Table of Contents

CBL & Associates Properties, Inc.
Notes to Unaudited Condensed Consolidated Financial Statements
(Dollars in thousands, except share data)

Note 1 – Organization and Basis of Presentation

CBL & Associates Properties, Inc. (“CBL”), a Delaware corporation, is a self-managed, self-administered, fully-integrated real estate investment trust (“REIT”) that is engaged in the ownership, development, acquisition, leasing, management and operation of regional shopping malls, open-air centers, community centers and office properties. Its shopping centers are located in 26 states, but are primarily in the southeastern and midwestern United States.

CBL conducts substantially all of its business through CBL & Associates Limited Partnership (the “Operating Partnership”). As of June 30, 2011, the Operating Partnership owned controlling interests in 75 regional malls/open-air centers, 30 associated centers (each located adjacent to a regional mall), eight community centers and 14 office buildings, including CBL’s corporate office building. The Operating Partnership consolidates the financial statements of all entities in which it has a controlling financial interest or where it is the primary beneficiary of a variable interest entity. At June 30, 2011, the Operating Partnership owned non-controlling interests in seven regional malls, four associated centers, four community centers and six office buildings. Because one or more of the other partners have substantive participating rights, the Operating Partnership does not control these partnerships and joint ventures and, accordingly, accounts for these investments using the equity method. The Operating Partnership had controlling interests in one open-air center expansion, one community center expansion, and one outlet center, owned in a joint venture, under construction at June 30, 2011. The Operating Partnership also holds options to acquire certain development properties owned by third parties.

CBL is the 100% owner of two qualified REIT subsidiaries, CBL Holdings I, Inc. and CBL Holdings II, Inc. At June 30, 2011, CBL Holdings I, Inc., the sole general partner of the Operating Partnership, owned a 1.0% general partner interest in the Operating Partnership and CBL Holdings II, Inc. owned a 76.9% limited partner interest for a combined interest held by CBL of 77.9%.

The noncontrolling interest in the Operating Partnership is held primarily by CBL & Associates, Inc. and its affiliates (collectively “CBL’s Predecessor”) and by affiliates of The Richard E. Jacobs Group, Inc. (“Jacobs”). CBL’s Predecessor contributed their interests in certain real estate properties and joint ventures to the Operating Partnership in exchange for a limited partner interest when the Operating Partnership was formed in November 1993. Jacobs contributed their interests in certain real estate properties and joint ventures to the Operating Partnership in exchange for limited partner interests when the Operating Partnership acquired the majority of Jacobs’ interests in 23 properties in January 2001 and the balance of such interests in February 2002. At June 30, 2011, CBL’s Predecessor owned a 9.8% limited partner interest, Jacobs owned a 6.9% limited partner interest and third parties owned a 5.4% limited partner interest in the Operating Partnership. CBL’s Predecessor also owned 7.4 million shares of CBL’s common stock at June 30, 2011, for a total combined effective interest of 13.7% in the Operating Partnership.

The Operating Partnership conducts CBL’s property management and development activities through CBL & Associates Management, Inc. (the “Management Company”) to comply with certain requirements of the Internal Revenue Code of 1986, as amended (the “Code”). The Operating Partnership owns 100% of both of the Management Company’s preferred stock and common stock.

CBL, the Operating Partnership and the Management Company are collectively referred to herein as “the Company”.

The accompanying condensed consolidated financial statements are unaudited; however, they have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and in conjunction with the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the disclosures required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting solely of normal recurring matters) necessary for a fair presentation of the financial statements for these interim periods have been included. Material intercompany transactions have been eliminated. The results for the interim period ended June 30, 2011 are not necessarily indicative of the results to be obtained for the full fiscal year.

Table of Contents

The Company has evaluated subsequent events through the date of issuance of these financial statements.

These condensed consolidated financial statements should be read in conjunction with CBL's audited consolidated financial statements and notes thereto included in its Annual Report on Form 10-K for the year ended December 31, 2010, as amended.

Note 2 – Recent Accounting Pronouncements

Accounting Guidance Adopted

In July 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-20, Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses ("ASU No. 2010-20"). ASU No. 2010-20 requires entities to provide extensive new disclosures in their financial statements about their financing receivables, including credit risk exposures and the allowance for credit losses. The new disclosures include information regarding credit quality, impaired or modified receivables, non-accrual or past due receivables and activity related to modified receivables and the allowance for credit losses. In January 2011, the FASB issued ASU No. 2011-01, Deferral of the Effective Date of Disclosures about Troubled Debt Restructurings in Update No. 2010-20 ("ASU No. 2011-01"). ASU No. 2011-01 delayed immediately the effective date for disclosures prescribed by ASU No. 2010-20 that relate to troubled debt restructurings. The adoption of the non-deferred disclosures prescribed by ASU No. 2010-20 did not have an impact on the Company's condensed consolidated financial statements.

Accounting Pronouncements Not Yet Effective

In April 2011, the FASB issued ASU No. 2011-02, A Creditor's Determination of Whether a Restructuring Is a Troubled Debt Restructuring ("ASU No. 2011-02"). ASU No. 2011-02 provides additional guidance to assist creditors in determining whether a restructuring of a receivable meets the criteria to be considered a troubled debt restructuring. For public entities, these amendments are effective for the first interim or annual period beginning on or after June 15, 2011, and should be applied retrospectively to the beginning of the annual period of adoption. For purposes of measuring impairment of those receivables, an entity should apply the amendments prospectively for the first interim or annual period beginning on or after June 15, 2011. The adoption of these amendments will not have a material impact on the Company's condensed consolidated financial statements.

In May 2011, the FASB issued ASU No. 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs ("ASU No. 2011-04"). The objective of this accounting update is to align the principles for fair value measurements and the related disclosure requirements under GAAP and International Financial Reporting Standards ("IFRSs"), thus improving the comparability of fair value measurements presented and disclosed in financial statements. This amendment is effective for interim and annual periods beginning after December 15, 2011 and should be applied prospectively. The adoption of ASU No. 2011-04 will not have a material impact on the Company's condensed consolidated financial statements.

In June 2011, the FASB issued ASU No. 2011-05, Presentation of Comprehensive Income ("ASU No. 2011-05"). The objective of this accounting update is to improve the comparability, consistency, and transparency of financial reporting and to increase the prominence of items reported in other comprehensive income. The FASB decided to eliminate the option to present components of other comprehensive income as part of the statement of changes in stockholders' equity and require that all non-owner changes in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. This new accounting guidance is effective for interim and annual periods beginning after December 15, 2011 and is required to be applied retrospectively. The Company currently presents components of its other comprehensive income as part of the statement of changes in stockholders' equity and, as such, is evaluating the preferred method between the two options

available. While the adoption of ASU No. 2011-05 will change the presentation format of the Company's condensed consolidated financial statements, it will not have an impact on the amounts reported in those statements.

Table of Contents

Note 3 – Fair Value Measurements

The Company has categorized its financial assets and financial liabilities that are recorded at fair value into a hierarchy based on whether the inputs to valuation techniques are observable or unobservable. The fair value hierarchy contains three levels of inputs that may be used to measure fair value as follows:

Level 1 – Inputs represent quoted prices in active markets for identical assets and liabilities as of the measurement date.

Level 2 – Inputs, other than those included in Level 1, represent observable measurements for similar instruments in active markets, or identical or similar instruments in markets that are not active, and observable measurements or market data for instruments with substantially the full term of the asset or liability.

Level 3 – Inputs represent unobservable measurements, supported by little, if any, market activity, and require considerable assumptions that are significant to the fair value of the asset or liability. Market valuations must often be determined using discounted cash flow methodologies, pricing models or similar techniques based on the Company's assumptions and best judgment.

The following tables set forth information regarding the Company's financial instruments that are measured at fair value in the condensed consolidated balance sheets as of June 30, 2011 and December 31, 2010:

		Fair Value Measurements at Reporting Date Using		
		Quoted Prices in	Significant Other	Significant
	Fair Value at	Active Markets for	Observable Inputs	Unobservable
	June 30, 2011	Identical Assets	(Level 2)	Inputs
		(Level 1)		(Level 3)
Assets:				
Available-for-sale securities	\$ 23,853	\$ 23,853	\$ -	\$ -
Privately held debt and equity securities	2,475	-	-	2,475
Interest rate cap	3	-	3	-
Liabilities:				
Interest rate swaps	\$ 2,099	\$ -	\$ 2,099	\$ -

		Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	Fair Value at December 31, 2010			
Assets:				
Available-for-sale securities	\$ 22,052	\$ 22,052	\$ -	\$ -
Privately held debt and equity securities	2,475	-	-	2,475
Interest rate cap	3	-	3	-

Intangible lease assets and other assets in the consolidated balance sheets include marketable securities consisting of corporate equity securities, mortgage/asset-backed securities, mutual funds and bonds that are classified as available

for sale. Net unrealized gains and losses on available-for-sale securities that are deemed to be temporary in nature are recorded as a component of accumulated other comprehensive income in redeemable noncontrolling interests, shareholders' equity and noncontrolling interests. If a decline in the value of an investment is deemed to be other than temporary, the investment is written down to fair value and an impairment loss is recognized in the current period to the extent of the decline in value. During the three and six month periods ended June 30, 2011 and 2010, the Company did not record any write-downs related to other-than-temporary impairments. During the six months ended June 30, 2011, the Company recognized realized losses \$22 related to sales of marketable securities. The fair value of the Company's available-for-sale securities is based on quoted market prices and, thus, is classified under Level 1. The following is a summary of the equity securities held by the Company as of June 30, 2011 and December 31, 2010:

Table of Contents

	Adjusted Cost	Gross Unrealized		Fair Value
		Gains	Losses	
June 30, 2011:				
Common stocks	\$ 4,207	\$ 9,987	\$ (2)	\$ 14,192
Mutual funds	5,359	149	-	5,508
Mortgage/asset-backed securities	1,884	11	-	1,895
Government and government sponsored entities	1,489	10	-	1,499
Corporate bonds	703	22	-	725
International bonds	34	-	-	34
	\$ 13,676	\$ 10,179	\$ (2)	\$ 23,853

	Adjusted Cost	Gross Unrealized		Fair Value
		Gains	Losses	
December 31, 2010:				
Common stocks	\$4,207	\$8,347	\$(4)	\$12,550
Mutual funds	5,318	37	(39)	5,316
Mortgage/asset-backed securities	1,571	-	(6)	1,565
Government and government sponsored entities	1,864	8	(11)	1,861
Corporate bonds	710	18	-	728
International bonds	32	-	-	32
	\$13,702	\$8,410	\$(60)	\$22,052

The Company holds a secured convertible promissory note from Jinsheng Group (“Jinsheng”), in which the Company also holds a cost-method investment. The secured convertible note is non-interest bearing and is secured by shares of Jinsheng. Since the secured convertible note is non-interest bearing and there is no active market for Jinsheng’s debt, the Company performed an analysis on the note considering credit risk and discounting factors to determine the fair value. Due to the significant estimates and assumptions used in the valuation of the note, the Company has classified it under Level 3. The Company performed quantitative and qualitative analyses of its investment as of June 30, 2011 and determined that the current balance of the secured convertible note of \$2,475 is not impaired. See Note 5 for further discussion.

The Company uses interest rate hedges to mitigate the effect of interest rate movements on its variable-rate debt. The Company had four interest rate swaps and two interest rate caps as of June 30, 2011 and one interest rate cap as of December 31, 2010 that qualify as hedging instruments and are designated as cash flow hedges. The interest rate caps are included in intangible lease assets and other assets and the interest rate swaps are reflected in accounts payable and accrued liabilities in the accompanying condensed consolidated balance sheets. The swaps and caps have predominantly met the effectiveness test criteria since inception and changes in their fair values are, thus, primarily reported in other comprehensive income and are reclassified into earnings in the same period or periods during which the hedged items affect earnings. The fair values of the Company’s interest rate hedges, classified under Level 2, are determined using a proprietary model which is based on prevailing market data for contracts with matching durations, current and anticipated London Interbank Offered Rate (“LIBOR”) information, consideration of the Company’s credit standing, credit risk of the counterparties and reasonable estimates about relevant future market conditions. See Note 6 for further information regarding the Company’s interest rate hedging activity.

The carrying values of cash and cash equivalents, receivables, accounts payable and accrued liabilities are reasonable estimates of their fair values because of the short-term nature of these financial instruments. Based on the interest rates for similar financial instruments, the carrying value of mortgage notes receivable is a reasonable estimate of fair value. The estimated fair value of mortgage and other indebtedness was \$5,619,338 and \$5,709,860 at June 30, 2011 and December 31, 2010, respectively. The estimated fair value was calculated by discounting future cash flows for the notes payable using estimated market rates at which similar loans would be made currently.

Table of Contents

The following table sets forth information regarding the Company's assets that are measured at fair value on a nonrecurring basis:

		Fair Value Measurements at Reporting Date Using			
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Losses
Asset:					
Long-lived asset	\$ 14,873	\$ -	\$ -	\$ 14,873	\$ 4,457

The Company recorded a non-cash loss on impairment of real estate of \$4,457 during the second quarter of 2011 related to the second phase of Settlers Ridge in Robinson Township, PA, which is currently under construction. The development property is expected to be sold upon completion and stabilization and the loss was recorded to write down the book value of the property to its estimated fair value. The fair value was estimated using the expected sales price and the projected book value of the completed property.

Note 4 – Discontinued Operations

In February 2011, the Company completed the sale of Oak Hollow Mall in High Point, NC, for a gross sales price of \$9,000. Net proceeds from the sale were used to retire the outstanding principal balance and accrued interest of \$40,281 on the non-recourse loan secured by the property in accordance with the lender's agreement to modify the outstanding principal balance and accrued interest to equal the net sales price for the property. The Company recorded a gain on the extinguishment of debt of \$31,434 in the first quarter of 2011. The Company also recorded a loss on impairment of real estate in the first quarter of 2011 of \$2,746 to write down the book value of the property to the net sales price. The results of operations of this property, the gain on extinguishment of debt and the loss on impairment of real estate are reflected in discontinued operations for the six months ended June 30, 2011. As of June 30, 2010, the Company recorded a loss on impairment of real estate of \$25,435 related to the property to write down its depreciated book value to its then estimated fair value. The property's results of operations and this impairment loss are reflected in discontinued operations for the three and six months ended June 30, 2010.

In October 2010, the Company completed the sale of Pemberton Square, located in Vicksburg, MS, for a sales price of \$1,863 less commissions and customary closing costs for a net sales price of \$1,782. The Company recorded a gain of \$379 attributable to the sale in the fourth quarter of 2010. Proceeds from the sale were used to reduce the outstanding borrowings on the Company's \$525,000 secured credit facility. The results of operations of this property are included in discontinued operations for the three and six month periods ended June 30, 2010.

In December 2010, the Company completed the sale of Milford Marketplace, located in Milford, CT, and the conveyance of its ownership interest in phase I of Settlers Ridge, located in Robinson Township, PA, for a sales price of \$111,835 less commissions and customary closing costs for a net sales price of \$110,709. The Company recorded a loss on impairment of assets of \$12,363 in the fourth quarter of 2010 to reflect the fair value of the properties at the time of the sale. Net proceeds from the sale, after repayment of a construction loan, were used to reduce the outstanding borrowings on the Company's \$525,000 secured credit facility. The results of operations of these properties are included in discontinued operations for the three and six month periods ended June 30, 2010.

In December 2010, the Company completed the sale of Lakeview Pointe, located in Stillwater, OK, for a sales price of \$21,000 less commissions and customary closing costs for a net sales price of \$20,631. The Company recorded a loss on impairment of real estate assets of \$1,302 in the fourth quarter of 2010 to reflect the fair value of the property at the

time of sale. Net proceeds from the sale, after repayment of a construction loan, were used to reduce the outstanding borrowings on the Company's \$525,000 secured credit facility. The results of operations of this property are included in discontinued operations for the three and six month periods ended June 30, 2010.

Table of Contents

Total revenues of the centers described above that are included in discontinued operations were \$242 and \$4,493 for the three months ended June 30, 2011 and 2010, respectively, and \$(513) and \$8,939 for the six months ended June 30, 2011 and 2010, respectively. Discontinued operations for the three and six month periods ended June 30, 2011 and 2010 also include true-ups of estimated expense to actual amounts for properties sold during previous years.

Note 5 – Unconsolidated Affiliates, Noncontrolling Interests and Cost Method Investments

Unconsolidated Affiliates

At June 30, 2011, the Company had investments in the following 16 entities, which are accounted for using the equity method of accounting:

Joint Venture	Property Name	Company's Interest
CBL-TRS Joint Venture, LLC	Friendly Center, The Shops at Friendly Center and a portfolio of six office buildings	50.0%
CBL-TRS Joint Venture II, LLC	Renaissance Center	50.0%
Governor's Square IB	Governor's Plaza	50.0%
Governor's Square Company	Governor's Square	47.5%
High Pointe Commons, LP	High Pointe Commons	50.0%
High Pointe Commons II-HAP, LP	High Pointe Commons - Christmas Tree Shop	50.0%
Imperial Valley Mall L.P.	Imperial Valley Mall	60.0%
Imperial Valley Peripheral L.P.	Imperial Valley Mall (vacant land)	60.0%
JG Gulf Coast Town Center LLC	Gulf Coast Town Center	50.0%
Kentucky Oaks Mall Company	Kentucky Oaks Mall	50.0%
Mall of South Carolina L.P.	Coastal Grand—Myrtle Beach	50.0%
Mall of South Carolina Outparcel L.P.	Coastal Grand—Myrtle Beach (Coastal Grand Crossing and vacant land)	50.0%
Port Orange I, LLC	The Pavilion at Port Orange Phase I	50.0%
Triangle Town Member LLC	Triangle Town Center, Triangle Town Commons and Triangle Town Place	50.0%
West Melbourne I, LLC	Hammock Landing Phases I and II	50.0%
York Town Center, LP	York Town Center	50.0%

Although the Company has majority ownership of certain of these joint ventures, it has evaluated these investments and concluded that the other partners or owners in these joint ventures have substantive participating rights, such as approvals of:

- the pro forma for the development and construction of the project and any material deviations or modifications thereto;
- the site plan and any material deviations or modifications thereto;
- the conceptual design of the project and the initial plans and specifications for the project and any material deviations or modifications thereto;
- any acquisition/construction loans or any permanent financings/refinancings;

- the annual operating budgets and any material deviations or modifications thereto;
- the initial leasing plan and leasing parameters and any material deviations or modifications thereto; and
- any material acquisitions or dispositions with respect to the project.

As a result of the joint control over these joint ventures, the Company accounts for these investments using the equity method of accounting.

Table of Contents

Condensed combined financial statement information of these unconsolidated affiliates is as follows:

	Total for the Three Months Ended June 30,		Company's Share for the Three Months Ended June 30,	
	2011	2010	2011	2010
Revenues	\$36,851	\$38,331	\$20,430	\$21,686
Depreciation and amortization expense	(12,662)	(14,286)	(7,097)	(8,403)
Interest expense	(13,080)	(13,858)	(7,201)	(8,449)
Other operating expenses	(10,539)	(11,295)	(5,923)	(4,647)
Gain on sales of real estate assets	1,665	1,412	1,246	170

Operating income of discontinued operations	-	170	-	86
Net income	\$4,470	\$261	\$3,233	\$948

Noncontrolling Interests

Noncontrolling interests include the aggregate noncontrolling partnership interest in the Operating Partnership that is not owned by the Company and for which each of the noncontrolling limited partners has the right to exchange all or a portion of its partnership interests for shares of the Company's common stock, or at the Company's election, their cash equivalent. Noncontrolling interests also includes the aggregate noncontrolling ownership interest in the Company's other consolidated subsidiaries that is held by third parties and for which the related partnership agreements either do not include redemption provisions or are subject to redemption provisions that do not require classification outside of permanent equity. As of June 30, 2011, the total noncontrolling interests of \$214,255 consisted of third-party interests in the Operating Partnership and in other consolidated subsidiaries of \$209,127 and \$5,128 respectively. The total noncontrolling interests at December 31, 2010 of \$223,605 consisted of third-party interests in the Operating Partnership and in other consolidated subsidiaries of \$217,519 and \$6,086, respectively.

Redeemable noncontrolling interests include a noncontrolling partnership interest in the Operating Partnership that is not owned by the Company and for which the partnership agreement includes redemption provisions that may require the Company to redeem the partnership interest for real property. Redeemable noncontrolling interests also includes the aggregate noncontrolling ownership interest in other consolidated subsidiaries that is held by third parties and for which the related partnership agreements contain redemption provisions at the holder's election that allow for redemption through cash and/or properties. The total redeemable noncontrolling partnership interests of \$35,306 as of June 30, 2011 consisted of third-party interests in the Operating Partnership and in the Company's consolidated subsidiary that provides security and maintenance services to third parties of \$29,051 and \$6,255, respectively. At

December 31, 2010, the total redeemable noncontrolling partnership interests of \$34,379 consisted of third-party interests in the Operating Partnership and in the Company's consolidated security and maintenance services subsidiary of \$28,070 and \$6,309, respectively.

The redeemable noncontrolling preferred joint venture interest includes the preferred joint venture units ("PJV units") issued to the Westfield Group ("Westfield") for the acquisition of certain properties during 2007. See Note 11 for additional information related to the PJV units. Activity related to the redeemable noncontrolling preferred joint venture interest represented by the PJV units is as follows:

Table of Contents

	Six Months Ended June 30,	
	2011	2010
Beginning Balance	\$ 423,834	\$ 421,570
Net income attributable to redeemable noncontrolling preferred joint venture interest	10,228	10,217
Distributions to redeemable noncontrolling preferred joint venture interest	(10,286)	(10,225)
Ending Balance	\$ 423,776	\$ 421,562

Cost Method Investments

The Company owns a 6.2% noncontrolling interest in subsidiaries of Jinsheng, an established mall operating and real estate development company located in Nanjing, China. As of June 30, 2011, Jinsheng owns controlling interests in four home decoration shopping centers, two general retail shopping centers and four development sites.

The Company also holds a secured convertible promissory note secured by 16,565,534 Series 2 Ordinary Shares of Jinsheng. The secured note is non-interest bearing and matures upon the earlier to occur of (i) January 22, 2012, (ii) the closing of the sale, transfer or other disposition of substantially all of Jinsheng's assets, (iii) the closing of a merger or consolidation of Jinsheng or (iv) an event of default, as defined in the secured note. In lieu of the Company's right to demand payment on the maturity date, the Company may, at its sole option, convert the outstanding amount of the secured note into 16,565,534 Series A-2 Preferred Shares of Jinsheng (which equates to a 2.275% ownership interest). See Note 3 for further discussion.

The Company accounts for its noncontrolling interest in Jinsheng using the cost method because the Company does not exercise significant influence over Jinsheng and there is no readily determinable market value of Jinsheng's shares since they are not publicly traded. The noncontrolling interest and the secured note are reflected as investment in unconsolidated affiliates in the accompanying condensed consolidated balance sheets. The Company performed quantitative and qualitative analyses of its noncontrolling investment as of June 30, 2011 and determined that the carrying value of its investment of \$4,819 is not impaired.

Note 6 – Mortgage and Other Indebtedness

Mortgage and other indebtedness consisted of the following:

	June 30, 2011		December 31, 2010	
	Amount	Weighted Average Interest Rate (1)	Amount	Weighted Average Interest Rate (1)
Fixed-rate debt:				
Non-recourse loans on operating properties (2)	\$ 4,036,062	5.65 %	\$ 3,664,293	5.85 %
Recourse term loans on operating properties	42,982	5.50 %	30,449	6.00 %
Total fixed-rate debt	4,079,044	5.65 %	3,694,742	5.85 %
Variable-rate debt:				

Non-recourse term loans on operating properties	113,875	3.61	%	114,625	3.61	%
Recourse term loans on operating properties	339,494	2.51	%	350,106	2.28	%
Construction loans	41,774	3.21	%	14,536	3.32	%
Secured lines of credit	182,696	3.34	%	598,244	3.38	%
Unsecured term loans	437,214	1.55	%	437,494	1.66	%
Total variable-rate debt	1,115,053	2.41	%	1,515,005	2.65	%
Total	\$ 5,194,097	4.95	%	\$ 5,209,747	4.92	%

- (1) Weighted-average interest rate includes the effect of debt premiums (discounts), but excludes amortization of deferred financing costs.
- (2) The Company has four interest rate swaps on notional amounts totaling \$119,556 as of June 30, 2011 related to its variable-rate loans on operating properties to effectively fix the interest rate on the respective loans. Therefore, these amounts are reflected in fixed-rate debt in 2011.

Table of Contents

Secured Lines of Credit

The Company has three secured lines of credit that are used for mortgage retirement, working capital, construction and acquisition purposes, as well as issuances of letters of credit. Each of these lines is secured by mortgages on certain of the Company's operating properties. During the second quarter of 2011, the Company's facilities with total capacity of \$520,000 and \$105,000 were modified to remove a 1.50% floor on LIBOR. Pursuant to the terms of the modifications, borrowings under these two secured lines of credit bear interest at LIBOR plus an applicable spread, ranging from 2.00% to 3.00%, based on the Company's leverage ratio. Without giving effect to actual LIBOR, the removal of the 1.50% floors and the reduction in the spreads resulted in a decrease in the interest rates on the \$520,000 and \$105,000 facilities of approximately 2.75% and 2.50%, respectively. The Company also executed an extension on the maturity date of the \$105,000 facility from June 2012 to June 2013. As of June 30, 2011, borrowings under the Company's facility with capacity of \$525,000 bore interest at LIBOR, subject to a floor of 1.50%, plus an applicable margin, ranging from 3.25% to 4.25%, based on the Company's leverage ratio. The three secured lines of credit had a weighted average interest rate of 3.35% at June 30, 2011. The Company also pays fees based on the amount of unused availability under its secured lines of credit at rates ranging from 0.15% to 0.35% of unused availability. The following summarizes certain information about the secured lines of credit as of June 30, 2011:

Total Capacity	Total Outstanding	Maturity Date	Extended Maturity Date
\$ 525,000	\$ 31,500(1)	February 2012	February 2013
520,000	150,196	August 2011	April 2014
105,000	1,000	June 2013	N/A
\$ 1,150,000	\$ 182,696		

- (1) There was an additional \$7,291 outstanding on this secured line of credit as of June 30, 2011 for letters of credit. Up to \$50,000 of the capacity on this line can be used for letters of credit. Subsequent to June 30, 2011, the facility's maturity date was extended to February 2014 with an additional one-year extension option, for an outside maturity date of February 2015.

Subsequent to June 30, 2011, the Company closed on the extension and modification of its secured credit facility with total capacity of \$525,000. The facility's maturity date was extended to February 2014 with an additional one-year extension option at the Company's election, for an outside maturity date of February 2015. Borrowings under this facility are no longer subject to a LIBOR floor of 1.50% and bear interest at LIBOR plus an applicable spread, ranging from 2.00% to 3.00%, based on the Company's leverage ratio. Without giving effect to actual LIBOR, the removal of the 1.50% floor and the reduction in the spread resulted in a decrease in the interest rate on the facility of approximately 2.75%.

Unsecured Term Facilities

The Company has an unsecured term loan that bears interest at LIBOR plus a margin ranging from 0.95% to 1.40%, based on the Company's leverage ratio. At June 30, 2011, the outstanding borrowings of \$209,214 under this loan had a weighted average interest rate of 1.29%. The loan was obtained for the exclusive purpose of acquiring certain properties from the Starmount Company or its affiliates. The Company completed its acquisition of the properties in February 2008 and, as a result, no further draws can be made against the loan. The loan matures in November 2011 and has a one-year extension option, which is at the Company's election, for an outside maturity date of November 2012. Net proceeds from a sale, or the Company's share of excess proceeds from any refinancings, of any of the properties originally purchased with borrowings from this unsecured term loan must be used to pay down any

remaining outstanding balance.

The Company has an unsecured term loan with total capacity of \$228,000 that bears interest at LIBOR plus a margin ranging from 1.50% to 1.80%, based on the Company's leverage ratio. At June 30, 2011, the outstanding borrowings of \$228,000 under the unsecured term loan had a weighted average interest rate of 1.79%. The loan matures in April 2012 and has a one-year extension option remaining, which is at the Company's election, for an outside maturity date of April 2013.

Table of Contents

Letters of Credit

At June 30, 2011, the Company had additional secured and unsecured lines of credit with a total commitment of \$16,021 that can only be used for issuing letters of credit. The letters of credit outstanding under these lines of credit totaled \$12,045 at June 30, 2011.

Covenants and Restrictions

The agreements to the \$525,000 and \$520,000 secured lines of credit contain, among other restrictions, certain financial covenants including the maintenance of certain financial coverage ratios, minimum net worth requirements, and limitations on cash flow distributions. The Company was in compliance with all covenants and restrictions at June 30, 2011.

The agreements to the \$525,000 and \$520,000 secured credit facilities and the two unsecured term facilities described above, each with the same lead lender, contain default and cross-default provisions customary for transactions of this nature (with applicable customary grace periods) in the event (i) there is a default in the payment of any indebtedness owed by the Company to any institution which is a part of the lender groups for the credit facilities, or (ii) there is any other type of default with respect to any indebtedness owed by the Company to any institution which is a part of the lender groups for the credit facilities and such lender accelerates the payment of the indebtedness owed to it as a result of such default. The credit facility agreements provide that, upon the occurrence and continuation of an event of default, payment of all amounts outstanding under these credit facilities and those facilities with which these agreements reference cross-default provisions may be accelerated and the lenders' commitments may be terminated. Additionally, any default in the payment of any recourse indebtedness greater than \$50,000 or any non-recourse indebtedness greater than \$100,000 of the Company, the Operating Partnership and significant subsidiaries, as defined, regardless of whether the lending institution is a part of the lender groups for the credit facilities, will constitute an event of default under the agreements to the credit facilities.

Several of the Company's malls/open-air centers, associated centers and community centers, in addition to the corporate office building are owned by special purpose entities that are included in the Company's consolidated financial statements. The sole business purpose of the special purpose entities is to own and operate these properties. The real estate and other assets owned by these special purpose entities are restricted under the loan agreements in that they are not available to settle other debts of the Company. However, so long as the loans are not under an event of default, as defined in the loan agreements, the cash flows from these properties, after payments of debt service, operating expenses and reserves, are available for distribution to the Company.

Mortgages on Operating Properties

During the second quarter of 2011, the Company closed on two separate ten-year, non-recourse mortgage loans totaling \$277,000, including a \$185,000 loan secured by Fayette Mall in Lexington, KY and a \$92,000 loan secured by Mid Rivers Mall in St. Charles, MO. The loans bear interest at fixed rates of 5.42% and 5.88%, respectively. Proceeds were used to repay existing loans with principal balances of \$84,733 and \$74,748, respectively, and to pay down the Company's \$525,000 secured credit facility. In addition, the Company retired a loan with a principal balance of \$36,317 that was secured by Panama City Mall in Panama City, FL with borrowings from its \$525,000 facility.

During the first quarter of 2011, the Company closed on five separate non-recourse mortgage loans totaling \$268,905. These loans have ten-year terms and include a \$95,000 loan secured by Parkdale Mall and Parkdale Crossing in Beaumont, TX; a \$99,400 loan secured by Park Plaza in Little Rock, AR; a \$44,100 loan secured by EastGate Mall in Cincinnati, OH; a \$19,800 loan secured by Wausau Center in Wausau, WI; and a \$10,605 loan secured by Hamilton Crossing in Chattanooga, TN. The loans bear interest at a weighted average fixed rate of 5.64%

and are not cross-collateralized.

Table of Contents

Also during the first quarter of 2011, the Company closed on four separate loans totaling \$120,165. These loans have five-year terms and include a \$36,365 loan secured by Stroud Mall in Stroud, PA; a \$58,100 loan secured by York Galleria in York, PA; a \$12,100 loan secured by Gunbarrel Pointe in Chattanooga, TN; and a \$13,600 loan secured by CoolSprings Crossing in Nashville, TN. These four loans have partial-recourse features totaling \$15,475, which will be reduced by \$5,650 upon the opening of a certain tenant in late 2011 and will further decrease as the aggregate principal amount outstanding on the loans is amortized. The loans bear interest at LIBOR plus a margin of 2.40% and are not cross-collateralized. The Company has interest rate swaps in place for the full term of each five-year loan to effectively fix the interest rates. As a result, these loans bear interest at a weighted average fixed rate of 4.57%. See Interest Rate Hedge Instruments below for additional information.

Proceeds from the nine loans that closed during the first quarter of 2011 were used predominantly to pay down the outstanding balance of the Company's \$520,000 secured credit facility. Eight of the new loans were secured with properties previously used as collateral to secure the \$520,000 credit facility.

Subsequent to June 30, 2011, the Company closed on a ten-year, non-recourse mortgage loan of \$50,800 secured by Alamance Crossing in Burlington, NC that bears interest at a fixed rate of 5.83%. Proceeds were used to repay an existing loan with a principal balance at June 30, 2011 of \$51,847. In addition, the Company retired a loan secured by Asheville Mall in Asheville, NC with a principal balance at June 30, 2011 of \$61,461 with borrowings from its \$525,000 secured credit facility. The Company intends to refinance this loan at a lower interest rate compared to the loan that was retired.

Scheduled Principal Payments

As of June 30, 2011, the scheduled principal payments of the Company's consolidated debt, excluding extensions available at the Company's option, on all mortgage and other indebtedness, including construction loans and lines of credit, are as follows:

2011	\$705,701
2012	870,929
2013	470,489
2014	148,920
2015	791,387
Thereafter	2,205,705
	5,193,131
Net unamortized premiums	966
	\$5,194,097

The scheduled principal payments in 2011 of \$705,701 include the maturing principal balances of five operating property loans totaling \$346,292, the outstanding balance of \$150,196 on the Company's \$520,000 secured line of credit and an unsecured term facility with an outstanding balance of \$209,214. Maturing debt with principal balances of \$580,794 outstanding as of June 30, 2011 have extension options available at the Company's option, leaving approximately \$124,907 of loan maturities in 2011 that must be retired or refinanced. Subsequent to June 30, 2011, the Company refinanced an operating property loan with a principal balance as of June 30, 2011 of \$51,847 and retired an operating property loan with a principal balance as of June 30, 2011 of \$61,461 with borrowings from its \$525,000 secured credit facility. The remaining loan maturity in 2011 of \$11,599 represents an operating property loan that the Company intends to extend with the existing lender under new terms. The Company currently has a term sheet executed on this loan.

The Company's mortgage and other indebtedness had a weighted average maturity of 4.1 years as of June 30, 2011 and 3.5 years as of December 31, 2010.

Interest Rate Hedge Instruments

The Company records its derivative instruments in its consolidated balance sheets at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative, whether the derivative has been designated as a hedge and, if so, whether the hedge has met the criteria necessary to apply hedge accounting.

Table of Contents

The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish these objectives, the Company primarily uses interest rate swaps and caps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. Interest rate caps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty if interest rates rise above the strike rate on the contract in exchange for an up-front premium.

The effective portion of changes in the fair value of derivatives designated as, and that qualify as, cash flow hedges is recorded in accumulated other comprehensive income (loss) ("AOCI/L") and is subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. Such derivatives were used to hedge the variable cash flows associated with variable-rate debt.

During the first quarter of 2011, the Company entered into four pay fixed/receive variable interest rate swaps with an initial aggregate notional amount of \$120,165, amortizing to \$100,009, to hedge the interest rate risk exposure on the borrowings on four of its operating properties equal to the aggregate swap notional amount. These interest rate swaps hedge the risk of changes in cash flows on the Company's designated forecasted interest payments attributable to changes in 1-month LIBOR, the designated benchmark interest rate being hedged, thereby reducing exposure to variability in cash flows relating to interest payments on the variable-rate debt. The interest rate swaps effectively fix the interest payments on the portion of debt principal corresponding to the swap notional amount at a weighted average rate of 4.57%.

Also during the first quarter of 2011, the Company entered into an interest rate cap agreement with an initial notional amount of \$64,265, amortizing to \$63,555, to hedge the risk of changes in cash flows on the letter of credit supporting certain bonds related to one of its operating properties equal to the then-outstanding cap notional. The interest rate cap protects the Company from increases in the hedged cash flows attributable to overall changes in the USD-SIFMA Municipal Swap Index above the strike rate of the cap on the debt. The strike rate associated with the interest rate cap is 1.00%.

As of June 30, 2011, the Company had the following outstanding interest rate derivatives that were designated as cash flow hedges of interest rate risk:

		Interest Rate Derivative	Number of Instruments	Notional Amount Outstanding	
		Interest Rate Caps	2	\$	133,680
		Interest Rate Swaps	4	\$	119,556

Instrument Type	Location in Consolidated Balance Sheet	Outstanding Notional Amount	Designated Benchmark Interest Rate	Strike Rate	Fair Value at 6/30/11	Fair Value at 12/31/10	Maturity Date
Pay fixed/ Receive variable Swap	Accounts payable and accrued liabilities	\$57,805 (amortizing to \$48,337)	1-month LIBOR	2.149 %	\$ (968)	\$ -	Apr-2016
Pay fixed/ Receive	Accounts payable and	\$36,181 (amortizing to \$30,276)	1-month LIBOR	2.187 %	(663)	-	Apr-2016

As of June 30, 2011, the Company expects to reclassify approximately \$2,382 of losses currently reported in accumulated other comprehensive income to interest expense within the next twelve months due to amortization of its outstanding interest rate contracts. Fluctuations in fair values of these derivatives between June 30, 2011 and the respective dates of termination will vary the projected reclassification amount.

Note 7 – Comprehensive Income

Comprehensive income includes all changes in redeemable noncontrolling interests and total equity during the period, except those resulting from investments by shareholders and partners, distributions to shareholders and partners and redemption valuation adjustments. Other comprehensive income (“OCI”) includes changes in unrealized gains (losses) on available-for-sale securities, interest rate hedge agreements and foreign currency translation adjustments. The computation of comprehensive income for the three and six months ended June 30, 2011 and 2010 is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Net income	\$29,532	\$4,517	\$93,440	\$31,720
Other comprehensive income (loss):				
Net unrealized gain (loss) on hedging agreements	(2,634)	906	(2,072)	1,515
Net unrealized gain on available-for-sale securities	474	1,357	1,807	4,896
Realized loss on sale of marketable securities	-	-	22	-
Realized loss on foreign currency translation adjustment	-	-	-	169
Net unrealized loss on foreign currency translation adjustment	-	-	-	(156)
Total other comprehensive income (loss)	(2,160)	2,263	(243)	6,424

Comprehensive income	\$27,372	\$6,780	\$93,197	\$38,144
----------------------	----------	---------	----------	----------

Table of Contents

The components of accumulated other comprehensive income (loss) as of June 30, 2011 and December 31, 2010 are as follows:

	June 30, 2011			
	As reported in:			
	Redeemable Noncontrolling Interests	Shareholders' Equity	Noncontrolling Interests	Total
Net unrealized gain (loss) on hedging agreements	\$405	\$61	\$(2,756)	\$(2,290)
Net unrealized gain on available-for-sale securities	346	7,604	2,227	10,177
Accumulated other comprehensive income (loss)	\$751	\$7,665	\$(529)	\$7,887

	December 31, 2010			
	As reported in:			
	Redeemable Noncontrolling Interests	Shareholders' Equity	Noncontrolling Interests	Total
Net unrealized gain (loss) on hedging agreements	\$ 422	\$ 1,675	\$ (2,315)	\$ (218)
Net unrealized gain on available-for-sale securities	331	6,180	1,837	8,348
Accumulated other comprehensive income (loss)	\$ 753	\$ 7,855	\$ (478)	\$ 8,130

Note 8 – Mortgage and Other Notes Receivable

Each of the Company's mortgage notes receivable is collateralized by either a first mortgage, a wrap-around mortgage on the underlying real estate and related improvements or by an assignment of 100% of the partnership interests that own the real estate assets. Other notes receivable include amounts due from tenants or government sponsored districts and unsecured notes received from third parties as whole or partial consideration for property or investments. Interest rates on mortgage and other notes receivable ranged from 3.7% to 12.0%, with a weighted average interest rate of 6.92% and 6.87% at June 30, 2011 and December 31, 2010, respectively. Maturities of these notes receivable range from July 2011 to January 2047.

The Company reviews its mortgage and other notes receivable to determine if the balances are realizable based on factors affecting the collectibility of those balances. Factors may include credit quality, timeliness of required periodic payments, past due status and management discussions with obligors. During the first quarter of 2011, the Company was notified that a receivable due in March 2011 of \$3,735 would not be repaid. The receivable is secured by land and, as such, the Company recorded an allowance for credit losses of \$1,500 in other expense and wrote down the amount of the note receivable to the estimated fair value of the land. The Company did not accrue any interest on the receivable for the three months ended March 31, 2011 and has written off any interest that was accrued and outstanding on the loan. The Company is in process of obtaining the land securing the other mortgage note receivable. A rollforward of the allowance for credit losses for the six months ended June 30, 2011 is as follows:

\$-

Beginning Balance, January 1, 2011	
Additions in allowance charged to expense	1,500
Reduction for charges against allowance	(1,500)
Ending Balance, June 30, 2011	\$-

As of June 30, 2011, the Company believes that its mortgage and other notes receivable balance of \$26,388 is fully collectible.

Note 9 – Segment Information

The Company measures performance and allocates resources according to property type, which is determined based on certain criteria such as type of tenants, capital requirements, economic risks, leasing terms, and short and long-term returns on capital. Rental income and tenant reimbursements from tenant leases provide the majority of revenues from all segments. Information on the Company's reportable segments is presented as follows:

(1) Property operating expenses include property operating, real estate taxes and maintenance and repairs.

(2) The All Other category includes mortgage notes receivable, Office Buildings, the Management Company and the Company's subsidiary that provides security and maintenance services.

(3) Amounts include acquisitions of real estate assets and investments in unconsolidated affiliates. Developments in progress are included in the All Other category.

Note 10 – Earnings Per Share

Basic earnings per share ("EPS") is computed by dividing net income (loss) attributable to common shareholders by the weighted-average number of common shares outstanding for the period. Diluted EPS assumes the issuance of common stock for all potential dilutive common shares outstanding. The limited partners' rights to convert their noncontrolling interests in the Operating Partnership into shares of common stock are not dilutive.

The following summarizes the impact of potential dilutive common shares on the denominator used to compute EPS:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Denominator – basic	148,356	138,068	148,214	138,018
Stock options	1	-	7	-
Deemed shares related to deferred compensation arrangements	41	44	41	41
Denominator – diluted	148,398	138,112	148,262	138,059

Note 11 – Contingencies

On March 11, 2010, The Promenade D'Iberville, LLC ("TPD"), a subsidiary of the Company, filed a lawsuit in the Circuit Court of Harrison County, Mississippi, against M. Hanna Construction Co., Inc. ("M Hanna"), Gallet & Associates, Inc., LA Ash, Inc., EMJ Corporation ("EMJ") and JEA (f/k/a Jacksonville Electric Authority), seeking damages for alleged property damage and related damages occurring at a shopping center development in D'Iberville,

Mississippi. EMJ filed an answer and counterclaim denying liability and seeking to recover from TPD the retainage of approximately \$327 allegedly owed under the construction contract. Kohl's Department Stores, Inc. ("Kohl's") was granted permission to intervene in the lawsuit and, on April 13, 2011, filed a cross-claim against TPD alleging that TPD is liable to Kohl's for unspecified damages resulting from the actions of the defendants and for the failure to perform the obligations of TPD under a Site Development Agreement with Kohl's. Kohl's also made a claim against the Company which guaranteed the performance of TPD under the Site Development Agreement. The case is at the discovery stage.

Table of Contents

TPD also has filed claims under several insurance policies in connection with this matter, and there are two pending lawsuits relating to insurance coverage. On November 4, 2010, First Mercury Insurance Company (“First Mercury”) filed an action in the United States District Court for the Eastern District of Texas against M Hanna and TPD seeking a declaratory judgment concerning coverage under a liability insurance policy issued by First Mercury to M Hanna. On June 13, 2011, TPD filed an action in the Chancery Court of Hamilton County, Tennessee against National Union Fire Insurance Company of Pittsburgh, PA (“National Union”) and EMJ seeking a declaratory judgment regarding coverage under a liability insurance policy issued by National Union to EMJ and recovery of damages arising out of National Union’s breach of its obligations.

Certain of our executive officers and members of the immediate family of Charles B. Lebovitz, Chairman of the Board of our company, collectively have a significant non-controlling interest in EMJ, a major national construction company that we engaged to build a substantial number of our properties.

The Company is currently involved in certain litigation that arises in the ordinary course of business. It is management’s opinion that the pending litigation will not materially affect the financial position or results of operations of the Company.

The Company consolidates its investment in a joint venture, CW Joint Venture, LLC (“CWJV”), with Westfield. The terms of the joint venture agreement require that CWJV pay an annual preferred distribution at a rate of 5.0%, which increases to 6.0% on July 1, 2013, on the preferred liquidation value of the PJV units of CWJV that are held by Westfield. Westfield has the right to have all or a portion of the PJV units redeemed by CWJV with property owned by CWJV, and subsequent to October 16, 2012, with either cash or property owned by CWJV, in each case for a net equity amount equal to the preferred liquidation value of the PJV units. At any time after January 1, 2013, Westfield may propose that CWJV acquire certain qualifying property that would be used to redeem the PJV units at their preferred liquidation value. If CWJV does not redeem the PJV units with such qualifying property (a “Preventing Event”), then the annual preferred distribution rate on the PJV units increases to 9.0% beginning July 1, 2013. The Company will have the right, but not the obligation, to offer to redeem the PJV units after January 31, 2013 at their preferred liquidation value, plus accrued and unpaid distributions. If the Company fails to make such an offer, the annual preferred distribution rate on the PJV units increases to 9.0% for the period from July 1, 2013 through June 30, 2016, at which time it decreases to 6.0% if a Preventing Event has not occurred. If, upon redemption of the PJV units, the fair value of the Company’s common stock is greater than \$32.00 per share, then such excess (but in no case greater than \$26,000 in the aggregate) shall be added to the aggregate preferred liquidation value payable on account of the PJV units. The Company accounts for this contingency using the method prescribed for earnings or other performance measure contingencies. As such, should this contingency result in additional consideration to Westfield, the Company will record the current fair value of the consideration issued as a purchase price adjustment at the time the consideration is paid or payable.

Guarantees

The Company may guarantee the debt of a joint venture primarily because it allows the joint venture to obtain funding at a lower cost than could be obtained otherwise. This results in a higher return for the joint venture on its investment, and a higher return on the Company’s investment in the joint venture. The Company may receive a fee from the joint venture for providing the guaranty. Additionally, when the Company issues a guaranty, the terms of the joint venture agreement typically provide that the Company may receive indemnification from the joint venture partner or have the ability to increase our ownership interest.

The Company owns a parcel of land in Lee’s Summit, MO that it is ground leasing to a third party development company. The third party developed and operates a shopping center on the land parcel. The Company has guaranteed 27% of the third party’s construction loan and bond line of credit (the “loans”) of which the initial maximum guaranteed

amount was \$24,379. During the second quarter of 2011, the loans were partially paid down and amended such that the Company's maximum guaranteed amount, representing 27% of capacity, is now approximately \$19,170. The total amount outstanding at June 30, 2011 on the loans was \$61,793 of which the Company has guaranteed \$16,684. The Company reported an obligation of \$192 and \$315 as of June 30, 2011 and December 31, 2010, respectively, in the accompanying condensed consolidated balance sheets to reflect the estimated fair value of the guaranty.

The loans contain a provision that requires that, on or prior to June 1, 2011, the third party developer was to provide to the lender evidence reasonably satisfactory to the lender that either (i) certain legislation in the state of Missouri had been amended to facilitate an additional bond issuance, the net proceeds of which would be used to further reduce the outstanding amount on the bond line of credit, or (ii) if that certain legislation had not been amended, then the third party developer, the Company and the City of Lee's Summit, Missouri, had agreed to an alternate plan in order to complete the additional bond issuance. Neither of these conditions had occurred as of the date of issuance of these financial statements and, as a result, the loans are in default. The Company has not recorded an accrual for the contingent guaranty obligation as the Company does not believe that this contingent obligation is probable.

Table of Contents

The Company has guaranteed 100% of the construction and land loans of West Melbourne I, LLC (“West Melbourne”), an unconsolidated affiliate in which the Company owns a 50% interest, of which the maximum guaranteed amount is \$50,678. West Melbourne developed and operates Hammock Landing, a community center in West Melbourne, FL. The total amount outstanding on the loans at June 30, 2011 was \$45,360. The guaranty will expire upon repayment of the debt. The land loan, representing \$3,276 of the amount outstanding at June 30, 2011, matures in August 2011. West Melbourne will retire this loan at maturity. The construction loan, representing \$42,084 of the amount outstanding at June 30, 2011, matures in August 2011 and has two one-year extension options available. The Company recorded an obligation of \$670 in the accompanying condensed consolidated balance sheets as of June 30, 2011 and December 31, 2010 to reflect the estimated fair value of this guaranty.

The Company has guaranteed 100% of the construction loan of Port Orange I, LLC (“Port Orange”), an unconsolidated affiliate in which the Company owns a 50% interest, of which the maximum guaranteed amount is \$97,183. Port Orange developed and operates The Pavilion at Port Orange, a community center in Port Orange, FL. The total amount outstanding at June 30, 2011 on the loan was \$68,282. The guaranty will expire upon repayment of the debt. The loan matures in December 2011 and has two one-year extension options available. The Company has recorded an obligation of \$1,120 in the accompanying condensed consolidated balance sheets as of June 30, 2011 and December 31, 2010 to reflect the estimated fair value of this guaranty.

The Company has guaranteed the lease performance of York Town Center, LP (“YTC”), an unconsolidated affiliate in which we own a 50% interest, under the terms of an agreement with a third party that owns property as part of York Town Center. Under the terms of that agreement, YTC is obligated to cause performance of the third party’s obligations as landlord under its lease with its sole tenant, including, but not limited to, provisions such as co-tenancy and exclusivity requirements. Should YTC fail to cause performance, then the tenant under the third party landlord’s lease may pursue certain remedies ranging from rights to terminate its lease to receiving reductions in rent. The Company has guaranteed YTC’s performance under this agreement up to a maximum of \$22,000, which decreases by \$800 annually until the guaranteed amount is reduced to \$10,000. The guaranty expires on December 31, 2020. The maximum guaranteed obligation was \$18,000 as of June 30, 2011. The Company entered into an agreement with its joint venture partner under which the joint venture partner has agreed to reimburse the Company 50% of any amounts it is obligated to fund under the guaranty. The Company did not record an obligation for this guaranty because it determined that the fair value of the guaranty is not material.

At March 31, 2011, the Company guaranteed 100% of a construction loan of JG Gulf Coast Town Center, LLC, an unconsolidated affiliate in which the Company owns a 50% interest, of which the maximum guaranteed amount was \$11,561. The Company did not record an obligation for this guaranty because it determined that the fair value of the guaranty is not material. During the second quarter of 2011, the Company retired the construction loan with borrowings from its \$105,000 secured credit facility. The guaranty expired upon repayment of the debt.

Performance Bonds

The Company has issued various bonds that it would have to satisfy in the event of non-performance. At June 30, 2011 and December 31, 2010, the total amount outstanding on these bonds was \$31,001 and \$26,250, respectively.

Note 12 – Share-Based Compensation

Share-based compensation expense was \$396 and \$632 for the three months ended June 30, 2011 and 2010, respectively, and \$1,456 and \$1,561 for the six months ended June 30, 2011 and 2010, respectively. Share-based compensation cost capitalized as part of real estate assets was \$45 and \$48 for the three months ended June 30, 2011 and 2010, respectively, and \$85 and \$94 for the six months ended June 30, 2011 and 2010, respectively.

Table of Contents

The Company's stock option activity for the six months ended June 30, 2011 is summarized as follows:

	Shares	Weighted Average Exercise Price
Outstanding at January 1, 2011	447,825	\$ 16.92
Cancelled	(4,400)	\$ 18.04
Exercised	(134,500)	\$ 13.91
Outstanding at June 30, 2011	308,925	\$ 18.26
Vested and exercisable at June 30, 2011	308,925	\$ 18.26

A summary of the status of the Company's stock awards as of June 30, 2011, and changes during the six months ended June 30, 2011, is presented below:

	Shares	Weighted Average Grant-Date Fair Value
Nonvested at January 1, 2011	187,140	\$ 18.43
Granted	179,750	\$ 17.48
Vested	(71,880)	\$ 25.59
Forfeited	(2,360)	\$ 17.56
Nonvested at June 30, 2011	292,650	\$ 16.09

As of June 30, 2011, there was \$3,448 of total unrecognized compensation cost related to nonvested stock awards granted under the plan, which is expected to be recognized over a weighted average period of 3.4 years. In May 2011, the Company granted a restricted stock award for 1,000 shares of common stock to a new non-employee director. The shares may not be transferred during the non-employee director's term.

Note 13 – Noncash Investing and Financing Activities

The Company's noncash investing and financing activities were as follows for the six months ended June 30, 2011 and 2010:

	Six Months Ended June 30,	
	2011	2010
Accrued dividends and distributions payable	\$ 41,717	\$ 43,116

Additions to real estate assets		
accrued but not yet paid	31,721	13,624
Notes receivable from sale of		
interest in unconsolidated		
affiliate	-	1,001

Note 14 – Income Taxes

The Company is qualified as a REIT under the provisions of the Code. To maintain qualification as a REIT, the Company is required to distribute at least 90% of its taxable income to shareholders and meet certain other requirements.

As a REIT, the Company is generally not liable for federal corporate income taxes. If the Company fails to qualify as a REIT in any taxable year, the Company will be subject to federal and state income taxes on its taxable income at regular corporate tax rates. Even if the Company maintains its qualification as a REIT, the Company may be subject to certain state and local taxes on its income and property, and to federal income and excise taxes on its undistributed income. State tax expense was \$1,242 and \$1,324 during the three months ended June 30, 2011 and 2010, respectively, and \$2,046 and \$2,264 during the six months ended June 30, 2011 and 2010, respectively.

Table of Contents

The Company has also elected taxable REIT subsidiary status for some of its subsidiaries. This enables the Company to receive income and provide services that would otherwise be impermissible for REITs. For these entities, deferred tax assets and liabilities are established for temporary differences between the financial reporting basis and the tax basis of assets and liabilities at the enacted tax rates expected to be in effect when the temporary differences reverse. A valuation allowance for deferred tax assets is provided if the Company believes all or some portion of the deferred tax asset may not be realized. An increase or decrease in the valuation allowance resulting from changes in circumstances that may affect the realizability of the related deferred tax asset is included in income or expense, as applicable.

The Company recorded an income tax benefit of \$4,653 and \$1,911 for the three months ended June 30, 2011 and 2010, respectively. The income tax benefit in 2011 consisted of a current tax provision of \$14 and deferred tax provision of \$4,667. The income tax benefit in 2010 consisted of a current tax benefit of \$4,980 and a deferred tax provision of \$3,069.

The Company recorded an income tax benefit of \$6,423 and \$3,788 for the six months ended June 30, 2011 and 2010, respectively. The income tax benefit in 2011 consisted of a current and deferred income tax benefit of \$1,498 and \$4,925, respectively. The income tax benefit in 2010 consisted of a current tax benefit of \$6,370 and a deferred tax provision of \$2,582.

The Company had a deferred tax asset of \$10,557 and \$7,074 at June 30, 2011 and December 31, 2010, respectively. The Company also had a deferred tax liability of \$2,941 at December 31, 2010. The deferred tax asset is included in other assets, while the deferred tax liability is included in accounts payable and accrued liabilities. The deferred taxes primarily consisted of operating expense accruals, net operating loss carryforwards, share-based compensation and differences between book and tax depreciation. There was no deferred tax liability at June 30, 2011.

The Company reports any income tax penalties attributable to its properties as property operating expenses and any corporate-related income tax penalties as general and administrative expenses in its statement of operations. In addition, any interest incurred on tax assessments is reported as interest expense. The Company reported nominal interest and penalty amounts for the three and six month periods ended June 30, 2011 and 2010, respectively.

Note 15 – Subsequent Events

The Company has evaluated subsequent events through the date of issuance of these financial statements. See Note 6 for additional information.

ITEM 2: Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of financial condition and results of operations should be read in conjunction with the condensed consolidated financial statements and accompanying notes that are included in this Form 10-Q. Capitalized terms used, but not defined, in this Management’s Discussion and Analysis of Financial Condition and Results of Operations have the same meanings as defined in the notes to the condensed consolidated financial statements. In this discussion, the terms “we”, “us”, “our” and the “Company” refer to CBL & Associates Properties, Inc. and its subsidiaries.

Certain statements made in this section or elsewhere in this report may be deemed “forward-looking statements” within the meaning of the federal securities laws. In many cases, these forward-looking statements may be identified by the use of words such as “will,” “may,” “should,” “could,” “believes,” “expects,” “anticipates,” “estimates,” “intends,” “projects,” “objectives,” “targets,” “predicts,” “plans,” “seeks,” or similar expressions. Any forward-looking statement speaks only as of the date on which it is made and is qualified in its entirety by reference to the factors discussed throughout this report.

Although we believe the expectations reflected in any forward-looking statements are based on reasonable assumptions, forward-looking statements are not guarantees of future performance or results and we can give no assurance that these expectations will be attained. It is possible that actual results may differ materially from those indicated by these forward-looking statements due to a variety of known and unknown risks and uncertainties. In addition to the risk factors described in Part II, Item 1A. of this report, such known risks and uncertainties include, without limitation:

Table of Contents

- general industry, economic and business conditions;
- interest rate fluctuations, costs and availability of capital and capital requirements;
 - costs and availability of real estate;
 - inability to consummate acquisition opportunities;
- competition from other companies and retail formats;
 - changes in retail rental rates in our markets;
 - shifts in customer demands;
 - tenant bankruptcies or store closings;
 - changes in vacancy rates at our properties;
 - changes in operating expenses;
- changes in applicable laws, rules and regulations; and
- the ability to obtain suitable equity and/or debt financing and the continued availability of financing in the amounts and on the terms necessary to support our future business.

This list of risks and uncertainties is only a summary and is not intended to be exhaustive. We disclaim any obligation to update or revise any forward-looking statements to reflect actual results or changes in the factors affecting the forward-looking information.

EXECUTIVE OVERVIEW

We are a self-managed, self-administered, fully integrated real estate investment trust (“REIT”) that is engaged in the ownership, development, acquisition, leasing, management and operation of regional shopping malls, open-air centers, community centers and office properties. Our shopping centers are located in 26 domestic states, but are primarily in the southeastern and midwestern United States. We have elected to be taxed as a REIT for federal income tax purposes.

As of June 30, 2011, we owned controlling interests in 75 regional malls/open-air centers (including one mixed-use center), 30 associated centers (each located adjacent to a regional mall), eight community centers and 14 office buildings, including our corporate office building. We consolidate the financial statements of all entities in which we have a controlling financial interest or where we are the primary beneficiary of a variable interest entity. As of June 30, 2011, we owned noncontrolling interests in seven regional malls, four associated centers, four community centers and six office buildings. Because one or more of the other partners have substantive participating rights, we do not control these partnerships and joint ventures and, accordingly, account for these investments using the equity method. We had controlling interests in one open-air center expansion, two community center expansions, and one outlet center, owned in a joint venture, under construction at June 30, 2011. We also hold options to acquire certain development properties owned by third parties.

Results for the second quarter of 2011 were very encouraging, reflecting continued improvement in our key metrics. Our leasing results were positive compared to the prior year quarter with an increase of 100 basis points in

our total portfolio occupancy rate and a 9.8% increase in our overall leasing spreads. In addition, same-store sales per square foot for our stabilized malls increased 5.4% over the prior year quarter.

In May 2011, we announced a \$1.090 billion joint venture with TIAA-CREF in which TIAA-CREF will receive a 50% pari passu interest in each of Oak Park Mall in Kansas City, KS, West County Center in St. Louis, MO, and CoolSprings Galleria in Nashville, TN. TIAA-CREF will also receive a 12% interest in Pearland Town Center in Pearland, TX. As part of the joint venture agreement, TIAA-CREF will assume approximately \$268.0 million of property-specific debt. Estimated net proceeds of approximately \$220.0 million from the transaction will primarily be used to pay down our lines of credit. The Company will continue to manage and lease the properties. The transaction is expected to close during the third quarter of 2011 and will considerably improve our balance sheet position as it relates to mortgage and other indebtedness. We are excited to partner with TIAA-CREF and believe our long-term goals for growing these properties are aligned.

Table of Contents

We are also pleased with the financing activity achieved during the second quarter of 2011. We executed a one-year extension on our \$105.0 million secured line of credit. In addition, we executed modifications on it and our \$520.0 million secured line of credit to remove a 1.50% LIBOR floor, significantly reducing our borrowing costs on the facilities. In addition, we closed on two ten-year operating property loans totaling \$277.0 million at a weighted average interest rate of 5.57%. Proceeds from the loans were used to repay existing loans with an aggregate principal balance of \$159.4 million.

Subsequent to June 30, 2011, we closed on the extension and modification of our secured credit facility with total capacity of \$525.0 million. The facility's maturity date was extended to February 2014 with an additional one-year extension option at our election and the 1.50% LIBOR floor was removed.

RESULTS OF OPERATIONS

Comparison of the Three Months Ended June 30, 2011 to the Three Months Ended June 30, 2010

Properties that were in operation for the entire year during 2010 and the six months ended June 30, 2011 are referred to as the "Comparable Properties." Since January 1, 2010, we have opened two community centers as follows:

Property	Location	Date Opened
New Developments:		
The Pavilion at Port Orange (1)	Port Orange, FL	March 2010
The Forum at Grandview (Phase I)	Madison, MS	November 2010

(1) This property represents a 50/50 joint venture that is accounted for using the equity method of accounting and is included in equity in earnings of unconsolidated affiliates in the accompanying consolidated statements of operations.

Of these two properties, The Forum at Grandview is included in our operations on a consolidated basis. The Forum at Grandview is referred to as the "New Property." The transactions related to the New Property impact the comparison of the results of operations for the three and six months ended June 30, 2011 to the results of operations for the comparable periods ended June 30, 2010. In addition to the above properties, in October 2010, we purchased the remaining 50% interest in Parkway Place in Huntsville, AL, from our joint venture partner. The results of operations of this property, previously accounted for using the equity method of accounting, are included in our operations on a consolidated basis beginning October 1, 2010 and generally contribute to the increases in revenues, operating expenses and depreciation and amortization of the Comparable Properties for the three and six months ended June 30, 2011 compared to respective prior year periods.

Revenues

Total revenues increased \$5.4 million for the three months ended June 30, 2011 compared to the prior year period. Rental revenues and tenant reimbursements increased by \$4.1 million due to an increase of \$3.4 million from the Comparable Properties and an increase of \$0.7 million from the New Property. The increase in revenues of the Comparable Properties was driven by a \$3.0 million increase in base rents. Base rents have increased as a result of

overall improvement in leasing spreads and higher occupancy levels, in addition to the purchase of Parkway Place in October 2010.

Our cost recovery ratio for the quarter ended June 30, 2011 was 102.2% compared with 101.7% for the prior-year period. Our cost recovery ratio has increased primarily due to increased tenant reimbursements as a result of higher occupancy rates and improved lease spreads throughout 2011 in addition to a significant decline in short-term leases of three years or less.

Other revenues increased \$1.3 million primarily due to higher revenues related to our subsidiary that provides security and maintenance services to third parties.

Table of Contents

Operating Expenses

Total operating expenses increased \$10.7 million for the three months ended June 30, 2011 compared to the prior year period. Property operating expenses, including real estate taxes and maintenance and repairs, increased \$1.4 million due to higher expenses of \$1.0 million related to the Comparable Properties and an increase of \$0.4 million of expenses attributable to the New Property. The increase in property operating expenses of the Comparable Properties is primarily attributable to increases of \$0.7 million in security and maintenance expense, \$0.7 million in real estate taxes and \$0.3 million in utilities expense, partially offset by decreases of \$0.5 million in payroll and related costs and \$0.2 million in each of lease amortization expense and bad debt expense. Property operating expenses also increased as a result of the purchase of Parkway Place in October 2010.

The increase in depreciation and amortization expense of \$3.3 million resulted from an increase of \$3.2 million from the Comparable Properties and an increase of \$0.1 million related to the New Property. The increase attributable to the Comparable Properties is primarily due to \$2.2 million of write-offs of unamortized tenant allowances during the second quarter of 2011 related to the closure of two Borders stores and as a result of ongoing capital expenditures for renovations, expansions and deferred maintenance. Depreciation and amortization expense also increased due to the purchase of Parkway Place in October 2010.

General and administrative expenses increased \$0.9 million primarily as a result of increases of \$0.5 million in consulting fees and \$0.3 million in legal fees. As a percentage of revenues, general and administrative expenses were 4.3% and 4.0% for the second quarters of 2011 and 2010, respectively.

We recorded a non-cash loss on impairment of real estate of \$4.5 million during the second quarter of 2011 related to one of our properties currently under construction. The development property is expected to be sold upon completion and stabilization and the loss was recorded to write down the book value of the property to its estimated fair value.

Other expenses increased \$0.6 million due to higher expenses of \$0.8 million related to our subsidiary that provides security and maintenance services, partially offset by a decrease of \$0.2 million in abandoned projects expense.

Other Income and Expenses

Interest and other income decreased \$0.3 million compared to the prior year period due to the elimination of interest income on advances to two joint ventures and a mortgage note receivable. We stopped receiving interest on one joint venture to which we had outstanding advances when it was sold in June 2010 and, in October 2010, we purchased our partner's 50% share of another joint venture to which we previously had outstanding advances. In addition, interest income is no longer being accrued on a mortgage note receivable for which we are in the process of obtaining the land that served as collateral on the loan.

Interest expense decreased \$1.5 million for the three months ended June 30, 2011 compared to the prior year period. We have reduced our debt levels substantially since the prior year period and our weighted average interest rate on total consolidated debt is lower compared to the prior year period.

During the second quarter of 2011, we recognized a loss on sales of real estate assets of \$0.1 million related to the sale of two parcels of land due to the true-up of estimated expenses to actual amounts for outparcels sold for a gain in previous periods. We recognized a gain on sales of real estate assets of \$1.1 million during the second quarter of 2010 related to the sale of two parcels of land.

Equity in earnings of unconsolidated affiliates increased by \$1.1 million during the second quarter of 2011 compared to the prior year period. Increases in revenues and tenant reimbursements were key drivers at several unconsolidated properties, reflecting the improved occupancy and rental rates. In addition, outparcel sales increased approximately

\$1.2 million compared to the prior year period. These increases were partially offset by a decline in earnings from Parkway Place as a result of the acquisition of the remaining 50% interest from our joint venture partner in October 2010. Results of Parkway Place are now reported on a consolidated basis.

The income tax benefit of \$4.6 million for the three months ended June 30, 2011 relates to our taxable REIT subsidiary and consists of a deferred income tax benefit of \$4.6 million. During the three months ended June 30, 2010, we recorded an income tax benefit of \$1.9 million, consisting of a current tax benefit of \$5.0 million, partially offset by a deferred income tax provision of \$3.1 million.

Table of Contents

Income from discontinued operations for the three months ended June 30, 2011 of \$1.0 million represents true ups of estimated expenses to actual amounts for properties sold during previous periods. Loss on discontinued operations for the three months ended June 30, 2010 of \$25.4 million represents a non-cash loss on impairment of real estate assets related to a write-down of the depreciated book value of a mall that was subsequently sold in February 2011 to reflect its estimated fair value as of June 30, 2010. Loss on discontinued operations for the three months ended June 30, 2010 also reflects the operating results of the mall, one additional mall that was sold in October 2010 and three community centers that were sold in December 2010, as well as true ups of estimated expenses to actual amounts for properties sold during previous periods.

Comparison of the Six Months Ended June 30, 2011 to the Six Months Ended June 30, 2010

Revenues

Total revenues increased \$11.9 million for the six months ended June 30, 2011 compared to the prior year period. Rental revenues and tenant reimbursements increased by \$8.8 million due to an increase of \$8.0 million from the Comparable Properties and an increase of \$0.8 million from the New Property. The increase in revenues of the Comparable Properties was driven by a \$7.8 million increase in base rents. Base rents have increased as a result of overall improvement in leasing spreads, in addition to higher occupancy levels, in addition to the purchase of Parkway Place in October 2010.

Our cost recovery ratio for the six months ended June 30, 2011 was 98.8% compared with 101.4% for the prior-year period. Our cost recovery ratio should improve as certain tenants that had previously converted their lease payment terms to percentage in lieu of base rent either renew their leases on more favorable terms or are replaced with other tenants.

The decrease in management, development and leasing fees of \$0.4 million was mainly attributable to lower development fee income due to the completion in the prior year of certain joint venture developments that were under construction during the prior year period.

Other revenues increased \$3.5 million primarily due to higher revenues related to our subsidiary that provides security and maintenance services to third parties.

Operating Expenses

Total expenses increased \$13.3 million for the six months ended June 30, 2011 compared to the prior year period. Property operating expenses, including real estate taxes and maintenance and repairs, increased \$4.1 million due to higher expenses of \$3.6 million related to the Comparable Properties and an increase of \$0.5 million of expenses attributable to the New Property. The increase in property operating expenses of the Comparable Properties is primarily attributable to increases of \$1.1 million in utilities expense, \$1.5 million in security and maintenance expense, \$0.5 million in real estate taxes and \$0.2 million in each of payroll and related costs, state tax expense, snow removal costs and land rent expense. These increases were partially offset by decreases of \$0.4 million in lease amortization expense and \$0.3 million in bad debt expense. Property operating expenses also increased as a result of the purchase of Parkway Place in October 2010.

The increase in depreciation and amortization expense of \$0.9 million resulted from an increase of \$0.6 million from the Comparable Properties and \$0.3 million related to the New Property. The increase attributable to the Comparable Properties is related to ongoing capital expenditures for renovations, expansions and deferred maintenance, partially offset by a decline in amortization of tenant allowances compared to the prior year period, which included a greater amount of write-offs of certain unamortized tenant allowances and intangible lease assets related to early lease terminations. Depreciation and amortization expense also increased due to the purchase of Parkway Place in October

2010.

33

Table of Contents

General and administrative expenses increased \$1.6 million primarily as a result of increases of \$0.7 million in legal fees, \$0.7 million in consulting fees and \$0.4 million in payroll and related expenses, partially offset by a \$0.4 million decrease in state tax expense. As a percentage of revenues, general and administrative expenses were 4.3% and 4.1% for the six months ended June 30, 2011 and 2010, respectively.

We recorded a non-cash loss on impairment of real estate of \$4.5 million during the six months ended June 30, 2011 related to one of our properties currently under construction. The development is expected to be sold upon completion and the loss was recorded to write down the book value of the property to its estimated fair value.

Other expenses increased \$2.2 million primarily due to a charge of \$1.5 million to reduce the amount of an outstanding mortgage note receivable and an increase of \$1.2 million in expenses related to our subsidiary that provides security and maintenance services, partially offset by a decrease of \$0.3 million in abandoned projects expense and a \$0.2 million decrease in realized foreign currency loss. The carrying value of the mortgage note receivable was reduced to the estimated fair value of the land that serves as collateral upon notification that the mortgage note receivable would not be repaid.

Other Income and Expenses

Interest and other income decreased \$0.8 million compared to the prior year period due to the elimination of interest income on advances to two joint ventures and a mortgage note receivable. We stopped receiving interest on one joint venture to which we had outstanding advances when it was sold in June 2010 and, in October 2010, we purchased our partner's 50% share of another joint venture to which we previously had outstanding advances. In addition, interest income is no longer being accrued on a mortgage note receivable for which we are in the process of obtaining the land that served as collateral on the loan.

Interest expense decreased \$5.7 million for the six months ended June 30, 2011 compared to the prior year period. We have reduced our consolidated debt by \$261.8 million compared to the prior year period and our weighted average interest rate on total consolidated debt is lower compared to the prior year period.

During the six months ended June 30, 2011, we recorded a gain on extinguishment of debt of \$0.6 million as a result of accelerated premium amortization related to the early retirement of debt that was originally scheduled to mature in July 2011 on Mid Rivers Mall in St. Louis, MO.

During the six months ended June 30, 2011, we recognized a gain on sales of real estate assets of \$0.7 million related to the sale of four parcels of land. We recognized a gain on sales of real estate assets of \$2.0 million during the six months ended June 30, 2010 related to the sale of three parcels of land.

Equity in earnings of unconsolidated affiliates increased by \$2.3 million during the six months ended June 30, 2011. One joint venture property that opened in March 2010 contributed to the increase compared to the prior year period. Increases in revenues and tenant reimbursements were key drivers at several unconsolidated properties, reflecting the improved occupancy and rental rates. In addition, outparcel sales increased approximately \$1.2 million compared to the prior year period. These increases were partially offset by a decline in earnings from Parkway Place as a result of the acquisition of the remaining 50% interest from our joint venture partner in October 2010. Results of Parkway Place are now reported on a consolidated basis.

The income tax benefit of \$6.4 million for the six months ended June 30, 2011 relates to our taxable REIT subsidiary and consists of a benefit for current and deferred income taxes of \$1.5 million and \$4.9 million, respectively. During the six months ended June 30, 2010, we recorded an income tax benefit of \$3.8 million, consisting of a current tax benefit of \$6.4 million, partially offset by a deferred tax provision of \$2.6 million.

Income from discontinued operations for the six months ended June 30, 2011 of \$28.1 million reflects the operating results of one mall that was sold in February 2011 for \$9.0 million. Net proceeds from the sale were used to retire the outstanding principal balance and accrued interest of \$40.3 million on the non-recourse loan secured by the property in accordance with the lender's agreement to modify the outstanding principal balance and accrued interest to equal the net sales price for the property. As a result, we recorded a gain on the extinguishment of debt of \$31.4 million in the first quarter of 2011. We also recorded a loss on impairment of real estate in the first quarter of 2011 of \$2.7 million to write down the

Table of Contents

book value of the property to the net sales price. The results of operations of this property, including the gain on extinguishment of debt and loss on impairment of real estate, are included in discontinued operations for the six months ended June 30, 2011. Loss on discontinued operations for the six months ended June 30, 2010 of \$25.9 million includes a non-cash loss on impairment of real estate assets of \$25.4 million related to an initial write-down of the depreciated book value of the mall that was sold in February 2011 to its estimated fair value as of June 30, 2010. Loss on discontinued operations for the six months ended June 30, 2010 also reflects the operating results of the mall, one additional mall that was sold in October 2010 and three community centers that were sold in December 2010. Discontinued operations for all periods presented include the true up of estimated expenses to actual amounts for properties sold during previous periods.

Operational Review

The shopping center business is, to some extent, seasonal in nature with tenants typically achieving the highest levels of sales during the fourth quarter due to the holiday season, which generally results in higher percentage rents in the fourth quarter. Additionally, the malls earn most of their “temporary” rents (rents from short-term tenants) during the holiday period. Thus, occupancy levels and revenue production are generally the highest in the fourth quarter of each year. Results of operations realized in any one quarter may not be indicative of the results likely to be experienced over the course of the fiscal year.

We classify our regional malls into two categories – malls that have completed their initial lease-up are referred to as stabilized malls and malls that are in their initial lease-up phase and have not been open for three calendar years are referred to as non-stabilized malls. Pearland Town Center, which opened in July 2008, is our only non-stabilized mall as of June 30, 2011.

We derive a significant amount of our revenues from the mall properties. The sources of our revenues by property type were as follows:

	Six Months Ended	
	June 30,	
	2011	2010
Malls	89.1 %	89.8 %
Associated centers	4.1 %	4.0 %
Community centers	1.9 %	1.6 %
Mortgages, office buildings and other	4.9 %	4.6 %

The improving economy continues to benefit our retailers. Mall store sales in the second quarter of 2011 for our portfolio increased 5.4% from the prior year period. Mall store sales for the trailing twelve months ended June 30, 2011 on a comparable per square foot basis were \$328 per square foot compared with \$317 per square foot in the prior year period, an increase of 3.5%.

Occupancy

Our portfolio occupancy is summarized in the following table:

	June 30,	
	2011	2010
Total portfolio	90.6 %	89.6 %
Total mall		
portfolio	90.4 %	89.8 %
Stabilized		
malls	90.5 %	90.1 %
Non-stabilized		
mall (1)	85.2 %	76.9 %
Associated		
centers	91.2 %	91.9 %
Community		
centers	91.9 %	86.4 %

Positive sales trends have contributed to the continued growth in our occupancy and improved leasing metrics. For the second quarter of 2011, total portfolio occupancy increased 100 basis points to 90.6% and stabilized mall occupancy improved 40 basis points to 90.5%. We anticipate total portfolio occupancy to end the year 75 to 100 basis points higher than the prior year end level of 92.4%.

Table of Contents

Leasing

During the second quarter of 2011, we signed approximately 1.7 million square feet of leases, a 35.7% improvement over the prior year quarter, nearly all of which were in our operating portfolio. The leases signed in our operating portfolio included approximately 0.7 million square feet of new leases and approximately 1.0 million square feet of renewals.

Average annual base rents per square foot were as follows for each property type:

	At June 30,	
	2011	2010
Stabilized malls	\$ 29.07	\$ 28.95
Non-stabilized malls	26.18	25.41
Associated centers	12.19	11.89
Community centers	13.41	14.68
Office Buildings	17.94	19.21

Results from new and renewal leasing of comparable small shop space of less than 10,000 square feet during the three and six month periods ended June 30, 2011 for spaces that were previously occupied are as follows:

Property Type	Square Feet	Prior Gross Rent PSF	New Initial Gross Rent PSF	% Change Initial	New Average Gross Rent PSF (2)	% Change Average	
Quarter:							
All Property Types (1)	644,826	\$35.17	\$37.28	6.0	% \$38.62	9.8	%
Stabilized malls	583,672	36.83	39.08	6.1	% 40.52	10.0	%
New leases	190,586	36.58	42.80	17.0	% 45.59	24.6	%
Renewal leases	393,086	\$36.95	\$37.27	0.9	% \$38.05	3.0	%
Year to Date:							
All Property Types (1)	1,436,895	\$35.54	\$35.99	1.3	% \$37.15	4.5	%
Stabilized malls	1,344,261	36.60	37.04	1.2	% 38.25	4.5	%
New leases	341,864	39.31	44.88	14.2	% 47.77	21.5	%
Renewal leases	1,002,397	\$35.68	\$34.37	-3.7	% \$35.00	-1.9	%

(1)Includes stabilized malls, associated centers, community centers and office buildings.

Average gross rent does not incorporate allowable future increases for recoverable common area

(2)expenses.

The second quarter continued our trend of improvement in leasing spreads. Overall, leases in the second quarter of 2011 were signed at a 9.8% increase over the prior gross rent per square foot. Renewal spreads were also positive, up 3.0% over rents for the prior year quarter. Our leasing team has been more successful in using positive sales and

higher occupancy rates in our portfolio to push rental growth and improve the terms of renewals and new leases. Our efforts to replace underperforming retailers and achieve market rates were evident in the significant improvement in our lease spreads this quarter. Additionally, short-term deals of three years or less significantly declined during the quarter to approximately 38.0% compared with approximately 55.0% for the first quarter of 2011 and approximately 60.0% for the fourth quarter of 2010.

LIQUIDITY AND CAPITAL RESOURCES

During the six months ended June 30, 2011, we closed on eleven operating property loans totaling \$666.1 million. Proceeds were primarily used to repay existing loans of approximately \$129.4 million and to pay down the outstanding balance of our \$520.0 million secured credit facility. During the second quarter of 2011, our \$105.0 million secured credit facility was extended for a one-year term and it and our \$520.0 million secured credit facility were modified to remove a 1.50% floor on LIBOR and reduce the related margins, resulting in a significant decrease in the interest rates on these facilities. Subsequent to June 30, 2011, the maturity date on our facility with total capacity of \$525.0 million was extended to February 2014 with an additional one-year extension option at our election and was modified for the same interest rate provisions accorded to the \$520.0 million and \$105.0 million facilities.

Table of Contents

As of June 30, 2011, we had approximately \$967.3 million available on all of our credit facilities combined. Our financial covenants remain sound with a debt to gross asset value ratio of 56.3% and an interest coverage ratio of 2.40x for the quarter compared with 2.31x in the prior year period. See Debt below for additional information.

We derive a majority of our revenues from leases with retail tenants, which has historically been the primary source for funding short-term liquidity and capital needs such as operating expenses, debt service, tenant construction allowances, recurring capital expenditures and dividends and distributions. We believe that the combination of our cash flows generated from our operations, combined with our debt and equity sources and the availability under our lines of credit will, for the foreseeable future, provide adequate liquidity to meet our cash needs. In addition to these factors, we have options available to us to generate additional liquidity, including but not limited to, equity offerings, joint venture investments, issuances of noncontrolling interests in our Operating Partnership and decreasing the amount of expenditures we make related to tenant construction allowances and other capital expenditures. We also generate revenues from sales of peripheral land at the properties and from sales of real estate assets when it is determined that we can realize an optimal value for the assets.

Cash Flows From Operations

There was \$47.5 million of unrestricted cash and cash equivalents as of June 30, 2011, a decrease of \$3.4 million from December 31, 2010. Cash provided by operating activities during the six months ended June 30, 2011, increased \$15.7 million to \$197.6 million from \$181.9 million during the six months ended June 30, 2010. The increase was primarily attributable to higher rental income as a result of increased occupancy rates and rental rates compared to the prior year period. In addition, cash from operations has increased as a result of lower interest expense on our debt.

Debt

The following tables summarize debt based on our pro rata ownership share, including our pro rata share of unconsolidated affiliates and excluding noncontrolling investors' share of consolidated properties, because we believe this provides investors and lenders a clearer understanding of our total debt obligations and liquidity (in thousands):

	Consolidated	Noncontrolling Interests	Unconsolidated Affiliates	Total	Weighted Average Interest Rate (1)	
June 30, 2011:						
Fixed-rate debt:						
Non-recourse loans on operating properties (2)	\$4,036,062	\$ (15,554)	\$ 395,222	\$4,415,730	5.64	%
Recourse term loans on operating properties	42,982	-	-	42,982	5.50	%
Total fixed-rate debt	4,079,044	(15,554)	395,222	4,458,712	5.64	%
Variable-rate debt:						
Non-recourse term loans on operating properties	113,875	-	19,877	133,752	3.29	%
Recourse term loans on operating properties	339,494	(928)	130,326	468,892	3.02	%

Unsecured term loans	437,494	-	-	437,494	1.66	%
Total variable-rate debt	1,515,005	(928)	168,290	1,682,367	2.77	%
Total	\$5,209,747	\$ (25,636)	\$ 566,444	\$5,750,555	4.93	%

- (1) Weighted average interest rate includes the effect of debt premiums (discounts), but excludes amortization of deferred financing costs.
- (2) We have four interest rate swaps with notional amounts outstanding totaling \$119,556 as of June 30, 2011 related to four of our variable-rate loans on operating properties to effectively fix the interest rates on these loans. Therefore, these amounts are currently reflected in fixed-rate debt.

As of June 30, 2011, \$838.3 million of our pro rata share of consolidated and unconsolidated debt is scheduled to mature over the remainder of 2011. However, we have extensions available at our option that we intend to exercise on \$691.2 million, leaving approximately \$147.1 million of maturities in 2011 that must be retired or refinanced, representing five operating property loans. Subsequent to June 30, 2011, we refinanced a loan with a principal balance at June 30, 2011 of \$51.8 million and retired a loan with a principal balance at June 30, 2011 of \$61.5 million with borrowings from our \$525.0 million secured credit facility. We may refinance the remaining three loans or we may retire them with availability on our secured credit facilities.

The weighted average remaining term of our total share of consolidated and unconsolidated debt was 4.0 years at June 30, 2011 and 3.5 years at December 31, 2010. The weighted average remaining term of our pro rata share of fixed-rate debt was 5.0 years and 4.6 years at June 30, 2011 and December 31, 2010, respectively.

As of June 30, 2011 and December 31, 2010, our pro rata share of consolidated and unconsolidated variable-rate debt represented 22.1% and 29.3%, respectively, of our total pro rata share of debt. As of June 30, 2011, our share of consolidated and unconsolidated variable-rate debt represented 13.0% of our total market capitalization (see Equity below) as compared to 17.4% as of December 31, 2010.

Secured Lines of Credit

We have three secured lines of credit that are used for mortgage retirement, working capital, construction and acquisition purposes, as well as issuances of letters of credit. Each of these lines is secured by mortgages on certain of our operating properties. During the second quarter of 2011, our facilities with total capacity of \$520.0 million and \$105.0 million were modified to remove a 1.50% floor on LIBOR. Pursuant to the modifications, borrowings under these two secured lines of credit bear interest at LIBOR plus an applicable spread, ranging from 2.00% to 3.00%, based on our leverage ratio. Without giving effect to actual LIBOR, the removal of the 1.50% floors and the reduction in the spreads resulted in a decrease in the interest rates on the \$520.0 million and \$105.0 million facilities of approximately 2.75% and 2.50%, respectively. We also executed an extension on the maturity date of the \$105.0 million facility from June 2012 to June 2013. As of June 30, 2011, borrowings under our facility with total capacity of \$525.0 million bore interest at LIBOR, subject to a floor of 1.50%, plus an applicable margin, ranging from 3.25% to 4.25%, based on our leverage ratio. The three secured lines of credit had a weighted average interest rate of 3.34% at June 30, 2011. We also pay fees based on the amount of unused availability under our secured lines of credit at rates ranging from 0.15% to 0.35% of unused availability. The following summarizes certain information about the secured lines of credit as of June 30, 2011 (in thousands):

Table of Contents

Total Capacity	Total Outstanding	Maturity Date	Extended Maturity Date
\$ 525,000	\$ 31,500	February 2012	February 2013
	(1)		
520,000	150,196	August 2011	April 2014
	1,000	June 2013	
105,000			N/A
\$ 1,150,000	\$ 182,696		

(1) There was an additional \$7,291 outstanding on this secured line of credit as of June 30, 2011 for letters of credit. Up to \$50,000 of the capacity on this line can be used for letters of credit. Subsequent to June 30, 2011, the facility's maturity date was extended to February 2014 with an additional one-year extension option, for an outside maturity date of February 2015.

Subsequent to June 30, 2011, we closed on the extension and modification of our secured credit facility with total capacity of \$525.0 million. The facility's maturity date was extended to February 2014 with an additional one-year extension option at the Company's election, for an outside maturity date of February 2015. Borrowings under this facility are no longer subject to a LIBOR floor of 1.50% and bear interest at LIBOR plus an applicable spread, ranging from 2.00% to 3.00%, based on our leverage ratio. Without giving effect to actual LIBOR, the removal of the 1.50% floor and the reduction in the spread resulted in a decrease in the interest rate on the facility of approximately 2.75%.

We also have secured and unsecured lines of credit with a total commitment of \$16.0 million that are used only to issue letters of credit. The letters of credit outstanding under these lines of credit totaled \$12.0 million at June 30, 2011.

Unsecured Term Facilities

We have an unsecured term loan that bears interest at LIBOR plus a margin ranging from 0.95% to 1.40%, based on our leverage ratio. At June 30, 2011, the outstanding borrowings of \$209.2 million under this loan had a weighted average interest rate of 1.29%. The loan was obtained for the exclusive purpose of acquiring certain properties from the Starmount Company or its affiliates. We completed our acquisition of these properties in February 2008 and, as a result, no further draws can be made against the loan. The loan matures in November 2011 and has a one-year extension option, which is at our election, for an outside maturity date of November 2012. Net proceeds from a sale, or our share of excess proceeds from any refinancings, of any of the properties originally purchased with borrowings from this unsecured term loan must be used to pay down any remaining outstanding balance.

We have an unsecured term loan with total capacity of \$228.0 million that bears interest at LIBOR plus a margin ranging from 1.50% to 1.80%, based on our leverage ratio. At June 30, 2011, the outstanding borrowings of \$228.0 million under the unsecured term loan had a weighted average interest rate of 1.79%. The loan matures in April 2012 and has a one-year extension option remaining, which is at our election, for an outside maturity date of April 2013.

The agreements to the \$525.0 million and \$520.0 million secured credit facilities and the two unsecured term loans described above, each with the same lead lender, contain default and cross-default provisions customary for transactions of this nature (with applicable customary grace periods) in the event (i) there is a default in the payment of any indebtedness owed by us to any institution which is a part of the lender groups for the credit facilities, or (ii) there is any other type of default with respect to any indebtedness owed by us to any institution which is a part of the lender groups for the credit facilities and such lender accelerates the payment of the indebtedness owed to it as a result of such default. The credit facility agreements provide that, upon the occurrence and continuation of an event of default, payment of all amounts outstanding under these credit facilities and those facilities with which these agreements reference cross-default provisions may be accelerated and the lenders' commitments may be terminated. Additionally, any default in the payment of any recourse indebtedness greater than \$50.0 million or any non-recourse indebtedness greater than \$100.0 million of the Company, the Operating Partnership and significant subsidiaries, as defined, regardless of whether the lending institution is a part of the lender groups for the credit facilities, will constitute an event of default under the agreements to the credit facilities. We were not in default with regard to any of these provisions as of June 30, 2011.

Table of Contents

Mortgages on Operating Properties

During the second quarter of 2011, we closed on two separate ten-year, non-recourse mortgage loans totaling \$277.0 million, including a \$185.0 million loan secured by Fayette Mall in Lexington, KY and a \$92.0 million loan secured by Mid Rivers Mall in St. Charles, MO. The loans bear interest at fixed rates of 5.42% and 5.88%, respectively. Proceeds were used to repay existing loans with principal balances of \$84.7 million and \$74.7 million, respectively, and to pay down our \$525.0 million secured credit facility. In addition, we retired a loan with a principal balance of \$36.3 million that was secured by Panama City Mall in Panama City, FL with borrowings from our \$525.0 million facility.

During the first quarter of 2011, we closed on five separate non-recourse mortgage loans totaling \$268.9 million. These loans have ten-year terms and include a \$95.0 million loan secured by Parkdale Mall and Parkdale Crossing in Beaumont, TX; a \$99.4 million loan secured by Park Plaza in Little Rock, AR; a \$44.1 million loan secured by EastGate Mall in Cincinnati, OH; a \$19.8 million loan secured by Wausau Center in Wausau, WI; and a \$10.6 million loan secured by Hamilton Crossing in Chattanooga, TN. The loans bear interest at a weighted average fixed rate of 5.64% and are not cross-collateralized.

Also during the first quarter of 2011, we closed on four separate loans totaling \$120.2 million. These loans have five-year terms and include a \$36.4 million loan secured by Stroud Mall in Stroud, PA; a \$58.1 million loan secured by York Galleria in York, PA; a \$12.1 million loan secured by Gunbarrel Pointe in Chattanooga, TN; and a \$13.6 million loan secured by CoolSprings Crossing in Nashville, TN. These four loans have partial-recourse features totaling \$15.5 million, which will be reduced by \$5.7 million upon the opening of a certain tenant in late 2011 and will further decrease as the aggregate principal amount outstanding on the loans is amortized. The loans bear interest at LIBOR plus a margin of 2.40% and are not cross-collateralized. We have interest rate swaps in place for the full term of each five-year loan to effectively fix the interest rates. As a result, these loans bear interest at a weighted average fixed rate of 4.57%. See Interest Rate Hedge Instruments below for additional information.

Proceeds from the nine loans that closed during the first quarter of 2011 were used predominantly to pay down the outstanding balance of our \$520.0 million secured credit facility. Eight of the new loans were secured with properties previously used as collateral to secure the \$520.0 million credit facility.

Subsequent to June 30, 2011, we closed on a ten-year, non-recourse mortgage loan of \$50.8 million secured by Alamance Crossing in Burlington, NC that bears interest at a fixed rate of 5.83%. Proceeds were used to repay an existing loan with a principal balance at June 30, 2011 of \$51.8 million. In addition, we retired a loan secured by Asheville Mall in Asheville, NC with a principal balance at June 30, 2011 of \$61.5 million with borrowings from our \$525.0 million secured credit facility. We intend to refinance this loan at a lower interest rate compared to the loan that was retired.

Interest Rate Hedging Instruments

During the first quarter of 2011, we entered into four pay fixed/receive variable interest rate swaps with an initial aggregate notional amount of \$120.2 million, amortizing to \$100.0 million, to hedge the interest rate risk exposure on the borrowings on four of our operating properties equal to the aggregate swap notional amount. These interest rate swaps hedge the risk of changes in cash flows on our designated forecasted interest payments attributable to changes in 1-month LIBOR, the designated benchmark interest rate being hedged, thereby reducing exposure to variability in cash flows relating to interest payments on the variable-rate debt. The interest rate swaps effectively fix the interest payments on the portion of debt principal corresponding to the swap notional amount at a weighted average rate of 4.57%.

Also during the first quarter of 2011, we entered into an interest rate cap agreement with an initial notional amount of \$64.3 million, amortizing to \$63.6 million, to hedge the risk of changes in cash flows on the letter of credit supporting certain bonds related to one of our operating properties equal to the then-outstanding cap notional. The interest rate cap protects us from increases in the hedged cash flows attributable to overall changes in the USD-SIFMA Municipal Swap Index above the strike rate of the cap on the debt. The strike rate associated with the interest rate cap is 1.00%.

Table of Contents

Instrument Type	Location in Consolidated Balance Sheet	Outstanding Notional Amount	Designated Benchmark Interest Rate	Strike Rate	Fair Value at 6/30/11	Fair Value at 12/31/10	Maturity Date
Pay fixed/Receive variable Swap	Accounts payable and accrued liabilities	\$57,805 (amortizing to \$48,337)	1-month LIBOR	2.149 %	\$ (968)	\$ -	Apr-2016

Equity

During the six months ended June 30, 2011, we paid cash dividends of \$81.9 million to holders of our common stock and our preferred stock, as well as \$38.6 million in distributions to the noncontrolling interest investors in our Operating Partnership and other consolidated subsidiaries.

On June 1, 2011, we announced a second quarter 2011 common stock dividend of \$0.21 per share payable in cash. The dividend was paid on July 15, 2011. On February 28, 2011, we announced a first quarter 2011 common stock dividend of \$0.21 per share payable in cash that was paid on April 15, 2011. Future dividends payable will be determined by our Board of Directors based upon circumstances at the time of declaration.

As a publicly traded company, we have access to capital through both the public equity and debt markets. We currently have a shelf registration statement on file with the Securities and Exchange Commission authorizing us to publicly issue senior and/or subordinated debt securities, shares of preferred stock (or depositary shares representing fractional interests therein), shares of common stock, warrants or rights to purchase any of the foregoing securities, and units consisting of two or more of these classes or series of securities. There is no limit to the offering price or number of securities that we may issue under this shelf registration statement.

Our strategy is to maintain a conservative debt-to-total-market capitalization ratio in order to enhance our access to the broadest range of capital markets, both public and private. Based on our share of total consolidated and unconsolidated debt and the market value of equity, our debt-to-total-market capitalization (debt plus market value of

equity) ratio was as follows at June 30, 2011, compared to 68.2% at June 30, 2010 (in thousands, except stock prices):

	Shares Outstanding	Stock Price (1)	Value
Common stock and operating partnership units	190,378	\$ 18.13	\$ 3,451,553
7.75% Series C Cumulative Redeemable Preferred Stock	460	250.00	115,000
7.375% Series D Cumulative Redeemable Preferred Stock	1,815	250.00	453,750
Total market equity			4,020,303
Company's share of total debt			5,723,040
Total market capitalization			\$ 9,743,343
Debt-to-total-market capitalization ratio			58.7 %

(1) Stock price for common stock and Operating Partnership units equals the closing price of the common stock on June 30, 2011. The stock prices for the preferred stocks represent the liquidation preference of each respective series.

Table of Contents

Capital Expenditures

Including our share of unconsolidated affiliates' capital expenditures, we spent \$15.1 million and \$20.9 million during the three and six month periods ended June 30, 2011, respectively, for tenant allowances, which typically generate increased rents from tenants over the terms of their leases. Deferred maintenance expenditures were \$3.7 million for the three months ended June 30, 2011 and included \$1.3 million for roof replacements and \$2.4 million for various other capital expenditures. Deferred maintenance expenditures were \$6.6 million for the six months ended June 30, 2011 and included \$1.8 million for roof replacements and \$4.8 million for various other capital expenditures. Renovation expenditures totaled \$8.8 million and \$9.7 million during the three and six month periods ended June 30, 2011.

Deferred maintenance expenditures are generally billed to tenants as common area maintenance expense, and most are recovered over a 5 to 15-year period. Renovation expenditures are primarily for remodeling and upgrades of malls, of which a portion is recovered from tenants over a 5 to 15-year period. We are recovering these costs through fixed amounts with annual increases or pro rata cost reimbursements based on the tenant's occupied space.

Annual capital expenditures budgets are prepared for each of our properties that are intended to provide for all necessary recurring and non-recurring capital expenditures. We believe that property operating cash flows, which include reimbursements from tenants for certain expenses, will provide the necessary funding for these expenditures.

Developments and Expansions

The following table summarizes our development projects as of June 30, 2011 (dollars in thousands):

Properties Under Development at June 30, 2011

(Dollars in thousands)

Property	Location	Total Project Square Feet	CBL's Share of Total Cost (b)	Cost to Date (c)	Expected Opening Date	Initial Yield	
Open-Air Center Expansion:							
Alamance West	Burlington, NC	236,438	\$ 16,130	\$ 11,606	Fall-11	11.0	%
Community Center Expansion:							
Settlers Ridge Phase II	Robinson Township, PA	86,617	\$ 12,370	\$ 13,400	Summer-11	9.9	%
Outlet Center:							
The Outlet Shoppes at Oklahoma City (a)	Oklahoma City, OK	324,565	\$ 60,973	\$ 51,479	August-11	10.6	%
Mall Redevelopments:							
Foothills Mall/Plaza - Carmike Cinema	Maryville, TN	45,276	\$ 8,337	\$ 1,551	Spring-12	7.3	%
Layton Hills Mall - Dick's Sporting Goods	Layton, UT	126,060	6,978	3,999	October-11	10.9	%
		44,979	7,472	4,273	November-11	5.9	%

Stroud Mall - Cinemark Theatre	Stroudsburg, PA			
		216,315	\$ 22,787	\$ 9,823
Total Under Development		863,935	\$ 112,260	\$ 86,308

- (a) The Outlet Shoppes at Oklahoma City is a 75/25 joint venture. Total cost and cost to date are reflected at 100 percent.
- (b) Total cost is presented net of reimbursements to be received.
- (c) Cost to date does not reflect reimbursements until they are received.

On August 5, 2011, we celebrated the grand opening of The Outlet Shoppes at Oklahoma City, a joint venture outlet center in Oklahoma City, OK, in which we have a 75% ownership interest. It is the only outlet center in the state of Oklahoma and the only center of its kind within a 145 mile radius. The center is fully leased with retailers including Saks Off 5th, Nike, Tommy Hilfiger, Polo, J. Crew, Brooks Brothers and more.

Stores have started opening at the second phase of Settlers Ridge in Pittsburgh, PA. The 78,000-square-foot expansion is anchored by Michaels, Ross Dress for Less, Shoe Carnival and ULTA.

Table of Contents

Alamance West, the 230,000-square-foot second phase of our center in Burlington, NC is scheduled to open this fall. The project is currently 98% leased or committed and is anchored by BJ's Wholesale Club, Kohl's and Dick's Sporting Goods.

During the second quarter of 2011, we commenced three redevelopment projects. Two new state-of-the-art 12-screen movie theaters are scheduled to open within the next year at Foothills Mall in Maryville, TN and Stroud Mall in Stroudsburg, PA. We are also redeveloping a former Mervyn's location for Dick's Sporting Goods at Layton Hills Mall in Layton, UT that is scheduled to open this fall. We should see a positive effect for the properties and our portfolio by enhancing these existing centers.

We have also commenced renovation projects at four of our malls, including Hamilton Place in Chattanooga, TN, Oak Park Mall in Kansas City, KS, RiverGate Mall in Nashville, TN, and Burnsville Center in Minneapolis, MN. The projects are scheduled for completion prior to the holiday season.

We hold options to acquire certain development properties owned by third parties. Except for the projects presented above, we do not have any other material capital commitments as of June 30, 2011.

Off-Balance Sheet Arrangements

Unconsolidated Affiliates

We have ownership interests in 16 unconsolidated affiliates that are described in Note 5 to the consolidated financial statements. The unconsolidated affiliates are accounted for using the equity method of accounting and are reflected in the consolidated balance sheets as "Investments in Unconsolidated Affiliates." The following are circumstances when we may consider entering into a joint venture with a third party:

§ Third parties may approach us with opportunities in which they have obtained land and performed some pre-development activities, but they may not have sufficient access to the capital resources or the development and leasing expertise to bring the project to fruition. We enter into such arrangements when we determine such a project is viable and we can achieve a satisfactory return on our investment. We typically earn development fees from the joint venture and provide management and leasing services to the property for a fee once the property is placed in operation.

§ We may determine that we have the opportunity to capitalize on the value we have created in a property by selling an interest in the property to a third party. This provides us with an additional source of capital that can be used to develop or acquire additional real estate assets that we believe will provide greater potential for growth. When we retain an interest in an asset rather than selling a 100% interest, it is typically because this allows us to continue to manage the property, which provides us the ability to earn fees for management, leasing, development and financing services provided to the joint venture.

Preferred Joint Venture Units

We consolidate our investment in a joint venture, CWJV, with Westfield. The terms of the joint venture agreement require that CWJV pay an annual preferred distribution at a rate of 5.0%, which increases to 6.0% on July 1, 2013, on the preferred liquidation value of the perpetual PJV units of CWJV that are held by Westfield. Westfield has the right to have all or a portion of the PJV units redeemed by CWJV with property owned by CWJV, and subsequent to October 16, 2012, with either cash or property owned by CWJV, in each case for a net equity amount equal to the preferred liquidation value of the PJV units. At any time after January 1, 2013, Westfield may propose that CWJV acquire certain qualifying property that would be used to redeem the PJV units at their preferred liquidation value. If CWJV does not redeem the PJV units with such qualifying property (a "Preventing Event"), then the annual preferred

distribution rate on the PJV units increases to 9.0% beginning July 1, 2013. We will have the right, but not the obligation, to offer to redeem the PJV units after January 31, 2013 at their preferred liquidation value, plus accrued and unpaid distributions. If we fail to make such an offer, the annual preferred distribution rate on the PJV units increases to

Table of Contents

9.0% for the period from July 1, 2013 through June 30, 2016, at which time it decreases to 6.0% if a Preventing Event has not occurred. If, upon redemption of the PJV units, the fair value of our common stock is greater than \$32.00 per share, then such excess (but in no case greater than \$26.0 million in the aggregate) shall be added to the aggregate preferred liquidation value payable on account of the PJV units. We account for this contingency using the method prescribed for earnings or other performance measure contingencies. As such, should this contingency result in additional consideration to Westfield, we will record the current fair value of the consideration issued as a purchase price adjustment at the time the consideration is paid or payable.

Guarantees

We may guarantee the debt of a joint venture primarily because it allows the joint venture to obtain funding at a lower cost than could be obtained otherwise. This results in a higher return for the joint venture on its investment, and a higher return on our investment in the joint venture. We may receive a fee from the joint venture for providing the guaranty. Additionally, when we issue a guaranty, the terms of the joint venture agreement typically provide that we may receive indemnification from the joint venture or have the ability to increase our ownership interest.

We own a parcel of land in Lee's Summit, MO that we are ground leasing to a third party development company. The third party developed and operates a shopping center on the land parcel. We have guaranteed 27% of the third party's construction loan and bond line of credit (the "loans") of which the initial maximum guaranteed amount was \$24.4 million. During the second quarter of 2011, the loans were partially paid down and amended such that our maximum guaranteed amount, representing 27% of capacity, is now approximately \$19.2 million. The total amount outstanding at June 30, 2011 on the loans was \$61.8 million of which we have guaranteed \$16.7 million. We reported an obligation of \$0.2 million and \$0.3 million as of June 30, 2011 and December 31, 2010, respectively, in the accompanying condensed consolidated balance sheets to reflect the estimated fair value of the guaranty.

The loans contain a provision that requires that, on or prior to June 1, 2011, the third party developer was to provide to the lender evidence reasonably satisfactory to the lender that either (i) certain legislation in the state of Missouri had been amended to facilitate an additional bond issuance, the net proceeds of which would be used to further reduce the outstanding amount on the bond line of credit, or (ii) if that certain legislation had not been amended, then the third party developer, we and the City of Lee's Summit, Missouri, had agreed to an alternate plan in order to complete the additional bond issuance. Neither of these conditions had occurred as of the date of issuance of these financial statements and, as a result, the loans are in default. We have not recorded an accrual for the contingent guaranty obligation as we do not believe that this contingent obligation is probable.

We have guaranteed 100% of the construction and land loans of West Melbourne, an unconsolidated affiliate in which we own a 50% interest, of which the maximum guaranteed amount is \$50.7 million. West Melbourne developed and operates Hammock Landing, a community center in West Melbourne, FL. The total amount outstanding on the loans at June 30, 2011 was \$45.4 million. The guaranty will expire upon repayment of the debt. The land loan, representing \$3.3 million of the amount outstanding at June 30, 2011, matures in August 2011. West Melbourne will retire this loan at maturity. The construction loan, representing \$42.1 million of the amount outstanding at June 30, 2011, matures in August 2011 and has two one-year extension options available. We recorded an obligation of \$0.7 million in the accompanying condensed consolidated balance sheets as of June 30, 2011 and December 31, 2010 to reflect the estimated fair value of this guaranty.

We have guaranteed 100% of the construction loan of Port Orange, an unconsolidated affiliate in which we own a 50% interest, of which the maximum guaranteed amount is \$97.2 million. Port Orange developed and operates The Pavilion at Port Orange, a community center in Port Orange, FL. The total amount outstanding at June 30, 2011 on the loan was \$68.3 million. The guaranty will expire upon repayment of the debt. The loan matures in December 2011 and has two one-year extension options available. We have recorded an obligation of \$1.1 million in the

accompanying condensed consolidated balance sheets as of June 30, 2011 and December 31, 2010 to reflect the estimated fair value of this guaranty.

Table of Contents

We have guaranteed the lease performance of YTC, an unconsolidated affiliate in which we own a 50% interest, under the terms of an agreement with a third party that owns property as part of York Town Center. Under the terms of that agreement, YTC is obligated to cause performance of the third party's obligations as landlord under its lease with its sole tenant, including, but not limited to, provisions such as co-tenancy and exclusivity requirements. Should YTC fail to cause performance, then the tenant under the third party landlord's lease may pursue certain remedies ranging from rights to terminate its lease to receiving reductions in rent. We have guaranteed YTC's performance under this agreement up to a maximum of \$22.0 million, which decreases by \$0.8 million annually until the guaranteed amount is reduced to \$10.0 million. The guaranty expires on December 31, 2020. The maximum guaranteed obligation was \$18.0 million as of June 30, 2011. We entered into an agreement with our joint venture partner under which the joint venture partner has agreed to reimburse us 50% of any amounts we are obligated to fund under the guaranty. We did not record an obligation for this guaranty because we determined that the fair value of the guaranty is not material.

At March 31, 2011, we guaranteed 100% of a construction loan of JG Gulf Coast Town Center, LLC, an unconsolidated affiliate in which we own a 50% interest, of which the maximum guaranteed amount is \$11.6 million. Proceeds from the construction loan were designated for the development of Phase III of Gulf Coast Town Center, an open-air center in Fort Myers, FL. The total amount outstanding at March 31, 2011 on the loan was \$11.6 million. We did not record an obligation for this guaranty because we determined that the fair value of the guaranty is not material. Subsequent to March 31, 2011, we retired the construction loan with borrowings from our \$105.0 million secured credit facility. The guaranty expired upon repayment of the debt.

CRITICAL ACCOUNTING POLICIES

Our significant accounting policies are disclosed in Note 2 to the consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2010. The following discussion describes our most critical accounting policies, which are those that are both important to the presentation of our financial condition and results of operations and that require significant judgment or use of complex estimates.

Revenue Recognition

Minimum rental revenue from operating leases is recognized on a straight-line basis over the initial terms of the related leases. Certain tenants are required to pay percentage rent if their sales volumes exceed thresholds specified in their lease agreements. Percentage rent is recognized as revenue when the thresholds are achieved and the amounts become determinable.

We receive reimbursements from tenants for real estate taxes, insurance, common area maintenance, and other recoverable operating expenses as provided in the lease agreements. Tenant reimbursements are recognized as revenue in the period the related operating expenses are incurred. Tenant reimbursements related to certain capital expenditures are billed to tenants over periods of 5 to 15 years and are recognized as revenue when billed.

We receive management, leasing and development fees from third parties and unconsolidated affiliates. Management fees are charged as a percentage of revenues (as defined in the management agreement) and are recognized as revenue when earned. Development fees are recognized as revenue on a pro rata basis over the development period. Leasing fees are charged for newly executed leases and lease renewals and are recognized as revenue when earned. Development and leasing fees received from unconsolidated affiliates during the development period are recognized as revenue to the extent of the third-party partners' ownership interest. Fees to the extent of our ownership interest are recorded as a reduction to our investment in the unconsolidated affiliate.

Gains on sales of real estate assets are recognized when it is determined that the sale has been consummated, the buyer's initial and continuing investment is adequate, our receivable, if any, is not subject to future subordination, and the buyer has assumed the usual risks and rewards of ownership of the asset. When we have an ownership interest in

the buyer, gain is recognized to the extent of the third party partner's ownership interest and the portion of the gain attributable to our ownership interest is deferred.

Table of Contents

Real Estate Assets

We capitalize predevelopment project costs paid to third parties. All previously capitalized predevelopment costs are expensed when it is no longer probable that the project will be completed. Once development of a project commences, all direct costs incurred to construct the project, including interest and real estate taxes, are capitalized. Additionally, certain general and administrative expenses are allocated to the projects and capitalized based on the amount of time applicable personnel work on the development project. Ordinary repairs and maintenance are expensed as incurred. Major replacements and improvements are capitalized and depreciated over their estimated useful lives.

All acquired real estate assets are accounted for using the purchase method of accounting and accordingly, the results of operations are included in the consolidated statements of operations from the respective dates of acquisition. The purchase price is allocated to (i) tangible assets, consisting of land, buildings and improvements, as if vacant, and tenant improvements and (ii) identifiable intangible assets and liabilities generally consisting of above- and below-market leases and in-place leases. We use estimates of fair value based on estimated cash flows, using appropriate discount rates, and other valuation methods to allocate the purchase price to the acquired tangible and intangible assets. Liabilities assumed generally consist of mortgage debt on the real estate assets acquired. Assumed debt with a stated interest rate that is significantly different from market interest rates is recorded at its fair value based on estimated market interest rates at the date of acquisition.

Depreciation is computed on a straight-line basis over estimated lives of 40 years for buildings, 10 to 20 years for certain improvements and 7 to 10 years for equipment and fixtures. Tenant improvements are capitalized and depreciated on a straight-line basis over the term of the related lease. Lease-related intangibles from acquisitions of real estate assets are amortized over the remaining terms of the related leases. The amortization of above- and below-market leases is recorded as an adjustment to minimum rental revenue, while the amortization of all other lease-related intangibles is recorded as amortization expense. Any difference between the face value of the debt assumed and its fair value is amortized to interest expense over the remaining term of the debt using the effective interest method.

Carrying Value of Long-Lived Assets

We periodically evaluate long-lived assets to determine if there has been any impairment in their carrying values and record impairment losses if the undiscounted cash flows estimated to be generated by those assets are less than their carrying amounts or if there are other indicators of impairment. If it is determined that impairment has occurred, the amount of the impairment charge is equal to the excess of the asset's carrying value over its estimated fair value. Our estimates of undiscounted cash flows expected to be generated by each property are based on a number of assumptions such as leasing expectations, operating budgets, estimated useful lives, future maintenance expenditures, intent to hold for use and capitalization rates, among others. These assumptions are subject to economic and market uncertainties including, but not limited to, demand for space, competition for tenants, changes in market rental rates and costs to operate each property. As these factors are difficult to predict and are subject to future events that may alter our assumptions, the future cash flows estimated in our impairment analyses may not be achieved.

During the course of our normal quarterly impairment review process for the second quarter of 2010, we determined that it was appropriate to write down the depreciated book value of Oak Hollow Mall in High Point, NC, to its estimated fair value, resulting in a non-cash loss on impairment of real estate assets of \$25.4 million. The loss is recorded in operating loss of discontinued operations for the three and six months ended June 30, 2010.

In February 2011, we incurred a loss on impairment of real estate assets of \$2.7 million related to the disposition of Oak Hollow Mall to write down the book value of the property to the net sales price. The loss on impairment is recorded in operating income of discontinued operations for the six months ended June 30, 2011.

In June 2011, we incurred a loss on impairment of real estate assets of \$4.5 million related to the second phase of Settlers Ridge in Robinson Township, PA, which is currently under construction. The development is expected to be sold upon completion and stabilization and the loss was recorded to write down the carrying value of the property to its estimated fair value.

Table of Contents

Allowance for Doubtful Accounts

We periodically perform a detailed review of amounts due from tenants to determine if accounts receivable balances are impaired based on factors affecting the collectibility of those balances. Our estimate of the allowance for doubtful accounts requires significant judgment about the timing, frequency and severity of collection losses, which affects the allowance and net income. We recorded a provision for doubtful accounts of \$1.5 million and \$1.7 million for the six months ended June 30, 2011 and 2010, respectively.

Investments in Unconsolidated Affiliates

We evaluate our joint venture arrangements to determine whether they should be recorded on a consolidated basis. The percentage of ownership interest in the joint venture, an evaluation of control and whether a variable interest entity ("VIE") exists are all considered in the consolidation assessment.

Initial investments in joint ventures that are in economic substance a capital contribution to the joint venture are recorded in an amount equal to our historical carryover basis in the real estate contributed. Initial investments in joint ventures that are in economic substance the sale of a portion of our interest in the real estate are accounted for as a contribution of real estate recorded in an amount equal to our historical carryover basis in the ownership percentage retained and as a sale of real estate with profit recognized to the extent of the other joint venturers' interests in the joint venture. Profit recognition assumes that we have no commitment to reinvest with respect to the percentage of the real estate sold and the accounting requirements of the full accrual method are met.

We account for our investment in joint ventures where we own a non-controlling interest or where we are not the primary beneficiary of a VIE using the equity method of accounting. Under the equity method, our cost of investment is adjusted for our share of equity in the earnings of the unconsolidated affiliate and reduced by distributions received. Generally, distributions of cash flows from operations and capital events are first made to partners to pay cumulative unpaid preferences on unreturned capital balances and then to the partners in accordance with the terms of the joint venture agreements.

Any differences between the cost of our investment in an unconsolidated affiliate and our underlying equity as reflected in the unconsolidated affiliate's financial statements generally result from costs of our investment that are not reflected on the unconsolidated affiliate's financial statements, capitalized interest on our investment and our share of development and leasing fees that are paid by the unconsolidated affiliate to us for development and leasing services provided to the unconsolidated affiliate during any development periods. The net difference between our investment in unconsolidated affiliates and the underlying equity of unconsolidated affiliates is generally amortized over a period of 40 years.

On a periodic basis, we assess whether there are any indicators that the fair value of our investments in unconsolidated affiliates may be impaired. An investment is impaired only if our estimate of the fair value of the investment is less than the carrying value of the investment, and such decline in value is deemed to be other than temporary. To the extent impairment has occurred, the loss is measured as the excess of the carrying amount of the investment over the fair value of the investment. Our estimates of fair value for each investment are based on a number of assumptions such as future leasing expectations, operating forecasts, discount rates and capitalization rates, among others. These assumptions are subject to economic and market uncertainties including, but not limited to, demand for space, competition for tenants, changes in market rental rates, and operating costs. As these factors are difficult to predict and are subject to future events that may alter our assumptions, the fair values estimated in the impairment analyses may not be realized.

No impairments of investments in unconsolidated affiliates were incurred during the three and six month periods ended June 30, 2011 and 2010.

Table of Contents

Recent Accounting Pronouncements

Accounting Guidance Adopted

In July 2010, the FASB issued ASU No. 2010-20, Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses (“ASU No. 2010-20”). ASU No. 2010-20 requires entities to provide extensive new disclosures in their financial statements about their financing receivables, including credit risk exposures and the allowance for credit losses. The new disclosures include information regarding credit quality, impaired or modified receivables, non-accrual or past due receivables and activity related to modified receivables and the allowance for credit losses. In January 2011, the FASB issued ASU No. 2011-01, Deferral of the Effective Date of Disclosures about Troubled Debt Restructurings in Update No. 2010-20 (“ASU No. 2011-01”). ASU No. 2011-01 delayed immediately the effective date for disclosures prescribed by ASU No. 2010-20 that relate to troubled debt restructurings. The adoption of the non deferred disclosures prescribed by ASU No. 2010-20 did not have an impact on our condensed consolidated financial statements.

Accounting Pronouncements Not Yet Effective

In April 2011, the FASB issued ASU No. 2011-02, A Creditor’s Determination of Whether a Restructuring Is a Troubled Debt Restructuring (“ASU No. 2011-02”). ASU No. 2011-02 provides additional guidance to assist creditors in determining whether a restructuring of a receivable meets the criteria to be considered a troubled debt restructuring. For public entities, these amendments are effective for the first interim or annual period beginning on or after June 15, 2011, and should be applied retrospectively to the beginning of the annual period of adoption. For purposes of measuring impairment of those receivables, an entity should apply the amendments prospectively for the first interim or annual period beginning on or after June 15, 2011. The adoption of these amendments will not have material impact on our condensed consolidated financial statements.

In May 2011, the FASB issued ASU No. 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs (“ASU No. 2011-04”). The objective of this accounting update is to align the principles for fair value measurements and the related disclosure requirements under GAAP and International Financial Reporting Standards (“IFRSs”), thus improving the comparability of fair value measurements presented and disclosed in financial statements. This amendment is effective for interim and annual periods beginning after December 15, 2011 and should be applied prospectively. The adoption of ASU No. 2011-04 will not have a material impact on our condensed consolidated financial statements.

In June 2011, the FASB issued ASU No. 2011-05, Presentation of Comprehensive Income (“ASU No. 2011-05”). The objective of this accounting update is to improve the comparability, consistency, and transparency of financial reporting and to increase the prominence of items reported in other comprehensive income. The FASB decided to eliminate the option to present components of other comprehensive income as part of the statement of changes in stockholders’ equity and require that all non-owner changes in stockholders’ equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. This new accounting guidance is effective for interim and annual periods beginning after December 15, 2011 and is required to be applied retrospectively. We currently present components of other comprehensive income as part of the statement of changes in stockholders’ equity and, as such, we are evaluating the preferred method between the two options available. While the adoption of ASU No. 2011-05 will change the presentation format of our condensed consolidated financial statements, it will not have an impact on the amounts reported in those statements.

Impact of Inflation/Deflation

Deflation can result in a decline in general price levels, often caused by a decrease in the supply of money or credit. The predominant effects of deflation are high unemployment, credit contraction and weakened consumer

demand. Restricted lending practices could impact our ability to obtain financings or refinancings for our properties and our tenants' ability to obtain credit. Decreases in consumer demand can have a direct impact on our tenants and the rents we receive.

Table of Contents

During inflationary periods, substantially all of our tenant leases contain provisions designed to mitigate the impact of inflation. These provisions include clauses enabling us to receive percentage rent based on tenants' gross sales, which generally increase as prices rise, and/or escalation clauses, which generally increase rental rates during the terms of the leases. In addition, many of the leases are for terms of less than 10 years, which may provide us the opportunity to replace existing leases with new leases at higher base and/or percentage rent if rents of the existing leases are below the then existing market rate. Most of the leases require the tenants to pay a fixed amount, subject to annual increases, for their share of operating expenses, including common area maintenance, real estate taxes, insurance and certain capital expenditures, which reduces our exposure to increases in costs and operating expenses resulting from inflation.

Funds From Operations

Funds From Operations ("FFO") is a widely used measure of the operating performance of real estate companies that supplements net income (loss) determined in accordance with GAAP. The National Association of Real Estate Investment Trusts ("NAREIT") defines FFO as net income (loss) (computed in accordance with GAAP) excluding gains or losses on sales of operating properties, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures and noncontrolling interests. Adjustments for unconsolidated partnerships and joint ventures and noncontrolling interests are calculated on the same basis. We define FFO allocable to common shareholders as defined above by NAREIT less dividends on preferred stock. Our method of calculating FFO allocable to common shareholders may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs.

We believe that FFO provides an additional indicator of the operating performance of our properties without giving effect to real estate depreciation and amortization, which assumes the value of real estate assets declines predictably over time. Since values of well-maintained real estate assets have historically risen with market conditions, we believe that FFO enhances investors' understanding of our operating performance. The use of FFO as an indicator of financial performance is influenced not only by the operations of our properties and interest rates, but also by our capital structure.

We present both FFO of our Operating Partnership and FFO allocable to common shareholders, as we believe that both are useful performance measures. We believe FFO of our Operating Partnership is a useful performance measure since we conduct substantially all of our business through our Operating Partnership and, therefore, it reflects the performance of the properties in absolute terms regardless of the ratio of ownership interests of our common shareholders and the noncontrolling interest in our Operating Partnership. We believe FFO allocable to common shareholders is a useful performance measure because it is the performance measure that is most directly comparable to net income (loss) available to common shareholders.

In our reconciliation of net income (loss) available to common shareholders to FFO allocable to common shareholders that is presented below, we make an adjustment to add back noncontrolling interest in earnings of our Operating Partnership in order to arrive at FFO of our Operating Partnership. We then apply a percentage to FFO of our Operating Partnership to arrive at FFO allocable to common shareholders. The percentage is computed by taking the weighted average number of common shares outstanding for the period and dividing it by the sum of the weighted average number of common shares and the weighted average number of Operating Partnership units outstanding during the period.

During the three months and six months ended June 30, 2011 and the three months ended June 30, 2010, we recorded losses on impairment of real estate assets. Considering the significance and nature of the impairments, we believe that it is important to identify the impact of the charge on our FFO measures for a reader to have a complete understanding of our results of operations. Therefore, we have also presented our FFO measure excluding the impairment charges.

FFO does not represent cash flows from operations as defined by GAAP, is not necessarily indicative of cash available to fund all cash flow needs and should not be considered as an alternative to net income (loss) for purposes of evaluating our operating performance or to cash flow as a measure of liquidity.

Table of Contents

FFO of the Operating Partnership increased to \$92.4 million during the three months ended June 30, 2011 compared to \$68.6 million in the prior year period. During the three months ended June 30, 2011 and 2010, we incurred losses on impairment of real estate, net of tax benefit, as applicable, of \$2.3 million and \$25.4 million, respectively. Excluding these impairment charges, FFO of the Operating Partnership increased to \$94.7 million compared to \$94.1 million in the prior year period. FFO of the Operating Partnership increased to \$212.4 million during the six months ended June 30, 2011 compared to \$162.2 million for the same period in 2010. During the six months ended June 30, 2011 and 2010, we incurred losses on impairment of real estate, net of tax benefit, as applicable, of \$5.0 million and \$25.4 million, respectively. Excluding these impairment charges, FFO of the Operating Partnership increased \$29.8 million, or 15.9%, benefiting primarily from the extinguishment of debt in the first quarter of 2011, in addition to occupancy increases, growth in rental rates, and decreased interest expense.

The reconciliation of FFO to net income (loss) attributable to common shareholders is as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Net income (loss) attributable to common shareholders	\$9,782	\$(7,242)	\$46,507	\$3,686
Noncontrolling interest in income (loss) of operating partnership	2,752	(2,723)	13,203	1,387
Depreciation and amortization expense of:	-	-	-	-
Consolidated properties	72,111	68,772	140,092	139,221
Unconsolidated affiliates	8,597	8,486	14,112	15,371
Discontinued operations	-	1,880	86	3,443
Non-real estate assets	(589)	(219)	(1,227)	(438)
Noncontrolling interests' share of depreciation and amortization	(153)	(311)	(302)	(456)
Gain on discontinued operations	(103)	-	(117)	-
Funds from operations of the operating partnership	92,397	68,643	212,354	162,214
Net loss on impairment of real estate, net of tax benefit	2,256	25,435	5,002	25,435
Funds from operations of the operating partnership, excluding				
loss on impairment of real estate	\$94,653	\$94,078	\$217,356	\$187,649

The reconciliations of FFO of the Operating Partnership to FFO allocable to the Company shareholders, including and excluding the loss on impairment of real estate, are as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Reconciliation of FFO of the operating partnership to FFO allocable to Company shareholders:				
Funds from operations of the operating partnership	\$92,397	\$68,643	\$212,354	\$162,214
Percentage allocable to common shareholders (1)	77.93 %	72.66 %	77.89 %	72.65 %
Funds from operations allocable to Company shareholders	\$72,005	\$49,876	\$165,403	\$117,848
Funds from operations of the operating partnership, excluding loss on impairment of real estate	\$94,653	\$94,078	\$217,356	\$187,649
Percentage allocable to common shareholders (1)	77.93 %	72.66 %	77.89 %	72.65 %
	\$73,763	\$68,357	\$169,299	\$136,327

Funds from operations allocable to Company
shareholders,
excluding loss on impairment of real estate

(1) Represents the weighted average number of common shares outstanding for the period divided by the sum of the weighted average number of common shares and the weighted average number of Operating Partnership units outstanding during the period.

Table of Contents

ITEM 3: Quantitative and Qualitative Disclosures About Market Risk

We are exposed to various market risk exposures, including interest rate risk and foreign exchange rate risk. The following discussion regarding our risk management activities includes forward-looking statements that involve risk and uncertainties. Estimates of future performance and economic conditions are reflected assuming certain changes in interest and foreign exchange rates. Caution should be used in evaluating our overall market risk from the information presented below, as actual results may differ. We employ various derivative programs to manage certain portions of our market risk associated with interest rates. See Note 6 of the notes to consolidated financial statements for further discussions of the qualitative aspects of market risk, including derivative financial instrument activity.

Based on our proportionate share of consolidated and unconsolidated variable-rate debt at June 30, 2011, a 0.5% increase or decrease in interest rates on variable rate debt would increase or decrease annual cash outflows by approximately \$6.2 million and \$2.3 million, respectively, and annual interest expense, after the effect of capitalized interest, by approximately \$6.7 million and \$2.2 million, respectively.

Based on our proportionate share of total consolidated and unconsolidated debt at June 30, 2011, a 0.5% increase in interest rates would decrease the fair value of debt by approximately \$92.6 million, while a 0.5% decrease in interest rates would increase the fair value of debt by approximately \$95.2 million.

ITEM 4: Controls and Procedures

Disclosure Controls and Procedures

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of its effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As of the end of the period covered by this quarterly report, an evaluation was performed under the supervision of our Chief Executive Officer and Chief Financial Officer and with the participation of our management, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective to ensure that information that we are required to disclose in the reports we file or submit under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1: Legal Proceedings

On March 11, 2010, The Promenade D'Iberville, LLC ("TPD"), one of our subsidiaries, filed a lawsuit in the Circuit Court of Harrison County, Mississippi, against M. Hanna Construction Co., Inc. ("M Hanna"), Gallet & Associates, Inc., LA Ash, Inc., EMJ Corporation ("EMJ") and JEA (f/k/a Jacksonville Electric Authority), seeking damages for

alleged property damage and related damages occurring at a shopping center development in D'Iberville, Mississippi. EMJ filed an answer and counterclaim denying liability and seeking to recover from TPD the retainage of approximately \$0.3 million allegedly owed under the construction contract. Kohl's Department Stores, Inc. ("Kohl's") was granted permission to intervene in the lawsuit and, on April 13, 2011, filed a cross-claim against TPD alleging that TPD is liable to Kohl's for unspecified damages resulting from the actions of the defendants and for the failure to perform the obligations of TPD under a Site Development Agreement with Kohl's. Kohl's also made a claim against us which guaranteed the performance of TPD under the Site Development Agreement. The case is at the discovery stage.

TPD also has filed claims under several insurance policies in connection with this matter, and there are two pending lawsuits relating to insurance coverage. On November 4, 2010, First Mercury Insurance Company ("First Mercury") filed an action in the United States District Court for the Eastern District of Texas against M Hanna and TPD seeking a declaratory judgment concerning coverage under a liability insurance policy issued by First Mercury to M Hanna. On June 13, 2011, TPD filed an action in the Chancery Court of Hamilton County, Tennessee against National Union Fire Insurance Company of Pittsburgh, PA ("National Union") and EMJ seeking a declaratory judgment regarding coverage under a liability insurance policy issued by National Union to EMJ and recovery of damages arising out of National Union's breach of its obligations.

Certain of our executive officers and members of the immediate family of Charles B. Lebovitz, Chairman of the Board of our company, collectively have a significant non-controlling interest in EMJ, a major national construction company that we engaged to build a substantial number of our properties.

Table of Contents

ITEM 1A. Risk Factors

The following information updates the information disclosed in “Item 1A – Risk Factors” of our Annual Report on Form 10-K for the year ended December 31, 2010, by providing information that is current as of June 30, 2011:

RISKS RELATED TO REAL ESTATE INVESTMENTS

Real property investments are subject to various risks, many of which are beyond our control, that could cause declines in the operating revenues and/or the underlying value of one or more of our properties.

A number of factors may decrease the income generated by a retail shopping center property, including:

- National, regional and local economic climates, which may be negatively impacted by loss of jobs, production slowdowns, adverse weather conditions, natural disasters, acts of violence, war or terrorism, declines in residential real estate activity and other factors which tend to reduce consumer spending on retail goods.
- Adverse changes in levels of consumer spending, consumer confidence and seasonal spending (especially during the holiday season when many retailers generate a disproportionate amount of their annual profits).
- Local real estate conditions, such as an oversupply of, or reduction in demand for, retail space or retail goods, and the availability and creditworthiness of current and prospective tenants.
- Increased operating costs, such as increases in repairs and maintenance, real property taxes, utility rates and insurance premiums.
- Delays or cost increases associated with the opening of new or renovated properties, due to higher than estimated construction costs, cost overruns, delays in receiving zoning, occupancy or other governmental approvals, lack of availability of materials and labor, weather conditions, and similar factors which may be outside our ability to control.
 - Perceptions by retailers or shoppers of the safety, convenience and attractiveness of the shopping center.
- The willingness and ability of the shopping center’s owner to provide capable management and maintenance services.
 - The convenience and quality of competing retail properties and other retailing options, such as the Internet.

In addition, other factors may adversely affect the value of our properties without affecting their current revenues, including:

- Adverse changes in governmental regulations, such as local zoning and land use laws, environmental regulations or local tax structures that could inhibit our ability to proceed with development, expansion, or renovation activities that otherwise would be beneficial to our properties.
- Potential environmental or other legal liabilities that reduce the amount of funds available to us for investment in our properties.
-

Any inability to obtain sufficient financing (including construction financing and permanent debt), or the inability to obtain such financing on commercially favorable terms, to fund repayment of maturing loans, new developments, acquisitions, and property expansions and renovations which otherwise would benefit our properties.

- An environment of rising interest rates, which could negatively impact both the value of commercial real estate such as retail shopping centers and the overall retail climate.

Table of Contents

Illiquidity of real estate investments could significantly affect our ability to respond to adverse changes in the performance of our properties and harm our financial condition.

Substantially all of our total consolidated assets consist of investments in real properties. Because real estate investments are relatively illiquid, our ability to quickly sell one or more properties in our portfolio in response to changing economic, financial and investment conditions is limited. The real estate market is affected by many factors, such as general economic conditions, availability of financing, interest rates and other factors, including supply and demand for space, that are beyond our control. We cannot predict whether we will be able to sell any property for the price or on the terms we set, or whether any price or other terms offered by a prospective purchaser would be acceptable to us. We also cannot predict the length of time needed to find a willing purchaser and to close the sale of a property. In addition, current economic and capital market conditions might make it more difficult for us to sell properties or might adversely affect the price we receive for properties that we do sell, as prospective buyers might experience increased costs of debt financing or other difficulties in obtaining debt financing.

Moreover, there are some limitations under federal income tax laws applicable to REITs that limit our ability to sell assets. In addition, because our properties are generally mortgaged to secure our debts, we may not be able to obtain a release of a lien on a mortgaged property without the payment of the associated debt and/or a substantial prepayment penalty, which restricts our ability to dispose of a property, even though the sale might otherwise be desirable. Furthermore, the number of prospective buyers interested in purchasing shopping centers is limited. Therefore, if we want to sell one or more of our properties, we may not be able to dispose of it in the desired time period and may receive less consideration than we originally invested in the property.

Before a property can be sold, we may be required to make expenditures to correct defects or to make improvements. We cannot assure you that we will have funds available to correct those defects or to make those improvements, and if we cannot do so, we might not be able to sell the property, or might be required to sell the property on unfavorable terms. In acquiring a property, we might agree to provisions that materially restrict us from selling that property for a period of time or impose other restrictions, such as limitations on the amount of debt that can be placed or repaid on that property. These factors and any others that would impede our ability to respond to adverse changes in the performance of our properties could adversely affect our financial condition and results of operations.

We may elect not to proceed with certain development or expansion projects once they have been undertaken, resulting in charges that could have a material adverse effect on our results of operations for the period in which the charge is taken.

We intend to pursue development and expansion activities as opportunities arise. In connection with any development or expansion, we will incur various risks, including the risk that development or expansion opportunities explored by us may be abandoned for various reasons including, but not limited to, credit disruptions that require the Company to conserve its cash until the capital markets stabilize or alternative credit or funding arrangements can be made. Developments or expansions also include the risk that construction costs of a project may exceed original estimates, possibly making the project unprofitable. Other risks include the risk that we may not be able to refinance construction loans which are generally with full recourse to us, the risk that occupancy rates and rents at a completed project will not meet projections and will be insufficient to make the project profitable, and the risk that we will not be able to obtain anchor, mortgage lender and property partner approvals for certain expansion activities.

When we elect not to proceed with a development opportunity, the development costs ordinarily are charged against income for the then-current period. Any such charge could have a material adverse effect on our results of operations for the period in which the charge is taken.

Certain of our properties are subject to ownership interests held by third parties, whose interests may conflict with ours and thereby constrain us from taking actions concerning these properties which otherwise would be in the best interests of the Company and our stockholders.

Table of Contents

We own partial interests in 20 malls, 13 associated centers, six community centers and eight office buildings. We manage all but three of these properties. Governor's Square, Governor's Plaza and Kentucky Oaks are all owned by joint ventures and are managed by a property manager that is affiliated with the third party managing general partner. The property manager performs the property management and leasing services for these three properties and receives a fee for its services. The managing partner of the properties controls the cash flow distributions, although our approval is required for certain major decisions.

Where we serve as managing general partner (or equivalent) of the entities that own our properties, we may have certain fiduciary responsibilities to the other owners of those entities. In certain cases, the approval or consent of the other owners is required before we may sell, finance, expand or make other significant changes in the operations of such properties. To the extent such approvals or consents are required, we may experience difficulty in, or may be prevented from, implementing our plans with respect to expansion, development, financing or other similar transactions with respect to such properties.

With respect to those properties for which we do not serve as managing general partner (or equivalent), we do not have day-to-day operational control or control over certain major decisions, including leasing and the timing and amount of distributions, which could result in decisions by the managing entity that do not fully reflect our interests. This includes decisions relating to the requirements that we must satisfy in order to maintain our status as a REIT for tax purposes. However, decisions relating to sales, expansion and disposition of all or substantially all of the assets and financings are subject to approval by the Operating Partnership.

Bankruptcy of joint venture partners could impose delays and costs on us with respect to the jointly owned retail properties.

In addition to the possible effects on our joint ventures of a bankruptcy filing by us, the bankruptcy of one of the other investors in any of our jointly owned shopping centers could materially and adversely affect the relevant property or properties. Under the bankruptcy laws, we would be precluded from taking some actions affecting the estate of the other investor without prior approval of the bankruptcy court, which would, in most cases, entail prior notice to other parties and a hearing in the bankruptcy court. At a minimum, the requirement to obtain court approval may delay the actions we would or might want to take. If the relevant joint venture through which we have invested in a property has incurred recourse obligations, the discharge in bankruptcy of one of the other investors might result in our ultimate liability for a greater portion of those obligations than we would otherwise bear.

We may incur significant costs related to compliance with environmental laws, which could have a material adverse effect on our results of operations, cash flows and the funds available to us to pay dividends.

Under various federal, state and local laws, ordinances and regulations, a current or previous owner or operator of real estate may be liable for the costs of removal or remediation of petroleum, certain hazardous or toxic substances on, under or in such real estate. Such laws typically impose such liability without regard to whether the owner or operator knew of, or was responsible for, the presence of such substances. The costs of remediation or removal of such substances may be substantial. The presence of such substances, or the failure to promptly remove or remediate such substances, may adversely affect the owner's or operator's ability to lease or sell such real estate or to borrow using such real estate as collateral. Persons who arrange for the disposal or treatment of hazardous or toxic substances may also be liable for the costs of removal or remediation of such substances at the disposal or treatment facility, regardless of whether such facility is owned or operated by such person. Certain laws also impose requirements on conditions and activities that may affect the environment or the impact of the environment on human health. Failure to comply with such requirements could result in the imposition of monetary penalties (in addition to the costs to achieve compliance) and potential liabilities to third parties. Among other things, certain laws require abatement or removal of friable and certain non-friable asbestos-containing materials in the event of demolition or certain renovations or remodeling. Certain laws regarding asbestos-containing materials require building owners and lessees, among other

things, to notify and train certain employees working in areas known or presumed to contain asbestos-containing materials. Certain laws also impose liability for release of asbestos-containing materials into the air and third parties may seek recovery from owners or operators of real properties for personal injury or property damage associated with asbestos-containing materials. In connection with the ownership and operation of properties, we may be potentially liable for all or a portion of such costs or claims.

Table of Contents

All of our properties (but not properties for which we hold an option to purchase but do not yet own) have been subject to Phase I environmental assessments or updates of existing Phase I environmental assessments. Such assessments generally consisted of a visual inspection of the properties, review of federal and state environmental databases and certain information regarding historic uses of the property and adjacent areas and the preparation and issuance of written reports. Some of the properties contain, or contained, underground storage tanks used for storing petroleum products or wastes typically associated with automobile service or other operations conducted at the properties. Certain properties contain, or contained, dry-cleaning establishments utilizing solvents. Where believed to be warranted, samplings of building materials or subsurface investigations were undertaken. At certain properties, where warranted by the conditions, we have developed and implemented an operations and maintenance program that establishes operating procedures with respect to asbestos-containing materials. The cost associated with the development and implementation of such programs was not material. We have also obtained environmental insurance coverage at certain of our properties.

We believe that our properties are in compliance in all material respects with all federal, state and local ordinances and regulations regarding the handling, discharge and emission of hazardous or toxic substances. As of June 30, 2011, we have recorded in our financial statements a liability of \$3.0 million related to potential future asbestos abatement activities at our properties which are not expected to have a material impact on our financial condition or results of operations. We have not been notified by any governmental authority, and are not otherwise aware, of any material noncompliance, liability or claim relating to hazardous or toxic substances in connection with any of our present or former properties. Therefore, we have not recorded any liability related to hazardous or toxic substances. Nevertheless, it is possible that the environmental assessments available to us do not reveal all potential environmental liabilities. It is also possible that subsequent investigations will identify material contamination, that adverse environmental conditions have arisen subsequent to the performance of the environmental assessments, or that there are material environmental liabilities of which management is unaware. Moreover, no assurances can be given that (i) future laws, ordinances or regulations will not impose any material environmental liability or (ii) the current environmental condition of the properties has not been or will not be affected by tenants and occupants of the properties, by the condition of properties in the vicinity of the properties or by third parties unrelated to us, the Operating Partnership or the relevant property's partnership.

Possible terrorist activity or other acts of violence could adversely affect our financial condition and results of operations.

Future terrorist attacks in the United States, and other acts of violence, including terrorism or war, might result in declining consumer confidence and spending, which could harm the demand for goods and services offered by our tenants and the values of our properties, and might adversely affect an investment in our securities. A decrease in retail demand could make it difficult for us to renew or re-lease our properties at lease rates equal to or above historical rates and, to the extent our tenants are affected, could adversely affect their ability to continue to meet obligations under their existing leases. Terrorist activities also could directly affect the value of our properties through damage, destruction or loss. Furthermore, terrorist acts might result in increased volatility in national and international financial markets, which could limit our access to capital or increase our cost of obtaining capital.

RISKS RELATED TO OUR BUSINESS AND THE MARKET FOR OUR STOCK

Declines in economic conditions, including increased volatility in the capital and credit markets, could adversely affect our business, results of operations and financial condition.

An economic recession can result in extreme volatility and disruption of our capital and credit markets. The resulting economic environment may be affected by dramatic declines in the stock and housing markets, increases in foreclosures, unemployment and costs of living, as well as limited access to credit. This economic situation can, and most often will, impact consumer spending levels, which can result in decreased revenues for our tenants and related

decreases in the values of our properties. A sustained economic downward

Table of Contents

trend could impact our tenants' ability to meet their lease obligations due to poor operating results, lack of liquidity, bankruptcy or other reasons. Our ability to lease space and negotiate rents at advantageous rates could also be affected in this type of economic environment. Additionally, access to capital and credit markets could be disrupted over an extended period, which may make it difficult to obtain the financing we may need for future growth and/or to meet our debt service obligations as they mature. Any of these events could harm our business, results of operations and financial condition.

Any future common stock offerings and common stock dividends may result in dilution of our common stock.

We are not restricted by our organizational documents, contractual arrangements or otherwise from issuing additional common stock, including any securities that are convertible into or exchangeable or exercisable for, or that represent the right to receive, common stock or any substantially similar securities in the future. Future sales or issuances of substantial amounts of our common stock may be at prices below the then-current market price of our common stock and may adversely impact the market price of our common stock. Additionally, the market price of our common stock could decline as a result of sales of a large number of shares of our common stock in the market after a common stock offering or the perception that such sales could occur.

The market price of our common stock or other securities may fluctuate significantly.

The market price of our common stock or other securities may fluctuate significantly in response to many factors, including:

- actual or anticipated variations in our operating results, funds from operations, cash flows or liquidity;
 - changes in our earnings estimates or those of analysts;
 - changes in our dividend policy;
- impairment charges affecting the carrying value of one or more of our properties or other assets;
- publication of research reports about us, the retail industry or the real estate industry generally;
- increases in market interest rates that lead purchasers of our securities to seek higher dividend or interest rate yields;
 - changes in market valuations of similar companies;
- adverse market reaction to the amount of our outstanding debt at any time, the amount of our maturing debt in the near and medium term and our ability to refinance such debt and the terms thereof or our plans to incur additional debt in the future;
 - additions or departures of key management personnel;
 - actions by institutional security holders;
- proposed or adopted regulatory or legislative changes or developments;
 - speculation in the press or investment community;
- the occurrence of any of the other risk factors included in, or incorporated by reference in, this report; and

- general market and economic conditions.

Many of the factors listed above are beyond our control. Those factors may cause the market price of our common stock or other securities to decline significantly, regardless of our financial performance and condition and prospects. It is impossible to provide any assurance that the market price of our common stock or other securities will not fall in the future, and it may be difficult for holders to sell such securities at prices they find attractive, or at all.

The issuance of additional preferred stock may adversely affect the earnings per share available to common shareholders and amounts available to common shareholders for payments of dividends.

Table of Contents

In March 2010, we completed an equity offering of 6,300,000 depositary shares, each representing 1/10th of a share of our 7.375% Series D Cumulative Redeemable Preferred Stock, having a liquidation preference of \$25.00 per share. The securities are redeemable at liquidation preference, plus accrued and unpaid dividends, at any time at the option of the Company. The shares issued in the March 2010 offering will accrue dividends totaling approximately \$11.6 million annually, decreasing earnings per share available to our common shareholders and the amounts available to our common shareholders for dividend payments.

In October 2010, we completed an additional equity offering of 4,400,000 depositary shares, each representing 1/10th of a share of our 7.375% Series D Cumulative Redeemable Preferred Stock, having a liquidation preference of \$25.00 per share. Subsequent thereto, the underwriters of the offering exercised their option to purchase an additional 450,000 depositary shares. As a result of the exercise of this option, the Company sold a total of 4,850,000 depositary shares in the offering. The securities are redeemable at liquidation preference, plus accrued and unpaid dividends, at any time at the option of the Company. The shares issued in the October 2010 offering will accrue dividends totaling approximately \$8.9 million annually, decreasing earnings per share available to our common shareholders and the amounts available to our common shareholders for dividend payments.

We are not restricted by our organizational documents, contractual arrangements or otherwise from issuing additional preferred shares, including any securities that are convertible into or exchangeable or exercisable for, or that represent the right to receive, preferred stock or any substantially similar securities in the future.

Competition could adversely affect the revenues generated by our properties, resulting in a reduction in funds available for distribution to our stockholders.

There are numerous shopping facilities that compete with our properties in attracting retailers to lease space. In addition, retailers at our properties face competition for customers from:

- discount shopping centers;
- outlet malls;
- wholesale clubs;
- direct mail;
- television shopping networks; and
- shopping via the internet.

Each of these competitive factors could adversely affect the amount of rents and tenant reimbursements that we are able to collect from our tenants, thereby reducing our revenues and the funds available for distribution to our stockholders.

We compete with many commercial developers, real estate companies and major retailers for prime development locations and for tenants. New regional malls or other retail shopping centers with more convenient locations or better rents may attract tenants or cause them to seek more favorable lease terms at, or prior to, renewal.

Increased operating expenses and decreased occupancy rates may not allow us to recover the majority of our common area maintenance (CAM) and other operating expenses from our tenants, which could adversely affect our financial position, results of operations and funds available for future distributions.

Energy costs, repairs, maintenance and capital improvements to common areas of our properties, janitorial services, administrative, property and liability insurance costs and security costs are typically allocable to our properties' tenants. Our lease agreements typically provide that the tenant is liable for a portion of the CAM and other operating expenses. While historically our lease agreements provided for variable CAM provisions, the majority of our current leases require an equal periodic tenant reimbursement amount for

Table of Contents

our cost recoveries which serves to fix our tenants' CAM contributions to us. In these cases, a tenant will pay a single specified rent amount, or a set expense reimbursement amount, subject to annual increases, regardless of the actual amount of operating expenses. The tenant's payment remains the same regardless of whether operating expenses increase or decrease, causing us to be responsible for any excess amounts or to benefit from any declines. As a result, the CAM and tenant reimbursements that we receive may or may not allow us to recover a substantial portion of these operating costs.

Additionally, in the event that our properties are not fully occupied, we would be required to pay the portion of any operating, redevelopment or renovation expenses allocable to the vacant space(s) that would otherwise typically be paid by the residing tenant(s).

The loss of one or more significant tenants, due to bankruptcies or as a result of consolidations in the retail industry, could adversely affect both the operating revenues and value of our properties.

Regional malls are typically anchored by well-known department stores and other significant tenants who generate shopping traffic at the mall. A decision by an anchor tenant or other significant tenant to cease operations at one or more properties could have a material adverse effect on those properties and, by extension, on our financial condition and results of operations. The closing of an anchor or other significant tenant may allow other anchors and/or tenants at an affected property to terminate their leases, to seek rent relief and/or cease operating their stores or otherwise adversely affect occupancy at the property. In addition, key tenants at one or more properties might terminate their leases as a result of mergers, acquisitions, consolidations, dispositions or bankruptcies in the retail industry. The bankruptcy and/or closure of one or more significant tenants, if we are not able to successfully re-tenant the affected space, could have a material adverse effect on both the operating revenues and underlying value of the properties involved, reducing the likelihood that we would be able to sell the properties if we decided to do so, or we may be required to incur redevelopment costs in order to successfully obtain new anchors or other significant tenants when such vacancies exist.

Our properties may be subject to impairment charges which can adversely affect our financial results.

We periodically evaluate long-lived assets to determine if there has been any impairment in their carrying values and record impairment losses if the undiscounted cash flows estimated to be generated by those assets are less than their carrying amounts or if there are other indicators of impairment. If it is determined that an impairment has occurred, the amount of the impairment charge is equal to the excess of the asset's carrying value over its estimated fair value, which could have a material adverse effect on our financial results in the accounting period in which the adjustment is made. Our estimates of undiscounted cash flows expected to be generated by each property are based on a number of assumptions such as leasing expectations, operating budgets, estimated useful lives, future maintenance expenditures, intent to hold for use and capitalization rates. These assumptions are subject to economic and market uncertainties including, but not limited to, demand for space, competition for tenants, changes in market rental rates and costs to operate each property. As these factors are difficult to predict and are subject to future events that may alter our assumptions, the future cash flows estimated in our impairment analyses may not be achieved.

Inflation or deflation may adversely affect our financial condition and results of operations.

Increased inflation could have a pronounced negative impact on our mortgage and debt interest and general and administrative expenses, as these costs could increase at a rate higher than our rents. Also, inflation may adversely affect tenant leases with stated rent increases, which could be lower than the increase in inflation at any given time. Inflation could also have an adverse effect on consumer spending which could impact our tenants' sales and, in turn, our percentage rents, where applicable.

Deflation can result in a decline in general price levels, often caused by a decrease in the supply of money or credit. The predominant effects of deflation are high unemployment, credit contraction and weakened consumer demand. Restricted lending practices could impact our ability to obtain financings or refinancings for our properties and our tenants' ability to obtain credit. Decreases in consumer demand can have a direct impact on our tenants and the rents we receive.

Certain agreements with prior owners of properties that we have acquired may inhibit our ability to enter into future sale or refinancing transactions affecting such properties, which otherwise would be in the best interests of the Company and our stockholders.

Table of Contents

Certain properties that we originally acquired from third parties had unrealized gain attributable to the difference between the fair market value of such properties and the third parties' adjusted tax basis in the properties immediately prior to their contribution of such properties to the Operating Partnership pursuant to our acquisition. For this reason, a taxable sale by us of any of such properties, or a significant reduction in the debt encumbering such properties, could result in adverse tax consequences to the third parties who contributed these properties in exchange for interests in the Operating Partnership. Under the terms of these transactions, we have generally agreed that we either will not sell or refinance such an acquired property for a number of years in any transaction that would trigger adverse tax consequences for the parties from whom we acquired such property, or else we will reimburse such parties for all or a portion of the additional taxes they are required to pay as a result of the transaction. Accordingly, these agreements may cause us not to engage in future sale or refinancing transactions affecting such properties which otherwise would be in the best interests of the Company and our stockholders, or may increase the costs to us of engaging in such transactions.

Uninsured losses could adversely affect our financial condition, and in the future our insurance may not include coverage for acts of terrorism.

We carry a comprehensive blanket policy for general liability, property casualty (including fire, earthquake and flood) and rental loss covering all of the properties, with specifications and insured limits customarily carried for similar properties. However, even insured losses could result in a serious disruption to our business and delay our receipt of revenue. Furthermore, there are some types of losses, including lease and other contract claims, as well as some types of environmental losses, that generally are not insured or are not economically insurable. If an uninsured loss or a loss in excess of insured limits occurs, we could lose all or a portion of the capital we have invested in a property, as well as the anticipated future revenues from the property. If this happens, we, or the applicable property's partnership, may still remain obligated for any mortgage debt or other financial obligations related to the property.

The general liability and property casualty insurance policies on our properties currently include coverage for losses resulting from acts of terrorism, whether foreign or domestic. While we believe that the properties are adequately insured in accordance with industry standards, the cost of general liability and property casualty insurance policies that include coverage for acts of terrorism has risen significantly subsequent to September 11, 2001. The cost of coverage for acts of terrorism is currently mitigated by the Terrorism Risk Insurance Act ("TRIA"). If TRIA is not extended beyond its current expiration date of December 31, 2014, we may incur higher insurance costs and greater difficulty in obtaining insurance that covers terrorist-related damages. Our tenants may also experience similar difficulties.

RISKS RELATED TO DEBT AND FINANCIAL MARKETS

A deterioration of the capital and credit markets could adversely affect our ability to access funds and the capital needed to refinance debt or obtain new debt.

We are significantly dependent upon external financing to fund the growth of our business and ensure that we meet our debt servicing requirements. Our access to financing depends on the willingness of lending institutions to grant credit to us and conditions in the capital markets in general. An economic recession may cause extreme volatility and disruption in the capital and credit markets. We rely upon our largest credit facilities as sources of funding for numerous transactions. Our access to these funds is dependent upon the ability of each of the participants to the credit facilities to meet their funding commitments. When markets are volatile, access to capital and credit markets could be disrupted over an extended period of time and many financial institutions may not have the available capital to meet their previous commitments. The failure of one or more significant participants to our credit facilities to meet their funding commitments could have an adverse affect on our financial condition and results of operations. This may make it difficult to obtain the financing we may need for future growth and/or to meet our debt service obligations as they mature. Although we have successfully obtained debt for refinancings of our maturing debt,

acquisitions and the construction of new developments in the past, we cannot make any assurances as to whether we will be able to obtain debt in the future, or that the financing options available to us will be on favorable or acceptable terms.

Table of Contents

Our indebtedness is substantial and could impair our ability to obtain additional financing.

At June 30, 2011, our total share of consolidated and unconsolidated debt outstanding was approximately \$5,723.0 million, which represented approximately 58.7% of our total market capitalization at that time, and our total share of consolidated and unconsolidated debt maturing in 2011, 2012 and 2013, giving effect to all maturity extensions that are available at our election, was approximately \$147.1 million, \$933.5 million and \$982.4 million, respectively. Our significant leverage could have important consequences. For example, it could:

- result in the acceleration of a significant amount of debt for non-compliance with the terms of such debt or, if such debt contains cross-default or cross-acceleration provisions, other debt;
- result in the loss of assets due to foreclosure or sale on unfavorable terms, which could create taxable income without accompanying cash proceeds;
- materially impair our ability to borrow unused amounts under existing financing arrangements or to obtain additional financing or refinancing on favorable terms or at all;
- require us to dedicate a substantial portion of our cash flow to paying principal and interest on our indebtedness, reducing the cash flow available to fund our business, to pay dividends, including those necessary to maintain our REIT qualification, or to use for other purposes;
 - increase our vulnerability to an economic downturn;
 - limit our ability to withstand competitive pressures; or
 - reduce our flexibility to respond to changing business and economic conditions.

If any of the foregoing occurs, our business, financial condition, liquidity, results of operations and prospects could be materially and adversely affected, and the trading price of our common stock or other securities could decline significantly.

Rising interest rates could both increase our borrowing costs, thereby adversely affecting our cash flows and the amounts available for distributions to our stockholders, and decrease our stock price, if investors seek higher yields through other investments.

An environment of rising interest rates could lead holders of our securities to seek higher yields through other investments, which could adversely affect the market price of our stock. One of the factors that may influence the price of our stock in public markets is the annual distribution rate we pay as compared with the yields on alternative investments. Numerous other factors, such as governmental regulatory action and tax laws, could have a significant impact on the future market price of our stock. In addition, increases in market interest rates could result in increased borrowing costs for us, which may adversely affect our cash flow and the amounts available for distributions to our stockholders.

As of June 30, 2011, our total share of consolidated and unconsolidated variable rate debt was \$1,264.3 million. Increases in interest rates will increase our cash interest payments on the variable rate debt we have outstanding from time to time. If we do not have sufficient cash flow from operations, we might not be able to make all required payments of principal and interest on our debt, which could result in a default or have a material adverse effect on our financial condition and results of operations, and which might adversely affect our cash flow and our ability to make distributions to shareholders. These significant debt payment obligations might also require us to use a significant portion of our cash flow from operations to make interest and principal payments on our debt rather than

for other purposes such as working capital, capital expenditures or distributions on our common equity.

Certain of our credit facilities, the loss of which could have a material, adverse impact on our financial condition and results of operations, are conditioned upon the Operating Partnership continuing to be managed by certain members of its current senior management and by such members of senior management continuing to own a significant direct or indirect equity interest in the Operating Partnership.

Table of Contents

Certain of the Operating Partnership's lines of credit are conditioned upon the Operating Partnership continuing to be managed by certain members of its current senior management and by such members of senior management continuing to own a significant direct or indirect equity interest in the Operating Partnership (including both units of limited partnership in the Operating Partnership and shares of our common stock owned by such members of senior management). If the failure of one or more of these conditions resulted in the loss of these credit facilities and we were unable to obtain suitable replacement financing, such loss could have a material, adverse impact on our financial position and results of operations.

Our hedging arrangements might not be successful in limiting our risk exposure, and we might be required to incur expenses in connection with these arrangements or their termination that could harm our results of operations or financial condition.

From time to time, we use interest rate hedging arrangements to manage our exposure to interest rate volatility, but these arrangements might expose us to additional risks, such as requiring that we fund our contractual payment obligations under such arrangements in relatively large amounts or on short notice. Developing an effective interest rate risk strategy is complex, and no strategy can completely insulate us from risks associated with interest rate fluctuations. We cannot assure you that our hedging activities will have a positive impact on our results of operations or financial condition. We might be subject to additional costs, such as transaction fees or breakage costs, if we terminate these arrangements. In addition, although our interest rate risk management policy establishes minimum credit ratings for counterparties, this does not eliminate the risk that a counterparty might fail to honor its obligations, particularly given current market conditions.

The covenants in our credit facilities might adversely affect us.

Our credit facilities require us to satisfy certain affirmative and negative covenants and to meet numerous financial tests. The financial covenants under the credit facilities require, among other things, that our Debt to Gross Asset Value ratio, as defined in the agreements to our credit facilities, be less than 65%, that our Interest Coverage ratio, as defined, be greater than 1.75, and that our Debt Service Coverage ratio, as defined, be greater than 1.50. Compliance with each of these ratios is dependent upon our financial performance. The Debt to Gross Asset Value ratio is based, in part, on applying a capitalization rate to our earnings before income taxes, depreciation and amortization ("EBITDA"), as defined in the agreements to our credit facilities. Based on this calculation method, decreases in EBITDA would result in an increased Debt to Gross Asset Value ratio, although overall debt levels remain constant. As of June 30, 2011, the Debt to Gross Asset Value ratio was 56.3% and we were in compliance with all other covenants related to our credit facilities.

RISKS RELATED TO GEOGRAPHIC CONCENTRATIONS

Since our properties are located principally in the Southeastern and Midwestern United States, our financial position, results of operations and funds available for distribution to shareholders are subject generally to economic conditions in these regions.

Our properties are located principally in the southeastern and midwestern United States. Our properties located in the southeastern United States accounted for approximately 48.7% of our total revenues from all properties for the six months ended June 30, 2011 and currently include 42 malls, 20 associated centers, ten community centers and 18 office buildings. Our properties located in the midwestern United States accounted for approximately 33.3% of our total revenues from all properties for the six months ended June 30, 2011 and currently include 26 malls and four associated centers. Our results of operations and funds available for distribution to shareholders therefore will be subject generally to economic conditions in the southeastern and midwestern United States. While we already have properties located in six states across the southwestern, northeastern and western regions, we will continue to look for

opportunities to geographically diversify our portfolio in order to minimize dependency on any particular region; however, the expansion of the portfolio through both acquisitions and developments is contingent on many factors including consumer demand, competition and economic conditions.

Table of Contents

Our financial position, results of operations and funds available for distribution to shareholders could be adversely affected by any economic downturn affecting the operating results at our properties in the St. Louis, MO, Nashville, TN, Kansas City (Overland Park), KS, Madison, WI, and Chattanooga, TN metropolitan areas, which are our five largest markets.

Our properties located in the St. Louis, MO, Nashville, TN, Kansas City (Overland Park), KS, Madison, WI, and Chattanooga, TN metropolitan areas accounted for approximately 10.0%, 3.9%, 3.2%, 3.0% and 2.8%, respectively, of our total revenues for the six months ended June 30, 2011. No other market accounted for more than 2.7% of our total revenues for the six months ended June 30, 2011. Our financial position and results of operations will therefore be affected by the results experienced at properties located in these metropolitan areas.

RISKS RELATED TO INTERNATIONAL INVESTMENTS

Ownership interests in investments or joint ventures outside the United States present numerous risks that differ from those of our domestic investments.

International development and ownership activities yield additional risks that differ from those related to our domestic properties and operations. These additional risks include, but are not limited to:

- Impact of adverse changes in exchange rates of foreign currencies;
- Difficulties in the repatriation of cash and earnings;
- Differences in managerial styles and customs;
- Changes in applicable laws and regulations in the United States that affect foreign operations;
- Changes in foreign political, legal and economic environments; and
- Differences in lending practices.

Our international activities are currently limited in their scope. We have an investment in a mall operating and real estate development company in China that is immaterial to our consolidated financial position. However, should our investments in international joint ventures or other international developments grow, these additional risks could increase in significance and adversely affect our results of operations.

RISKS RELATED TO DIVIDENDS

We may change the dividend policy for our common stock in the future.

Depending upon our liquidity needs, we reserve the right to pay any or all of a dividend in a combination of cash and shares of common stock, in accordance with applicable revenue procedures of the IRS. In the event that we pay a portion of our dividends in shares of our common stock pursuant to such procedures, taxable U.S. stockholders would be required to pay tax on the entire amount of the dividend, including the portion paid in shares of common stock, in which case such stockholders may have to use cash from other sources to pay such tax. If a U.S. stockholder sells the common stock it receives as a dividend in order to pay its taxes, the sales proceeds may be less than the amount included in income with respect to the dividend, depending on the market price of our common stock at the time of the sale. Furthermore, with respect to non-U.S. stockholders, we may be required to withhold federal tax with respect to our dividends, including dividends that are paid in common stock. In addition, if a significant number of our

stockholders sell shares of our common stock in order to pay taxes owed on dividends, such sales would put downward pressure on the market price of our common stock.

The decision to declare and pay dividends on our common stock in the future, as well as the timing, amount and composition of any such future dividends, will be at the sole discretion of our Board of Directors and will depend on our earnings, taxable income, funds from operations, liquidity, financial condition, capital requirements, contractual prohibitions or other limitations under our indebtedness and preferred stock, the annual distribution requirements under the REIT provisions of the Internal Revenue Code of 1986, as amended (the “Internal Revenue Code”), Delaware law and such other factors as our Board of Directors deems relevant. Any dividends payable will be determined by our Board of Directors based upon the circumstances at the time of declaration. Any change in our dividend policy could have a material adverse effect on the market price of our common stock.

Table of Contents

Since we conduct substantially all of our operations through our Operating Partnership, our ability to pay dividends on our common and preferred stock depends on the distributions we receive from our Operating Partnership.

Because we conduct substantially all of our operations through our Operating Partnership, our ability to pay dividends on our common and preferred stock will depend almost entirely on payments and distributions we receive on our interests in our Operating Partnership. Additionally, the terms of some of the debt to which our Operating Partnership is a party may limit its ability to make some types of payments and other distributions to us. This in turn may limit our ability to make some types of payments, including payment of dividends to our stockholders, unless we meet certain financial tests. As a result, if our Operating Partnership fails to pay distributions to us, we generally will not be able to pay dividends to our stockholders for one or more dividend periods.

RISKS RELATED TO FEDERAL INCOME TAX LAWS

We conduct a portion of our business through taxable REIT subsidiaries, which are subject to certain tax risks.

We have established several taxable REIT subsidiaries including our Management Company. Despite our qualification as a REIT, our taxable REIT subsidiaries must pay income tax on their taxable income. In addition, we must comply with various tests to continue to qualify as a REIT for federal income tax purposes, and our income from and investments in our taxable REIT subsidiaries generally do not constitute permissible income and investments for these tests. While we will attempt to ensure that our dealings with our taxable REIT subsidiaries will not adversely affect our REIT qualification, we cannot provide assurance that we will successfully achieve that result. Furthermore, we may be subject to a 100% penalty tax, or our taxable REIT subsidiaries may be denied deductions, to the extent our dealings with our taxable REIT subsidiaries are not deemed to be arm's length in nature.

If we fail to qualify as a REIT in any taxable year, our funds available for distribution to stockholders will be reduced.

We intend to continue to operate so as to qualify as a REIT under the Internal Revenue Code. Although we believe that we are organized and operate in such a manner, no assurance can be given that we currently qualify and in the future will continue to qualify as a REIT. Such qualification involves the application of highly technical and complex Internal Revenue Code provisions for which there are only limited judicial or administrative interpretations. The determination of various factual matters and circumstances not entirely within our control may affect our ability to qualify. In addition, no assurance can be given that legislation, new regulations, administrative interpretations or court decisions will not significantly change the tax laws with respect to qualification or its corresponding federal income tax consequences. Any such change could have a retroactive effect.

If in any taxable year we were to fail to qualify as a REIT, we would not be allowed a deduction for distributions to stockholders in computing our taxable income and we would be subject to federal income tax on our taxable income at regular corporate rates. Unless entitled to relief under certain statutory provisions, we also would be disqualified from treatment as a REIT for the four taxable years following the year during which qualification was lost. As a result, the funds available for distribution to our stockholders would be reduced for each of the years involved. This would likely have a significant adverse effect on the value of our securities and our ability to raise additional capital. In addition, we would no longer be required to make distributions to our stockholders. We currently intend to operate in a manner designed to qualify as a REIT. However, it is possible that future economic, market, legal, tax or other considerations may cause our Board of Directors, with the consent of a majority of our stockholders, to revoke the REIT election.

Any issuance or transfer of our capital stock to any person in excess of the applicable limits on ownership necessary to maintain our status as a REIT would be deemed void ab initio, and those shares would automatically be transferred to a non-affiliated charitable trust.

Table of Contents

To maintain our status as a REIT under the Internal Revenue Code, not more than 50% in value of our outstanding capital stock may be owned, directly or indirectly, by five or fewer individuals (as defined in the Internal Revenue Code to include certain entities) at any time during the last half of a taxable year. Our certificate of incorporation generally prohibits ownership of more than 6% of the outstanding shares of our capital stock by any single stockholder determined by vote, value or number of shares (other than Charles Lebovitz, Executive Chairman of our board of directors and our former Chief Executive Officer, David Jacobs, Richard Jacobs and their affiliates under the Internal Revenue Code's attribution rules). The affirmative vote of 66 2/3% of our outstanding voting stock is required to amend this provision.

Our board of directors may, subject to certain conditions, waive the applicable ownership limit upon receipt of a ruling from the IRS or an opinion of counsel to the effect that such ownership will not jeopardize our status as a REIT. Absent any such waiver, however, any issuance or transfer of our capital stock to any person in excess of the applicable ownership limit or any issuance or transfer of shares of such stock which would cause us to be beneficially owned by fewer than 100 persons, will be null and void and the intended transferee will acquire no rights to the stock. Instead, such issuance or transfer with respect to that number of shares that would be owned by the transferee in excess of the ownership limit provision would be deemed void ab initio and those shares would automatically be transferred to a trust for the exclusive benefit of a charitable beneficiary to be designated by us, with a trustee designated by us, but who would not be affiliated with us or with the prohibited owner. Any acquisition of our capital stock and continued holding or ownership of our capital stock constitutes, under our certificate of incorporation, a continuous representation of compliance with the applicable ownership limit.

In order to maintain our status as a REIT and avoid the imposition of certain additional taxes under the Internal Revenue Code, we must satisfy minimum requirements for distributions to shareholders, which may limit the amount of cash we might otherwise have been able to retain for use in growing our business.

To maintain our status as a REIT under the Internal Revenue Code, we generally will be required each year to distribute to our stockholders at least 90% of our taxable income after certain adjustments. However, to the extent that we do not distribute all of our net capital gains or distribute at least 90% but less than 100% of our REIT taxable income, as adjusted, we will be subject to tax on the undistributed amount at regular corporate tax rates, as the case may be. In addition, we will be subject to a 4% nondeductible excise tax on the amount, if any, by which certain distributions paid by us during each calendar year are less than the sum of 85% of our ordinary income for such calendar year, 95% of our capital gain net income for the calendar year and any amount of such income that was not distributed in prior years. In the case of property acquisitions, including our initial formation, where individual properties are contributed to our Operating Partnership for Operating Partnership units, we have assumed the tax basis and depreciation schedules of the entities' contributing properties. The relatively low tax basis of such contributed properties may have the effect of increasing the cash amounts we are required to distribute as dividends, thereby potentially limiting the amount of cash we might otherwise have been able to retain for use in growing our business. This low tax basis may also have the effect of reducing or eliminating the portion of distributions made by us that are treated as a non-taxable return of capital.

Complying with REIT requirements might cause us to forego otherwise attractive opportunities.

In order to qualify as a REIT for U.S. federal income tax purposes, we must satisfy tests concerning, among other things, our sources of income, the nature of our assets, the amounts we distribute to our shareholders and the ownership of our stock. We may also be required to make distributions to our shareholders at disadvantageous times or when we do not have funds readily available for distribution. Thus, compliance with REIT requirements may cause us to forego opportunities we would otherwise pursue. In addition, the REIT provisions of the Internal Revenue Code impose a 100% tax on income from "prohibited transactions." "Prohibited transactions" generally include sales of assets that constitute inventory or other property held for sale in the ordinary course of business, other than foreclosure property. This 100% tax could impact our desire to sell assets and other investments at otherwise opportune times if

we believe such sales could be considered “prohibited transactions.”

Table of Contents

Our holding company structure makes us dependent on distributions from the Operating Partnership.

Because we conduct our operations through the Operating Partnership, our ability to service our debt obligations and pay dividends to our shareholders is strictly dependent upon the earnings and cash flows of the Operating Partnership and the ability of the Operating Partnership to make distributions to us. Under the Delaware Revised Uniform Limited Partnership Act, the Operating Partnership is prohibited from making any distribution to us to the extent that at the time of the distribution, after giving effect to the distribution, all liabilities of the Operating Partnership (other than some non-recourse liabilities and some liabilities to the partners) exceed the fair value of the assets of the Operating Partnership. Additionally, the terms of some of the debt to which our Operating Partnership is a party may limit its ability to make some types of payments and other distributions to us. This in turn may limit our ability to make some types of payments, including payment of dividends on our outstanding capital stock, unless we meet certain financial tests or such payments or dividends are required to maintain our qualification as a REIT or to avoid the imposition of any federal income or excise tax on undistributed income. Any inability to make cash distributions from the Operating Partnership could jeopardize our ability to pay dividends on our outstanding shares of capital stock and to maintain qualification as a REIT.

RISKS RELATED TO OUR ORGANIZATIONAL STRUCTURE

The ownership limit described above, as well as certain provisions in our amended and restated certificate of incorporation and bylaws, and certain provisions of Delaware law, may hinder any attempt to acquire us.

There are certain provisions of Delaware law, our amended and restated certificate of incorporation, our bylaws, and other agreements to which we are a party that may have the effect of delaying, deferring or preventing a third party from making an acquisition proposal for us. These provisions may also inhibit a change in control that some, or a majority, of our stockholders might believe to be in their best interest or that could give our stockholders the opportunity to realize a premium over the then-prevailing market prices for their shares. These provisions and agreements are summarized as follows:

- **The Ownership Limit** – As described above, to maintain our status as a REIT under the Internal Revenue Code, not more than 50% in value of our outstanding capital stock may be owned, directly or indirectly, by five or fewer individuals (as defined in the Internal Revenue Code to include certain entities) during the last half of a taxable year. Our certificate of incorporation generally prohibits ownership of more than 6% of the outstanding shares of our capital stock by any single stockholder determined by value (other than Charles Lebovitz, David Jacobs, Richard Jacobs and their affiliates under the Internal Revenue Code's attribution rules). In addition to preserving our status as a REIT, the ownership limit may have the effect of precluding an acquisition of control of us without the approval of our board of directors.
- **Classified Board of Directors; Removal for Cause** – Historically, our certificate of incorporation has provided for a board of directors divided into three classes, with one class elected each year to serve for a three-year term. As a result, at least two annual meetings of stockholders may have been required for the stockholders to change a majority of our board of directors. While our stockholders approved an amendment to our certificate of incorporation at our 2011 annual meeting to declassify the board of directors, this declassification will be phased in over three years in a manner that does not alter the term of any current director. Accordingly, this transition will not be completed, with all directors standing for election on an annual basis, until our 2014 annual meeting of stockholders. In addition, our stockholders can only remove directors for cause and only by a vote of 75% of the outstanding voting stock. Collectively, these provisions make it more difficult to change the composition of our board of directors and may have the effect of encouraging persons considering unsolicited tender offers or other unilateral takeover proposals to negotiate with our board of directors rather than pursue non-negotiated takeover attempts.

- Advance Notice Requirements for Stockholder Proposals – Our bylaws establish advance notice procedures with regard to stockholder proposals relating to the nomination of candidates for election as directors or new business to be brought before meetings of our stockholders. These procedures generally require advance written notice of any such proposals, containing prescribed information, to be given to our Secretary at our principal executive offices not less than 60 days or no more than 90 days prior to the meeting.

Table of Contents

- Vote Required to Amend Bylaws – A vote of 66 2/3% of our outstanding voting stock (in addition to any separate approval that may be required by the holders of any particular class of stock) is necessary for stockholders to amend our bylaws.
- Delaware Anti-Takeover Statute – We are a Delaware corporation and are subject to Section 203 of the Delaware General Corporation Law. In general, Section 203 prevents an “interested stockholder” (defined generally as a person owning 15% or more of a company’s outstanding voting stock) from engaging in a “business combination” (as defined in Section 203) with us for three years following the date that person becomes an interested stockholder unless:
 - (a)before that person became an interested holder, our board of directors approved the transaction in which the interested holder became an interested stockholder or approved the business combination;
 - (b)upon completion of the transaction that resulted in the interested stockholder becoming an interested stockholder, the interested stockholder owns 85% of our voting stock outstanding at the time the transaction commenced (excluding stock held by directors who are also officers and by employee stock plans that do not provide employees with the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer); or
 - (c)following the transaction in which that person became an interested stockholder, the business combination is approved by our board of directors and authorized at a meeting of stockholders by the affirmative vote of the holders of at least two-thirds of our outstanding voting stock not owned by the interested stockholder.

Under Section 203, these restrictions also do not apply to certain business combinations proposed by an interested stockholder following the announcement or notification of certain extraordinary transactions involving us and a person who was not an interested stockholder during the previous three years or who became an interested stockholder with the approval of a majority of our directors, if that extraordinary transaction is approved or not opposed by a majority of the directors who were directors before any person became an interested stockholder in the previous three years or who were recommended for election or elected to succeed such directors by a majority of directors then in office.

Certain ownership interests held by members of our senior management may tend to create conflicts of interest between such individuals and the interests of the Company and our Operating Partnership.

- Tax Consequences of the Sale or Refinancing of Certain Properties – Since certain of our properties had unrealized gain attributable to the difference between the fair market value and adjusted tax basis in such properties immediately prior to their contribution to the Operating Partnership, a taxable sale of any such properties, or a significant reduction in the debt encumbering such properties, could cause adverse tax consequences to the members of our senior management who owned interests in our predecessor entities. As a result, members of our senior management might not favor a sale of a property or a significant reduction in debt even though such a sale or reduction could be beneficial to us and the Operating Partnership. Our bylaws provide that any decision relating to the potential sale of any property that would result in a disproportionately higher taxable income for members of our senior management than for us and our stockholders, or that would result in a significant reduction in such property’s debt, must be made by a majority of the independent directors of the board of directors. The Operating Partnership is required, in the case of such a sale, to distribute to its partners, at a minimum, all of the net cash proceeds from such sale up to an amount reasonably believed necessary to enable members of our senior management to pay any income tax liability arising from such sale.
- Interests in Other Entities; Policies of the Board of Directors – Certain entities owned in whole or in part by members of our senior management, including the construction company that built or renovated most of our properties, may

continue to perform services for, or transact business with, us and the Operating Partnership. Furthermore, certain property tenants are affiliated with members of our senior management. Accordingly, although our bylaws provide that any contract or transaction between us or the Operating Partnership and one or more of our directors or officers, or between us or the Operating Partnership and any other entity in which one or more of our directors or officers are directors or officers or have a financial interest, must be approved by our disinterested directors or stockholders after the material facts of the relationship or interest of the contract or transaction are disclosed or are known to them, these affiliations could nevertheless create conflicts between the interests of these members of senior management and the interests of the Company, our shareholders and the Operating Partnership in relation to any transactions between us and any of these entities.

ITEM 2: Unregistered Sales of Equity Securities and Use of Proceeds

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share (2)	Total Number of Shares Purchased as Part of a Publicly Announced Plan	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plan
April 1–30, 2011	—	\$ —	—	\$ —
May 1–31, 2011	4,044	18.39	—	—
June 1–30, 2011	62	16.98	—	—
Total	4,106	\$ 18.37	—	\$ —

- (1) Represents shares surrendered to the Company by employees to satisfy federal and state income tax withholding requirements related to the vesting of shares of restricted stock.
- (2) Represents the market value of the common stock on the vesting date for the shares of restricted stock, which was used to determine the number of shares required to be surrendered to satisfy income tax withholding requirements.

ITEM 3: Defaults Upon Senior Securities

None

ITEM 4: (Removed and Reserved)

ITEM 5: Other Information

(a) On June 1, 2011, pursuant to terms previously approved by the Company's Board of Directors on May 2, 2011 (including approval by unanimous vote of the Company's independent, non-employee directors), CBL & Associates Management, Inc. (the "Management Company"), a subsidiary of the Company, acquired beneficial ownership of a 2001 Cessna Citation Excel jet aircraft from 100 SC Partners Limited Partnership ("100 SC"), an entity controlled by Charles B. Lebovitz, Chairman of the Board of the Company. In order to streamline compliance with certain FAA regulatory filing requirements, the transaction was structured as an acquisition by the Management Company of 100% of the beneficial interests of a trust of which 560, Inc., a Tennessee corporation wholly owned by Charles B. Lebovitz, serves as trustee, which resulted in the Management Company acquiring 100% of the beneficial ownership as well as all operational control, possession, command and control with respect to the aircraft. Under the terms of the transaction, which were based on the current fair market value of the aircraft as established by an independent appraisal, the Management Company paid cash consideration of approximately \$2.7 million for the aircraft. The Management Company also will be responsible for overhauling the aircraft's engines at a cost of approximately \$1.3 million.

Additional information concerning the ownership of 100 SC and the terms on which the Company utilized this aircraft for business purposes from time to time prior to its purchase by the Management Company are set forth in the Company's definitive proxy statement for the 2011 Annual Meeting of Stockholders under the heading "Certain Relationships and Related Person Transactions – Affiliated Entities." Such information is incorporated herein by reference. Pursuant to a resolution adopted by the Company's Board of Directors and subject to the limitations of the Federal Aviation Regulations as currently interpreted by the Federal Aviation Administration's Chief Counsel,

Company executives who utilize this aircraft for personal transportation (as specified in such resolution) will, in connection with such usage, reimburse the Company an amount not to exceed the Company's cost of owning, operating, and maintaining the aircraft.

Table of Contents

- (b) On June 29, 2011, we modified our \$520.0 million secured credit facility with Wells Fargo Bank NA, as administrative agent, to remove the LIBOR floor of 1.50%. Pursuant to the modifications, the facility bears interest at an annual rate equal to one-month, three-month, six-month or one-year LIBOR (as selected by us), plus 200 to 300 basis points, depending on our leverage ratio.
- (c) On July 26, 2011, we extended and modified our \$525.0 million secured credit facility with Wells Fargo Bank NA, as administrative agent. The revised facility reflects an extension of the maturity of the facility from February 2012 to February 2014 with an additional one-year extension option at our election, subject to continued compliance with the terms of the facility. Outstanding balances on the facility are no longer subject to a LIBOR floor and bear interest at an annual rate equal to one-month, three-month, six-month or one-year LIBOR (as selected by us), plus 200 to 300 basis points, depending on our leverage ratio.
- (d) On June 15, 2011, we extended and modified our \$105.0 million secured credit facility with First Tennessee Bank NA, as administrative agent. The revised facility reflects the removal of a 1.50% floor on LIBOR and an extension of the maturity of the facility from June 2012 to June 2013. Amounts outstanding thereunder bear interest at an annual rate equal to one-month, three-month, six-month or one-year LIBOR (as selected by us), plus 200 to 300 basis points, depending on our leverage ratio.
