**TOP SHIPS ANNOUNCES THE RESULTS OF ITS
SPECIAL SHAREHOLDERS MEETING**

ATHENS, GREECE (December 17, 2007) TOP Ships Inc (NasdaqGS:TOPT) (the “Company”) today announced the results of its special shareholders meeting. At the meeting, the amendment to Section A of the Company’s Amended and Restated Articles of Incorporation to change the name of the Company to “TOP SHIPS INC.” was approved by holders of approximately 70% of the Company’s outstanding common shares. While a majority of those voting supported the proposal to reduce the quorum requirement for shareholders meetings, that proposal did not garner the requisite affirmative majority of the Company’s total outstanding common shares.

Forward Looking Statement

Certain statements and information included in this release constitute “forward-looking statements” within the meaning of the Federal Private Securities Litigation Reform Act of 1995. The Private Securities Litigation Reform Act of 1995 provides safe harbor protections for forward-looking statements in order to encourage companies to provide prospective information about their business. Forward-looking statements reflect our current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts.

The Company desires to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and is including this cautionary statement in connection with this safe harbor legislation. The words “believe,” “anticipate,” “intends,” “estimate,” “forecast,” “project,” “plan,” “potential,” “will,” “may,” “should,” “expect” “pen” expressions identify forward-looking statements. The forward-looking statements in this press release are based upon

various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, our

management's examination of historical operating trends, data contained in our records and other data available from third parties. Although we believe that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, we cannot assure you that we will achieve or accomplish these expectations, beliefs or projections.

In addition to these important factors, other important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the strength of world economies and currencies, general market conditions, including fluctuations in charter rates and vessel values, failure of a seller to deliver one or more vessels or of a buyer to accept delivery of one or more vessels, inability to procure acquisition financing, default by one or more charterers of our ships, changes in the demand for crude oil and petroleum products, changes in demand for dry bulk shipping capacity, changes in our operating expenses, including bunker prices, drydocking and insurance costs, the market for our vessels, availability of financing and refinancing, changes in governmental rules and regulations or actions taken by regulatory authorities, potential liability from pending or future litigation, general domestic and international political conditions, potential disruption of shipping routes due to accidents or political events, vessels breakdowns and instances of off-hires and other factors. Please see our filings with the Securities and Exchange Commission for a more complete discussion of these and other risks and uncertainties.
