INCO LIMITED

Convertible Debentures Due 2023 and

Common Shares Issuable Upon Conversion, Redemption, Purchase or Payment of the Convertible Debentures

In accordance with the multijurisdictional disclosure system adopted by the U.S. Securities and Exchange Commission (the SEC) and the provincial securities regulators in Canada, Inco Limited (Inco) filed a registration statement (the Shelf Registration Statement) with the Ontario Securities Commission and the SEC, which included a base shelf prospectus dated April 29, 2003, as amended and restated June 5, 2003 (the Prospectus), in order to register in the United States resales of Inco's Convertible Debentures due 2023 (the Debentures) and the common shares issuable upon the conversion, redemption, purchase or payment of the Debentures (the Underlying Shares).

Investing in Inco s common shares or the Debentures involves risks. Please carefully consider the Risk Factors section beginning on page 4 of the Prospectus.

The holders of the Debentures and the Underlying Shares (together, the Registrable Securities) are entitled to the benefits of a registration rights agreement, entered into as of March 7, 2003 among Inco and the several Initial Purchasers referred to therein, for whom Morgan Stanley & Co. Incorporated and Salomon Smith Barney Inc. (now Citigroup Global Markets Inc.) are acting as representatives (the Registration Rights Agreement). Under the Registration Rights Agreement, any holder of Registrable Securities wishing to sell Registrable Securities pursuant to the Shelf Registration Statement must deliver a Notice and Questionnaire to Inco (each such holder which has delivered a Notice and Questionnaire is referred to as an Electing Holder). Upon receipt of a completed and signed Notice and Questionnaire, Inco has agreed to file such documents as may be required to include the Registrable Securities covered thereby in the Shelf Registration Statement.

Inco is filing this Prospectus Supplement so as to include in the Shelf Registration Statement the Registrable Securities of Electing Holders who have signed, completed and returned a Notice and Questionnaire to Inco after the date of the Prospectus as most recently supplemented, and also to provide current information regarding earnings coverage and information regarding the documents incorporated by reference. **Please see Earnings Coverage on page S-2 and Documents Incorporated by Reference on page S-3.** A list of all of the Electing Holders as of the date hereof is attached as Schedule A to this Prospectus Supplement.

EARNINGS COVERAGE

If the initial offering of Debentures and the concurrent offering of 3 1/2% Subordinated Convertible Debentures due 2052 (the Subordinated Debentures) had been made as of January 1, 2003, consolidated net earnings, before deduction of interest and income and mining taxes of \$160 million for the twelve months ended December 31, 2003 would have been 1.8 times Inco s interest requirement of \$87 million. If the initial offering of Debentures and the concurrent offering of Subordinated Debentures had been made as of July 1, 2003, consolidated net earnings, before deduction of interest and income and mining taxes of \$657 million for the twelve months ended June 30, 2004 would have been 7.7 times Inco s interest requirement of \$85 million. As Inco s zero coupon convertible notes (LYON Notes), Debentures and Subordinated Debentures are treated as equity for Canadian GAAP purposes, Inco s interest requirement does not include the carrying charges associated with these securities. Had Inco accounted for the LYON Notes, the Debentures and the Subordinated Debentures would have been reflected in interest expense and consolidated net earnings, before deduction of interest and income and mining taxes, would have been 1.6 times Inco s interest requirement for the twelve months ended December 31, 2003 and 6.8 times Inco s interest requirement for the twelve months ended June 30, 2004.

The information included in this section is based upon Inco s audited financial statements prepared in accordance with Canadian GAAP, which differ in certain material respects from U.S. GAAP. If the offering of Debentures and the concurrent offering of Subordinated Debentures had been made as of January 1, 2003, excluding the cumulative effect of a change in accounting principles of \$17 million, consolidated net loss, before deduction of interest and income and mining taxes of \$95 million for the twelve months ended December 31, 2003, would have been insufficient to cover Inco s interest requirement of \$99 million. If the offering of the Debentures and the concurrent offering of Subordinated Debentures had been made as of July 1, 2003, excluding the cumulative effect of a change in accounting principles of \$17 million, consolidated net earnings, before deduction of interest and income and mining taxes of \$596 million for the twelve months ended June 30, 2004, would have been 6.2 times Inco s interest requirement of \$96 million. For further information regarding the differences between Canadian GAAP and U.S. GAAP, see Note 23 to Inco s consolidated financial statements included as an Exhibit to its 2003 Annual Report on Form 10-K, as amended.

In the second quarter of 2004, for U.S. GAAP reporting purposes we revised our accounting treatment for currency translation gains and losses arising from the translation into U.S. dollars, at the end of each period, of certain Canadian dollar denominated deferred income and mining tax liabilities established in 1996 upon the acquisition of the Voisey s Bay deposits. The U.S. GAAP amounts noted above include the effect of such revision.
