Magal Postpones Filing of its Annual Report

Friday June 30, 4:11 am ET

YAHUD, Israel, June 30 /PRNewswire-FirstCall/ -- Magal Security Systems Ltd. (Nasdaq NM:MAGS; TASE: MAGS) today announced that it has filed today a notification of late filing on Form 12b-25 according to which the Company expects to file its audited financial statements and its Annual Report on Form 20-F with the SEC by July 15, 2006. This notification was filed as a result of a subsequent to year end cancellation of a turnkey project by a European customer (as described below). The Company decided to adopt a conservative approach and to reconsider the revenue recognition of this project in its financial statements for the year ended December 31, 2005. The reversal of those revenues, as first reported in the Company's press release in February 2006, recognized under the agreement will result in a reduction in revenues of approximately \$7 million and a corresponding reduction in expenses which will cause a net loss for the year ended December 31, 2005. Based on the foregoing, the Company is unable to complete the preparation and review of the financial statements to reflect these events within the prescribed time period.

In February 2006, the Company had, based on its unaudited results, reported in a press release, revenues of US\$68.6 million and net income of US\$1.1 million for 2005.

In May 2005, the Company entered into an agreement to supply comprehensive security solutions for a sensitive site in Europe. As part of the agreement, the Company received an advance payment, secured by a bank guarantee, which was to be reduced proportionally according to the progress of the execution of the project. The Company commenced the execution of the project and delivered some of the equipment and other deliverables to the customer in 2005. In conformance with its revenue recognition policy, the Company recognized revenues from this project based on the percentage of completion achieved in accordance with the "Input Method." In April 2006, the customer informed us that it was canceling the agreement due to errors in the design documents submitted by us. In addition the customer did not make the payments required under the agreement. Based on its cancellation of the agreement, the customer collected \$3.2 million that was secured by the bank guarantee on June 20, 2006.

We believe that there is no factual or legal ground for the cancellation and accordingly, the agreement is still valid. On April 28, 2006 we commenced arbitration proceedings against the customer. In these proceedings we have asked the arbitrators to find that the agreement is valid and to enforce the payments due us pursuant to the agreement. We intend to vigorously pursue our claim. The

customer has not yet filed its response.

Mr. Jacob Even-Ezra, Chairman of Magal, said: "Even though we believe that we have a good likelihood to win the arbitration proceeding, we believe that it is appropriate not to record the revenues from this project in 2005 and to reduce income accordingly."
