## Portfolio Manager's COMMENTS

Portfolio manager Tom Futrell examines economic and market conditions, key strategies, and the performance of these Nuveen Municipal Closed-End Exchange-Traded Funds. Tom, who joined Nuveen in 1983, has managed NPI since 1988, and NPM and NPT since late 2001.

### WHAT FACTORS HAD THE GREATEST INFLUENCE ON THE U.S. ECONOMY AND THE MUNICIPAL MARKET DURING THIS REPORTING PERIOD?

The two major forces at work during the twelve months ended April 30, 2002, were the general slowdown in economic growth and the Federal Reserve's aggressive easing of short-term interest rates. In addition, the events of September 11, 2001, and the uncertain geopolitical climate that followed also have impacted the economy and the markets.

In the municipal markets, the generally sluggish economic environment of the past twelve months helped many securities perform well. In addition, the trend toward increased issuance remained strong. Looking at the first four months of 2002, new issue supply reached \$87 billion, up about 10% over January-April 2001. On the demand side, municipal bonds continued to be highly sought after by individual investors looking for diversification, tax-free income and an alternative to a volatile stock market. Institutional investors, especially traditional purchasers such as property/casualty insurance companies and pension plans, also have been active buyers in the new issue market.

### HOW DID THESE NUVEEN FUNDS PERFORM OVER THE PAST TWELVE MONTHS?

For the year ended April 30, 2002, these Nuveen Funds produced total annual returns on net asset value (NAV) as shown in the accompanying table. The annual returns for the Lehman Brothers Municipal Bond Index1 and relevant Lipper Peer Group2 are also presented.

	MARKET YIELD	TOTAL RETURN ON NAV	LEHMAN TOTAL RETURN1	LIPPER AVERAGE2
	4/30/02	1 YEAR ENDED 4/30/02	1 YEAR ENDED 4/30/02	1 YEAR ENDED 4/30/02
	TAXABLE- EQUIVALENT3			
NPI	6.45%	9.21%	7.31%	8.22%
NPM	6.70%	9.57%	7.27%	8.22%
NPT	6.55%	9.36%	4.29%	8.22%

Past performance is not predictive of future results.

For additional information, see the individual Performance Overview for your Fund in this report.

Over the past twelve months, the Fed's policy to reduce short-term interest rates, combined with generally favorable market conditions, created a positive total return environment for municipal bonds. This participation in the market's gains is reflected, in part, in the total returns on NAV for NPI and NPM listed in the previous table. The performance of these Funds was roughly in line with its peer group and the general market. NPT's relative underperformance over this period was due primarily to the extent and timing of bond calls within its portfolio, as well as to credit issues with a few specific holdings. NPT continues to hold issues from two separate multifamily housing projects, the Keystone at Fall Creek Apartments in Indianapolis, Indiana, and the Trinity project in Oklahoma County, Oklahoma. Both of these projects are now in default

## Edgar Filing: NUVEEN PREMIUM INCOME MUNICIPAL FUND 4 INC - Form N-30D

and have fallen behind in interest payments. Nuveen is actively pursuing a resolution to these situations that we believe will serve the best interests of shareholders. In the meantime, it is important to note that, overall, NPT's portfolio is in good shape, and the Fund continued to offer shareholders attractive monthly tax-free dividends.

### HOW DID THE MARKET ENVIRONMENT AFFECT THESE FUNDS' DIVIDENDS AND SHARE PRICES?

With the Fed's policy of interest rate easing over the past year, the dividend-payment capabilities

- 1 The performance of these Funds is compared with that of the Lehman Brothers Municipal Bond Index, an unleveraged index comprising a broad range of investment-grade municipal bonds. Results for the Lehman index do not reflect any expenses.
- 2 These Funds' total returns are compared with the average annualized return of the 50 funds in the Lipper General Leveraged Municipal Debt Funds category. Fund and Lipper returns assume reinvestment of dividends.
- 3 The taxable-equivalent yield represents the yield that must be earned on a taxable investment in order to equal the yield of the Nuveen Fund on an after-tax basis. The taxable-equivalent yield is based on the fund's market yield on the indicated date and a federal income tax rate of 30%.
- 4 Duration is a measure of a Fund's NAV volatility in reaction to interest rate movements. Fund duration, also known as leverage-adjusted duration, takes into account the leveraging process for a Fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the Fund. Unless otherwise noted, references to duration in this commentary are intended to indicate Fund duration.

2

of all these Funds benefited from the use of leverage, a strategy that can potentially enhance the dividends paid to common shareholders. The amount of this benefit is tied in part to the short-term rates the Funds pay their MuniPreferred shareholders. For example, low short-term rates can enable the Funds to reduce the amount of income they pay preferred shareholders, which can leave more earnings to support common share dividends.

During the year ended April 30, 2002, steady or falling short-term interest rates enabled us to implement a series of dividend increases in all three Funds. In coming months, the lower rates now being offered by municipal securities with shorter maturities could potentially continue to benefit common shareholders of these Funds. However, this benefit could be offset by the effect of bond calls on higher-yielding securities, especially if refundings increase as the result of lower rates. The level of short-term rates, the number of bond calls, and the interest rates at which we can reinvest the proceeds of any calls will all influence the dividends of these Nuveen Funds over the next twelve months.

Over the past year, the share prices of these Funds remained relatively stable (see the charts on the individual Performance Overview pages). Each saw their discount (share price below NAV) narrow over the twelve months ended April 30, 2002.

WHAT KEY STRATEGIES WERE USED TO MANAGE THESE FUNDS DURING THE YEAR ENDED

## Edgar Filing: NUVEEN PREMIUM INCOME MUNICIPAL FUND 4 INC - Form N-30D

APRIL 30, 2002?

Two areas of emphasis during this reporting period were enhancing the dividend-paying capabilities of the Funds and improving their call protection. Given the current level of interest rates, our general approach was to hold higher-yielding bonds subject to calls for as long as practical to help support the Funds' dividends, while we looked for attractive replacement opportunities. When investing call proceeds, we focused on essential services (such as water and sewer systems), some selected housing and industrial development issues, and certain general obligations bonds. When we were able to obtain attractive prices, we selectively sold some multi-family housing and tobacco-settlement bonds from all three portfolios.

We also were trying to shorten each of the Funds' duration modestly by buying bonds with about 20 years to maturity. These bonds can provide yields similar to those offered by 30-year bonds, but they have shorter durations<sup>4</sup> which make them less sensitive to interest rate changes. While each of the Funds has some current call exposure, particularly NPM, we believe that in each case the call positions are very manageable, and we foresee no problems reinvesting call proceeds.

In view of investor concerns in the current market environment, we made an effort to maintain strong credit quality in each Fund. Each of these Funds had allocations of AAA and AA rated bonds ranging from 76% in NPT to 85% in NPI as of April 30, 2002. Each of these Funds also had a portion of its assets invested in BBB and non-rated bonds, which helped their dividend-paying capabilities.

WHAT IS YOUR OUTLOOK FOR THE MUNICIPAL MARKET IN GENERAL AND THESE NUVEEN FUNDS IN PARTICULAR?

In general, our outlook for the fixed-income markets over the next twelve months remains positive. We believe the U.S. economy is headed for recovery, but one that may take longer and see a slower pace of growth than some are now predicting. We believe inflation and interest rates should remain relatively low over the near term, and we think new municipal issuance should continue to be strong. We anticipate the demand for tax-exempt municipal bonds will remain firm as investors look for ways to rebalance their portfolios and reduce risk.

We plan to remain focused on strategies that add value for our shareholders, provide support for the Funds' dividends, and fully utilize Nuveen's experience and research expertise. As noted, shareholders may see these Funds' durations shorten somewhat as part of the process of reinvesting proceeds from called bonds in bonds with about 20 years to maturity.

Overall, we believe these Funds can continue to play an important role in investors' long-range financial programs, providing balance and diversification, dependable tax-free income, and a measure of security in uncertain times. We believe the Funds currently are well diversified and well positioned for the market environment ahead, and we will continue to closely monitor and respond to events as appropriate.

INVESTOR

BOND SURVEILLANCE - A HIGH PRIORITY AT NUVEEN

The Enron scandal has raised numerous questions about the real value of American securities. Investors want to know what safeguards are in place to inspire their trust and ensure their holdings are dependable. The Nuveen Investor recently spoke with David Blair, Assistant Vice President and Senior Analyst at Nuveen, about the research and surveillance processes used for Nuveen funds.

DO NUVEEN'S RESEARCH ANALYSTS EVALUATE BONDS PRIOR TO PURCHASE?

We evaluate factors impacting market sectors, issuers and specific bonds and assign credit ratings to bonds we consider for purchase. We seek to purchase bonds with stable and improving credit characteristics, which have attractive prices and yields relative to other bonds in their sectors.

HOW DO YOU CONDUCT YOUR RESEARCH?

We conduct detailed analyses that often involve site visits and discussions with managers of the projects being financed. Since Nuveen is a major investor with large buying power, issuers and project managers are willing to listen to us and respond to our concerns.

IS THE RESEARCH AND ANALYSIS PROCESS ANY DIFFERENT WHEN CONSIDERING HIGH-YIELD BONDS?

Up to 20 percent of some funds can be invested in below investment grade bonds to help the fund attain a higher yield. This underscores the need for research. If one of our 16 analysts believes a high-yield bond should be purchased, a second analyst reviews the issue as well.

HOW DO YOU MONITOR THE VARIOUS BONDS ONCE THEY'VE BEEN PURCHASED?

We have a proprietary database with information and analysis on the bonds Nuveen holds in its funds. Among other things, we are able to evaluate risk exposure to sectors, issuers and specific bonds on an on-going basis.

HOW DOES THE RESEARCH DEPARTMENT COMMUNICATE THE INFORMATION GATHERED?

We conduct biweekly meetings within the research department and weekly meetings with portfolio managers. We also write-up our findings and distribute them with "buy," "hold" or "sell" recommendations to portfolio managers.

### IS IT TIME TO RETHINK YOUR BOND STRATEGY?

Significant stock market losses in recent history have sent many investors toward bonds as a way to potentially cut their losses and balance equity-dominated portfolios. While many consider bonds a set-and-forget investment, there are several circumstances that might prompt you to reassess -- and perhaps revamp -- your bond holdings.

### TAX BRACKET CHANGES

The Economic Growth and Tax Relief Reconciliation Act of 2001 has dropped tax brackets a percentage point this year, but a higher salary, large bonus, sale of assets or retirement may push you into a higher tax bracket for 2002.

If you are in a higher tax bracket and want to generate an income stream without raising your tax burden, tax-free municipal bonds may be a prudent option. Even if you are in a lower tax bracket, municipal bonds could make sense. The question is whether municipal or taxable bonds will deliver a better taxable yield.

### RETIREMENT PLANS CHANGE

Whether you are near retirement or are currently enjoying it, you may want to consider rebalancing your retirement accounts with less stock and more bonds, to potentially reduce risk and try to preserve the assets that you have accumulated. If you are just entering retirement you may want to make tax-free municipal bonds a part of your portfolio to emphasize income generation and protection from taxation.

### RISK TOLERANCE CHANGES

The recent market volatility and market downturn may have caused many investors to reevaluate their tolerance for risk. On the other hand, your portfolio might have performed well over the last few years and you may not need to take on extra risk to meet your long-term goals. In either situation you could take a look at your bond portfolio and determine whether you need to make changes to correspond with your tolerance for risk.

### PORTFOLIO CHANGES

If you make significant changes to one or more of your investments, you'll want to look at your portfolio as a whole, particularly with regard to overall asset allocation. You may need to do some rebalancing to stay on track with your investment strategy.

Your financial advisor can help. Regardless of how your circumstances change, he or she can provide up-to-date information on the bond market and various funds to help you decide how to maximize your returns consistent with your short- and long-term financial goals.

No investment is risk free and some investments carry more risk than others. It is important to know what the risks are, to evaluate them against any potential rewards, and to determine your tolerance for risk when selecting an investment.

#### MANY INVESTORS CONTINUE TO FIND SOLUTIONS WITH PROFESSIONAL ADVICE

For many investors, current financial markets are confusing and frustrating. According to research conducted for the Forum for Investor Advice\*, that's the number one reason many turn to a financial advisor. They want someone to suggest ideas and provide consultation, dialogue and professional advice.

Investors say their advisors are helpful in other key ways, including...

- o Saving time. After consultation, investors note that the second most important reason for using an advisor is to have someone else monitor their portfolio, reducing the amount of time they spend on investing.
- o Help in sorting through information. Investors in the 21st century have more products from which to choose than in the past. For example, there are approximately 8,000 mutual funds today, up from 3,000 in 1990.
- o Assistance in setting financial goals. According to investors who use a financial advisor, they are more likely to have a plan for a specific financial goal than do-it-yourself investors.
- o Staying focused. Advisor-assisted investors are more likely than do-it-yourself investors to have developed a comprehensive investment program.
- o Peace of mind. Investors say their comfort level in all types of markets is higher when using an advisor for a "second opinion" on an investment decision.

\*The survey of 324 investors was conducted in December of 2000 by Market Facts and analyzed by New York based Neuwirth Research. Of the 324, 166 said they had an ongoing relationship with a financial advisor, while 157 described themselves as do-it-yourselfers.

#### HOW ARE PROBLEM BONDS IDENTIFIED AND HANDLED?

We conduct surveillance on our bonds on a regular basis to ensure, among other things, that deteriorating bonds are identified early. We then discuss any emerging problems and potential courses of action with the portfolio manager.

#### HOW MANY ISSUES DOES THE RESEARCH DEPARTMENT FOLLOW?

## Edgar Filing: NUVEEN PREMIUM INCOME MUNICIPAL FUND 4 INC - Form N-30D

We follow 12 sectors and 1,500 uninsured bonds, worth about \$18 billion of Nuveen's \$45 billion in total municipal assets. The remaining \$27 billion in municipal assets are insured or escrowed (backed by Treasury bonds). For the insured bonds, we monitor closely on a regular basis the insurers guaranteeing the bonds.

WILL RESEARCH AND SURVEILLANCE CHANGE IN LIGHT OF PROBLEMS WITH ENRON SECURITIES?

Overall, our investment process and surveillance have worked well and been effective. However, we meet as a group on a regular basis and are constantly evaluating ways to improve the process to respond to issues and the market environment.

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The National Funds (the "Funds") covered in this report and their corresponding New York Stock Exchange symbols are Nuveen Premium Income Municipal Fund, Inc. (NPI), Nuveen Premium Income Municipal Fund 2, Inc. (NPM) and Nuveen Premium Income Municipal Fund 4, Inc. (NPT).

Each Fund seeks to provide current income exempt from regular federal income tax by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities. The Funds are registered under the Investment Company Act of 1940 as closed-end, diversified management investment companies.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with accounting principles generally accepted in the United States.

Securities Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair market value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers and general market conditions. If it is determined that market prices for a security are unavailable or inappropriate, the Board of Directors of the Funds may establish a fair value for the security. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may have extended settlement periods. The securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets in a separate account with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At April 30, 2002, the Funds had no such outstanding purchase commitments.

Investment Income

Interest income is determined on the basis of interest accrued, adjusted for amortization of premiums and accretion of discounts on long-term debt securities for financial reporting purposes.

Federal Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its net investment income to its shareholders. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal income tax, to retain such tax-exempt status when distributed to shareholders of the Funds.

Dividends and Distributions to Shareholders

Tax-exempt net investment income is declared monthly as a dividend. Generally, payment is made or reinvestment is credited to shareholder accounts on the first business day after month-end. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to shareholders of tax-exempt net investment income, net realized capital gains and/or market discount are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States. Accordingly, temporary over-distributions as a result of these differences may occur and will be classified as either distributions in excess of net investment income, distributions in excess of net realized gains and/or distributions in excess of net ordinary taxable income from investment transactions, where applicable.

Preferred Shares

The Funds have issued and outstanding \$25,000 stated value Preferred shares. Each Fund's Preferred shares are issued in more than one Series. The dividend rate on each Series may change every seven days, as set by the auction agent. The number of shares outstanding, by Series and in total, for each of the Funds is as follows:

	PREMIUM INCOME (NPI)	PREMIUM INCOME 2 (NPM)	PREMIUM INCOME 4 (NPT)
-----			
Number of shares:			
Series M	3,800	2,000	2,200
Series M2	2,000	--	--
Series T	3,800	3,000	2,000
Series T2	--	--	1,328
Series W	3,800	2,000	1,680
Series W2	--	--	520
Series Th	3,800	3,000	2,680
Series F	3,800	2,000	1,800
Series F2	--	1,880	1,328
-----			
Total	21,000	13,880	13,536
=====			

Derivative Financial Instruments

The Funds may invest in certain derivative financial instruments including futures, forward, swap and option contracts, and other financial instruments with similar characteristics. Although the Funds are authorized to invest in such financial instruments, and may do so in the future, they did not make any such investments during the six months ended April 30, 2002.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

## Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

## Change in Accounting Policy

As required, effective November 1, 2001, the Funds have adopted the provisions of the new AICPA Audit and Accounting Guide for Investment Companies and began accreting taxable market discounts on debt securities. Prior to November 1, 2001, the Funds did not accrete taxable market discounts on debt securities until they were sold. The cumulative effect of this accounting change had no impact on the total net assets applicable to Common shares or the Common share net asset values of the Funds, but resulted in an increase in the cost of securities and a corresponding decrease in net unrealized appreciation based on securities held by the Funds on April 30, 2002, as follows:

	PREMIUM INCOME (NPI)	PREMIUM INCOME 2 (NPM)	PREMIUM INCOME 4 (NPT)
-----	\$1,212,658	\$935,885	\$1,572,766
=====			

The effect of this change for the six months ended April 30, 2002, was to increase investment income with a corresponding decrease in net unrealized appreciation as follows:

	PREMIUM INCOME (NPI)	PREMIUM INCOME 2 (NPM)	PREMIUM INCOME 4 (NPT)
-----	\$87,751	\$80,059	\$122,632
=====			

The Statement of Changes in Net Assets and Financial Highlights for the prior periods have not been restated to reflect this change in presentation.

## Classification and Measurement of Redeemable Securities

Effective November 1, 2001, the Funds have adopted the classification requirement of EITF D-98, Classification and Measurement of Redeemable Securities. EITF D-98 requires that Preferred shares, at liquidation value, be presented separately in the Statement of Assets and Liabilities. Accordingly, certain reclassifications have been made to the financial statements and financial highlights for all prior periods presented. The adoption of EITF D-98 had no impact on the Funds' Common share net asset values.

## 2. FUND SHARES

There were no share transactions during the six months ended April 30, 2002, nor during the fiscal year ended October 31, 2001, in any of the Funds.

## 3. DISTRIBUTIONS TO COMMON SHAREHOLDERS

The Funds declared Common share dividend distributions from their tax-exempt net investment income which were paid on June 3, 2002, to shareholders of record on May 15, 2002, as follows:

Short-term securities	17,175,000	33,750,000	29,200,000

At April 30, 2002, the cost of investments owned for federal income tax purposes were as follows:

	PREMIUM INCOME (NPI)	PREMIUM INCOME 2 (NPM)	PREMIUM INCOME 4 (NPT)
	\$1,396,633,978	\$888,476,838	\$897,478,871

At October 31, 2001, the Funds' last fiscal year end, the following Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as follows:

	PREMIUM INCOME (NPI)	PREMIUM INCOME 4 (NPT)

5. UNREALIZED APPRECIATION (DEPRECIATION)

Gross unrealized appreciation and gross unrealized depreciation of investments for federal income tax purposes at April 30, 2002, were as follows:

	PREMIUM INCOME (NPI)	PREMIUM INCOME 2 (NPM)	PREMIUM INCOME 4 (NPT)
Gross unrealized:			
appreciation	\$ 62,125,523	\$46,555,679	\$ 41,613,298
depreciation	(14,200,459)	(6,028,270)	(33,752,016)
Net unrealized appreciation	\$ 47,925,064	\$40,527,409	\$7,861,282

6. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Under the Funds' investment management agreements with Nuveen Advisory Corp. (the "Adviser"), a wholly owned subsidiary of The John Nuveen Company, each Fund pays an annual management fee, payable monthly, at the rates set forth below, which are based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

AVERAGE DAILY NET ASSETS (INCLUDING NET ASSETS ATTRIBUTABLE TO PREFERRED SHARES)	MANAGEMENT FEE
For the first \$125 million	.6500 of 1%
For the next \$125 million	.6375 of 1
For the next \$250 million	.6250 of 1
For the next \$500 million	.6125 of 1
For the next \$1 billion	.6000 of 1
For the next \$3 billion	.5875 of 1
For net assets over \$5 billion	.5750 of 1

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors who are affiliated with the Adviser or to their officers, all of whom receive remuneration for their services to the Funds from the Adviser.

7. INVESTMENT COMPOSITION

At April 30, 2002, the revenue sources by municipal purpose, expressed as a percent of total investments, were as follows:

Certain investments owned by the Funds are either covered by insurance issued by several private insurers or are backed by an escrow or trust containing U.S. Government or U.S. Government agency securities, both of which ensure the timely payment of principal and interest in the event of default (56% for Premium Income (NPI), 54% for Premium Income 2 (NPM) and 47% for Premium Income 4 (NPT)). Such insurance or escrow, however, does not guarantee the market value of the municipal securities or the value of any of the Funds' shares.

For additional information regarding each investment security, refer to the Portfolio of Investments of each Fund.

NUVEEN EXCHANGE-TRADED FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free

compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

### EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

### HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

### FLEXIBILITY

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.
