Equity LifeStyle Properties, Inc.
Notes to Consolidated Financial Statements

Note 1 – Basis of Presentation

Equity LifeStyle Properties, Inc., a Maryland corporation, together with MHC Operating Limited Partnership (the “Operating Partnership”) and other consolidated subsidiaries (“Subsidiaries”) are referred to herein as “we,” “us,” and “our.” Capitalized terms used but not defined herein are as defined in our Annual Report on Form 10-K (“2016 Form 10-K”) for the year ended December 31, 2016. These unaudited Consolidated Financial Statements have been prepared pursuant to Securities and Exchange Commission (“SEC”) rules and regulations. Accordingly, they do not include all of the information and note disclosures required by U.S. Generally Accepted Accounting Principles (“GAAP”) for complete financial statements and should be read in conjunction with the financial statements and notes thereto included in the 2016 Form 10-K.

The following notes to the Consolidated Financial Statements highlight significant changes to the notes included in the 2016 Form 10-K and present interim disclosures as required by the SEC. The accompanying Consolidated Financial Statements reflect, in the opinion of management, all adjustments and estimates necessary for a fair presentation of the interim financial statements, which are of a normal, recurring nature. Revenues and expenses are subject to seasonal fluctuations and accordingly, quarterly interim results may not be indicative of full year results.

Note 2 – Summary of Significant Accounting Policies

(a) Consolidation

We consolidate our majority-owned Subsidiaries in which we have the ability to control the operations and all variable interest entities with respect to which we are the primary beneficiary. We also consolidate entities in which we have a direct or indirect controlling or voting interest. All significant intercompany balances and transactions have been eliminated in consolidation.

Effective January 1, 2016, we adopted (“ASU 2015-02”) Consolidation (Topic 810): Amendments to the Consolidation Analysis. ASU 2015-02 required us to evaluate whether we should consolidate certain legal entities. The adoption of this standard did not result in any changes to our accounting of interests in less than wholly-owned joint ventures; however, the Operating Partnership now meets the criteria as a VIE. We concluded that the Operating Partnership is a VIE because we are the general partner and controlling owner of approximately 93.7% of the Operating Partnership and the limited partners do not have substantive kick-out or participating rights. Our sole significant asset is our investment in the Operating Partnership, and consequently, substantially all of our assets and liabilities represent those assets and liabilities of the Operating Partnership. The Company has the power to direct the VIE's activities and the obligation to absorb its losses or the right to receive its benefits, which are significant to the VIE. Accordingly, we are the primary beneficiary and we will continue to consolidate the Operating Partnership under this new guidance. We apply the equity method of accounting to entities in which we do not have a direct or indirect controlling interest or for variable interest entities where we are not considered the primary beneficiary, but can exercise influence over the entity with respect to its operations and major decisions.

(b) Identified Intangibles and Goodwill

As of both June 30, 2017 and December 31, 2016, the gross carrying amount of identified intangible assets and goodwill, a component of escrow deposits, goodwill and other assets, net on our consolidated balance sheets, was approximately \$12.1 million. As of both June 30, 2017 and December 31, 2016, this amount was comprised of approximately \$4.3 million of identified intangible assets and approximately \$7.8 million of goodwill. Accumulated amortization of identified intangible assets was approximately \$2.9 million and \$2.8 million as of June 30, 2017 and December 31, 2016, respectively.

As of both June 30, 2017 and December 31, 2016, the gross carrying amount of in-place lease intangible assets, a component of buildings and other depreciable property on our consolidated balance sheets, was approximately \$76.7 million. Accumulated amortization of in-place lease intangible assets was approximately \$75.9 million and \$74.0 million as of June 30, 2017 and December 31, 2016, respectively.

(c) Restricted Cash

Cash as of both June 30, 2017 and December 31, 2016 included approximately \$5.3 million of restricted cash for the payment of capital improvements, insurance or real estate taxes.

Equity LifeStyle Properties, Inc.

Notes to Consolidated Financial Statements

Note 2 – Summary of Significant Accounting Policies (continued)

(d) Fair Value of Financial Instruments

Our financial instruments include notes receivable, accounts receivable, accounts payable, other accrued expenses, interest rate swaps and mortgage notes payable. We disclose the estimated fair value of our financial instruments according to a fair value hierarchy (Level 1, 2 and 3).

Our mortgage notes payable and term loan, excluding deferred financing costs of approximately \$17.8 million and \$18.9 million, respectively, had an aggregate carrying value of approximately \$2,072.3 million and \$2,110.2 million as of June 30, 2017 and December 31, 2016, respectively, and a fair value of approximately \$2,106.4 million and \$2,081.2 million as of June 30, 2017 and December 31, 2016, respectively. The fair value was measured using quoted prices and observable inputs from similar liabilities (Level 2). At June 30, 2017 and December 31, 2016, our cash flow hedge of interest rate risk included in accrued expenses and accounts payable was measured using quoted prices and observable inputs from similar assets and liabilities (Level 2). We consider our own credit risk as well as the credit risk of our counterparties when evaluating the fair value of our derivative. The fair values of our notes receivable approximate their carrying or contract values. We also utilize Level 2 and Level 3 inputs as part of our determination of the purchase price allocation for our acquisitions.

(e) New Accounting Pronouncements

In January 2017, the FASB issued ("ASU 2017-01") Business Combinations (Topic 805): Clarifying the Definition of a Business. ASU 2017-01 clarifies the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. ASU 2017-01 will be effective for annual reporting beginning after December 15, 2017. We are currently in the process of evaluating the potential impact that the adoption of this standard may have on our consolidated financial statements and related disclosures.

In August 2016, the FASB issued ("ASU 2016-15") Statement of Cash Flows (Topic 230). ASU 2016-15 provides guidance on how certain cash receipts and cash payments are to be presented and classified in the statement of cash flows. ASU 2016-15 will be effective for annual reporting periods beginning after December 15, 2017. Early adoption is permitted. We are currently in the process of evaluating the potential impact, if any, that adoption of this standard may have on our consolidated financial statements and related disclosures.

In June 2016, the FASB issued ("ASU 2016-13") Financial Instruments - Credit Losses (Topic 326). ASU 2016-13 requires entities to measure all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. Entities will now use forward-looking information to better form their credit loss estimates. ASU 2016-13 also requires enhanced disclosures to help financial statement users better understand significant estimates and judgments used in estimating credit losses, as well as the credit quality and underwriting standards of an entity's portfolio. ASU 2016-13 will be effective for annual reporting periods beginning after December 15, 2019. Early adoption is permitted. We are currently in the process of evaluating the potential impact, if any, that adoption of this standard may have on our consolidated financial statements and related disclosures.

In February 2016, the FASB issued ("ASU 2016-02") Leases. ASU 2016-02 amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. ASU 2016-02 requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief. ASU 2016-02 will continue to classify leases as either finance or operating, with classification affecting the pattern of expense recognition in the statement of income. ASU 2016-02 will be effective for annual reporting periods beginning after December 15, 2018. Early adoption is permitted. We are currently in the process of evaluating the potential impact this standard may have on our consolidated financial statements and related disclosures.

In May 2014, the FASB issued ("ASU 2014-09") Revenue from Contracts with Customers which along with related subsequent amendments will replace most existing revenue recognition guidance in GAAP. The core principle of ASU 2014-09 is that an entity should recognize revenue for the transfer of goods or services equal to the amount that

it expects to be entitled to receive for those goods or services. ASU 2014-09 requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments. The new standard will be effective for the Company beginning on January 1, 2018. The standard permits the use of either the full retrospective or modified retrospective transition method.

Notes to Consolidated Financial Statements

Note 2 – Summary of Significant Accounting Policies (continued)

We expect to adopt ASU 2014-09 on January 1, 2018, using the modified retrospective transition method. We are evaluating the complete impact of the adoption to our consolidated financial results. Our primary source of revenue is generated through leasing arrangements, which are excluded from ASU 2014-09. We continue to evaluate and are in the process of quantifying the impact, if any, the adoption of ASU 2014-09 will have on our non-lease revenue streams, including right-to-use annual payments, right-to-use contracts, and utility and other income.

Note 5 – Real Estate Acquisitions

On May 10, 2017, we completed the acquisition of Paradise Park Largo, a 108-site manufactured home community located in Largo, Florida. The purchase price of approximately \$8.0 million was funded with available cash and an assumed loan. The \$5.9 million loan has an interest rate of 4.6% that matures in 2040.

Note 6 – Investment in Unconsolidated Joint Ventures

On June 15, 2017, we entered into a joint venture agreement to purchase Crosswinds Mobile Home Park, a 376-site manufactured home community located in St. Petersburg, Florida. The purchase price of the Property was \$18.4 million. We contributed \$2.2 million for a 49% equity interest in the joint venture. The joint venture is accounted for under the equity method of accounting. As part of the transaction, we issued a short term loan of \$13.8 million to the joint venture. The loan bears interest at 5% per annum, can be repaid with no penalty prior to maturity and matures on December 12, 2017.

The following table summarizes our investment in unconsolidated joint ventures (investment amounts in thousands with the number of Properties shown parenthetically as of June 30, 2017 and December 31, 2016):

Investment Location	Number of Sites	Economic Interest (a)	Investment as of		Joint Venture Income/(Loss) for the Six Months Ended	
			June 30, 2017	December 31, 2016	June 30, 2017	June 30, 2016
Meadows Various (2,2)	1,077	50 %	\$240	\$ 510	\$ 1,130	\$ 577
Lakeshore Florida (3,2)	720	(b)	2,321	56	147	160
Voyager Arizona (1,1)	1,801	50 % (c)	3,799	3,376	800	917
ECHO JV Various	—	50 %	15,406	15,427	113	(8)
	3,598		\$21,766	\$ 19,369	\$ 2,190	\$ 1,646

(a) The percentages shown approximate our economic interest as of June 30, 2017. Our legal ownership interest may differ.

(b) Includes two joint ventures in which we own a 65% interest and Crosswinds joint venture in which we own a 49% interest.

(c) Voyager joint venture primarily consists of a 50% interest in Voyager RV Resort and 33% interest in the utility plant servicing the Property.

We received approximately \$1.8 million and \$1.0 million in distributions from these joint ventures for the six months ended June 30, 2017 and 2016, respectively. Approximately \$0.3 million and \$0.5 million of the distributions made to us exceeded our basis in joint ventures for the quarter and six months ended June 30, 2017, and as such were recorded as income from unconsolidated joint ventures. None of the distributions made to us exceeded our basis in joint ventures for the quarter and six months ended June 30, 2016.

Note 7 – Borrowing Arrangements

Mortgage Notes Payable

As of June 30, 2017 and December 31, 2016, we had outstanding mortgage indebtedness of approximately \$1,855.0 million and \$1,891.9 million, respectively, net of deferred financing costs. In connection with the Paradise Park Largo acquisition during the quarter ended June 30, 2017, we assumed approximately \$5.9 million of mortgage debt secured by the manufactured home community with an interest rate of 4.6% that matures in 2040. During the quarter ended March 31, 2017, we paid off one maturing mortgage loan of approximately \$21.1 million, with a weighted average interest rate of 5.76% per annum, secured by one manufactured home Property.

The weighted average interest rate, including the impact of premium/discount amortization and loan cost amortization on mortgage indebtedness, for the six months ended June 30, 2017 was approximately 4.9% per annum. The debt bears interest at stated rates ranging from 3.5% to 8.9% per annum and matures on various dates ranging from 2017 to 2041. The debt encumbered a total of 126 of our Properties as of both June 30, 2017 and December 31, 2016, and the

carrying value of such Properties was approximately \$2,282.1 million and \$2,296.6 million, as of June 30, 2017 and December 31, 2016, respectively.

As of June 30, 2017, we are in compliance in all material respects with the covenants in our borrowing arrangements.

Note 8 – Equity Incentive Awards

Stock-based compensation expense, reported in general and administrative on the Consolidated Statements of Income and Comprehensive Income, for both of the quarters ended June 30, 2017 and 2016 was approximately \$2.5 million and for the six months ended June 30, 2017 and 2016 was approximately \$4.3 million and \$4.4 million respectively. Our 2014 Equity Incentive Plan (the “2014 Plan”) was adopted by our Board of Directors on March 11, 2014 and approved by our stockholders on May 13, 2014. Pursuant to the 2014 Plan, our officers, directors, employees and consultants may be awarded (i) shares of common stock (“Restricted Stock”), (ii) options to acquire shares of common stock (“Options”), including non-qualified stock options and incentive stock options within the meaning of Section 422 of the Internal Revenue Code, and (iii) other forms of equity awards, subject to conditions and restrictions determined by the Compensation, Nominating, and Corporate Governance Committee of our Board of Directors (the “Compensation Committee”). The Compensation Committee will determine the vesting schedule, if any, of each Restricted Stock Grant or Option and the term of each Option, which term shall not exceed ten years from the date of grant. Shares that do not vest are forfeited. Dividends paid on restricted stock are not returnable, even if the underlying stock does not entirely vest. A maximum of 3,750,000 shares of common stock were originally available for grant under the 2014 Plan. As of June 30, 2017, 3,126,885 shares remained available for grant. Grants under the 2014 Plan are approved by the Compensation Committee, which determines the individuals eligible to receive awards, the types of awards, and the terms, conditions and restrictions applicable to any award, except grants to directors which are approved by the Board of Directors.

On May 2, 2017, we awarded to certain members of our Board of Directors, 55,238 shares of Restricted Stock at a fair market value of approximately \$4.5 million and Options to purchase 6,930 shares of common stock with an exercise price of \$81.15 per share. The shares of common stock covered by these awards are subject to multiple tranches that vest between November 2, 2017 and May 2, 2020.

On February 1, 2017, we awarded 75,000 shares of Restricted Stock at a fair market value of approximately \$5.4 million to certain members of our senior management for their service in 2017. These restricted stock grants will vest on December 31, 2017.

The fair market value of our restricted stock grants was determined by using the closing share price of our common stock on the date the shares were issued and is recorded as compensation expense and paid in capital over the vesting period.

Note 9 – Commitments and Contingencies

California Rent Control Litigation

As part of our effort to realize the value of our Properties subject to rent control, we previously initiated lawsuits against certain localities in California with the goal of achieving a level of regulatory fairness in California's rent control jurisdictions, and in particular those jurisdictions that prohibit increasing rents to market upon turnover. Such regulations allow tenants to sell their homes for a price that includes a premium above the intrinsic value of the homes. The premium represents the value of the future discounted rent-controlled rents, which is fully capitalized into the prices of the homes sold. In our view, such regulations result in a transfer to the tenants of the value of our land, which would otherwise be reflected in market rents. We have discovered through the litigation process that certain municipalities considered condemning our Properties at values well below the value of the underlying land. In our view, a failure to articulate market rents for Sites governed by restrictive rent control would put us at risk for condemnation or eminent domain proceedings based on artificially reduced rents. Such a physical taking, should it occur, could represent substantial lost value to stockholders. We are cognizant of the need for affordable housing in the jurisdictions, but assert that restrictive rent regulation does not promote this purpose because tenants pay to their sellers as part of the purchase price of the home all the future rent savings that are expected to result from the rent control regulations, eliminating any supposed improvement in the affordability of housing. In a more well-balanced regulatory environment, we would receive market rents that would eliminate the price premium for homes, which would trade at or near their intrinsic value. Such efforts have included the following matters:

We sued the City of San Rafael on October 13, 2000 in the U.S. District Court for the Northern District of California, challenging its rent control ordinance on constitutional grounds. While the District Court found the rent control ordinance unconstitutional, the United States Court of Appeals for the Ninth Circuit reversed the District Court and ruled that the ordinance had not unconstitutionally taken our property. On September 3, 2013, we filed a petition for review by the U.S. Supreme Court, which was denied.

Equity LifeStyle Properties, Inc.
Notes to Consolidated Financial Statements
Note 9 – Commitments and Contingencies (continued)

On January 31, 2012, we sued the City of Santee in the United States District for the Southern District of California challenging its rent control ordinance on constitutional grounds. On September 26, 2013, we entered a settlement agreement with the City pursuant to which we are able to increase Site rents at the Meadowbrook community through January 1, 2034 as follows: (a) a one-time 2.5% rent increase on all Sites in January 2014; plus (b) annual rent increases of 100% of the consumer price index (CPI) beginning in 2014; and (c) a 10% increase in the rent on a site upon turnover of that site. Absent the settlement, the rent control ordinance limited us to annual rent increases of at most 70% of CPI with no increases on turnover of a site.

Settlement of California Lawsuits

On January 18, 2017, we entered into agreements pursuant to which we agreed to settle three California lawsuits related to our California Hawaiian property in San Jose, our Monte del Lago property in Castroville and our Santiago Estates property in Sylmar. Each of the three plaintiff groups was represented by the same law firm and alleged that the Company failed to properly maintain the respective properties. The settlement agreements provided for \$9.9 million to be paid to settle the California Hawaiian matter, \$1.5 million to be paid to settle the Monte del Lago matter and \$1.9 million to be paid to settle the Santiago Estates matter. As a result, a litigation settlement payable was recorded in Accrued expenses and accounts payable as of December 31, 2016. In addition, an insurance receivable was recorded in escrow deposits, goodwill and other assets, net as of December 31, 2016, resulting in a net settlement of approximately \$2.4 million reflected as a component of property rights initiatives and other, net on the consolidated statement of income for the year ended December 31, 2016. During the quarter ended March 31, 2017, the settlements were finalized, the settlement payments were made and the insurance payments were received. These settlements resolved all pending matters brought by plaintiffs' counsel against us or any of our affiliates. Pursuant to the settlement agreements, all plaintiffs provided full releases to each of the defendants and their affiliates including with respect to the claims alleged in the lawsuits, and each of the lawsuits and related appeals were dismissed with prejudice. The settlements do not constitute an admission of liability by us or any of our affiliates and were made to avoid the costs, risks and uncertainties inherent in litigation.

Civil Investigation by Certain California District Attorneys

In November 2014, we received a civil investigative subpoena from the office of the District Attorney for Monterey County, California ("MCDA"), seeking information relating to, among other items, statewide compliance with asbestos and hazardous waste regulations dating back to 2005 primarily in connection with demolition and renovation projects performed by third-party contractors at our California Properties. We responded by providing the information required by the subpoena.

On October 20, 2015, we attended a meeting with representatives of the MCDA and certain other District Attorneys' offices at which the MCDA reviewed the preliminary results of their investigation including, among other things, (i) alleged violations of asbestos and related regulations associated with approximately 200 historical demolition and renovation projects in California; (ii) potential exposure to civil penalties and unpaid fees; and (iii) next steps with respect to a negotiated resolution of the alleged violations. No legal proceedings have been instituted to date and we are involved in settlement discussions with the District Attorneys' offices. We continue to assess the allegations and the underlying facts, and at this time we are unable to predict the outcome of the investigation or reasonably estimate any possible loss.

Other

In addition to legal matters discussed above, we are involved in various other legal and regulatory proceedings ("Other Proceedings") arising in the ordinary course of business. The Other Proceedings include, but are not limited to, notices, consent decrees, information requests, and additional permit requirements and other similar enforcement actions by governmental agencies relating to our utility infrastructure, including water and wastewater treatment

plants and other waste treatment facilities and electrical systems. Additionally, in the ordinary course of business, our operations are subject to audit by various taxing authorities. Management believes these Other Proceedings taken together do not represent a material liability. In addition, to the extent any such proceedings or audits relate to newly acquired Properties, we consider any potential indemnification obligations of sellers in our favor.

Note 10 – Reportable Segments

We have identified two reportable segments which are: (i) Property Operations and (ii) Home Sales and Rentals Operations. The Property Operations segment owns and operates land lease Properties and the Home Sales and Rentals Operations segment purchases, sells and leases homes at the Properties. The distribution of the Properties throughout the United States reflects our belief that geographic diversification helps insulate the portfolio from regional economic influences.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the Consolidated Financial Statements and related Notes included elsewhere in this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K for the year ended December 31, 2016, and with the information under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2016.

Overview

We are a self-administered, self-managed, real estate investment trust ("REIT") with headquarters in Chicago, Illinois. We are a fully integrated owner and operator of lifestyle-oriented properties ("Properties") consisting primarily of manufactured home ("MH") communities and recreational vehicle ("RV") resorts and campgrounds. As of June 30, 2017, we owned or had an ownership interest in a portfolio of 393 Properties located throughout the United States and Canada containing 147,107 Sites. These properties are located in 32 states and British Columbia, with more than 80 Properties with lake, river or ocean frontage and more than 100 Properties within 10 miles of the coastal United States.

We generate the majority of our revenues from customers renting our Sites, or entering into right-to-use contracts (also referred to as membership products) which provide our customers access to specific Properties for limited stays. Our MH community Sites and annual RV resort Sites are leased on an annual basis. Seasonal Sites are leased to customers generally for one to six months. Transient Sites are leased to customers on a short-term basis. The revenue from seasonal and transient Sites is generally higher during the first and third quarters. We consider the transient revenue stream to be our most volatile as it is subject to weather conditions and other factors affecting the RV customer's vacation and travel preferences. Sites designated as right-to-use Sites are primarily utilized to service the approximately 106,500 customers who have entered into right-to-use contracts (otherwise referred to as "memberships" or "membership dues"). We also have interests in joint venture Properties for which revenue is classified as Equity in income from unconsolidated joint ventures in the Consolidated Statements of Income and Comprehensive Income. The breakdown of our Sites by type are as follows (amounts are approximate):

	Total Sites as of June 30, 2017
Community Sites	71,100
Resort Sites:	
Annual	26,600
Seasonal	11,200
Transient	10,500
Right-to-use ⁽¹⁾	24,100
Joint Ventures ⁽²⁾	3,600
	147,100

⁽¹⁾ Includes approximately 5,700 Sites rented on an annual basis.

Joint ventures have approximately 2,700 annual Sites, approximately 400 seasonal Sites and approximately 500

⁽²⁾ transient Sites and includes Crosswinds Mobile Home Park joint venture that we entered into during the quarter ended June 30, 2017.

In our Home Sales and Rental Operations business our revenue streams include home sales, home rentals, brokerage services and ancillary activities. We generate revenue through home sales and rental operations by selling or leasing Site Set homes that are located in Properties owned and managed by us. We continue to focus on our rental

operations, as we believe renting our vacant new homes may represent an attractive source of occupancy and the opportunity to convert to a new homebuyer in the future. We also sell and rent homes through our joint venture, ECHO Financing, LLC (the "ECHO JV"). We provide brokerage services to residents of our Properties who move from a Property but do not relocate their home. In addition, we operate ancillary activities at certain Properties, such as golf courses, pro shops, stores and restaurants.

In the manufactured housing industry chattel financing options are limited. Financing options available today include community owner funded programs or third party lender programs that provide subsidized financing to customers and require the community owner to guarantee customer defaults. Third party lender programs have stringent underwriting criteria, sizable down payment requirements, short loan amortization and high interest rates. We have a limited program under which we purchase loans made by an unaffiliated lender to purchasers of homes at our Properties.

We invest in Properties in sought-after locations near retirement and vacation destinations and urban areas across the United States with a focus on increasing operating cash flows. We seek growth in earnings, funds from operations ("FFO") and cash flows by enhancing the profitability and operation of our Properties and investments. We seek to accomplish this by attracting high quality customers to our Properties and retaining these customers who take pride in the Property and in their homes and efficiently

managing our Properties to increase operating margins by increasing occupancy, maintaining competitive market rents and controlling expenses.

We actively seek to acquire and are currently engaged in various stages of negotiations relating to the possible acquisition of additional properties, which may include contracts outstanding to acquire such properties that are subject to the satisfactory completion of our due diligence review.

In addition to Net income computed in accordance with GAAP, we assess and measure our overall financial and operating performance using certain Non-GAAP supplemental measures, which include: (i) FFO, (ii) Normalized funds from operations ("NFFO"), (iii) Income from property operations, (iv) Income from property operations, excluding deferrals and property management, (v) Core Portfolio income from property operations, excluding deferrals and property management, (operating results for properties owned and operated in both periods under comparison) and (vi) Income from rental operations, net of depreciation. We use these measures internally to evaluate the operating performance of our portfolio and provide a basis for comparison with other real estate companies. Definitions and reconciliations of these measures to the most comparable GAAP measures are included below in this discussion.

Results Overview

Net income available for Common Stockholders increased \$4.0 million, to \$39.5 million for the quarter ended June 30, 2017, compared to \$35.5 million for the quarter ended June 30, 2016. Net income available for Common Stockholders increased \$10.3 million, to \$96.4 million for the six months ended June 30, 2017, compared to \$86.1 million for the six months ended June 30, 2016. Both FFO per diluted share and NFFO per diluted share for the quarter ended June 30, 2017 were \$0.81 compared to \$0.75 for the quarter ended June 30, 2016 driven by improved Core and Non-Core income from property operations. Both FFO per diluted share and NFFO per diluted share for the six months ended June 30, 2017 were \$1.81 compared to \$1.67 for the six months ended June 30, 2016.

For the quarter ended June 30, 2017 property operating revenues in our Core Portfolio, excluding deferrals, were up 5.5% and property operating expenses in our Core Portfolio, excluding deferrals and property management, were up 6.5% from the quarter ended June 30, 2016, resulting in an increase in our income from property operations before deferrals and property management of 4.8%, from the quarter ended June 30, 2016. For the six months ended June 30, 2017 property operating revenues in our Core Portfolio, excluding deferrals, were up 4.9% and property operating expenses in our Core Portfolio, excluding deferrals and property management, were up 5.9% from the six months ended June 30, 2016, resulting in an increase in our income from property operations before deferrals and property management of 4.3%, from the six months ended June 30, 2016.

We continue to focus on the quality of occupancy growth by increasing the number of manufactured homeowners in our Core Portfolio. Our Core Portfolio average occupancy consists of occupied home sites in our MH communities (both homeowners and renters) and was 94.2% for the quarter ended June 30, 2017, compared to 94.0% for the quarter ended March 31, 2017 and 93.3% for the quarter ended June 30, 2016. During the quarter ended June 30, 2017, we increased occupancy of manufactured homes within our Core Portfolio by 114 sites with an increase in homeowner occupancy of 204 sites compared to occupancy as of March 31, 2017. By comparison, as of June 30, 2016, our Core Portfolio occupancy increased 128 sites with an increase in homeowner occupancy of 229 sites compared to occupancy at March 31, 2016.

We continue to experience growth in revenues in our Core RV Portfolio as a result of our ability to increase rental rates and occupancy. RV revenues in our Core Portfolio for the quarter ended June 30, 2017 were 8.1% higher than the quarter ended June 30, 2016. Annual, seasonal and transient revenues for the quarter ended June 30, 2017 increased 6.0%, 13.7% and 12.3%, respectively, from the quarter ended June 30, 2016. RV revenues in our Core Portfolio for the six months ended June 30, 2017 were 5.3% higher than the six months ended June 30, 2016. Annual, seasonal and transient revenues for the six months ended June 30, 2017 increased 5.3%, 3.8% and 6.7%, respectively, from the six months ended June 30, 2016.

We continue to offer the Thousand Trails Camping Pass ("TTC") and as a customer acquisition tool we have relationships with a network of RV dealers to provide them with a free one-year TTC membership to give to their

customers in connection with the purchase of an RV. During the quarter ended June 30, 2017 online TTC sales increased 45% from the quarter ended June 30, 2016. During the quarter ended June 30, 2017 we sold approximately 4,700 TTCs and activated approximately 5,700 RV dealer TTCs. For the six months ended June 30, 2017 we sold approximately 7,300 TTCs and activated approximately 9,200 RV dealer TTCs.

Our social media presence continues to increase within our RV customer base and we continue to be successful at providing a venue for our customers to promote our Properties by encouraging them to share their memories of their experiences at our resorts. Year-over-year we have seen an increase in social media fans of 30%. Through our summer marketing campaigns, we have

increased the awareness of our product offering and our customers are increasingly choosing the web as a vehicle to transact with us.

We continue to see high demand for our homes and communities. We closed 120 new home sales in the quarter ended June 30, 2017 compared to 180 during the quarter ended June 30, 2016 and 240 new home sales in the six months ended June 30, 2017 compared to 301 during the six months ended June 30, 2016. The new home sales during the quarter and six months ended June 30, 2017 were primarily in our Florida and Colorado communities.

As of June 30, 2017, we had 4,674 occupied rental homes in our MH communities. For the quarters ended June 30, 2017 and 2016, home rental program net operating income was approximately \$8.2 million and \$8.3 million, respectively, net of rental asset depreciation expense of approximately \$2.6 million for the quarter ended June 30, 2017 and \$2.7 million for the quarter ended June 30, 2016. Approximately \$8.8 million and \$9.0 million of home rental operations revenue was included in community base rental income for the quarters ended June 30, 2017 and June 30, 2016, respectively. For the six months ended June 30, 2017 and 2016, home rental program net operating income was approximately \$16.4 million and \$16.8 million, respectively, net of rental asset depreciation expense of approximately \$5.3 million for both the six months ended June 30, 2017 and six months ended June 30, 2016.

Approximately \$17.7 million and \$18.1 million of home rental operations revenue was included in community base rental income for the six months ended June 30, 2017 and six months ended June 30, 2016, respectively.

On May 10, 2017, we completed the acquisition of Paradise Park Largo, a 108-site manufactured home community located in Largo, Florida for a purchase price of approximately \$8.0 million. Our gross investment in real estate has increased approximately \$46.3 million to \$4,731.6 million as of June 30, 2017 from \$4,685.3 million as of December 31, 2016 primarily due to the acquisition of Paradise Park Largo and increased capital expenditures.

The following chart lists both the Properties acquired or invested in from January 1, 2016 through June 30, 2017, which represents our Non-Core Portfolio; and Sites added through expansion opportunities at our existing Properties.

Non-GAAP Financial Measures

Income from Property Operations and Core Portfolio

We use Income from property operations and Income from property operations, excluding deferrals and property management and Core Portfolio income from property operations, excluding deferrals and property management, as alternative measures to evaluate the operating results of our manufactured home and RV communities. Income from property operations, represents rental income, utility income and right-to-use income less property operating and maintenance expenses, real estate tax, sales and marketing expenses and property management expenses. Income from property operations, excluding deferrals and property management represents income from property operations excluding property management expenses and the impact of the GAAP deferral of right-to-use contract upfront payments and related commissions, net. Our Core Portfolio consists of our Properties owned and operated since December 31, 2015. Core Portfolio income from property operations, excluding deferrals and property management is

useful to investors for annual comparison as it removes the fluctuations associated with acquisitions, dispositions and significant transactions or unique situations. Our Non-Core Portfolio (or Acquisitions) includes all Properties that were not owned and operated during 2016 and 2017.

Management's Discussion (continued)

Funds from Operations ("FFO") and Normalized Funds from Operations ("NFFO")

We define FFO as net income, computed in accordance with GAAP, excluding gains and actual or estimated losses from sales of properties, plus real estate related depreciation and amortization, impairments, if any, and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures are calculated to reflect FFO on the same basis. We compute FFO in accordance with our interpretation of standards established by the National Association of Real Estate Investment Trusts ("NAREIT"), which may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently than we do. We receive up-front non-refundable payments from the entry of right-to-use contracts. In accordance with GAAP, the upfront non-refundable payments and related commissions are deferred and amortized over the estimated customer life. Although the NAREIT definition of FFO does not address the treatment of non-refundable right-to-use payments, we believe that it is appropriate to adjust for the impact of the deferral activity in our calculation of FFO.

We define NFFO as FFO excluding the following non-operating income and expense items: a) the financial impact of contingent consideration; b) gains and losses from early debt extinguishment, including prepayment penalties and defeasance costs; c) property acquisition and other transaction costs related to mergers and acquisitions; and d) other miscellaneous non-comparable items. NFFO presented herein is not necessarily comparable to NFFO presented by other real estate companies due to the fact that not all real estate companies use the same methodology for computing this amount.

We believe that FFO and Normalized FFO are helpful to investors as supplemental measures of the performance of an equity REIT. We believe that by excluding the effect of depreciation, amortization, impairments, if any, and actual or estimated gains or losses from sales of real estate, all of which are based on historical costs and which may be of limited relevance in evaluating current performance, FFO can facilitate comparisons of operating performance between periods and among other equity REITs. We further believe that Normalized FFO provides useful information to investors, analysts and our management because it allows them to compare our operating performance to the operating performance of other real estate companies and between periods on a consistent basis without having to account for differences not related to our operations. For example, we believe that excluding the early extinguishment of debt, property acquisition and other transaction costs related to mergers and acquisitions from NFFO allows investors, analysts and our management to assess the sustainability of operating performance in future periods because these costs do not affect the future operations of the properties. In some cases, we provide information about identified non-cash components of FFO and NFFO because it allows investors, analysts and our management to assess the impact of those items.

Income from Rental Operations, Net of Depreciation

We use Income from rental operations, net of depreciation as an alternative measure to evaluate the operating results of our home rental program. Income from rental operations, net of depreciation, represents income from rental operations less depreciation expense on rental homes. We believe this measure is meaningful for investors as it provides a complete picture of the home rental program operating results including the impact of depreciation which affects our home rental program investment decisions.

Our definitions and calculations of these non-GAAP financial and operating measures and other terms may differ from the definitions and methodologies used by other REITs and, accordingly, may not be comparable. These non-GAAP financial and operating measures do not represent cash generated from operating activities in accordance with GAAP, nor do they represent cash available to pay distributions and should not be considered as an alternative to net income, determined in accordance with GAAP, as an indication of our financial performance, or to cash flow from operating activities, determined in accordance with GAAP, as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to make cash distributions.

Income from Property Operations

The following table summarizes certain financial and statistical data for the Core Portfolio and the total portfolio for the quarters ended June 30, 2017 and 2016 (amounts in thousands). The Core Portfolio in this discussion includes all Properties acquired on or before December 31, 2015 and which we have owned and operated continuously since January 1, 2016. Core Portfolio growth percentages exclude the impact of GAAP deferrals of upfront payments from right-to-use contracts and related commissions.

Total Portfolio income from property operations, which includes recently acquired properties, for the quarter ended June 30, 2017 increased \$5.1 million, or 5.1%, from the quarter ended June 30, 2016, driven by an increase of \$3.9 million, or 3.9%, in our Core Portfolio income from property operations and a \$1.2 million increase in our Non-Core income from property operations.

Property Operating Revenues

Community base rental income in our Core Portfolio for the quarter ended June 30, 2017 increased \$5.5 million, or 4.8% from the quarter ended June 30, 2016, which reflects 3.9% growth from rate increases and approximately 0.9% growth from occupancy gains. The average monthly base rental income per Site increased to approximately \$611 for

the quarter ended June 30, 2017 from approximately \$588 for the quarter ended June 30, 2016. The average occupancy for the Core Portfolio increased to 94.2% for the quarter ended June 30, 2017 from 93.3% for the quarter ended June 30, 2016.

Management's Discussion (continued)

Resort base rental income in our Core Portfolio for the quarter ended June 30, 2017 increased \$3.6 million, or 8.1%, from the quarter ended June 30, 2016 primarily due to increased rates. Resort base rental income is comprised of the following (amounts in thousands):

	Core Portfolio				Total Portfolio			
	2017	2016	Variance	% Change	2017	2016	Variance	% Change
Annual	\$31,884	\$30,089	\$ 1,795	6.0 %	\$32,869	\$30,360	\$ 2,509	8.3 %
Seasonal	4,481	3,942	539	13.7 %	4,902	4,114	788	19.2 %

Resort base rental income	\$47,753	\$44,173	\$ 3,580	8.1 %	\$50,055	\$44,732	\$ 5,323	11.9 %

Right-to-use contracts current period, gross, net of sales and marketing, gross, increased by \$0.7 million, primarily as a result of an increase in the average price per upgrade sale and a higher number of upgrade sales during the quarter ended June 30, 2017 compared to the quarter ended June 30, 2016. During the quarter ended June 30, 2017 there were 635 upgrade sales with an average price per upgrade sale of \$5,980. This compares to 626 upgrade sales with an average price per upgrade sale of \$4,930 during the quarter ended June 30, 2016.

The increase in utility and other income is primarily due to insurance recovery revenue related to California storm events and increased electric, water, gas, and sewer income recovery.

Property Operating Expenses

Property operating expenses, excluding deferrals and property management, in our Core Portfolio for the quarter ended June 30, 2017 increased \$5.5 million, or 6.5%, from the quarter ended June 30, 2016 primarily driven by an increase in utility expenses, property payroll and repairs and maintenance. The increase in utility expense was driven by increases in electric, sewer, and gas expenses, which is partially offset by an increase in utility income recovery. The increase in property payroll expense primarily resulted from 2017 salary increases. The increase in repairs and maintenance expense was primarily due to clean-up costs as a result of California storm events.

Home Sales and Rental Operations

Management's Discussion (continued)

Loss from home sales and other was \$0.5 million and \$0.8 million for the quarters ended June 30, 2017 and 2016, respectively. The decrease in loss from home sales and other from the quarter ended June 30, 2016 was primarily due to an increase in the gross profit from new home sales, partially offset by an increase in home selling expenses.

Rental Operations

Rental operations revenue consists of Site rental income and home rental income. Approximately \$8.8 million and \$9.0 million for the quarters ended June 30, 2017 and 2016, respectively, of Site rental income are included in Community base rental income in the Income from Property Operations table. The remainder of home rental income is included in Rental home income in the Income from Property Operations table.

⁽²⁾ Included in depreciation on real estate and other costs in the Consolidated Statements of Income and Comprehensive Income.

⁽³⁾ New home cost basis does not include the costs associated with our ECHO JV. Our investment in the ECHO JV was \$15.4 million at both June 30, 2017 and December 31, 2016.

⁽⁴⁾ Occupied rentals as of the end of the period in our Core Portfolio and includes 257 and 143 homes rented through our ECHO JV during the quarters ended June 30, 2017 and 2016, respectively.

The decrease in income from rental operations, net of depreciation, was primarily due to a decrease in the number of used occupied rental units, partially offset by the change in the mix of occupied rentals, driven by an increase in the number of occupied new rental homes at a higher rental rate.

Other Income and Expenses

Comparison of the Six Months Ended June 30, 2017 to the Six Months Ended June 30, 2016

Income from Property Operations

The following table summarizes certain financial and statistical data for the Core Portfolio and the total portfolio for the six months ended June 30, 2017 and 2016 (amounts in thousands). The Core Portfolio in this discussion includes all Properties acquired on or before December 31, 2015 and which we have owned and operated continuously since January 1, 2016. Core Portfolio growth percentages exclude the impact of GAAP deferrals of upfront payments from right-to-use contracts and related commissions.

Total Portfolio income from property operations, which includes recently acquired properties, for the six months ended June 30, 2017 increased \$12.4 million, or 5.7%, from the six months ended June 30, 2016, driven by an increase of \$7.7 million, or 3.6%, in our Core Portfolio income from property operations and a \$4.7 million increase in our Non-Core income from property operations.

Property Operating Revenues

Community base rental income in our Core Portfolio for the six months ended June 30, 2017 increased \$11.0 million, or 4.8% from the six months ended June 30, 2016, which reflects 3.9% growth from rate increases and approximately 0.9% growth from occupancy gains. The average monthly base rental income per Site increased to approximately \$608 for the six months ended June 30, 2017 from approximately \$586 for the six months ended June 30, 2016. The average occupancy for the Core Portfolio increased to 94.1% for the six months ended June 30, 2017 from 93.2% for the six months ended June 30, 2016.

Management's Discussion (continued)

Resort base rental income in our Core Portfolio for the six months ended June 30, 2017 increased \$5.2 million, or 5.3%, from the quarter ended June 30, 2016 primarily due to an increase in annual and transient revenues as a result of increased rates. Resort base rental income is comprised of the following (amounts in thousands):

	Core Portfolio				Total Portfolio			
	2017	2016	Variance	% Change	2017	2016	Variance	% Change
Annual	\$63,123	\$59,953	\$ 3,170	5.3 %	\$64,965	\$60,370	\$4,595	7.6 %
Seasonal	20,864	20,100	764	3.8 %	23,401	20,329	3,072	15.1 %

Resort base rental income	\$104,603	\$99,380	\$ 5,223	5.3 %	\$111,123	\$100,166	\$10,957	10.9 %

Right-to-use contracts current period, gross, net of sales and marketing, gross, increased by \$1.4 million, primarily as a result of a higher average price per upgrade sale and higher upgrade sales during the six months ended June 30, 2017 compared to the six months ended June 30, 2016. During the six months ended June 30, 2017 there were 1,260 upgrade sales with an average price per upgrade sale of \$5,557. This compares to 1,152 upgrade sales with an average price per upgrade sale of \$4,877 for the six months ended June 30, 2016.

The increase in utility and other income is primarily due to insurance recovery revenue related to California storm events and increased electric, water, gas, and sewer income recovery.

Property Operating Expenses

Property operating expenses, excluding deferrals and property management, in our Core Portfolio for the six months ended June 30, 2017 increased \$9.6 million, or 5.9%, from the six months ended June 30, 2016. The increase was primarily due to an increase in utility expenses, property payroll and repairs and maintenance. The increase in utility expense was driven by increases in electric, sewer, trash and gas expenses, which was partially offset by increased utility income recovery. The increase in property payroll expense resulted from 2017 salary increases. The increase in repairs and maintenance expense was primarily due to clean-up costs as a result of California storm events and the hurricanes in Florida in 2016, and an increase in landscaping costs.

Home Sales and Rental Operations

Home Sales and Other

The following table summarizes certain financial and statistical data for Home Sales for the six months ended June 30, 2017 and June 30, 2016 (amounts in thousands, except home sales volumes).

(2) Total new home sales volume includes home sales from our ECHO JV for the six months ended June 30, 2017 and June 30, 2016, respectively.

Management's Discussion (continued)

The increase in income from home sales and other was primarily due to an increase in the gross profit from new home sales, partially offset by an increase in the loss from used home sales.

Rental Operations

The following table summarizes certain financial and statistical data for manufactured home Rental Operations for the six months ended June 30, 2017 and June 30, 2016 (amounts in thousands, except rental unit volumes).

The increase in other expenses, net from the six months ended June 30, 2016 was primarily due to an increase in depreciation on real estate and rental homes and amortization of in-place leases due to 2016 acquisition activity and a decrease in income from other investments, net, due to the termination of the Tropical Palms RV ground lease in 2016.

Management's Discussion (continued)

This was partially offset by a decrease in interest and related amortization as a result of the refinancing activities completed during 2016 (see Note 7 to the Consolidated Financial Statements for additional detail regarding borrowing arrangements).

Liquidity and Capital Resources

Liquidity

Our primary demands for liquidity include payment of operating expenses, debt service, including principal and interest, capital improvements on properties, purchasing both new and pre-owned homes, acquisitions of new Properties, and distributions. We expect similar demand for liquidity will continue for the short-term and long-term. Our primary sources of cash include operating cash flows, proceeds from financings, borrowings under our unsecured Line of Credit ("LOC") and proceeds from issuance of equity and debt securities.

We have entered into an at-the-market ("ATM") offering program, pursuant to which we may sell, from time-to-time, shares of our common stock, par value \$0.01 per share, having an aggregate offering price of up to \$125.0 million. As of June 30, 2017, \$75.0 million of common stock remained available for issuance under the ATM equity offering program. In addition, we have available liquidity in the form of authorized and unissued preferred stock of approximately 9.9 million shares and approximately 113.0 million shares of authorized but unissued common stock registered for sale under the Securities Act of 1933, as amended, by a shelf registration statement which was automatically effective when filed with the SEC. Our charter allows us to issue up to 200.0 million shares of common stock, par value \$0.01 per share, and up to 10.0 million shares of preferred stock, par value \$0.01 per share.

One of our stated objectives is to maintain financial flexibility. Achieving this objective allows us to take advantage of strategic opportunities that may arise. We believe effective management of our balance sheet, including maintaining various access points to raise capital, manage future debt maturities and borrow at competitive rates enables us to meet this objective. We believe that as of June 30, 2017, we have sufficient liquidity, in the form of \$62.5 million in available cash, net of restricted cash, and \$400.0 million available on our LOC, to satisfy our near term obligations. Our LOC has a borrowing capacity of \$400.0 million with the option to increase the borrowing capacity by \$100.0 million, subject to certain conditions. The LOC bears interest at a rate of LIBOR plus 1.20% to 1.65%, requires an annual facility fee of 0.20% to 0.35% and matures on July 17, 2018, with an option to extend for one additional year, subject to certain conditions.

We expect to meet our short-term liquidity requirements, including distributions for the next twelve months, generally through available cash as well as net cash provided by operating activities and availability under our existing LOC. We consider these resources to be adequate to meet our operating requirements for capital improvements, amortizing debt and payment of dividends and distributions.

We expect to meet certain long-term liquidity requirements such as scheduled debt maturities, property acquisitions and capital improvements by use of our current cash balance, long-term collateralized and uncollateralized borrowings including borrowings under the existing LOC and the issuance of debt securities or additional equity securities, in addition to net cash provided by operating activities. As of June 30, 2017, we have approximately \$6.9 million of scheduled debt maturities in 2017 (excluding scheduled principal payments on debt maturing in 2017 and beyond). We expect to satisfy our 2017 maturities with existing cash and anticipated operating cash flow.

During the six months ended June 30, 2017 we paid off one maturing mortgage loan and assumed debt in the purchase of Paradise Park Largo. The mortgage loan we paid off was approximately \$21.1 million, with a weighted average interest rate of 5.76% per annum, secured by one manufactured home Property. In connection with the Paradise Park Largo acquisition during the quarter ended June 30, 2017, we assumed approximately \$5.9 million of mortgage debt secured by the manufactured home community with an interest rate of 4.6% that matures in 2040.

Management's Discussion (continued)

Operating Activities

Net cash provided by operating activities increased \$27.3 million to \$214.1 million for the six months ended June 30, 2017, from \$186.8 million for the six months ended June 30, 2016. The increase in net cash provided by operating activities was primarily due to higher income from property operations of \$12.4 million, receipt of insurance proceeds of \$10.8 million related to the California failure to maintain lawsuits, long term incentive plan payments of \$4.3 million during the first quarter of 2016, increase of \$1.2 million in rents received in advance and an increase of \$0.8 million in distributions from unconsolidated joint ventures. These increases were partially offset by the litigation settlement payment of \$13.3 million related to the California failure to maintain lawsuits.

Investing Activities

Net cash used in investing activities was \$71.4 million for the six months ended June 30, 2017 compared to \$136.1 million for the six months ended June 30, 2016. The decrease in net cash used in investing activities was primarily due to the acquisitions of Forest Lake Estates, Portland Fairview and Rose Bay during the six months ended June 30, 2016, partially offset by the short-term loan of \$13.8 million issued to the Crosswinds joint venture during the second quarter of 2017.

Capital Improvements

The table below summarizes capital improvement activity for the six months ended June 30, 2017 and 2016 (amounts in thousands):

	Six Months Ended June 30, ⁽¹⁾	
	2017	2016

⁽¹⁾ Excludes non-cash activity of approximately \$0.2 million and \$0.4 million of used homes acquired through foreclosure of Chattel Loans for the six months ended June 30, 2017 and 2016, respectively.

⁽²⁾ Recurring capital expenditures are primarily comprised of common area improvements, furniture, and mechanical improvements.

⁽³⁾ Excludes new home investment associated with our ECHO JV.

⁽⁴⁾ Net proceeds from new and used home sale activities are reflected within Operating Activities.

Financing Activities

Net cash used in financing activities was \$131.3 million for the six months ended June 30, 2017 compared to net cash used in financing activities of \$56.1 million for the six months ended June 30, 2016. The increase in net cash used in financing activities was primarily due to the \$50.0 million of cash proceeds received during the six months ended June 30, 2016 as a result of the sale of stock under the ATM equity offering program.

Weighted average interest rates - Long Term Borrowings	4.41	% 4.69	% 4.61	% 4.40	% 4.49	% 4.39	% 4.25	%

Balance excludes note premiums of \$4.3 million and deferred financing costs of approximately \$17.8 million.

⁽¹⁾ Balances include debt maturing, scheduled periodic principal payments, and Paradise Park Largo mortgage debt of \$5.9 million.

⁽²⁾ Amounts include interest expected to be incurred on our secured debt and Term Loan based on obligations outstanding as of June 30, 2017.

⁽³⁾ As of June 30, 2017, assumes we will not exercise our one year extension option on July 17, 2018 and assumes we will maintain our current leverage ratios as defined by the LOC.

We also lease land under non-cancelable operating leases at certain of the Properties expiring in various years from ⁽⁴⁾ 2017 to 2054. The majority of the lease terms require twelve equal payments per year plus additional rents calculated as a percentage of gross revenues.

⁽⁵⁾ We do not include insurance, property taxes and cancelable contracts in the contractual obligations table.

We believe that we will be able to refinance our maturing debt obligations on a secured or unsecured basis; however, to the extent we are unable to refinance our debt as it matures, we believe that we will be able to repay such maturing debt through available cash as well as operating cash flow, asset sales and/or the proceeds from equity issuances. With respect to any refinancing of maturing debt, our future cash flow requirements could be impacted by significant changes in interest rates or other debt terms, including required amortization payments.

Inflation

Substantially all of the leases at the Properties allow for monthly or annual rent increases which provide us with the opportunity to achieve increases, where justified by the market, as each lease matures. Such types of leases generally minimize our risks of inflation. In addition, our resort Properties are not generally subject to leases and rents are established for these Sites on an annual basis. Our right-to-use contracts generally provide for an annual dues increase, but dues may be frozen under the terms of certain contracts if the customer is over 61 years of age.

Off Balance Sheet Arrangements

As of June 30, 2017, we have no off balance sheet arrangements.

Critical Accounting Policies and Estimates

Refer to the 2016 Form 10-K for a discussion of our critical accounting policies, which includes impairment of real estate assets and investments, revenue recognition and business combinations. There have been no changes to these policies during the quarter ended June 30, 2017.

Management's Discussion (continued)

Forward Looking Statements

This Quarterly Report on Form 10-Q for the quarter ended June 30, 2017 includes certain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. When used, words such as “anticipate,” “expect,” “believe,” “project,” “intend,” “may be” and “will be” and similar words or phrases, or the negative thereof, unless the context requires otherwise, are intended to identify forward-looking statements and may include without limitation, information regarding our expectations, goals or intentions regarding the future, and the expected effect of our acquisitions. These forward-looking statements are subject to numerous assumptions, risks and uncertainties, including, but not limited to:

- our ability to control costs, real estate market conditions, the actual rate of decline in customers, the actual use of Sites by customers and our success in acquiring new customers at our Properties (including those that we may acquire);
- our ability to maintain historical or increase future rental rates and occupancy with respect to Properties currently owned or that we may acquire;
- our ability to retain and attract customers renewing, upgrading and entering right-to-use contracts;
- our assumptions about rental and home sales markets;
- our ability to manage counterparty risk;
- in the age-qualified Properties, home sales results could be impacted by the ability of potential home buyers to sell their existing residences as well as by financial, credit and capital markets volatility;
- results from home sales and occupancy will continue to be impacted by local economic conditions, lack of affordable manufactured home financing and competition from alternative housing options including site-built single-family housing;
- impact of government intervention to stabilize site-built single-family housing and not manufactured housing;
- effective integration of recent acquisitions and our estimates regarding the future performance of recent acquisitions;
- the completion of future transactions in their entirety, if any, and timing and effective integration with respect thereto;
- unanticipated costs or unforeseen liabilities associated with recent acquisitions;
- ability to obtain financing or refinance existing debt on favorable terms or at all;
- the effect of interest rates;
- the dilutive effects of issuing additional securities;
- the effect of accounting for the entry of contracts with customers representing a right-to-use the Properties under the Codification Topic "Revenue Recognition";
- the outcome of pending or future lawsuits or actions brought against us, including those disclosed in our filings with the Securities and Exchange Commission; and
- other risks indicated from time to time in our filings with the Securities and Exchange Commission.

These forward-looking statements are based on management's present expectations and beliefs about future events. As with any projection or forecast, these statements are inherently susceptible to uncertainty and changes in circumstances. We are under no obligation to, and expressly disclaim any obligation to, update or alter our forward-looking statements whether as a result of such changes, new information, subsequent events or otherwise.

Item 3. Quantitative and Qualitative Disclosure of Market Risk

We disclosed a quantitative and qualitative analysis regarding market risk in Part II, Item 7A. Quantitative and Qualitative Disclosures About Market Risk on Form 10-K for the year ended December 31, 2016. There have been no material changes in the assumptions used or results obtained regarding market risk since December 31, 2016.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial and accounting officer), has evaluated the effectiveness of our disclosure controls and procedures as of June 30, 2017. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective to give reasonable assurances to the timely collection, evaluation and disclosure of information relating to us that would potentially be subject to disclosure under the Securities and Exchange Act of 1934, as amended (the "Exchange Act"), and the rules and regulations promulgated thereunder as of June 30, 2017.

Notwithstanding the foregoing, a control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that it will detect or uncover failures within us to disclose material information otherwise required to be set forth in our periodic reports.

Changes in Internal Control Over Financial Reporting

During the quarter ended June 30, 2017, there were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
