Section 8 – Other Events

Item 8.01 Other Events

On December 19, 2013, PPL Corporation ("PPL") announced that its four Western Power Distribution ("WPD") subsidiaries in the United Kingdom have agreed with the U.K. Department of Energy and Climate Change and the Office of Electric and Gas Markets to a reduction of £5 per residential customer of electricity distribution revenues that otherwise would have been collected in the regulatory year beginning April 1, 2014. The terms of the agreement were consented to by the Office of Gas and Electricity Markets, the government regulator of electricity and downstream natural gas markets in Great Britain. Full recovery of the revenue reduction, together with the associated carrying cost, will occur during the regulatory year beginning April 1, 2015 for three of the WPD subsidiaries. Full recovery of the revenue reduction, with carrying costs, for the fourth subsidiary, WPD East Midlands plc, will occur over the eight year RIIO-ED1 regulatory period that will begin April 1, 2015. PPL projects that, as a result of this change, 2014 earnings for its U.K. Regulated Segment will be adversely affected by approximately \$0.04 per share and earnings for 2015 and 2016 will each be positively affected by approximately \$0.01 and \$0.02 per share, respectively. PPL, however, expects no changes to the earnings ranges for such years previously disclosed on July 1 for its U.K. Regulated business segment.
