to SS/L's facility in Palo Alto, California. The Kent facility is owned by The Boeing Company and used for thermal vacuum testing when SS/L's own thermal vacuum facility is unavailable. SS/L is currently investigating the cause of the accident and assessing the extent of the damage to the satellite and the effect on the satellite's scheduled delivery date. A delay in the satellite's delivery may give rise to penalty payments and termination rights under the satellite construction contract. SS/L believes that the costs to repair the satellite will be covered by insurance.
