Citizens Financial Corporation and Subsidiaries  
Notes to Condensed Consolidated Financial Statements  
(Unaudited)

Note 1 - BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q in conformity with accounting principles generally accepted in the United States. The accompanying unaudited condensed financial statements reflect all adjustments that are, in the opinion of management, necessary to a fair presentation of the results for the interim periods. All such adjustments are of a normal recurring nature. For further information, refer to the December 31, 2003 consolidated financial statements and footnotes included in the Company's annual report on Form 10-K.

Note 2 - COMPREHENSIVE INCOME

The components of comprehensive income (loss), net of related tax, for the three and six month periods ended June 30, 2004 and 2003 are as follows:

	Three Months Ended June 30,		Six Months En

Net unrealized gains (losses) on securities	(4,191,038)	2,420,849	(2,819,534)
Comprehensive Income (Loss)	\$ (5,063,713)	\$ 2,101,109	\$ (3,801,816)

Note 3 - DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Company's derivatives outstanding at June 30, 2004 include approximately \$227,000 of embedded options on convertible bonds and \$(90,000) of other open option positions. Hedge accounting is not used for these securities and changes in market value are reported currently as realized gains or losses.

Note 4 - NET REALIZED INVESTMENT GAINS (LOSSES), NET OF EXPENSES

The Company recorded pretax reductions to the carrying value of available for sale securities totaling \$101,000 and \$135,000 for the six months ended June 30, 2004 and 2003, respectively, relating to declines in value which were considered by management to be other than temporary. These amounts are included along with other net realized gains (losses). Until the Company terminated its investment management agreements on January 31, 2004, the Company also netted certain direct, incremental investment management fees against net realized investment gains and losses presented in the Condensed Consolidated Statements of Operations. Such costs are based directly on or, are primarily associated with capital gains. Costs netted against realized investment gains and losses total \$46,000 and \$225,000 for the six months ended June 30, 2004 and 2003, respectively.

Note 5 - INCOME TAXES

Current taxes are provided based on estimates of the projected effective annual tax rate. Deferred taxes reflect the net effects of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Income before federal income taxes differs from taxable income principally due to the small life insurance company tax deduction and dividends-received tax deductions.

Part I; Item 1 (continued)

Note 6 - SEGMENT INFORMATION

The Company's operations are managed along five principal insurance product lines: Home Service Life, Broker Life, Preneed Life, Dental, and Other Health. Products in all five lines are sold through independent agency operations. Home Service Life consists primarily of traditional life insurance coverage sold in amounts of \$10,000 and under to middle and lower income individuals. This distribution channel is characterized by a significant amount of agent contact with customers throughout the year. Broker Life product sales consist primarily of simplified issue and graded-benefit policies in amounts of \$10,000 and under.

Edgar Filing: CITIZENS FINANCIAL CORP /KY/ - Form 10-Q

Other products in this segment, which are not aggressively marketed, include: group life, universal life, annuities and participating life coverages. Preneed Life products are sold to individuals in connection with prearrangement of their funeral and include single premium and multi-pay policies with coverages generally in amounts of \$10,000 and less. These policies are generally sold to older individuals at increased premium rates. Dental products are term coverages generally sold to small and intermediate size employer groups. Other Health products include various accident and health coverages sold to individuals and employer groups. Segment information as of June 30, 2004 and 2003, and for the periods then ended is as follows:

The Company evaluates performance based on several factors, of which the primary financial measure is segment profit. Segment profit represents pretax earnings, except net realized investment gains (losses) and interest expense are excluded. A significant portion of the Company's realized investment gains (losses) are generated from investments in equity securities. The equities portfolio averaged (on a cost basis) approximately \$11,964,000 and \$9,066,000 during the six months ended June 30, 2004 and 2003, respectively.

Part I; Item 1 (continued)

Note 7 - LITIGATION

United Liberty, which the Company acquired in 1998, is defending an action in an Ohio state court brought by two policyholders in 2000. The Complaint refers to a particular class of life insurance policies that United Liberty issued over a period of years ending around 1971. It alleges that United Liberty's dividend payments on these policies from 1993 through 1999 were less than the required amount. It does not specify the amount of the alleged underpayment but implies a maximum of about \$850,000. The plaintiffs also allege that United Liberty is liable to pay punitive damages, also in an unspecified amount, for breach of an implied covenant of good faith and fair dealing to the plaintiffs in relation to the dividends. The action has been certified as a class action on behalf of all policyholders who were Ohio residents and whose policies were still in force in 1993. United Liberty has denied the material allegations of the Complaint and is defending the action vigorously. United Liberty has filed a motion for summary judgment, which has been fully briefed and argued and awaits decision by the Court. Efforts to settle the action, including mediation, have not been successful. The Company expects that the Court will decide pending motions in the third quarter, which may dispose of all issues in the case or set the stage for trial. At this stage, the Company remains unable to determine whether an unfavorable outcome of this action is likely to occur or whether the chance of such an outcome is remote and therefore does not have a basis for estimating the potential loss, if any, that may ultimately result.

Since 2001, Citizens Security has been defending an action in an Alabama state court brought by an alleged policyholder in which a former independent agent is also a defendant. The action was described in Note 7 to Part I, Item 1, of the Company's Form 10-Q for the quarterly period ended March 31, 2004. The parties settled this action in early August 2004. For strategic reasons related to other potential claims, the Company has not disclosed the specific amount paid in settlement. It is included under "Policyholder benefits" in the Condensed Consolidated Statements of Operations for the three and six months ended June 30, 2004 in "Policy and contract claims" in the Condensed Consolidated Statement of Financial Condition.

In addition, the Company is party to other legal, actions in the normal course of business. Management believes that recorded claims liabilities are adequate to ensure that these other actions will be resolved without material financial impact on the Company.

Note 8 - RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

## Edgar Filing: CITIZENS FINANCIAL CORP /KY/ - Form 10-Q

Effective January 1, 2004, the Company adopted Statement of Position 03-1, "Accounting and Reporting by Insurance Enterprises for certain Nontraditional Long-Duration Contracts and for Separate Accounts (SOP 03-1)." The provisions of SOP 03-1 did not have a material impact on the Company's financial statements.

### Part I; Item 2 - Management's Discussion and Analysis

#### EXECUTIVE SUMMARY

The Company's management continuously monitors the performance and outlook of the Company by analyzing several indicators that they judge to be critical. Some, but not necessarily all, of the indicators of particular interest to management are:

- o The general economic environment
- o Trend of premium volume
- o Lapse rates
- o Mortality and morbidity rates
- o Trend of general expense levels
- o Asset and Shareholders' Equity growth
- o General interest rate movements
- o Investment yields
- o Diversity (e.g. by industry) and mix (e.g. between fixed income securities and equity securities) of our portfolios
- o Segment performance and trends

OPERATIONS. Net premiums and other considerations decreased approximately \$1,618,000, or 18.4% during the three months ended June 30, 2004 compared to the three months ended June 30, 2003 and decreased approximately \$3,523,000 for the first six months of 2004 compared to the first six months of 2003. Below is a summary of net premiums earned by segment, for the three and six month periods ended June 30, 2004, along with the change from the same periods of 2003.

NET PREMIUMS EARNED	Three Months Ended June 30,		Six Months Ended June 30,

Segment Totals	\$ 7,195,276	\$ (1,617,595)	\$14,267,844	\$ (3,522,600)

Preneed Life premiums declined \$3,647,000 or 49% during the first half of 2004

## Edgar Filing: CITIZENS FINANCIAL CORP /KY/ - Form 10-Q

compared to the same period in 2003 as the result of the Company lowering crediting rates related to face amount growth, lowering commission rates and changing the focus of our marketing efforts in the second half of 2003. The Company is in the process of redirecting the focus of our marketing efforts to the Home Service, Broker and Dental segments in an effort to improve profitability in those segments. During 2004, Dental premiums were favorably impacted by additional broker relationships, increasing participation of certain groups and normal inflationary premium increases. The Other Health segment products are not being actively marketed. All other segments experienced only modest changes in premium from the first half of 2003.

The increase in net benefit reserves decreased \$2,700,000 or 69% during the first half of 2004 compared to the same period in 2003 primarily due to the decrease in Preneed policies issued and in force during the period. The decrease in net benefit reserves in the second quarter was \$1,486,000 or 65% compared to the second quarter of 2003.

Pretax loss increased approximately \$201,000 to \$995,000 for the six months ended June 30, 2004, primarily due to unfavorable mortality and Dental morbidity rates, settlement of a lawsuit and increased general expenses, partially offset by an increase in realized investment gains of \$454,000 and an increase in net investment income of \$588,000. Net investment income increased 21% for the first half of 2004 compared to the same period of 2003, in spite of a decline in invested assets, due to a decrease in cash and cash equivalents and an increased

yield on the Company's fixed maturities portfolio resulting from investing in longer term fixed maturity securities. Net realized investment gains increased to \$290,000 for the first six months of 2004 from net investment losses of \$165,000 for the same period in 2003, as the Company took advantage of the stronger equities markets of the past twelve months. Net benefits increased \$631,000 or 6% during the first six months of 2004 from the same period in 2003 due primarily to adverse mortality rates in Broker and the Preneed segments along with adverse morbidity in the Dental segment. Commissions decreased \$848,000 or 25% for the six months ended June 30, 2004 compared to the same period in 2003 due to a lowering in commission rates in the second half of 2003 on the Preneed premium and the decrease in that premium. General expenses increased \$340,000, or 9.9% for the first half of 2004 due to the Company continuing to incur costs associated with outside consultants who were employed to review profitability of the Company's life products in the current interest rate environment and perform other actuarial calculations and analysis, the cost of a severance agreement settlement and the costs of a market conduct examination conducted by the Office of Insurance of the Company's domiciliary state. Policy acquisition costs deferred decreased \$503,000 or 44% for the six months ended June 30, 2004 compared to the same period in 2003 principally due to the substantial decline in first year Preneed premiums during the same period. Pretax Segment loss (excluding realized investment gains (losses) and interest expense) for the first six months of 2004 was approximately \$1,107,000 compared to \$440,000 for the first six months of 2003. This is primarily attributable to the factors described above relative to revenue changes, mortality and morbidity rates, increased general expenses and the settlement of one of the lawsuits discussed in Note 7 to the Condensed Consolidated Financial Statements. Below are the approximate, annualized pretax investment income and total return yields for the six months ended June 30, 2004 and 2003.

Investment Income Yield - Annualized	4.89%	4.28%
Total Return - Annualized	(1.21)%	10.92%

The income tax benefit of \$13,000 is at a lower effective rate on the pretax operating loss, excluding net realized investment gains, (1.0%) than the full year rate for 2003 of 5.2% due to the Company not having any ability to carry back any additional net operating losses for tax purposes and management's judgment that it is not likely the full tax benefit will be realized in the foreseeable future.

FINANCIAL POSITION. Shareholders' equity totaled approximately \$17,032,000 and \$20,833,000 at June 30, 2004 and December 31, 2003, respectively. These balances reflect an approximate 18.2% decrease for the six months ended June 30, 2004. As described above, the comprehensive income (loss) totaled approximately \$(3,802,000) and \$2,186,000 for the six months ended June 30, 2004 and 2003, respectively. A significant portion of the comprehensive income (loss) is attributable to changes in the value of the Company's fixed maturity and equity portfolios. Equity securities comprised approximately 10.7% and 7.1% of the Company's total assets as of June 30, 2004 and December 31, 2003, respectively. Accordingly, as also described below, the Company's financial position can be significantly affected by movements in the equities markets. Equity portfolio positions increased \$5,420,000 on a cost basis and \$5,035,000 on a market value basis, during the first six months of 2004. Fixed maturity portfolio positions decreased \$423,000 on an amortized cost basis and \$4,493,000 on a market value basis during the same period. This difference resulted primarily from a significant decrease in bond prices during the period. Cash and cash equivalent positions decreased approximately \$1,559,000 during the quarter ended June 30, 2004.

Equity markets continue to be highly volatile and were unfavorable in the second quarter of 2004. Interest yields on fixed maturity investments held in our portfolio are continuing to slowly increase. The significant decline in short-term rates continues to adversely impact the Company's investment portfolio yield and operating earnings. The 2004 environment described continues to generate a relatively high level of qualitative investment risk. However, measures of quantitative risk per unit of investment are not believed to have changed significantly from those previously disclosed in the Company's 2003 Form 10-K.

#### OFF-BALANCE SHEET ARRANGEMENTS

The Company does not participate in any off-balance sheet arrangements.

CASH FLOW AND LIQUIDITY. Cash flow from operations totaled \$(14,000) for the six months ended June 30, 2004 compared to \$3,489,000 for the same period in the prior year. The decrease in the positive cash flow is primarily attributable to the decline in Preneed Life business which was growing during the second quarter of 2003 and adverse mortality and morbidity rates. The \$3,666,000 of cash used in investing activities for the six months ended June 30, 2004 resulted primarily from investing a large portion of cash held at the beginning of the year, partially offset by proceeds from the sale of the Company's interest in an aircraft. The \$1,166,000 of cash used in financing activities during the first six months of 2004 is primarily attributable to bank loan principal repayments along with annuity and Universal Life account withdrawals. Due to continued

earnings pressure from low yields on investments and cash equivalents and the declining Preneed premiums, the Company is completing a strategic review of its products and operations. A key element of this initiative is improving profitability of the Preneed, Home Service, and Broker Life segments by increasing premiums in the Home Service and Broker segments, strengthening underwriting practices, modifying growth commissions, and where possible, lowering interest crediting or policy growth rates. Regarding the currently scheduled debt repayments, the Company believes its available funds will be adequate to service 2004 debt obligations and, with other available assets, management believes it will be adequate to service debt obligations through 2005. The Company sold its interest in an aircraft to SMC Advisors Inc., a related entity, in April 2004, generating \$971,000 in additional cash. In addition, the Company's Chairman has expressed potential willingness to loan the Company an additional \$2,000,000 if necessary, which could service debt obligations through the majority of 2007. For the quarter ended June 30, 2004, the Company did not meet one of its bank debt covenants (debt to earnings ratio), however the lender has waived this violation for the quarter and for several previous quarters. In return for the waiver the Company's Chairman has personally guaranteed the outstanding bank debt.

### FORWARD-LOOKING INFORMATION.

All statements, trend analyses and other information contained in this report relative to markets for the Company's products and trends in the Company's operations or financial results, as well as other statements including words such as "anticipate", "believe", "plan", "estimate", "expect", "intend", and other similar expressions, constitute forward-looking statements under the Private Securities Litigation Reform Act of 1995. These forward-looking statements are subject to known and unknown risks, uncertainties and other factors which may cause actual results to be materially different from those contemplated by the forward-looking statements. Such factors include, among other things:

- |X| the market value of the Company's investments, including stock market performance and prevailing interest rate levels;
- |X| customer and agent response to new products, distribution channels and marketing initiatives, including exposure to unrecoverable advanced commissions;
- |X| mortality, morbidity, lapse rates, and other factors which may affect the profitability of the Company's insurance products;
- |X| regulatory changes or actions, including those relating to regulation of insurance products and insurance companies;
- |X| ratings assigned to the Company and its subsidiaries by independent rating organizations which the Company believes are important to the sale of its products;
- |X| general economic conditions and increasing competition which may affect the Company's ability to sell its products;
- |X| the Company's ability to achieve anticipated levels of operating efficiencies and meet cash requirements based upon projected liquidity sources;
- |X| unanticipated adverse litigation outcomes; and
- |X| changes in the Federal income tax laws and regulations that may affect the relative tax advantages of some of the Company's products.

There can be no assurance that other factors not currently anticipated by management will not also materially and adversely affect the Company's results of operations.

Part I; Item 3 - Quantitative and Qualitative Disclosures about Market Risk

Quantitative and Qualitative Risk. The primary changes in quantitative market risks during the six months ended June 30, 2004 are discussed in Part I, Item 2 above.

### Part I; Item 4 - Controls and Procedures

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES. Within the past 90 days, the Company conducted an evaluation of its disclosure controls and procedures, with the supervision and participation of its Chief Executive Officer and Principal Financial Officer. The Company does not expect that its disclosure controls and procedures will prevent all error and fraud. Such a control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must balance the constraint of prudent resource expenditure with a judgmental evaluation of risks and benefits. Based on this evaluation of disclosure controls and procedures, the Company's Chief Executive Officer and Principal Financial Officer have concluded that such controls and procedures provide reasonable assurance that material information required to be included in the Company's periodic SEC reports is made known on a timely basis to the Company's principal executive and financial officers.

CHANGES IN INTERNAL CONTROLS. There have been no significant changes in the Company's internal controls or changes in other factors that could significantly affect these controls subsequent to their evaluation, nor has the Company implemented any corrective actions regarding significant deficiencies or material weaknesses in internal controls.
