Item 12. Results of Operations and Financial Condition.

On November 3, 2003, Peapack-Gladstone Financial Corporation (the "Corporation") issued a press release reporting earnings and other financial results for its third quarter of 2003, which ended September 30, 2003. A copy of the press release is attached to this Current Report on Form 8-K as Exhibit 99.1.

In addition to the financial results determined in accordance with generally accepted accounting principles ("GAAP"), the press release also contains an efficiency ratio, which is a non-GAAP disclosure. The Corporation believes the efficiency ratio effectively measures a company's ability to control its expenses in relation to increases and decreases in income components. The Corporation calculates the efficiency ratio by dividing total other expense by the total of net interest income and total other income excluding security gains and losses. The formula used is a common formula for banks, which allows for comparison to other banks. The formula may not be the same as that used by other companies.

The information disclosed under this Item 12, including Exhibit 99.1, shall be considered "furnished" but not "filed" for purposes of the Securities Exchange
