

Edgar Filing: NORTHEAST UTILITIES SYSTEM - Form U-9C-3

NORTHEAST UTILITIES SYSTEM

Form U-9C-3

March 25, 2004

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549-1004

FORM U-9C-3

QUARTERLY REPORT PURSUANT TO RULE 58

For the quarterly period ended December 30, 2003

Northeast Utilities

(Name of registered holding company)

107 Selden Street, Berlin, CT 06037

(Address of Principal Executive Officers)

Name and telephone number of officer to whom inquiries concerning this report should be directed:

John P. Stack, Vice President-Accounting and Controller
Telephone Number: 860-665-2333

GENERAL INSTRUCTIONS

A. Use of Form

1. A reporting company, as defined herein, shall file a report on this form within 60 days after the end of each of the first three quarters, and within 90 days after the end of the fourth quarter, of the fiscal year of the registered holding company. The period beginning on the date of effectiveness of rule 58 and ending at the end of the quarter following the quarter in which the rule becomes effective shall constitute the initial period for which any report shall be filed, if applicable.

Edgar Filing: NORTHEAST UTILITIES SYSTEM - Form U-9C-3

2. The requirement to provide specific information by means of this form supersedes any requirement by order of the Commission to provide identical information by means of periodic certificates under rule 24; but does not so supersede and replace any requirement by order to provide information by means of an annual report on Form U-13-60.
3. Information with respect to reporting companies that is required by Form U-13-60 shall be provided exclusively on that form.
4. Notwithstanding the specific requirements of this form, this Commission may informally request such further information as, in its opinion, may be necessary or appropriate.

B. Statements of Monetary Amounts and Deficits

1. Amounts included in this form and in related financial statements may be expressed in whole dollars, thousands of dollars or hundred thousands of dollars.
2. Deficits and other similar entries shall be indicated by either brackets or parentheses. An explanation should be provided by footnote.

C. Formal Requirements

This form, including exhibits, shall be filed with Commission electronically pursuant to Regulation S-T (17 CFR 232.10 et seq.). A conformed copy of each such report shall be filed with each state commission having jurisdiction over the retail rates of a public utility company that is an associate company of a reporting company. Each report shall provide the name and telephone number of the person to whom inquiries concerning this report should be directed.

D. Definitions

As used in this form, the word "reporting company" means an energy-related company or gas-related company, as defined in rule 58(b). All other words and terms have the same meaning as in the Public Utility Holding Company Act of 1935, as amended, and the rules and regulations there under.

ITEM 1 - ORGANIZATIONAL CHART

Instructions

1. Complete Item 1 only for the first three calendar quarters of the fiscal year of the registered holding company.
2. Under the caption "Name of Reporting Company," list each energy-related and gas-related company and each system company that directly or indirectly holds securities thereof. Add the designation "(new)" for each reporting company of which securities were acquired during the period, and the designation "(*)" for each inactive company.
3. Under the caption "Percentage of Voting Securities Held," state the aggregate percentage of the outstanding voting securities of the reporting company held directly or indirectly by the registered holding company at the end of the quarter.

Edgar Filing: NORTHEAST UTILITIES SYSTEM - Form U-9C-3

4. Provide a narrative description of each reporting company's activities during the reporting period.

 4th quarter not required.

ITEM 2 - ISSUANCES AND RENEWALS OF SECURITIES AND CAPITAL CONTRIBUTIONS

 Instruction

With respect to a transaction with an associate company, report only the type and principal amount of securities involved.

Company Issuing Security	Type of Security Issued	Principal Amount of Security	Issue or Renewal	Cost of Capital	Person to Whom Security Was Issued	Collateral Given With Security	Consideration Received for Each Security	Completed

ITEM 6 - FINANCIAL STATEMENTS AND EXHIBITS

Instructions

A. Financial Statements

1. Financial statements are required for reporting companies in which the registered holding company system has at least 50% equity or other ownership interest. For all other rule 58 companies, the registered holding company shall make available to the Commission such financial statements as are available to it.

2. For each reporting company, provide a balance sheet as of the end of the quarter and income statements for the three-month and year-to-date periods ending as of the end of the quarter, together with any notes thereto. Financial statements shall be for the first three quarters of the fiscal year of the registered holding company.

Edgar Filing: NORTHEAST UTILITIES SYSTEM - Form U-9C-3

3. If a reporting company and each of its subsidiaries engage exclusively in single category of energy-related or gas-related activity, consolidated financial statements may be filed.
4. Separate financial statements need not be filed for inactive companies or for companies engaged solely in the ownership of interests in energy-related or gas-related companies.

B. Exhibits

1. Copies of contracts required to be provided by Item 3 shall be filed as exhibits.
2. A certificate stating that a copy of the report for the previous quarter has been filed with interested state commissions shall be filed as an exhibit. The certificate shall provide the names and addresses of the state commissions.

Notes to Financial Statements (Unaudited)

1. About Northeast Utilities (NU)

Northeast Utilities Parent is the parent company of NU's subsidiaries. NU's regulated utilities furnish franchised retail electric service in Connecticut, New Hampshire and Massachusetts through three wholly owned subsidiaries: The Connecticut Light and Power Company, Public Service Company of New Hampshire and Western Massachusetts Electric Company. Another wholly owned subsidiary, North Atlantic Energy Corporation, previously sold all of its entitlement to the capacity and output of the Seabrook nuclear unit (Seabrook) to PSNH under the terms of two life-of-unit, full cost recovery contracts. Seabrook was sold on November 1, 2002. Other subsidiaries include Holyoke Water Power Company, a company engaged in the production of electric power, and Yankee Energy System, Inc. (Yankee), the parent company of Yankee Gas Services Company, Connecticut's largest natural gas distribution system.

Several wholly owned subsidiaries of NU provide support services for NU's companies. Northeast Utilities Service Company provides centralized accounting, administrative, engineering, financial, information technology, legal, operational, planning, purchasing, and other services to NU's companies. Prior to the sale of Seabrook, North Atlantic Energy Service Corporation had operational responsibility for Seabrook. Three other subsidiaries construct, acquire or lease some of the property and facilities used by NU's companies.

NU Enterprises, Inc. (NU Enterprises) is a wholly owned subsidiary of NU and acts as the holding company for certain of NU's subsidiaries. Select Energy, Inc. (Select Energy) and its subsidiary Select Energy New York, Inc. (SENY), Northeast Generation Services Company and its subsidiaries (NGS), Select Energy Services, Inc. and its subsidiaries (SESI), Mode 1 Communications, Inc. and Woods Network Services, Inc., engage in a variety of energy-related and telecommunications activities, primarily in the competitive energy retail and wholesale commodity, marketing and services fields. Northeast Generation Company acquires generation facilities. E.S. Boulos Company (Boulos), NGS Mechanical, Inc. (NGS Mechanical) and Woods Electrical Co., Inc. (Woods Electrical) are wholly owned subsidiaries of NGS. Greenport Power, LLC (Greenport) is a joint venture that is 50 percent owned by NGS. Select Energy Contracting, Inc. (Select Energy Contracting), Reeds Ferry Supply Co., Inc. (Reeds Ferry), HEC/Tobyhanna Energy Project, Inc., (HEC/Tobyhanna), and HEC/CJTS Energy Center LLC (HEC/CJTS) are wholly owned subsidiaries of SESI. Another company, ERI/HEC EFA-Med, LLC (ERI/HEC), is 50 percent owned by SESI. Yankee maintains certain wholly owned subsidiaries, including Yankee Energy Services Company (YESCO).

Edgar Filing: NORTHEAST UTILITIES SYSTEM - Form U-9C-3

NU Enterprises aligns its activities into two business lines, the merchant energy business line and the energy services business line. The merchant energy business line includes Select Energy's wholesale and retail marketing activities. The energy services business line includes the operations of SESI, NGS, and Woods Network.

Select Energy, SENY, NGS, Boulos, NGS Mechanical, Woods Electrical, Greenport, Select Energy Contracting, Reeds Ferry, HEC/Tobyhanna, HEC/CJTS, ERI/HEC and YESCO are "energy-related companies" under rule 58. These footnotes are applicable to the rule 58 companies with financial statements filed in this report on Form U-9C-3 under Item 6 Section A.

2. About Select Energy

Select Energy's merchant energy business line includes wholesale marketing and retail marketing activities. Wholesale marketing activities include wholesale origination, portfolio management and the operation of more than 1,400 megawatts of pumped storage, hydroelectric and coal-fired generation assets. Select Energy is an integrated energy business that buys, markets and sells electricity, gas, oil and energy-related products and services to both wholesale and retail customers in the Northeastern United States. Select Energy procures and delivers energy and capacity required to serve its electric, gas and oil customers. Select Energy is a licensed retail electricity supplier and is registered with local electric distribution companies and is a registered gas marketer with local gas distribution companies in the states of Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Virginia.

3. About SENY

SENY is a wholly owned subsidiary of Select Energy and engages in the brokering, marketing, transportation, storage, and sale of energy commodities in the state of New York.

4. About NGS

NGS provides management, operation and maintenance services to the electric generation market, as well as to large industrial customers, in the Northeastern United States. NGS also provides consulting services which include engineering services, construction management, permitting, and compliance management.

5. About Boulos

Boulos is an electrical contracting company which specializes in high-voltage electrical construction and maintenance in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. Boulos is wholly owned by NGS.

6. About NGS Mechanical

NGS Mechanical provides mechanical services in certain New England states and New York. NGS Mechanical is wholly owned by NGS.

7. About Woods Electrical

Woods Electrical is in the electrical contracting business in Connecticut and is a wholly owned subsidiary of NGS. Woods Electrical is also registered in the electrical contracting business in Maine, Massachusetts and New Hampshire. NGS acquired Woods Electrical on July 31, 2002, and the results of Woods Electrical's operations since July 1, 2002, are included in this report.

Edgar Filing: NORTHEAST UTILITIES SYSTEM - Form U-9C-3

8. About Greenport

Greenport is a limited liability company that was established to enter into an engineering, procurement and construction agreement with Global Common LLC for the performance of design, engineering, procurement, construction and other services in connection with an electrical generation facility construction project in Greenport, Long Island, New York. Greenport is 50 percent owned by NGS.

9. About Select Energy Contracting

Select Energy Contracting designs, manages and directs the construction of, and/or installation of mechanical, water and electrical systems and other resource consuming equipment.

10. About Reeds Ferry

Reeds Ferry is an equipment wholesaler which purchases equipment on behalf of Select Energy Contracting.

11. About HEC/Tobyhanna

HEC/Tobyhanna is a special purpose entity established to manage the assets of an Energy Savings Performance Contract at the Tobyhanna Army Depot.

12. About HEC/CJTS

HEC/CJTS is a special purpose entity formed to facilitate the financing of SESI's construction of an energy center at the Connecticut Juvenile Training School in Middletown, Connecticut.

13. About ERI/HEC

ERI/HEC was established on September 30, 2000, by SESI and ERI Services, Inc. to enter into an indefinite delivery/indefinite quantity contract with the United States Navy. ERI/HEC is 50 percent owned by SESI.

14. About YESCO

YESCO has disposed of most of its assets and has wound down its energy-related services for its customers.

15. Public Utility Regulation

NU is registered with the Securities and Exchange Commission (SEC) as a holding company under the Public Utility Holding Company Act of 1935 (1935 Act), and is subject to the provisions of the 1935 Act. Arrangements among NU's companies, outside agencies and other utilities covering interconnections, interchange of electric power and sales of utility property are subject to regulation by the Federal Energy Regulatory Commission (FERC) and/or the SEC. NU's operating subsidiaries are subject to further regulation for rates, accounting and other matters by the FERC and/or applicable state regulatory commissions.

16. Presentation

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Edgar Filing: NORTHEAST UTILITIES SYSTEM - Form U-9C-3

17. New Accounting Standards

Derivative Accounting: Effective January 1, 2001, NU adopted Statement of Financial Accounting Standards (SFAS) No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended. In April 2003, the Financial Accounting Standards Board (FASB) issued SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities," which amends SFAS No. 133. This new statement incorporates interpretations that were included in previous Derivative Implementation Group (DIG) guidance, clarifies certain conditions, and amends other existing pronouncements. It is effective for contracts entered into or modified after June 30, 2003. Management has determined that the adoption of SFAS No. 149 did not change Select Energy's or SENY's accounting for wholesale and retail marketing contracts, or their ability to elect the normal purchases and sales exception.

In August of 2003, the FASB ratified the consensus reached by its Emerging Issues Task Force (EITF) in July 2003 on EITF Issue No. 03-11, "Reporting Realized Gains and Losses on Derivative Instruments That Are Subject to FASB Statement No. 133 and Not 'Held for Trading Purposes' as Defined in Issue No. 02-3." Prior to Issue No. 03-11, no specific guidance existed to address the classification in the income statement of derivative contracts that are not held for trading purposes. The consensus states that determining whether realized gains and losses on contracts that physically deliver and are not held for trading purposes should be reported on a net or gross basis is a matter of judgment that depends on the relevant facts and circumstances. Select Energy and SENY have derivative sales contracts, and though these contracts may result in physical delivery, management has determined, based on the relevant facts and circumstances, that because these transactions are part of the respective companies' procurement activities, inclusion in operating expenses better depicts these sales activities. At December 31, 2003, settlements of these derivative contracts that are not held for trading purposes, though previously reported on a gross basis, are reported on a net basis in expenses. Sales amounting to \$595.7 million for the first nine months of 2003 were reflected as revenues in quarterly reporting but are now included in expenses.

On June 25, 2003, the DIG cleared Issue No. C-20, which addressed the meaning of "not clearly and closely related regarding contracts with a price adjustment feature" as it relates to the election of the normal purchase and sales exception to derivative accounting. The implementation of this guidance was required to be adopted in the fourth quarter of 2003 for Select Energy and SENY. The adoption of Issue No. C-20 did not have an impact on Select Energy's or SENY's financial statements.

18. Derivative Instruments, Market Risk and Risk Management

A. Derivative Instruments

Effective January 1, 2001, NU adopted SFAS No. 133, as amended. Derivatives that are utilized for trading purposes are recorded at fair value with changes in fair value included in earnings. Other contracts that are derivatives but do not meet the definition of a cash flow hedge and cannot be designated as being used for normal purchases or normal sales are also recorded at fair value with changes in fair value included in earnings. For those contracts that meet the definition of a derivative and meet the cash flow hedge requirements, the changes in the fair value of the effective portion of those contracts are generally recognized in accumulated other comprehensive income until the underlying transactions occur. For contracts that meet the definition of a derivative but do not meet the hedging requirements, and for the ineffective portion of contracts that meet the cash

Edgar Filing: NORTHEAST UTILITIES SYSTEM - Form U-9C-3

flow hedge requirements, the changes in fair value of those contracts are recognized currently in earnings. Derivative contracts designated as fair value hedges and the item they are hedging are both recorded at fair value on the balance sheets. Derivative contracts that are entered into as a normal purchase or sale and will result in physical delivery, and are documented as such, are recorded under accrual accounting. For information regarding accounting changes related to derivative instruments, see Note 17, "New Accounting Standards," to the financial statements.

In 2003, there were changes to interpretations of as well as an amendment to SFAS No. 133, and the FASB continues to consider changes that could affect the way Select Energy and SENY record and disclose derivative and hedging activities.

The tables below summarize Select Energy's and SENY's derivative assets and liabilities at December 31, 2003. These amounts do not include option premiums paid, which are recorded as prepayments and amounted to \$16.7 million at December 31, 2003 (\$12.4 million for Select Energy and \$4.3 million for SENY). These amounts also do not include option premiums received by Select Energy, which are recorded as other current liabilities and amounted to \$12.2 million at December 31, 2003. The premium amounts relate primarily to energy trading activities.

(Millions of Dollars)	Assets	Liabilities	Total

Select Energy:			
Trading	\$121.8	\$ (90.3)	\$31.5
Non-trading	0.5	(0.1)	0.4
Hedging	46.7	(12.7)	34.0

Total	\$169.0	\$(103.1)	\$65.9
=====			

(Millions of Dollars)	Assets	Liabilities	Total

SENY:			
Trading	\$ 2.1	\$ (1.1)	\$ 1.0
Non-trading	1.1	(0.7)	0.4
Hedging	9.1	-	9.1

Total	\$ 12.3	\$ (1.8)	\$10.5
=====			

Trading: To gather market intelligence and utilize this information in risk management activities for the wholesale marketing activities, Select Energy conducts limited energy trading activities in electricity, natural gas and oil, and therefore experiences net open positions. Select Energy and SENY manage these open positions with strict policies that limit its exposure to market risk and require daily reporting to management of potential financial exposures.

Derivatives used in trading activities are recorded at fair value and included in the balance sheets as derivative assets or liabilities. Changes in fair value are recognized in operating revenues in the statements of income in the period of change. The net fair value positions of the trading portfolio at December 31, 2003 were assets of \$31.5 million for Select Energy and \$1 million for SENY.

Select Energy's and SENY's trading portfolio includes New York Mercantile Exchange (NYMEX) futures and options, the fair value of which is based on

Edgar Filing: NORTHEAST UTILITIES SYSTEM - Form U-9C-3

closing exchange prices; over-the-counter forwards and options, the fair value of which is based on the mid-point of bid and ask market prices; and bilateral contracts for the purchase or sale of electricity or natural gas, the fair value of which is determined using available information from external sources. SENY's trading portfolio also includes transmission congestion contracts (TCCs). The fair value of certain TCCs is based on published market data.

Non-trading: Non-trading derivative contracts are used for delivery of energy related to Select Energy's and SENY's wholesale and retail marketing activities. These contracts are subject to fair value accounting because these contracts are derivatives that cannot be designated as normal purchases or sales, as defined. These contracts cannot be designated as normal purchases or sales either because they are included in the New York energy market that settles financially or because management did not elect the normal purchase and sale designation. Changes in fair value of a negative \$2.1 million of non-trading derivative contracts were recorded in revenues in 2003.

Market information for certain TCCs is not available, and those contracts cannot be reliably valued. Management believes the amounts paid for these contracts, which total \$4.3 million and are included in premiums paid, are equal to their fair value.

Hedging: Select Energy and SENY utilize derivative financial and commodity instruments, including futures and forward contracts, to reduce market risk associated with fluctuations in the price of electricity and natural gas purchased to meet firm sales commitments to certain customers. Select Energy and SENY also utilize derivatives, including price swap agreements, call and put option contracts, and futures and forward contracts to manage the market risk associated with a portion of its anticipated supply and delivery requirements. These derivatives have been designated as cash flow hedging instruments and are used to reduce the market risk associated with fluctuations in the price of electricity, natural gas, or oil. A derivative that hedges exposure to the variable cash flows of a forecasted transaction (a cash flow hedge) is initially recorded at fair value with changes in fair value recorded in accumulated other comprehensive income. Hedges impact net income when the forecasted transaction being hedged occurs, when hedge ineffectiveness is measured and recorded, when the forecasted transaction being hedged is no longer probable of occurring, or when there is accumulated other comprehensive loss and the hedge and the forecasted transaction being hedged are in a loss position on a combined basis.

Select Energy and SENY maintain natural gas service agreements with certain customers to supply gas at fixed prices for terms extending through 2006. Select Energy and SENY have hedged its gas supply risk under these agreements through NYMEX futures contracts. Under these contracts, which also extend through 2006, the purchase price of a specified quantity of gas is effectively fixed over the term of the gas service agreements. At December 31, 2003, the NYMEX futures contracts had notional values of \$104.5 million and were recorded at fair value as derivative assets of \$11.6 million.

Select Energy maintains power swaps to hedge purchases in New England as well as financial gas contracts and gas futures to hedge electricity purchase contracts that are indexed to gas prices. These hedging contracts, which are valued at the mid-point of bid and ask market prices, were recorded as derivative assets of \$27.3 million and derivative liabilities of \$5.1 million at December 31, 2003. To hedge the congestion price differences associated with locational marginal pricing in the New England and the Pennsylvania, New Jersey, Maryland and Delaware (PJM) regions, Select Energy holds FTR contracts recorded as a derivative asset at a fair value of \$3.8 million at December 31, 2003.

Edgar Filing: NORTHEAST UTILITIES SYSTEM - Form U-9C-3

Other hedging derivative liabilities, which are valued at the mid-point of bid and ask market prices, include forwards, options and swaps to hedge Select Energy's basic generation service contracts in the PJM region and were recorded at fair value as derivative liabilities of \$5.8 million at December 31, 2003.

SENY maintains financial power swaps to hedge its retail sales portfolio through 2004, which were also valued at the mid-point of bid and ask market prices. These contracts were recorded at fair value as derivative assets of \$6.9 million at December 31, 2003.

B. Market Risk Information

Select Energy and SENY utilize the sensitivity analysis methodology to disclose quantitative information for its commodity price risks. Sensitivity analysis provides a presentation of the potential loss of future earnings, fair values or cash flows from market risk-sensitive instruments over a selected time period due to one or more hypothetical changes in commodity prices, or other similar price changes. Under sensitivity analysis, the fair value of the portfolio is a function of the underlying commodity, contract prices and market prices represented by each derivative commodity contract. For swaps, forward contracts and options, fair value reflects management's best estimates considering over-the-counter quotations, time value and volatility factors of the underlying commitments. Exchange-traded futures and options are recorded at fair value based on closing exchange prices.

Wholesale and Retail Marketing Portfolio: When conducting sensitivity analyses of the change in the fair value of Select Energy's and SENY's electricity, natural gas and oil on the wholesale and retail marketing portfolio, which would result from a hypothetical change in the future market price of electricity, natural gas and oil, the fair values of the contracts are determined from models that take into consideration estimated future market prices of electricity, natural gas and oil, the volatility of the market prices in each period, as well as the time value factors of the underlying commitments. In most instances, market prices and volatility are determined from quoted prices on the futures exchange.

Select Energy and SENY have determined a hypothetical change in the fair value for its wholesale and retail marketing portfolio, which includes cash flow hedges and electricity, natural gas and oil contracts, assuming a 10 percent change in forward market prices. At December 31, 2003, a 10 percent change in market price would have resulted in an increase or decrease in fair value of \$3.7 million.

The impact of a change in electricity, natural gas and oil prices on Select Energy's and SENY's wholesale and retail marketing portfolio at December 31, 2003, is not necessarily representative of the results that will be realized when these contracts are physically delivered.

Trading Contracts: At December 31, 2003, Select Energy and SENY have calculated the market price resulting from a 10 percent change in forward market prices. That 10 percent change would result in a \$0.4 million increase or decrease in the fair value of the Select Energy and SENY trading portfolio. In the normal course of business, Select Energy and SENY also face risks that are either non-financial or non-quantifiable. These risks principally include credit risk, which is not reflected in this sensitivity analysis.

C. Other Risk Management Activities

Credit Risk Management: Credit risk relates to the risk of loss that NU would

Edgar Filing: NORTHEAST UTILITIES SYSTEM - Form U-9C-3

incur as a result of non-performance by counterparties pursuant to the terms of their contractual obligations. NU serves a wide variety of customers and suppliers that include independent power producers, industrial companies, gas and electric utilities, oil and gas producers, financial institutions, and other energy marketers. Margin accounts exist within this diverse group, and NU realizes interest receipts and payments related to balances outstanding in these margin accounts. This wide customer and supplier mix generates a need for a variety of contractual structures, products and terms which, in turn, requires NU to manage the portfolio of market risk inherent in those transactions in a manner consistent with the parameters established by NU's risk management process.

Credit risks and market risks at NU Enterprises are monitored regularly by a Risk Oversight Council operating outside of the business lines that create or actively manage these risk exposures to ensure compliance with NU's stated risk management policies.

NU tracks and re-balances the risk in its portfolio in accordance with fair value and other risk management methodologies that utilize forward price curves in the energy markets to estimate the size and probability of future potential exposure.

NYMEX traded futures and option contracts are guaranteed by the NYMEX and have a lower credit risk. Select Energy and SENY have established written credit policies with regard to its counterparties to minimize overall credit risk on all types of transactions. These policies require an evaluation of potential counterparties' financial conditions (including credit ratings), collateral requirements under certain circumstances (including cash in advance, letters of credit, and parent guarantees), and the use of standardized agreements, which allow for the netting of positive and negative exposures associated with a single counterparty. This evaluation results in establishing credit limits prior to Select Energy and SENY entering into energy contracts. The appropriateness of these limits is subject to continuing review. Concentrations among these counterparties may impact Select Energy's and SENY's overall exposure to credit risk, either positively or negatively, in that the counterparties may be similarly affected by changes to economic, regulatory or other conditions.

At December 31, 2003, Select Energy and SENY maintained collateral balances from counterparties of \$46.5 million. These amounts are included in both unrestricted cash from counterparties and other current liabilities on the accompanying balance sheets.

19. Special Deposits

Special deposits represents amounts Select Energy and SENY have on deposit with brokerage firms in the amount of \$17 million.

QUARTERLY REPORT OF NORTHEAST UTILITIES

SIGNATURE CLAUSE

Pursuant to the requirements of the Public Utility Holding Company Act of 1935 and the rules and regulations of the Securities and Exchange Commission issued there under, the undersigned company has duly caused this report to be signed on its behalf by the undersigned officer thereunto duly authorized.
