=====

Item 9. Regulation FD Disclosure.

On November 4, 2002, the registrant issued a press release relating to its financial results for the third quarter of 2002, the termination of its existing revolving loan credit facility (which has no outstanding indebtedness and was scheduled to terminate on December 31, 2002) and the obtaining of temporary financial covenant waivers for the period commencing on September 30, 2002 and through and including December 31, 2002 under its \$11 million eurodollar credit agreement and its \$13 million operating lease. The full text of the press release is set forth below:

Edgar Filing: COMMSCOPE INC - Form 8-K

"COMMSCOPE REPORTS THIRD QUARTER 2002 RESULTS

HICKORY, NC -- (NOVEMBER 4, 2002) CommScope, Inc. (NYSE: CTV) today reported third quarter results for the period ended September 30, 2002. CommScope reported sales of \$147.8 million and a net loss of \$19.6 million or \$0.32 per share for the third quarter. The loss included noncash impairment charges of \$0.26 per share and after-tax equity in losses of OFS BrightWave, LLC of \$0.10 per share, which are discussed below.

For the same period last year, net income was \$6.3 million and earnings were \$0.12 per diluted share. Third quarter 2001 results included pretax charges of \$9.3 million or \$0.11 per diluted share, net of tax, related to the financing and formation of the original joint venture arrangements with The Furukawa Electric Co., Ltd. of Japan (Tokyo: 5801), which were subsequently restructured.

CommScope's sales for the third quarter were \$147.8 million compared to \$177.7 million in the year-ago quarter and \$155.0 million in the second quarter of 2002. Third quarter 2002 domestic sales were stable sequentially at \$120.8 million largely due to strong sales to AT&T Broadband, but declined from \$143.4 million in the prior year primarily due to lower sales to Adelphia as well as lower sales of fiber optic cable and wireless products. International sales for the third quarter were \$27.0 million, compared to \$33.9 million in the second quarter and \$34.3 million in the third quarter of 2001.

Orders booked in the third quarter of 2002 were \$145.5 million, compared to \$141.6 million in the same quarter last year and \$157.2 million in the second quarter of 2002.

"While business conditions remain challenging as reflected in our reported results, we believe we continue to position the company to take advantage of an eventual market recovery," said Frank M. Drendel, CommScope Chairman and Chief Executive Officer. "For example, we recently enhanced our strategic relationship with Furukawa while reducing our outstanding shares. During the third quarter, we built upon our strong market position, generated solid free cash flow and lowered our cost structure."

On a pro forma basis, excluding only impairment charges and the Company's after-tax share of net losses in OFS BrightWave, CommScope earned \$2.7 million or \$0.04 per share for the third quarter of 2002.

IMPAIRMENT CHARGES

The noncash impairment charges of \$25.1 million (\$15.8 million, net of tax, or \$0.26 per share) recorded during the third quarter primarily relate to underutilized and idle production equipment due to the ongoing severe downturn in telecommunications. The charges were:

- o \$15.1 million (\$0.15 per share) related to wireless cable production assets.
- o \$5.3 million (\$0.06 per share) related to fiber cable production assets.
- o \$3.0 million (\$0.03 per share) related to other telecom cable production assets.

Edgar Filing: COMMScope INC - Form 8-K

- o \$1.7 million (\$0.02 per share) related to other production assets.

OFS BRIGHTWAVE

OFS BrightWave's performance continues to reflect the extremely difficult global business conditions for optical fiber and fiber cable. During the third quarter of 2002, OFS BrightWave had revenues of \$21.0 million, a negative gross profit of \$35.7 million and a net loss of \$54.0 million, which included net special charges of \$4.8 million, primarily related to employee separation costs.

CommScope recorded a charge of \$6.4 million or \$0.10 per share of after-tax equity in losses of OFS BrightWave related to its minority ownership in this venture during the third quarter. The Company acquired an 18.4% ownership interest in OFS BrightWave, an optical fiber and fiber cable venture between CommScope and Furukawa, during the fourth quarter of 2001 and CommScope is reporting results using the equity method of accounting for this investment.

CASH FLOW AND LIQUIDITY

Net cash provided by operating activities for the third quarter was \$26.8 million and capital expenditures for the quarter were \$2.9 million, resulting in \$23.9 million of free cash flow (total cash from operations less capital expenditures).

During the third quarter, CommScope also advanced \$6.5 million to OFS BrightWave under an existing \$30 million revolving credit facility. As of September 30, 2002, OFS owed CommScope \$23.9 million under this facility. The Company expects OFS to borrow the remaining \$6.1 million available under this facility during the fourth quarter.

The Company recently terminated its existing revolving credit facility, which was scheduled to expire in December 2002. CommScope had no outstanding indebtedness under this terminated facility and ended the third

quarter with \$131.6 million of cash and cash equivalents on the balance sheet.

The Company expects to enter into a new secured credit facility of up to \$125 million during the fourth quarter. In anticipation of this new primary facility, the Company obtained temporary covenant waivers under its \$11 million eurodollar credit agreement and a \$13 million operating lease. If the Company is unable to establish its new primary facility by year end, it intends to further amend the eurodollar and operating lease agreements or repay the obligations using existing cash balances.

COMMON STOCK PURCHASE

CommScope and Furukawa announced in October that they had privately purchased 10.2 million shares of CommScope common stock held by Lucent Technologies Inc. (NYSE: LU). Lucent had acquired the CommScope common stock in connection with CommScope's investment in OFS BrightWave in November 2001.

Edgar Filing: COMMScope INC - Form 8-K

The total purchase price for the 10.2 million-share block was approximately \$53.0 million or \$5.20 per share. Furukawa purchased 7,656,900 shares, which it plans to hold for investment purposes. CommScope repurchased 2,543,100 shares, which it will hold as treasury stock. CommScope funded its \$13.2 million repurchase using existing cash balances.

OTHER THIRD QUARTER 2002 HIGHLIGHTS

- o Broadband/Video sales worldwide decreased 4% sequentially and 14% year over year to \$120.3 million for the third quarter. A significant year-over-year increase in sales to AT&T Broadband was more than offset by lower sales to Adelphia and reduced sales of fiber optic cable products. International sales continue to reflect the difficult global business environment.
- o Local Area Network (LAN) sales increased 4% year over year and 6% sequentially to \$24.2 million for the third quarter. The Company redirected project business and utilized its strong brand recognition to offset the previously announced loss of a leading distribution channel. During the quarter, CommScope also announced the addition of fiber optic connectivity components to its LAN product line through a new marketing alliance with OFS.
- o Wireless and Other Telecom sales were \$3.3 million, down 52% sequentially and down 78% year over year. Wireless and Other Telecom sales continue to be affected by reduced infrastructure spending, capital constraints and the uncertain global business environment. CommScope recently named Ted Hally as Executive Vice President and General Manager of its Wireless products group. The Company believes that Hally's strong leadership capabilities and diverse international experience will be tremendous assets to CommScope as it continues to expand its wireless business globally. The Company expects to conduct trials of its new flexible cable with several major European wireless operators during the fourth quarter.
- o Total Company gross margin for the third quarter was 18.3% compared to 24.7% in the year-ago period and 20.5% in the second quarter of 2002. Gross margin for the quarter was affected by lower sales volumes, product mix, ongoing pricing pressure for certain products and included approximately \$1 million in costs related to the previously announced workforce reduction.

FOURTH QUARTER OUTLOOK

Looking ahead to the fourth quarter, the Company expects sales in the \$125-\$135 million range and gross margin in the 18-19% range. "Forecasting remains difficult due to business conditions and cautious customer spending," said Jearld L. Leonhardt, Executive Vice President and Chief Financial Officer. "While we expect lower sales as we move into the traditionally weaker part of the year, we believe that our gross margin will be comparable sequentially primarily due to the positive impact of our cost reduction actions."

CONFERENCE CALL INFORMATION

CommScope will host a conference call to review third quarter 2002 results at 4:30 p.m. Eastern Time today. You are invited to listen to the conference call or live webcast with Frank Drendel, Chairman and CEO, Brian Garrett, President and COO, and Jearld Leonhardt, Executive Vice President

Edgar Filing: COMMSCOPE INC - Form 8-K

and CFO.

To participate in the conference call, domestic and international callers should dial 212-896-6107. Please plan to dial in 10-15 minutes before the start of the call to facilitate a timely connection. The live, listen-only audio of the conference call will also be available via the Internet at:

<http://www.firstcallevents.com/service/ajwz367543123gf12.html>

If you are unable to participate on the call and would like to hear a replay, you may dial 800-633-8284. International callers should dial 402-977-9140 for the replay. The replay ID is 20968729. The replay will be available through Wednesday, November 6. A webcast replay will also be archived for a limited period of time following the conference call via the Internet on CommScope's web site (<http://www.commscope.com>).

CommScope is the world's largest manufacturer of broadband coaxial cable for Hybrid Fiber Coaxial (HFC) applications and a leading supplier of high-performance fiber optic and twisted pair cables for LAN, wireless and other communications applications. Through its relationship with OFS, CommScope has an ownership interest in one of the world's largest producers of optical fiber and cable and has access to a broad array of connectivity components as well as technology advanced optical fibers, including the zero water peak optical fibers used in the production of the LightScope ZWP(R) family of products.

(Minimum requirements to listen to the broadcast and replay on the Internet: The Windows Media Player software, downloadable free from <http://www.microsoft.com/windows/windowsmedia/EN/default.asp>, and at least a 28.8Kbps connection to the Internet. If you experience problems listening to the broadcast, send an email to webcastsupport@tfprn.com.)

This press release contains forward-looking statements regarding sales, outlook and expectations for CommScope and OFS BrightWave that are based on information currently available to management, management's beliefs and a number of assumptions concerning future events. Forward-looking statements are not a guarantee of performance and are subject to a number of uncertainties and other factors, which could cause the actual results to differ materially from those currently expected. The potential risks and uncertainties that could cause actual results to differ materially include, but are not limited to, expected demand from AT&T BroadBand and major domestic MSOs, telecommunications industry capital spending; industry consolidation; ability of our customers to secure adequate financing to fund their infrastructure projects or to pay us; industry excess capacity; changes or fluctuations in global economic conditions; financial performance of OFS BrightWave; competitive pricing and acceptance of our products; our ability to obtain financing and capital on commercially reasonable terms; possible restrictions imposed on us by a new revolving credit arrangement; possible future impairment charges; changes in cost and availability of key raw materials; successful operation of bimetal manufacturing and other vertical integration activities; successful expansion and related operation of our facilities; developments in technology; industry competition and the ability to retain customers; regulatory changes affecting our industries; acquisition activities; possible disruption due to customer or supplier bankruptcy reorganization or restructuring; terrorist activity or armed conflict and other factors. For a more detailed description of factors that could cause such a difference please see CommScope's filings with the Securities and Exchange Commission. In providing forward-looking statements, the Company does not

Edgar Filing: COMMSCOPE INC - Form 8-K

intend, and is not undertaking any duty or obligation to update these statements as a result of new information, future events or otherwise.
