Chairman's Letter to Shareholders

Dear Shareholders,

After a sluggish first half of 2016, the U.S. economy gained some momentum in the third quarter. In fact, it was the economy's strongest quarterly acceleration in two years, propelled by healthy consumer spending, a temporary surge in exports and a turnaround in inventories. As the year wound down, 2016 looked on track to deliver the same steady-but-slow growth that has characterized the seven-year recovery.

A year ago, the U.S. Federal Reserve (Fed) took the first step toward policy "normalization" by raising its benchmark interest rate at its December 2015 meeting. Speculation about the Fed's intentions since then has been a strong influence on the markets throughout 2016. After remaining on hold for a year, the Fed judged that the economy's modest growth, the return to "full" employment and an uptick in inflation were sufficient to raise the target rate at the December 2016 meeting.

The global economy stayed on a path of low growth overall. Some concerns eased in 2016: China managed a gradual slowdown, stabilizing commodity prices provided some relief to emerging markets and the U.K. and eurozone economies held steady despite the U.K.'s surprise vote to leave the European Union. However, other uncertainties have surfaced. The threat of protectionism and potential trade wars has risen amid the populist sentiment underscoring the Brexit majority and the election of Donald Trump, as well as appearing in campaign rhetoric across Europe as elections loom in 2017. Moreover, there are growing concerns that global central banks' unprecedented efforts to revive growth may be showing signs of fatigue. Interest rates are currently at or near zero across the developed world and only slightly higher than that in the U.S.; nonetheless, growth has remained subdued.

Since the election, U.S. stocks have rallied strongly on expectations that the Republican controlled Congress and Trump administration will pursue more business friendly policies. But the details have yet to be seen. Given muted global growth, the risk of policy errors by central banks around the world, the unfolding Brexit process and an uncertain political outlook (not just in the U.S. but also in Europe), we anticipate that turbulence remains on the horizon for the time being. In this environment, Nuveen remains committed to both managing downside risks and seeking upside potential. If you're concerned about how resilient your investment portfolio might be, we encourage you to talk to your financial advisor. On behalf of the other members of the Nuveen Fund Board, we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

William J. Schneider

Chairman of the Board

These Funds feature portfolio management by Nuveen Asset Management, LLC (NAM), an affiliate of Nuveen Investments, Inc. Portfolio managers Daniel J. Close, CFA, Stephen J. Candido, CFA, and Christopher L. Drahn, CFA, key investment strategies and the six-month performance of these six Nuveen Funds. Dan has managed the Nuveen Georgia and North Carolina Funds since 2007.

Effective May 31, 2016, Stephen J. Candido replaced Thomas C. Spalding, CFA as portfolio manager of the Maryland and Virginia Funds.

Effective November 8, 2016, Christopher Drahn replaced Douglas J. White, CFA, as portfolio manager of the Minnesota Fund.

What key strategies were used to manage these Funds during the six-month reporting period ended November 30, 2016?

After declining in the first half of the reporting period, interest rates began to rise moderately at first then accelerated steeply in the aftermath of the November U.S. presidential election. Fixed income yields, including those of municipal bonds, ended the six-month period higher. Municipal bond credit spreads also widened in this reporting period, driven by a reversal of investor flows from high yield municipal bond mutual funds. This environment was negative for municipal bond performance, leading the broad market lower for the reporting period as whole.

The forward-looking statements and other views expressed herein are those of the portfolio managers as of the date of this report. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements, and the views expressed herein are subject to change at any time, due to numerous market and other factors. The Funds disclaim any obligation to update publicly or revise any forward-looking statements or views expressed herein.

For financial reporting purposes, the ratings disclosed are the highest rating given by one of the following national rating agencies: Standard & Poor's (S&P), Moody's Investors Service, Inc. (Moody's) or Fitch, Inc. (Fitch). This treatment of split-rated securities may differ from that used for other purposes, such as for Fund investment policies. Credit ratings are subject to change. AAA, AA, A and BBB are investment grade ratings, while BB, B, CCC, CC, C and D are below investment grade ratings. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities. Holdings designated N/R are not rated by these national rating agencies.

Bond insurance guarantees only the payment of principal and interest on the bond when due, and not the value of the bonds themselves, which will fluctuate with the bond market and the financial success of the issuer and the insurer. Insurance relates specifically to the bonds in the portfolio and not to the share prices of a Fund. No representation is made as to the insurers' ability to meet their commitments.

Portfolio Managers' Comments (continued)

Despite the more challenging backdrop, our trading activity continued to focus on pursuing the Funds' investment objectives. We continued to seek bonds in areas of the market that we expected to perform well as the economy continued to improve. The Funds' positioning emphasized intermediate and longer maturities, lower-rated credits and sectors offering higher yields. To fund these purchases, we generally reinvested the proceeds from called and maturing bonds. In some cases, we sold bonds that we believed had deteriorating fundamentals or could be traded for a better relative value, as well as selling short-dated, higher quality issues that we tend to hold over short timeframes as a source of liquidity. For NKG, NMY, NMS and NNC, we also invested the proceeds from incremental preferred share offerings that were conducted as part of the overall management of the Funds' leverage.

NKG bought one state of Georgia general obligation (GO) bond, two AA rated local GOs, two higher quality water and sewer credits and one private higher education bond. Most of these purchases were in the intermediate duration range. We funded the buys from the proceeds of called bonds and also sold some shorter duration, higher quality bonds.

In NMY, we added several investment grade bonds from a range of sectors, including credits issued for Maryland Stadium Authority Baltimore City Public Schools, Oak Crest Village (a continuing care retirement center or CCRC) and the Purple Line (a rail system in Prince George County and Montgomery County). We also bought a lower investment grade rated Maryland Institute College of Art credit and secured First Energy Solutions bonds, an energy producer. First Energy announced financial difficulties and possible debt restructuring causing a drop in bond prices, but we believe the secured bonds are in a good position for a strong recovery. In addition to funding buys from call proceeds, NMY sold some Puerto Rico revenue bonds and some uninsured Virgin Islands territorial paper.

Buying activity in NMS and NOM was muted during this reporting period. The Minnesota Fund bought a number of school district GOs, charter school credits including Beacon Academy and Aspen Academy, and an electric revenue bond issued for the Minnesota Municipal Power Agency. The purchases were funded mainly from the proceeds from incremental preferred share offerings conducted during this reporting period and from called bonds. Given the minimal amount of call activity and maturities in NOM during this reporting period, as well as our belief that the Fund's positioning remained well-aligned with our investment objectives, the Fund's only notable addition was a St. Charles County Public Water District Number 2 credit.

NNC's purchases were focused on the intermediate segment of yield curve. We added three AAA rated local GOs, one higher education credit, two utilities issues, one hospital bond, and one CCRC bond. We mainly used the proceeds from called bonds to fund new purchases, as well as reinvested the cash from selling some pre-refunded bonds.

NPV invested in bonds issued by Metropolitan Washington D.C. Airport Authority (which is backed by revenues from Dulles International and Reagan National airports), Fairfax County Goodwin House (a CCRC), Richmond Public Utility and Chesapeake Bay Bridge and Tunnel (tollroad). NPV also purchased secured First Energy Solutions bonds, an energy producer. First Energy announced financial difficulties and possible debt restructuring causing a drop in bond prices, but we believe the secured bonds are in a good position for a strong recovery. Like NMY, NPV also sold both zero coupon Puerto Rico tobacco settlement bonds and uninsured Virgin Islands territorial paper and reinvested the proceeds into more attractive opportunities. Additionally, NPV sold a depreciated bond and simultaneously replaced it with a similarly structured bond to realize a capital loss and boost the Fund's income.

As of November 30, 2016, NKG, NMY, NOM and NPV continued to use inverse floating rate securities. We employ inverse floaters for a variety of reasons, including duration management, income enhancement and total return enhancement.

How did the Funds perform during the six-month reporting period ended November 30, 2016?

The tables in each Fund's Performance Overview and Holding Summaries section of this report provide the Funds' total returns for the six-month, one-year, five-year and ten-year periods ended November 30, 2016. Each Fund's total returns at common share net asset value (NAV) are compared with the performance of corresponding market indexes.

For the reporting period ended November 30, 2016, the total return at common share NAV for the six Funds trailed the return for their respective state's S&P Municipal Bond Index as well as the national S&P Municipal Bond Index. Positive contributors to the Funds' relative performance during this reporting period were ratings allocations, sector allocations and credit selection, while duration and yield curve positioning detracted. In addition, the use of regulatory leverage was an important factor negatively affecting performance of the Funds. Leverage is discussed in more detail later in the Fund Leverage section of this report.

Rising yields, with the longest end of the yield curve experiencing the largest increases, hampered the Funds' overweight positioning in longer duration bonds and their corresponding underweight allocations in shorter duration bonds. For all six Funds, this positioning was disadvantageous during the reporting period, as longer maturity bonds exhibited the strongest underperformance.

The Funds' credit quality allocations added value during the reporting period. The performance of lower-rated bonds generally held up better than that of higher grade bonds during this reporting period. The Funds' allocations were overweight to the medium and lower quality (A rated and below) segments and underweight to the higher quality (AAA and AA rated) segments, which was beneficial to relative returns for the six Funds. In particular, NKG was most helped by its underweight to AAA rated bonds. NMY's overweight to BB rated and non-rated credits contributed positively, helping to offset the negative impact of overweight allocations to the AA, B and BBB segments. Exposure to the lower investment grade and non-rated categories buoyed NMS and NOM. NNC's overweight to BBB rated bonds resulted in relative gains. In NPV, non-rated bonds added to performance, while the Fund's exposures to B and BBB rated credits underperformed.

On a sector basis, weaker performing areas of the municipal market included tobacco, zero coupon bonds, health care (especially hospitals) and higher education. The performance of NMY and NPV was hurt by the Funds' overweight allocations to tobacco securitization bonds, as these bonds were hurt by the outflows from high yield municipal bond funds. NKG, NMS, NOM and NNC had no exposure to the tobacco sector. Zero coupon bonds performed poorly during this reporting period due to their long maturities. NMS and NPV held the largest weightings in zero coupon bonds and NKG and NOM held the smallest amounts.

Other sector allocations fared better, contributing positive relative performance. NKG's underweight allocation to the "other utilities" sector, which consisted of prepaid gas bonds, was advantageous to relative performance.

Municipalities issue these debt securities to use the proceeds to buy in advance a long-term supply of natural gas. Positive sector performance in NMY and NPV was helped by their exposure to Puerto Rico credits, which performed well in this reporting period. Additionally, American Airlines stock held in NMY performed well during the reporting period. The Fund received American Airlines stock when the Fund's holding of bonds issued by Puerto Rico Ports Authority for American Airlines was converted into equity as part of the merger with US Airways, which was completed in December 2013. Over time, we expect to sell these shares and reinvest the proceeds into municipal bonds. NNC and NPV benefited from overweight allocations to pre-refunded bonds, one of the better performing sectors over the reporting period. For NMS and NOM, sector allocation had a neutral impact on relative performance for this reporting period.

An Update Involving Puerto Rico

As noted in the Funds' previous shareholder reports, we continue to monitor situations in the broader municipal market for any impact on the Funds' holdings and performance: the ongoing economic problems of Puerto Rico is one such case. Puerto Rico's continued economic weakening, escalating debt service obligations, and long-standing inability to deliver a balanced budget led to multiple downgrades on its debt over the past two years. Puerto Rico has warned investors since 2014 that the island's debt burden may be unsustainable and the Commonwealth has been exploring various strategies to deal with this burden, including Chapter 9 bankruptcy, which is currently not available by law. On June 30, 2016, President Obama signed the Puerto Rico Oversight, Management and Economic Stability Act (PROMESA) into law. The legislation creates a path for Puerto Rico to establish an independent oversight board responsible for managing the government's financial operations and restructure debt. Implementation is expected to take time, as the law focuses on developing a comprehensive five-year fiscal plan.

Portfolio Managers' Comments (continued)

In terms of Puerto Rico holdings, shareholders should note that NMY, NOM and NPV had exposure to Puerto Rico debt, 5.11%, 0.79% and 3.24%, respectively, at the end of the reporting period, consisting of mostly insured bonds. NKG, NMS, NNC did not hold any Puerto Rico bonds. The Puerto Rico credits offered higher yields, added diversification and triple exemption (i.e., exemption from most federal, state and local taxes). Puerto Rico general obligation debt is currently rated Caa2/CC/CC (below investment grade) by Moody's, S&P and Fitch, respectively, with negative outlooks.

A Note About Investment Valuations

The municipal securities held by the Funds are valued by the Funds' pricing service using a range of market-based inputs and assumptions. A different municipal pricing service might incorporate different assumptions and inputs into its valuation methodology, potentially resulting in different values for the same securities. These differences could be significant, both as to such individual securities, and as to the value of a given Fund's portfolio in its entirety. Thus, the current net asset value of a Fund's shares may be impacted, higher or lower, if the Fund were to change pricing service, or if its pricing service were to materially change its valuation methodology. On October 4, 2016, the Funds' current municipal bond pricing service was acquired by the parent company of another pricing service. The two services have not yet combined their valuation organizations and process, but may do so in the future. Thus there is an increased risk that the organization acting as each Fund's pricing service may change, or that the Funds' pricing service may change its valuation methodology, either of which could have an impact on the net asset value of each Fund's shares.

Fund Leverage

IMPACT OF THE FUNDS' LEVERAGE STRATEGIES ON PERFORMANCE

One important factor impacting the returns of the Funds relative to their comparative benchmarks was the Funds' use of leverage through their issuance of preferred shares and/or investments in inverse floating rate securities, which represent leveraged investments in underlying bonds. The Funds use leverage because our research has shown that, over time, leveraging provides opportunities for additional income, particularly in the recent market environment where short-term market rates are at or near historical lows, meaning that the short-term rates the Fund has been paying on its leveraging instruments have been much lower than the interest the Fund has been earning on its portfolio of long-term bonds that it has bought with the proceeds of that leverage. However, use of leverage can expose the Fund to additional price volatility. When a Fund uses leverage, the Fund will experience a greater increase in its net asset value if the municipal bonds acquired through the use of leverage increase in value, but it will also experience a correspondingly larger decline in its net asset value if the bonds acquired through leverage decline in value, which will make the Fund's net asset value more volatile, and its total return performance more variable over time. In addition, income in levered funds will typically decrease in comparison to unlevered funds when short-term interest rates increase and increase when short-term interest rates decrease. Leverage from borrowings had a negative impact on the performance of the Funds over the reporting period. Leverage from inverse floaters had a negative impact on the performance of NKG, NMY, and NPV and had a negligible impact on the performance of NMS, NOM, and NNC over the reporting period.

As of November 30, 2016, the Funds' percentages of leverage are as shown in the accompanying table.

	NKG	NMY	NMS	NOM	NNC	NPV
Effective Leverage*	39.26 %	39.13 %	39.59 %	36.29 %	39.46 %	38.88 %
Regulatory Leverage*	36.84 %	37.67 %	39.59 %	36.29 %	39.46 %	34.10 %

Effective Leverage is a Fund's effective economic leverage, and includes both regulatory leverage and the leverage effects of certain derivative and other investments in a Fund's portfolio that increase the Fund's investment exposure. Currently, the leverage effects of Tender Option Bond (TOB) inverse floater holdings are included in effective leverage values, in addition to any regulatory leverage. Regulatory leverage consists of preferred shares issued or *borrowings of a Fund. Both of these are part of a Fund's capital structure. A Fund, however, may from time to time borrow on a typically transient basis in connection with its day-to-day operations, primarily in connection with the need to settle portfolio trades. Such incidental borrowings are excluded from the calculation of a Fund's effective leverage ratio. Regulatory leverage is subject to asset coverage limits set forth in the Investment Company Act of 1940.

THE FUNDS' REGULATORY LEVERAGE

As of November 30, 2016, the Funds have issued and outstanding Variable Rate MuniFund Term Preferred (VMTP) Shares and Variable Rate Demand Preferred (VRDP) Shares as shown in the accompanying table.

	VMTP Shares		VRDP Shares		
	Shares Issued		Shares Issued		
	at		at		
Series	Liquidation	Series	Liquidation	Total	
	Preference		Preference		
NKG 2019	\$82,000,000	—	—	\$82,000,000	
NMY 2019	\$197,000,000	—	—	\$197,000,000

Fund Leverage (continued)

During the current reporting period, NMY refinanced all of its outstanding Series 2017 VMTP Shares with the issuance of new Series 2019 VMTP Shares. In conjunction with this refinancing NMY issued an additional \$30,000,000 Series 2019 VMTP Shares at liquidation preference, to be invested in accordance with the Fund's investment policies.

During the current reporting period, NMS refinanced all of its outstanding Series 2017 VMTP Shares with the issuance of new Series 2019 VMTP Shares. In conjunction with this refinancing NMS issued an additional \$8,700,000 Series 2019 VMTP Shares at liquidation preference, to be invested in accordance with the Fund's investment policies.

During the current reporting period, NNC refinanced all of its outstanding Series 2017 VMTP Shares with the issuance of new Series 2019 VMTP Shares. In conjunction with this refinancing NNC issued an additional \$29,000,000 Series 2019 VMTP Shares at liquidation preference, to be invested in accordance with the Fund's investment policies.

Refer to Notes to Financial Statements, Note 4 – Fund Shares, Preferred Shares for further details on VMTP and VRDP Shares and each Fund's respective transactions.

Subsequent to the end of the reporting period, Virginia Quality Income (NPV) designated a special rate period until January 24, 2018, for the Fund's Series 1 VRDP Shares. In connection with the transition to the special rate period, the VRDP Shares of each series have been remarketed and sold to an institutional investor. During the special rate period, the VRDP Shares will not be remarketed by a remarketing agent, be subject to optional or mandatory tender events, or supported by a liquidity provider. During the period, VRDP dividends will be set monthly as a floating rate based on the predetermined formula.

Common Share Information

COMMON SHARE DISTRIBUTION INFORMATION

The following information regarding the Funds' distributions is current as of November 30, 2016. Each Fund's distribution levels may vary over time based on each Fund's investment activity and portfolio investments value changes.

During the current reporting period, each Fund's distributions to common shareholders were as shown in the accompanying table.

Monthly Distribution (Ex-Dividend Date)	Per Common Share Amounts					
	NKG	NMY	NMS	NOM	NNC	NPV
June 2016	\$0.0535	\$0.0555	\$0.0665	\$0.0610	\$0.0490	\$0.0545
July	0.0535	0.0555	0.0665	0.0610	0.0490	0.0545

Yields

Market Yield*	4.72	%	5.41	%	4.91	%	4.22	%	4.29	%	4.64	%
Taxable-Equivalent Yield*	6.97	%	7.96	%	7.57	%	6.23	%	6.32	%	6.83	%

Market Yield is based on the Fund's current annualized monthly dividend divided by the Fund's current market price as of the end of the reporting period. Taxable-Equivalent Yield represents the yield that must be earned on a fully * taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a combined federal and state income tax rate of 32.3%, 32.0%, 35.1%, 32.3%, 32.1% and 32.1% for Georgia, Maryland, Minnesota, Missouri, North Carolina and Virginia, respectively. When comparing a Fund to investments that generate qualified dividend income, the Taxable-Equivalent Yield would be lower.

Each Fund in this report seeks to pay regular monthly dividends out of its net investment income at a rate that reflects its past and projected net income performance. To permit each Fund to maintain a more stable monthly dividend, the Fund may pay dividends at a rate that may be more or less than the amount of net income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it will hold the excess in reserve as undistributed net investment income (UNII) as part of the Fund's net asset value. Conversely, if a Fund has cumulatively paid in dividends more than it has earned, the excess will constitute a negative UNII that will likewise be reflected in the Fund's net asset value. Each Fund will, over time, pay all its net investment income as dividends to shareholders.

As of November 30, 2016, the Funds had positive UNII balances, based upon our best estimate, for tax purposes. NMY, NMS, NOM and NPV had positive UNII balances, while NKG and NNC had negative UNII balances for financial reporting purposes.

All monthly dividends paid by each Fund during the current reporting period were paid from net investment income. If a portion of the Fund's monthly distributions was sourced from or comprised of elements other than net investment income, including capital gains and/or a return of capital, shareholders would have received a notice to that effect. For financial reporting purposes, the composition and per share amounts of each Fund's dividends for the reporting period are presented in this report's Statement of Changes in Net Assets and Financial Highlights, respectively. For income tax purposes, distribution information for each Fund as of its most recent tax year end is presented in Note 6 — Income Tax Information within the Notes to Financial Statements of this report.

Common Share Information (continued)

COMMON SHARE EQUITY SHELF PROGRAM

During the current reporting period, NMS filed a registration statement with the Securities and Exchange Commission to issue additional common shares through an equity shelf program, which is not yet effective. Under this program NMS, subject to market conditions, may raise additional capital from time to time in varying amounts and offering methods at a net price at or above the Fund's NAV per common share.

COMMON SHARE REPURCHASES

During August 2016, the Funds' Board of Trustees reauthorized an open-market share repurchase program, allowing each Fund to repurchase an aggregate of up to approximately 10% of its outstanding shares.

As of November 30, 2016, and since the inception of the Funds' repurchase programs, the Funds have cumulatively repurchased and retired their outstanding common shares as shown in the accompanying table.

	NKG	NMY	NMS	NOM	NNC	NPV
Common shares cumulatively repurchased and retired	—	730,000	—	—	130,000	—
Common shares authorized for repurchase	1,055,000	2,335,000	555,000	235,000	1,640,000	1,795,000

During the current reporting period, the Funds did not repurchase any of their outstanding common shares.

OTHER COMMON SHARE INFORMATION

As of November 30, 2016, and during the current reporting period, the Funds' common share prices were trading at a premium/(discount) to their common share NAVs as shown in the accompanying table.

	NKG	NMY	NMS	NOM	NNC	NPV
Common share NAV	\$13.33	\$13.95	\$14.45	\$13.51	\$14.39	\$13.79

Risk Considerations

Fund shares are not guaranteed or endorsed by any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation.

Nuveen Georgia Quality Municipal Income Fund (NKG)

(formerly known as Nuveen Georgia Dividend Advantage Municipal Fund 2)

Investing in closed-end funds involves risk; principal loss is possible. There is no guarantee the Fund's investment objectives will be achieved. Closed-end fund shares may frequently trade at a discount or premium to their net asset value. Debt or fixed income securities such as those held by the Fund, are subject to market risk, credit risk, interest rate risk, derivatives risk, liquidity risk, and income risk. As interest rates rise, bond prices fall. Leverage increases return volatility and magnifies the Fund's potential return and its risks; there is no guarantee a fund's leverage strategy will be successful. State concentration makes the Fund more susceptible to local adverse economic, political, or regulatory changes affecting municipal bond issuers. These and other risk considerations such as inverse floater risk and tax risk are described in more detail on the Fund's web page at www.nuveen.com/NKG.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to common shares unless otherwise noted.
- (2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) For financial reporting purposes, the ratings disclosed are the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. This treatment of split-rated securities may differ from that used for other purposes, such as for Fund investment policies. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) As of, or subsequent to, the end of the reporting period, this security is non-income producing. Non-income producing, in the case of a fixed-income security, generally denotes that the issuer has (1) defaulted on the payment of principal or interest, (2) is under the protection of the Federal Bankruptcy Court or (3) the Fund's Adviser has concluded that the issue is not likely to meet its future interest payment obligations and has ceased accruing additional income on the Fund's records.
- (5) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (6) Variable Rate MuniFund Term Preferred Shares, at Liquidation Preference as a percentage of Total Investments is 37.1%.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Note 3 – Portfolio Securities and Investments in Derivatives, Inverse Floating Rate Securities for more information.
- See accompanying notes to financial statements.
