EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q for the period ended June 30, 2014 of Brandywine Realty Trust (the “Parent Company”) and Brandywine Operating Partnership L.P. (the “Operating Partnership”). The Parent Company is a Maryland real estate investment trust, or REIT, that owns its assets and conducts its operations through the Operating Partnership, a Delaware limited partnership, and subsidiaries of the Operating Partnership. The Parent Company, the Operating Partnership and their consolidated subsidiaries are collectively referred to in this report as the “Company”. In addition, as used in this report, terms such as “we”, “us”, and “our” may refer to the Company, the Parent Company, or the Operating Partnership.

The Parent Company is the sole general partner of the Operating Partnership and, as of June 30, 2014, owned a 98.9% interest in the Operating Partnership. The remaining 1.1% interest consists of common units of limited partnership interest issued by the Operating Partnership to third parties in exchange for contributions of properties to the Operating Partnership. As the sole general partner of the Operating Partnership, the Parent Company has full and complete authority over the Operating Partnership’s day-to-day operations and management.

Management operates the Parent Company and the Operating Partnership as one enterprise. The management of the Parent Company consists of the same members as the management of the Operating Partnership.

As general partner with control of the Operating Partnership, the Parent Company consolidates the Operating Partnership for financial reporting purposes, and the Parent Company does not have significant assets other than its investment in the Operating Partnership. Therefore, the assets and liabilities of the Parent Company and the Operating Partnership are the same on their respective financial statements. The separate discussions of the Parent Company and the Operating Partnership in this report should be read in conjunction with each other to understand the results of the Company’s operations on a consolidated basis and how management operates the Company.

The Company believes that combining the quarterly reports on Form 10-Q of the Parent Company and the Operating Partnership into a single report will result in the following benefits:

- facilitate a better understanding by the investors of the Parent Company and the Operating Partnership by enabling them to view the business as a whole in the same manner as management views and operates the business;
- remove duplicative disclosures and provide a more straightforward presentation in light of the fact that a substantial portion of the disclosure applies to both the Parent Company and the Operating Partnership; and
- create time and cost efficiencies through the preparation of one combined report instead of two separate reports.

There are few differences between the Parent Company and the Operating Partnership, which are reflected in the footnote disclosures in this report. The Company believes it is important to understand the differences between the Parent Company and the Operating Partnership in the context of how these entities operate as an interrelated consolidated company. The Parent Company is a REIT, whose only material asset is its ownership of partnership interests of the Operating Partnership. As a result, the Parent Company does not conduct business itself, other than acting as the sole general partner of the Operating Partnership, issuing equity from time to time and guaranteeing the debt obligations of the Operating Partnership. The Operating Partnership holds substantially all the assets of the Company and directly or indirectly holds the ownership interests in the Company’s Real Estate Ventures. The Operating Partnership conducts the operations of the Company’s business and is structured as a partnership with no publicly traded equity. Except for net proceeds from equity issuances by the Parent Company, which are contributed to the Operating Partnership in exchange for partnership units, the Operating Partnership generates the capital required by the Company’s business through the Operating Partnership’s operations, by the Operating Partnership’s incurrence of indebtedness (directly and through subsidiaries) and through the issuance of partnership units of the Operating Partnership or equity interests in subsidiaries of the Operating Partnership.

The equity and non-controlling interests in the Parent Company and the Operating Partnership’s equity are the main areas of difference between the consolidated financial statements of the Parent Company and the Operating Partnership. The common units of limited partnership interest in the Operating Partnership are accounted for as partners’ equity in the Operating Partnership’s financial statements while the common units of limited partnership interests held by parties other than the Parent Company are presented as non-controlling interests in the Parent Company’s financial statements. The differences between the Parent Company and the Operating Partnership’s equity relate to the differences in the equity issued at the Parent Company and Operating Partnership levels.

To help investors understand the significant differences between the Parent Company and the Operating Partnership, this report presents the following as separate notes or sections for each of the Parent Company and the Operating Partnership:

Consolidated Financial Statements; and

Parent Company's and Operating Partnership's Equity.

This report also includes separate Item 4. (Controls and Procedures) disclosures and separate Exhibit 31 and 32 certifications for each of the Parent Company and the Operating Partnership in order to establish that the Chief Executive Officer and the Chief Financial Officer of each entity have made the requisite certifications and that the Parent Company and Operating Partnership are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934, as amended, and 18 U.S.C. § 1350.

In order to highlight the differences between the Parent Company and the Operating Partnership, the separate sections in this report for the Parent Company and the Operating Partnership specifically refer to the Parent Company and the Operating Partnership. In the sections that combine disclosures of the Parent Company and the Operating Partnership, this report refers to such disclosures as those of the Company. Although the Operating Partnership is generally the entity that directly or indirectly enters into contracts and Real Estate Ventures and holds assets and debt, reference to the Company is appropriate because the business is one enterprise and the Parent Company operates the business through the Operating Partnership.

BRANDYWINE REALTY TRUST AND BRANDYWINE OPERATING PARTNERSHIP, L.P.
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2014

1. ORGANIZATION OF THE PARENT COMPANY AND THE OPERATING PARTNERSHIP

The Parent Company is a self-administered and self-managed real estate investment trust ("REIT") that provides leasing, property management, development, redevelopment, acquisition and other tenant-related services for a portfolio of office, industrial, retail and mixed-use properties. The Parent Company owns its assets and conducts its operations through the Operating Partnership and subsidiaries of the Operating Partnership. The Parent Company is the sole general partner of the Operating Partnership and, as of June 30, 2014, owned a 98.9% interest in the Operating Partnership. The Parent Company's common shares of beneficial interest are publicly traded on the New York Stock Exchange under the ticker symbol "BDN".

As of June 30, 2014, the Company owned 205 properties, consisting of 175 office properties, 20 industrial facilities, five mixed-use properties, one retail property (201 core properties), two development properties, one redevelopment property and one re-entitlement property (collectively, the "Properties") containing an aggregate of approximately 25.4 million net rentable square feet. In addition, as of June 30, 2014, the Company owned economic interests in 17 unconsolidated real estate ventures that own properties containing an aggregate of approximately 5.9 million net rentable square feet (collectively, the "Real Estate Ventures"). As of June 30, 2014, the Company also owned 419 acres of undeveloped land, and held options to purchase approximately 50 additional acres of undeveloped land. As of June 30, 2014, these land parcels could support, under current zoning and entitlements, approximately 5.9 million square feet of development. The Properties and the properties owned by the Real Estate Ventures are located in or near Philadelphia, Pennsylvania; Metropolitan Washington, D.C.; Southern New Jersey; Richmond, Virginia; Wilmington, Delaware; Austin, Texas and Oakland, Concord and Carlsbad, California.

The Company conducts its third-party real estate management services business primarily through wholly-owned management company subsidiaries. As of June 30, 2014, the management company subsidiaries were managing properties containing an aggregate of approximately 33.5 million net rentable square feet, of which approximately 25.4 million net rentable square feet related to Properties owned by the Company and approximately 8.1 million net rentable square feet related to properties owned by third parties and Real Estate Ventures.

Unless otherwise indicated, all references in this Form 10-Q to square feet represent net rentable area.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the U.S. Securities and Exchange Commission ("SEC") for interim financial statements. Certain information and footnote disclosures normally included in the financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, all adjustments (consisting solely of normal recurring matters) for a fair statement of the financial position of the Company as of June 30, 2014, the results of its operations for the three and six-month periods ended June 30, 2014 and 2013 and its cash flows for the six-month periods ended June 30, 2014 and 2013 have been included. The results of operations for such interim periods are not necessarily indicative of the results for a full year. These consolidated financial statements should be read in conjunction with the Parent Company's and the Operating Partnership's consolidated financial statements and footnotes included in their combined 2013 Annual Report on Form 10-K filed with the SEC on February 25, 2014.

Reclassifications

Certain amounts have been reclassified in prior years to conform to the current year presentation, including the reclassification of notes receivable to other assets within the balance sheets and the reclassification of changes in escrow balances from operating cash flows to investing cash flows in the statements of cash flows. All other reclassifications are related to the treatment of sold properties as discontinued operations on the statement of operations for all periods presented. See Recent Accounting Pronouncements below for revisions to the accounting guidance for discontinued operations.

Recent Accounting Pronouncements

In May 2014 the Financial Accounting Standards Board (FASB) issued guidance requiring revenue to be recognized in an amount that reflects the consideration expected to be received in exchange for those goods and services. The guidance requires the disclosure of sufficient quantitative and qualitative information for financial statement users to understand the nature, amount, timing and uncertainty of revenue and associated cash flows arising from contracts with customers. The guidance is effective for

annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period, with early adoption precluded. The Company has not yet determined the impact, if any, that the adoption of this guidance will have on its consolidated financial position or results of operations.

In April 2014 the FASB issued revised guidance on discontinued operations and disclosures of disposals of components of an entity. The update revises the definition to include only disposals involving a strategic shift that has a major effect on the entity's operations and financial results when the disposal asset or group meets the existing criterion for treatment as held for sale. Examples of a strategic shift include the withdrawal from a major geographic area, line of business, equity method investment or any other major parts of a business, as applicable. A component of the entity comprises operations and cash flows that can be clearly distinguished, operationally and for financial reporting purposes, from the rest of the entity. In addition, the revised standard no longer precludes presentation as a discontinued operation if there are operations and cash flows of the component that have not been eliminated from the reporting entity's ongoing operations, or if there is significant continuing involvement with a component after its disposal.

The amendments require additional disclosures about discontinued operations including; the major classes of net income or loss where net income is otherwise presented, the operating and investing cash flows of discontinued operations where net income is otherwise presented, depreciation, amortization, capital expenditures and significant operating and investing non-cash items of the discontinued operation for the periods in which net income is otherwise presented and, if there is a non-controlling interest, the related allocation to the parent company.

Application is prospective, and required for periods beginning on or after December 15, 2014. This update should not be applied to assets classified as held for sale before the effective date even if the component of an entity is disposed of after the effective date. Early adoption is permitted for disposals or assets held for sale that have not been reported in the financial statements previously issued or available for issuance. The Company has elected to early adopt this standard as of January 1, 2014. All properties sold or determined held for sale prior to January 1, 2014 are classified as discontinued operations for all periods presented.

3. REAL ESTATE INVESTMENTS

As of June 30, 2014 and December 31, 2013, the gross carrying value of the Company's Properties was as follows (in thousands):

	June 30, 2014	December 31, 2013
Land	\$688,775	\$680,513
Building and improvements	3,479,850	3,504,060
Tenant improvements	521,267	484,716
	\$4,689,892	\$4,669,289

Acquisitions

As of June 30, 2014, a \$0.5 million gain on remeasurement of the Company's investment in partnerships with Parkway Properties, Inc. was recorded. On December 19, 2013, the Company increased its equity ownership interest from 25% to 99% in each of the two partnerships that own One and Two Commerce Square, two 41-story trophy-class office towers in Philadelphia, Pennsylvania. As of December 31, 2013, the Company had recorded a \$1.6 million net receivable balance from its former partner which represented the former partner's portion of the net current assets (liabilities) pursuant to the terms of the Commerce Square Redemption Agreement. Pursuant to the Redemption Agreement, the Company and Parkway used an agreed upon settlement period to finalize the purchase accounting related to facts and circumstances that existed at the date of the acquisition but were not fully known at such time. During the quarter ended June 30, 2014, \$2.1 million of consideration was received from the former partner in full settlement of the aforementioned provision and a measurement period adjustment was made to adjust the fair value of the Company's previously held equity investment, resulting in a gain on remeasurement of the Company's investment in the partnerships of \$0.5 million. For additional information related to this transaction, see the audited financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013. On February 19, 2014, the Company acquired 54.1 acres of undeveloped land known as Encino Trace in Austin, Texas for \$14.0 million. The land is fully entitled with a site plan and building permits in place allowing for the

development of two four-story office buildings containing approximately 320,000 net rentable square feet. The purchase price included an in-place lease, which was placed into construction in progress. As such, the Company has treated this transaction as a business combination and allocated the purchase price to the tangible and intangible assets. The Company capitalized \$8.4 million in construction in progress, recorded \$4.6 million in land inventory and recorded a deposit for a portion of the future development fee held in escrow for \$1.0 million. The net assets were purchased using available corporate funds.

As of June 30, 2014, both of the office buildings at Encino Trace are currently in development with \$18.7 million, inclusive of the \$14.0 million acquisition cost, funded through June 30, 2014. During the second quarter of 2014, the Company reclassified the \$4.6 million remaining in land inventory to construction in progress in connection with commencing development of the second building. Additional project costs will be funded over the remaining construction period, which is scheduled to be completed during the second quarter of 2015.

Dispositions

On April 16, 2014, the Company sold a 5.3 acre parcel of land located in Dallas, Texas for a sales price of \$1.6 million resulting in a nominal gain on sale after closing and other transaction related costs. The land parcel was undeveloped as of the date of sale.

On April 7, 2014, the Company received \$0.9 million from an escrow account that was established in connection with the sale of eight office properties containing 800,546 square feet in Lawrenceville, New Jersey, known as "Princeton Pike Corporate Center." The sale of Princeton Pike Corporate Center was completed on February 25, 2013 for an aggregate sales price of \$121.0 million and resulted in a \$5.3 million gain on sale after closing and other transaction related costs. The escrow account was funded with \$2.0 million at closing and was established for use by the buyer to fund certain tenant improvement projects with any unused portion to be returned to the Company. The unused amount received from the escrow account was recognized as a gain on sale during the period ended June 30, 2014. The aforementioned gain was recognized within discontinued operations which is consistent with the accounting classification of the assets that were disposed of on February 25, 2013.

On April 3, 2014, the Company contributed two 3-story, Class A office buildings, containing an aggregate of approximately 192,396 net rentable square feet known as Four Points Centre in Austin, Texas to an existing real estate venture (the "Austin Venture") that the Company formed in 2013 with G&I VII Austin Office LLC, an investment vehicle advised by DRA Advisors LLC ("DRA"). The Company contributed the properties to the Austin Venture at an agreed upon value of \$41.5 million. In conjunction with the contribution: (i) the Austin Venture obtained a \$29.0 million mortgage loan; (ii) the DRA member contributed \$5.9 million in net cash to the capital of the Austin Venture; and (iii) the Austin Venture distributed \$34.4 million to the Company and credited the Company with a \$5.9 million capital contribution to the Austin Venture. The Company incurred a \$0.2 million loss on the contribution, driven primarily by closing costs. The disposal of Four Points Centre does not represent a strategic shift that has a major effect on the Company's operations and financial results. Accordingly, the property remains classified within continuing operations.

On March 27, 2014, the Company sold a 16.8 acre undeveloped parcel of land located in Austin, Texas for a sales price of \$3.5 million resulting in a \$1.2 million gain on sale of undepreciated real estate after closing and other transaction related costs. The land parcel was undeveloped as of the date of sale.

4. INVESTMENT IN UNCONSOLIDATED VENTURES

As of June 30, 2014, the Company held ownership interests in 17 unconsolidated Real Estate Ventures, of which \$186.0 million is included in assets and \$1.2 million is included in other liabilities relating to the negative investment balance of one real estate venture. The Company formed or acquired interests in these ventures with unaffiliated third parties to develop or manage office properties or to acquire land in anticipation of possible development of office or residential properties. As of June 30, 2014, 11 of the Real Estate Ventures owned 56 office buildings that contain an aggregate of approximately 5.9 million net rentable square feet; two Real Estate Ventures owned 3.8 acres of undeveloped parcels of land; three Real Estate Venture owned 22.5-acres of land under active development and one Real Estate Venture owned a hotel property that contains 137 rooms in Conshohocken, PA.

The Company accounts for its unconsolidated interests in its Real Estate Ventures using the equity method. The Company's unconsolidated interests range from 20% to 65%, subject to specified priority allocations of distributable cash in certain of the Real Estate Ventures.

The amounts reflected in the following tables (except for the Company's share of equity and income) are based on the historical financial information of the individual Real Estate Ventures. The Company does not record operating losses of the Real Estate Ventures in excess of its investment balance unless the Company is liable for the obligations of the Real Estate Venture or is otherwise committed to provide financial support to the Real Estate Venture.

Edgar Filing: BRANDYWINE REALTY TRUST - Form 10-Q

The following is a summary of the financial position of the Real Estate Ventures as of June 30, 2014 and December 31, 2013 (in thousands):

	June 30, 2014	December 31, 2013
Net property	\$1,081,064	\$965,475
Other assets	153,348	164,152
Other liabilities	68,031	49,442

Equity	373,462	380,325
Company's share of equity (Company's basis) (a)	186,042	(b) 180,512

(a) This amount includes the effect of the basis difference between the Company's historical cost basis and the basis recorded at the Real Estate Venture level, which is typically amortized over the life of the related assets and liabilities. Basis differentials occur from the impairment of investments, purchases of third party interests in existing Real Estate Ventures and upon the transfer of assets that were previously owned by the Company into a Real Estate Venture. In addition, certain acquisition, transaction and other costs may not be reflected in the net assets at the Real Estate Venture level.

(b) Does not include the negative investment balance of one real estate venture totaling \$1.2 million as of June 30, 2014, which is included in other liabilities.

The Company held interests in 17 Real Estate Ventures containing an aggregate of approximately 5.9 million net rentable square feet as of the three and six-month periods ended June 30, 2014 and 17 Real Estate Ventures containing an aggregate of approximately 6.2 million net rentable square feet as of the three and six-month periods ended June 30, 2013. The following is a summary of results of operations of the Real Estate Ventures in which the Company had interests during these periods (in thousands):

Austin Venture - Four Points Centre

On April 3, 2014, the Company contributed two 3-story, Class A office buildings, containing an aggregate of approximately 192,396 net rentable square feet, known as Four Points Centre in Austin, Texas to the Austin Venture. See Note 3 for further information on the contribution.

Guarantees

As of June 30, 2014, the Company had provided guarantees on behalf of certain real estate ventures, consisting of (i) a \$24.7 million payment guaranty on the construction loan for the project being undertaken by evo at Cira; (ii) a \$3.2 million payment guarantee on the construction loan for the development project being undertaken by TB-BDN Plymouth Apartments; and (iii) a \$0.5 million payment guarantee on a loan provided to PJP VII. In addition, during construction undertaken by Real Estate Ventures, the Company has provided and expects to continue to provide cost overrun and completion guarantees, with rights of contribution among partners in the real estate venture, as well as customary environmental indemnities and guarantees of customary exceptions to nonrecourse provisions in loan agreements. For additional information regarding these real estate ventures, see "Investments in Unconsolidated Ventures" in notes to the audited financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013.

(a) These loans were assumed upon acquisition of the related properties. The interest rate reflects the market rate at the time of acquisition.

(b) Represents the full debt amount secured by a property owned by a consolidated real estate venture in which the Company holds a 50% interest.

(c) London Interbank Offered Rate ("LIBOR").

During the six-month periods ended June 30, 2014 and 2013, the Company's weighted-average effective interest rate on its mortgage notes payable was 5.73% and 6.64%, respectively.

The Parent Company unconditionally guarantees the unsecured debt obligations of the Operating Partnership (or is a co-borrower with the Operating Partnership) but does not by itself incur unsecured indebtedness. The Parent Company has no material assets other than its investment in the Operating Partnership.

The Company utilizes its unsecured revolving credit facility (the "Credit Facility") for general business purposes, including funding costs of acquisitions, developments and redevelopments and repayment of other debt. The scheduled maturity date of the Credit Facility in place at June 30, 2014 is February 1, 2016. The per annum variable interest rate on balances outstanding under the Credit Facility is LIBOR plus 1.50%. The interest rate and facility fee are subject to adjustment upon a change in the Company's

unsecured debt ratings. As of June 30, 2014, the Company did not have any outstanding borrowings on its Credit Facility, with \$1.5 million in letters of credit outstanding, leaving \$598.5 million of unused availability under the Credit Facility. During each of the three and six-month periods ended June 30, 2014 and 2013, there were no weighted-average interest rates associated with the Credit Facility because there were no borrowings outstanding under the Credit Facility during either period.

The Company has the option to increase the amounts available to be advanced under the Credit Facility, the \$150.0 million three-year term loan, and the \$100.0 million four-year term loan by an aggregate of \$200.0 million, subject to customary conditions and limitations, by obtaining additional commitments from the current lenders and other financial institutions. The Company also has the option to extend by one year the maturity dates of each of the Credit Facility, the \$150.0 million three-year term loan and the \$100.0 million four-year term loan subject to payment of an extension fee and other customary conditions and limitations. The Company may repay the \$150.0 million three-year term loan and the \$100.0 million four-year term loan at any time without penalty. The \$200.0 million seven-year term loan is subject to a prepayment penalty of 1.00% through February 1, 2015 with no penalty thereafter.

The spread to LIBOR for LIBOR-based loans under the Credit Facility and term loans depends on the Company's unsecured senior debt credit rating. Based on the Company's current credit rating, the spread for such loans will be 150 basis points under the Credit Facility, 175 basis points under both the \$150.0 million three-year term loan and the \$100.0 million four-year term loan and 190 basis points under the \$200.0 million seven-year term loan. At the Company's option, advances under the Credit Facility and term loans may also bear interest at a per annum floating rate equal to the higher of the prime rate or the federal funds rate plus 0.50% per annum. The Credit Facility contains a competitive bid option that allows banks that are part of the lender consortium to bid on loans to the Company at a reduced rate.

The Company executed hedging transactions that fix the rate on the \$200.0 million seven-year term loan at a 3.623% average rate for its full term, and the rate on the \$150.0 million three-year term loan at a 2.596% average rate for periods of three to four years. All hedges commenced on February 1, 2012 and the rates are inclusive of the LIBOR spread based on the Company's current investment grade rating. See Note 9 for details of the interest rate swaps entered into as of June 30, 2014.

The Credit Facility and term loans contain financial and operating covenants and restrictions. The Company was in compliance with all such restrictions and financial covenants as of June 30, 2014. In the event of a default related to the financing and operating covenants, the Company's dividend distributions are limited to the greater of 95% of funds from operations or the minimum amount necessary for the Company to maintain its status as a REIT.

As of June 30, 2014, the Company's aggregate scheduled principal payments on debt obligations, excluding amortization of discounts and premiums, were as follows (in thousands):

2014 (six months remaining)	\$ 225,570	
2015	409,655

8. FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company determined the fair values disclosed below using available market information and discounted cash flow analyses as of June 30, 2014 and December 31, 2013, respectively. The discount rate used in calculating fair value is the sum of the current risk free rate and the risk premium on the date of measurement of the instruments or obligations. Considerable judgment is necessary to interpret market data and to develop the related estimates of fair value. Accordingly, the estimates presented are not necessarily indicative of the amounts that the Company could realize upon disposition. The use of different estimates and valuation methodologies may have a material effect on the fair value amounts shown. The Company believes that the carrying amounts reflected in the consolidated balance sheets at June 30, 2014 and December 31, 2013 approximate the fair values for cash and cash equivalents, accounts receivable, other assets, accounts payable and accrued expenses.

The following are financial instruments for which the Company's estimates of fair value differ from the carrying amounts (in thousands):

	June 30, 2014		December 31, 2013	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Unsecured notes payable	\$1,397,162	\$1,478,767	\$1,396,620	\$1,471,041
Variable rate debt	\$528,610	\$504,044	\$528,610	\$526,693
Mortgage notes payable	\$662,478	\$697,731	\$670,151	\$715,244
Notes receivable	\$4,226	\$5,088	\$7,026	\$7,759

The fair value of the Company's unsecured notes payable are categorized as Level 2 (as provided by the accounting standard for Fair Value Measurements and Disclosures), as these instruments are valued using quoted market prices as of June 30, 2014 and December 31, 2013.

The fair value of the variable rate debt was estimated using a discounted cash flow analysis valuation on the borrowing rates currently available to the Company for loans with similar terms and maturities, as applicable. The fair value of the mortgage debt was determined by discounting the future contractual interest and principal payments by a blended market rate for fully secured loans with similar terms and maturities. The weighted average discount rate for the combined variable rate debt and mortgage loans as of June 30, 2014 was 3.467%. The fair value of the notes receivable was estimated using the expected cash flows of the notes receivable, and discounting those cash flows using the market rate of interest for mortgage notes with a comparable level of risk. The Company used a discount rate of 14.82% for the notes receivable as of June 30, 2014. The Company applies its knowledge of the debt markets to determine appropriate discount rates to utilize in the discounted cash flow models. As these inputs are unobservable, the Company has categorized the valuation of mortgage notes payable, variable rate debt and notes receivable as Level 3 (as provided by the accounting standard for Fair Value Measurements and Disclosures).

Disclosure about the fair value of financial instruments is based upon pertinent information available to management as of June 30, 2014 and December 31, 2013. Although management is not aware of any factors that would significantly affect the fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since June 30, 2014, and current estimates of fair value may differ from the amounts presented herein.

9. FAIR VALUE OF DERIVATIVE FINANCIAL INSTRUMENTS

The following table summarizes the terms and fair values of the Company's derivative financial instruments as of June 30, 2014 and December 31, 2013. The notional amounts provide an indication of the extent of the Company's involvement in these instruments at that time, but do not represent exposure to credit, interest rate or market risks (amounts presented in thousands and included in other liabilities on the Company's consolidated balance sheets).

			\$428,610	\$428,610				\$(4,685)	\$(1,421)

(a) Hedging unsecured variable rate debt.

The Company measures its derivative instruments at fair value and records them in the balance sheet as either an asset or liability. As of June 30, 2014, all swaps are included in other liabilities on the Company's consolidated balance sheet.

Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself and its counterparties. The Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives. As a result, the Company has determined that its derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy.

10. DISCONTINUED OPERATIONS

The Company had no property dispositions classified as discontinued operations during the three and six months ended June 30, 2014. There was nominal income before gain on sales recognized during 2014 relating to properties classified into discontinued operations in prior periods and a \$0.9 million gain relating to the post closing activity for the sale of the Princeton Pike Corporate Center completed in the first quarter of 2013. See Note 3 for further information.

For the three and six-month periods ended June 30, 2013, income from discontinued operations relates to the 14 properties sold by the Company from January 1, 2013 through December 31, 2013. The following table summarizes the revenue and expense information for properties classified as discontinued operations for the three and six-month periods ended June 30, 2013 (in thousands):

11. LIMITED PARTNERS' NON-CONTROLLING INTERESTS IN THE PARENT COMPANY

Non-controlling interests in the Parent Company's financial statements relate to redeemable common limited partnership interests in the Operating Partnership held by parties other than the Parent Company and properties which are consolidated but not wholly owned.

Operating Partnership

The aggregate book value of the non-controlling interests associated with the redeemable common limited partnership interests in the accompanying consolidated balance sheet of the Parent Company as of June 30, 2014 and December 31, 2013 was \$19.7 million and \$20.3 million, respectively. Under the applicable accounting guidance, the redemption value of limited partnership units are carried at, on a limited partner basis, the greater of historical cost adjusted for the allocation of income and distributions or fair value. The Parent Company believes that the aggregate settlement value of these interests (based on the number of units outstanding and the closing price of the common shares on the balance sheet date) was approximately \$27.5 million and \$24.8 million, respectively, as of June 30, 2014 and December 31, 2013.

Redeemable common limited partnership units totaling 1,763,739 as of June 30, 2014 and 2013, respectively, were excluded from the diluted earnings per share computations because they are not dilutive.

Unvested restricted shares are considered participating securities which require the use of the two-class method for the computation of basic and diluted earnings per share. For the three and six-month periods ended June 30, 2014 and 2013, earnings representing nonforfeitable dividends as noted in the table above were allocated to the unvested restricted shares issued to the Company's executives and other employees under the Company's shareholder-approved long-term incentive plan.

Common and Preferred Shares

On May 29, 2014, the Parent Company declared a distribution of \$0.15 per common share, totaling \$23.6 million, which was paid on July 21, 2014 to shareholders of record as of July 7, 2014. In addition, the Parent Company declared distributions on its Series E Preferred Shares to holders of record as of June 30, 2014. These shares are entitled to a preferential return of 6.90% per annum on the \$25.00 per share liquidation preference. Distributions paid on July 15, 2014 to holders of Series E Preferred Shares totaled \$1.7 million.

On May 15, 2014, the Company amended its Amended and Restated Declaration of Trust authorizing an increase in the Company's total number of shares of beneficial interest from 220,000,000 to 420,000,000 shares, with the number of authorized common shares of beneficial interest increased from 200,000,000 to 400,000,000 and the number of authorized preferred shares of beneficial interest remaining unchanged at 20,000,000.

On November 5, 2013, the Parent Company commenced a continuous equity offering program (the “Offering Program”), under which it may sell, in at-the-market offerings, up to an aggregate amount of 16,000,000 common shares until November 5, 2016.

The Parent Company may sell common shares in amounts and at times to be determined by the Parent Company. Actual sales will depend on a variety of factors to be determined by the Parent Company, including, among others, market conditions, the trading price of the Company's common shares and determinations by the Parent Company of the appropriate sources of funding. Sales agents engaged by the Parent Company under the Offering Program are entitled to receive, as compensation and in aggregate, up to 2% of the gross sales price per share sold under the Offering Program. From inception of the Offering Program through June 30, 2014, the Parent Company had not sold any shares under the program, leaving 16,000,000 remaining shares available for sale.

Common Share Repurchases

The Parent Company maintains a share repurchase program under which it may repurchase its common shares from time to time in accordance with limits set by the Board of Trustees.

The Parent Company did not repurchase any shares under the share repurchase program during the six-month periods ended June 30, 2014 and 2013. As of June 30, 2014, the Parent Company may purchase up to 539,200 shares under the program.

Repurchases may be made from time to time in the open market or in privately negotiated transactions, subject to market conditions and compliance with legal requirements. The share repurchase program does not contain any time limitation and does not obligate the Parent Company to repurchase any shares. The Parent Company may discontinue the program at any time.

Unvested restricted units are considered participating securities which require the use of the two-class method for the computation of basic and diluted earnings per share. For the three and six-month periods ended June 30, 2014 and 2013, earnings representing nonforfeitable dividends as noted in the table above were allocated to the unvested restricted units issued to the Parent Company's executives and other employees under the Parent Company's shareholder-approved long-term incentive plan.

Common Partnership Units and Preferred Mirror Units

The common partnership units not held by the Parent Company have the same economic characteristics as the Parent Company's common shares and share proportionately in the net income or loss and in any distributions of the Operating Partnership. The common partnership units not held by the Parent Company are redeemable at any time at the option of the holder, and the Parent Company, as the sole general partner of the Operating Partnership, may at its option elect to settle the redemption in cash or through the exchange on a one-for-one basis with common shares of the Parent Company. Similarly, the Series E-Linked Preferred Mirror Units of the Operating Partnership have the same economic characteristics as the Series E Preferred Shares of the Parent Company. Whenever the Parent Company issues common shares or preferred shares, it contributes the net proceeds to the Operating Partnership in exchange for, as applicable, an equal number of common partnership units or preferred units that mirror the economic terms of the preferred shares.

On May 29, 2014, the Operating Partnership declared a distribution of \$0.15 per common partnership unit, totaling \$23.9 million, which was paid on July 21, 2014 to unitholders of record as of July 7, 2014. On May 29, 2014, the Operating Partnership declared distributions on its Series E-Linked Preferred Mirror Units to holders of record as of June 30, 2014. These units are entitled to a preferential return of 6.90% per annum on the \$25.00 per unit liquidation preference. Distributions paid on July 15, 2014 to holders of Series E-Linked Preferred Mirror Units totaled \$1.7 million.

Common Unit Repurchases

The Parent Company did not repurchase any shares under its share repurchase program in either of the six-month periods ended June 30, 2014 and 2013 and accordingly, during the six-month periods ended June 30, 2014 and 2013, the Operating Partnership did not repurchase any units in connection with the Parent Company's share repurchase program.

14. SHARE BASED COMPENSATION

Stock Options

At June 30, 2014, options exercisable for 2,808,784 common shares were outstanding under the Parent Company's shareholder approved equity incentive plan (referred to as the "Equity Incentive Plan"). During the six-month period ended June 30, 2014 the Company recognized a nominal amount of compensation expense related to unvested options. During the three and six-month periods ended June 30, 2013 the Company recognized compensation expense related to unvested options of \$0.2 million and \$0.4 million, of which a nominal amount and \$0.1 million, respectively, were capitalized consistent with the Company's policies for capitalizing eligible portions of employee compensation.

Option activity as of June 30, 2014 and changes during the six months ended June 30, 2014 were as follows:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value

Restricted Share Awards

As of June 30, 2014, 550,222 restricted shares were outstanding under the Equity Incentive Plan and vest over three years from the initial grant dates. The remaining compensation expense to be recognized at June 30, 2014 was approximately \$2.9 million, and is expected to be recognized over a weighted average remaining vesting period of 1.9 years. During the three and six-month periods ended June 30, 2014, the Company recognized compensation expense related to outstanding restricted shares of \$0.5 million and \$1.9 million, of which \$0.1 million and \$0.4 million, respectively, were capitalized as part of the Company's review of employee salaries eligible for capitalization. During the three and six-month periods ended June 30, 2013, the Company recognized compensation expense related to outstanding restricted shares of \$0.9 million and \$1.8 million, of which \$0.1 million and \$0.3 million, respectively, were capitalized consistent with the Company's policies for capitalizing eligible portions of employee compensation. The following table summarizes the Company's restricted share activity for the six months ended June 30, 2014:

	Shares	Weighted Average Grant Date Fair value
Non-vested at January 1, 2014	563,713	\$12.56
Granted	229,119	14.47
Vested	(234,169)	13.44
Forfeited	(8,441)	12.36
Non-vested at June 30, 2014	550,222	\$12.22

On March 11, 2014 and March 12, 2014 the Compensation Committee of the Parent Company's Board of Trustees awarded restricted shares of which 131,641 cliff vest after three years from the grant date and 69,794 vest ratably over three years, of which 1,745 were canceled, leaving 68,049 unvested. In addition, on May 29, 2014, 27,684 restricted shares were granted and will vest ratably over three years. Restricted shares that cliff vest are subject to acceleration upon a change in control or if the recipient of the award were to die, become disabled or, in certain cases, retire in a qualifying retirement. Qualifying retirement generally means the recipient's voluntary termination of employment after reaching at least age 57 and accumulating at least 15 years of service with the Company. In accordance with the accounting standard for stock-based compensation, the Company amortizes stock-based compensation costs through the qualifying retirement dates for those executives who meet the conditions for qualifying retirement during the scheduled vesting period.

Restricted Performance Share Units Plan

The Compensation Committee of the Parent Company's Board of Trustees has granted performance share-based awards (referred to as Restricted Performance Share Units, or RPSUs) to officers of the Parent Company. The RPSUs are settled in common shares, with the number of common shares issuable in settlement determined based on the Company's total shareholder return over specified measurement periods compared to total shareholder returns of comparative groups over the measurement periods. The table below presents certain information as to RPSU awards.

Grant Date	Measurement Period Commencement Date	Measurement Period End Date	Fair Value of Units on Grant Date (in thousands)	Units Granted	Units Canceled	Units Vested ^(a)	Unvested Balance
3/1/2012	1/1/2012	12/31/2014	\$4,273	265,222	(38,959)	(14,742)	211,521
2/25/2013	1/1/2013	12/31/2015	4,137	231,093	(27,698)		203,395
3/11/2014	1/1/2014	12/31/2016	2,624	134,284			134,284
3/12/2014	1/1/2014	12/31/2016	1,225	61,720			61,720

(a) These RPSUs were settled upon the holder's qualifying retirement in October 2012 after reaching age 57 and accumulating at least 15 years of service with the Company. Of the 14,742 RPSU's originally granted, 563 dividend equivalent rights were accrued at the time of qualifying retirement and the Company issued 30,610 shares in settlement of the RPSU's based on the Company's total shareholder return-based performance achievement, as computed under the award agreement, on October 31, 2012 of 200%.

The Company values each RPSU on its grant date using a Monte Carlo simulation. The fair values of each award are being amortized over the three year cliff vesting period. The vesting of RPSUs is subject to acceleration upon a change in control or if the recipient of the award were to die, become disabled or retire in a qualifying retirement prior to the vesting date. In accordance with the accounting standard for stock-based compensation, the Company amortizes stock-based compensation costs through the qualifying retirement date for those executives who meet the conditions for qualifying retirement during the schedule vesting period.

For the three and six-month periods ended June 30, 2014, the Company recognized total compensation expense for the 2014, 2013 and 2012 RPSU awards of \$0.5 million and \$2.3 million, of which \$0.2 million and 0.7 million, respectively, were capitalized consistent with the Company's policies for capitalizing eligible portions of employee compensation. For the three and six-month periods ended June 30, 2013, the Company recognized total compensation expense for the 2013, 2012 and 2011 RPSU awards of \$1.3 million and \$2.5 million, of which \$0.2 million and \$0.4 million, respectively, were capitalized consistent with the Company's policies for capitalizing eligible portions of employee compensation.

A total of 150,829 common shares were issued on March 1, 2014 to holders in settlement of the RPSUs awarded on March 2, 2011 (with a three-year measurement period ended December 31, 2013). Holders of these RPSUs also received a cash dividend of \$0.15 per share for these common shares on February 7, 2014.

15. SEGMENT INFORMATION

During the quarter ended June 30, 2014, the Company was managing its portfolio within seven segments: (1) Pennsylvania Suburbs, (2) Philadelphia Central Business District (CBD), (3) Metropolitan Washington, D.C., (4) New Jersey/Delaware, (5) Richmond, Virginia, (6) Austin, Texas and (7) California. The Pennsylvania Suburbs segment includes properties in Chester, Delaware, and Montgomery counties in the Philadelphia suburbs. The Philadelphia CBD segment includes properties located in the City of Philadelphia in Pennsylvania. The Metropolitan Washington, D.C. segment includes properties in Northern Virginia and southern Maryland. The New Jersey/Delaware segment includes properties in Burlington and Camden counties in New Jersey and in New Castle county in the state of Delaware. The Richmond, Virginia segment includes properties primarily in Albemarle, Chesterfield, Goochland and Henrico counties and one property in Durham, North Carolina. The Austin, Texas segment includes properties in the City of Austin, Texas. The California segment includes properties in Oakland, Concord and Carlsbad. The corporate group is responsible for cash and investment management, development of certain real estate properties during the construction period, and certain other general support functions.

The following tables provide selected asset information and results of operations of the Company's reportable segments (in thousands):

Net operating income (“NOI”) is a non-GAAP measure that is defined as total revenue less property operating expenses, real estate taxes and third party management expenses. Segment NOI includes revenue, real estate taxes and property operating expenses directly related to operation and management of the properties owned and managed within the respective geographical region. Segment NOI excludes property level depreciation and amortization, revenue and expenses directly associated with third party real estate management services, expenses associated with corporate administrative support services, and inter-company eliminations. NOI also does not reflect general and administrative expenses, interest expenses, real estate impairment losses, depreciation and amortization costs, capital expenditures and leasing costs. Trends in development and construction activities that could materially impact the Company’s results from operations are also not reflected in NOI. All companies may not calculate NOI in the same manner. NOI is the measure that is used by the Company to evaluate the operating performance of its real estate assets by segment. The Company also believes that NOI provides useful information to investors regarding its financial condition and results of operations because it reflects only those income and expenses recorded at the property level. The Company believes that net income, as defined by GAAP, is the most appropriate earnings measure. The following is a reconciliation of consolidated NOI to consolidated net income (loss), as defined by GAAP:

16. COMMITMENTS AND CONTINGENCIES

Legal Proceedings

The Company is involved from time to time in litigation on various matters, including disputes with tenants and disputes arising out of agreements to purchase or sell properties. Given the nature of the Company's business activities, these lawsuits are considered routine to the conduct of its business. The result of any particular lawsuit cannot be predicted, because of the very nature of litigation, the litigation process and its adversarial nature, and the jury system. The Company will establish reserves for specific legal proceedings when we determine that the likelihood of an unfavorable outcome is probable and when the amount of loss is reasonably estimable. The Company does not expect that the liabilities, if any, that may ultimately result from such legal actions will have a material adverse effect on the consolidated financial position, results of operations or cash flows of the Company.

Environmental

As an owner of real estate, the Company is subject to various environmental laws of federal, state, and local governments. The Company's compliance with existing laws has not had a material adverse effect on its financial condition and results of operations, and the Company does not believe it will have a material adverse effect in the future. However, the Company cannot predict the impact of unforeseen environmental contingencies or new or changed laws or regulations on its current Properties or on properties that the Company may acquire.

Ground Rent

Future minimum rental payments under the terms of all non-cancelable ground leases under which the Company is the lessee are expensed on a straight-line basis regardless of when payments are due. The Company's ground leases have remaining lease terms ranging from 7 to 75 years. Minimum future rental payments on non-cancelable leases at June 30, 2014 are as follows (in thousands):

2014 (six months remaining)	\$690
2015	1,380
2016	1,380
2017	1,380
2018	1,380
Thereafter	58,516
Total	\$64,726

The Company obtained ground tenancy rights related to two properties in Philadelphia, Pennsylvania, which provide for contingent rent participation by the lessor in certain capital transactions and net operating cash flows of the properties after certain returns are achieved by the Company. Such amounts, if any, will be reflected as contingent rent when incurred. The leases also provide for payment by the Company of certain operating costs relating to the land, primarily real estate taxes. The above schedule of future minimum rental payments does not include any contingent rent amounts or any reimbursed expenses. Reference is made in our Annual Report on Form 10-K for the year ended December 31, 2013 for further detail regarding commitments and contingencies.

17. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through the date the financial statements were issued.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements. This Quarterly Report on Form 10-Q and other materials filed by us with the SEC (as well as information included in oral or other written statements made by us) contain statements that are forward-looking, including statements relating to business and real estate development activities, acquisitions, dispositions, future capital expenditures, financing sources, governmental regulation (including environmental regulation) and competition. We intend such forward-looking statements to be covered by the safe-harbor provisions of the 1995 Act. The words "anticipate," "believe," "estimate," "expect," "intend," "will," "should" and similar expressions, as they relate to us, are intended to identify forward-looking statements. Although we believe that the expectations reflected in such forward-looking statements are based on reasonable assumptions, we can give no assurance that our expectations will be achieved. As forward-looking statements, these statements involve important risks, uncertainties and other factors that could cause actual results to differ materially from the expected results and, accordingly, such results may differ from those expressed in any forward-looking statements made by us or on our behalf. Factors that could cause actual results to differ materially from our expectations include, but are not limited to:

- the continuing impact of modest global economic growth, which is having and may continue to have a negative effect on the following, among other things:
 - the fundamentals of our business, including overall market occupancy, demand for office space and rental rates;
 - the financial condition of our tenants, many of which are financial, legal and other professional firms, our lenders, counterparties to our derivative financial instruments and institutions that hold our cash balances and short-term investments, which may expose us to increased risks of default by these parties;
 - the availability of financing on attractive terms or at all, which may adversely impact our future interest expense and our ability to pursue acquisition and development opportunities and refinance existing debt; and
 - a decline in real estate asset valuations, which may limit our ability to dispose of assets at attractive prices or obtain or maintain debt financing secured by our properties or on an unsecured basis.
- changes in local real estate conditions (including changes in rental rates and the number of properties that compete with our properties);
- our failure to lease unoccupied space in accordance with our projections;
- our failure to re-lease occupied space upon expiration of leases;
- tenant defaults and the bankruptcy of major tenants;
- increases in interest rates;
- failure of interest rate hedging contracts to perform as expected and the effectiveness of such arrangements;
- failure of acquisitions to perform as expected;
- unanticipated costs associated with the acquisition, integration and operation of our acquisitions;
- unanticipated costs to complete, lease-up and operate our developments and redevelopments;
- unanticipated costs associated with land development, including building moratoriums and inability to obtain necessary zoning, land-use, building, occupancy and other required governmental approvals, construction cost increases or overruns and construction delays;
- impairment charges;
- increased costs for, or lack of availability of, adequate insurance, including for terrorist acts or environmental liabilities;
- actual or threatened terrorist attacks;
- the impact on workplace and tenant space demands driven by technology, employee culture and commuting patterns;
- demand for tenant services beyond those traditionally provided by landlords;
- liability and clean-up costs under environmental or other laws;
- failure or bankruptcy of real estate venture partners;
- inability of real estate venture partners to fund venture obligations;
- failure to manage effectively our growth into new product types within our real estate venture arrangements;

failure of dispositions to close in a timely manner;
failure of buyers of our properties to comply with terms of their financing agreements to us;
earthquakes and other natural disasters;
the unforeseen impact of climate change and compliance costs relating to laws and regulations governing climate change;
risks associated with federal, state and local tax audits;
complex regulations relating to our status as a REIT and the adverse consequences of our failure to qualify as a REIT;
and
the impact of newly adopted accounting principles on our accounting policies and on period-to-period comparisons of financial results.

Given these uncertainties, and the other risks identified in the "Risk Factors" section of our 2013 Annual Report on Form 10-K, we caution readers not to place undue reliance on forward-looking statements. We assume no obligation to update or supplement forward-looking statements that become untrue because of subsequent events.

The discussion that follows is based primarily on our consolidated financial statements as of June 30, 2014 and December 31, 2013 and for the three and six-month periods ended June 30, 2014 and 2013 and should be read along with the consolidated financial statements and related notes appearing elsewhere in this report. The ability to compare one period to another may be significantly affected by acquisitions completed, development properties placed in service and dispositions made during those periods.

OVERVIEW

As of June 30, 2014, we owned 205 properties that contain an aggregate of approximately 25.4 million net rentable square feet and consist of 175 office properties, 20 industrial facilities, five mixed-use properties, one retail property (201 core properties), two development properties, one redevelopment property and one re-entitlement property (collectively, the "Properties"). In addition, as of June 30, 2014, we owned economic interests in 17 unconsolidated Real Estate Ventures that contain approximately 5.9 million net rentable square feet (collectively, the "Real Estate Ventures"). In addition to managing properties that we own, as of June 30, 2014, we were managing approximately 8.1 million net rentable square feet of office and industrial properties for third parties and Real Estate Ventures.

During the six-month period ended June 30, 2014, we were managing our portfolio within seven segments:

(1) Pennsylvania Suburbs, (2) Philadelphia CBD, (3) Metropolitan Washington, D.C., (4) New Jersey/Delaware, (5) Richmond, Virginia, (6) Austin, Texas and (7) California. The Pennsylvania Suburbs segment includes properties in Chester, Delaware, and Montgomery counties in the Philadelphia suburbs. The Philadelphia CBD segment includes properties located in the City of Philadelphia in Pennsylvania. The Metropolitan Washington, D.C. segment includes properties in Northern Virginia and southern Maryland. The New Jersey/Delaware segment includes properties in Burlington and Camden counties in New Jersey and in New Castle county in the state of Delaware. The Richmond, Virginia segment includes properties primarily in Albemarle, Chesterfield, Goochland and Henrico counties and one property in Durham, North Carolina. The Austin, Texas segment includes properties in the City of Austin, Texas. The California segment includes properties in Oakland, Concord and Carlsbad. Our corporate group is responsible for cash and investment management, development of certain real estate properties during the construction period, and certain other general support functions.

We generate cash and revenue from leases of space at our properties and, to a lesser extent, from the management of properties owned by third parties and from investments in the Real Estate Ventures. Factors that we evaluate when leasing space include rental rates, costs of tenant improvements, tenant creditworthiness, current and expected operating costs, the length of the lease, vacancy levels and demand for office and industrial space. We also generate cash through sales of assets, including assets that we do not view as core to our portfolio, either because of location or expected growth potential, and assets that are commanding premium prices from third party investors.

Our financial and operating performance is dependent upon the demand for office, industrial and other commercial space in our markets, our leasing results, our acquisition, disposition and development activity, our financing activity, our cash requirements and economic and market conditions, including prevailing interest rates.

Adverse changes in economic conditions could result in a reduction of the availability of financing and potentially in higher borrowing costs. These factors, coupled with an ongoing economic recovery, have reduced the volume of real estate transactions and created credit stresses on some businesses. Vacancy rates may increase, and rental rates may decline, through 2014 and possibly beyond as the current economic climate may negatively impact tenants.

Overall economic conditions, including but not limited to high unemployment and deteriorating financial and credit markets, could have a dampening effect on the fundamentals of our business, including increases in past due accounts, tenant defaults, lower occupancy and reduced effective rents. These conditions would negatively affect our future net income and cash flows and could have a material adverse effect on our financial condition. We believe that the quality of our assets and our strong balance sheet will enable us to raise debt capital, if necessary, in various forms and from different sources, including traditional term or secured loans from banks, pension funds and life insurance companies. However, there can be no assurance that we will be able to borrow funds on terms that are economically attractive or at all.

We continue to seek revenue growth throughout our portfolio by increasing occupancy and rental rates. Occupancy at our wholly owned properties at June 30, 2014 was 89.3% compared to 87.9% at June 30, 2013.

The table below summarizes the key operating and leasing statistics of our wholly owned operating properties for the three and six months ended June 30, 2014:

	Three-month period ended June 30, 2014	Six-month period ended June 30, 2014	
Leasing Activity:			
Core portfolio net rentable square feet owned (end of period) (1)	23,954,508	23,954,508	
Occupancy percentage (end of period)	89.3	% 89.3	%
Average occupancy percentage	89.4	% 89.1	%
New leases and expansions commenced (square feet)	315,130	816,609	
Leases renewed (square feet)	271,580	607,627	
Net absorption (square feet) (2)	23,091	(28,782)
Percentage change in rental rates per square foot (3):			
New and expansion rental rates	6.0	% 11.3	%
Renewal rental rates	1.3	% 0.7	%
Combined rental rates	2.6	% 4.2	%
Capital Costs Committed (4):			
Leasing commissions (per square foot)	\$5.50	\$5.86	
Tenant Improvements (per square foot)	\$10.47	\$13.2	

(1) Includes all properties in the core portfolio (i.e. not under development or redevelopment).

(2) Includes leasing related to completed developments and redevelopments.

(3) Rental rates include GAAP base rent plus reimbursement for operating expenses and real estate taxes.

(4) Calculated on a weighted average basis.

In seeking to increase revenue through our operating, financing and investment activities, we also seek to minimize operating risks, including (i) tenant rollover risk, (ii) tenant credit risk and (iii) development risk.

Tenant Rollover Risk:

We are subject to the risk that tenant leases, upon expiration, will not be renewed, that space may not be relet, or that the terms of renewal or reletting (including the cost of renovations) may be less favorable to us than the current lease terms. Leases that accounted for approximately 2.0% of our aggregate final annualized base rents as of June 30, 2014 (representing approximately 2.1% of the net rentable square feet of the Properties) are scheduled to expire without penalty in 2014. We maintain an active dialogue with our tenants in an effort to maximize lease renewals. In our core portfolio the retention rate for leases that are scheduled to expire in 2014 is 67% compared to a retention rate of 68% for leases that expired in 2013. Rental rates on leases expiring during 2014 did not deviate significantly from market renewal rates in the regions in which we operate. If we are unable to renew leases or relet space under expiring leases, at anticipated rental rates, or if tenants terminate their leases early, our cash flow would be adversely impacted.

Tenant Credit Risk:

In the event of a tenant default, we may experience delays in enforcing our rights as a landlord and may incur substantial costs in protecting our investment. Our management regularly evaluates our accounts receivable reserve policy in light of our tenant base and general and local economic conditions. Our accounts receivable allowance was \$15.9 million or 9.4% of total receivables (including accrued rent receivables) as of June 30, 2014 compared to \$16.2 million or 10.3% of total receivables (including accrued rent receivables) as of December 31, 2013.

If economic conditions deteriorate, we may experience increases in past due accounts, defaults, lower occupancy and reduced effective rents. This condition would negatively affect our future net income and cash flows and could have a material adverse effect on our financial condition.

Development Risk:

Development projects are subject to a variety of risks, including construction delays, construction cost overruns, inability to obtain financing on favorable terms, inability to lease space at projected rates, inability to enter into construction, development and other agreements on favorable terms, and unexpected environmental and other hazards. Reference is made to our Annual Report on Form 10-K for the year ended December 31, 2013 for additional risks associated with development projects.

As of June 30, 2014, we owned approximately 419 acres of undeveloped land, and held options to purchase approximately 50 additional acres of undeveloped land. As market conditions warrant, we will seek to opportunistically re-zone and/or dispose of those parcels that we do not anticipate developing. For parcels of land that we ultimately develop, we will be subject to risks and costs associated with land development, including building moratoriums and the inability to obtain necessary zoning, land-use, building, occupancy and other required governmental approvals, construction cost increases or overruns and construction delays, and insufficient occupancy rates and rental rates. As of June 30, 2014, these land parcels could support, under current zoning and entitlements, approximately 5.9 million square feet of commercial office development.

See "Liquidity and Capital Resources - Commitments and Contingencies" for further discussion of our ongoing development projects.

RECENT PROPERTY TRANSACTIONS

Acquisition

As of June 30, 2014, a \$0.5 million gain on remeasurement of our investment in partnerships with Parkway Properties, Inc. was recorded. On December 19, 2013, we increased our equity ownership interest from 25% to 99% in each of the two partnerships that own One and Two Commerce Square, two 41-story Trophy-class office towers in Philadelphia, Pennsylvania. As of December 31, 2013, we had recorded a \$1.6 million net receivable balance from our former partner which represented the former partner's portion of the net current assets (liabilities) pursuant to the terms of the Commerce Square Redemption Agreement. Pursuant to the Redemption Agreement, we and Parkway used an agreed upon settlement period to finalize the purchase accounting related to facts and circumstances that existed at the date of the acquisition but were not fully known at such time. During the quarter ended June 30, 2014, \$2.1 million of consideration was received from the former partner in full settlement of the aforementioned provision and a measurement period adjustment was made to adjust fair value of our previously held equity investment, resulting in a gain on remeasurement of our investment in the partnerships of \$0.5 million. For additional information related to this transaction, see the audited financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2013.

On February 19, 2014, we acquired 54.1 acres of undeveloped land known as Encino Trace in Austin, Texas for \$14.0 million. The land is fully entitled with a site plan and building permits in place allowing for the development of two four-story office buildings containing approximately 320,000 net rentable square feet. The land was purchased with an in-place lease for 75% of the first building. We capitalized \$8.4 million in construction in progress, recorded \$4.6 million in land inventory and recorded a deposit for a portion of the future development fee held in escrow for \$1.0 million. The net assets were purchased using available corporate funds.

As of June 30, 2014, both of the office buildings at Encino Trace are currently in development with \$18.7 million, inclusive of the \$14.0 million acquisition cost, funded through June 30, 2014. During the second quarter of 2014, we reclassified the \$4.6 million remaining in land inventory to construction in progress in connection with commencing development of the second building. Additional project costs will be funded over the remaining construction period, which is scheduled to be completed during the second quarter of 2015.

Disposition

On April 16, 2014, we sold a 5.3 acre parcel of land located in Dallas, Texas for a sales price of \$1.6 million resulting in a nominal gain on sale after closing and other transaction related costs. The land parcel was undeveloped as of the date of sale.

On April 7, 2014, we received \$0.9 million from an escrow account that was established in connection with the sale of eight office properties containing 800,546 square feet in Lawrenceville, New Jersey, known as "Princeton Pike

Corporate Center." The sale of Princeton Pike Corporate Center was completed on February 25, 2013 for an aggregate sales price of \$121.0 million and resulted in a \$5.3 million gain on sale after closing and other transaction related costs. The escrow account was funded with \$2.0 million at closing and was established for use by the buyer to fund certain tenant improvement projects with any unused portion to be returned to us. The unused amount received from the escrow account was recognized as a gain on sale during the period ending

June 30, 2014. The aforementioned gain was recognized within discontinued operations which is consistent with the accounting classification of the assets that were disposed of on February 25, 2013.

On April 3, 2014, we contributed two 3-story, Class A office buildings, containing an aggregate of approximately 192,396 net rentable square feet known as Four Points Centre in Austin, Texas to an existing real estate venture (the "Austin Venture") that we formed in 2013 with G&I VII Austin Office LLC, an investment vehicle advised by DRA Advisors LLC ("DRA"). We contributed the property to the Austin Venture at an agreed upon value of \$41.5 million. In conjunction with the contribution, (i) the Austin Venture obtained a \$29.0 million mortgage loan; (ii) the DRA member contributed \$5.9 million in net cash to the capital of the Austin Venture; and (iii) the Austin Venture distributed \$34.4 million to us and credited us with a \$5.9 million capital contribution to the Austin Venture. We incurred a \$0.2 million loss on the contribution, driven primarily by closing costs. The disposal of Four Points Centre does not represent a strategic shift that has a major effect on the Company's operations and financial results, accordingly the property remains classified within continuing operations.

On March 27, 2014, we sold a 16.8-acre parcel of land located in Austin, Texas for a sales price of \$3.5 million resulting in a \$1.2 million gain on sale of undepreciated real estate after closing and other transaction related costs. The land parcel was undeveloped as of the date of sale.

We continually assess our portfolio in light of our strategic and economic considerations to determine whether to sell properties in the portfolio. Sales of properties, and determinations to hold properties for sale, may result in an impairment or other loss, and such loss could be material to our statement of operations.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Management's Discussion and Analysis of Financial Condition and Results of Operations discuss our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The preparation of these financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Certain accounting policies are considered to be critical accounting policies, as they require management to make assumptions about matters that are highly uncertain at the time the estimate is made and changes in accounting estimate are reasonably likely to occur from period to period. Management bases its estimates and assumptions on historical experience and current economic conditions. On an on-going basis, management evaluates its estimates and assumptions including those related to revenue, impairment of long-lived assets and the allowance for doubtful accounts. Actual results may differ from those estimates and assumptions. Our Annual Report on Form 10-K for the year ended December 31, 2013 contains a discussion of our critical accounting policies. There have been no significant changes in our critical accounting policies since December 31, 2013. See also Note 2 in our unaudited consolidated financial statements for the three and six-month periods ended June 30, 2014 set forth herein. Management discusses our critical accounting policies and management's judgments and estimates with our Audit Committee.

RESULTS OF OPERATIONS

The following discussion is based on our Consolidated Financial Statements for the three and six-month periods ended June 30, 2014 and 2013. We believe that presentation of our consolidated financial information, without a breakdown by segment, will effectively present important information useful to our investors.

Net operating income (“NOI”) as presented in the comparative analysis below is defined as revenue less property operating expenses, real estate taxes and third party management expenses. Property operating expenses that are included in determining NOI consist of costs that are necessary and allocable to our operating properties such as utilities, property-level salaries, repairs and maintenance, property insurance, management fees and bad debt expense. General and administrative expenses that are not reflected in NOI primarily consist of corporate-level salaries, amortization of share awards and professional fees that are incurred as part of corporate office management. NOI is a non-GAAP financial measure that we use internally to evaluate the operating performance of our real estate assets by segment, as presented in Note 15 to the consolidated financial statements, and of our business as a whole. We believe NOI provides useful information to investors regarding our financial condition and results of operations because it reflects only those income and expense items that are incurred at the property level. While NOI is a relevant and widely used measure of operating performance of real estate investment trusts, it does not represent cash flow from operations or net income as defined by GAAP and should not be considered as an alternative to those measures in evaluating our liquidity or operating performance. NOI does not reflect interest expenses, real estate impairment losses, depreciation and amortization costs, capital expenditures and leasing costs. We believe that net income, as defined by GAAP, is the most appropriate earnings measure. See Note 15 to the Consolidated Financial Statements for a reconciliation of NOI to our consolidated net income (loss).

Comparison of the Three-Month Periods Ended June 30, 2014 and June 30, 2013

The table below shows selected operating information for the “Same Store Property Portfolio” and the “Total Portfolio.” The Same Store Property Portfolio consists of 196 properties containing an aggregate of approximately 21.8 million net rentable square feet, and represents properties that we owned for the entire three-month periods ended June 30, 2014 and 2013. The Same Store Property Portfolio includes properties acquired or placed in service on or prior to January 1, 2013 and owned through June 30, 2014. The Total Portfolio includes the effects of other properties that were either placed into service, acquired or redeveloped after January 1, 2013 or disposed prior to June 30, 2014. A property is excluded from our Same Store Property Portfolio and moved into the redevelopment column in the period that we determine that a redevelopment would be the best use of the asset, and when said asset is taken out of service or is undergoing re-entitlement for a future development strategy. This table also includes a reconciliation from the Same Store Property Portfolio to the Total Portfolio net income (i.e., all properties owned by us during the three-month periods ended June 30, 2014 and 2013) by providing information for the properties which were acquired, placed into service, under development or redevelopment and administrative/elimination information for the three-month periods ended June 30, 2014 and 2013 (in thousands).

The Total Portfolio net income presented in the table is equal to the net income of the Parent Company and the Operating Partnership.

(c) eliminated in consolidation and third-party management fees. It also includes properties sold that do not qualify as discontinued operations.

(d) Pertains to properties that are part of our core portfolio (i.e. not under development, redevelopment, or re-entitlement).

Total Revenue

Cash rents from the Total Portfolio increased by \$7.8 million from the second quarter of 2013 to the second quarter of 2014, primarily attributable to:

• an increase of \$4.0 million in the Same Store Property Portfolio due to a 1.4% increase in occupancy for the second quarter of 2014 compared to the second quarter of 2013;

• an increase of \$7.9 million related to the increase in our equity ownership interest in One Commerce Square and Two Commerce Square during the fourth quarter of 2013;

• an increase of \$1.0 million related to a development and redevelopment property being placed into service;

• an increase of \$0.6 million related to the acquisition of Six Tower Bridge during the second quarter of 2013; and

• a decrease of \$5.7 million related to the contribution of seven office properties in Austin, Texas to an unconsolidated real estate venture during the fourth quarter of 2013.

Straight-line rents decreased by \$2.2 million on a consolidated basis due to a combination of free rent converting to cash rent subsequent to the second quarter of 2013 at our Same Store Property Portfolio, and timing of revenue recognition under the straight-line method of accounting. The decreases were offset by a net increase of \$0.2 million related to recently acquired properties, which primarily consists of a \$0.8 million increase related to the increase in our equity ownership interest in One and Two Commerce Square in the fourth quarter of 2013 and a \$0.6 million decrease relating to a single tenant's free rent converting to cash rent at 660 Germantown Pike, a redevelopment property.

Tenant reimbursements increased by \$0.9 million, which trended along with the increase in operating expenses over the same period. Expense recoveries remained consistent with a reimbursement percentage of 36.6% during the second quarter of 2014 compared to 36.5% in the second quarter of 2013.

Termination fees at our Total Portfolio increased by \$2.9 million due to timing and volume of tenant move-outs during the second quarter of 2014 when compared to the second quarter of 2013.

Third party management fees, labor reimbursement and leasing increased \$1.0 million during the second quarter of 2014 compared to the second quarter of 2013 which is primarily attributable to an increase of \$0.7 million in management fees and labor reimbursements from DRA Austin real estate venture which was formed subsequent to June 30, 2013. Development fee income increased \$0.3 million related to increased development activity at the evo real estate venture.

Property Operating Expenses

Property operating expenses across our Total Portfolio increased \$3.7 million for the second quarter of 2014 compared to the second quarter of 2013, primarily attributable to: (i) an increase of \$5.1 million due to additional operating expenses from properties that we acquired and placed into service subsequent to the second quarter of 2013 and (ii) a net increase of \$0.9 million in repairs and maintenance expenditures due to the timing of our tenants' needs. These and other increases were offset by \$2.3 million decrease from the contribution of seven office properties in Austin, Texas to an unconsolidated real estate venture during the fourth quarter of 2013.

Real Estate Taxes

Real estate taxes decreased by a net \$1.3 million for the second quarter of 2014 compared to the second quarter of 2013, attributable to a decrease of \$1.9 million from the contribution of seven office properties in Austin, Texas to an unconsolidated real estate venture and a net decrease of \$0.8 million in the Same Store Property Portfolio, none of which were individually significant. These decreases were offset by \$1.4 million in increases due to properties we acquired subsequent to the second quarter of 2013.

General and Administrative Expenses

General and administrative expenses across our Total Portfolio decreased \$1.3 million for the second quarter of 2014 compared to the second quarter of 2013, primarily attributable to: (i) a \$1.3 million decrease in stock-based compensation costs compared to the prior year which is directly attributable to the timing of recognizing accelerated amortization of such compensation of our executive personnel meeting qualifying retirement provisions, (ii) a \$0.2 million decrease in acquisition related costs, and (iii) a

\$0.2 million decrease in fees related to our deferred compensation plan. These decreases were offset by \$0.3 million of increased salary and benefits costs during the second quarter of 2014 compared to the second quarter of 2013. The remaining increase of \$0.1 million is due to additional professional fees incurred during the second quarter of 2014 compared to the second quarter of 2013.

Depreciation and Amortization

Depreciation and amortization expense increased by \$3.3 million for the second quarter of 2014 compared to the second quarter of 2013, of which \$5.6 million is attributable to properties acquired subsequent to June 30, 2013. Increases in depreciation expense to the Same Store Property Portfolio totaled \$2.3 million, as a result of the timing of tenant and capital improvement projects being completed and placed into service. These increases were offset by reductions in depreciation expense of \$3.1 million related to the contribution of seven office properties in Austin, Texas to an unconsolidated real estate venture during the fourth quarter of 2013 and the acceleration of \$1.5 million primarily attributable to depreciation expense for Plaza 1000 at Main Street and 6 East Clementon. During the second quarter of 2013, we re-entitled these properties for residential and mixed-use development, and accordingly, we shortened the useful lives for each of these buildings to the expected demolition date.

Interest Expense

The increase in interest expense of \$1.1 million from the second quarter of 2013 to the second quarter of 2014 is primarily due to an increase of \$2.2 million related to the fourth quarter 2013 increase in ownership interest and consolidation of One Commerce Square mortgage debt having a principal balance at June 30, 2014 of \$124.2 million and an effective rate of 3.681% and Two Commerce Square mortgage debt carrying a principal balance of \$112.0 million at March 31, 2014 and an effective rate of 4.513%.

The increase of \$2.2 million in interest expense described above was offset by the following decreases in interest expense during the first quarter of 2014 compared to the first quarter of 2013:

- a decrease of \$0.8 million related to an increase in capitalized interest;
- a decrease of \$0.2 million due to repurchases of \$13.6 million of our 5.400% Guaranteed Notes due 2014; and
- a decrease of \$0.1 million due to repurchases of \$3.8 million of our 7.500% Guaranteed Notes due 2015.

Equity in Income of Real Estate Ventures

The decrease in equity in income of real estate ventures of \$2.0 million during the second quarter 2014 compared to the second quarter of 2013 is attributable to the following:

- a decrease of \$0.6 million in preferred return income as a result of increasing our common ownership interest and consolidating the One and Two Commerce real estate ventures subsequent to the second quarter of 2013;
- a decrease of \$0.3 million as a result of recognizing income during 2013 related to the exchange of our ownership interest in Two Tower Bridge to acquire the remaining ownership interest in Six Tower Bridge during the second quarter of 2013;
- a decrease of \$0.3 million from our Broadmoor Austin real estate venture, as the lead tenant that occupied 100% of the office park moved out of 142,000 square feet office space due to a lease expansion subsequent to the second quarter of 2013;
- a decrease of \$0.3 million as a result of costs incurred related to our investment in the Seven Tower Bridge real estate venture; and
- a remaining decrease of \$0.5 million due to net losses incurred at our remaining real estate ventures.

Gain from Remeasurement of Investment in a Real Estate Venture

The gain on remeasurement of investment in a real estate venture decreased \$7.4 million. The \$0.5 million gain recognized during the three-month period ended June 30, 2014 resulted from the final settlement of the increase in our ownership interest of the One and Two Commerce partnerships. The \$7.9 million gain in the three-month period ended June 30, 2013 resulted from the Company taking control of Six Tower Bridge which required the remeasurement at fair value of our existing equity interest in Six Tower Bridge that we did not previously own.

Net Gain (Loss) on Real Estate Venture Transactions

The loss during the second quarter of 2014 primarily relates to the closing costs associated with the contribution of Four Points Centre to an unconsolidated real estate venture.

For the second quarter of 2013 the \$3.7 million gain on real estate venture transactions is the result of the exchange of our remaining ownership in the Two Tower Bridge real estate venture for the remaining ownership interest in the Six Tower Bridge real estate venture that we did not already own.

Loss on Early Extinguishment of Debt

During the second quarter of 2013, we repurchased (i) \$0.5 million of our 6.000% Guaranteed Notes due 2016, (ii) \$5.1 million of our 7.500% Guaranteed Notes due 2015 and (iii) \$6.2 million of our 5.400% Guaranteed Notes due 2014, which resulted in a net loss on early extinguishment of debt of \$1.1 million. We had no such repurchases in the second quarter of 2014.

Discontinued Operations

During the second quarter of 2014, there were no property sales classified as discontinued operations. The gain of \$0.9 million primarily relates to the settlement of a sale that occurred during the first quarter of 2013 for a portfolio of eight office properties located in Lawrenceville, New Jersey. See Note 3 in our unaudited consolidated financial statements for further information.

During 2013, we sold a portfolio of eight office properties located in Lawrenceville, New Jersey, one property located in San Diego, California, one property located in Carlsbad, California, one property located in Malvern, Pennsylvania one property located in Exton, Pennsylvania, one property located in King of Prussia, Pennsylvania, and one property in West Chester, Pennsylvania. During the second quarter of 2013 these properties had total revenues of \$0.9 million, property operating expenses of \$0.3 million, \$0.1 million of real estate taxes and \$0.3 million of depreciation and amortization expense. We recognized a net loss on sale related to these transactions of \$2.3 million.

Net Income

Net income decreased by \$5.0 million during the second quarter of 2014 compared to the second quarter of 2013 as a result of the factors described above. Net income is significantly impacted by depreciation of operating properties and amortization of acquired intangibles. These non-cash charges do not directly affect our ability to pay dividends. Amortization of acquired intangibles will continue over the related lease terms or estimated duration of the tenant relationships.

Comparison of the Six-Month Periods Ended June 30, 2014 and June 30, 2013

The table below shows selected operating information for the “Same Store Property Portfolio” and the “Total Portfolio.” The Same Store Property Portfolio consists of 196 properties containing an aggregate of approximately 21.8 million net rentable square feet, and represents properties that we owned for the entire six-month periods ended June 30, 2014 and 2013. The Same Store Property Portfolio includes properties acquired or placed in service on or prior to January 1, 2013 and owned through June 30, 2014. The Total Portfolio includes the effects of other properties that were either placed into service, acquired or redeveloped after January 1, 2013 or disposed prior to June 30, 2014. A property is excluded from our Same Store Property Portfolio and moved into the redevelopment column in the period that we determine that a redevelopment would be the best use of the asset, and when said asset is taken out of service or is undergoing re-entitlement for a future development strategy. This table also includes a reconciliation from the Same Store Property Portfolio to the Total Portfolio net income (i.e., all properties owned by us during the six-month periods ended June 30, 2014 and 2013) by providing information for the properties which were acquired, placed into service, under development or redevelopment and administrative/elimination information for the six-month periods ended June 30, 2014 and 2013 (in thousands).

The Total Portfolio net income presented in the table is equal to the net income of the Parent Company and the Operating Partnership.

EXPLANATORY NOTES

(a) Results include: Five properties completed/acquired and placed in service.

(b) Results include: Two development, one redevelopment and one re-entitlement property

Represents certain revenues and expenses at the corporate level as well as various intercompany costs that are

(c) eliminated in consolidation and third-party management fees. It also includes properties sold that do not qualify as discontinued operations.

(d) Pertains to properties that are part of our core portfolio (i.e. not under development, redevelopment, or re-entitlement).

Total Revenue

Cash rents from the Total Portfolio increased by \$16.5 million from the six-month period ended June 30, 2013 to the six-month period ended June 30, 2014, primarily attributable to:

- an increase of \$8.1 million in the Same Store Property Portfolio due to a 1.4% increase in occupancy for the six-month period ended June 30, 2014 compared to the six-month period ended June 30, 2013;

- an increase of \$15.8 million related to the increase in our equity ownership interest in One Commerce Square and Two Commerce Square during the fourth quarter of 2013;

- an increase of \$1.7 million related to a development and redevelopment property being placed into service;

- an increase of \$1.3 million related to the acquisition of Six Tower Bridge during the second quarter of 2013; and

- a decrease of \$11.0 million related to the contribution of seven office properties in Austin, Texas to an unconsolidated real estate venture during the fourth quarter of 2013.

Straight-line rents decreased by \$4.0 million on a consolidated basis due to a combination of free rent converting to cash rent subsequent to the six-month period ended June 30, 2013 at our Same Store Property Portfolio, and timing of revenue recognition under the straight-line method of accounting. The decreases were offset by a net increase of \$0.4 million related to recently acquired properties, which primarily consists of a \$1.3 million increase related to the increase in our equity ownership interest in One and Two Commerce Square in the fourth quarter of 2013, a \$0.2 million increase relating to development property placed into service during the second quarter of 2014 and a \$1.1 million decrease relating to the expiration of a single tenant's free rent period at 660 Germantown Pike subsequent to June 30, 2013.

Tenant reimbursements increased by \$4.1 million which trended along with the increase in operating expenses over the same period. Expense recoveries increased to 37.8% during the six-month period ended June 30, 2014 compared to 37.2% in the six-month period ended June 30, 2013, mainly due to the recovery of snow removal costs incurred during the first quarter of 2014.

Termination fees at our Total Portfolio increased by \$4.6 million due to timing and volume of tenant move-outs during the six-month period ended June 30, 2014 compared to the six-month period ended June 30, 2013.

Third party management fees, labor reimbursement and leasing increased \$1.9 million during the six-month period ended June 30, 2014 compared to the six-month period ended June 30, 2013 which is primarily attributable to an increase of \$1.4 million in management fees and labor reimbursements from DRA Austin real estate venture which was formed subsequent to June 30, 2013. Development fee income increased \$0.5 million related to increased development activity at the evo at Cira Centre South real estate venture.

Property Operating Expenses

Property operating expenses across our Total Portfolio increased by \$11.2 million from the six-month period ended June 30, 2013 to the six-month period ended June 30, 2014, primarily attributable to: (i) an increase of \$10.0 million due to additional operating expenses from properties that we acquired and placed into service subsequent to the second quarter of 2013, (ii) an increase of \$1.4 million in snow removal costs, (iii) an increase of \$2.1 million in utilities, (iv) an increase of \$0.3 in bad debt expense and (v) a net increase of \$1.8 in repairs and maintenance

expenditures due to the timing of our tenants' needs. These and other increases were offset by \$4.4 million decrease from the contribution of seven office properties in Austin, Texas to an unconsolidated real estate venture during the fourth quarter of 2013.

Real Estate Taxes

Real estate taxes decreased by \$2.2 million for the six-month period ended June 30, 2014 compared to the six-month period ended June 30, 2013, attributable to a decrease of \$3.6 million from the contribution of seven office properties in Austin, Texas to an unconsolidated real estate venture and a net decrease of \$1.3 million in the Same Store Property Portfolio, due to property assessments that occurred subsequent to June 30, 2013. These decreases were offset by \$2.7 million in increases due to properties we acquired subsequent to the second quarter of 2013.

Depreciation and Amortization

Depreciation and amortization expense increased by \$6.4 million for the six-month period ended June 30, 2014 compared to the six-month period ended June 30, 2013, of which \$11.0 million is attributable to properties acquired subsequent to June 30, 2013. Increases in depreciation expense to the same store portfolio totaled \$4.3 million, as a result of the timing of tenant and capital improvement projects being completed and placed into service. Depreciation expense for development/redevelopment properties increased \$0.4 million and reflects additional assets placed into service. These increases were offset by reductions in depreciation expense of \$6.2 million related to the contribution of seven office properties in Austin, Texas to an unconsolidated real estate venture during the fourth quarter of 2013 and the acceleration of \$3.6 million primarily attributable to depreciation expense for Plaza 1000 at Main Street and 6 East Clementon. During the second quarter of 2013, we re-entitled these properties for residential and mixed-use development, and accordingly, we shortened the useful lives for each of these buildings to the expected demolition date. Other net increases to depreciation total \$0.5 million, none of which related significantly to a particular property.

Interest Income

Interest income increased by \$0.6 million due to higher average balances in interest bearing cash equivalents for the six-month period ended June 30, 2014 compared to the six-month period ended June 30, 2013.

Interest Expense

The increase in interest expense of \$2.0 million for the six-month period ended June 30, 2014 compared to the six-month period ended June 30, 2013 is primarily due to an increase of \$4.5 million related to the fourth quarter 2013 increase in ownership interest and consolidation of One Commerce Square mortgage debt having a principal balance at June 30, 2014 of \$124.2 million and an effective rate of 3.681% and Two Commerce Square mortgage debt carrying a principal balance of \$112.0 million at June 30, 2014 and an effective rate of 4.513%.

The increase of \$4.5 million in interest expense described above was offset by the following decreases in interest expense during the first quarter of 2014 compared to the first quarter of 2013:

- a decrease of \$1.4 million related to an increase in capitalized interest;
- a decrease of \$0.3 million due to the fact that we did not have any borrowings on our Credit Facility during the six-month period ended June 30, 2014 ;
- a decrease of \$0.5 million due to repurchases of \$13.6 million of our 5.400% Guaranteed Notes due 2014; and
- a decrease of \$0.3 million due to repurchases of \$3.8 million of our 7.500% Guaranteed Notes due 2015.

Equity in Income of Real Estate Ventures

The decrease in equity in income of Real Estate Ventures of \$3.3 million during the six-month period ended June 30, 2014 compared to the six-month period ended June 30, 2013 is attributable to the following;

- a decrease of \$1.1 million in preferred return income as a result of increasing our common ownership interest and consolidating the One and Two Commerce real estate ventures subsequent to June 30, 2013;
- a decrease of \$0.4 million as a result of recognizing income during 2013 related to the exchange of our ownership interest in Two Tower Bridge to acquire the remaining ownership interest in Six Tower Bridge during the second quarter of 2013;
-

a decrease of \$0.9 million related to sales proceeds received in excess of our investment in the BDN Beacon real estate venture;

a decrease of \$0.3 million from our Broadmoor Austin real estate venture, as the lead tenant that occupied 100% of the office park moved out of 142,000 square feet of office space due to a lease expansion subsequent to June 30, 2013;

a decrease of \$0.3 million as a result of recognizing professional fees incurred related to our investment in the Seven Tower Bridge real estate venture; and

a remaining decrease of \$0.3 million due to net losses incurred at our remaining real estate ventures.

Gain from Remeasurement of Investment in a Real Estate Venture

The gain on remeasurement of investment in a real estate venture decreased \$7.4 million. The \$0.5 million gain recognized during the six-month period ended June 30, 2014 resulted from the final settlement of the increase in ownership interest of the One and Two Commerce partnerships. The \$7.9 million gain in the six-month period ended June 30, 2013 resulted from the Company taking control of Six Tower Bridge which required the remeasurement at fair value of our existing equity interest in Six Tower Bridge that we did not previously own.

Gain on Sale of Undepreciated Real Estate

The gain on sale of undepreciated real estate of \$1.2 million during the six-month period ended June 30, 2014 resulted from the sale of two undeveloped land parcels. There were no such sales during the six-month period ended June 30, 2013.

Net Gain (Loss) on Real Estate Venture Transactions

The \$0.4 million loss during the six-month period ended June 30, 2014 relates primarily to the contribution of Four Points Centre to an unconsolidated joint venture. The \$3.7 million gain during the six-month period ended June 30, 2013 is the result of the exchange of our remaining ownership in the Two Tower Bridge Venture for the remaining ownership interest in the Six Tower Bridge Venture that we did not already own during six-month period ended June 30, 2013.

Loss on Early Extinguishment of Debt

During the six-month period ended June 30, 2013, we repurchased (i) \$0.5 million of our 6.000% Guaranteed Notes due 2016, (ii) \$5.1 million of our 7.500% Guaranteed Notes due 2015 and (iii) \$6.2 million of our 5.400% Guaranteed Notes due 2014, which resulted in a net loss on early extinguishment of debt of \$1.1 million. We had no such repurchases in the six-month period ended June 30, 2014.

Discontinued Operations

During the six-month period ended June 30, 2014, there were no property sales classified as discontinued operations. The gain of \$0.9 million primarily relates to the settlement of a sale that occurred during the first quarter of 2013 for a portfolio of eight office properties located in Lawrenceville, New Jersey. See Footnote 3 "Real Estate Investments" for further information.

During 2013, we sold a portfolio of eight office properties located in Lawrenceville, New Jersey, one property located in San Diego, California, one property located in Carlsbad, California, one property located in Malvern, Pennsylvania, one property located in Exton, Pennsylvania, one property located in King of Prussia, Pennsylvania, and one property in West Chester, Pennsylvania. During the six-month period ended June 30, 2014, these properties had total revenues of \$5.1 million, property operating expenses of \$1.7 million, \$0.6 million of real estate taxes and \$1.8 million of depreciation and amortization expense. We recognized a net gain on sale related to these transactions of \$3.0 million.

Net Income (Loss)

Net income (loss) decreased by \$11.2 million during the six-month period ended June 30, 2014 compared to the six-month period ended June 30, 2013 as a result of the factors described above. Net income is significantly impacted by depreciation of operating properties and amortization of acquired intangibles. These non-cash charges do not directly affect our ability to pay dividends. Amortization of acquired intangibles will continue over the related lease terms or estimated duration of the tenant relationships.

LIQUIDITY AND CAPITAL RESOURCES

General

Our principal liquidity needs for the next twelve months are as follows:

- fund normal recurring expenses,
- fund capital expenditures, including capital and tenant improvements and leasing costs,
- fund repayment of certain debt instruments when they mature,
- fund current development and redevelopment costs, and
- fund distributions to shareholders to maintain REIT status.

As of June 30, 2014, the Parent Company owned a 98.9% interest in the Operating Partnership. The remaining interest of approximately 1.1% pertains to common limited partnership interests owned by non-affiliated investors who contributed property to the Operating Partnership in exchange for their interests. As the sole general partner of the Operating Partnership, the Parent Company has full and complete responsibility for the Operating Partnership's day-to-day operations and management. The Parent Company's source of funding for its dividend payments and other obligations is the distributions it receives from the Operating Partnership.

We believe that our liquidity needs will be satisfied through available cash balances and cash flows generated by operations, financing activities and selective property sales. Rental revenue, expense recoveries from tenants, and other income from operations are our principal sources of cash to pay operating expenses, debt service, recurring capital expenditures and the minimum distributions required to maintain our REIT qualification. We seek to increase cash flows from our properties by maintaining quality standards for our properties that promote high occupancy rates and permit increases in rental rates while reducing tenant turnover and controlling operating expenses. Our revenue also includes third-party fees generated by our property management, leasing, development and construction businesses. We believe that our revenue, together with proceeds from property sales and debt financings, will continue to provide funds for our short-term liquidity needs. However, material changes in our operating or financing activities may adversely affect our net cash flows. With uncertain economic conditions, vacancy rates may increase, effective rental rates on new and renewed leases may decrease and tenant installation costs, including concessions, may increase in most or all of our markets throughout 2014 and possibly beyond. As a result, our revenues and cash flows could be insufficient to cover operating expenses, including increased tenant installation costs, pay debt service or make distributions to shareholders over the short-term. If this situation were to occur, we expect that we would finance cash deficits through borrowings under our unsecured credit facility and other sources of debt and equity financings. In addition, a material adverse change in cash provided by operations could adversely affect our compliance with financial performance covenants under our unsecured credit facility, including unsecured term loans and unsecured notes.

The liquidity of the Parent Company is dependent on the Operating Partnership's ability to make distributions to the Parent Company. However, there can be no assurance that the Operating Partnership's sources of capital will continue to be available to meet its working capital needs including its ability to make distribution payments to the Parent Company. The Parent Company unconditionally guarantees the Operating Partnership's secured and unsecured obligations, which, as of June 30, 2014, amounted to \$663.0 million and \$1,929.7 million, respectively.

In cases where the Operating Partnership is faced with working capital problems or would need to raise capital to fund acquisitions and developments, the Parent Company utilizes multiple financing sources to fund our long-term capital needs. When needed, we use borrowings under our unsecured credit facility for general business purposes, including to meet debt maturities and to fund distributions to shareholders as well as development and acquisition costs and other expenses from time to time as necessary. In light of the continuing volatility in financial markets and economic uncertainties, it is possible, that one or more lenders under our unsecured revolving credit facility could fail to fund a borrowing request. Such an event could adversely affect our ability to access funds from our unsecured credit facility when needed to fund distributions or pay expenses.

Our ability to incur additional debt is dependent upon a number of factors, including our credit ratings, the value of our unencumbered assets, our degree of leverage and borrowing restrictions imposed by our lenders. If one or more rating agencies were to downgrade our unsecured credit rating, our access to the unsecured debt market would be more limited and the interest rate under our unsecured credit facility and unsecured term loans would increase.

The Parent Company maintains a shelf registration statement that has registered the offer and sale of common shares, preferred shares, depositary shares, warrants and unsecured debt securities. Subject to our ongoing compliance with securities laws, and if warranted by market conditions, we may offer and sell equity and debt securities from time to time under the shelf registration

statement. The Parent Company also maintains a continuous offering program under which we may sell up to an aggregate amount of 16,000,000 common shares until November 5, 2016 in at-the-market offerings.

The Parent Company, other than acting as the sole general partner of the Operating Partnership, also issues equity from time to time, the proceeds of which it contributes to the Operating Partnership in exchange for additional interests in the Operating Partnership, and guarantees debt obligations of the Operating Partnership. The Parent Company's ability to sell common shares and preferred shares is dependent on, among other things, general market conditions for REITs, market perceptions about the Company as a whole and the current trading price of the Parent Company's shares.

We also consider sales of selected assets as part of our liquidity and balance sheet management. We use proceeds from asset sales, as appropriate, to repay existing indebtedness, provide capital for our development activities and to strengthen our financial condition.

Cash Flows

The following discussion of our cash flows is based on the consolidated statement of cash flows and is not meant to be a comprehensive discussion of the changes in our cash flows for the periods presented.

As of June 30, 2014 and December 31, 2013, we maintained cash and cash equivalents of \$234.8 million and \$263.2 million, respectively. The following are the changes in cash flow from our activities for the six-month periods ended June 30, 2014 and 2013 (in thousands):

Activity	2014	2013
Operating	\$90,241	\$96,233
Investing	(61,388)) 69,165
Financing	(57,224)) 49,001
Net cash flows	\$(28,371)) \$214,399

Our principal source of cash flows is from the operation of our properties. We do not restate our cash flows for discontinued operations.

The net decrease of \$6.0 million in cash from operating activities for the six months ended June 30, 2014 compared to the six months ended June 30, 2013 is primarily attributable to the timing of cash receipts and cash expenditures in the normal course of operations.

The net decrease of \$130.6 million in cash from investing activities during the six months ended June 30, 2014 compared to the six months ended June 30, 2013 is primarily attributable to the following:

- a decrease of \$105.8 million of net proceeds from the sale of twelve properties during the six months ended June 30, 2013 compared to the contribution of one property to an unconsolidated joint venture and the sale of two land parcels during the six months ended June 30, 2014 (see Note 3 to the consolidated financial statements for details);

- a decrease of \$17.0 million from the sale of our interest in an unconsolidated real estate venture during the six months ended June 30, 2013, with no comparable transactions during the six months ended June 30, 2014;

- an increase in capital expenditures for tenant and building improvements and leasing commissions by \$30.1 million during the six months ended June 30, 2014 compared to the six months ended June 30, 2013 primarily attributed to the development of FMC at Cira Centre South and Encino Trace; and

- a decrease from the reimbursement of \$2.0 million in pre-formation development costs of an unconsolidated real estate venture during the six months ended June 30, 2013, with no comparable transactions during the six months ended June 30, 2014.

The decrease in cash from investing activities was partially offset by the following transactions:

- a decrease of \$8.4 million in funds used for acquisitions, primarily driven by the purchase of a 1.8 acre land parcel underlying Three Logan Square during the six months ended June 30, 2013 compared to the purchase of a development project in Austin, Texas known as Encino Trace (see Note 3 to the consolidated financial statements for details) during the six months ended June 30, 2014;

a decrease of \$9.5 million of investments in unconsolidated Real Estate Ventures is primarily due to the increase in our common ownership interest in One Commerce Square and Two Commerce Square, which we contributed \$6.6 million of capital to the unconsolidated real estate venture during the six months ended June 30, 2013. We contributed our required capital balance for the development of evo at Cira Centre South, which totaled \$4.6 million during the six months ended June 30, 2013, offset by net increases of \$1.7 million during the six months ended June 30, 2014; an increase of \$1.2 million in escrow cash due to timing of payments;

an increase of \$1.9 million in cash distributions from a Real Estate Venture during the six months ended June 30, 2014 compared to the six months ended June 30, 2013, primarily reflecting increased distributions of operating cash flow from the DRA Austin real estate venture during the fourth quarter of 2013;

an increase of \$2.6 million in payments on the mortgage note receivable during the six months ended June 30, 2014 compared to the six months ended June 30, 2013, and;

an increase in advances made for purchase of tenant assets, net of repayments of \$0.7 million during the six months ended June 30, 2014, when compared to the six months ended June 30, 2013.

The net decrease of \$106.2 million in cash used in financing activities during the six months ended June 30, 2014 compared to the six months ended June 30, 2013 is primarily attributable to the following:

- the receipt of \$181.5 million in proceeds from the 12,650,000 common share issuance by the Parent Company during the six months ended June 30, 2013 with no comparable share issuance during the six months ended June 30, 2014;
- an increase of \$1.1 million in repayments of mortgage notes payable during six months ended June 30, 2014 compared to the six months ended June 30, 2013 which is primarily attributable to the mortgage notes assumed upon acquiring the remaining common ownership interest in One and Two Commerce Square;

a decrease of \$1.1 million in proceeds from the exercise of stock options during the six months ended June 30, 2014 compared to the six months ended June 30, 2013, and;

an increase in distributions paid to shareholders and on non-controlling interests to \$51.3 million during the six months ended June 30, 2014 from \$47.3 million during the six months ended June 30, 2013.

The net decrease in cash used in financing activities described above was offset by the following:

- a decrease of \$69.0 million in net borrowings under the unsecured Credit Facility during the six months ended June 30, 2013 compared to no draws on our line of credit for the six months ended June 30, 2014; and
- a decrease in repayments of unsecured notes of \$12.9 million during the six months ended June 30, 2013 compared to no such repayments during the six months ended June 30, 2014.

Capitalization Indebtedness

The table below summarizes indebtedness under our mortgage notes payable, our unsecured notes and our Credit Facility at June 30, 2014 and December 31, 2013:

	June 30, 2014 (dollars in thousands)	December 31, 2013

The indenture under which the Operating Partnership issued its unsecured notes contains financial covenants, including (i) a leverage ratio not to exceed 60%, (ii) a secured debt leverage ratio not to exceed 40%, (iii) a debt service coverage ratio of greater than 1.5 to 1.0 and (iv) an unencumbered asset value of not less than 150% of unsecured debt. The Operating Partnership is in compliance with all covenants as of June 30, 2014.

The Operating Partnership has mortgage loans that are collateralized by certain of its Properties. Payments on mortgage loans are generally due in monthly installments of principal and interest, or interest only. The Operating Partnership intends to refinance or repay its mortgage loans as they mature through the use of proceeds from selective Property sales and secured or unsecured borrowings. However, in the current and expected future economic environment one or more of these sources may not be available on attractive terms or at all.

The charter documents of the Parent Company and Operating Partnership do not limit the amount or form of indebtedness that the Operating Partnership may incur, and its policies on debt incurrence are solely within the discretion of the Parent Company's Board of Trustees, subject to the financial covenants in the Credit Facility, indenture and other credit agreements.

Equity

In order to maintain its qualification as a REIT, the Parent Company is required to, among other things, pay dividends to its shareholders amounting to at least 90% of its REIT taxable income. On May 29, 2014, the Parent Company declared a distribution of \$0.15 per common share, totaling \$23.6 million, which it paid on July 21, 2014 to its shareholders of record as of July 7, 2014. In addition, the Parent Company declared distributions on its Series E Preferred Shares to holders of record as of June 30, 2014. These shares are entitled to a preferential return of 6.90% per annum on the \$25.00 per share liquidation preference. Distributions paid on July 15, 2014 to holders of Series E Preferred Shares totaled \$1.7 million.

On May 15, 2014, the Company amended its Amended and Restated Declaration of Trust authorizing an increase in the Company's total number of shares of beneficial interest from 220,000,000 to 420,000,000 shares, with the number of authorized common shares of beneficial interest increased from 200,000,000 to 400,000,000 and the number of authorized preferred shares of beneficial interest remaining unchanged at 20,000,000.

The Parent Company also maintains a continuous offering program (the "Offering Program"), under which we may sell up to an aggregate amount of 16,000,000 common shares until November 5, 2016 in at the market offerings. This program was put in place on November 5, 2013. During the six months ended June 30, 2014, we did not sell any shares under the Offering Program.

The Parent Company maintains a share repurchase program under which its Board of Trustees has authorized the Parent Company to repurchase common shares from time to time in accordance with the limits set by the Board of Trustees. As of June 30, 2014, there were 539,200 shares available for repurchase under this program. The Parent Company did not repurchase any shares during the three-month period ended June 30, 2014. The Parent Company's Board of Trustees has not limited the duration of the program and the program may be terminated at any time.

Inflation

A majority of our leases provide for tenant reimbursement of real estate taxes and operating expenses either on a triple net basis or over a base amount. In addition, many of our office leases provide for fixed base rent increases. We believe that inflationary increases in expenses will be partially offset by expense reimbursement and contractual rent increases.

Commitments and Contingencies

The following table outlines the timing of payment requirements related to our contractual commitments as of June 30, 2014:

	Payments by Period (in thousands)				
	Total	Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years
Mortgage notes payable (a)	\$662,955	\$14,267	\$337,884	\$23,447	\$287,357
Unsecured term loans	450,000	150,000	100,000	200,000	—
Unsecured debt (a)	1,479,703	376,174	449,919	325,000	328,610
Ground leases (b)	64,724	1,380	2,760	2,760	57,824
Development contracts (c)	98,465	92,347	6,118	—	—
Interest expense (d)	510,310	116,462	155,504	80,642	157,702
Other liabilities (e)	23,757	3,495	—	—	20,262
	\$3,289,914	\$754,125	\$1,052,185	\$631,849	\$851,755

(a) Amounts do not include unamortized discounts and/or premiums.

Future minimum rental payments under the terms of all non-cancelable ground leases under which we are the lessee are expensed on a straight-line basis regardless of when payments are due. See Note 16 - Commitments and Contingencies to consolidated financial statements for further information on ground leases not included in the above table.

(c) Represents contractual obligations for development projects and does not contemplate all costs expected to be incurred for such developments.

(d) Variable rate debt future interest expense commitments are calculated using June 30, 2014 interest rates.

Other liabilities consists of (i) our obligation to fund the remaining balance of \$3.5 million, as of June 30, 2014, of our commitment to fund post-closing capital expenditures totaling \$5.2 million on behalf of our Austin Venture, (e)(ii) our deferred compensation liability, (iii) the liability investment balance related to Coppel Associates real estate venture located in Austin, Texas and (iv) the interest accretion on the existing transfer tax liability on Two Logan Square in Philadelphia, Pennsylvania.

The above contractual commitment table does not include amounts related to the development of the FMC Tower at Cira Centre South, a trophy class, mixed-use office tower at 30th and Walnut Streets in Philadelphia, Pennsylvania. We anticipate the project cost to total \$385.0 million, of which \$15.4 million has been funded through June 30, 2014, and intend to fund remaining development costs through a combination of existing cash balances, availability under our line of credit, capital raised through one or more joint venture formations, proceeds from additional asset sales or equity and debt financing including third party equity sources, the composition of which has not yet been determined. The costs to complete the project will be funded over the construction period, which is scheduled to commence in the second quarter of 2014 and be completed during the second quarter of 2016.

In addition, on July 31, 2013 we formed 4040 Wilson LLC Venture, a real estate venture between us and Ashton Park Associates LLC ("Ashton Park"), an unaffiliated third party. The real estate venture expects to construct a 426,900 square foot office representing the final phase of the eight building, mixed use, Liberty Center Complex developed by the parent company of Ashton Park in the Ballston submarket of Arlington, Virginia. The estimated project costs are \$194.6 million, which we expect will be financed through \$72.0 million of partner capital contributions, consisting of land with a value of \$36.0 million from Ashton Park and \$36.0 million of cash from us, of which \$16.4 million has been funded to date. We expect to fund our remaining \$19.6 million of capital contributions to finance the construction of a below-grade parking garage by the end of the first quarter of 2015.

As of June 30, 2014, we were obligated to pay for tenant improvements not yet completed for a maximum of \$102.2 million, which is not included in the above table. We expect that most of the obligations will be paid within one year. See Note 4 - Investment in Unconsolidated Real Estate Ventures to the consolidated financial statements for further details on payment guarantees provided on the behalf of real estate ventures.

Funds from Operations (FFO)

Pursuant to the revised definition of FFO adopted by the Board of Governors of the National Association of Real Estate Investment Trusts (“NAREIT”), we calculate FFO by adjusting net income/(loss) attributable to common unit holders (computed in accordance with GAAP) for gains (or losses) from sales of properties, impairment losses on depreciable consolidated real estate, impairment losses on investments in unconsolidated joint ventures driven by a measurable decrease in the fair value of depreciable real estate held by the unconsolidated Real Estate Ventures, real estate related depreciation and amortization, and after similar adjustments

for unconsolidated Real Estate Ventures. FFO is a non-GAAP financial measure. We believe that the use of FFO combined with the required U.S. GAAP presentations, has been beneficial in improving the understanding of operating results of REITs among the investing public and making comparisons of REITs' operating results more meaningful. We consider FFO to be a useful measure for reviewing comparative operating and financial performance because, by excluding gains or losses related to sales of previously depreciated operating real estate assets and real estate depreciation and amortization, FFO can help the investing public compare the operating performance of a company's real estate between periods or as compared to other companies. Our computation of FFO may not be comparable to FFO reported by other REITs or real estate companies that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently.

We consider net income, as defined by U.S. GAAP, to be the most comparable earnings measure to FFO. While FFO and FFO per unit are relevant and widely used measures of operating performance of REITs, FFO does not represent cash flow from operations or net income as defined by U.S. GAAP and should not be considered as alternatives to those measures in evaluating the Company's liquidity or operating performance. We believe that to further understand our performance, FFO should be compared with its reported net income/(loss) attributable to common unit holders and considered in addition to cash flows in accordance with GAAP, as presented in our consolidated financial statements. The following table presents a reconciliation of net income (loss) attributable to common unit holders to FFO for the three and six-month periods ended June 30, 2014 and 2013:

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market risk is the exposure to loss resulting from changes in interest rates, commodity prices and equity prices. In pursuing the Company's business plan, the primary market risk to which it is exposed is interest rate risk. Changes in the general level of interest rates prevailing in the financial markets may affect the spread between the Company's yield on invested assets and cost of funds and, in turn, the Company's ability to make distributions or payments to its shareholders. While the Company has not experienced any significant credit losses, in the event of a significant rising interest rate environment and/or continued economic slowdown, defaults could increase and result in losses to the Company which would adversely affect its operating results and liquidity.

Interest Rate Risk and Sensitivity Analysis

The analysis below presents the sensitivity of the market value of our financial instruments to selected changes in market rates. The range of changes chosen reflects its view of changes which are reasonably possible over a one-year period. Market values are the present value of projected future cash flows based on the market rates chosen.

Our financial instruments consist of both fixed and variable rate debt. As of June 30, 2014, our consolidated debt consisted of \$663.0 million of mortgage loans and \$1,401.1 million of unsecured notes, all of which are fixed rate borrowings. We also have variable rate debt consisting of \$78.6 million in trust preferred securities and \$450.0 million of unsecured term loans all of which are swapped to fixed, except for \$100.00 million of unsecured term loans which bear interest at a variable rate. All financial instruments were entered into for other than trading purposes and the net market value of these financial instruments is referred to as the net financial position. Changes in interest rates have different impacts on the fixed and variable rate portions of our debt portfolio. A change in interest rates on the fixed portion of the debt portfolio impacts the net financial instrument position, but has no impact on interest incurred or cash flows. A change in interest rates on the variable portion of the debt portfolio impacts the interest incurred and cash flows, but does not impact the net financial instrument position.

If market rates of interest increase by 100 basis points, the fair value of our outstanding fixed-rate mortgage debt would decrease by approximately \$29.8 million. If market rates of interest decrease by 100 basis points, the fair value of our outstanding fixed-rate mortgage debt would increase by approximately \$32.5 million.

As of June 30, 2014, based on prevailing interest rates and credit spreads, the fair value of our \$1,397.0 million of unsecured notes was \$1,478.8 million. For sensitivity purposes, a 100 basis point change in the discount rate equates to a change in the total fair value of our debt of approximately \$14.0 million at June 30, 2014.

From time to time or as the need arises, we use derivative instruments to manage interest rate risk exposures and not for speculative purposes. The total carrying value of our variable rate debt (including variable swapped to fixed) was approximately \$528.6 million at June 30, 2014. The total fair value of our debt was approximately \$504.0 million at June 30, 2014. For sensitivity purposes, if market rates of interest increase by 100 basis points the fair value of our variable rate debt would decrease by approximately \$19.4 million at June 30, 2014. If market rates of interest decrease by 100 basis points the fair value of our outstanding variable rate debt would increase by approximately \$21.7 million. At June 30, 2014, our outstanding variable rate debt based on LIBOR totaled approximately \$528.6 million, of which \$100.0 million remained variable, with the remaining \$428.6 million being swapped to fixed. At June 30, 2014, the interest rate on our variable rate debt was approximately 1.9%. If market interest rates on our variable rate debt were to change by 100 basis points, total interest expense would have changed by approximately \$0.3 million for the quarter ended June 30, 2014.

These amounts were determined solely by considering the impact of hypothetical interest rates on our financial instruments. Due to the uncertainty of specific actions we may undertake to minimize possible effects of market interest rate increases, this analysis assumes no changes in our financial structure.

Item 4. Controls and Procedures

Controls and Procedures (Parent Company)

Evaluation of disclosure controls and procedures. Under the supervision and with the participation of its management, including its principal executive officer and principal financial officer, the Parent Company conducted an evaluation of its disclosure controls and procedures, as such term is defined under Rule 13a-15(e)
