Sidebar text: We remain convinced that maintaining a well-balanced portfolio is an important way to help you reduce overall investment risk.

Dear SHAREHOLDER

I am pleased to report that over the period ended January 31, 2004, the three Nuveen Quality Preferred Income Funds continued to provide you with attractive monthly income, strong total return, and the opportunity for enhanced

Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSRS

diversification within your investment portfolio. For more specific information about the performance of the Funds, please see the Portfolio Managers' Perspective and Performance Overview sections of this report.

In the current environment, we remain convinced that a well-balanced portfolio, structured and monitored with the help of an investment professional, can be an important tool in helping to reduce overall investment risk and position yourself to achieve your long-term financial goals. In this context, the preferred securities in your Nuveen Fund can represent an important element of diversification within an overall portfolio crafted to perform well through a variety of market conditions.

As in past letters, I'd also like to direct your attention to the inside front cover of this report, which explains the quick and easy process to begin receiving Fund reports like this via e-mail and the internet. Thousands of Nuveen Fund shareholders already have signed-up, and they are getting their Fund information faster and more conveniently than ever. I urge you to consider joining them.

Since 1898, Nuveen Investments has offered financial products and solutions that incorporate careful research, diversification, and the application of conservative risk-management principles. We are grateful that you have chosen us as a partner as you pursue your financial goals. We look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

/s/ Timothy R. Schwertfeger

Managers' Perspective

The Funds are managed by a team of specialists at Spectrum Asset Management, Inc., an affiliate of Principal CapitalSM. Mark Lieb, Bernie Sussman and Phil Jacoby, who have more than 50 years of combined experience in the preferred securities markets, lead the team. Here Mark, Bernie and Phil talk about general economic conditions, their management strategy and the performance of the Funds for the period ended January 31, 2004.

WHAT WAS THE GENERAL MARKET ENVIRONMENT FOR PREFERRED SECURITIES FOR THE PERIOD ENDED JANUARY 31, 2004?

For most of this period, market conditions were favorable and, as a result, preferred securities were among the best performers within the fixed-income sector for the 12 months ended January 31, 2004. Both individual and institutional investors were aggressive buyers of preferred securities during this period because, in our opinion, of the attractive yields that preferred securities offered relative to alternative investments. The credit quality environment, especially among the financial industry-oriented issuers, was

Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSRS

positive, reflecting improvement in the general economy and in the equity markets. New issuance of preferred securities was robust over the period, with a total of \$42.1 billion coming to market during 2003. As of December 31, 2003, the size of the hybrid preferred securities market, in which the Funds primarily invest, was approximately \$219 billion.

IN THIS ENVIRONMENT, HOW DID THE FUNDS PERFORM?

Each of the Funds performed well during the 12 months ended January 31, 2004. Their performances, as well as the performance of several widely-followed market indexes, are shown in the nearby chart.

TOTAL RETURN ON NET ASSET VALUE 12 MONTHS ENDED JANUARY 31, 2004	

JTP	18.56%
JPS	19.77%
JHP	18.14%
Lehman Aggregate Bond Index ¹	4.85%
Merrill Lynch Preferred Stock Hybrid Securities Index ²	9.39%

For this performance period, each Fund provided a better total return than the unleveraged, unmanaged Lehman Aggregate Bond Index and the unleveraged, unmanaged Merrill Lynch Preferred Stock Hybrid Securities Index.

The Funds' strong performances were a function of several factors. First, as already noted, the hybrid preferred securities market - which represents the type of securities in which the Funds primarily invest - performed well over the period. Second, the Funds benefited from their use of leverage. Leveraging can add volatility to a Fund's net asset value and share price. However, this strategy also can provide opportunities for net asset value appreciation and enhanced income for common shareholders. Third, the Funds maintained a relatively heavy weighting in financial industry issues when compared with the indexes. Financial issues tended to outperform many other sectors

1 The Lehman Brothers Aggregate Bond Index is an unmanaged index that includes all investment-grade, publicly issued, fixed-rate, dollar-denominated, nonconvertible debt issues and commercial mortgage backed securities with maturities of at least one year and outstanding par values of \$150 million or more.

2 The Merrill Lynch Preferred Stock Hybrid Securities Index, an unmanaged index of investment-grade, exchange-traded preferred stocks with outstanding market values of at least \$30 million and at least one year to maturity.

2

over this measurement period. In addition, the Funds also benefited in varying degrees from their holdings of mandatory convertible securities and from several specific trades that took advantage of market inefficiencies.

All three Funds continued to provide attractive monthly income through the period. Each Fund seeks to pay dividends at a rate that reflects the past and

Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSRS

projected performance of the Fund. To permit a Fund to maintain a more stable monthly dividend, the Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If the Fund has cumulatively earned more than it has paid in dividends, it will hold the excess in reserve as undistributed net investment income (UNII) as part of the Fund's net asset value. Conversely, if the Fund has cumulatively paid in dividends more than it has earned, the excess will constitute negative UNII which will likewise be reflected in the Fund's net asset value. Each Fund will, over time, pay all its net investment income as dividends to shareholders. As of January 31, 2004, all three Funds had negative UNII.

As of January 31, 2004, JTP was trading at a premium to its net asset value, while JPS and JHP were trading at discounts. For additional performance information, please see the individual Performance Overview pages for your Fund in this report.

WHAT KEY STRATEGIES AND TACTICS WERE USED TO MANAGE THE FUNDS DURING THE PERIOD ENDED JANUARY 31, 2004?

For each of these Funds, our strategic goal was to maximize the income generated from a well-diversified, high quality portfolio of preferred securities. In addition, we tried to enhance the total return of each Fund by looking to exploit price inefficiencies between preferred securities valuations and more senior corporate debt, as well as between \$25 par, listed preferred securities and \$1,000 par, unlisted preferred securities of the same issuer.

We also sought to lessen the potential effects of higher future interest rates on the values of the Funds' holdings by focusing on higher coupon, "cushioned" issues that trade at a premium to par and are priced on a yield-to-call basis. We believed that these securities, generally available in the secondary market, represented better value in many cases than some of the current coupon, new issues that came to market during the period.

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The Funds covered in this report and their corresponding Common share New York

Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSRS

Stock Exchange symbols are Nuveen Quality Preferred Income Fund (JTP), Nuveen Quality Preferred Income Fund 2 (JPS) and Nuveen Quality Preferred Income Fund 3 (JHP). The Funds are registered under the Investment Company Act of 1940, as amended, as non-diversified, closed-end management investment companies.

Prior to the commencement of operations of Quality Preferred Income 2 (JPS) and Quality Preferred Income 3 (JHP), each Fund had no operations other than those related to organizational matters, the initial capital contribution of \$100,275 per Fund by Nuveen Institutional Advisory Corp. (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc., and the recording of the organization expenses (\$15,000 and \$11,500, respectively) and their reimbursement by Nuveen Investments, LLC, also a wholly owned subsidiary of Nuveen Investments, Inc.

Each Fund seeks to provide high current income consistent with capital preservation by investing primarily in a portfolio of preferred securities, debt securities including convertible debt securities and convertible preferred securities.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with accounting principles generally accepted in the United States.

Securities Valuation

Exchange-listed securities are generally valued at the last sales price on the securities exchange on which such securities are primarily traded. Securities traded on a securities exchange for which there are no transactions on a given day or securities not listed on a securities exchange are valued at the mean of the closing bid and asked prices. Securities traded on Nasdaq are valued at the Nasdaq Official Closing Price. The prices of fixed-income securities are generally provided by an independent pricing service approved by the Funds' Board of Trustees and based on the mean between the bid and asked prices. When price quotes are not readily available for fixed income securities, the pricing service establishes fair market value using a wide range of market data including yields or prices of securities of comparable quality, type of issue, coupon, maturity and rating, indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant by the pricing service. If it is determined that market prices for a security are unavailable or inappropriate, the Board of Trustees of the Funds, or its designee, may establish a fair value for the security. Short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method. Securities purchased on a when-issued or delayed delivery basis may have extended settlement periods. Any securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At January 31, 2004, there were no such outstanding purchase commitments in any of the Funds.

Investment Income

Dividend income is recorded on the ex-dividend date. Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis (see Dividends and Distributions to Common Shareholders for REIT income recognition policy).

Income Taxes

Each Fund intends to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its net investment income to its shareholders. Therefore, no federal income tax provision is required.

Dividends and Distributions to Common Shareholders

Dividends from net investment income are declared monthly. Net realized capital gains from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

The Funds make certain adjustments, at different points in time, to the character of both (a) the distributions received by the Funds from REITs, and (b) dividends to Fund shareholders to the extent that such dividends are attributable to REIT distributions received by the Funds.

Characterization of Receipts from REITs - Distributions from REITs are generally comprised of investment income, long-term and short-term capital gains, and/or a return of REIT capital. The actual character of the amounts received by a Fund from REITs during the period is not known until after the fiscal year-end of the Funds. For the six months ended January 31, 2004, each Fund applied percentage estimates (of whether the receipts represented investment income, long-term and short-term capital gains, or return of capital), based on historical experience, to its receipts from the REITs and treated as income in the Statement of Operations only the amount of investment income so calculated. Each Fund will adjust that estimated breakdown of income type (and consequently its net investment income) as necessary in the subsequent calendar year when the REITs inform their shareholders of the actual breakdown of income type.

Characterization of Fund Distributions to Shareholders Derived from Distributions from REITs - During the six months ended January 31, 2004, each Fund treated each distribution to its shareholders, to the extent that such distribution was attributable to receipts from portfolio REITs, as being entirely from net investment income, because the character of such distributions made during the period is not known until after the fiscal year-end of the Funds. Each Fund recharacterizes those distributions as being from ordinary income, long-term and short-term capital gains, and return of capital, if necessary, in the subsequent calendar year, based upon the income type breakdown information conveyed at that time by the REITs whose securities are held in the Fund's portfolio. Consequently, the financial statements may reflect an over-distribution of net investment income that is at least partly attributable to the fact that, as of the date of the financial statements, some of the amounts received by the Funds from the portfolio REITs, but none of the dividends paid by the Funds to shareholders from the portfolio REITs during the period, were treated as something other than ordinary income.

Distributions to Common shareholders of net investment income and net realized capital gains, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States.

Fund Preferred Shares

Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSRS

The Funds have issued and outstanding \$25,000 stated value FundPreferred shares. Each Fund's FundPreferred shares are issued in more than one Series. The dividend rate on each Series may change every seven days, as set pursuant to a dutch auction process by the auction agent, and is payable at or near the end of each rate period. The number of shares outstanding, by Series and in total, for each Fund is as follows:

	QUALITY PREFERRED INCOME (JTP)	QUALITY PREFERRED INCOME 2 (JPS)	QUALITY PREFERRED INCOME 3 (JHP)

Interest Rate Swap Transactions

The Funds are authorized to enter into hedging transactions, including interest rate swap transactions. The Funds use interest rate swaps with the intent to reduce or eliminate the risk that an increase in short-term interest rates could have on Common share net earnings as a result of leverage. Interest rate swaps involve each Fund's agreement with the swap counterparty to pay a fixed rate payment in exchange for the counterparty paying the Fund a variable rate payment that is intended to approximate each Fund's variable rate payment obligation on FundPreferred shares or any variable rate borrowing. The payment obligation is based on the notional amount of the swap. Interest rate swaps do not involve the delivery of securities or other underlying assets or principal. Accordingly, the risk of credit loss with respect to the swap counterparty on interest rate swaps

Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSRS

is limited to the net amount of interest payments that each Fund is to receive. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the net payment obligations under any interest rate swap transactions. Interest rate swap positions are marked to market daily. Although there are economic advantages of entering into interest rate swap transactions, there are also additional risks. The Funds help manage the credit risks associated with interest rate swap transactions by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser continually monitor the financial stability of the swap counterparties.

At January 31, 2004, Quality Preferred Income (JTP) had open interest rate swap agreements with Citibank NA as follows:

Repurchase Agreements

In connection with transactions in repurchase agreements, it is each Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral may be delayed or limited.

Other Derivative Financial Instruments

The Funds may invest in certain derivative financial instruments for the purpose of hedging their portfolios. The specific derivative instruments will be limited to U.S. Treasury security or U.S. Government Agency security futures contracts and options on U.S. Treasury security or U.S. Government Agency security futures contracts. Although the Funds are authorized to invest in such financial instruments, and may do so in the future, they did not make any such investments during the six months ended January 31, 2004.

Offering Costs

Nuveen Investments, LLC has agreed to reimburse all organization expenses (approximately \$15,000, \$15,000 and \$11,500, respectively) and pay all Common shares offering costs (other than the sales load) that exceed \$.03 per Common share for Quality Preferred Income (JTP), Quality Preferred Income 2 (JPS) and Quality Preferred Income 3 (JHP). Quality Preferred Income's (JTP), Quality Preferred Income 2's (JPS) and Quality Preferred Income 3's (JHP) share of Common shares offering costs (\$1,389,616, \$1,479,001 and \$527,608, respectively) were recorded as a reduction of the proceeds from the sale of the Common shares.

Costs incurred by Quality Preferred Income (JTP), Quality Preferred Income 2 (JPS) and Quality Preferred Income 3 (JHP) in connection with their offering of FundPreferred shares (\$9,218,088, \$16,495,026, and \$3,589,491, respectively) were recorded as a reduction to paid-in surplus.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

4. INCOME TAX INFORMATION

Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSRS

The following information is presented on an income tax basis based on the information currently available to the Funds. Differences between amounts for financial statement and federal income tax purposes are primarily due to the recognition of income on certain securities, which are treated as debt securities for income tax purposes and equity securities for financial statement purposes, and timing differences in recognizing certain gains and losses on security transactions.

At January 31, 2004, the cost of investments were as follows:

	QUALITY PREFERRED INCOME (JTP)	QUALITY PREFERRED INCOME 2 (JPS)	QUALITY PREFERRED INCOME 3 (JHP)
Cost of investments	\$1,316,199,638	\$2,485,246,169	\$498,366,882

Gross unrealized appreciation and gross unrealized depreciation of investments at January 31, 2004, were as follows:

	QUALITY PREFERRED INCOME (JTP)	QUALITY PREFERRED INCOME 2 (JPS)	QUALITY PREFERRED INCOME 3 (JHP)
Gross unrealized:			
Appreciation	\$110,287,541	\$243,696,138	\$33,175,339
Depreciation	(4,490,370)	(4,950,928)	(955,202)
Net unrealized appreciation of investments	\$105,797,171	\$238,745,210	\$32,220,137

42

The tax components of undistributed net ordinary income and net realized gains at July 31, 2003, the Funds' last fiscal year end, were as follows:

	QUALITY PREFERRED INCOME (JTP)	QUALITY PREFERRED INCOME 2 (JPS)	QUALITY PREFERRED INCOME 3 (JHP)
Undistributed net ordinary income *	\$17,864,493	\$25,684,356	\$6,530,948
Undistributed net long-term capital gains	--	--	--

*Net ordinary income consists of net taxable income derived from dividends, interest and net short-term capital gains, if any.

The tax character of distributions paid during the fiscal year ended July 31, 2003, the Funds' last fiscal year end, was designated for purposes of the dividends paid deduction as follows:

Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSRS

	QUALITY PREFERRED INCOME (JTP)	QUALITY PREFERRED INCOME 2 (JPS)	QUALITY PREFERRED INCOME 3 (JHP)
Distributions from net ordinary income *	\$79,694,828	\$108,646,966	\$13,076,411
Distributions from net long-term capital gains	--	--	--

*Net ordinary income consists of net taxable income derived from dividends, interest and net short-term capital gains, if any.

At July 31, 2003, the Funds' last fiscal year end, Quality Preferred Income (JTP) had an unused capital loss carryforward of \$1,653,878 available to be applied against future capital gains, if any. If not applied, the carryforward will expire in the year 2011.

Quality Preferred Income (JTP) elected to defer net realized losses from investments incurred from November 1, 2002 through July 31, 2003 ("post-October losses") in accordance with Federal income tax regulations. Quality Preferred Income (JTP) had \$28,137,157 of post-October losses that were treated as having arisen on the first day of the current fiscal year.

Calculation of certain of the amounts presented above (namely, undistributed net ordinary income for tax purposes) involves the application of complex aspects of the Internal Revenue Code to certain securities held by the Funds. In calculating the amount of taxable income derived from these securities, management made assumptions as to the correct tax treatment of certain of those securities and made estimates about the tax characteristics of income received from those securities, based on information currently available to the Funds. The use of these assumptions and estimates will not affect the qualification of the Funds as regulated investment companies under Subchapter M of the Internal Revenue Code, nor is it expected that these assumptions and estimates will be used in computing taxable income for purposes of preparing the federal and state income and excise tax returns.

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Under each Fund's investment management agreement with the Adviser, each Fund pays an annual management fee, payable monthly, at the rates set forth below, which are based upon each Fund's average daily managed assets. "Managed Assets" means the average daily net assets of each Fund including assets attributable to FundPreferred shares and the principal amount of borrowings, if any.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser has entered into Sub-Advisory Agreements with Spectrum Asset Management, Inc. ("Spectrum"), under which Spectrum manages the investment portfolios of the Funds. Spectrum is compensated for its services to the Funds from the management fee paid to the Adviser. Spectrum also receives compensation on certain portfolio transactions for providing brokerage services to the Funds.

The Funds pay no compensation directly to those of its Trustees who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates.

For the first eight years of Quality Preferred Income's (JTP) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily Managed Assets, for fees and expenses in the amounts and for the time periods set forth below:

Sidebar text: Nuveen makes reinvesting easy. A phone call is all it takes to set up your reinvestment account.

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest

Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSRS

dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of compounding.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBILITY

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

PROXY VOTING POLICIES AND PROCEDURES

A description of the policies and procedures that the Funds use to determine how to vote proxies relating to portfolio securities is available (i) without charge, upon request, by calling Nuveen Investments at (800) 257-8787; and (ii) on the Commission's website at <http://www.sec.gov>.

GLOSSARY OF TERMS USED IN THIS REPORT

AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return (including change in NAV and reinvested dividends) that

Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSRS

would have been necessary on an annual basis to equal the investment's actual performance over the time period being considered.

NET ASSET VALUE (NAV): A fund's NAV is calculated by subtracting the liabilities of the fund from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

Each Fund intends to repurchase shares of its own common or preferred stock in the future at such times and in such amounts as is deemed advisable. No shares were repurchased during the period ended January 31, 2004. Any future repurchases will be reported to shareholders in the next annual or semiannual report.
