EASTMAN CHEMICAL  
COMPANY - EMN

October 25, 2007

## Item 2.02 Results of Operations and Financial Condition

On October 25, 2007, the registrant publicly released its financial results for third quarter 2007. The full text of the release is furnished as Exhibit 99.01 to this Form 8-K, and is incorporated herein by reference. This information shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

This Form 8-K includes the following non-GAAP financial measures:

- Eastman Chemical Company and segment sales excluding contract ethylene sales under a transition agreement related to the previous divestiture of the polyethylene product lines;
- Eastman Chemical Company and segment sales and operating results excluding sales revenue and operating results from recently divested product lines;
- Eastman Chemical Company Operating Earnings, Earnings Before Tax, Net Earnings and Earnings Per Diluted Share excluding accelerated depreciation costs and asset impairments and restructuring charges; and
- Segment Operating Earnings excluding accelerated depreciation costs and asset impairments and restructuring charges.

Eastman's management believes that sales from contract ethylene sales under the transition agreement related to the previous divestiture of the polyethylene product lines do not reflect the continuing and expected future business of the Performance Chemicals and Intermediates ("PCI") segment. In addition, management believes that corporate and segment earnings should be considered both with and without accelerated depreciation costs and asset impairments and restructuring charges for evaluation and analysis of ongoing business results. However, management believes that these items are indicative of results of continuous efforts to reduce costs and of actions to improve the profitability of the company. Management believes that investors can better evaluate and analyze historical and future business trends if they also consider the reported corporate and segment results, respectively, without the identified items.

Management utilizes corporate and segment results including and excluding the identified items in the measures it uses to evaluate business performance and in determining certain performance-based compensation. These measures, excluding the identified items, are not recognized in accordance with GAAP and should not be viewed as alternatives to the GAAP measures of performance. Tables 3, 4, 5 and 6 in the accompanying third quarter 2007 financial tables reconcile:

- Operating Earnings, Earnings Before Tax, Net Earnings and Net Earnings Per Diluted Share on a GAAP basis, as reflected in Eastman's Consolidated Statements of Earnings, to Operating Earnings, Earnings Before Tax, Net Earnings, and Net Earnings Per Diluted Share excluding accelerated depreciation costs and asset impairments and

restructuring charges;

- Sales Revenue and Operating Earnings and Losses on a GAAP basis, as reflected in Eastman's Consolidated Statements of Earnings, to Sales Revenue and Operating Earnings and Losses excluding sales revenue and operating results from recently divested product lines; and
- Sales Revenue on a GAAP basis, as reflected in Eastman's Consolidated Statements of Earnings, to Sales Revenue excluding sales revenue resulting from contract ethylene sales under a transition agreement related to the previous divestiture of the polyethylene product lines.

In addition, Eastman has chosen to present on a GAAP basis certain financial measures and certain segments with and without sales and operating results attributable to sales revenue and operating results in Latin America from PET manufactured at non-U.S. sites. Tables 4 and 5 in the accompanying third quarter 2007 financial tables provide this information.
