessary, we record an allowance for doubtful accounts based on specifically identified amounts that we believe to be uncollectible. If our actual collections experience changes, revisions to our allowance may be required. We have a limited number of customers with individually large amounts due at any given balance sheet date. Any unanticipated change in one of those customers' credit could have a material affect on our results of operations in the period in which such changes or events occur. After all attempts to collect a receivable have failed, the receivable is written off against the allowance. When necessary, we record a valuation allowance to reduce our deferred tax assets to the amount that is more likely than not to be realized. While we have considered future taxable income and ongoing prudent and feasible tax planning strategies in assessing the need for the valuation allowance, in the event we were to determine that we would be able to realize our deferred tax assets in the future in excess of its net recorded amount, an adjustment to the deferred tax asset would increase income in the period the determination was made. Likewise, should we determine that we would not be able to realize all or part of our net deferred tax asset in the future, an adjustment to the deferred tax asset would be charged to income in the period the determination was made.

In 2002 we accounted for APS Consulting as a variable interest entity under the guidance of FIN 46 "Consolidation of Variable Interest Entities". We had not recognized the divestiture of APS Consulting and continued to consolidate the division as an entity in which we had a variable interest that would absorb the majority of the entity's operating losses should they have occurred. Accordingly, the assets and liabilities were included in our consolidated balance sheet as of December 31, 2002.

12

Effective November 1, 2003, APS Consulting paid off the negotiated remainder of the note due us, allowing us to cease accounting for them as a variable interest entity. Consequently, we have reclassified the 2002 income statement and balance sheets to reflect the disposition of APS Consulting as a discontinued operation.

RESULTS OF OPERATIONS

OVERVIEW AND BUSINESS OUTLOOK

In 2003, we saw substantial improvement in operating income from both of our core business segments. As we look forward to 2004, there are both opportunities and impediments to continued growth.

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

APS Financial, the broker/dealer division of our financial services segment, enjoyed a record year in both revenues and net profit in 2003. A combination of favorable bond market conditions, low personnel turnover, minimal loss of clients and minor fluctuations in non-variable operating expenses were the primary reasons for success. Matching or improving upon 2003 in 2004 will depend upon these same criteria repeating.

For commission revenue generation, bullish, unstable markets provide us with the most opportunity. Conversely, stable, bearish markets pose the greatest difficulty in generating income. Uncertainty in world, political and economic events can also be an obstacle to revenue generation. Investors may take a wait and see attitude should uncertainty exist. In a year of continued battle in the Middle East, threats of terrorism on the homeland and national political elections in the fall, there could be times when investors might conserve to cash.

Although we have been fortunate in retaining our key salespersons for many years, a loss of one or more key individuals and/or a loss of one or more key accounts is possible and could have a material adverse effect upon earnings.

The nature of the broker/dealer business and the current litigious legal environment in which we operate means that there is always the possibility of one or more lawsuits being brought against us. Claims against broker/dealers generally rise in periods of down markets and the more prolonged a downturn, generally the greater risk of litigation.

APS Insurance Services also enjoyed an excellent 2003, and looking forward to 2004, we believe could improve upon net earnings (before profit sharing) since we now own 100% of this subsidiary. In 2003, 20% of after-tax earnings of this segment was minority owned through September 30. Also, total surplus at APIE grew almost 22% in 2003 compared to 2002. If APIE's surplus continues to grow, this would continue to increase the financial strength of the company and its capacity to write new business.

The insurance segment is greatly affected by the profitability of the medical malpractice insurance company that we manage. Significant increases in claims brought against our insured doctors would negatively affect the profitability of APIE, and consequently, the amount of profit, if any, we would be able to share in. This risk has been reduced by lowering the limits of liability on the physicians we insure coupled with providing policies that cap our overall exposure. Further, there was passage of tort and insurance reform in the State of Texas in 2003. The new legislation capped non-economic damages and placed restrictions on mass litigation. As a result of tort reform, we anticipate that competitors will re-enter the State of Texas, which could result in pressure to lower rates or a reduction in the number of insurance policies written by APIE.

2003 COMPARED TO 2002

Revenues from operations increased \$7,372,000 (32%) compared to 2002. Our net income from continuing operations decreased \$384,000 (12%) to \$2,772,000 in 2003 from \$3,156,000 in 2002. Our net earnings decreased \$612,000 (18%) in 2003 to a total of \$2,799,000 compared to net earnings of 3,411,000 in 2002. Our diluted earnings per share decreased to \$1.14 in 2003 compared to \$1.45 in 2002. The reasons for these changes are described below.

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

Our financial services revenues increased \$6,000,000 (44%) in 2003 compared to 2002. The increase was due to strong commission revenues at APS Financial, the broker/dealer division of our financial services segment. APS Financial derives most of its revenue from trading in the fixed income market, both in investment and non-investment securities. While revenue from investment grade transactions has increased, revenue derived from the high yield market has been particularly strong, as that sector performed particularly well throughout 2003, as evidenced by various high yield indices rising as much as 29% compared to 2002. Also, we continue to have very low turnover in personnel, which gives us a better probability of maintaining our customer accounts.

Our financial services expense increased \$4,708,000 (40%) in 2003 compared to 2002. The primary reason for the current year increases is a \$3,808,000 (50%) increase in commission expense resulting from the increase in commission revenue at APS Financial mentioned above. In addition, net profits before management incentive costs increased at APS Financial by \$2,053,000 (79%) resulting in a \$762,000 (88%) increase in the current year formula driven management incentive costs. Payroll related benefit costs were up \$144,000 (25%) in 2003 as a result of a 27% increase in health insurance costs as well as higher payroll taxes as a result of much higher earnings by commissioned brokers. Partially offsetting these increases were relatively minor current year decreases in ticket charges, information services, depreciation and advertising costs.

INSURANCE SERVICES

Our insurance services revenues from our premium-based insurance management segment, APS Insurance Services, increased \$1,372,000 (15%) in 2003 compared to 2002. The primary reason for the current year increase is that we recognized profit sharing with APIE this year for the first time since 1999. The total amount of profit sharing recognized in 2003 was \$722,000, all of which was recognized during the fourth quarter of 2003, after profit sharing goals were attained. As the certainty of profits at APIE cannot be fully known until an end-of-year actuarial analysis by independent actuaries, we cannot predict what, if any, profits will be available to us until this analysis is complete. Further contributing to the 2003 increase in revenues was a \$644,000 (10%) increase in management fees resulting from greater insurance premium volumes. The increase in 2003 premiums was primarily the result of rate increases throughout 2002 and 2003.

Insurance services expenses at the insurance management subsidiary increased \$775,000 (11%) in 2003 compared to 2002. The current year increase is primarily due to a \$309,000 (13%) increase in payroll expense, a \$81,000 (15%) increase in management incentive expense, a \$73,000 (32%) increase in employee benefits, and a \$130,000 (143%) increase in advertising. The current year increase in payroll is due primarily to the result of an industry salary analysis conducted in the latter half of 2002, which resulted in wages within certain departments increasing to competitive levels in order to retain personnel. In addition, two high-level management positions were added in 2003 to expand our business development and to meet growing financial reporting requirements. The increase in management incentive cost was the result of an increase in segment operating profits. As was the case with our investment services segment, employee benefit costs rose in the current year as a result of an increase in health insurance costs. Lastly, advertising costs were higher in 2003 as a result of re-branding efforts of the business.

GENERAL AND ADMINISTRATIVE EXPENSES

General and administrative expenses increased \$117,000 (6%) in 2003 compared to 2002. Management incentive expense was \$37,000 (6%) higher in 2003 on substantially higher operating income in the current year. Legal fees were \$143,000 higher in 2003 primarily as a result of fees incurred in connection

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

with our investment in Financial Industries. Insurance expense was \$45,000 (90%) higher in 2003 on increased directors' and officers' liability insurance premiums. Audit fees were \$37,000 (40%) higher in 2003 as a result of new SEC

14

and accounting regulations implemented during the year. Partially offsetting these increases was a decrease in other professional fees (\$48,000) as outside consulting fees were incurred in 2002 to ascertain the value of a certain investment.

GAIN ON SALE OF ASSETS

Gain on sale of assets primarily represents the recognition of deferred income. Approximately \$760,000 of the \$5,100,000 deferred gain on the sale of real estate to Prime Medical in 2001 was due to our ownership interest in Prime and is recognized upon the reduction of our ownership percentage in Prime Medical through the sale of its stock. In 2002, as a result of selling 1,570,000 shares of Prime Medical common stock, we recognized a proportionate percentage of the deferred gain, or about \$515,000. During 2003, we sold 24,000 shares of Prime Medical common stock and recognized a gain of \$8,000.

GAIN ON SALE OF INVESTMENTS

Gain on the sale of investments decreased \$2,728,000 (96%) in 2003 compared to 2002. The current year decline was due to the sale of significantly less shares of Prime Medical common stock in 2003 compared to 2002. In 2002, we recorded gains on the sales of 1,570,000 shares compared to 24,000 shares sold in 2003. Gains resulting from sales of Prime common stock were \$64,000 and \$2,855,000 in 2003 and 2002, respectively. As a result of these sales, as of December 31, 2003, we own approximately 728,000 shares of Prime Medical amounting to an ownership percentage of approximately 4%. In addition to the sale of Prime Medical shares we sold a number of fixed income securities in 2003, which resulted in gains comprising the majority of the remaining income reported.

AFFILIATES EARNINGS (LOSS)

Our equity in the earnings of Prime Medical was zero in 2003 as we no longer account for our investment in Prime Medical using the equity method of accounting, as was the case in the first quarter of 2002 when we recorded \$186,000 in equity earnings. As of March 19, 2002, we ceased accounting for our investment in Prime Medical using the equity method of accounting because (1) on January 1, 2002, Kenneth S. Shifrin, the Company's Chairman and CEO, stepped down from day-to-day operations as Executive Chairman of the Board of Prime Medical, but continues to serve as non-executive Chairman; and (2) from January to March 19, 2002, we sold 1,570,000 shares of Prime Medical reducing our ownership percentage to approximately 5%.

Our equity in earnings of Uncommon Care increased to \$260,000 in 2003 compared to a loss of \$230,000 in 2002. Because our total investment and advances to Uncommon Care has been reduced to zero we suspended recording equity losses, as required under the equity method. In 2002, we advanced them \$230,000 and recorded a loss for the full amount of the advance. In 2003, after informing management that no further advances would be made to the Company, we recorded equity in earnings of unconsolidated affiliates in the amount of \$260,000 related to cash received from Uncommon Care. We expect no further receipts of cash from Uncommon Care and consequently expect to record no additional income in the future.

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

INTEREST INCOME

Our interest income decreased \$68,000 (18%) in 2003 compared to 2002 primarily as a result of a higher balance of interest-bearing securities held in 2002. In June 2003, we liquidated approximately \$4.0 million in interest-bearing securities in order to secure the funds required to invest in 385,000 shares of Financial Industries common stock.

15

OTHER LOSS

Our other loss decreased \$120,000 (76%) in 2003 compared to 2002. The primary reason for the current year decrease in loss was the result of management fees received in 2003 from our former consulting division, which totaled \$98,000.

MINORITY INTERESTS

Minority interests represents the combination of two outside interests in subsidiaries of the Company: a twenty percent interest in Insurance Services owned by FPIC Insurance Group, Inc. and a three percent interest in APS Asset Management, a subsidiary of the financial services subsidiary of the Company (APS Investment Services), owned by key individuals within APS Asset Management. Minority interests decreased in the current year due to the repurchase of the 20% minority interest in Insurance Services from the minority interest holder, FPIC Insurance Group effective October 1, 2003. Consequently, only nine months of minority interest was recorded in 2003 compared to a full year in 2002.

DISCONTINUED OPERATIONS

Effective November 1, 2003 APS Consulting paid off the negotiated remaining amount of the note payable to us. Even though we had sold this segment to APS Consulting's management exactly one year earlier, we continued to consolidate their revenues, expenses and balance sheet items as we were dependent upon future successful operations of the division to collect our proceeds from the disposal and we did not transfer risk of loss to discontinue reporting them on our consolidated financial statements. With the payoff of the note we recognized the divestiture and now report APS Consulting as a discontinued operation. Accordingly, 2002 has been reclassified to remove revenues and expenses from our consolidated statements of operations and after-tax results of this former division are now recorded as income from discontinued operations in 2002. For 2003, only the after-tax gain on disposal of the segment is recorded as earnings from APS Consulting.

LIQUIDITY AND CAPITAL RESOURCES

WORKING CAPITAL

Our net working capital was \$8,537,000 and \$5,799,000 at December 31, 2003 and 2002, respectively. The increase in the current year was due primarily to the following factors: (1) the sale of our stock in Uncommon Care, Inc. allowed us to write off for tax purposes a total loss in the investment of \$6.7 million, resulting in an increase in our federal income tax receivable of approximately \$2.3 million in 2003; (2) management fees receivable from APIE were much higher in 2003 as a result of profit sharing of approximately \$722,000 compared to zero in 2002. This amount was received from APIE in March, 2004; and (3) cash received from operations. Partially offsetting these increases to working capital in 2003 was an increase in accrued compensation and other current accrued liabilities totaling approximately \$1.2 million. The primary reason for

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

this increase was higher incentive compensation accruals resulting from formula-driven, earnings based calculations arising due to much higher earnings from operations. Historically, we have maintained a strong working capital position and, as a result, we have been able to satisfy our operational and capital expenditure requirements with cash generated from our operating and investing activities. These same sources of funds have also allowed us to pursue investment and expansion opportunities consistent with our growth plans. Although there can be no assurance our operating activities will provide positive cash flow in 2004, we are optimistic that our working capital requirements will be met for the foreseeable future for the following reasons: (1) our current cash position is very strong, with a balance of approximately \$9.0 million comprising 34 percent of our total assets; (2) our investments in available-for-sale equity and fixed income securities could provide an additional \$9.6 million should the need arise, although at December 31, 2003, a liquidation of these investments would have caused a loss of \$371,000 to be realized; (3) we expect federal income tax refunds during the first half of 2003 to be around \$700,000 with approximate additional refunds during the second half of 2003 totaling \$1 million; and (4) we established a line of credit in November 2003 that is described below.

16

LINE OF CREDIT

During November 2003, we established a \$3.0 million line of credit with PlainsCapital Bank. The loan calls for interest payments only to be made on any amount drawn until April 15, 2004, when the entire amount of the note, principal and interest then remaining unpaid, shall be due and payable. We expect to renew this line of credit for a period of one year following the April 15, 2004 maturity date. At December 31, 2003, there were no draws taken against this line of credit. We are in compliance with the covenants of the loan agreement, including requirements for a minimum of \$5.0 million of unencumbered liquidity and a minimum 2 to 1 debt to worth ratio, and expect to remain in compliance at the time of renewal.

CAPITAL EXPENDITURES

Our capital expenditures for equipment were \$223,000 and \$139,000 in 2003 and 2002, respectively. Our capital expenditures were higher in 2003 due to purchases necessary to upgrade our network server hardware and software as well as to leasehold improvements at our corporate office. We expect capital expenditures in 2004 to be approximately \$325,000, including \$200,000 in improvements to our reporting software. Our 2004 capital expenditure budget is expected to be funded through cash on hand.

COMMITMENTS

There were no participation agreements or purchase commitments at December 31, 2003. We have committed cash outflow related to operating lease arrangements with a term exceeding one year and other contractual obligations at December 31, 2003 as follows (in thousands):

	Payment Due				
Contractual Cash Obligation	2004	2005	2006	2007	2008
-----	-----	-----	-----	-----	-----

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

Operating Leases	\$964	\$810	\$510	\$8	\$0
------------------	-------	-------	-------	-----	-----

MARGIN LOANS

We extend credit to our customers, which is financed through our clearing organization, SWS Securities, Inc. or SWS, to help facilitate customer securities transactions. This credit, which earns interest income, is known as "margin lending". In margin transactions, the client pays a portion of the purchase price of securities, and we make a loan (financed by our clearing organization) to the client for the balance, collateralized by the securities purchased or by other securities owned by the client.

In permitting clients to purchase on margin, we are subject to the risk of a market decline, which could reduce the value of our collateral below the client's indebtedness. Agreements with margin account clients permit our clearing organization to liquidate our clients' securities with or without prior notice in the event of an insufficient amount of margin collateral. Despite those agreements, our clearing organization may be unable to liquidate clients' securities for various reasons including the fact that the pledged securities may not be actively traded, there is an undue concentration of certain securities pledged, or a trading halt is issued with regard to pledged securities. As of December 31, 2003, the total of all customer securities pledges on debit balances held in margin accounts was approximately \$3.3 million.

We are also exposed should SWS be unable to fulfill its obligations for securities transactions.

17

Our ability to make scheduled payments or to fund planned capital expenditures will depend on our future performance, which, to a certain extent, is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond our control. There can be no assurance that our business will generate cash flow from operations or that we will realize anticipated revenue growth and operating improvements sufficient to make scheduled payments and fund planned future capital expenditures.

INFLATION

Our operations are not significantly affected by inflation because, having no manufacturing operations, we are not required to make large investments in fixed assets. However, the rate of inflation will affect certain of our expenses, such as employee compensation and benefits.

IMPACT OF NEW ACCOUNTING STANDARDS

As more fully described in Note 1 of Notes to Consolidated Financial Statements, on January 1, 2004, we are required to adopt several new accounting standards. For a discussion of the impact of those new accounting standards upon us, see Note 1 (n).

QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

We have exposure to changes in interest rates and the market values of our investments but have no material exposure to fluctuations in foreign currency.

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

INTEREST RATE RISK

Our exposure to market risk for changes in interest rates relates to both our investment portfolio and our revenues generated through commissions at our financial services segment. All of our marketable fixed income securities are designated as available-for-sale and, accordingly, are presented at fair value on our balance sheets. Fixed rate securities may have their fair market value adversely affected due to a rise in interest rates, and we may suffer losses in principal if forced to sell securities that have declined in market value due to changes in interest rates.

Changes in interest rates could have an impact at our broker/dealer subsidiary, APS Financial. The general level of interest rates may trend higher or lower in 2004, and this move may impact our level of business in different fixed-income sectors. If a generally improving economy is the impetus behind higher rates, then while our investment grade business may drop off, our high yield business might improve with improving credit conditions. A volatile interest rate environment in 2004 could also impact our business as this type of market condition can lead to investor uncertainty and their corresponding willingness to commit funds.

As we currently have no debt and don't anticipate the need to take on any debt in 2004, interest rate changes will have no impact on our financial position as it pertains to interest expense.

INVESTMENT RISK

As of December 31, 2003, our recorded basis in debt and equity securities was approximately \$10.2 million. We regularly review the carrying value of our investments and identify and record losses when events and circumstances indicate that such declines in the fair value of such assets below our accounting basis are other-than-temporary. During 2003 and 2002, we recorded no impairment losses. The fair values of our investments are subject to significant fluctuations due to volatility of the stock market and changes in general economic conditions. Based on the fair value of the publicly-traded equity securities we held at December 31, 2003 of \$9.6 million, an assumed 15%, 30%, and 50% adverse change to market prices of these securities would result in a corresponding decline in total fair value of approximately \$1.4 million, \$2.9

18

million and \$4.8 million, respectively. As these investments are held as available-for-sale, these declines would be treated as unrealized holding losses on our balance sheet unless it was determined the market declines were other-than-temporary, in which case these declines would be recognized in the period the determination was made.

ITEM 7. FINANCIAL STATEMENTS

The information required by this item is contained in Appendix A attached hereto.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 8A. CONTROLS AND PROCEDURES

At December 31, 2003, under the supervision and with the participation of

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

our management, including our Chief Executive Officer (our principal executive officer) and our Chief Financial Officer (our principal financial officer), we evaluated the effectiveness of our disclosure controls and procedures (as defined under Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on this evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that, as of December 31, 2003, our disclosure controls and procedures are effective.

There have been no changes in our internal control over financial reporting that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, such internal control over financial reporting.

PART III

ITEM 9. DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT

The information required by this item will be contained in our definitive proxy statement to be filed in connection with our 2004 annual meeting of shareholders, except for the information regarding our executive officers, which is presented in Part I. The information required by this item contained in our definitive proxy statement is incorporated herein by reference.

ITEM 10. EXECUTIVE COMPENSATION

The information required by this item will be contained in our definitive proxy statement to be filed in connection with our 2004 annual meeting of shareholders, which information is incorporated herein by reference.

ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information required by this item will be contained in our definitive proxy statement to be filed in connection with our 2004 annual meeting of shareholders, which information is incorporated herein by reference.

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The information required by this item will be contained in our definitive proxy statement to be filed in connection with our 2004 annual meeting of shareholders, which information is incorporated herein by reference.

19

PART IV

ITEM 13. EXHIBITS, LISTS, AND REPORTS ON FORM 8-K

(a) 1. Financial Statements
The information required by this item is contained in Appendix A attached hereto.

(b) Reports on Form 8-K for the quarter ended December 31, 2002

(none)

Independent Auditors' Report

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

The Board of Directors and Shareholders

American Physicians Service Group, Inc.

Austin, Texas

We have audited the accompanying consolidated balance sheets of American Physicians Service Group, Inc. (the Company) as of December 31, 2003 and 2002, and the related consolidated statements of operations, shareholders' equity and comprehensive income (loss), and cash flows for each of the two years in the period ended December 31, 2003. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of American Physicians Service Group, Inc. at December 31, 2003 and 2002, and the results of its operations and its cash flows for each of the two years in the period ended December 31, 2003 in conformity with accounting principles generally accepted in the United States of America.

A-8

AMERICAN PHYSICIANS SERVICE GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2003 and 2002

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) GENERAL

We, through our subsidiaries, provide financial services that include brokerage and asset management services to individuals and institutions, and insurance services that consist of management services for a malpractice insurance company. The financial services business has clients nationally. Insurance management is a service provided primarily in Texas, but is available to clients nationally. During the two years presented in the financial statements, financial services generated 64% and 59% of total revenues and insurance services generated 36% and 41% in 2003 and 2002, respectively.

(b) MANAGEMENT'S ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(c) PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include our accounts and the accounts of our subsidiary companies more than 50% owned. Investments in affiliated companies and other entities, in which our investment is less than 50% of the common shares outstanding and where we exert significant influence over operating and financial policies, are accounted for using the equity method. Investments in other entities in which our investment is less than 20%, and in which we do not have the ability to exercise significant influence over operating and financial policies, are accounted for using the cost method.

We own 100% of our insurance services segment after repurchasing the 20% formerly owned by Florida Physicians Insurance Group, Inc. ("FPIC"), on September 30, 2003 (see Note 14). Before this date, we recorded minority interest to reflect the 20% of its net income or loss attributable to the minority shareholder.

All significant intercompany transactions and balances have been eliminated from the accompanying consolidated financial statements.

(d) REVENUE RECOGNITION

Our investment services revenues related to securities transactions are recognized on a trade date basis. Asset management revenues are recognized monthly based on the amount of funds under management.

Our insurance services revenues related to management fees are recognized monthly as a percentage of the earned insurance premiums of the managed company. The profit sharing component of the management services agreement is recognized when it is reasonably certain that the managed company will have an annual profit, generally in the fourth quarter of each year.

A-9

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

(e) MARKETABLE SECURITIES

Our investments in debt and equity securities are classified in three categories and accounted for as follows:

Classification	Accounting
-----	-----
Held-to-maturity	Amortized cost
Trading securities	Fair value, unrealized gains and losses included in earnings
Available-for-sale	Fair value, unrealized gains and losses excluded from earnings and reported as a separate component of stockholders' equity, net of applicable income taxes. Realized gains and losses are included in earnings.

We have included our marketable securities, held as inventory at our broker/dealer, in the trading securities category. We have included investments in marketable securities not held as inventory at our broker/dealer in the available-for-sale securities category.

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

(f) PROPERTY AND EQUIPMENT

Property and equipment is stated at cost net of accumulated depreciation. Property and equipment is depreciated using the straight-line method over the estimated useful lives of the respective assets (3 to 5 years). Leasehold improvements are depreciated using the straight-line method over the life of the lease or their expected useful life, whichever is shorter.

(g) LONG-LIVED ASSETS

Long-lived assets, principally property and equipment, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If the sum of the expected future undiscounted cash flows is less than the carrying amount of the asset, a loss is recognized if there is a difference between the fair value and carrying value of the asset. Management's analysis of our long-lived assets at December 31, 2003 and 2002 indicated that there was no impairment to these assets' carrying values.

Investments are evaluated for impairment in the event of a material change in the underlying business. Such evaluation takes into consideration our intent and time frame to hold or to dispose of the investment and takes into consideration available information, including recent transactions in the stock, expected changes in the operations or cash flows of the investee, or a combination of these and other factors. Management's evaluation of our investments resulted in no impairment to these investments.

A-10

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

(h) GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill represents the excess of cost over the fair value of net assets acquired. We account for goodwill and other intangible assets according to the Statement of Financial Accounting Standards ("SFAS") No. 142, "Goodwill and Other Intangible Assets", which addresses financial accounting and reporting matters for business combinations. Under the provision of SFAS No. 142, goodwill is not amortized, but is evaluated annually for impairment or more frequently if circumstances indicate that impairment may exist. The goodwill valuation is largely influenced by projected future cash flows and, therefore, is significantly impacted by estimates and judgments.

We amortize other identifiable intangible assets on a straight-line basis over the periods expected to be benefited. The components of these other intangible assets, recorded in Other Assets in the accompanying consolidated balance sheets, consist primarily of a non-compete agreement.

(i) ALLOWANCE FOR DOUBTFUL ACCOUNTS

When applicable, we record an allowance for doubtful accounts based on specifically identified amounts that we believe to be uncollectible. If our actual collections experience changes, revisions to our allowance may be required. We have a limited number of customers with individually large amounts due at any given balance sheet date. Any unanticipated change in one of those customers' credit could have a

material affect on our results of operations in the period in which such changes or events occur. After all attempts to collect a receivable have failed, the receivable is written off against the allowance.

(j) INCOME TAXES

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is provided for deferred tax assets to the extent realization is not judged to be more likely than not.

(k) CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash and highly liquid investments with a maturity date at purchase of 90 days or less. We deposit our cash and cash equivalents with high credit quality institutions. Periodically such balances may exceed applicable FDIC insurance limits. Management has assessed the financial condition of these institutions and believes the possibility of credit loss is minimal.

(l) NOTES RECEIVABLE

Notes receivable are recorded at cost, less allowances for doubtful accounts when deemed necessary. Management, considering current information and events regarding the borrowers ability to repay their obligations, considers a note to be impaired when it is probable that we will be unable to collect all

A-11

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

amounts due according to the contractual terms of the note agreement. When a loan is considered to be impaired, the amount of the impairment is measured based on the present value of expected future cash flows discounted at the note's effective interest rate. Impairment losses are included in the allowance for doubtful accounts through a charge to bad debt expense. The present value of the impaired loan will change with the passage of time and may change because of revised estimates of cash flows or timing of cash flows. Such value changes are reported as bad debt expense in the same manner in which impairment initially was recognized. No interest income is accrued on impaired loans. Cash receipts on impaired loans are recorded as reductions of the principal amount.

(m) STOCK-BASED COMPENSATION

We have adopted the disclosure-only provisions of Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation ("Statement 123"), but apply Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, in accounting

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

for our stock option plans. In 2003 we purchased 15,000 unexpired options from a grantee and in 2002 we purchased 89,000 unexpired options from four grantees. These purchases in effect modified the terms of the options and, accordingly, we recognized \$34,000 and \$156,000 of compensation expense in 2003 and 2002 respectively. No other compensation expense from stock-based compensation awards was recognized in 2003 and 2002. If we had elected to recognize compensation expense for options granted based on their fair values at the grant dates, consistent with Statement 123, net income and earnings per share would have changed to the pro forma amounts indicated below:

	Year Ended December 31,	
	2003	2002
Net income, as reported	\$ 2,799,000	\$3,411,000
Deduct: Total stock-based employee compensation expense determined under the fair value based method for all awards, net of related tax effects	(241,000)	(222,000)

(n) RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In April 2002, the FASB issued SFAS No. 145, Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No.13, and Technical Corrections. SFAS No. 145 amends existing guidance on reporting gains and losses on the extinguishment of debt to prohibit the classification of the gain or loss as extraordinary, as the use of such extinguishments have become part of the risk management strategy of many companies. SFAS No. 145 also amends SFAS No. 13 to require sale-leaseback

accounting for certain lease modifications that have economic effects similar to sale-leaseback transactions. The provisions of the Statement related to the rescission of Statement No. 4 is applied in fiscal years beginning after May 15, 2002. Earlier application of these provisions is encouraged. The provisions of the Statement related to Statement No. 13 were effective for transactions occurring after May 15, 2002, with early application encouraged. We adopted No. 145 on January 1, 2003. The adoption of this statement did not have a material effect on our consolidated financial statements.

In December 2002, the FASB issued SFAS No. 148, Accounting for Stock-Based Compensation - Transition and Disclosure, an amendment of FASB Statement No. 123. This Statement amends FASB Statement No. 123, Accounting for Stock-Based Compensation, to provide alternative methods of transition for a voluntary change to the fair value method of

Edgar Filing: AMERICAN PHYSICIANS SERVICE GROUP INC - Form 10KSB

accounting for stock-based employee compensation. In addition, this Statement amends the disclosure requirements of Statement No. 123 to require prominent disclosures in both annual and interim financial statements. Certain of the disclosure modifications are required for fiscal years ending after December 15, 2002 and are included in the notes to these consolidated financial statements. We have not elected to adopt the provisions of this Statement.

In May 2003, the FASB issued SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities." SFAS No. 149 amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts and for hedging activities under FASB Statement No. 133, "Accounting for Derivative Instruments and Hedging Activities". SFAS No. 149 is generally effective for contracts entered into or modified after June 30, 2003, and for hedging relationships designated after June 30, 2003. We do not engage in hedging activities and, accordingly, the adoption of this Statement did not have an impact on our financial statements.

In May 2003, the FASB issued SFAS No. 150 "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity". SFAS No. 150 establishes standards for how an issuer measures certain financial instruments with characteristics of both liabilities and equity and requires that an issuer classify a financial instrument within its scope as a liability (or Asset in some circumstances). SFAS No. 150 was effective for financial instruments entered into or modified after May 31, 2003 and otherwise was effective and adopted by the Company on July 1, 2003. As we have no such instruments, the

HESKA CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2011

(UNAUDITED)

1. ORGANIZATION AND BUSINESS

Heska Corporation ("Heska" or the "Company") develops, manufactures, markets, sells and supports veterinary products. Heska's core focus is on the canine and feline companion animal health markets.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements are the responsibility of the Company's management and have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and pursuant to the instructions to Form 10-Q and rules and regulations of the Securities and Exchange Commission (the "SEC"). The condensed consolidated balance sheet as of March 31, 2011, the condensed consolidated statements of operations for the three months ended March 31, 2010 and 2011 and the condensed consolidated statements of cash flows for the three months ended March 31, 2010 and 2011 are unaudited, but include, in the opinion of management, all adjustments (consisting of normal recurring adjustments) which the Company considers necessary for a fair presentation of its financial position, operating results and cash flows for the periods presented. All material intercompany transactions and balances have been eliminated in consolidation. Although the Company believes that the disclosures in these financial statements are adequate to make the information presented not misleading, certain information and footnote disclosures normally included in complete financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to the rules and regulations of the SEC.

Results for any interim period are not necessarily indicative of results for any future interim period or for the entire year. The accompanying financial statements and related disclosures have been prepared with the presumption that users of the interim financial information have read or have access to the audited financial statements for the preceding fiscal year. Accordingly, these financial statements should be read in conjunction with the audited financial statements and the related notes thereto for the year ended December 31, 2010, included in the Company's Annual Report on Form 10-K filed with the SEC on March 18, 2011.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenue and expense during the reported period. Actual results could differ from those estimates. Significant estimates are required when establishing the allowance for doubtful accounts and the provision for excess/obsolete inventory, in determining the period over which the Company's obligations are fulfilled under agreements to license product rights and/or technology rights, and in determining the need for, and the amount of, a valuation allowance on certain deferred tax assets.

Inventories

Inventories are stated at the lower of cost or market using the first-in, first-out method. Inventory manufactured by the Company includes the cost of material, labor and overhead. If the cost of inventories exceeds estimated fair value, provisions are made to reduce the carrying value to estimated fair value.

5

Inventories, net consist of the following (in thousands):

	December 31, 2010	March 31, 2011
Raw materials	\$ 4,203	\$ 4,433
Work in process	3,483	2,810
Finished goods	5,388	4,860
Allowance for excess or obsolete inventory	(1,173)	(681)
	\$ 11,901	\$ 11,422

Basic and Diluted Net Income (Loss) Per Share

Basic net income (loss) per common share is computed using the weighted average number of common shares outstanding during the period. Diluted net income (loss) per share is computed using the sum of the weighted average number of shares of common stock outstanding, and, if not anti-dilutive, the effect of outstanding common stock equivalents (such as stock options and warrants) determined using the treasury stock method. For the three months ended March 31, 2011, the Company reported net income and therefore, dilutive common stock equivalent securities, as computed using the treasury method, were added to basic weighted average shares outstanding for the period to derive the weighted average shares for diluted earnings per share calculation. Common stock equivalent securities that were anti-dilutive for the three months ended March 31, 2011, and therefore excluded, were outstanding options to purchase 1,138,983 shares of common stock. These securities are anti-dilutive primarily due to exercise prices greater than the average trading price of the Company's common stock during the three months ended March 31, 2011. All common stock equivalent securities were anti-dilutive for the three months ended March 31, 2010, because the Company reported a net loss for that period.

3. CAPITAL STOCK

The fair value of each option grant was estimated on the date of grant using the Black-Scholes option-pricing model, with the following weighted average assumptions for options granted in the three months ended March 31, 2010 and 2011.

	Three Months Ended March 31,	
	2010	2011
Risk-free interest rate	1.37%	1.00%
Expected lives	3.0 years	3.0 years
Expected volatility	70%	82%
Expected dividend yield	0%	0%

A summary of the Company's stock option plans, excluding options to purchase fractional shares resulting from the Company's December 2010 1-for-10 reverse stock split of which options underlying 4.3 shares with a weighted average exercise price of \$10.06 were canceled in the three months ended March 31, 2011, is as follows:

	Year Ended December 31, 2010		Three Months Ended March 31, 2011	
	Options	Weighted Average Exercise Price	Options	Weighted Average Exercise Price
Outstanding at beginning of period	1,291,634	\$ 11.846	1,341,876	\$ 11.003
Granted at market	104,900	\$ 5.945	250	\$ 6.060
Cancelled	(53,459)	\$ 21.572	(35,448)	\$ 13.736
Exercised	(1,199)	\$ 5.834	(3,082)	\$ 4.422
Outstanding at end of period	1,341,876	\$ 11.003	1,303,596	\$ 10.943
Exercisable at end of period	1,142,209	\$ 11.871	1,125,100	\$ 11.760

The estimated fair value of stock options granted during the three months ended March 31, 2011 and 2010 was computed to be approximately \$800 and \$8 thousand, respectively. The amount is amortized ratably over the vesting period of the options. The per share weighted average estimated fair value of options granted during the three months ended March 31, 2011 and 2010 was computed to be approximately \$3.21 and \$3.09, respectively. The total intrinsic value of options exercised during the three months ended March 31, 2011 and 2010 was approximately \$1 thousand and \$450, respectively. The cash proceeds from options exercised during the three months ended March 31, 2011 and 2010 were approximately \$14 thousand and \$4 thousand, respectively.

The following table summarizes information about stock options outstanding and exercisable at March 31, 2011, excluding outstanding options to purchase an aggregate of 129.2 fractional shares resulting from the Company's December 2010 1-for-10 reverse stock split with a weighted average remaining contractual life of 3.31 years, a weighted average exercise price of \$13.07 and exercise prices ranging from \$3.40 to \$31.50. The Company intends to issue whole shares only from option exercises.

Exercise Prices	Options Outstanding			Options Exercisable	
	Number of Options Outstanding at March 31, 2011	Weighted Average Remaining Contractual Life in Years	Weighted Average Exercise Price	Number of Options Exercisable at March 31, 2011
