JACK HENRY & ASSOCIATES, INC. AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 (In Thousands, Except Per Share Amounts)
 (Unaudited)

NOTE 1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of the company

Jack Henry & Associates, Inc. and Subsidiaries (“JHA” or the “Company”) is a provider of integrated computer systems and services that has developed and acquired a number of banking and credit union software systems. The Company's revenues are predominately earned by marketing those systems to financial institutions nationwide together with computer equipment (hardware), by providing the conversion and software implementation services for financial institutions to utilize JHA software systems, and by providing other related services. JHA also provides continuing support and services to customers using in-house or outsourced systems.

Consolidation

The consolidated financial statements include the accounts of JHA and all of its subsidiaries, which are wholly-owned, and all intercompany accounts and transactions have been eliminated.

Fair value of financial instruments

Fair values for held-to-maturity securities are based on quoted market prices. For cash equivalents, amounts receivable or payable and short-term borrowings, fair values approximate carrying value, based on the short-term nature of the assets and liabilities. The fair value of long term debt also approximates carrying value as estimated using discounted cash flows based on the Company's current incremental borrowing rates or quoted prices in active markets.

The Company's estimates of the fair value for financial assets and financial liabilities are based on the framework established in the fair value accounting guidance. The framework is based on the inputs used in valuation, gives the highest priority to quoted prices in active markets, and requires that observable inputs be used in the valuations when available. The three levels of the hierarchy are as follows:

Level 1: observable inputs such as quoted prices in active markets

Level 2: inputs other than the quoted prices in active markets that are observable either directly or indirectly

Level 3: unobservable inputs in which there is little or no market data, which requires the Company to develop its own assumptions

Fair value of financial assets, included in cash and cash equivalents, is as follows:

	Estimated Fair Value Measurements			Total Fair Value
	Quoted Prices in Active Markets (Level 1)	Significant Observable Other Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
December 31, 2011				
Financial Assets:				
Money market funds	\$59,892	\$—	\$—	\$59,892
June 30, 2011				
Financial Assets:				
Money market funds	\$74,805	\$—	\$—	\$74,805

Comprehensive income

Comprehensive income for the three and six-month periods ended December 31, 2011 and 2010 equals the Company's net income.

Interim financial statements

The accompanying condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q of the Securities and Exchange Commission and in accordance with accounting principles generally accepted in the United States of America applicable to interim condensed consolidated financial statements, and do not include all of the information and footnotes required by accounting principles generally accepted in the

Table of Contents

United States of America for complete consolidated financial statements. The condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and accompanying notes, which are included in its Annual Report on Form 10-K ("Form 10-K") for the year ended June 30, 2011. The accounting policies followed by the Company are set forth in Note 1 to the Company's consolidated financial statements included in its Form 10-K for the fiscal year ended June 30, 2011.

In the opinion of the management of the Company, the accompanying unaudited condensed consolidated financial statements reflect all adjustments necessary (consisting of normal recurring adjustments) to present fairly the financial position of the Company as of December 31, 2011, the results of its operations for the three and six-month periods ended December 31, 2011 and 2010, and its cash flows for the six-month periods ended December 31, 2011 and 2010. The results of operations for the period ended December 31, 2011 are not necessarily indicative of the results to be expected for the entire year.

NOTE 2. ADDITIONAL INTERIM FOOTNOTE INFORMATION

The following additional information is provided to update the notes to the Company's annual consolidated financial statements for developments during the period ended December 31, 2011.

Common stock

The Board of Directors has authorized the Company to repurchase shares of its common stock. Under this authorization, the Company may finance its share repurchases with available cash reserves or short-term borrowings on its existing credit facilities. The share repurchase program does not include specific price targets or timetables and may be suspended at any time. At June 30, 2011 and December 31, 2011, there were 14,407 shares in treasury stock and the Company had the remaining authority to repurchase up to 5,584 additional shares. The total cost of treasury shares at December 31, 2011 is \$309,585. There were no repurchases of treasury stock during the six months ended December 31, 2011.

Commitments and contingencies

For fiscal 2012, the Board of Directors approved bonus plans for its executive officers and general managers for the current fiscal year. Under the plan, bonuses may be paid following the end of the current fiscal year based upon achievement of operating income and return on average assets targets. For general managers, one half of each manager's bonus is contingent upon meeting individual business unit objectives established by the executive officer to whom the general manager reports.

The Company has entered into agreements that provide its executive officers with compensation totaling two years' base salary and target bonus in the event the Company terminates the executive without cause within the period from 90 days before to two years after a change in control of the Company. The Company has also entered into agreements that provide its general managers with compensation totaling one year of base salary and target bonus under circumstances identical to those contained in the executive officer agreements.

NOTE 3. RECENT ACCOUNTING PRONOUNCEMENTS

The Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2011-04, Fair Value Measurement in May 31, 2011, which is effective for the Company beginning July 1, 2012 and is to be applied prospectively. The updated explanatory guidance on measuring fair value will be adopted by the Company at that time and is not expected to have a significant impact on our fair value calculations. No additional fair value measurements are required as a result of the update.

The FASB also issued ASU No. 2011-05, Comprehensive Income in June 2011, which is effective for the Company beginning January 1, 2012 and will be applied retrospectively. The updated guidance requires non-owner changes in stockholders' equity to be reported either in a single continuous statement of comprehensive income or in two separate but consecutive statements, rather than as part of the statement of changes in stockholders' equity. No changes in disclosure will be required as a result of the update.

In September 2011, the FASB issued ASU No. 2011-08, Testing Goodwill for Impairment, which is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, although early adoption is permitted. The amendments in the update permit an entity to first assess qualitative factors to

determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test. The provisions in this update will be effective for the Company beginning July 1, 2012.

Table of Contents

NOTE 4. DEBT

The Company's outstanding long and short term debt is as follows:

	December 31, 2011	June 30, 2011
LONG TERM DEBT		
Term loan	\$ 138,750	\$ 150,000
Capital leases	6,113	—
Other borrowings	652	1,015
	145,515	151,015
Less current maturities	27,408	23,076
Debt, net of current maturities	\$ 118,107	\$ 127,939
SHORT TERM DEBT		
Capital leases	\$ 1,506	\$ 3,016
Current maturities of long-term debt	27,408	23,076
Notes payable and current maturities of long term debt	\$ 28,914	\$ 26,092

The Company has a bank credit facility agreement that includes a revolving credit facility and a term loan.

Revolving credit facility

The long term revolving loan allows for borrowings of up to \$150,000, which may be increased by the Company at any time until maturity to \$250,000. The revolving loan terminates June 4, 2015. At December 31, 2011, there was no outstanding revolving loan balance.

Term loan

The term loan had an original principal balance of \$150,000, with quarterly principal payments of \$5,625 that began on September 30, 2011. The remaining outstanding balance on June 4, 2015 is due and payable on that date. At December 31, 2011, the outstanding balance of \$138,750 was bearing interest at a rate of 2.58%, and \$22,500 will be maturing within the next twelve months.

Each of the above loans bear interest at a variable rate equal to (a) a rate based on LIBOR or (b) an alternate base rate (the greater of (a) the Federal Funds Rate plus 0.5%, (b) the Prime Rate or (c) LIBOR plus 1.0%), plus an applicable percentage in each case determined by the Company's leverage ratio. The loans are secured by pledges of capital stock of certain subsidiaries of the Company. The loans are also guaranteed by certain subsidiaries of the Company. The credit facility is subject to various financial covenants that require the Company to maintain certain financial ratios as defined in the agreement. As of December 31, 2011, the Company was in compliance with all such covenants.

Capital leases

The Company has entered into various capital lease obligations for the use of certain computer equipment. Long term capital lease obligations were entered into of which \$6,113 remains outstanding at December 31, 2011 of which \$4,416 will be maturing within the next twelve months. The Company also has short term capital lease obligations totaling \$1,506 at December 31, 2011.

Other lines of credit

The Company renewed an unsecured bank credit line on April 29, 2011 which provides for funding of up to \$5,000 and bears interest at the prime rate less 1% (2.25% at December 31, 2011). The credit line was renewed through April 29, 2012. At December 31, 2011, no amount was outstanding.

The Company renewed a bank credit line on March 7, 2011 which provides for funding of up to \$8,000 and bears interest at the Federal Reserve Board's prime rate (3.25% at December 31, 2011). The credit line expires March 7, 2012 and is secured by \$1,000 of investments. At December 31, 2011, no amount was outstanding.

NOTE 5. INCOME TAXES

The effective tax rate of 35.2% of income before income taxes for the quarter ended December 31, 2011 is higher than 31.4% for the same quarter in fiscal 2011 primarily due to the effect of the Research and Experimentation Credit

("R&E Credit") which was retroactively extended from January 1, 2010 to December 31, 2011 during the quarter ended

8

Table of Contents

December 31, 2010. The rate of income taxes for the six month period of 35.3% of income before income taxes compared to 33.8% as reported in fiscal 2011 also fluctuated due to the effect of the R&E Credit retroactive extension. At December 31, 2011, the Company had \$8,717 of gross unrecognized tax benefits, \$6,989 of which, if recognized would affect our effective tax rate. Our policy is to include interest and penalties related to unrecognized tax benefits in the provision for income taxes. As of December 31, 2011, we had accrued interest and penalties of \$1,217 related to uncertain tax positions.

During the fiscal year ended June 30, 2010, the Internal Revenue Service commenced an examination of the Company's U.S. federal income tax returns for fiscal years ended June 2008 through 2009. Audit field work for these periods was completed during the current quarter. Additionally, the internal Revenue Service commenced an examination of the Company's U.S. federal income tax returns for the fiscal year ended June 30, 2010 during the current quarter. At this time, it is anticipated that the examination will not result in a material change to the Company's financial statements. The U.S. federal and state income tax returns for June 30, 2008 and all subsequent years remain subject to examination as of December 31, 2011 under statute of limitations rules. We anticipate potential changes resulting from the expiration of statutes of limitations could reduce the unrecognized tax benefits balance by \$2,500 - \$3,500 within twelve months of December 31, 2011.

NOTE 6. STOCK-BASED COMPENSATION

For the three months ended December 31, 2011 and 2010, there was \$1,771 and \$1,272, respectively, in compensation expense from equity-based awards. Pre-tax operating income for the first six months of fiscal 2012 and 2011 includes \$3,014 and \$2,206 of equity-based compensation costs respectively.

2005 NSOP and 1996 SOP

The Company previously issued options to employees under the 1996 Stock Option Plan ("1996 SOP") and to outside directors under the 2005 Non-Qualified Stock Option Plan ("2005 NSOP"). No stock options were issued under the 1996 SOP or the 2005 NSOP during the six-month periods ended December 31, 2011.

Changes in stock options outstanding and exercisable are as follows:

2005 NSOP & 1996 SOP – Stock options

	Number of Shares	Weighted Average Exercise Price	Aggregate Intrinsic Value
Outstanding July 1, 2011	990	\$ 15.65	
Granted	—	—	
Forfeited	—	—	
Exercised	(173) 17.86	
Outstanding December 31, 2011	817	\$ 15.18	\$ 15,049
Vested December 31, 2011	817	\$ 15.18	\$ 15,049
Exercisable December 31, 2011	817	\$ 15.18	\$ 15,049

Compensation cost related to outstanding options has been fully recognized. The weighted-average remaining contractual term on options currently exercisable as of December 31, 2011 was 2.36 years.

Restricted Stock Plan

The Company issues both unit awards and share awards under the Restricted Stock Plan. The following table summarizes non-vested unit awards as of December 31, 2011, as well as activity for the six months then ended:

	Shares	Weighted Average Grant Date Fair Value
Unit awards		
Outstanding July 1, 2011	293	15.77
Granted	391	19.69
Vested	—	—

Edgar Filing: HENRY JACK & ASSOCIATES INC - Form 10-Q

Forfeited	(12) 15.77
Outstanding December 31, 2011	672	\$18.05

9

Table of Contents

The weighted average assumptions used in this model to estimate fair value at the measurement date and resulting values are as follows:

Volatility	34.2	%
Risk free interest rate	0.31	%
Dividend yield	1.5	%
Stock Beta	0.903	

At December 31, 2011, there was \$9,359 of compensation expense that has yet to be recognized related to non-vested restricted stock unit awards, which will be recognized over a weighted-average period of 2.27 years.

The following table summarizes non-vested share awards as of December 31, 2011, as well as activity for the six months then ended:

Share awards	Shares	Weighted Average Grant Date Fair Value
Outstanding July 1, 2011	416	\$22.34
Granted	24	30.50
Vested	(105)) 22.91
Forfeited	(11)) 23.39
Outstanding December 31, 2011	324	\$22.72

At December 31, 2011, there was \$3,273 of compensation expense that has yet to be recognized related to non-vested restricted stock share awards, which will be recognized over a weighted-average period of 1.47 years.

NOTE 7. EARNINGS PER SHARE

The following table reflects the reconciliation between basic and diluted earnings per share:

	Three Months Ended December 31,		Six Months Ended December 31,	
	2011	2010	2011	2010
Net Income	\$38,525	\$36,045	\$74,999	\$67,816
Common share information:				
Weighted average shares outstanding for basic earnings per share	86,572	85,770	86,488	85,620
Dilutive effect of stock options and restricted stock	799	753	765	715
Weighted average shares outstanding for diluted earnings per share	87,371	86,523	87,253	86,335
Basic earnings per share	\$0.45	\$0.42	\$0.87	\$0.79
Diluted earnings per share	\$0.44	\$0.42	\$0.86	\$0.79

Per share information is based on the weighted average number of common shares outstanding for the three and six-month periods ended December 31, 2011 and 2010. Stock options and restricted stock have been included in the calculation of income per share to the extent they are dilutive. There were no anti-dilutive stock options and restricted stock excluded for the three-month periods ended December 31, 2011 (116 were excluded for the three months ended December 31, 2010). Anti-dilutive stock options and restricted stock to purchase approximately 241 and 601 shares were excluded from the computation of diluted earnings per share for the six-month periods ended December 31, 2011 and December 31, 2010, respectively.

NOTE 8. BUSINESS SEGMENT INFORMATION

The Company is a provider of integrated computer systems that perform data processing (available for in-house installations or outsourced services) for banks and credit unions. The Company's operations are classified into two business segments: bank systems and services ("Bank") and credit union systems and services ("Credit Union"). The Company evaluates the performance of its segments and allocates resources to them based on various factors, including prospects for growth, return on investment, and return on revenue.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This discussion and analysis should be read in conjunction with the condensed consolidated financial statements and the accompanying notes to the condensed consolidated financial statements included in this Form 10-Q.

RESULTS OF OPERATIONS

Background and Overview

We provide integrated computer systems for both in-house installations and outsourced data processing to commercial banks, credit unions and other financial institutions. We have developed and acquired banking and credit union application software systems that we market, together with data conversion services, software implementation services and compatible computer hardware, to these financial institutions. For in-house installations we also provide continuing customer support services after the systems are implemented. For our customers who prefer not to make an up-front capital investment in software and hardware, we provide our full range of products and services on an outsourced basis through our five data centers in five physical locations and four image-enabled item-processing centers.

In the second quarter of fiscal 2012, revenues increased 5% or \$13,223 compared to the same period in the prior year, with particularly strong growth continuing in our electronic payment services. In the first half of fiscal 2012, revenues increased 6% or \$26,739 compared to the first half of last year due to continued revenue growth in all three of our components of revenue (license, support and service, and hardware). During fiscal 2012, the Company continued to focus on cost management and also reduced interest cost from our sustained repayment of long-term debt. The growth in revenue and reduced interest cost, partially offset by a slightly higher tax rate, has resulted in a 7% increase in net income for the quarter and an 11% increase for the year-to-date period.

The current condition of the U.S. financial markets remains a primary concern as it continues to impact the demand for new products and services from our customers. The profitability of many financial institutions remain low and this has resulted in some reduction of demand for new products and services. During the past three years, a number of financial institutions have closed or merged due to regulatory action. We believe that regulatory actions will decline through fiscal 2012, absent a significant downturn in the economy. Furthermore, the increase in bank failures and forced consolidations has been, to some extent, offset by a general decline in the level of acquisition activity among financial institutions.

We continue through fiscal 2012 with cautious optimism following strong second quarter results. Significant portions of our business continue to come from recurring revenue, and increases in backlog coupled with a healthy sales pipeline are also encouraging. Our customers continue to face regulatory and operational challenges which our products and services address, and in these times they have an even greater need for some of our solutions that directly address institutional profitability and efficiency. Our strong balance sheet, access to extensive lines of credit, the strength of our existing product line and an unwavering commitment to superior customer service position us well to address current and future opportunities which will arise to extend our customer base and produce returns for our stockholders.

A detailed discussion of the major components of the results of operations for the three and six-month periods ended December 31, 2011 follows. All amounts are in thousands and discussions compare the current three and six-month periods ended December 31, 2011, to the prior year three and six-month periods ended December 31, 2010.

REVENUE

License Revenue	Three Months Ended		%	Six Months Ended		%	%
	December 31, 2011	2010		Change	December 31, 2011		
License	\$13,552	\$15,460	(12)	\$25,816	\$24,919	4	%
Percentage of total revenue	5	% 6	%	5	% 5	%	

The current quarter decrease is due to higher revenue from our Alogent® products (our suite of deposit and image capture products targeted at large financial institutions) in the three months ended December 31, 2010 compared to this fiscal year, partially offset by a strong quarter for our Silverlake® and Episys® core systems.

The year-to-date increase is due to increases in Silverlake® and Episys® revenues, slightly offset by the Alogent® decrease noted above and small decreases in other complementary products.

While license fees will fluctuate from quarter to quarter, recent trends indicate that our customers are increasingly electing to contract for our products via outsourced delivery rather than a traditional license as our outsourced delivery does not require an up-front capital investment in license fees. We expect this trend to continue in the long term.

Table of Contents

Support and Service Revenue	Three Months Ended			% Change	Six Months Ended			% Change
	December 31,				December 31,			
	2011	2010		2011	2010			
Support and service	\$225,609	\$212,378	6	\$445,879	\$422,988	5	%	
Percentage of total revenue	88	% 88	%	88	% 89	%		
	Qtr over Qtr Change			Year over Year Change				
	\$ Change	% Change		\$ Change	% Change			
In-House Support & Other Services	\$1,861	3	%	\$3,215	2	%		
Electronic Payment Services	7,000	9	%	15,632	10	%		
Outsourcing Services	1,751	4	%	3,259	4	%		
Implementation Services	2,619	16	%	785	2	%		
Total Increase	\$13,231			\$22,891				

There was strong growth in all support and service revenue components for both the current quarter and the year-to-date.

In-house support and other services revenue increased for the three and six month periods because annual maintenance fees have increased as our customers' assets have grown, particularly for Episys®. Revenue from our complementary products has grown as the total number of supported in-house products has grown.

Electronic payment services continues to experience the largest growth. The quarterly and six-month revenue increases are attributable to strong performance across our electronic payment products, particularly from debit/credit card processing services, online bill payment services and ACH processing.

Outsourcing services for banks and credit unions continue to drive revenue growth as customers continue to show a preference for outsourced delivery of our solutions. We expect the trend towards outsourced product delivery to benefit outsourcing services revenue for the foreseeable future. Revenues from outsourcing services are typically earned under multi-year service contracts and therefore provide a long-term stream of recurring revenues.

Implementation services revenue increased for the quarter and year-to-date due to increased implementations of our Episys® core products. In addition, complementary products for both banks and credit unions continue to perform well.

Hardware Revenue	Three Months Ended			% Change	Six Months Ended			% Change
	December 31,				December 31,			
	2011	2010		2011	2010			
Hardware	\$16,697	\$14,797	13	\$32,501	\$29,550	10	%	
Percentage of total revenue	7	% 6	%	6	% 6	%		

Hardware revenue increased for the three and six month periods due to an increase in the number of third party hardware systems and components delivered, mainly in the current quarter, as existing customers upgraded their hardware systems.

Although there will be continuing quarterly fluctuations, we expect there to be an overall decreasing trend in hardware sales due to the change in sales mix towards outsourcing contracts, which typically do not include hardware.

BACKLOG

Our backlog of \$378,778 (\$73,742 in-house and \$305,036 outsourcing) at December 31, 2011 increased 11% from \$342,725 (\$78,695 in-house and \$264,030 outsourcing) at December 31, 2010. The current quarter backlog increased 5% from September 30, 2011, when backlog was \$361,222 (\$73,221 in-house and \$288,001 outsourcing).

Table of Contents

COST OF SALES AND GROSS PROFIT

	Three Months Ended			% Change	Six Months Ended			% Change
	December 31,				December 31,			
	2011	2010			2011	2010		
Cost of License	\$1,115	\$2,079	(46))%	\$2,242	\$3,257	(31))%
Percentage of total revenue	<1%	1		%	<1%	1		%
License Gross Profit	\$12,437	\$13,381	(7))%	\$23,574	\$21,662	9	%

Cost of support and service	\$135,833	\$126,857	7	%	\$266,956	\$252,663	6	%
Percentage of total revenue	53	% 52		%	53	% 53		%
Support and Service Gross Profit	\$89,776	\$85,521	5	%	\$178,923	\$170,325	5	%
Gross Profit Margin	40	% 40		%	40	% 40		%
Cost of hardware	\$11,501	\$10,880	6	%	\$23,162	\$21,685	7	%
Percentage of total revenue	4	% 4		%	5	% 5		%
Hardware Gross Profit	\$5,196	\$3,917	33	%	\$9,339	\$7,865	19	%
Gross Profit Margin	31	% 26		%	29	% 27		%
TOTAL COST OF SALES	\$148,449	\$139,816	6	%	\$292,360	\$277,605	5	%
Percentage of total revenue	58	% 58		%	58	% 58		%
TOTAL GROSS PROFIT	\$107,409	\$102,819	4	%	\$211,836	\$199,852	6	%
Gross Profit Margin	42	% 42		%	42	% 42		%

Cost of license depends greatly on third party reseller agreement software vendor costs. During the quarter and year-to-date, sales of these third party vendor licenses decreased as a percentage of total license revenue leading to lower related costs and increased gross profit margins.

Cost of support and service increased for the three and six months commensurate with the increase in support and services revenue, as evidenced by the consistent gross profit margins.

In general, changes in cost of hardware trend consistently with hardware revenue. For the current quarter and year to date however, increased sales of higher margin products related to the upgrades noted above has driven higher hardware margins in the current quarter and year-to-date.

OPERATING EXPENSES

	Three Months Ended			% Change	Six Months Ended			% Change
	December 31,				December 31,			
	2011	2010			2011	2010		
Selling and marketing	\$18,164	\$16,979	7	%	\$36,918	\$33,341	11	%
Percentage of total revenue	7	% 7		%	7	% 7		%

Selling and marketing expenses for both the quarter and year-to-date have increased mainly due to higher commission expenses. This is in line with increased sales volume of long term service contracts on which commissions are paid as a percentage of total revenue.

	Three Months Ended			% Change	Six Months Ended			% Change
	December 31,				December 31,			
	2011	2010			2011	2010		
Research and development	\$15,075	\$15,837	(5))%	\$30,011	\$31,227	(4))%
Percentage of total revenue	6	% 7		%	6	% 7		%

Research and development expenses decreased for the three and six month periods ended December 31, 2011 primarily due to increased capitalization of costs for ongoing software development projects, which has also driven

Table of Contents

the decreases in the percentage of total revenue for both the quarter and year-to-date.

General and Administrative	Three Months Ended		% Change	Six Months Ended		% Change
	December 31, 2011	2010		December 31, 2011	2010	
General and administrative	\$13,382	\$15,014	(11)%	\$26,322	\$27,520	(4)%
Percentage of total revenue	5 %	6 %		5 %	6 %	

General and administrative expenses for the quarter and year-to-date decreased slightly due mainly to decreased legal expenses compared to the same periods last year.

The percentage of total revenue reduced from 6% of total revenue in the prior fiscal year (both quarter and year-to-date) to 5% in the current fiscal year.

INTEREST INCOME AND EXPENSE	Three Months Ended		% Change	Six Months Ended		% Change
	December 31, 2011	2010		December 31, 2011	2010	
Interest Income	\$106	\$32	231 %	\$234	\$49	378 %
Interest Expense	\$(1,448)	\$(2,487)	(42)%	\$(2,904)	\$(5,379)	(46)%

Interest income for the three and six-month periods ended December 31, 2011 fluctuated due to changes in invested balances and yields on invested balances. Interest expense decreased for the quarter and year-to-date due mainly to payments of \$120,000 made on our revolving credit facility in fiscal 2011, reducing interest costs this year compared to last year.

PROVISION FOR INCOME TAXES

The provision for income taxes was \$20,921 and \$40,916 for the three and six month period ended December 31, 2011 compared with \$16,489 and \$34,618 for the same periods last year. As of the end of the current quarter, the effective rate of income taxes is 35.2% and 35.3% of income before income taxes for the quarter and year-to-date respectively, compared to 31.4% and 33.8% as reported in fiscal 2011. The prior year percentage was lower primarily due to the effect of the Research and Experimentation Credit ("R&E Credit"), which was retroactively extended from January 1, 2010 to December 31, 2011 during the second quarter of fiscal 2011. At this time the credit has not been renewed for the current tax year.

NET INCOME

Net income increased 7% for the three months ended December 31, 2011. For the second quarter of fiscal 2012, it was \$38,525 or \$0.44 per diluted share compared to \$36,045, or \$0.42 per diluted share in the same period last year. Net income also increased for the six month period ended December 31, 2011 to \$74,999 or \$0.86 per diluted share compared to \$67,816 or \$0.79 per diluted share, for the same six month period last year.

BUSINESS SEGMENT DISCUSSION

The Company is a leading provider of integrated computer systems that perform data processing (available for in-house installations or outsourced services) for banks and credit unions. The Company's operations are classified into two business segments: bank systems and services ("Bank") and credit union systems and services ("Credit Union"). The Company evaluates the performance of its segments and allocates resources to them based on various factors, including prospects for growth, return on investment, and return on revenue.

Bank Systems and Services

	Three Months Ended		% Change	Six Months Ended		% Change
	December 31, 2011	2010		December 31, 2011	2010	
Revenue	\$195,749	\$189,022	4 %	\$382,857	\$370,897	3 %
Gross Profit	\$82,731	\$82,118	1 %	\$161,717	\$159,163	2 %
Gross Profit Margin	42 %	43 %		42 %	43 %	

Revenue in the Bank segment increased 4% compared to the equivalent quarter last fiscal year. This was primarily through growth in support and service revenue, driven mainly by a 10% increase in electronic payment transaction

Table of Contents

processing services revenue.

Year-to-date revenue increased for the six month period due mainly to a 4% increase in support and service revenue. This increase was driven by an 11% increase in electronic payment services revenues from transaction processing, partially offset by a decrease in implementation revenue compared to the same period a year ago. Gross profit margins have remained fairly consistent.

Credit Union Systems and Services

	Three Months Ended		%	Six Months Ended		%	
	December 31, 2011		Change	December 31, 2011		Change	
	2011	2010		2011	2010		
Revenue	\$60,109	\$53,613	12 %	\$121,339	\$106,560	14 %	
Gross Profit	\$24,678	\$20,701	19 %	\$50,119	\$40,689	23 %	
Gross Profit Margin	41	% 39	%	41	% 38	%	

Revenue in the Credit Union segment increased from the same quarter last year, particularly related to core system implementations and revenues from electronic payment services. The implementation revenue is related to the continued strong performance of our Episys® product. Electronic payment services increased due to the continuing growth of our online bill payment processing and debit/credit card processing services.

Year-to-date revenue in the Credit Union segment has increased in all three of our revenue areas. Support and service revenues grew through increases in all components, particularly electronic payment services due to the continuing growth of our transaction processing and debit/credit card processing services and implementations due to increased Episys® implementations in the year-to-date. Additionally, license revenue had the most significant percentage increase in the six month period due primarily to increased revenues from the Episys® core software product.

Gross profit margins for the Credit Union segment for the three and six month periods have increased mainly due to the increase in license revenue noted above with associated gross profit margin of 95%.

FINANCIAL CONDITION

Liquidity

The Company's cash and cash equivalents was \$95,202 at December 31, 2011, increasing from \$63,125 at June 30, 2011, and from \$46,871 at December 31, 2010. The increase from June 30, 2011 is primarily due to continued receipts from our annual maintenance billings. The cash balance at December 31, 2010 was lower than the balance at December 31, 2011 primarily due to repayment of the \$100 million bullet loan in the first quarter of last fiscal year.

The following table summarizes net cash from operating activities in the statement of cash flows:

	Six Months Ended	
	December 31,	
	2011	2010
Net income	\$74,999	\$67,816
Non-cash expenses	54,155	48,506
Change in receivables	80,910	81,623
Change in deferred revenue	(103,784) (85,601
Change in other assets and liabilities	(10,019) (26,515
Net cash provided by operating activities	\$96,261	\$85,829

Cash provided by operating activities for the fiscal year to date increased 12% compared to last year. Cash from operations is primarily used to repay debt, pay dividends and fund acquisitions and other capital expenditures. The increase compared to last year reflects increased earnings driven by continued strong revenue growth, ongoing cost control and decreased interests costs.

Cash used in investing activities for the current year totaled \$32,637. The largest use of cash included capital expenditures on facilities and equipment of \$18,913, including ongoing build-out of our Allen, TX facility, computer equipment purchases and related purchased software. Other major uses of cash included \$15,695 for the development of software and \$670 for the acquisition of customer contracts. This expenditure has been partially offset by \$2,641

Table of Contents

proceeds from an aircraft sale. In the first six months of fiscal 2011, cash used in investing activities totaled \$27,585 which included capital expenditures for facilities and equipment of \$15,452, which included computer equipment and final costs relating to the construction of our new Branson, Missouri and Springfield, Missouri facilities, with other major uses of cash being \$12,133 for the development of software.

Financing activities used cash of \$31,547 during the current year. There were cash outflows to repay long and short term borrowings on our credit facilities of \$18,047 and funded dividends paid to stockholders of \$18,167. Cash used was partially offset by \$4,667 net proceeds from the issuance of stock and tax related to stock-based compensation. Net cash used by financing activities in the first six months of last year, was \$136,891 and includes \$135,293 repayments on our lines of credit and \$16,266 in dividend payments to shareholders, partially offset by \$14,269 of net proceeds from the issuance of stock and tax related to stock-based compensation.

While the current condition of the U.S. financial markets continues to impact our customers, we have not experienced any significant issues with our current collection efforts. Furthermore, we believe that any future impact to our liquidity would be minimized by our access to available lines of credit.

Capital Requirements and Resources

The Company generally uses existing resources and funds generated from operations to meet its capital requirements. Capital expenditures totaling \$18,913 and \$15,452 for the six-month periods ended December 31, 2011 and 2010, respectively, were made primarily for additional equipment and the improvement of existing facilities. These additions were funded from cash generated by operations. Total consolidated capital expenditures for the Company for fiscal year 2012 are not expected to exceed \$40,000, which will be funded from cash generated by operations. The Board of Directors has authorized the Company to repurchase shares of its common stock. Under this authorization, the Company may finance its share repurchases with available cash reserves or short-term borrowings on its existing credit facilities. The share repurchase program does not include specific price targets or timetables and may be suspended at any time. At June 30, 2011 and December 31, 2011, there were 14,407 shares in treasury stock and the Company had the remaining authority to repurchase up to 5,584 additional shares. The total cost of treasury shares at December 31, 2011 is \$309,585. There were no repurchases of treasury stock during the three and six months ended December 31, 2011.

The Company has entered into a bank credit facility agreement that includes a revolving loan and a term loan.

Revolving credit facility

The long term revolving loan allows for borrowings of up to \$150,000, which may be increased by the Company at any time until maturity to \$250,000. The revolving loan terminates June 4, 2015. At December 31, 2011, there was no outstanding revolving loan balance.

Term loan

The term loan had an original principal balance of \$150,000, with quarterly principal payments of \$5,625 that began on September 30, 2011. The remaining outstanding balance on June 4, 2015 is due and payable on that date. At December 31, 2011, the outstanding balance of \$138,750 was bearing interest at a rate of 2.58%, and \$22,500 will be maturing within the next twelve months.

Each of the above loans bear interest at a variable rate equal to (a) a rate based on LIBOR or (b) an alternate base rate (the greater of (a) the Federal Funds Rate plus 0.5%, (b) the Prime Rate or (c) LIBOR plus 1.0%), plus an applicable percentage in each case determined by the Company's leverage ratio. The loans are secured by pledges of capital stock of certain subsidiaries of the Company. The loans are also guaranteed by certain subsidiaries of the Company. The credit facility is subject to various financial covenants that require the Company to maintain certain financial ratios as defined in the agreement. As of December 31, 2011, the Company was in compliance with all such covenants.

Capital leases

The Company has entered into various capital lease obligations for the use of certain computer equipment. Long term capital lease obligations were entered into of which \$6,113 remains outstanding at December 31, 2011 and \$4,416 will be maturing within the next twelve months. The Company also has short term capital lease obligations totaling \$1,506 at December 31, 2011.

Other lines of credit

The Company renewed an unsecured bank credit line on April 29, 2011 which provides for funding of up to \$5,000 and bears interest at the prime rate less 1% (2.25% at December 31, 2011). The credit line was renewed through April 29, 2012. At December 31, 2011, no amount was outstanding.

The Company renewed a bank credit line on March 7, 2011 which provides for funding of up to \$8,000 and bears

Table of Contents

interest at the Federal Reserve Board's prime rate (3.25% at December 31, 2011). The credit line expires March 7, 2012 and is secured by \$1,000 of investments. At December 31, 2011, no amount was outstanding.

Critical Accounting Policies

The Company regularly reviews its selection and application of significant accounting policies and related financial disclosures. The application of these accounting policies requires that management make estimates and judgments. The estimates that affect the application of our most critical accounting policies and require our most significant judgments are outlined in Management's Discussion and Analysis of Financial Condition and Results of Operations – "Critical Accounting Policies" – contained in our annual report on Form 10-K for the year ended June 30, 2011.

Forward Looking Statements

The Management's Discussion and Analysis of Results of Operations and Financial Condition and other portions of this report contain forward-looking statements within the meaning of federal securities laws. Actual results are subject to risks and uncertainties, including both those specific to the Company and those specific to the industry, which could cause results to differ materially from those contemplated. The risks and uncertainties include, but are not limited to, the matters detailed at Risk Factors in its Annual Report on Form 10-K for the fiscal year ended June 30, 2011. Undue reliance should not be placed on the forward-looking statements. The Company does not undertake any obligation to publicly update any forward-looking statements.

CONCLUSION

The Company's results of operations and its financial position continue to be solid, with increased gross profit and net income for the three and six month period ended December 31, 2011, compared to the same periods a year ago. We continue to be cautiously optimistic, as we maintain significant levels of recurring revenue and continue to see increases in our backlog of contracts for products and services yet to be delivered. Our overall results reflect the continuing attitude of cooperation and commitment by each employee, management's ongoing cost control efforts and our commitment to continue delivering top quality products and superior services to all of our customers in the markets we serve. We believe that we are well positioned to address current and future opportunities which will arise to extend our customer base and produce returns for our stockholders.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk refers to the risk that a change in the level of one or more market prices, interest rates, indices, volatilities, correlations or other market factors such as liquidity, will result in losses for a certain financial instrument or group of financial instruments. We are currently exposed to credit risk on credit extended to customers and interest risk on outstanding debt. We do not currently use any derivative financial instruments. We actively monitor these risks through a variety of controlled procedures involving senior management.

Based on the controls in place and the credit worthiness of the customer base, we believe the credit risk associated with the extension of credit to our customers will not have a material adverse effect on our consolidated financial position, results of operations or cash flows.

Based on our outstanding debt with variable interest rates as of December 31, 2011, a 1% increase in our borrowing rate would increase annual interest expense in fiscal 2012 by less than \$1,388.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this Quarterly Report on Form 10-Q, an evaluation was carried out under the supervision and with the participation of our management, including our Company's Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon that evaluation, the CEO and CFO concluded that our disclosure controls and procedures are effective to ensure that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms. For this purpose, disclosure controls and procedures include controls and procedures designed to ensure that information that is required to be disclosed under the Exchange Act is accumulated and communicated to the Company's management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

There was no change in our internal control over financial reporting that occurred during the quarter ended December 31, 2011 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
