NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Business

Pilgrim's Pride Corporation (referred to herein as "Pilgrim's," "PPC," "the Company," "we," "us," "our," or similar terms) is one of the largest chicken producers in the world, with operations in the United States ("U.S."), Mexico and Puerto Rico. Pilgrim's products are sold to foodservice, retail and frozen entrée customers. The Company's primary distribution is through retailers, foodservice distributors and restaurants throughout the United States and Puerto Rico and in the northern and central regions of Mexico. Additionally, the Company exports chicken products to approximately 95 countries. Pilgrim's fresh chicken products consist of refrigerated (nonfrozen) whole chickens, whole cut-up chickens and selected chicken parts that are either marinated or non-marinated. The Company's prepared chicken products include fully cooked, ready-to-cook and individually frozen chicken parts, strips, nuggets and patties, some of which are either breaded or non-breaded and either marinated or non-marinated. As a vertically integrated company, we control every phase of the production of our products. We operate feed mills, hatcheries, processing plants and distribution centers in 12 U.S. states, Puerto Rico and Mexico. Pilgrim's has approximately 34,200 employees and has the capacity to process more than 34 million birds per week for a total of more than 10 billion pounds of live chicken annually. Approximately 3,800 contract growers supply poultry for the Company's operations. As of March 29, 2015, JBS USA Holdings, Inc. ("JBS USA"), an indirect subsidiary of Brazil-based JBS S.A., beneficially owned 75.3% of the Company's outstanding common stock.

Consolidated Financial Statements

The accompanying unaudited consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the U.S. ("U.S. GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the U.S. Securities and Exchange Commission ("SEC"). Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal and recurring adjustments unless otherwise disclosed) considered necessary for a fair presentation have been included. Operating results for the thirteen weeks ended March 29, 2015 are not necessarily indicative of the results that may be expected for the year ending December 27, 2015. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 28, 2014.

Pilgrim's operates on a 52/53-week fiscal year that ends on the Sunday falling on or before December 31. The reader should assume any reference we make to a particular year (for example, 2015) in the notes to these Condensed Consolidated Financial Statements applies to our fiscal year and not the calendar year.

The Condensed Consolidated Financial Statements include the accounts of the Company and its majority-owned subsidiaries. We eliminate all significant affiliate accounts and transactions upon consolidation.

The Company measures the financial statements of its Mexico subsidiaries as if the U.S. dollar were the functional currency. Accordingly, we remeasure assets and liabilities, other than non-monetary assets, of the Mexico subsidiaries at current exchange rates. We remeasure non-monetary assets using the historical exchange rate in effect on the date of each asset's acquisition. We remeasure income and expenses at average exchange rates in effect during the period. Currency exchange gains or losses are included in the line item Foreign currency transaction loss in the Condensed Consolidated Statements of Income.

Reportable Segment

We operate in one reportable business segment, as a producer and seller of chicken products we either produce or purchase for resale.

Revenue Recognition

We recognize revenue when all of the following circumstances are satisfied: (i) persuasive evidence of an arrangement exists, (ii) price is fixed or determinable, (iii) collectability is reasonably assured and (iv) delivery has occurred.

Delivery occurs in the period in which the customer takes title and assumes the risks and rewards of ownership of the products specified in the customer's purchase order or sales agreement. Revenue is recorded net of estimated incentive offerings including special pricing agreements, promotions and other volume-based incentives. Revisions to these

estimates are charged back to net sales in the period in which the facts that give rise to the revision become known.

7

Table of Contents

Book Overdraft

The majority of the Company's disbursement bank accounts are zero balance accounts where cash needs are funded as checks are presented for payment by the holder. Checks issued pending clearance that result in overdraft balances for accounting purposes are classified as accounts payable and the change in the related balance is reflected in operating activities on the Condensed Consolidated Statements of Cash Flows.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued new accounting guidance on revenue recognition, which provides for a single five-step model to be applied to all revenue contracts with customers. The new standard also requires additional financial statement disclosures that will enable users to understand the nature, amount, timing and uncertainty of revenue and cash flows relating to customer contracts. Companies have an option to use either a retrospective approach or cumulative effect adjustment approach to implement the standard. There is no option for early adoption. Unless the FASB defers implementation of this new standard, the provisions of the new guidance will be effective as of the beginning of our 2017 fiscal year. We are currently evaluating the impact of the new guidance on our financial statements and have not yet selected a transition approach to implement the standard.

2. FAIR VALUE MEASUREMENTS

Fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Assets and liabilities measured at fair value must be categorized into one of three different levels depending on the assumptions (i.e., inputs) used in the valuation:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 Quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability; or

Level 3 Unobservable inputs, such as discounted cash flow models or valuations.

The determination of where assets and liabilities fall within this hierarchy is based upon the lowest level of input that is significant to the fair value measurement in its entirety.

As of March 29, 2015 and December 28, 2014, the Company held certain items that were required to be measured at fair value on a recurring basis. These included derivative assets and liabilities and deferred compensation plan assets. Derivative assets and liabilities consist of long and short positions on exchange-traded commodity futures instruments. The Company maintains nonqualified deferred compensation plans for executives and other highly compensated employees. Investments are maintained within a trust and include money market funds, mutual funds and life insurance policies. The cash surrender value of the life insurance policies is invested primarily in mutual funds. The following items were measured at fair value on a recurring basis:

	March 29, 2015			
	Level 1	Level 2	Level 3	Total
	(In thousands)			
Derivative assets - commodity futures instruments	\$4,338	\$—	\$—	\$4,338
Derivative assets - foreign currency instruments	899	—	—	899
Deferred compensation plan assets	6,522	—	—	6,522
Derivative liabilities - commodity futures instruments	(3,751) —	—	(3,751)
Derivative liabilities - commodity options instruments	(531) —	—	(531)
Derivative liabilities - foreign currency instruments	(240)		(240)
Long-term debt and other borrowing arrangements:				
Fixed-rate senior notes payable at 5.75%	(510,000) —	—	(510,000)
Floating-rate term notes	(650,000) —	—	(650,000)
Fixed-rate capital lease obligations	—	—	(617) (617)

Table of Contents

	December 28, 2014			
	Level 1	Level 2	Level 3	Total
	(In thousands)			
Derivative assets - commodity futures instruments	\$8,416	\$—	\$—	\$8,416
Derivative assets - foreign currency instruments	2,563	—	—	2,563
Deferred compensation plan assets	6,753	—	—	6,753
Derivative liabilities - commodity futures instruments	(8,580) —	—	(8,580
Derivative liabilities - commodity options instruments	(14,103) —	—	(14,103
Long-term debt and other borrowing arrangements:				
Fixed-rate public notes	(3,979) —	—	(3,979
Fixed-rate capital lease obligations	—	—	(587) (587
			Thirteen Weeks Ended	
			March 29,	March 30,
			2015	2014
			(In thousands)	
Change in Value of Level 3 Liabilities:				
Balance, beginning of period			\$587	\$704
Borrowings			—	—
Payments			(36) (33
Change in fair value inputs			66	(3
Balance, end of period			\$617	\$668

The valuation of financial assets and liabilities classified in Level 1 is determined using a market approach, taking into account current interest rates, creditworthiness, and liquidity risks in relation to current market conditions, and is based upon unadjusted quoted prices for identical assets in active markets. The valuation of financial assets and liabilities in Level 2 is determined using a market approach based upon quoted prices for similar assets and liabilities in active markets or other inputs that are observable for substantially the full term of the financial instrument. The valuation of financial assets in Level 3 is determined using an income approach based on unobservable inputs such as discounted cash flow models or valuations.

In addition to the fair value disclosure requirements related to financial instruments carried at fair value, accounting standards require interim disclosures regarding the fair value of all of the Company's financial instruments. The methods and significant assumptions used to estimate the fair value of financial instruments and any changes in methods or significant assumptions from prior periods are also required to be disclosed. The carrying amounts and estimated fair values of financial assets and liabilities recorded in the Condensed Consolidated Balance Sheets consisted of the following:

	March 29, 2015		December 28, 2014		
	Carrying Amount	Fair Value	Carrying Amount	Fair Value	Note Reference
	(In thousands)				
Derivative assets - commodity futures instruments	\$4,338	\$4,338	\$8,416	\$8,416	6
Derivative assets - commodity options instruments	—	—	—	—	6
Derivative assets - foreign currency instruments	899	899	2,563	2,563	6
Deferred compensation plan assets	6,522	6,522	6,753	6,753	
Derivative liabilities - commodity futures instruments	(3,751) (3,751) (8,580) (8,580) 6
Derivative liabilities - commodity options instruments	(531) (531) (14,103) (14,103) 6
Derivative liabilities - foreign currency instruments	(240) (240) —	—	6

Long-term debt and other borrowing arrangements (1,150,574) (1,160,617) (4,242) (4,566) 9

Derivative assets were recorded at fair value based on quoted market prices and are included in the line item Prepaid expenses and other current assets on the Condensed Consolidated Balance Sheet. Deferred compensation plan assets were recorded at fair value based on quoted market prices and are included in the line item Other assets in the Condensed Consolidated Balance Sheets. Derivative liabilities were recorded at fair value based on quoted market prices and are included in the line item Accrued expenses and other current liabilities on the Condensed Consolidated Balance Sheet. The fair values of the Company's long-term

9

Table of Contents

debt and other borrowing arrangements were estimated by calculating the net present value of future payments for each debt obligation or borrowing by: (i) using a risk-free rate applicable for an instrument with a life similar to the remaining life of each debt obligation or borrowing plus the current estimated credit risk spread for the Company or (ii) using the quoted market price at March 29, 2015 or December 28, 2014, as applicable.

In addition to assets and liabilities that are recorded at fair value on a recurring basis, the Company records certain assets and liabilities at fair value on a nonrecurring basis. Generally, assets are recorded at fair value on a nonrecurring basis as a result of impairment charges when required by U.S. GAAP. There were no significant fair value measurement losses recognized for such assets and liabilities in the periods reported.

3. TRADE ACCOUNTS AND OTHER RECEIVABLES

Trade accounts and other receivables, less allowance for doubtful accounts, consisted of the following:

	March 29, 2015	December 28, 2014
	(In thousands)	
Trade accounts receivable	\$357,101	\$371,268
Account receivable from related parties ^(a)	4,719	5,250

Total chicken inventories	788,219	789,768
Commercial feed and other	503	537
Total inventories	\$788,722	\$790,305

5. INVESTMENTS IN SECURITIES

We recognize investments in available-for-sale securities as cash equivalents, current investments or long-term investments depending upon each security's length to maturity. Additionally, those securities identified by management at the time of purchase for funding operations in less than one year are classified as current.

The following table summarizes our investments in available-for-sale securities:

	March 29, 2015		December 28, 2014	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
	(In thousands)			
Cash equivalents:				
Fixed income securities	\$124,968	\$124,968	\$204,286	\$204,286
Other	53	53	80	80

All of the securities classified as cash and cash equivalents above mature within 90 days. The specific identification method is used to determine the cost of each security sold and each amount reclassified out of accumulated other comprehensive loss to earnings. Gross realized gains recognized during the thirteen weeks ended March 29, 2015 and March 30, 2014 related to the Company's available-for-sale securities totaled approximately \$130,000 and \$195,900, respectively. Gross realized losses recognized during the thirteen weeks ended March 29, 2015 related to the Company's available-for-sale securities totaled approximately \$8,300. No gross realized losses were recognized during the thirteen weeks ended March 30, 2014. Proceeds received from the sale or maturity of available-for-sale securities during the thirteen weeks ended March 29, 2015 and March 30, 2014 are disclosed in the Condensed Consolidated Statements of Cash Flows. Net unrealized holding gains and losses on the Company's available-for-sale securities recognized during the thirteen weeks ended March 29, 2015 and March 30, 2014 that have been included in accumulated other comprehensive loss and the net amount of gains and losses reclassified out of accumulated other comprehensive loss to earnings during the thirteen weeks ended March 29, 2015 and March 30, 2014 are disclosed in "Note 12. Stockholders' Equity."

6. DERIVATIVE FINANCIAL INSTRUMENTS

The Company utilizes various raw materials in its operations, including corn, soybean meal, soybean oil, sorghum and energy, such as natural gas, electricity and diesel fuel, which are all considered commodities. The Company considers these raw materials generally available from a number of different sources and believes it can obtain them to meet its requirements. These commodities are subject to price fluctuations and related price risk due to factors beyond our control, such as economic and political conditions, supply and demand, weather, governmental regulation and other circumstances. Generally, the Company purchases derivative financial instruments, specifically exchange-traded futures and options, in an attempt to mitigate price risk related to its anticipated consumption of commodity inputs for approximately the next 12 months. The Company may purchase longer-term derivative financial instruments on particular commodities if deemed appropriate.

The Company has operations in Mexico and, therefore, has exposure to translational foreign exchange risk when the financial results of those operations are translated to U.S. dollars. Generally, the Company purchases derivative financial instruments such as foreign currency forward contracts to manage this translational foreign exchange risk. The fair value of derivative assets is included in the line item Prepaid expenses and other current assets on the Condensed Consolidated Balance Sheets while the fair value of derivative liabilities is included in the line item Accrued expenses and other current liabilities on the same statements. Our counterparties require that we post cash collateral for changes in the net fair value of the derivative contracts.

We have not designated the derivative financial instruments that we have purchased to mitigate commodity purchase transaction exposures as cash flow hedges. Therefore, we recognized changes in the fair value of these derivative financial instruments immediately in earnings. Gains or losses related to these derivative financial instruments are included in the line item Cost of sales in the Condensed Consolidated Statements of Income. The Company recognized a net gain of \$23.4 million and a net loss of \$8.0 million related to changes in the fair value of its derivative financial instruments during the thirteen weeks ended March 29, 2015 and March 30, 2014, respectively. Information regarding the Company's outstanding derivative instruments and cash collateral posted with (owed to) brokers is included in the following table:

	March 29, 2015	December 28, 2014
	(Fair values in thousands)	
Fair values:		
Commodity derivative assets	\$4,338	\$8,416
Commodity derivative liabilities	(4,282)	(22,683)
Cash collateral posted with brokers	19,448	25,205
Foreign currency derivative assets	899	2,563
Foreign currency derivative liabilities	(240)	—
Derivatives coverage ^(a) :

Table of Contents

7. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment (“PP&E”), net consisted of the following:

	March 29, 2015	December 28, 2014
	(In thousands)	
Land	\$66,959	\$66,798
Buildings	1,090,989	1,086,690
Machinery and equipment	1,576,161	1,537,241
Autos and trucks	51,338	52,639
Construction-in-progress	117,229	129,701
PP&E, gross	2,902,676	2,873,069
Accumulated depreciation	(1,721,268) (1,690,274
PP&E, net	\$ 1,181,408	\$ 1,182,795

The Company recognized depreciation expense of \$34.0 million and \$33.2 million during the thirteen weeks ended March 29, 2015 and March 30, 2014, respectively.

During the thirteen weeks ended March 29, 2015, we spent \$32.6 million on capital projects and transferred \$45.2 million of completed projects from construction-in-progress to depreciable assets.

During the thirteen weeks ended March 29, 2015, the Company sold miscellaneous equipment for cash of \$0.9 million and recognized a net gain of \$0.9 million. During the thirteen weeks ended March 30, 2014, the Company sold certain PP&E for cash of \$1.5 million and recognized net losses on these sales of \$0.6 million. PP&E sold in 2014 included a warehouse and a fertilizer building with miscellaneous fixtures and equipment in Texas.

Management has committed to the sale of certain properties and related assets, including, but not limited to, a processing plant in Louisiana and other miscellaneous assets, which no longer fit into the operating plans of the Company. The Company is actively marketing these properties and related assets for immediate sale and believes a sale of each property can be consummated within the next 12 months. At March 29, 2015 and December 28, 2014, the Company reported properties and related assets totaling \$1.4 million and \$1.4 million, respectively, in the line item Assets held for sale on its Condensed Consolidated Balance Sheets. The Company tested the recoverability of its assets held for sale and determined that the aggregate carrying amount of each asset group was recoverable over the remaining life of the primary asset in that asset group.

The Company has closed or idled various processing complexes, processing plants, hatcheries, broiler farms, and feed mills throughout the U.S. Neither the Board of Directors nor JBS USA has determined if it would be in the best interest of the Company to divest any of these idled assets. Management is therefore not certain that it can or will divest any of these assets within one year, is not actively marketing these assets and, accordingly, has not classified them as assets held for sale. The Company continues to depreciate these assets. At March 29, 2015, the carrying amount of these idled assets was \$66.6 million based on depreciable value of \$178.7 million and accumulated depreciation of \$112.1 million.

The Company last tested the recoverability of its long-lived assets held and used in December 2014. At that time, the Company determined that the carrying amount of its long-lived assets held and used was recoverable over the remaining life of the primary asset in the group and that long-lived assets held and used passed the Step 1 recoverability test under ASC 360-10-35, Impairment or Disposal of Long-Lived Assets. There were no indicators present during the thirteen weeks ended March 29, 2015 that required the Company to test its long-lived assets held and used for recoverability.

Table of Contents**8. CURRENT LIABILITIES**

Current liabilities, other than income taxes and current maturities of long-term debt, consisted of the following components:

	March 29, 2015	December 28, 2014
	(In thousands)	
Accounts payable:		
Trade accounts	\$367,117	\$347,107

Less: Current maturities of long-term debt		(133) (262
Long-term debt, less current maturities		\$1,150,441	\$3,980

Senior Notes

On March 11, 2015, the Company completed a sale of \$500.0 million aggregate principal amount of its 5.75% senior notes due 2025 (the "Senior Notes"). The Company used the net proceeds from the sale of the Senior Notes to repay \$350.0 million and \$150.0 million of the term loan indebtedness under the the U.S. Credit Facility (defined below) on March 12, 2015 and April 22, 2015, respectively. The Notes were sold to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended (the "Securities Act"), and outside the United States to non-U.S. persons pursuant to Regulation S under the Securities Act.

Table of Contents

The Senior Notes are governed by, and were issued pursuant to, an indenture dated as of March 11, 2015 by and among the Company, its guarantor subsidiary and Wells Fargo Bank, National Association, as trustee (the “Indenture”). The Indenture provides, among other things, that the Senior Notes bear interest at a rate of 5.75% per annum from the date of issuance until maturity, payable semi-annually in cash in arrears, beginning on September 15, 2015. The Senior Notes are guaranteed on a senior unsecured basis by the Company's guarantor subsidiary. In addition, any of the Company's other existing or future domestic restricted subsidiaries that incur or guarantee any other indebtedness (with limited exceptions) must also guarantee the Senior Notes. The Senior Notes and related guarantees are unsecured senior obligations of the Company and its guarantor subsidiary and rank equally with all of the Company's and its guarantor subsidiary's other unsubordinated indebtedness. The Senior Notes and the Indenture also contain customary covenants and events of default, including failure to pay principal or interest on the Senior Notes when due, among others.

U.S. Credit Facility

On February 11, 2015, the Company and its subsidiaries, To-Ricos, Ltd. and To-Ricos Distribution, Ltd. (together, the “To-Ricos Borrowers”), entered into a Second Amended and Restated Credit Agreement (the “U.S. Credit Facility”) with Coöperatieve Centrale Raiffeisen-Boerenleenbank B.A., Rabobank Nederland, New York Branch (“Rabobank”), as administrative agent, and the other lenders party thereto. The U.S. Credit Facility provides for a revolving loan commitment of at least \$700.0 million and a term loan commitment of up to \$1.0 billion (the “Term Loans”). The U.S. Credit Facility also includes an accordion feature that allows us, at any time, to increase the aggregate revolving loan and term loan commitments by up to an additional \$1.0 billion, subject to the satisfaction of certain conditions, including obtaining the lenders' agreement to participate in the increase.

The revolving loan commitment under the U.S. Credit Facility matures on February 10, 2020. All principal on the Term Loans is due at maturity on February 11, 2020. Because the Company prepaid \$350.0 million of the term loan indebtedness with proceeds from the Senior Notes, the Company is not required to pay quarterly installments. Covenants in the U.S. Credit Facility also require the Company to use the proceeds it receives from certain asset sales and specified debt or equity issuances and upon the occurrence of other events to repay outstanding borrowings under the U.S. Credit Facility. The Company had Term Loans outstanding totaling \$650.0 million as of March 29, 2015. The U.S. Credit Facility includes a \$75.0 million sub-limit for swingline loans and a \$125.0 million sub-limit for letters of credit. Outstanding borrowings under the revolving loan commitment and the Term Loans bear interest at a per annum rate equal to (i) in the case of LIBOR loans, LIBOR plus 1.50% through March 29, 2015 and, based on our net senior secured leverage ratio, between LIBOR plus 1.25% and LIBOR plus 2.75% and (ii) in the case of alternate base rate loans, the base rate plus 0.50% through March 29, 2015 and, based on our net senior secured leverage ratio, between the base rate plus 0.25% and base rate plus 1.75% thereafter.

Actual borrowings by the Company under the U.S. Credit Facility are subject to a borrowing base, which is a formula based on certain eligible inventory, eligible receivables and restricted cash under the control of Rabobank, in its capacity as administrative agent. The borrowing base formula will be reduced by the sum of (i) inventory reserves, (ii) rent and collateral access reserves, and (iii) any amount more than 15 days past due that is owed by the Company or its subsidiaries to any person on account of the purchase price of agricultural products or services (including poultry and livestock) if that person is entitled to any grower's or producer's lien or other security arrangement. Revolving loan availability under the borrowing base also will be limited to an aggregate of \$25.0 million with respect to the To-Ricos Borrowers. As of March 29, 2015, the applicable borrowing base was \$700.0 million and the amount available for borrowing under the revolving loan commitment was \$679.9 million. The Company had letters of credit of \$20.1 million and no outstanding borrowings under the revolving loan commitment as of March 29, 2015.

The U.S. Credit Facility contains financial covenants and various other covenants that may adversely affect the Company's ability to, among other things, incur additional indebtedness, incur liens, pay dividends or make certain restricted payments, consummate certain assets sales, enter into certain transactions with JBS USA and the Company's other affiliates, merge, consolidate and/or sell or dispose of all or substantially all of the Company's assets. The U.S. Credit Facility requires the Company to comply with a minimum level of tangible net worth covenant. The U.S. Credit Facility also provides that the Company may not incur capital expenditures in excess of \$500.0 million in any fiscal year. The Company is currently in compliance with the covenants under the U.S. Credit Facility.

All obligations under the U.S. Credit Facility will continue to be unconditionally guaranteed by certain of the Company's subsidiaries and will continue to be secured by a first priority lien on (i) the domestic (including Puerto Rico) accounts and inventory of the Company and its subsidiaries, (ii) 100% of the equity interests in the Company's domestic subsidiaries and 65% of the equity interests in the Company's direct foreign subsidiaries and (iii) substantially all of the assets of the Company and the guarantors under the U.S. Credit Facility.

14

Table of Contents

Subordinated Loan Agreement

On June 23, 2011, the Company entered into a Subordinated Loan Agreement with JBS USA (the “Subordinated Loan Agreement”). Pursuant to the terms of the Subordinated Loan Agreement, the Company agreed to reimburse JBS USA up to \$56.5 million for draws upon any letters of credit issued for JBS USA's account that support certain obligations of the Company or its subsidiaries. JBS USA agreed to arrange for letters of credit to be issued on its account in the amount of \$56.5 million to an insurance company serving the Company in order to allow that insurance company to return cash it held as collateral against potential workers compensation, auto and general liability claims. In return for providing this letter of credit, the Company has agreed to reimburse JBS USA for the letter of credit cost the Company would otherwise incur under its U.S. Credit Facility (as defined below). In the thirteen weeks ended March 29, 2015, the Company reimbursed JBS USA \$0.2 million for letter of credit costs. As of March 29, 2015, the Company has accrued an obligation of \$0.1 million to reimburse JBS USA for letter of credit costs incurred on its behalf. There remains no other commitment of JBS USA to make advances under the Subordinated Loan Agreement.

Mexico Credit Facility

On July 23, 2014, Avícola and certain Mexican subsidiaries entered into an unsecured credit agreement (the “Mexico Credit Facility”) with BBVA Bancomer, S.A. Institución de Banca Múltiple, Grupo Financiero BBVA Bancomer, as lender. The loan commitment under the Mexico Credit Facility is 560.0 million Mexican pesos. Outstanding borrowings under the Mexico Credit Facility will accrue interest at a rate equal to the TIIE rate plus 1.05%. The Mexico Credit Facility will mature on July 23, 2017. As of March 29, 2015, the U.S. dollar-equivalent of the loan commitment under the Mexico Credit Facility was \$36.8 million, and there were no outstanding borrowings under the Mexico Credit Facility.

10. INCOME TAXES

The Company recorded income tax expense of \$111.5 million, a 35.3% effective tax rate, for the thirteen weeks ended March 29, 2015 compared to income tax expense of \$52.0 million, a 34.6% effective tax rate, for the thirteen weeks ended March 30, 2014. The income tax expense recognized for the thirteen weeks ended March 29, 2015 and March 30, 2014, respectively, was primarily the result of the tax expense recorded on the Company's year-to-date income. In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities (including the impact of available carry back and carry forward periods), projected future taxable income and tax-planning strategies in making this assessment. As of March 29, 2015, the Company did not believe it had sufficient positive evidence to conclude that realization of its federal capital loss carry forwards and a portion of its foreign net deferred tax assets are more likely than not to be realized.

For the thirteen weeks ended March 29, 2015 and March 30, 2014, there is tax effect of \$1.3 million and \$3.5 million, respectively, reflected in other comprehensive income.

For the thirteen weeks ended March 29, 2015, there is tax effect of \$7.8 million reflected in additional paid-in-capital due to excess tax benefits related to compensation on dividend equivalent rights and vested stock awards. For the thirteen weeks ended March 30, 2014, there is no tax effect reflected in additional paid-in-capital due to excess compensation.

With few exceptions, the Company is no longer subject to U.S. federal, state or local income tax examinations by taxing authorities for years prior to 2009 and is no longer subject to Mexico income tax examinations by taxing authorities for years prior to 2009.

The Company is challenging the IRS' amended proof of claim relating to the tax year ended June 26, 2004 for Gold Kist Inc. (“Gold Kist”). See “Note 15. Commitments and Contingencies” for additional information.

11. PENSION AND OTHER POSTRETIREMENT BENEFITS

The Company sponsors programs that provide retirement benefits to most of its employees. These programs include qualified defined benefit pension plans, nonqualified defined benefit retirement plans, a defined benefit postretirement life insurance plan and defined contribution retirement savings plans. Expenses recognized under all of these retirement plans totaled \$4.5 million and \$1.4 million in the thirteen weeks ended March 29, 2015 and March 30,

2014, respectively.

Defined Benefit Plans Obligations and Assets

The change in benefit obligation, change in fair value of plan assets, funded status and amounts recognized in the Condensed Consolidated Balance Sheets for these defined benefit plans were as follows:

15

Net costs	\$3,508	\$17	\$447	\$20

Economic Assumptions

The weighted average assumptions used in determining pension and other postretirement plan information were as follows:

	March 29, 2015		December 28, 2014	
	Pension Benefits	Other Benefits	Pension Benefits	Other Benefits
Assumptions used to measure benefit obligation at end of period:				
Discount rate	3.97	% 3.97	% 4.22	% 4.22
				%
	Thirteen Weeks Ended March 29, 2015		Thirteen Weeks Ended March 30, 2014	
	Pension Benefits	Other Benefits	Pension Benefits	Other Benefits
Assumptions used to measure net pension and other postretirement cost:				
Discount rate	4.22	% 4.22	% 4.95	% 4.95
Expected return on plan assets	6.00	% NA	6.00	% NA

Discount rates were determined based on current investment yields on high-quality corporate long-term bonds. The expected rate of return on plan assets was determined based on the current interest rate environment and historical market premiums relative to the fixed income rates of equities and other asset classes. We also take into consideration anticipated asset allocations, investment strategies and the views of various investment professionals when developing this rate.

Plan Assets

The following table reflects the pension plans' actual asset allocations:

	March 29, 2015	December 28, 2014
Cash and cash equivalents	—	% —
Pooled separate accounts ^(a) :		
Equity securities	7	% 6
Fixed income securities	6	% 6
Common collective trust funds ^(a) :		
Equity securities	57	% 60
Fixed income securities	30	% 28
Total assets	100	% 100

(a) Pooled separate accounts ("PSAs") and common collective trust funds ("CCTs") are two of the most common types of alternative vehicles in which benefit plans invest. These investments are pooled funds that look like mutual funds, but they are not registered with the SEC. Often times, they will be invested in mutual funds or other marketable securities, but the unit price generally will be different from the value of the underlying securities because the fund may also hold cash for liquidity purposes, and the fees imposed by the fund are deducted from the fund value rather than charged separately to investors. Some PSAs and CCTs have no restrictions as to their investment strategy and

can invest in riskier investments, such as derivatives, hedge funds, private equity funds, or similar investments.

17

Table of Contents

Absent regulatory or statutory limitations, the target asset allocation for the investment of pension assets in the pooled separate accounts is 50% in each of fixed income securities and equity securities and the target asset allocation for the investment of pension assets in the common collective trust funds is 30% in fixed income securities and 70% in equity securities. The plans only invest in fixed income and equity instruments for which there is a ready public market. We develop our expected long-term rate of return assumptions based on the historical rates of returns for equity and fixed income securities of the type in which our plans invest.

The fair value measurements of plan assets fell into the following levels of the fair value hierarchy as of March 29, 2015 and December 28, 2014:

	March 29, 2015				December 28, 2014			
	Level 1(a)	Level 2(b)	Level 3(c)	Total	Level 1(a)	Level 2(b)	Level 3(c)	Total
	(In thousands)							
Cash and cash equivalents	\$60	\$—	\$—	\$60	\$33	\$—	\$—	\$33
Pooled separate accounts:								
Large U.S. equity funds ^(d)	—	4,125	—	4,125	—	4,147	—	4,147
Small/Mid U.S. equity funds ^(e)	—	1,101	—	1,101	—	1,062	—	1,062
International equity funds ^(f)	—	1,746	—	1,746	—	1,719	—	1,719
Fixed income funds ^(g)	—	6,619	—	6,619	—	6,609	—	6,609
Common collective trusts funds:								
Large U.S. equity funds ^(d)	—	26,731	—	26,731	—	29,964	—	29,964
Small U.S. equity funds ^(e)	—	15,530	—	15,530	—	18,411	—	18,411
International equity funds ^(f)	—	17,075	—	17,075	—	19,730	—	19,730
Fixed income funds ^(g)	—	31,083	—	31,083	—	31,877	—	31,877
Total assets	\$60	\$104,010	\$—	\$104,070	\$33	\$113,519	\$—	\$113,552

(a) Unadjusted quoted prices in active markets for identical assets are used to determine fair value.

(b) Quoted prices in active markets for similar assets and inputs that are observable for the asset are used to determine fair value.

(c) Unobservable inputs, such as discounted cash flow models or valuations, are used to determine fair value.

This category is comprised of investment options that invest in stocks, or shares of ownership, in large, (d) well-established U.S. companies. These investment options typically carry more risk than fixed income options but have the potential for higher returns over longer time periods.

This category is generally comprised of investment options that invest in stocks, or shares of ownership, in small to (e) medium-sized U.S. companies. These investment options typically carry more risk than larger U.S. equity investment options but have the potential for higher returns.

(f) This category is comprised of investment options that invest in stocks, or shares of ownership, in companies with their principal place of business or office outside of the U.S.

This category is comprised of investment options that invest in bonds, or debt of a company or government entity (including U.S. and non-U.S. entities). It may also include real estate investment options that directly own (g) property. These investment options typically carry more risk than short-term fixed income investment options (including, for real estate investment options, liquidity risk), but less overall risk than equities.

The valuation of plan assets in Level 2 is determined using a market approach based upon quoted prices for similar assets and liabilities in active markets, or other inputs that are observable for substantially the full term of the financial instrument. Level 2 securities primarily include equity and fixed income securities funds.

Table of Contents

Benefit Payments

The following table reflects the benefits as of March 29, 2015 expected to be paid through 2024 from our pension and other postretirement plans. Because our pension plans are primarily funded plans, the anticipated benefits with respect to these plans will come primarily from the trusts established for these plans. Because our other postretirement plans are unfunded, the anticipated benefits with respect to these plans will come from our own assets.

	Pension Benefits (In thousands)	Other Benefits
2015 (remaining)	\$ 10,094	\$ 96
2016	12,937	130
2017	12,502	130
2018	11,769	130
2019	11,278	130
2020-2024	52,157	627
Total	\$ 110,737	\$ 1,243

We anticipate contributing \$7.5 million and \$0.1 million, as required by funding regulations or laws, to our pension and other postretirement plans, respectively, during the remainder of 2015.

Table of Contents

Unrecognized Benefit Amounts in Accumulated Other Comprehensive Loss

The amounts in accumulated other comprehensive loss that were not recognized as components of net periodic benefits cost and the changes in those amounts are as follows:

	Thirteen Weeks Ended March 29, 2015		Thirteen Weeks Ended March 30, 2014	
	Pension Benefits	Other Benefits	Pension Benefits	Other Benefits
	(In thousands)			
Net actuarial loss (gain), beginning of period	\$43,907	\$(127)	\$16,957	\$(126)
Amortization	(179)	—	(14)	—
Curtailement and settlement adjustments	(3,062)	—	—	—
Actuarial loss	6,914	39	9,017	52
Asset loss (gain)	(389)	—	241	—
Net actuarial loss (gain), end of period	\$47,191	\$(88)	\$26,201	\$(74)

The Company expects to recognize in net pension cost throughout the remainder of 2015 an actuarial loss of \$0.5 million that was recorded in accumulated other comprehensive loss at March 29, 2015.

Remeasurement

The Company remeasures both plan assets and obligations on a quarterly basis.

12. STOCKHOLDERS' EQUITY

Accumulated Other Comprehensive Loss

The following tables provide information regarding the changes in accumulated other comprehensive loss:

	Thirteen Weeks Ended March 29, 2015 ^(a)			Thirteen Weeks Ended March 30, 2014 ^(a)		
	Losses Related to Pension and Other Postretirement Benefits	Unrealized Holding Gains on Available-for-Sale Securities	Total	Losses Related to Pension and Other Postretirement Benefits	Unrealized Holding Gains on Available-for-Sale Securities	Total
	(In thousands)

Legacy Gold Kist plans ^{(c)(d)}	(173) (14) Selling, general and administrative expense
Total before tax	(97) 26	
Tax benefit (expense)	37	(10)
Total reclassification for the period	\$(60) 16	

(a) Amounts in parentheses represent debits to results of operations.

(b) The Company sponsors the Pilgrim's Pride Retirement Plan for Union Employees, a qualified defined benefit pension plan covering certain locations or work groups with collective bargaining agreements.

The Company sponsors the Pilgrim's Pride Plan for Legacy Gold Kist Employees, a qualified defined benefit pension plan covering certain eligible U.S. employees who were employed at locations that the Company purchased through its acquisition of Gold Kist in 2007, the Former Gold Kist Inc. Supplemental Executive

(c) Retirement Plan, a nonqualified defined benefit retirement plan covering certain former Gold Kist executives, the Former Gold Kist Inc. Directors' Emeriti Plan, a nonqualified defined benefit retirement plan covering certain former Gold Kist directors, and the Gold Kist Inc. Retiree Life Insurance Plan, a defined benefit postretirement life insurance plan covering certain retired Gold Kist employees.

These accumulated other comprehensive income components are included in the computation of net periodic

(d) pension cost. See "Note 11. Pension and Other Postretirement Benefits" to the Condensed Consolidated Financial Statements.

Special Cash Dividend

On February 17, 2015, the Company paid a special cash dividend from retained earnings of approximately \$1.5 billion, or \$5.77 per share, to stockholders of record as of January 30, 2015. The Company used proceeds from the U.S. Credit Facility, along with cash on hand, to fund the special cash dividend.

Restrictions on Dividends

Both the U.S. Credit Facility and the indenture governing the Senior Notes restrict, but do not prohibit, the Company from declaring dividends.

13. INCENTIVE COMPENSATION

The Company sponsors a short-term incentive plan that provides the grant of either cash or share-based bonus awards payable upon achievement of specified performance goals (the "STIP"). Full-time, salaried exempt employees of the Company and its affiliates who are selected by the administering committee are eligible to participate in the STIP. The Company has accrued \$8.6 million in costs related to the STIP at March 29, 2015 related to cash bonus awards that could potentially be awarded during the remainder of 2015 and 2016.

The Company also sponsors a performance-based, omnibus long-term incentive plan that provides for the grant of a broad range of long-term equity-based and cash-based awards to the Company's officers and other employees, members of the Board of Directors and any consultants (the "LTIP"). The equity-based awards that may be granted under the LTIP include "incentive stock options," within the meaning of the Internal Revenue Code, nonqualified stock

options, stock appreciation rights, restricted stock awards (“RSAs”) and restricted stock units (“RSUs”). At March 29, 2015, we have reserved approximately 5.0 million shares of common stock for future issuance under the LTIP.

21

Edgar Filing: PILGRIMS PRIDE CORP - Form 10-Q

The following awards were outstanding during the thirteen weeks ended March 29, 2015:

Award Type	Benefit Plan	Awards Granted	Grant Date	Grant Fair Value per Award ^(a)	Vesting Condition	Vesting Date	Vesting Fair Value per Award ^(a)	Estimated Forfeiture Rate	Awards Forfeited to Date	Settlement Method
RSU	LTIP	608,561	02/04/2013	\$8.89	Service	12/31/2014	\$32.79	9.66 %	144,382	Stock
RSA	LTIP	15,000	02/25/2013	8.72	Service	02/24/2015	27.55	— %	—	Stock
RSA	LTIP	15,000	02/25/2013	8.72	Service	02/24/2016	—	— %	—	Stock
RSU	LTIP	206,933	02/26/2013	8.62	Service	12/31/2014	32.79	— %	—	Stock
RSU	LTIP	462,518	02/19/2014	16.70	Service	12/31/2016	—	13.49 %	13,301	Stock
RSU	LTIP	269,662	03/03/2014	17.18	Performance / Service	12/31/2017	—	12.34 %	—	Stock
RSU	LTIP	158,226	02/26/2015	27.51	Performance / Service	12/31/2018	—	(b)	—	Stock

(a) The fair value of each RSA and RSU granted or vested represents the closing price of the Company's common stock on the respective grant date or vesting date.

(b) The estimated forfeiture rate for these awards will be set if or when performance conditions associated with the awards are satisfied.

Compensation costs and the income tax benefit recognized for our share-based compensation arrangements are included below:

	Thirteen Weeks Ended	
	March 29, 2015	March 30, 2014
	(In thousands)	
Share-based compensation cost:		
Cost of sales	\$113	\$19
Selling, general and administrative expense	684	1,003
Total	\$797	\$1,022
Income tax benefit	\$243	\$275

The Company's RSA and RSU activity is included below:

	Thirteen Weeks Ended March 29, 2015		Thirteen Weeks Ended March 30, 2014	
	Number	Weighted Average Grant Date Fair Value	Number	Weighted Average Grant Date Fair Value
	(In thousands, except weighted average fair values)			
RSAs:				
Outstanding at beginning of period	30	\$8.72	203	\$6.59
Vested	(15) 8.72	(100) 7.10
Outstanding at end of period	15	\$8.72	103	\$6.09
RSUs:				
Outstanding at beginning of period	1,120	\$11.97	729	\$8.81
Granted	428	21.00	462	16.70
Vested	(671) 8.81	—	—
Forfeited	—	—	(24) 8.89
Outstanding at end of period	877	\$18.80	1,167	\$11.93

The total fair value of awards vested during the thirteen weeks ended March 29, 2015 and March 30, 2014 was \$22.4 million and \$1.6 million, respectively.

At March 29, 2015, the total unrecognized compensation cost related to all nonvested awards was \$13.0 million. That cost is expected to be recognized over a weighted average period of 2.75 years.

Historically, we have issued new shares to satisfy award conversions.

14. RELATED PARTY TRANSACTIONS

Pilgrim's has been and, in some cases, continues to be a party to certain transactions with affiliated persons and our current and former directors and executive officers. Company management has analyzed the terms of all contracts executed with related parties and believes that they are substantially similar to, and contain terms no less favorable to us than, those obtainable from unaffiliated parties.

On December 28, 2009, JBS USA became the holder of the majority of the common stock of the Company. As of March 29, 2015, JBS USA beneficially owned 75.3% of the total outstanding shares of our common stock.

	Thirteen Weeks Ended	
	March 29, 2015	March 30, 2014
	(In thousands)	
JBS USA:		
Letter of credit fees ^(a)	\$317	\$335
JBS USA, LLC:		
Purchases from JBS USA, LLC ^(b)	27,580	24,989
Expenditures paid by JBS USA, LLC on behalf of Pilgrim's Pride Corporation ^(c)	8,580	12,458
Sales to JBS USA, LLC ^(b)	6,868	15,355
Expenditures paid by Pilgrim's Pride Corporation on behalf of JBS USA, LLC ^(c)	1,715	533
JBS Chile Ltda.:		
Sales to JBS Chile Ltda.	165	—

Beginning on October 26, 2011, JBS USA arranged for letters of credit to be issued on its account in the amount of \$56.5 million to an insurance company on our behalf in order to allow that insurance company to return cash it held as collateral against potential liability claims. We agreed to reimburse JBS USA up to \$56.5 million for potential (a) draws upon these letters of credit. We reimburse JBS USA \$0.3 million for the letter of credit costs we would have otherwise incurred under our credit facilities. During 2015, we have paid JBS USA \$1.0 million for letter of credit costs. As of March 29, 2015, the Company has accrued an obligation of \$0.1 million to reimburse JBS USA for letter of credit costs incurred on its behalf.

We routinely execute transactions to both purchase products from JBS USA, LLC and sell products to them. As of March 29, 2015 and December 28, 2014, the outstanding payable to JBS USA, LLC was \$3.7 million and \$4.8 (b) million, respectively. As of March 29, 2015 and December 28, 2014, the outstanding receivable from JBS USA, LLC was \$4.7 million and \$1.4 million, respectively. As of March 29, 2015, approximately \$5.2 million of goods from JBS USA, LLC were in transit and not reflected on our Condensed Consolidated Balance Sheet.

On January 19, 2010, the Company entered into an agreement with JBS USA, LLC in order to allocate costs associated with JBS USA, LLC's procurement of SAP licenses and maintenance services for its combined companies. Under this agreement, the fees associated with procuring SAP licenses and maintenance services are allocated between the Company and JBS USA, LLC in proportion to the percentage of licenses used by each (c) company. The agreement expires on the date of expiration, or earlier termination, of the underlying SAP license agreement. On January 1, 2014, the Company also entered into an agreement with JBS USA, LLC in order to allocate the costs of supporting the business operations by one consolidated corporate team, which have historically been supported by their respective corporate teams. Expenditures paid by JBS USA, LLC on behalf of the Company will be reimbursed by the Company and expenditures paid by the Company on behalf of JBS USA, LLC will be reimbursed by JBS USA, LLC. This agreement expires on December 31, 2016.

15. COMMITMENTS AND CONTINGENCIES

We are a party to many routine contracts in which we provide general indemnities in the normal course of business to third parties for various risks. Among other considerations, we have not recorded a liability for any of these indemnities as based upon the likelihood of payment, the fair value of such indemnities would not have a material impact on our financial condition, results of operations and cash flows.

The Company is subject to various legal proceedings and claims which arise in the ordinary course of business. In the Company's opinion, it has made appropriate and adequate accruals for claims where necessary; however, the ultimate

liability for these matters is uncertain, and if significantly different than the amounts accrued, the ultimate outcome could have a material effect on the financial condition or results of operations of the Company. For a discussion of the material legal proceedings and claims, see Part II, Item 1. "Legal Proceedings." Below is a summary of some of these material proceedings and claims. The Company believes it has substantial defenses to the claims made and intends to vigorously defend these cases.

On December 1, 2008, Pilgrim's and six of its subsidiaries filed voluntary petitions for relief under Chapter 11 of the Bankruptcy Code in the Bankruptcy Court for the Northern District of Texas, Fort Worth Division ("Bankruptcy Court"). The cases were jointly administered under Case No. 08-45664. The Company emerged from Chapter 11 on December 28, 2009. The Company is the named defendant in several pre-petition lawsuits that, as of March 29, 2015, have not been resolved.

Table of Contents

Tax Claims and Proceedings

The United States Department of Treasury, IRS filed an amended proof of claim in the Bankruptcy Court pursuant to which the IRS asserted claims that total \$74.7 million. We entered into two Stipulations with the IRS on December 12, 2012 that accounted for approximately \$29.3 million of the amended proof of claim and should result in no additional tax due.

In connection with the remaining claim for approximately \$45.4 million included in the amended proof of claim, we filed a petition in Tax Court on May 26, 2010 in response to a Notice of Deficiency that was issued to the Company as the successor in interest to Gold Kist. The Notice of Deficiency and the Tax Court proceeding relate to a loss that Gold Kist claimed for its tax year ended June 26, 2004. On December 11, 2013, the Tax Court issued its opinion in the Tax Court case holding the loss that Gold Kist claimed for its tax year ended June 26, 2004 is capital in nature. On January 10, 2014, the Company filed both a Motion for Reconsideration and a Motion for Full Tax Court review of both its Motion for Reconsideration and any order issued in response to such motion. On March 10, 2014, the Tax Court denied both the Motion for Reconsideration and the Motion for Full Tax Court review. On April 14, 2014, the Company appealed the findings of fact and conclusions of law and decision concerning the post-judgment motions to the United States Fifth Circuit Court of Appeals (the "Fifth Circuit"). The Company filed an opening brief with the Fifth Circuit on June 30, 2014. The IRS filed a response brief with the Fifth Circuit on August 15, 2014. The Company then filed their reply brief with the Fifth Circuit on September 2, 2014. Oral argument before the Fifth Circuit occurred during the week beginning January 5, 2015. On February 25, 2015, the Fifth Circuit issued its opinion, which reversed the Tax Court's judgment and rendered judgment in favor of the Company. The IRS has until May 26, 2015 to petition for a writ of certiorari to the Supreme Court of the United States (the "U.S. Supreme Court"). Upon the initial filing of the Gold Kist tax return for the year ended June 26, 2004, the Company assessed the likelihood that the position related to the proceeding would be sustained upon examination and determined that it met the recognition threshold and the full amount of benefit was recognized. We continue to believe the position is more likely than not of being sustained. If adversely determined, the outcome could have a material effect on the Company's operating results and financial position.

Grower Claims and Proceedings

On June 1, 2009, approximately 555 former and current independent contract broiler growers, their spouses and poultry farms filed an adversary proceeding against the Company in the Bankruptcy Court styled "Shelia Adams, et al. v. Pilgrim's Pride Corporation" seeking unspecified damages and alleging, along with other assertions, that the Company breached grower contracts and made false representations to induce the plaintiffs into building chicken farms and entering into chicken growing agreements with the Company. On September 30, 2011, the trial court hearing the case issued its findings of fact and conclusions of law stating that the Company violated section 192(e) of the Packers and Stockyards Act of 1921 by purportedly attempting to manipulate the price of chicken by idling the El Dorado, Arkansas complex and rejecting the El Dorado growers' contracts. The trial court awarded damages in the amount of \$25.8 million. Afterward, the Company filed post-judgment motions attacking the trial court's findings of fact and conclusions of law, which, on December 28, 2011, were granted in part and resulted in a reduction of the damages award from \$25.8 million to \$25.6 million. On January 19, 2012, the Company appealed the findings of fact and conclusions of law and decision concerning the post-judgment motions to the Fifth Circuit. Oral argument occurred December 3, 2012. On August 27, 2013, the Fifth Circuit reversed the judgment, and entered a judgment in favor of the Company. Plaintiffs thereafter filed a petition for rehearing en banc. Plaintiffs' petition for rehearing was denied on October 15, 2013. On January 13, 2014, Plaintiffs filed a Petition for a Writ of Certiorari requesting the U.S. Supreme Court to accept their case for review. Plaintiff's petition for a Writ of Certiorari was denied on February 24, 2014. The Fifth Circuit's decision and prior favorable trial court rulings regarding the El Dorado growers' claims suggest that the likelihood of any recovery by growers remaining in the case is too remote to maintain the previously-recorded loss accrual. Therefore, the Company reversed the accrual on September 1, 2013.

As for the remaining chicken grower claims, the bench trial relating to the allegations asserted by the plaintiffs from the Farmerville, Louisiana complex began on July 16, 2012. That bench trial concluded on August 2, 2012, but the trial court postponed its ruling until the appeals process regarding the allegations asserted by the El Dorado growers was exhausted. The bench trial relating to the claims asserted by the plaintiffs from the Nacogdoches, Texas complex

began on September 12, 2012, but was also postponed until the appeals process regarding the allegations asserted by the El Dorado growers was exhausted. The remaining bench trial for the plaintiffs from the De Queen and Batesville, Arkansas complexes was scheduled for October 29, 2012, but that trial date was canceled. Following the denial by the U.S. Supreme Court for a Writ of Certiorari related to the claims asserted by the plaintiffs from the El Dorado, Arkansas complex, the trial court requested briefing on the allegations asserted by the plaintiffs from the Farmerville, Louisiana complex and scheduled trial proceedings for allegations asserted by the plaintiffs from the Nacogdoches complex on August 25, 2014 and allegations asserted by the plaintiffs from the De Queen and Batesville, Arkansas complexes on October 27, 2014. Prior to commencing the trial proceedings on the allegations asserted by the plaintiffs from the De Queen and Batesville, Arkansas complexes, the trial court announced it would enter judgment in the Company's favor on all remaining federal causes of action, and plaintiffs from the De Queen and Batesville complexes were given additional time to brief

Table of Contents

Arkansas state law claims. The court-imposed deadline passed with no briefs filed by plaintiffs. At this time, the trial court has not memorialized its decision in writing.

ERISA Claims and Proceedings

Claims have been brought against certain current and former directors, executive officers and employees of the Company, the Pilgrim's Pride Administrative Committee and the Pilgrim's Pride Pension Committee seeking unspecified damages under section 502 of the Employee Retirement Income Security Act of 1974 ("ERISA"), 29 U.S.C. §1132. These claims were brought by individual participants in the Pilgrim's Pride Retirement Savings Plan, individually and on behalf of a putative class, alleging that the defendants breached fiduciary duties to plan participants and beneficiaries or otherwise violated ERISA. Although the Company is not a named defendant in these claims, our bylaws require us to indemnify our current and former directors and officers from any liabilities and expenses incurred by them in connection with actions they took in good faith while serving as an officer or director. In these actions the plaintiffs assert claims in excess of \$35.0 million. The likelihood of an unfavorable outcome or the amount or range of any possible loss to the Company cannot be determined at this time.

16. PENDING ACQUISITION

On July 28, 2014, the Company entered into a definitive agreement to purchase Provemex Holdings LLC and its subsidiaries (together, "Tyson Mexico") from Tyson Foods, Inc. and certain of its subsidiaries for approximately \$400.0 million, which is subject to adjustment for closing date working capital. On April 29, 2015, the Company entered into an amendment to the agreement with Tyson Foods, Inc. to extend the deadline to consummate the transaction from April 30, 2015 to June 30, 2015. The closing of the transaction is subject to regulatory approvals and other customary closing conditions, including the approval of applicable merger control regulatory authorities in Mexico. We expect that a decision from these regulatory authorities will be obtained during the second quarter of fiscal 2015. If the acquisition is completed, we expect to fund the purchase price from available cash balances and bank credit. Tyson Mexico is a vertically integrated poultry business based in Gomez Palacio, Durango, Mexico. It has a production capacity of 3 million birds per week in its three plants and employs more than 5,400 in its plants, offices and seven distribution centers.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Description of the Company

We are one of the largest chicken producers in the world, with operations in the United States ("U.S."), Mexico and Puerto Rico. We operate feed mills, hatcheries, processing plants and distribution centers in 12 U.S. states, Puerto Rico and Mexico. We have approximately 34,200 employees and have the capacity to process more than 34 million birds per week for a total of more than 10 billion pounds of live chicken annually. Approximately 3,800 contract growers supply poultry for our operations. As of March 29, 2015, JBS USA Holdings, Inc. ("JBS USA"), an indirect subsidiary of Brazil-based JBS S.A., beneficially owned 75.3% of our outstanding common stock. See "Note 1. Description of Business and Basis of Presentation" of our Condensed Consolidated Financial Statements included in this quarterly report for additional information.

We operate on a 52/53-week fiscal year that ends on the Sunday falling on or before December 31. The reader should assume any reference we make to a particular year (for example, 2015) in this report applies to our fiscal year and not the calendar year.

Executive Summary

We reported net income attributable to Pilgrim's Pride Corporation of \$204.2 million, or \$0.79 per diluted common share, for the thirteen weeks ended March 29, 2015. These operating results included gross profit of \$377.1 million.

During the thirteen weeks ended March 29, 2015, we generated \$296.1 million of cash from operations.

Market prices for feed ingredients remain volatile. Consequently, there can be no assurance that our feed ingredients prices will not increase materially and that such increases would not negatively impact our financial position, results of operations and cash flow. The following table compares the highest and lowest prices reached on nearby futures for one bushel of corn and one ton of soybean meal during the current year and previous two years:

	Corn		Soybean Meal	
	Highest Price	Lowest Price	Highest Price	Lowest Price
2015:				
First Quarter	\$4.13	\$3.70	\$377.40	\$317.50
2014:				
Fourth Quarter	4.14	3.21	411.60	304.60
Third Quarter	4.24	3.23	464.20	307.20
Second Quarter	5.16	4.39	506.00	448.40
First Quarter	4.92	4.12	470.50	416.50
2013:				
Fourth Quarter	4.49	4.12	464.60	392.80
Third Quarter	7.17	4.49	535.50	396.00
Second Quarter	7.18	6.29	490.30	391.80
First Quarter	7.41	6.80	438.50	398.20

We purchase derivative financial instruments, specifically exchange-traded futures and options, in an attempt to mitigate price risk related to our anticipated consumption of commodity inputs such as corn, soybean meal, sorghum, wheat, soybean oil and natural gas. We will sometimes take a short position on a derivative instrument to minimize the impact of a commodity's price volatility on our operating results. We will also occasionally purchase derivative financial instruments in an attempt to mitigate currency exchange rate exposure related to the financial statements of our Mexico operations that are denominated in Mexican pesos. We do not designate derivative financial instruments that we purchase to mitigate commodity purchase or currency exchange rate exposures as cash flow hedges; therefore, we recognize changes in the fair value of these derivative financial instruments immediately in earnings. During the thirteen weeks ended March 29, 2015 and March 30, 2014, we recognized net gains totaling \$23.4 million and net losses of \$8.0 million, respectively, related to changes in the fair values of our derivative financial instruments. Although changes in the market price paid for feed ingredients impact cash outlays at the time we purchase the ingredients, such changes do not immediately impact cost of sales. The cost of feed ingredients is recognized in cost of sales, on a first-in-first-out basis, at the same time that the sales of the chickens that consume the feed grains are recognized. Thus, there is a lag between the time cash is paid for feed ingredients and the time the cost of such feed

ingredients is reported in cost of goods sold. For example, corn delivered to a feed mill and paid for one week might be used to manufacture feed the following week. However,

26

the chickens that eat that feed might not be processed and sold for another 42-63 days, and only at that time will the costs of the feed consumed by the chicken become included in cost of goods sold.

Commodities such as corn, soybean meal, sorghum, wheat and soybean oil are actively traded through various exchanges with future market prices quoted on a daily basis. These quoted market prices, although a good indicator of the commodity's base price, do not represent the final price for which we can purchase these commodities. There are several components in addition to the quoted market price, such as freight, storage and seller premiums, that are included in the final price that we pay for grain. Although changes in quoted market prices may be a good indicator of the commodity's base price, the components mentioned above may have a significant impact on the total change in grain costs recognized from period to period.

Market prices for chicken products are currently at levels sufficient to offset the costs of feed ingredients. However, there can be no assurance that chicken prices will not decrease due to such factors as competition from other proteins and substitutions by consumers of non-protein foods because of uncertainty surrounding the general economy and unemployment.

Recent Developments

Tyson Mexico Acquisition. On July 28, 2014, the Company entered into a definitive agreement to purchase Provemex Holdings LLC and its subsidiaries (together, "Tyson Mexico") from Tyson Foods, Inc. and certain of its subsidiaries for approximately \$400.0 million, which is subject to adjustment for closing date working capital. On April 29, 2015, we entered into an amendment to the agreement with Tyson Foods, Inc. to extend the deadline to consummate the transaction from April 30, 2015 to June 30, 2015. The closing of the transaction is subject to regulatory approvals and other customary closing conditions, including the approval of applicable merger control regulatory authorities in Mexico. We expect that a decision from these regulatory authorities will be obtained during the second quarter of fiscal 2015. If the acquisition is completed, we expect to fund the purchase price from available cash balances and bank credit. Tyson Mexico is a vertically integrated poultry business based in Gomez Palacio, Durango, Mexico. It has a production capacity of 3 million birds per week in its three plants and employs more than 5,400 in its plants, offices and seven distribution centers. The acquisition would further strengthen our strategic position in the Mexico chicken market. If the acquisition is completed, we expect to maintain the operations working to capacity with the existing workforce, maintaining labor contracts in place. The financial information included in this quarterly report does not give pro forma effect to the Tyson Mexico acquisition.

Amended and Restated U.S. Credit Facility. On February 11, 2015, the Company and certain of its subsidiaries entered into a Second Amended and Restated Credit Agreement (the "U.S. Credit Facility") with Coöperatieve Centrale Raiffeisen-Boerenleenbank B.A., Rabobank Nederland, New York Branch ("Rabobank"), as administrative agent, and the other lenders party thereto. The U.S. Credit Facility amends and restates the Company's existing credit agreement dated August 7, 2013 with CoBank, ACB, as administrative agent and collateral agent, and other lenders party thereto. The U.S. Credit Facility provides for a revolving loan commitment of at least \$700.0 million and a term loan commitment of up to \$1.0 billion. The U.S. Credit Facility also includes an accordion feature that allows us, at any time, to increase the aggregate revolving loan and term loan commitments by up to an additional \$1.0 billion, subject to the satisfaction of certain conditions, including obtaining the lenders' agreement to participate in the increase. For additional information regarding the U.S. Credit Facility, see "- Liquidity and Capital Resources - Long-Term Debt and Other Borrowing Arrangements - U.S. Credit Facility."

Special Cash Dividend. On January 14, 2015, we declared a special cash dividend of \$5.77 per share with a total payment amount of approximately \$1.5 billion based on the number of shares outstanding. The special cash dividend was paid on February 17, 2015 to stockholders of record as of January 30, 2015 using proceeds from certain borrowings under the U.S. Credit Facility and cash on hand. For additional information, see "Note 12. Stockholders' Equity - Special Cash Dividend" of our Condensed Consolidated Financial Statements included in this quarterly report.

Senior Notes Due 2025. On March 11, 2015, the Company completed a sale of \$500.0 million aggregate principal amount of its 5.75% senior notes due 2025 (the "Senior Notes"). The Company used the net proceeds from the sale of the Senior Notes to repay \$350.0 million and \$150.0 million of the term loan indebtedness under the U.S. Credit Facility on March 12, 2015 and April 22, 2015, respectively. For additional information regarding the Senior Notes due 2025, see "- Liquidity and Capital Resources - Long-Term Debt and Other Borrowing Arrangements - Senior Notes."

Business Segment and Geographic Reporting

We operate in one reportable business segment, as a producer and seller of chicken products we either produce or purchase for resale in the U.S., Puerto Rico and Mexico. We conduct separate operations in the U.S., Puerto Rico and Mexico; however, for geographic reporting purposes, we include Puerto Rico within our U.S. operations. Corporate expenses are allocated to Mexico based upon various apportionment methods for specific expenditures incurred related thereto with the remaining amounts allocated to the U.S.

27

Results of Operations

Thirteen Weeks Ended March 29, 2015 Compared to Thirteen Weeks Ended March 30, 2014

Net sales. Net sales generated in the thirteen weeks ended March 29, 2015 increased \$34.9 million, or 1.7%, from net sales generated in the thirteen weeks ended March 30, 2014. The following table provides net sales information:

Sources of net sales	Thirteen Weeks Ended March 29, 2015	Change from Thirteen Weeks Ended March 30, 2014		
		Amount	Percent	
(In thousands, except percent data)				
United States	\$1,842,758	\$48,081	2.7	% (a)
Mexico	210,161	(13,227)	(5.9)(% (b)
Total net sales	\$2,052,919	\$34,854	1.7	%

U.S. net sales generated in the thirteen weeks ended March 29, 2015 increased \$48.1 million, or 2.7%, from U.S. net sales generated in the thirteen weeks ended March 30, 2014 primarily because of increases in both net sales per pound and sales volume. Higher net sales per pound, which reflects a slight shift in product mix toward higher-priced fresh chicken products when compared to the same period in the prior year, contributed (a) \$27.2 million, or 1.5 percentage points, to the net sales increase. An increase in sales volume contributed \$20.9 million, or 1.2 percentage points, to the net sales increase. Included in U.S. net sales generated during the thirteen weeks ended March 29, 2015 and March 30, 2014 were net sales to JBS USA, LLC totaling \$6.9 million and \$15.4 million, respectively.

Mexico net sales generated in the thirteen weeks ended March 29, 2015 decreased \$13.2 million, or 5.9%, from Mexico net sales generated in the thirteen weeks ended March 30, 2014 primarily because of the impact of foreign (b) currency translation, which contributed \$27.3 million, or 12.2 percentage points, to the decrease in net sales.

Increases in net sales per pound and sales volume offset the negative impact that foreign currency translation had on net sales by \$9.5 million, or 4.3 percentage points, and \$4.6 million, or 2.0 percentage points, respectively, Gross profit . Gross profit increased by \$162.0 million, or 75.3%, from \$215.1 million generated in the thirteen weeks ended March 30, 2014 to \$377.1 million generated in the thirteen weeks ended March 29, 2015. The following tables provide information regarding gross profit and cost of sales information:

Components of gross profit	Thirteen Weeks Ended March 29, 2015	Change from Thirteen Weeks Ended March 30, 2014		Percent of Net Sales		
		Amount	Percent	Thirteen Weeks Ended March 29, 2015	Thirteen Weeks Ended March 30, 2014	
(In thousands, except percent data)						
Net sales	\$2,052,919	\$34,854	1.7	% 100.0	% 100.0	%
Cost of sales	1,675,799	(127,160)	(7.1)(% 81.6	% 89.3)(% (a)(b)
Gross profit	\$377,120	\$162,014	75.3	% 18.4	% 10.7	%

		Amount	Percent
(In thousands, except percent data)			

Edgar Filing: PILGRIMS PRIDE CORP - Form 10-Q

(In thousands, except percent data)

United States	\$1,504,207	\$(117,770)	(7.3))% (a)
Mexico	171,616	(9,366)	(5.2))% (b)
Elimination	(24)	(24)	—	%
Total cost of sales	\$1,675,799	\$(127,160)	(7.1))%

Cost of sales incurred by the U.S. operations during the thirteen weeks ended March 29, 2015 decreased \$117.8 million, or 7.3%, from cost of sales incurred by the U.S. operations during the thirteen weeks ended March 30, 2014. Cost of sales decreased primarily because of a \$69.0 million decrease in feed ingredients costs, derivative gains of \$23.0 million recognized in the thirteen weeks ended March 29, 2015 as compared to derivative losses

of \$7.5 million recognized in the thirteen weeks ended March 30, 2014, and a \$5.9 million decrease in utilities costs. These decreases in cost of sales components were partially offset by a \$6.7 million increase in co-pack labor and meat, a \$3.9 million increase in contract grower costs, and a \$3.1 million increase in freight and storage costs. Other factors affecting cost of sales were individually immaterial.

Cost of sales incurred by the Mexico operations during the thirteen weeks ended March 29, 2015 decreased \$9.4 million, or 5.2%, from cost of sales incurred by the Mexico operations during the thirteen weeks ended March 30, (b)2014. The impact of foreign currency translation contributed \$22.3 million, or 12.4 percentage points, to the decrease in cost of sales. A \$7.5 million increase in feed ingredients costs partially offset the positive impact that foreign currency translation had on cost of sales. Other factors affecting cost of sales were individually immaterial. Operating income. Operating income increased by \$159.4 million, or 94.8%, from \$168.2 million generated in the thirteen weeks ended March 30, 2014 to \$327.6 million generated in the thirteen weeks ended March 29, 2015. The following tables provide information regarding operating income, SG&A expense and administrative restructuring charges:

Components of operating income	Thirteen Weeks Ended March 29, 2015	Change from Thirteen Weeks Ended March 30, 2014		Percent of Net Sales Thirteen Weeks Ended		
		Amount	Percent	March 29, 2015	March 30, 2014

United States		\$—	\$(1,713)	(100.0))%	
Mexico		—	—	—	%	

Edgar Filing: PILGRIMS PRIDE CORP - Form 10-Q

Total administrative restructuring charges \$— \$(1,713) (100.0)%

SG&A expense incurred by the U.S. operations during the thirteen weeks ended March 29, 2015 increased \$4.5 million, or 11.1%, from SG&A expense incurred by the U.S. operations during the thirteen weeks ended March 30, (a) 2014 primarily because of \$5.1 million increase in employee wages and benefits partially offset by a \$1.1 million decrease in allocated costs charged for administrative functions shared with JBS USA, LLC and a \$0.9 million decrease in bad debt expense. Other factors affecting SG&A expense were individually immaterial.

SG&A expense incurred by the Mexico operations during the thirteen weeks ended March 29, 2015 decreased \$0.2 million, or 3.9%, from SG&A expense incurred by the Mexico operations during the thirteen weeks ended (b) March 30, 2014 primarily because of a \$0.3 million decrease in employee wages and benefits, a \$0.2 million decrease in professional fees and a \$0.1 million decrease in repairs and maintenance partially offset by a \$0.5 million increase in contract labor expense. Other factors affecting SG&A expense were individually immaterial.

Net interest expense. Net interest expense decreased 82.0% to \$3.4 million recognized in the thirteen weeks ended March 29, 2015 from \$18.7 million recognized in the thirteen weeks ended March 30, 2014 primarily because of a decrease in

the weighted average interest rate compared to the same period in the prior year. The weighted average interest rate decreased from 8.20% in the thirteen weeks ended March 30, 2014 to 4.90% in the thirteen weeks ended March 29, 2015. Average borrowings increased from \$705.2 million in the thirteen weeks ended March 30, 2014 to \$722.5 million in the thirteen weeks ended March 29, 2015 due to increased borrowings related to our Senior Notes and U.S. Credit Facility term notes.

Income taxes. Income tax expense increased to \$111.5 million, a 35.3% effective tax rate, for the thirteen weeks ended March 29, 2015 compared to income tax expense of \$52.0 million, a 34.6% effective tax rate, for the thirteen weeks ended March 30, 2014. The income tax expense in 2015 resulted primarily from an increase in income.

Liquidity and Capital Resources

The following table presents our available sources of liquidity as of March 29, 2015:

Source of Liquidity	Facility Amount (In millions)	Amount Outstanding	Amount Available	
Cash and cash equivalents			\$478.0	
Borrowing arrangements:				
U.S. Credit Facility	\$700.0	\$—	679.9	(a)
Mexico Credit Facility	36.8	—	36.8	(b)

Actual borrowings under our U.S. Credit Facility are subject to a borrowing base, which is a formula based on certain eligible inventory and eligible receivables. The borrowing base in effect at March 29, 2015 was \$700.0 million. Availability under the U.S. Credit Facility is also reduced by our outstanding standby letters of credit. Standby letters of credit outstanding at March 29, 2015 totaled \$20.1 million.

As of March 29, 2015, the U.S. dollar-equivalent of the amount available under the Mexico Credit Facility (as described below) was \$36.8 million. The Mexico Credit Facility provides for a loan commitment of 560.0 million Mexican pesos.

Long-Term Debt and Other Borrowing Arrangements

Senior Notes

On March 11, 2015, we completed a sale of \$500.0 million aggregate principal amount of our 5.75% Senior Notes due 2025. We used the net proceeds from the sale of the Senior Notes to repay \$350.0 million and \$150.0 million of the term loan indebtedness under the U.S. Credit Facility on March 12, 2015 and April 22, 2015, respectively. The Notes were sold to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended (the “Securities Act”), and outside the United States to non-U.S. persons pursuant to Regulation S under the Securities Act. The Senior Notes are governed by, and were issued pursuant to, an indenture dated as of March 11, 2015 by and among our company, its guarantor subsidiary and Wells Fargo Bank, National Association, as trustee (the “Indenture”). The Indenture provides, among other things, that the Senior Notes bear interest at a rate of 5.75% per annum from the date of issuance until maturity, payable semi-annually in cash in arrears, beginning on September 15, 2015. The Notes are guaranteed on a senior unsecured basis by our guarantor subsidiary. In addition, any of our other existing or future domestic restricted subsidiaries that incur or guarantee any other indebtedness (with limited exceptions) must also guarantee the Senior Notes. The Senior Notes and related guarantees are unsecured senior obligations of our company and its guarantor subsidiary and rank equally with all of our company’s and its guarantor subsidiary’s other unsubordinated indebtedness. The Senior Notes and the Indenture also contain customary covenants and events of default, including failure to pay principal or interest on the Senior Notes when due, among others.

U.S. Credit Facility

On February 11, 2015, we and certain of our subsidiaries entered into the U.S. Credit Facility with Rabobank, as administrative agent, and the other lenders party thereto. The U.S. Credit Facility provides for a revolving loan commitment of at least \$700.0 million and a term loan commitment of up to \$1.0 billion (the “Term Loans”). The U.S. Credit Facility also includes an accordion feature that allows us, at any time, to increase the aggregate revolving loan and term loan commitments by up to an additional \$1.0 billion, subject to the satisfaction of certain conditions, including obtaining the lenders’ agreement to participate in the increase.

The revolving loan commitment under the U.S. Credit Facility matures on February 10, 2020. All principal on the Term Loans is due at maturity on February 10, 2020. Because the Company prepaid \$350.0 million of the term loan

indebtedness with proceeds from the Senior Notes, the Company is not required to pay quarterly installments. Covenants in the U.S. Credit Facility also require us to use the proceeds we receive from certain asset sales and specified debt or equity issuances and upon the

30

occurrence of other events to repay outstanding borrowings under the U.S. Credit Facility. We had Terms Loans outstanding totaling \$650.0 million as of March 29, 2015.

The U.S. Credit Facility includes a \$75.0 million sub-limit for swingline loans and a \$125.0 million sub-limit for letters of credit. Outstanding borrowings under the revolving loan commitment and the Term Loans bear interest at a per annum rate equal to (i) in the case of LIBOR loans, LIBOR plus 1.50% through March 29, 2015 and, based on our net senior secured leverage ratio, between LIBOR plus 1.25% and LIBOR plus 2.75% and (ii) in the case of alternate base rate loans, the base rate plus 0.50% through March 29, 2015 and, based on our net senior secured leverage ratio, between the base rate plus 0.25% and base rate plus 1.75% thereafter.

Actual borrowings by us under the U.S. Credit Facility are subject to a borrowing base, which is a formula based on certain eligible inventory, eligible receivables and restricted cash under the control of Rabobank, in its capacity as administrative agent. The borrowing base formula will be reduced by the sum of (i) inventory reserves, (ii) rent and collateral access reserves, and (iii) any amount more than 15 days past due that is owed by our company or its subsidiaries to any person on account of the purchase price of agricultural products or services (including poultry and livestock) if that person is entitled to any grower's or producer's lien or other security arrangement. As of March 29, 2015, the applicable borrowing base was \$700.0 million and the amount available for borrowing under the revolving loan commitment was \$679.9 million. The Company had letters of credit of \$20.1 million and no outstanding borrowings under the revolving loan commitment as of March 29, 2015.

The U.S. Credit Facility contains financial covenants and various other covenants that may adversely affect our ability to, among other things, incur additional indebtedness, incur liens, pay dividends or make certain restricted payments, consummate certain assets sales, enter into certain transactions with JBS USA and our other affiliates, merge, consolidate and/or sell or dispose of all or substantially all of our assets. The U.S. Credit Facility requires us to comply with a minimum level of tangible net worth covenant. The U.S. Credit Facility also provides that we may not incur capital expenditures in excess of \$500.0 million in any fiscal year. We are currently in compliance with the covenants under the U.S. Credit Facility.

All obligations under the U.S. Credit Facility will continue to be unconditionally guaranteed by certain of our subsidiaries and will continue to be secured by a first priority lien on (i) the accounts receivable and inventories of our company and its non-Mexico subsidiaries, (ii) 100% of the equity interests in our domestic subsidiaries and 65% of the equity interests in our direct foreign subsidiaries and (iii) substantially all of the assets of our company and the guarantors under the U.S. Credit Facility.

Subordinated Loan Agreement

On June 23, 2011, we entered into a Subordinated Loan Agreement with JBS USA (the "Subordinated Loan Agreement"). Pursuant to the terms of the Subordinated Loan Agreement, we agreed to reimburse JBS USA up to \$56.5 million for draws upon any letters of credit issued for JBS USA's account that support certain obligations of our company or its subsidiaries. JBS USA agreed to arrange for letters of credit to be issued on its account in the amount of \$56.5 million to an insurance company serving us in order to allow that insurance company to return cash it held as collateral against potential workers compensation, auto and general liability claims. In return for providing this letter of credit, we agreed to reimburse JBS USA for the letter of credit cost we would otherwise incur under our U.S. Credit Facility. In the thirteen weeks ended March 29, 2015, we reimbursed JBS USA \$0.2 million for letter of credit costs. As of March 29, 2015, we have accrued an obligation of \$0.1 million to reimburse JBS USA for letter of credit costs incurred on our behalf. There remains no other commitment of JBS USA to make advances under the Subordinated Loan Agreement.

Mexico Credit Facility

On July 23, 2014, Avícola and certain Mexican subsidiaries entered into an unsecured credit agreement (the “Mexico Credit Facility”) with BBVA Bancomer, S.A. Institución de Banca Múltiple, Grupo Financiero BBVA Bancomer, as lender. The loan commitment under the Mexico Credit Facility is 560.0 million Mexican pesos. Outstanding borrowings under the Mexico Credit Facility will accrue interest at a rate equal to the TIIE rate plus 1.05%. The Mexico Credit Facility will mature on July 23, 2017. As of March 29, 2015, the U.S. dollar-equivalent of the loan commitment under the Mexico Credit Facility was \$36.8 million, and there were no outstanding borrowings under the Mexico Credit Facility.

Off-Balance Sheet Arrangements

We maintain operating leases for various types of equipment, some of which contain residual value guarantees for the market value of assets at the end of the term of the lease. The terms of the lease maturities range from one to ten years. We estimate the maximum potential amount of the residual value guarantees is approximately \$1.4 million; however, the actual amount would be offset by any recoverable amount based on the fair market value of the underlying leased assets. No liability has been recorded related to this contingency as the likelihood of payments under these guarantees is not considered to be probable, and the fair value of the guarantees is immaterial. We historically have not experienced significant payments under similar residual guarantees.

We are a party to many routine contracts in which we provide general indemnities in the normal course of business to third parties for various risks. Among other considerations, we have not recorded a liability for any of these indemnities as, based upon the likelihood of payment, the fair value of such indemnities would not have a material impact on our financial condition, results of operations and cash flows.

Historical Flow of Funds

Cash provided by operating activities was \$296.1 million and \$195.7 million for the thirteen weeks ended March 29, 2015 and March 30, 2014, respectively. The increase in cash flows provided by operating activities was primarily as a result of increased net income for the thirteen weeks ended March 29, 2015 as compared to the thirteen weeks ended March 30, 2014.

Our working capital position, which we define as current assets less current liabilities, decreased \$142.8 million to \$997.4 million and a current ratio of 2.32 at March 29, 2015 compared to \$1.1 billion and a current ratio of 2.53 at December 28, 2014. The decrease in working capital during the thirteen weeks ended March 29, 2015 was primarily a result of an increase in income taxes payable. Our working capital position increased \$93.9 million to \$939.5 million and a current ratio of 2.06 at March 30, 2014 compared to \$845.6 million and a current ratio of 1.78 at December 29, 2013. The increase in working capital during thirteen weeks ended March 30, 2014 was primarily the result of the generation of cash from operations.

Trade accounts and other receivables decreased \$14.4 million, or 3.8%, to \$369.7 million at March 29, 2015 from \$384.1 million at December 28, 2014. The change in trade accounts and other receivables resulted primarily from a decrease in sales generated in the two weeks ended March 29, 2015 as compared to sales generated in the two weeks ended December 28, 2014. Trade accounts and other receivables decreased \$2.2 million, or 0.6%, to \$376.8 million at March 30, 2014 from \$379.1 million at December 29, 2013. The change in trade accounts and other receivables resulted primarily from a \$2.8 million decrease in trade receivables attributable to lower net sales, a \$1.4 million decrease in receivables related to freight rebates and a \$0.6 million decrease in receivables related to insurance recoveries.

Inventories decreased \$1.6 million, or 0.2%, to \$788.7 million at March 29, 2015 from \$790.3 million at December 28, 2014. Inventories decreased \$15.3 million, or 1.9%, to \$793.5 million at March 30, 2014 from \$808.8 million at December 29, 2013. The change in inventories during both the thirteen weeks ended March 29, 2015 and March 30, 2014 was primarily due to decreased costs for feed grains and their impact on the value of our live chicken inventories.

Prepaid expenses and other current assets decreased \$10.4 million, or 10.9%, to \$85.0 million at March 29, 2015 from \$95.4 million at December 28, 2014. This change resulted primarily from a \$11.2 million decrease in open derivative positions and margin cash on deposit with our derivatives traders. Prepaid expenses and other current assets increased \$11.1 million, or 17.9%, to \$72.9 million at March 30, 2014 from \$61.8 million at December 29, 2013. This change resulted primarily from a \$10.4 million increase in margin cash on deposit with our derivatives traders.

Accounts payable, including accounts payable to JBS USA, increased \$11.7 million, or 2.9%, to \$416.0 million at March 29, 2015 from \$404.3 million at December 28, 2014. This change resulted primarily from a \$12.9 million increase in trade payables partially offset by a \$1.2 million decrease in the payable to related parties. Accounts payable, including accounts payable to related parties, increased \$13.6 million, or 3.6%, to \$387.9 million at March 30, 2014 from \$374.3 million at December 29,

32

2013. This change resulted primarily from an \$11.3 million increase in trade payables and a \$2.2 million increase in the payable to JBS USA.

Accrued expenses and other current liabilities decreased \$39.8 million, or 12.8%, to \$272.1 million at March 29, 2015 from \$311.9 million at December 28, 2014. This change resulted primarily from a \$29.5 million decrease in accrued compensation and benefits costs, an \$18.2 million decrease in derivative liabilities, a \$1.5 million increase in accrued interest and a \$1.4 million decrease in other accrued liabilities such as property taxes, legal fees and contract grower compensation that was partially offset by a \$7.7 million increase in accrued insurance and self-insured claims costs.

Accrued expenses and other current liabilities decreased \$7.6 million, or 2.7%, to \$275.7 million at March 30, 2014 from \$283.4 million at December 29, 2013. This change resulted primarily from a \$24.5 million decrease in accrued incentive compensation costs that was partially offset by a \$9.7 million increase in accrued interest and a \$6.0 million increase in accrued health insurance costs.

Income taxes, which includes income taxes receivable, income taxes payable, both current and noncurrent deferred tax assets, both current and noncurrent deferred tax liabilities and reserves for uncertain tax positions, increased \$44.2 million, or 52.3%, to \$128.5 million at March 29, 2015 from \$84.3 million at December 28, 2014. This change resulted primarily from tax expense recorded on our year-to-date income. Income taxes changed from a net asset position of \$18.8 million at December 29, 2013 to a net liability position of \$16.9 million at March 30, 2014. This change resulted primarily from tax expense recorded on our year-to-date income that was based on a higher effective tax rate. We experienced a higher effective tax rate in the thirteen weeks ended March 30, 2014 due to a 2013 decrease in the total valuation allowance that resulted primarily from the utilization of almost all of our domestic net operating losses.

Cash used in investing activities was \$31.7 million for the thirteen weeks ended March 29, 2015 and cash provided by investing activities was \$13.7 million for the thirteen weeks ended March 30, 2014. Capital expenditures totaled \$32.6 million and \$47.8 million in the thirteen weeks ended March 29, 2015 and March 30, 2014, respectively. Capital expenditures decreased by \$15.2 million primarily because of the number of projects that were active during the thirteen weeks ended March 29, 2015 when compared to the thirteen weeks ended March 30, 2014. Capital expenditures for 2015 cannot exceed \$500.0 million under the U.S. Credit Facility. Cash proceeds from property disposals in the thirteen weeks ended March 29, 2015 and March 30, 2014 were \$0.9 million and \$1.5 million, respectively. Cash used to purchase investment securities totaled \$37.0 million in the thirteen weeks ended March 30, 2014. Cash proceeds from the sell or maturity of investment securities in the thirteen weeks ended March 30, 2014 was \$97.0 million.

Cash used in financing activities was \$353.2 million and \$204.9 million in the thirteen weeks ended March 29, 2015 and March 30, 2014, respectively. Cash proceeds drawn from our revolving line of credit and long-term borrowings totaled \$1.7 billion in the thirteen weeks ended March 29, 2015. No cash proceeds were drawn from our revolving line of credit and long-term borrowings in the thirteen weeks ended March 30, 2014. Cash provided in the thirteen weeks ended March 29, 2015 by a tax benefit related to share-based compensation was \$7.8 million. Cash used to repay revolving line of credit obligations, long-term borrowings and capital lease obligations was \$533.7 million and \$204.9 million in the thirteen weeks ended March 29, 2015 and March 30, 2014, respectively. Cash used in the thirteen weeks ended March 29, 2015 to pay a special cash dividend of approximately \$1.5 billion and capitalized loan costs of \$8.9 million related to both the amendment and restatement of the U.S. Credit Facility and the sale of the Senior Notes.

Contractual Obligations

Contractual obligations at March 29, 2015 were as follows:

Contractual Obligations ^(a)	Total	Less than One Year	One to Three Years	Three to Five Years	Greater than Five Years
--	-------	-----------------------	-----------------------	------------------------	----------------------------
