During the quarter, the Company booked \$1.1 billion in new contract wins, extensions and renewals, bringing the total bookings over the last twelve months to \$4.3 billion or 117% of revenue. At the end of March 2010, the Company's backlog of signed orders stood at \$11.4 billion. This represents 3.1x annual revenue.

"Increased client activity and a gradual improvement in our systems integrations and consulting business helped us return to revenue growth in Q2," said Michael E. Roach, President and Chief Executive Officer. "While the impact of currency fluctuations reduced our top line by more than \$70 million, I'm pleased that we mitigated the negative impact on the bottom line, as evidenced by our increasing margins and earnings per share. As well, the strength of the Canadian dollar continues to be advantageous in our ongoing execution of our Build & Buy profitable growth strategy."
