Commission File No. 000-27429

USA PROVIDES INTERNAL BUDGET TO INVESTMENT COMMUNITY  
As furnished to the Securities and Exchange Commission on October 24, 2001

USA Networks, Inc. (USA) has always been troubled, as we will explain below, with the concept of "guidance" for future earnings. Nevertheless, we have gone along with the way of the world in supplying guidance while attempting to do so with greater detail than most.

Among our concerns is that over the years negotiating expectations externally has moved from informal advisories into a cottage industry, first with "whispers" and expectations managed - to a new world, post Reg FD, of extensive filings and press releases if any material information is to be divulged.

This evolution has created its own sophisticated art form promoting and managing expectations. Of course, this has nothing to do with actually operating a business on a day-to-day basis, and is becoming at best a distraction from the real work of a company...the 'at worst' conjuring doesn't need detailing here.

While anyone interested wants to know how a company will perform as far into the future as possible, the truth is that no one knows the future. Companies make budgets with all sorts of assumptions and expectations, with base goals, stretch goals, with the best of thinking and intentions...but, that's all they are: planning budgets, subject to review based on real time information.

The process USA follows as part of its normal business practices is to rigorously analyze each area of USA's operations, every profit and cost center, every future capital expenditure, and roll them up into operating budgets for the next year. Planning an overall budget for 2002 and beyond is particularly difficult at this time due to ever deteriorating economic times and as a result of the events of September 11th and thereafter, which have, only temporarily one hopes, changed the way in which people in our country live their lives, spend their money and feel about the future.

So, because of all these uncertainties, both internally and externally, USA has decided to change its approach to the "guidance" ritual. For this and subsequent years, USA will provide the investment community with our actual internal budget, broken down by business segments. USA believes there's no better way to let the investing community understand our goals and challenges than by bringing the external world inside the company through the disclosure of USA's internal budget. It's how we manage the company and it's a far more productive process than attempting to manage the street.

- A A very weak advertising market is anticipated to continue through at least the first half of 2002.
- B Studios USA's 2001 revenue was favorably impacted by the syndication sale of LAW & ORDER to TNT.
- C USA Films' 2001 results were favorably impacted by the release of TRAFFIC.
- D Reflects results generated by homes lost by HSN following disengagement of USA Broadcasting to Univision. For further information, see separate HSN DISENGAGEMENT section.
- E 2001 and 2000 non-recurring items reflect income and expense items. For 2001, income of \$16 million related to a special adjustment relating to affiliate fees was recorded, impacting both revenue and EBITDA. Offsetting this, \$17 million of expense was recorded for non-recurring costs related to restructuring operations, employee terminations, and benefits. For 2000, \$6 million of expense relates to one-time expenses of the Ticketmaster and TMCS merger, an executive consulting arrangement as part of a resignation agreement, offset by a one-time credit recognized by HSN in connection with a favorable settlement.
- F To present comparable results for HSN Germany, the results have been translated from Euros to U.S. dollars at a constant exchange rate.
- H Expedia estimates are pro forma USA's acquisition of Expedia, which is expected to close in Q4 2001.
- I SCI FI's 2002 advertising growth is expected to be favorably impacted by the miniseries TAKEN in the fourth quarter.

## Edgar Filing: EXPEDIA INC - Form 425

USA NETWORKS, INC.  
OPERATING BUDGET

### BUSINESS OUTLOOK for the YEAR 2002

We anticipate that our operating businesses will grow their revenue and EBITDA by 15% in 2002. All of our operating businesses anticipate growing quite significantly (at an average growth of over 20%), other than the USA Network, which we anticipate will be particularly hit hard in the present advertising environment. If advertising recovers more quickly than we anticipate, our EBITDA may very well be higher, although it's possible that, in such a case, we'd reinvest in the business and spend more on original programming. On the other hand, it's more than possible that, in the present economic environment and with ever changing world events, our EBITDA growth could be less than anticipated; however, even under the worst circumstances, we expect we will do what's necessary to make sure we don't perform at a level less than 2001 (which we believe will end up with EBITDA growth for USA's operating businesses of 16% over 2000).

It's also anticipated that the first six months of 2002 will be comparatively worse than the second six months of the year. So it is possible that USA's EBITDA numbers for the first and second quarters of 2002 will show negative comparisons to the same quarters in 2001.

### BUSINESS OUTLOOK for the FOURTH QUARTER 2001

For the fourth quarter, we expect EBITDA from our Operating Businesses to decline by 12% to 16%, on flattish revenue growth, as compared to Q4 2000. This weak quarterly performance is due largely to the continuing effects of the national tragedy, including an accelerated downward impact on the advertising market. HSN, however, has returned to its normal level of business, and, therefore anticipates positive performance in the fourth quarter, but it's sales results may be negatively affected by reduced computer sales (which contributed almost \$50m in sales during Q4 '00).

### HSN DISENGAGEMENT

USA announced the sale of its broadcast television stations to Univision for \$1.1 billion in December 2000. The majority of these stations are located in the largest markets in the country and air HSN on a 24-hour basis. As of January 2002, HSN will have switched its distribution in these markets directly to cable carriage. As a result, HSN will lose approximately 12 million homes and accordingly, HSN's operating results will be affected. Fortunately, sales from broadcast only homes are very, very low in comparison to sales from cable homes. So HSN's losses attributable to this disengagement is limited. HSN anticipates losing sales, which translates on a pro forma basis for 2001, of \$108 million and EBITDA of \$15 million. These anticipated losses are consistent with previous disclosures in USA's 10k filing, in which it was stated that disengagement losses would equal approximately 6% of HSN's sales and EBITDA.

Since the affect of disengagement is a one-time event, and in order to show HSN's results on a meaningful comparative basis, the revenue and EBITDA that were generated by the "lost" homes in prior periods will be pro forma eliminated from HSN's core results in these prior periods.

In addition, in order to effectively transfer HSN's distribution to cable (which has been accomplished), USA will incur charges of approximately \$100 million in the form of payments to cable operators and related marketing expenses. These disengagement costs will not impact EBITDA. Approximately \$5 million of these costs will be incurred in 2001 and \$53 million in 2002. In effect, this

## Edgar Filing: EXPEDIA INC - Form 425

approximately \$100 million payment will reduce USA's pre-tax proceeds from the Univision transaction to \$1 billion. USA believes that its disengagement costs increased to the higher end of USA's anticipated range of costs, since USA was required to achieve a certain portion of disengagement after the Univision announcement and with specified end-dates for continuing broadcast distribution.
