STAMFORD, CONNECTICUT, May 12, 2006 - Dolphin Limited Partnership I, L.P. and Dolphin Financial Partners which together own 2.0 million shares, or 3.6% of *infoUSA* Inc. (NASDAQ: IUSA), today sent a letter to all *infoUSA* stockholders outlining the experience, independence and qualification of their nominees and their plans to build value for all stockholders by introducing a new idea at *infoUSA*: Board and management accountability through meaningful corporate governance reform.

A copy of the letter follows:

Dear Fellow *infoUSA* Stockholder:

We are writing to urge you to vote for the three new, highly qualified and independent candidates Dolphin has nominated for election to *infoUSA*'s Board of Directors at the May 26, 2006 Annual Meeting. As you will see, these nominees have no ties to Dolphin, *infoUSA* or its management.

Your vote is extremely important as every vote counts. You can help bring independent and much needed voices to the *infoUSA* Board - voices that will represent the interests of ALL stockholders. Please sign, date and return the enclosed **BLUE** proxy card today!

Dolphin's nominees are committed to ensuring that the interests of all stockholders, not just Mr. Vinod Gupta, who holds 40% of the Company, are fully represented on the Board. And further, that the full Board holds top management, including Mr. Vinod Gupta, accountable.

A New Idea At *infoUSA*:
Building Real Stockholder Value Through Real Accountability

We are writing to you again because we believe that your *infoUSA* investment has been, and will continue to be, harmed by the failure of the full Board to rein in Mr. Vinod Gupta. We have catalogued numerous serious issues, including: misuse of corporate assets; allowing Mr. Vinod Gupta to increase his ownership interest, and thereby limit your future value opportunities; and his opportunistic \$11.75 offer for your shares after publicly stating that they were worth \$18 per share.

The Board has not addressed these serious issues. Instead, they point to the Company's supposed success, particularly through acquisitions. But once again, they are not telling you the whole truth.

Consider three simple facts:

- 1. *infoUSA* has spent \$600 million on acquisitions over the past ten years, but the Company's current total value¹ is only \$704 million. That does not sound like success to us.**
- 2. While top management has spent your money acquiring revenues, the Company's profitability (EBITDA) is still at 2001 levels.**
- 3. The stock price is down 18% since *infoUSA* missed 1st quarter analyst expectations on April 21, 2006.**

The Independent Nominees Have The Experience and Qualifications to Deliver on Their Commitment to Build Value For You

§ His significant experience as a director includes: Gold Banc Corporation, Inc., Western National Bank, Unison Bancorporation, CompuNet Engineering, L.L.C., Visa USA, and United Missouri Bancshares, Inc.

A Vote FOR Mick M. Aslin, Karl L. Meyer and Robert A. Trevisani

Is

A Vote FOR Building Real Value For All Stockholders Through Accountability.

Accountability Through Meaningful Corporate Governance Reform

Here is our plan:

- § Review annually the effectiveness of senior management, including addressing the reasons for the unusually high rate of management turnover.
 - § Review all current business strategies and explore new strategies for operating the Company in the future.
- § Adopt our by-law amendment to prohibit for three years the re-nomination or appointment by the Board of a Director who has been voted down by stockholders.
 - § Reconstitute the Special Committee to explore the best alternatives to maximize stockholder value.
 - § Name a truly independent Chairman of the Board.
 - § End Mr. Vinod Gupta's exclusive exemption from the poison pill.
- § Strengthen the Nominating and Corporate Governance Committee by retaining an independent search firm to recruit the best independent candidates with industry experience to fill vacancies.
- § Establish and enforce meaningful policies to curb abusive related party transactions and improper use of corporate assets.
- § Review all related party transactions and instances of improper use of corporate assets and seek reimbursement from those found to have received improper benefits.
- § Strengthen the Compensation Committee by ensuring that all awards under the Company's equity incentive plans truly incentivize the creation of stockholder value and do not cause unnecessary dilution to you.
 - § Eliminate the current equity incentive plan provisions permitting the repricing of options.
