Subprime mortgage woes dominated headlines for much of 2007, spawning a widespread liquidity and credit crisis with ramifications across global markets. The Federal Reserve Board (the Fed ) stepped in to inject liquidity into the markets and bolster investor confidence, cutting the federal funds rate by 0.50% in September, 0.25% in October and 0.25% in December, which brought the target short-term interest rate to 4.25%. In taking action, the central bankers, who had long deemed themselves inflation fighters, were seeking to stem the fallout from the credit crunch and forestall a wider economic unraveling.

Amid the volatility, equity markets displayed surprising resilience. Market fundamentals generally held firm, dividend payouts and share buybacks continued, and valuations remained attractive. To some extent, the credit turmoil dampened corporate merger-and-acquisition (M&A) activity, a key source of strength for equity markets, but 2007 remained a record year for global M&A nonetheless. As the returns indicate, the most recent six months were more trying, reflecting the slowing U.S. economy, a troubled housing market and a more difficult corporate earnings backdrop. Overall, large cap stocks outperformed small caps as investors grew increasingly risk averse. International markets fared better than their U.S. counterparts, benefiting from generally stronger economies.

In fixed income markets, mixed economic signals and subprime fallout resulted in a flight to quality. Investors shunned bonds associated with the housing and credit markets in favor of higher-quality Treasury issues. The yield on 10-year Treasury issues, which touched 5.30% in June (its highest level in five years), fell to 4.04% by year-end, while prices correspondingly rose. The tax-exempt bond market waffled amid the economic uncertainty and concerns around the credit worthiness of bond insurers, but set a new-issuance record in 2007. A drop in municipal bond prices created buying opportunities, and the heightened supply was generally well absorbed.

As you navigate the uncertainties inherent in the financial markets, we encourage you to start the year by reviewing your investment goals with your financial professional and making portfolio changes, as needed. - 1 Security is collateralized by Municipal or U.S. Treasury obligations.
- 2 Variable rate security. Rate shown is interest rate as of December 31, 2007.
- This bond is prerefunded. U.S. government securities, held in escrow, are used to pay interest on this security, as well as retire the bond in full at the date indicated, typically at a premium to par.
- For purposes of amortized cost valuation, the maturity date of this instrument is considered to be the earlier of the next date on which the security can be redeemed at par, or the next date on which the rate of interest is adjusted. Rate shown is rate as of December 31, 2007.
- Cost for federal income tax purposes is \$403,985,110. The net unrealized appreciation on a tax basis is \$6,178,864, consisting of \$6,219,355 gross unrealized appreciation and \$40,491 gross unrealized depreciation.

The value (market value plus accrued interest) of securities that are covered by insurance, which ensures the payment of principal and interest, represent approximately 92.8% of the Trust s net assets.

Strategic Municipal and Pennsylvania Strategic are herein referred to as the Strategic Trusts. The 2008 Trusts will terminate on or about December 31, 2008. The Trusts financial statements are prepared in conformity with accounting principles generally accepted in the United States of America.

The following is a summary of significant accounting policies followed by the Trusts.

Valuation of Investments: Municipal investments (including commitments to purchase such investments on a when-issued basis) are valued on the basis of last available bid price or prices provided by dealers or pricing services selected under the supervision of each Trust s Board of Trustees or Board of Directors, as appropriate (Trustees or a Board). In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from bond dealers, market transactions in comparable investments and various relationships between investments. A futures contract is valued at the last sale price as of the close of the commodities exchange on which it trades. Swap quotations are provided by dealers selected under supervision of the Board. Short-term securities may be valued at amortized cost. Investments in open-end investment companies are valued at net asset value each business day. In the event that application of these methods of valuation results in a price for an investment which is deemed not to be representative of the market value of such investment, the investment will be valued by, under the direction of or in accordance with a method approved by the Board as reflecting fair value (Fair Value Assets). When determining the price for Fair Value Assets, the investment advisor and/or sub-advisor shall seek to determine the price that the Trusts might reasonably expect to receive from the current sale of that asset in an arms-length transaction. Fair value determinations shall be based upon all available factors that the investment advisor and/or sub-advisor deems relevant. The pricing of all Fair Value Assets shall be subsequently reported to the Board or a committee thereof.

In September 2006, Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157), was issued and is effective for fiscal years beginning after November 15, 2007. FAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The impact on the Trusts financial statement disclosures, if any, is currently being assessed.

In addition, in February 2007, Statement of Financial Accounting Standards No. 159, The Fair Value for Financial Assets and Financial Liabilities (FAS 159), was issued and is effective for fiscal years beginning after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provisions of FAS 157. FAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. FAS 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. The impact on the Trusts financial statement disclosures, if any, is currently being assessed.

Forward Commitments, When-Issued and Delayed Delivery Securities: The Trusts may purchase securities on a when-issues basis and may purchase or sell securities on a forward commitment basis. Settlement of such transactions normally occurs within a month or more after the purchase or sale commitment is made. The Trust may purchase securities under such conditions only with

the intention of actually acquiring them, but may enter into a separate agreement to sell the securities before the settlement date. Since the value of securities purchased may fluctuate prior to settlement, the Trusts may be required to pay more at settlement then the security is worth. In addition, the purchaser is not entitled to any of the interest earned prior to settlement. Upon making a commitment to purchase a security on a when-issued basis, the Trusts will hold liquid assets worth at least the equivalent of the amount due.

**Investment Transactions and Investment Income:** Investment transactions are recorded on the dates the transactions are entered into (the trade dates). Realized gains and losses on security transactions are determined on the identified cost basis. Dividend income is recorded on the ex-dividend dates. Interest income is recognized on the accrual basis. The Trusts amortize all premiums and discounts on debt securities.

**Financial Futures Contracts:** A financial futures contract is an agreement between two parties to buy and sell a financial instrument for a set price on a future date. Initial margin deposits are made upon entering into futures contracts and can be either cash or securities. During the period the financial futures contract is open, changes in the value of the contract are recognized as unrealized gains or losses by marking-to-market on a daily basis to

### Notes to Financial Statements (continued)

reflect the market value of the contract at the end of each day s trading. Variation margin payments are made or received, depending upon whether unrealized gains or losses are incurred. When the contract is closed, the Trust records a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Trust s basis in the contract.

Financial futures contracts, when used by the Trusts, help in maintaining a targeted duration. Financial futures contracts can be sold to effectively shorten an otherwise longer duration portfolio. In the same sense, financial futures contracts can be purchased to lengthen a portfolio that is shorter than its duration target. Thus, by buying or selling financial futures contracts, the Trusts may attempt to manage the duration of positions so that changes in interest rates do not change the duration of the portfolio unexpectedly.

Forward Interest Rate Swaps: The Trusts may enter into forward interest rate swaps. In a forward interest rate swap, the Trusts and the counterparty agree to make periodic net payments on a specified notional contract amount, commencing on a specified future effective date, unless terminated earlier. Changes in the value of the forward interest rate swap are recognized as unrealized gains and losses. When the agreement is closed, the Trusts record a realized gain or loss in an amount equal to the value of the agreement. The Trusts generally intend to close each forward interest rate swap before the accrual date specified in the agreement and therefore avoid entering into the interest rate swap underlying each forward interest rate swap.

The Trusts may utilize forward starting swaps for the purpose of reducing the interest rate sensitivity of the portfolio and decreasing the Trusts exposure to interest rate risk.

**Segregation:** In cases in which the 1940 Act, and the interpretive positions of the Securities and Exchange Commission (the SEC) require that each Trust segregate assets in connection with certain investments (e.g., when-issued securities or swap agreements), each Trust will, consistent with certain interpretive letters issued by the SEC, designate on its books and records cash or other liquid securities having a market value at least equal to the amount that would otherwise be required to be physically segregated.

**Income Taxes:** It is each Trust spolicy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

Effective June 29, 2007, the Trusts implemented Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109 (FIN 48). FIN 48 prescribes the minimum recognition threshold a tax position must meet in connection with accounting for uncertainties in income tax positions taken or expected to be taken by an entity, including investment companies, before being measured and recognized in the financial statements.

Management has evaluated the application of FIN 48 to the Trusts, and has determined that the adoption of FIN 48 does not have a material impact on the Trusts financial statements. The Trusts file U.S. federal and various state and local tax returns. No income tax returns are currently under examination. The statute of limitations on the Trusts U.S. federal tax returns remains open for the years ended December 31, 2004 through December 31, 2006. The statute of limitations on the Trusts state and local tax returns may remain open for an additional year depending upon the jurisdiction.

**Dividends and Distributions:** Dividends to common shareholders from net investment income are declared and paid monthly. Distributions of capital gains are recorded on the ex-dividend dates. Dividends and distributions to preferred shareholders are accrued and determined as described in Note 5.

**Estimates:** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates and such differences may be material.

**Deferred Compensation and BlackRock Closed-End Share Equivalent Investment Plan:** Under the deferred compensation plan approved by each Trust s Board, non-interested Trustees/Directors (Independent Trustees) defer a portion of their annual complex-wide compensation. Deferred amounts earn an approximate return as though equivalent dollar amounts had been

invested in common shares of other BlackRock Closed-End Funds selected by the Independent Trustees. These amounts are shown on the Statements of Assets and Liabilities as Investments in Affiliates. This has approximately the same economic effect for the Independent Trustees as if the Independent Trustees had invested the deferred amounts directly in such Trusts.

The deferred compensation plan is not funded and obligations thereunder represent general unsecured claims against the general assets of the Trust. Each Trust may, however, elect to invest in common shares of those Trusts selected by the Independent Trustees in order to match its deferred compensation obligations.

**Other:** Expenses that are directly related to one of the Trusts are charged directly to that Trust. Other operating expenses are generally pro-rated to the Trusts on the basis of relative net assets of all the BlackRock Closed-End Funds.

### 2. Investment Advisory Agreement and Other Transactions with Affiliates

Each Trust has an Investment Advisory Agreement with BlackRock Advisors, LLC (the Advisor), an indirect, wholly owned subsidiary of BlackRock, Inc. BlackRock Financial Management, Inc. (BFM), a wholly owned subsidiary of BlackRock, Inc., serves as sub-advisor to the 2018 Trusts, 2020 Trusts and Strategic Trusts. Merrill Lynch & Co., Inc. and The PNC Financial Services Group, Inc. are principal owners of BlackRock, Inc. The Investment Management Agreements for the 2018 Trusts, 2020 Trusts and Strategic Trusts cover both investment advisory and administration services. Each 2008 Trust and Insured Municipal Trust has an Administration Agreement with the Advisor.

### Notes to Financial Statements (continued)

Each Trust s investment advisory fee paid to the Advisor is computed weekly and payable monthly based on an annual rate of 0.35% for the 2008 Trusts and Insured Municipal Trust, 0.40% for the 2018 Trusts, 0.50% for the 2020 Trusts and 0.60% for the Strategic Trusts of the applicable Trust s average weekly managed assets. Managed assets means the total assets of a Trust (including any assets attributable to any preferred shares that may be outstanding) minus the sum of accrued liabilities (other than debt representing financial leverage). The Advisor has voluntarily agreed to waive a portion of the investment advisory fee or other expenses of the Strategic Trusts as a percentage of managed assets as follows: 0.25% for the first five years of each of the Trust s operations, 0.20% in year six, 0.15% in year seven, 0.10% in year eight and 0.05% in year nine.

The administration fee paid to the Advisor by the 2008 Trusts and Insured Municipal Trust is computed weekly and payable monthly based on an annual rate of 0.10% of each Trust s average weekly managed assets.

The Advisor has agreed to reimburse its advisory fees by the amount of investment advisory fees each Trust pays to the Advisor indirectly through its investment in affiliated money market funds. This amount is shown on the Statements of Operations as fees reimbursed by Advisor.

The Advisor pays BFM fees for its sub-advisory services.

Pursuant to the Investment Management Agreements, the Advisor provides continuous supervision of each Trust s investment portfolio and pays the compensation of officers of each Trust who are affiliated persons of the Advisor, as well as occupancy and certain clerical and accounting costs of each Trust. Each Trust bears all other costs and expenses, which include reimbursements to the Advisor for employee costs related to pricing and secondary market support. These expenses are generally pro-rated to the Trusts on the basis of the relative net assets of certain BlackRock Closed-End Funds. For the year ended December 31, 2007, the Trusts reimbursed the Advisor in the following amounts, which are included in miscellaneous expenses in the Statements of Operations:

| Trust                   | Amount    |

#### 4. Income Tax information

It is each Trust s policy to comply with requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

Dividends from net investment income and distributions from net capital gains are determined in accordance with U.S. federal income tax regulations, which may differ from those amounts determined under accounting principles generally accepted in the United States. These book/tax differences are either temporary or permanent in nature. To the extent these differences are permanent, they are charged or credited to paid-in-capital, undistributed net investment income, or accumulated net realized gain, as appropriate, in the period the difference arise.

Reclassification of Capital Accounts: Accounting principles generally accepted in the United States of America require that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. Accordingly, the table below summarizes the amounts reclassified per Trust during the current year between undistributed (distributions in excess of) net investment income and accumulated net realized gain (loss) as a result of permanent differences attributable to amortization methods of premiums and discounts on fixed income securities, distribution recharacterizations and other differences between financial reporting and tax accounting where classified to the following accounts. These reclassifications have no affect on net assets or net asset values per share.

<sup>(</sup>a) Trust pays fixed interest rate and receives 1-week BMA Municipal Swap Index floating interest rate beginning on the effective date.

The difference between book-basis and tax-basis unrealized gains/losses is attributable to amortization methods of premiums and discounts on fixed income securities, the retention of tax-exempt income, the deferral of post-October capital losses for tax purposes, the tax deferral of losses on wash sales, the timing of recognition of income from partnership investments, deferred compensation to Trustees and other temporary differences.

For federal income tax purposes, the following Trusts had capital loss carryforwards at December 31, 2007, the Trust s last tax year-end (other than the 2020 Trusts and Strategic Trusts, each of which has a tax year-end of June 30th). These amounts may be used to offset future realized capital gains, if any:

### 5. Capital

There are 200 million of \$0.01 par value common shares authorized for each of the 2008 Trusts and Insured Municipal. There are an unlimited number of \$0.001 par value common shares authorized for each of the 2018 Trusts, 2020 Trusts and Strategic Trusts. Each Trust may classify or reclassify any unissued common shares into one or more series of Auction Preferred Shares. At December 31, 2007, the common shares owned by affiliates of the Advisor of each Trust were as follows:

| Trust          | Common<br>Shares Owned |
|----------------|------------------------|
| Municipal 2020 | 8,028                  |
| Florida 2020   | 8,028                  |

During the years ended December 31, 2007 and 2006, the following Trusts issued additional shares under their respective dividend reinvestment plan:

| Trust                  | December 31, 2007 | <b>December 31, 2006</b> |
|------------------------|-------------------|--------------------------|

Dividends on seven-day Auction Preferred Shares are cumulative at a rate which is reset every seven days based on the results of an auction. Dividends on 28-day Auction Preferred Shares are cumulative at a rate which resets every 28 days based on the results of an auction. If the Auction Preferred Shares are unable to be remarketed on the remarketing date as part of the auction process, the Trusts would be required to pay the maximum applicable rate on the preferred shares to holders of such shares for successive dividend periods until such time as the shares are successfully remarketed. The maximum applicable rate on preferred shares is 110% of the higher of 90% of (i) 90% of the quotient of the Taxable Equivalent of the Short-Term Municipal Bond Rate (ii) the interest equivalent of the 30-day commercial paper rate. During the year ended December 31, 2007, preferred shares for each of the Trusts for the year ended December 31, 2007 were as follows:

A Trust may not declare dividends or make other distributions on common shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding Auction Preferred Shares would be less than 200%.

The Auction Preferred Shares are redeemable at the option of each Trust, in whole or in part, on any dividend payment date at \$25,000 per share plus any accumulated unpaid dividends whether or not declared. The Auction Preferred Shares are also subject to mandatory redemption at \$25,000 per share plus any accumulated or unpaid dividends, whether or not declared, if certain requirements relating to the composition of the assets and liabilities of a Trust, as set forth in each Trust s Declaration of Trust/Articles Supplementary, are not satisfied.

The holders of Auction Preferred Shares have voting rights equal to the holders of common shares (one vote per share) and will vote together with holders of common shares as a single class. However, holders of Auction Preferred Shares, voting as a separate class, are also entitled to elect two Trustees for each Trust. In addition, the 1940 Act requires that along with approval by shareholders that might otherwise be required, the approval of the holders of a majority of any outstanding Auction Preferred Shares, voting separately as a class would be required to (a) adopt any plan of reorganization that would adversely affect the Auction Preferred Shares (b) change a Trust subclassification as a closed-end investment company or change its fundamental investment restrictions and (c) change its business so as to cease to be an investment company.

On June 13, 2006, Insured Municipal 2008 Trust s Board approved the redemption of all of the 2,060 R28 Auction Preferred Shares outstanding in preparation for its termination on or about December 31, 2008. The shares were redeemed at a price of \$25,000 per share plus any accrued and unpaid dividends through the redemption date on July 14, 2006 (an aggregate price of \$51,500,000). On June 23, 2006, Insured Municipal 2008 Trust s Board approved the redemption of all of the 2,060 T28 Auction Preferred Shares outstanding in preparation for its termination on or about December 31, 2008. The shares were redeemed at a price of \$25,000 per share plus any accrued and unpaid dividends through the redemption date on July 26, 2006 (an aggregate price of \$51,500,000). Management believes that the redemption of the R28 and T28 Auction Preferred Shares will not affect the Insured Municipal 2008 Trust s ability to satisfy the terms of the remaining Auction Preferred Shares outstanding.

On September 21, 2006, Insured Municipal 2008 Trust s Board approved the redemption of 3,480 T7 Auction Preferred Shares outstanding in preparation for its termination on or about December 31, 2008. The shares were redeemed at a price of \$25,000 per share plus any accrued and unpaid dividends through the redemption date on October 25, 2006 (an aggregate price of \$87,000,000). Management believes that the redemption of the T7 Auction Preferred Shares will not affect the Insured Municipal 2008 Trust s ability to satisfy the terms of the remaining Auction Preferred Shares outstanding.

On September 21, 2006, California Insured 2008 Trust s Board approved the redemption of all of the 2,622 W7 Auction Preferred Shares outstanding in preparation for its termination on or about December 31, 2008. #### 6. Concentration Risk

The Trusts concentrate their investments in securities issued by state agencies, other governmental entities and U.S. Territories. The Trusts are more susceptible to adverse financial, social, environmental, economic, regulatory and political factors that may affect these state agencies, other governmental entities and U.S. Territories, which could seriously affect the ability of these states and their municipal subdivisions to meet continuing obligations for principal and interest payments and therefore could impact the value of the Trusts investments and net asset value per share, than if the Trusts were not concentrated in securities issued by state agencies, other governmental entities and U.S. Territories.

Many municipalities insure repayment of their obligations. Although bond insurance reduces the risk of loss due to default by an issuer, such bonds remain subject to the risk that market value may fluctuate for other reasons and there is no assurance that the insurance company will meet its obligations. These securities have been identified in the Portfolios of Investments.

#### 7. Subsequent Events

During the period February 13, 2008 to February 22, 2008, the Auction Preferred Shares of each Trust were not successfully remarketed. As a result, the Auction Preferred Share dividend rates were reset to the maximum applicable rate which ranged from 3.30% to 3.41% for the Trusts during the period. Unsuccessful remarketing during the auction process is not an event of default or credit but rather a liquidity event for the holders of the Auction Preferred Shares.

Each Trust paid a distribution to holders of Common Shares on February 1, 2008 to shareholders of record on January 22, 2008. The per share amounts were as follows:

| Trust                   | Common<br>Dividend<br>Per Share |

We have audited the accompanying statements of assets and liabilities of the Trusts, including the portfolios of investments, as of December 31, 2007, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the periods presented. These financial statements and financial highlights are the responsibility of the Trusts management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Trusts are not required to have, nor were we engaged to perform audits of their internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trusts internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2007, by correspondence with the custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Trusts as of December 31, 2007, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, and their financial highlights for each of the periods presented, in conformity with accounting principles generally accepted in the United States of America.

### The Benefits and Risks of Leveraging (unaudited)

The Trusts utilize leverage to seek to enhance the yield and net asset value of its Common Stock. However, these objectives cannot be achieved in all interest rate environments. To leverage, the Trusts issue Auction Preferred Stock, which pays dividends at prevailing short-term interest rates, and invests the proceeds in long-term municipal bonds. The interest earned on these investments, net of dividends to Auction Preferred Stock, is paid to Common Stock shareholders in the form of dividends, and the value of these Trusts holdings is reflected in the per share net asset value of the Trust's Common Stock. However, in order to benefit Common Stock shareholders, the yield curve must be positively sloped; that is, short-term interest rates must be lower than long-term interest rates. At the same time, a period of generally declining interest rates will benefit Common Stock shareholders. If either of these conditions change, then the risks of leveraging will begin to outweigh the benefits.

To illustrate these concepts, assume a trust s Common Stock capitalization of \$100 million and the issuance of Auction Preferred Stock for an additional \$50 million, creating a total value of \$150 million available for investment in long-term municipal bonds. If prevailing short-term interest rates are approximately 3% and long-term interest rates are approximately 6%, the yield curve has a strongly positive slope. The trust pays dividends on the \$50 million of Auction Preferred Stock based on the lower short-term interest rates. At the same time, the trust s total portfolio of \$150 million earns the income based on long-term interest rates. Of course, increases in short-term interest rates would reduce (and even eliminate) the dividends on the Common Stock.

In this case, the dividends paid to Auction Preferred Stock shareholders are significantly lower than the income earned on the trust s long-term investments and, therefore, the Common Stock shareholders are the beneficiaries of the incremental yield. However, **if short-term interest rates rise**, narrowing the differential between short-term and long-term interest rates, **the incremental yield pickup on the Common Stock will be reduced or eliminated completely**. At the same time, the market value of the trust s Common Stock (that is, its price as listed on the New York Stock Exchange or American Stock Exchange) may, as a result, decline. **Furthermore, if long-term interest rates rise, the Common Stock s net asset value will reflect the full decline in the price of the portfolio s investments, since the value of the Trust s Auction Preferred Stock does not fluctuate. In addition to the decline in net asset value, the market value of the trust s Common Stock may also decline.** 

As of December 31, 2007 the Trusts had the following leverage amounts, due to Auction Market Preferred Shares ( AMPS ), to total net assets before the deduction of AMPS of:

| Trust                  | Leverage % |
|------------------------|------------|
|                        |            |
| Insured Municipal      | 20%        |
| Municipal 2018         | 36%        |
| Municipal 2020         | 37%        |
| Strategic Municipal    | 37%        |
| California 2018        | 37%        |
| Florida 2020           | 37%        |
| New York 2018          | 35%        |
| Pennsylvania Strategic | 38%        |

As a part of its investment strategy, the Trusts may invest in certain securities whose potential income return is inversely related to changes in a floating interest rate ( inverse floaters ). In general, income on inverse floaters will decrease when short-term interest rates increase and increase when short-term interest rates decrease. Investments in inverse floaters may be characterized as derivative securities and may subject the Trusts to the risks of reduced or eliminated interest payments and losses of invested principal. In addition, inverse floaters have the effect of providing investment leverage and, as a result, the market value of such securities will generally be more volatile than that of fixed rate, tax-exempt securities. To the extent a Trust invests in inverse floaters, the market value of the Trust s portfolio and net asset value of the Trust s shares may also be more volatile than if the Trust did not invest in these securities.

The Trusts may invest in swap agreements, which are over-the-counter contracts in which one party agrees to make periodic payments based on the change in market value of a specified bond, basket of bonds, or index in return for periodic payments based on a fixed or variable interest rate or the change in market value of a different bond, basket of bonds or index. Swap agreements may be used to obtain exposure to a bond market without owning or taking physical custody of securities. Swap agreements involve the risk that the party with whom each Fund has entered into a swap will default on its obligation to pay the Trust and the risk that the Trust will not be able to meet its obligation to pay the other party to the agreement.

### Dividend Reinvestment Plan (unaudited)

Pursuant to each Trust s Dividend Reinvestment Plan (the Plan), common shareholders of the 2008 Trusts and Insured Municipal may elect to have all distributions of dividends and capital gains reinvested by Computershare Trust Company, N.A. (the Plan Agent) in the respective Trust s shares pursuant to the Plan. The common shareholders of the 2018 Trusts, 2020 Trusts and Strategic Trusts are automatically enrolled in the Plan. Shareholders who do not participate in the Plan will receive all distributions in cash paid by check and mailed directly to the shareholders of record (or if the shares are held in street or other nominee name, then to the nominee) by the Plan Agent, which serves as agent for the shareholders in administering the Plan.

After a 2008 Trust, Insured Municipal, 2018 and/or 2020 Trust declares a dividend or determines to make a capital gain distribution, the Plan Agent will acquire shares for the participants account by the purchase of outstanding shares on the open market, on the Trust s primary exchange or elsewhere (open market purchases). These Trusts will not issue any new shares under the Plan.

After a Strategic Trust declares a dividend or determines to make a capital gain distribution, the Plan Agent will acquire shares for the participants—account, depending upon the circumstances described below, either (i) through receipt of unissued but authorized shares from the Trust (newly issued shares) or (ii) by open market purchases. If, on the dividend payment date, the NAV is equal to or less than the market price per share plus estimated brokerage commissions (such condition being referred to herein as market premium), the Plan Agent will invest the dividend amount in newly issued shares on behalf of the participants. The number of newly issued shares to be credited to each participant is account will be determined by dividing the dollar amount of the dividend by the NAV on the date the shares are issued. However, if the NAV is less than 95% of the market price on the payment date, the dollar amount of the dividend will be divided by 95% of the market price on the payment date. If, on the dividend payment date, the NAV is greater than the market value per share plus estimated brokerage commissions (such condition being referred to herein as market discount), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participants in open market purchases.

Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution.

The Plan Agent s fees for the handling of the reinvestment of dividends and distributions will be paid by each Trust. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent s open market purchases in connection with the reinvestment of dividends and distributions. The automatic reinvestment of dividends and distributions will not relieve participants of any federal income tax that may be payable on such dividends or distributions.

Each Trust reserves the right to amend or terminate the Plan. There is no direct service charge to participants in the Plan; however, each Trust reserves the right to amend the Plan to include a service charge payable by the participants. Participants that request a sale of shares through the Plan Agent are subject to a \$2.50 sales fee and a \$0.15 per share sold brokerage commission. All correspondence concerning the Plan should be directed to the Plan Agent at 250 Royall Street, Canton, MA 02021, or by calling (800) 699-1BFM.

#### **Other Information**

From time to time in the future, the Trusts may effect redemptions and/or repurchases of its Auction Preferred Shares as provided in the applicable constituent instruments or as agreed upon by the Trust and holders of Auction Preferred Shares. The Trusts would generally effect such redemptions and/or repurchases to the extent necessary to maintain applicable asset coverage requirements.

The Trusts will mail only one copy of shareholder documents, including annual and semi-annual reports and proxy statements, to shareholders with multiple accounts at the same address. This practice is commonly called householding and is intended to reduce expenses and eliminate duplicate mailings of shareholder documents. Mailings of your shareholder documents may be householded indefinitely unless you instruct us otherwise. If you do not want the mailing of these documents to be combined with

those for other members of your household, please contact the Trusts at (800)699-1BFM.

A description of the policies and procedures that the Trusts use to determine how to vote proxies relating to portfolio securities is available (1) without charge, upon request, by calling toll-free 1-(800)-699-1BFM; (2) at www.blackrock.com; and (3) on the Securities and Exchange Commission s Web site at http://www.sec.gov.

Information about how the Trusts vote proxies relating to securities held in the Trusts portfolios during the most recent 12-month period ended June 30 is available (1) at www.blackrock.com and (2) on the Securities and Exchange Commission s website at http://www.sec.gov.

The Trusts file their complete schedules of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year on Form N-Q. The Trusts Forms N-Q are available on the SEC s Web site at http://www.sec.gov. The Trusts Forms N-Q may also be reviewed and copied at the SEC s Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. - Item 2 □ Code of Ethics □ The registrant (or the □Fund□) has adopted a code of ethics, as of the end of the period covered by this report, applicable to the registrant's principal executive officer, principal financial officer and principal accounting officer, or persons performing similar functions. During the period covered by this report, there have been no amendments to or waivers granted under the code of ethics. A copy of the code of ethics is available without charge at www.blackrock.com.
- Item 3 ☐ Audit Committee Financial Expert ☐ The registrant's board of directors or trustees, as applicable (the ☐board of directors☐) has determined that (i) the registrant has the following audit committee financial experts serving on its audit committee and (ii) each audit committee financial expert is independent:

  Kent Dixon

Frank J. Fabozzi

Robert S. Salomon, Jr. (term began effective November 1, 2007)

W. Carl Kester (term began effective November 1, 2007)

James T. Flynn (term began effective November 1, 2007)

Karen P. Robards (term began effective November 1, 2007)

The registrant's board of directors has determined that W. Carl Kester and Karen P. Robards qualify as financial experts pursuant to Item 3(c)(4) of Form N-CSR.

Prof. Kester has a thorough understanding of generally accepted accounting principles, financial statements and internal control over financial reporting as well as audit committee functions. Prof. Kester has been involved in providing valuation and other financial consulting services to corporate clients since 1978. Prof. Kester sinancial consulting services present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of issues that can reasonably be expected to be raised by the registrant sinancial statements.

Ms. Robards has a thorough understanding of generally accepted accounting principles, financial statements and internal control over financial reporting as well as audit committee functions. Ms. Robards has been President of Robards & Company, a financial advisory firm, since 1987. Ms. Robards was formerly an investment banker for more than 10 years where she was responsible for evaluating and assessing the performance of companies based on their financial results. Ms. Robards has over 30 years of experience analyzing financial statements. She also is a member of the audit committee of one publicly held company and a non-profit organization.

Under applicable securities laws, a person determined to be an audit committee financial expert will not be deemed an <code>[expert]</code> for any purpose, including without limitation for the purposes of Section 11 of the Securities Act of 1933, as a result of being designated or identified as an audit committee financial expert. The designation or identification as an audit committee financial expert does not impose on such person any duties, obligations, or liabilities greater than the duties, obligations, and liabilities imposed on such person as a member of the audit committee and board of directors in the absence of such designation or identification.

- 1 The nature of the services include assurance and related services reasonably related to the performance of the audit of financial statements not included in Audit Fees.
- 2 The nature of the services include tax compliance, tax advice and tax planning.
- 3 The nature of the services include a review of compliance procedures and attestation thereto.

#### (e)(1) Audit Committee Pre-Approval Policies and Procedures:

The registrant has polices and procedures (the "Policy") for the pre-approval by the registrant's audit committee of Audit, Audit-Related, Tax and Other Services (as each is defined in the Policy) provided by the Fund's independent auditor (the "Independent Auditor") to the registrant and other "Covered Entities" (as defined below). The term of any such pre-approval is 12 months from the date of pre-approval, unless the audit committee specifically provides for a different period. The amount of any such pre-approval is set forth in the appendices to the Policy (the "Service Pre-Approval Documents"). At its first meeting of each calendar year, the audit committee will review and re-approve the Policy and approve or re-approve the Service Pre-Approval Documents for that year, together with any changes deemed necessary or desirable by the audit committee. The audit committee may, from time to time, modify the nature of the services pre-approved, the aggregate level of fees pre-approved or both.

For the purposes of the Policy, "Covered Services" means (A) all engagements for audit and non-audit services to be provided by the Independent Auditor to the Fund and (B) all engagements for non-audit services related directly to the operations and financial reporting or the Fund to be provided by the Independent Auditor to any Covered Entity, "Covered Entities" means (1) the Advisor or (2) any entity controlling, controlled by or under common control with the Advisor that provides ongoing services to the Fund.

In the intervals between the scheduled meetings of the audit committee, the audit committee delegates pre-approval authority under this Policy to the Chairman of the audit committee (the "Chairman"). The Chairman shall report any pre-approval decisions under this Policy to the audit committee at its next scheduled meeting. At each scheduled meeting, the audit committee will review with the Independent Auditor the Covered Services pre-approved by the Chairman pursuant to delegated authority, if any, and the fees related thereto. Based on these reviews, the audit committee can modify, at its discretion, the pre-approval originally granted by the Chairman pursuant to delegated authority. This modification can be to the nature of services pre-approved, the aggregate level of fees approved, or both. Pre-approval of Covered Services by the Chairman pursuant to delegated authority is expected to be the exception rather than the rule and the audit committee may modify or withdraw this delegated authority at any time the audit committee determines that it is appropriate to do so.

Fee levels for all Covered Services to be provided by the Independent Auditor and pre-approved under this Policy will be established annually by the audit committee and set forth in the Service Pre-Approval Documents. Any increase in pre-approved fee levels will require specific pre-approval by the audit committee (or the Chairman pursuant to delegated authority).

The terms and fees of the annual Audit services engagement for the Fund are subject to the specific pre-approval of the audit committee. The audit committee (or the Chairman pursuant to delegated authority) will approve, if necessary, any changes in terms, conditions or fees resulting from changes in audit scope, Fund structure or other matters.

In addition to the annual Audit services engagement specifically approved by the audit committee, any other Audit services for the Fund not listed in the Service Pre-Approval Document for the respective period must be specifically pre-approved by the audit committee (or the Chairman pursuant to delegated authority).

Audit-Related services are assurance and related services that are not required for the audit, but are reasonably related to the performance of the audit or review of the financial statements of the registrant and, to the extent they are Covered Services, the other Covered Entities (as defined in the Joint Audit Committee Charter) or that are traditionally performed by the Independent Auditor. Audit-Related services that are Covered Services and are not listed in the Service Pre-Approval Document for the respective period must be specifically pre-approved by the audit committee (or the Chairman pursuant to delegated authority).

The audit committee believes that the Independent Auditor can provide Tax services to the Covered Entities such as tax compliance, tax planning and tax advice without impairing the auditor is independence. However, the audit committee will not permit the retention of the Independent Auditor in connection with a transaction initially recommended by the Independent Auditor, the sole business purpose of which may be tax avoidance and the tax treatment of which may not be supported in the Internal Revenue Code and related regulations. Tax services that are Covered Services and are not listed in the Service Pre-Approval Document for the respective period must be specifically pre-approved by the audit committee (or the Chairman pursuant to delegated authority).

All Other services that are covered and are not listed in the Service Pre-Approval Document for the respective period must be specifically pre-approved by the audit committee (or the Chairman pursuant to delegated authority).

Requests or applications to provide Covered Services that require approval by the audit committee (or the Chairman pursuant to delegated authority) must be submitted to the audit committee or the Chairman, as the case may be, by both the Independent Auditor and the Chief Financial Officer of the respective Covered Entity, and must include a joint statement as to whether, in their view, (a) the request or application is consistent with the rules of the Securities and Exchange Commission ("SEC") on auditor independence and (b) the requested service is or is not a non-audit service prohibited by the SEC. A request or application submitted to the Chairman between scheduled meetings of the audit committee should include a discussion as to why approval is being sought prior to the next regularly scheduled meeting of the audit committee.

- (e)(2) None of the services described in each of Items 4(b) through (d) were approved by the audit committee pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

Item 8 ☐ Portfolio Managers of Closed-End Management Investment Companies ☐ as of December 31, 2007.

(a)(1) The BlackRock Insured Municipal 2008 Term Trust, Inc. is managed by a team of investment professionals comprised of Theodore R. Jaeckel, Jr., CFA, Managing Director at BlackRock, Walter O□Connor, Managing Director at BlackRock and F. Howard Downs, Director at BlackRock. Each is a member of BlackRock□s municipal tax-exempt management group. Messrs. Jaeckel and O□Connor are responsible for setting the Fund□s overall investment strategy and overseeing the management of the Fund. Mr. Downs is the Fund□s lead portfolio manager and is responsible for the day-to-day management of the Fund□s portfolio and the selection of its investments. Messrs. Jaeckel and O□Connor have been members of the Fund□s management team since 2006 and Mr. Downs has been the Fund□s portfolio manager since 2007.

Mr. Jaeckel joined BlackRock in 2006. Prior to joining BlackRock, he was a Managing Director (Municipal Tax-Exempt Fund Management) of Merrill Lynch Investment Managers, L.P. ([MLIM]) from 2005 to 2006 and a Director of MLIM from 1997 to 2005. He has been a portfolio manager with BlackRock or MLIM since 1991.

Mr. O $\square$ Connor joined BlackRock in 2006. Prior to joining BlackRock, he was a Managing Director (Municipal Tax-Exempt Fund Management) of MLIM from 2003 to 2006 and was a Director of MLIM from 1997 to 2002. He has been a portfolio manager with BlackRock or MLIM since 1991.

Mr. Downs joined BlackRock in 1999 and is a member of the BlackRock Specialized Asset Management Group, specializing in municipal bonds. Prior to joining BlackRock, he was a Vice President and, in 1990, a founding member of William E. Simon and Sons, Municipal Securities.

### (iv) Potential Material Conflicts of Interest

 $BlackRock, Inc. \ and \ its \ affiliates \ (collectively, \ herein \ []BlackRock[]) \ has \ built \ a \ professional \ working \ e$ 

nvironment, firm-wide compliance culture and compliance procedures and systems designed to protect against potential incentives that may favor one account over another. BlackRock has adopted policies and procedures that address the allocation of investment opportunities, execution of portfolio transactions, personal trading by employees and other potential conflicts of interest that are designed to ensure that all client accounts are treated equitably over time. Nevertheless, BlackRock furnishes investment management and advisory services to numerous clients in addition to the Fund, and BlackRock may, consistent with applicable law, make investment recommendations to other clients or accounts (including accounts which are hedge funds or have performance or higher fees paid to BlackRock, or in which portfolio managers have a personal interest in the receipt of such fees), which may be the same as or different from those made to the Fund. In addition, BlackRock, its affiliates and any officer, director, stockholder or employee may or may not have an interest in the securities whose purchase and sale BlackRock recommends to the Fund. BlackRock, or any of its affiliates, or any officer, director, stockholder, employee or any member of their families may take different actions than those recommended to the Fund by BlackRock with respect to the same

securities. Moreover, BlackRock may refrain from rendering any advice or services concerning securities of companies of which any of BlackRock[s (or its affiliates[)) officers, directors or employees are directors or officers, or companies as to which BlackRock or any of its affiliates or the officers, directors and employees of any of them has any substantial economic interest or possesses material non-public information. Each portfolio manager also may manage accounts whose investment strategies may at times be opposed to the strategy utilized for the Fund. In this connection, it should be noted that certain portfolio managers, including Mr. Jaeckel, currently manage certain accounts that are subject to performance fees. In addition, certain portfolio managers assist in managing certain hedge funds and may be entitled to receive a portion of any incentive fees earned on such funds and a portion of such incentive fees may be voluntarily or involuntarily deferred. Additional portfolio managers may in the future manage other such accounts or funds and may be entitled to receive incentive fees.

As a fiduciary, BlackRock owes a duty of loyalty to its clients and must treat each client fairly. When BlackRock purchases or sells securities for more than one account, the trades must be allocated in a manner consistent with its fiduciary duties. BlackRock attempts to allocate investments in a fair and equitable manner among client accounts, with no account receiving preferential treatment. To this end, BlackRock has adopted a policy that is intended to ensure that investment opportunities are allocated fairly and equitably among client accounts over time. This policy also seeks to achieve reasonable efficiency in client transactions and provide BlackRock with sufficient flexibility to allocate investments in a manner that is consistent with the particular investment discipline and client base.

### **Portfolio Manager Compensation Overview**

BlackRock s financial arrangements with its portfolio managers, its competitive compensation and its career path emphasis at all levels reflect the value senior management places on key resources. Compensation may include a variety of components and may vary from year to year based on a number of factors. The principal components of compensation include a base salary, a discretionary bonus, participation in various benefits programs and one or more of the incentive compensation programs established by BlackRock such as its Long-Term Retention and Incentive Plan and Restricted Stock Program.

**Base compensation.** Generally, portfolio managers receive base compensation based on their seniority and/or their position with the firm. Senior portfolio managers who perform additional management functions within the portfolio management group or within BlackRock may receive additional compensation for serving in these other capacities.

#### **Discretionary Incentive Compensation**

Discretionary incentive compensation is a function of several components: the performance of BlackRock, Inc., the performance of the portfolio manager s group within BlackRock, the investment performance, including risk-adjusted returns, of the firm s assets under management or supervision by that portfolio manager relative to predetermined benchmarks, and the individual s seniority, role within the portfolio management team, teamwork and contribution to the overall performance of these portfolios and BlackRock. In most cases, including for the portfolio managers

of the Fund, these benchmarks are the same as the benchmark or benchmarks against which the performance of the Fund or other accounts managed by the portfolio managers are measured. BlackRock\subseteqs Chief Investment Officers determine the benchmarks against which to compare the performance of funds and other accounts managed by each portfolio manager and the period of time over which performance is evaluated. With respect to the portfolio managers, such benchmarks include a combination of market-based indices (e.g. Lehman Brothers Municipal Bond Index), certain customized indices and certain fund industry peer groups.

BlackRock[s Chief Investment Officers make a subjective determination with respect to the portfolio manager[s compensation based on the performance of the funds and other accounts managed by each portfolio manager relative to the various benchmarks noted above. Performance is measured on both a pre-tax and after-tax basis over various time periods including 1, 3, 5 and 10-year periods, as applicable.

#### **Distribution of Discretionary Incentive Compensation**

Discretionary incentive compensation is distributed to portfolio managers in a combination of cash and BlackRock, Inc. restricted stock units which vest ratably over a number of years. The BlackRock, Inc. restricted stock units, if properly vested, will be settled in BlackRock, Inc. common stock. Typically, the cash bonus, when combined with base salary, represents more than 60% of total compensation for the portfolio managers. Paying a portion of annual bonuses in stock puts compensation earned by a portfolio manager for a given year [at risk] based on the Company[s ability to sustain and improve its performance over future periods.

**Other compensation benefits.** In addition to base compensation and discretionary incentive compensation, portfolio managers may be eligible to receive or participate in one or more of the following:

Long-Term Retention and Incentive Plan ( $\Box$ LTIP $\Box$ )  $\Box$ The LTIP is a long-term incentive plan that seeks to reward certain key employees. For Mr. Downs, prior to 2006, the plan provided for the grant of awards that were expressed as an amount of cash that, if properly vested and subject to the attainment of certain performance goals, will be settled in cash and/or in BlackRock, Inc. common stock. Beginning in 2006, awards are granted under the LTIP in the form of BlackRock, Inc. restricted stock units that, if properly vested and subject to the attainment of certain performance goals, will be settled in BlackRock, Inc. common stock. Messrs. Downs, Jaeckel and  $O\Box$ Connor have each received awards under the LTIP.

Deferred Compensation Program [A portion of the compensation paid to each portfolio manager may be voluntarily deferred by the portfolio manager into an account that tracks the performance of certain of the firm[s investment products. Each portfolio manager is permitted to allocate his deferred amounts among various options, including to certain of the firm[s hedge funds and other unregistered products. Every portfolio manager is eligible to participate in the deferred compensation program.

Options and Restricted Stock Awards  $\square$  Prior to mandatorily deferring a portion of a portfolio manager  $\square$ s annual bonus in BlackRock, Inc. restricted stock units, the Company granted stock options to key employees, including certain portfolio managers who may still hold unexercised or unvested options. BlackRock, Inc. also granted restricted stock awards designed to

reward certain key employees as an incentive to contribute to the long-term success of BlackRock. These awards vest over a period of years. Mr. Downs has been granted stock options and/or restricted stock in prior years.

Incentive Savings Plans [] BlackRock, Inc. has created a variety of incentive savings plans in which BlackRock employees are eligible to participate, including a 401(k) plan, the BlackRock Retirement Savings Plan (RSP) and the BlackRock Employee Stock Purchase Plan (ESPP). The employer contribution components of the RSP include a company match equal to 50% of the first 6% of eligible pay contributed to the plan capped at \$4,000 per year, and a company retirement contribution equal to 3% of eligible compensation, plus an additional contribution of 2% for any year in which BlackRock has positive net operating income. The RSP offers a range of investment options, including registered investment companies managed by the firm. Company contributions follow the investment direction set by participants for their own contributions or absent, employee investment direction, are invested into a balanced portfolio. The ESPP allows for investment in BlackRock common stock at a 5% discount on the fair market value of the stock on the purchase date. Annual participation in the ESPP is limited to the purchase of 1,000 shares or a dollar value of \$25,000. Each portfolio manager is eligible to participate in these plans.
