Notes to Consolidated Financial Statements

(Unaudited)

1. Basis of Presentation

The consolidated financial statements of RARE Hospitality International, Inc. and subsidiaries (the Company) as of September 25, 2005 and December 26, 2004 and for the quarters and nine months ended September 25, 2005 and September 26, 2004 have been prepared by the Company, pursuant to the rules and regulations of the Securities and Exchange Commission. The information furnished herein reflects all adjustments (consisting of normal recurring accruals and adjustments), which are, in the opinion of management, necessary to fairly present the operating results for the respective periods. Certain information and footnote disclosures normally presented in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company's Annual Report on Form 10-K for the year ended December 26, 2004.

The Company records revenues for normal recurring sales upon the performance of services. Revenues from the sale of franchises are recognized as income when substantially all of the Company's material obligations under the franchise agreement have been performed. Continuing royalties, which are a percentage of net sales of franchised restaurants, are accrued as income when earned.

The Company operates on a 52 or 53 week fiscal year ending on the last Sunday in December. The fiscal quarters ended September 25, 2005 and September 26, 2004 each contained 13 weeks and are referred to hereafter as the third quarter of 2005 and the third quarter of 2004, respectively. Together, the first, second and third quarters of each fiscal year are referred to as the nine months ended September 25, 2005 and September 26, 2004, respectively.

Certain prior period amounts in the accompanying Consolidated Balance Sheet and Condensed Consolidated Statement of Cash Flows have been reclassified to conform to the presentation in fiscal 2005. These reclassifications had no effect on the Company's Consolidated Statements of Operations.

2. New Accounting Pronouncements

On October 6, 2005, the Financial Accounting Standards Board (FASB) issued FASB Staff Position 13-1, Accounting for Rental Costs Incurred During a Construction Period (FSP 13-1). FSP 13-1 is effective for the Company's fiscal 2006 and requires the Company to expense rental costs incurred during the construction period associated with ground or building operating leases. The Company has previously capitalized these costs. Retrospective application, which permits entities to restate financial statements of previous periods is permitted but not required. Management is currently analyzing the implementation alternatives as well as the impact of the adoption of FSP 13-1. The Company does not expect the initial adoption of this Staff Position to have a material impact on the Company's consolidated financial position.

In December 2004, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment, (SFAS 123R). SFAS 123R is a revision of SFAS No. 123, Accounting for Stock-Based Compensation. Among other items, SFAS 123R eliminates the use of the intrinsic value method of accounting, and requires companies to recognize the cost of awards of equity instruments granted in exchange for employee services received, based on the grant date fair value of those awards, in the financial statements. The effective date of SFAS 123R was the first interim period beginning after June 15, 2005; however, on April 14, 2005, the Securities and Exchange Commission announced that the effective date of SFAS 123R was postponed until the first annual period beginning after June 15, 2005.

SFAS 123R permits companies to adopt its requirements using either a modified prospective method, or a modified retrospective method. Under the modified prospective method, compensation cost is recognized in the financial statements beginning with the effective date, based on the requirements of SFAS 123R for all share-based payments granted after that date, and based on the requirements of SFAS 123 for all unvested awards granted prior to the effective date of SFAS 123R. Under the modified retrospective method, the requirements are the same as under the modified prospective method, but this method also permits entities to restate financial statements of previous periods based on proforma disclosures made in accordance with SFAS 123.

The Company currently utilizes the Black-Scholes option-pricing model to measure the fair value of stock options granted to employees. While SFAS 123R permits entities to continue to use this model, the standard also permits the use of a lattice model. SFAS 123R also requires that the benefits associated with the tax deductions in excess of recognized compensation cost be reported as a financing cash flow, rather than as an operating cash flow as required under current literature. This requirement will reduce net operating cash flows and increase net financing cash flows in periods after the effective date. These future amounts cannot be estimated because they depend on, among other things, when employees exercise stock options.

Edgar Filing: RARE HOSPITALITY INTERNATIONAL INC - Form 10-Q

As disclosed in Note 3, compensation cost for stock options for which the requisite future service has not yet taken place is disclosed as a proforma expense by applying the provisions of SFAS 123. The proforma application of SFAS 123 had a dilutive effect of approximately \$0.02 per diluted share in the third quarter of 2005 and approximately \$0.07 per diluted share for the first nine months of 2005 and is expected to have a proforma dilutive effect of approximately \$0.03 per diluted share in the fourth quarter of 2005. Compensation cost for stock options vesting beginning in fiscal 2006, and all restricted stock, will be expensed in accordance with the provisions of SFAS 123R, which will be effective for the Company at the beginning of fiscal 2006. Management is currently analyzing the implementation alternatives and requirements and is evaluating the impact of the adoption of this Standard on the Company's consolidated financial statements.

3. Shareholders' Equity and Stock Based Compensation

The Company has stock-based compensation plans that provide for the granting of restricted stock and incentive and non-qualified stock options to employees, officers, directors, consultants, and advisors. Under the plans, options are granted at an exercise price equal to the fair market value of the underlying common stock on the date of grant. The Company applies APB Opinion No. 25 and related interpretations in accounting for its stock-based plans as permitted under SFAS 123 and SFAS 148. Accordingly, no compensation cost has been recognized for the Company's stock option plans. Had the compensation cost for the Company's stock option plans been determined based on the fair value at the grant dates for awards under those plans consistent with the fair value methodology of SFAS 123, the Company's net income and earnings per share would have been as follows (in thousands, except per share data):

4. Notes Payable

Edgar Filing: RARE HOSPITALITY INTERNATIONAL INC - Form 10-Q

At September 25, 2005, \$4.5 million was outstanding under the Company's \$100.0 million revolving credit agreement, and the Company was in compliance with all of its debt covenant provisions. Interest expense is reported net of interest income and capitalized interest. Interest income equated to \$204,000 and \$64,000 for the third quarter of 2005 and 2004, respectively and to \$766,000 and \$251,000 for the first nine months of 2005 and 2004, respectively. Interest capitalized in the third quarter of 2005 and 2004 was \$237,000 and \$264,000, respectively and was \$738,000 and \$1,094,000, for the first nine months of 2005 and 2004, respectively.

On July 22, 2005, the Company entered into an amendment to its revolving credit facility, to extend the facility's maturity through July 22, 2010, and improve its costs and terms. The total amount the Company may borrow under the amended facility remained at \$100.0 million and amounts outstanding under the amended credit facility bear interest at LIBOR plus a margin of 0.50% to 1.25% depending on the Company's leverage ratio or the Administrative Agent's prime rate of interest, at the Company's option.

5. Income Taxes

Income tax expense for the third quarter and first nine months of 2005 has been provided for based on an estimated 33.25% effective tax rate expected to be applicable for the full 2005 fiscal year. The effective income tax rate differs from applying the statutory federal income tax rate of 35% to pre-tax earnings primarily due to employee FICA tip tax credits and work opportunity tax credits (both are a reduction in income tax expense) partially offset by state income taxes.

6. Treasury Shares

The Company's Board of Directors has authorized the purchase of shares of the Company's common stock from time to time through open market transactions, block purchases or in privately negotiated transactions. On April 20, 2005, the Board of Directors authorized the Company to use up to \$29.0 million to purchase shares of its common stock and on July 22, 2005, the Board of Directors authorized the repurchase of up to an additional \$30.0 million of the Company's common stock. During the third quarter of 2005, the Company repurchased 669,000 shares of its common stock at an average price of \$28.95 for an aggregate cost of \$19,368,000. As of September 25, 2005, approximately \$19,702,000 remained available under the Company's aggregate \$59.0 million share repurchase authorization.

7. Earnings Per Share

Basic earnings per common share equals net earnings divided by the weighted average number of common shares outstanding and does not include the dilutive effect of stock options or restricted stock. Diluted earnings per common share equals net earnings divided by the weighted average number of common shares outstanding, after giving effect to dilutive stock options and restricted stock. A reconciliation between basic and diluted weighted average shares outstanding and the related earnings per share calculation is presented below (in thousands, except per share amounts):

8. Comprehensive Income

For the quarters ended September 25, 2005 and September 26, 2004, there was no difference between the Company's net earnings and comprehensive income.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Revenues

The Company currently derives all of its revenues from restaurant sales and franchise revenues. Total revenues increased 15.8% and 15.0% for the quarter and nine months ended September 25, 2005, respectively, as compared to the same periods of the prior fiscal year.

Same store sales comparisons for each of the Company's restaurant concepts for the quarter ended September 25, 2005, consist of sales at restaurants opened prior to December 26, 2003.

LongHorn Steakhouse:

Sales in the LongHorn Steakhouse restaurants for the quarter and nine months ended September 25, 2005 increased 16.3% and 14.8%, respectively, as compared to the same periods of the prior year. The increase reflects (i) a 12.5% and 12.4% increase in restaurant operating weeks in the quarter and nine months ended September 25, 2005, respectively, as compared to the same periods of the prior fiscal year, resulting from an increase in the restaurant base from 206 LongHorn Steakhouse restaurants at the end of the third quarter of 2004 to 231 at the end of the third quarter of 2005 and (ii) an increase in average weekly sales. Average weekly sales for all LongHorn Steakhouse restaurants in the third quarter of 2005 were \$54,262, a 3.4% increase over the comparable period in 2004. Same store sales for the comparable LongHorn Steakhouse restaurants increased 3.3% in the third quarter of 2005 as compared to the same period in 2004 due entirely to increases in average check, partially offset by a slight decrease in customer counts.

The Capital Grille:

Sales in The Capital Grille restaurants for the quarter and nine months ended September 25, 2005, increased 25.9% and 27.3%, respectively, as compared to the same periods of the prior fiscal year. The increase reflects (i) a 19.2% and 18.1% increase in restaurant operating weeks for the quarter and nine months ended September 25, 2005, respectively, as compared to the same periods of the prior fiscal year, resulting from an increase in the restaurant base from 19 The Capital Grille restaurants at the end of the third quarter 2004 to 22 restaurants at the end of the third quarter of 2005 and (ii) an increase in average weekly sales. Average weekly sales for all The Capital Grille restaurants in the third quarter of 2005 were \$132,484, a 5.6% increase from the comparable period in 2004. Same store sales for the comparable The Capital Grille restaurants increased 4.4% in the third quarter of 2005, due almost entirely to increases in average check.

Bugaboo Creek Steak House:

Sales in the Bugaboo Creek Steak House restaurants increased for the quarter and nine months ended September 25, 2005, by 1.8% and 1.7%, respectively, as compared to the same periods of the prior fiscal year. The increase reflects increases of 10.4% and 7.9% in restaurant weeks in the quarter and nine months ended September 25, 2005, respectively, as compared to the same periods of the prior fiscal year, resulting from an increase in the restaurant base from 26 Bugaboo Creek Steak House restaurants at the end of the third quarter of 2004 to 30 restaurants at the end of the third quarter of 2005, partially offset by a decrease in average weekly sales and by the temporary closure of one restaurant during the first quarter of 2005 due to a fire. Average weekly sales for all Bugaboo Creek Steak House restaurants in the third quarter of 2005 were \$64,961, a 6.5% decrease from the comparable period for 2004. Same store sales for the comparable Bugaboo Creek Steak House restaurants in the third quarter of 2005 decreased 6.5% as compared to the same period in 2004, primarily due to a decrease in customer counts.

Franchise Revenue:

Franchise revenues increased to \$109,000 for the third quarter and increased to \$330,000 for the first nine months of 2005, from \$94,000 and \$294,000 for the same periods of the prior fiscal year, due to sales increases at the three franchised LongHorn Steakhouse restaurants in Puerto Rico.

Costs and Expenses

Cost of restaurant sales as a percentage of restaurant sales decreased to 36.5% for the third quarter of 2005, from 37.1% for the third quarter of 2004, and decreased to 36.6% for the first nine months of 2005 as compared to 36.7% during the same period of 2004. Although the Company is experiencing higher contract pricing on commodities in 2005, particularly pricing with respect to beef contracts, these higher costs have been more than offset by increases in menu prices and a favorable shift in the menu mix. The Company is currently under fixed price contracts with respect to its anticipated beef needs and these contracts are in effect for the remainder of 2005. The Company expects its cost of restaurant sales as a percentage of restaurant sales in the fourth quarter of 2005 to be approximately 0.3% to 0.6% lower than the comparable quarter of 2004. Many of the food products, other than protein products, purchased by the Company are affected by commodity pricing and are, therefore, subject to price volatility caused by weather, production problems, delivery difficulties and other factors, which are outside the control of the Company.

Edgar Filing: RARE HOSPITALITY INTERNATIONAL INC - Form 10-Q

Restaurant operating expense as a percentage of restaurant sales increased to 46.1% for the third quarter of 2005 from 45.3% for the third quarter of 2004 and increased to 44.5% for the first nine months of 2005, as compared to 43.7% for the same period of 2004. These increases in restaurant operating expenses as a percentage of restaurant sales for the 2005 periods, as compared to the prior year, were primarily due to wage rate pressures, including a \$1.00 per hour state mandated increase in the Florida minimum wage, unemployment tax increases and increases in the cost of utilities.

Restaurant depreciation as a percentage of restaurant sales, was 4.0% for both the third quarter of 2005 and 2004, and was 3.8% for the first nine months of 2005 as compared to 3.7% for the same period of the prior fiscal year.

Pre-opening expense for the third quarter of 2005 was \$1,564,000, a decrease of \$542,000 from the same period of the prior year. The number of restaurant openings in the third quarter of 2005 and 2004 were the same; however, pre-opening expense for the third quarter of 2004 included higher expenses related to The Capital Grille openings in New York City and Las Vegas. Pre-opening expense for the first nine months of 2005 was \$5.5 million, as compared to \$5.3 million during the same period of the prior year.

General and administrative expenses, as a percentage of total revenues, increased to 6.0% for the third quarter of 2005 from 5.7% for the same period in 2004, and decreased to 5.6% for the first nine months of 2005 from 5.8% for the same period of 2004. The increase for the third quarter of 2005 compared to the same period of the prior year was principally due to increased bonus accruals in the current quarter. The decrease in the general and administrative expenses as a percentage of sales in the 2005 year-to-date period, versus the comparable period of the prior year, was primarily due to greater leverage of fixed and semi-fixed general and administrative expenses resulting from higher average weekly sales volumes.

As a result of the relationships between revenues and expenses discussed above, the Company's operating income increased to \$15.1 million for the third quarter of 2005 and increased to \$59.8 million for the first nine months of 2005 as compared to \$13.2 million and \$55.8 million, respectively, for the same periods of the prior year.

Interest expense, net increased to \$520,000 in the third quarter of 2005, and \$1,171,000 for the first nine months of 2005, from \$459,000 and \$782,000 during the same periods of the prior year, primarily due to an increase in the level of interest associated with the Company's new capital lease obligations partially offset by an increase in the dollar amount of interest income. This interest income offset was higher in 2005 than in the comparable periods of 2004 due to an increase in the interest rate earned on investments. As of September 25, 2005, the Company had \$4.5 million outstanding under its revolving credit facility.

Minority interest expense decreased to \$22,000 for the third quarter and \$208,000 for the first nine months of 2005, from \$37,000 and \$238,000 for the same periods of the prior year, respectively, which reflects the joint venture partner's share of profitability of the Company's three joint venture LongHorn Steakhouse restaurants.

Income tax expense for the third quarter and first nine months of 2005 was 33.25% of earnings before income taxes, which reflects the effective tax rate expected to be applicable for the full 2005 fiscal year. This rate in 2005 is the same as the effective income tax rate for the full 2004 fiscal year. The Company's effective income tax rate differs from applying the statutory federal income tax rate of 35% to pre-tax income, primarily due to employee FICA tip tax credits and work opportunity tax credits partially offset by state income taxes.

Edgar Filing: RARE HOSPITALITY INTERNATIONAL INC - Form 10-Q

Net earnings increased to \$9.7 million for the third quarter of 2005 from net earnings of \$8.5 million for the third quarter of 2004 and increased to \$39.0 million for the nine months ended September 25, 2005 from \$36.6 million for the nine months ended September 26, 2004, reflecting the net effect of the items discussed above.

Outlook for Future Operating Results

The Company expects 2005 diluted earnings per common share in a range of \$1.52 to \$1.55. This level of earnings per common share assumes same store sales increases for the fourth quarter of 2005 in a range of 2% to 3% for LongHorn Steakhouse, 4% to 5% for The Capital Grille and a same store sales decrease of 2% to 1% for Bugaboo Creek Steak House, and the projected restaurant openings discussed below.

Liquidity and Capital Resources:

The Company requires capital primarily for the development of new restaurants, the remodeling of existing restaurants and selected acquisitions. During the first nine months of 2005, the Company's principal sources of working capital were cash provided by operating activities (\$75.1 million), proceeds from the exercise of employee stock options (\$5.5 million) and proceeds from the Company's line of credit (\$4.5 million). For the first nine months of 2005, the principal uses of working capital were capital expenditures related to new and improved facilities (\$64.7 million) and the purchase of common stock for treasury (\$39.3 million).

The Company intends to open 27 LongHorn Steakhouse restaurants, three The Capital Grille restaurants and three Bugaboo Creek Steak House restaurants in fiscal year 2005. The Company estimates that its capital expenditures for fiscal year 2005 will be approximately \$95 to \$105 million. During the first nine months of 2005, the Company opened 21 LongHorn Steakhouse restaurants, two The Capital Grille restaurants and two Bugaboo Creek Steak House restaurants. Management believes that available cash, cash provided by operations, and available borrowings under the Company's \$100.0 million revolving credit facility will provide sufficient funds to finance the Company's expansion plans through fiscal 2006.

The Company's Board of Directors has authorized the purchase of shares of the Company's common stock from time to time through open market transactions, block purchases or in privately negotiated transactions. The Board of Directors has authorized the Company to use up to an aggregate of \$59.0 million to purchase shares of its common stock. During the third quarter of 2005, the Company repurchased 669,000 shares of its common stock at an average price of \$28.95 for an aggregate cost of \$19,368,000. As of September 25, 2005, approximately \$19,702,000 remained available under the Company's \$59.0 million share repurchase authorization.

Since substantially all sales in the Company's restaurants are for cash, and accounts payable are generally due in seven to 30 days, the Company operates with little or negative working capital.

Forward-Looking Statements

Statements contained in this report concerning liquidity and capital resources and future operating results contain certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of

Edgar Filing: RARE HOSPITALITY INTERNATIONAL INC - Form 10-Q

1934, as amended. These statements include statements regarding the intent, belief or current expectations of the Company and members of its management team, as well as assumptions on which such statements are based. All forward-looking

statements in this Form 10-Q are based upon information available to the Company as of the date of this report. Forward-looking statements involve a number of risks and uncertainties, and in addition to the factors discussed elsewhere in this Form 10-Q, other factors that could cause actual results, performance or developments to differ materially from those expressed or implied by those forward-looking statements include the following: failure of facts to conform to necessary management estimates and assumptions regarding financial and operating matters; the Company's ability to identify and secure suitable locations for new restaurants on acceptable terms, open the anticipated number of new restaurants on time and within budget, achieve anticipated rates of same store sales, hire and train additional restaurant personnel and integrate new restaurants into its operations; the continued implementation of the Company's business discipline over a large and growing restaurant base; increases in the cost of construction; unexpected increases in cost of sales or employee, pre-opening or other expenses; the economic conditions in the new markets into which the Company expands and possible uncertainties in the customer base in these areas; fluctuations in quarterly operating results; seasonality; unusual weather patterns or events; changes in customer dining patterns; the impact of any negative publicity or public attitudes related to the consumption of beef or other products sold by the Company; unforeseen increases in commodity pricing; disruption of established sources of product supply or distribution; competitive pressures from other national and regional restaurant chains; legislation adversely affecting the restaurant industry; business conditions, such as inflation or a recession, or other negative effect on dining patterns, or some other negative effect on the economy, in general, including (without limitation) war, insurrection and/or terrorist attacks on United States soil; growth in the restaurant industry and the general economy; changes in monetary and fiscal policies, laws and regulations; and the risks identified from time to time in the Company's SEC reports, including the Company's Annual Report on Form 10-K for 2004, registration statements and public announcements. The Company undertakes no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results over time.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

The Company may be exposed to market risk from changes in interest rates on debt.

As of September 25, 2005, the Company had \$4.5 million outstanding under its \$100.0 million revolving credit facility. Amounts outstanding under such credit facility bear interest at LIBOR plus a margin of 0.50% to 1.25% (the applicable margin depending on the Company's leverage ratio), or the Administrative Agent's prime rate of interest at the Company's option. Accordingly, the Company may be exposed to the impact of interest rate movements. To achieve the Company's objective of managing its exposure to interest rate changes, the Company may from time to time use interest rate swaps. The Company did not enter into any interest rate swap agreements during the periods presented in this quarterly report.

Investment Portfolio

The Company invests portions of its excess cash, if any, in highly liquid investments. At September 25, 2005, the Company had approximately \$395,000 in high-grade overnight repurchase agreements, and approximately \$9.8 million in short-term investments in the form of Federal, state, and municipal bonds and commercial paper. As of September 25, 2005, the Company has classified all short-term investments as trading securities. The market risk on such investments is minimal due to their short-term nature.

Item 4. Controls and Procedures

In accordance with the Securities Exchange Act Rule 13a-15, the Company's management, under the supervision of the Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the design and operation of the Company's disclosure controls and procedures were effective to ensure that the information required to be disclosed by the Company in this Quarterly Report on Form 10-Q was recorded, processed, summarized and reported within the time periods specified in SEC rules and instructions for Form 10-Q. During the Company's last fiscal quarter, there were no changes in internal controls over financial reporting or in other factors that has materially affected, or is reasonably likely to materially affect internal controls over financial reporting.
