PROSPECTUS

\$30,000,000

Class A Common Stock
Preferred Stock
Warrants
Debt Securities

We may offer from time to time

shares of Class A common stock;
shares of preferred stock in one or more series;
warrants to purchase preferred stock or Class A common stock;
debt securities; or

any combination of preferred stock, Class A common stock, warrants, or debt securities,
at an aggregate offering price not to exceed \$30,000,000.

The number, amount, prices, and specific terms of the securities, and the net proceeds to Cinedigm Digital Cinema Corp., will be determined at or before the time of sale and will be set forth in an accompanying prospectus supplement. The net proceeds to us from the sale of securities will be the offering price or the purchase price of those securities less any applicable commission or discount, and less any other expenses we incur in connection with the issuance and distribution of those securities.

This prospectus may not be used for the sale of any securities unless it is accompanied by a prospectus supplement. The accompanying prospectus supplement may modify or supersede any statement in this prospectus. You should read this prospectus and any prospectus supplement carefully before you invest.

The shares of our Class A common stock are listed for trading on The NASDAQ Global Market (“Nasdaq”) under the symbol “CIDM”. On March 5, 2012, the last reported sale price of our Class A common stock on Nasdaq was \$1.66 per share.

The aggregate market value of our outstanding common stock held by non-affiliates, or the public float, is approximately \$62.8 million, calculated in accordance with General Instruction I.B.6 of Form S-3. Pursuant to General Instruction I.B.6, in no event will we sell our common stock in a public primary offering with a value exceeding one-third of our public float in any 12-month period unless our public float subsequently rises to \$75.0 million or more. We have not offered any securities pursuant to General Instruction I.B.6 during the 12 calendar months prior to and including the date of this prospectus.

Edgar Filing: Cinedigm Digital Cinema Corp. - Form S-3

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we have filed with the Securities and Exchange Commission (the “SEC” or the “Commission”) utilizing a shelf registration process. Under this shelf registration process, we may, from time to time, offer and sell securities pursuant to this prospectus. It is important for you to read and consider all of the information contained in this prospectus and any applicable prospectus supplement before making a decision whether to invest in the Common Stock. You should also read and consider the information contained in the documents that we have incorporated by reference as described in “Where You Can Find More Information” and “Incorporation of Certain Documents By Reference” in this prospectus.

You should rely only on the information provided in this prospectus and any applicable prospectus supplement, including the information incorporated by reference. We have not authorized anyone to provide you with additional or different information. If anyone provides you with additional, different or inconsistent information, you should not rely on it. We are not offering to sell or soliciting offers to buy, and will not sell, any securities in any jurisdiction where it is unlawful. You should assume that the information contained in this prospectus or in any prospectus supplement, as well as information contained in a document that we have previously filed or in the future will file with the SEC and incorporate by reference in this prospectus or any prospectus supplement, is accurate only as of the date of this prospectus, the applicable prospectus supplement or the document containing that information, as the case may be. Our financial condition, results of operations, cash flows or business may have changed since that date.

The Company currently has the following effective Registration Statements on Form S-3 relating to the resale of its securities by various selling security holders, pursuant to which, to the best of the Company’s knowledge, the following shares of Class A Common Stock remain available for resale: No. 333-136998, 66,344 shares; No. 333-146335, 835,677 shares; No. 333-150661, 204,500 shares; No. 333-153467, 539,880 shares; No. 333-166061, 16,900,000 shares; and No. 333-176017, 1,207,500 shares.

WHERE YOU CAN FIND MORE INFORMATION

We are required to file periodic reports, proxy statements and other information relating to our business, financial and other matters with the SEC under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Our filings are available to the public over the Internet at the SEC’s web site at <http://www.sec.gov>. You may also read and copy any document we file with the SEC at, and obtain a copy of any such document by mail from, the SEC’s public reference room located at 100 F Street, N.E., Washington, D.C. 20549, at prescribed charges. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room and its charges.

We have filed with the SEC a Registration Statement on Form S-3 under the Securities Act of 1933 (the “Securities Act”) with respect to our securities described in this prospectus. References to the “registration statement” or the “registration statement of which this prospectus is a part” mean the original registration statement and all amendments, including all schedules and exhibits. This prospectus does not, and any prospectus supplement will not, contain all of the information in the registration statement because we have omitted parts of the registration statement in accordance with the rules of the SEC. Please refer to the registration statement for any information in the registration statement that is not contained in this prospectus or a prospectus supplement. The registration statement is available to the public over the Internet at the SEC’s web site described above and can be read and copied at the location described above.

Each statement made in this prospectus or any prospectus supplement concerning a document filed as an exhibit to the registration statement is qualified in its entirety by reference to that exhibit for a complete description of its provisions.

INCORPORATION OF CERTAIN DOCUMENTS BY REFERENCE

The SEC allows us to “incorporate by reference” in this prospectus the information contained in other documents filed separately with the SEC. This means that we can disclose important information to you by referring you to other documents filed with the SEC that contain such information. The information incorporated by reference is an important part of this prospectus and prospectus supplement. Information disclosed in documents that we file later with the SEC will automatically add to, update and change information previously disclosed. If there is additional information in a later filed document or a conflict or inconsistency between information in this prospectus or a prospectus supplement and information incorporated by reference from a later filed document, you should rely on the information in the later dated document.

We incorporate by reference the documents listed below (and the documents incorporated by reference therein) that we have previously filed, any documents that we may file after the date of this registration statement and prior to the effectiveness of this registration statement, and any documents that we may file in the future, with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act, until the offerings contemplated by this prospectus are completed:

Any statement made in this prospectus, a prospectus supplement or a document incorporated by reference in this prospectus or a prospectus supplement will be deemed to be modified or superseded for purposes of this prospectus and any applicable prospectus supplement to the extent that a statement contained in an amendment to the registration

statement, any subsequent prospectus supplement or in any other subsequently filed document incorporated by reference herein or therein adds, updates or changes that statement. Any statement so affected will not be deemed, except as so affected, to constitute a part of this prospectus or any applicable prospectus supplement.

You may obtain a copy of these filings, excluding exhibits (but including exhibits that are specifically incorporated by reference in any such filing), free of charge, by oral or written request directed to: Cinedigm Digital Cinema Corp., 55 Madison Avenue, Suite 300, Morristown, NJ 07960, Attention: General Counsel, Telephone (973) 290-0080.

FORWARD-LOOKING STATEMENTS

Various statements contained in this prospectus or incorporated by reference into this prospectus constitute “forward-looking statements” within the meaning of the federal securities laws. Forward-looking statements are based on current expectations and are indicated by words or phrases such as “believe,” “expect,” “may,” “will,” “should,” “seek,” “planned,” “intend” or “anticipate” or the negative thereof or comparable terminology, or by discussion of strategy. Forward-looking statements represent as of the date of this prospectus our judgment relating to, among other things, future results of operations, growth plans, sales, capital requirements and general industry and business conditions applicable to us. Such forward-looking statements are based largely on our current expectations and are inherently subject to risks and uncertainties. Our actual results could differ materially from those that are anticipated or projected as a result of certain risks and uncertainties, including, but not limited to, a number of factors, such as:

- successful execution of our business strategy, particularly for new endeavors;
- the performance of our targeted markets;
- competitive product and pricing pressures;
- changes in business relationships with our major customers;
- successful integration of acquired businesses;
- economic and market conditions;
- the effect of our indebtedness on our financial condition and financial flexibility, including, but not limited to, the ability to obtain necessary financing for our business; and
- the other risks and uncertainties that are described under “Risk Factors” and elsewhere in this prospectus and from time to time in our filings with the SEC.

Except as otherwise required to be disclosed in periodic and current reports required to be filed by public companies with the SEC pursuant to the SEC's rules, we have no duty to update these statements, and we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. In light of these risks and uncertainties, we cannot assure you that the forward-looking information contained in this prospectus will in fact transpire.

PROSPECTUS SUMMARY

This summary highlights information contained elsewhere in this prospectus, any prospectus supplement and the documents incorporated by reference. It does not contain all of the information that you should consider before making a decision to invest in the Common Stock. You should read carefully the entire prospectus, any applicable prospectus supplement and the documents incorporated by reference, including “Risk Factors” and the Consolidated Financial Statements and Notes thereto included elsewhere or incorporated by reference in this prospectus or any prospectus supplement.

In this prospectus, “Cinedigm”, “we,” “us,” “our” and the “Company” refer to Cinedigm Digital Cinema Corp. and its subsidiaries unless the context otherwise requires.

OUR BUSINESS

OVERVIEW

Cinedigm Digital Cinema Corp. was incorporated in Delaware on March 31, 2000 (“Cinedigm”, and collectively with its subsidiaries, the “Company”).

The Company is a digital cinema services, software and content marketing and distribution company driving the conversion of the exhibition industry from film to digital technology. The Company provides a digital cinema platform that combines technology solutions, provides financial advice and guidance, software services and electronic delivery services to content owners and distributors and to movie exhibitors. Cinedigm leverages this digital cinema platform with a series of business applications that utilize the platform to capitalize on the new business opportunities created by the transformation of movie theatres into networked entertainment centers. The two main applications currently provided by Cinedigm include (i) its digital entertainment origination, marketing and distribution business focused on alternative content and independent film and (ii) its operational and analytical software applications. Historically, the conversion of an industry from analog to digital has created new revenue and growth opportunities as well as an opening for new companies to emerge to capitalize on this technological shift.

We have four primary businesses as follows: the first digital cinema deployment (“Phase I Deployment”), the second digital cinema deployment (“Phase II Deployment”), services (“Services”) and media content and entertainment (“Content & Entertainment”). The Company’s Phase I Deployment and Phase II Deployment segments are the non-recourse, financing vehicles and administrators for the Company’s digital cinema equipment (the “Systems”) installed in movie theatres nationwide. The Company’s Services segment provides the digital cinema platform that services and supports the Phase I Deployment and Phase II Deployment segments as well as is being offered to other third party customers. Included in these services are asset management services for a specified fee via service agreements with Phase I Deployment and Phase II Deployment; and software license, maintenance and consulting services. These services primarily facilitate the conversion from analog (film) to digital cinema and have positioned the Company at what it believes to be the forefront of a rapidly developing industry relating to the distribution and management of digital cinema and other content in theatres and other remote venues worldwide. The Company’s Content & Entertainment segment provides content marketing and distribution services to alternative and theatrical content owners and to theatrical exhibitors. Overall, the Company’s goal is to aid in the transformation of movie theatres to entertainment centers by providing a platform of hardware, software and content choices.

The Company classifies certain of its businesses as discontinued operations, including the motion picture exhibition to the general public (“Pavilion Theatre”), information technology consulting services and managed network monitoring services (“Managed Services”), hosting services and network access for other web hosting services (“Access Digital

Server Assets”), which were all separate reporting units previously included in our former "Other" segment, the cinema advertising services business ("USM"), which was previously included in our Content & Entertainment segment, and its DMS digital distribution and delivery business ("DMS"), the majority of which was sold in November 2011 and was previously included in our Services segment. In August 2010, the Company sold both Managed Services and the Access Digital Server Assets. In May 2011, the Company completed the sale of

certain assets and liabilities of the Pavilion Theatre to a third party. In September 2011 the Company completed the sale of USM to a third party, and in November, 2011 completed the sale of the majority of assets of DMS to a third party.

RISK FACTORS

An investment in our securities involves a high degree of risk and uncertainty. You should carefully consider the risks described below and in any prospectus supplement before deciding to invest in our securities. The risks described below are not the only ones facing our company. Additional risks not presently known to us or that we presently consider immaterial may also adversely affect our company. If any of the following risks occur, our business, financial condition, results of operations and prospects could be materially adversely affected. In that case, the trading price of our securities could decline, and you could lose all or part of your investment. In assessing these risks, you should also refer to the other information included or incorporated by reference in this prospectus, including the consolidated financial statements and notes thereto of our company included elsewhere in this prospectus.

An inability to obtain necessary financing may have a material adverse effect on our financial position, operations and prospects if unanticipated capital needs arise.

Our capital requirements may vary significantly from what we currently project and be affected by unforeseen delays and expenses. We may experience problems, delays, expenses and difficulties frequently encountered by similarly-situated companies, as well as difficulties as a result of changes in economic, regulatory or competitive conditions. If we encounter any of these problems or difficulties or have underestimated our operating losses or capital requirements, we may require significantly more financing than we currently anticipate. We cannot assure you that we will be able to obtain any required additional financing on terms acceptable to us, if at all. An inability to obtain necessary financing could have a material adverse effect on our financial position, operations and prospects. Our Phase I credit agreement (the "Phase I Credit Agreement") with Société Générale, New York Branch ("SG") and certain other lenders contains certain restrictive covenants that restrict, among other things, our indirect subsidiary, Cinedigm Digital Funding I, LLC ("CDF I") and its subsidiaries from (with certain specified exceptions) making certain capital expenditures, incurring other indebtedness or liens, engaging in a new line of business, selling certain assets, acquiring, consolidating with, or merging with or into other companies and entering into transactions with affiliates. The Phase I Credit Agreement is non-recourse to the Company and our other subsidiaries. Our Phase II credit agreement (the "Phase II Credit Agreement") with SG and certain other lenders contains certain restrictive covenants that, among other things, restrict our indirect wholly-owned non-consolidated subsidiary that is intended to be a special purpose, bankruptcy remote entity subsidiary, Cinedigm Digital Funding 2, LLC ("CDF 2") and its subsidiaries from (with certain specified exceptions) making certain capital expenditures, incurring other indebtedness or liens, engaging in a new line of business, selling certain assets, acquiring, consolidating with, or merging with or into other companies and entering into transactions with affiliates. The Phase II Credit Agreement is non-recourse to the Company and our other subsidiaries. The digital cinema projection systems that we partially finance by borrowing under the Phase II Credit Agreement are acquired directly from the manufacturers by our indirect wholly-owned non-consolidated subsidiary that is intended to be a special purpose, bankruptcy remote entity, CDF2 Holdings, LLC ("CDF2 Holdings"), and sold to and leased back from CHG-Meridian U.S. Finance, Ltd. ("CHG") pursuant to a Master Lease Agreement and related documents (the "CHG Lease"). The CHG Lease contains certain restrictive covenants that restrict CDF2 Holdings from incurring liens on the leased digital cinema systems and from (with certain specified exceptions) subleasing, assigning, modifying or altering such systems. The CHG Lease is non-recourse to the Company and our other subsidiaries. In August 2009, the Company entered into the Sageview Purchase Agreement pursuant to which the Company issued the 2009 Note in the aggregate principal amount of \$75.0 million, which was later amended and restated on May 6, 2010 (as so amended and restated, the "2010 Note"). The 2010 Note, among other things, restricts the Company and its subsidiaries from (with certain specified exceptions) incurring other indebtedness or liens, creating or acquiring subsidiaries which do not guarantee such notes, making certain investments and modifying authorized capital. Our indirect subsidiary, Access Digital Cinema Phase 2 B/AIX Corp. ("Phase 2 B/AIX") has entered into several credit agreements (the "KBC Agreements") with KBC Bank NV ("KBC") pursuant to which KBC

has financed the acquisition of digital cinema projection systems purchased from Barco, Inc. to be installed at various theatre locations. The KBC Agreements, among other things, restrict Phase 2 B/AIX from (with certain specified exceptions) incurring liens, disposing of certain assets outside the ordinary course of business, merging or consolidating with other entities, changing its line of business and making payments (including dividends) to affiliates. The KBC Agreements are non-recourse to the Company and its subsidiaries other than Phase 2 B/AIX.

We face the risks of doing business in new and rapidly evolving markets and may not be able successfully to address such risks and achieve acceptable levels of success or profits.

We have encountered and will continue to encounter the challenges, uncertainties and difficulties frequently experienced in new and rapidly evolving markets, including:

- limited operating experience;
- net losses;
- lack of sufficient customers or loss of significant customers;
- a changing business focus; and
- difficulties in managing potentially rapid growth.

If we do not respond to future advances in technology and changes in customer demands, our financial position, prospects and results of operations may be adversely affected.

The demand for our entertainment software will be affected, in large part, by future advances in technology and changes in customer demands. Our success will also depend on our ability to address the increasingly sophisticated and varied needs of our existing and prospective customers.

We expect competition to be intense: if we are unable to compete successfully, our business and results of operations will be seriously harmed.

The markets for the digital cinema business and the content marketing business, although relatively new, are competitive, evolving and subject to rapid technological and other changes. We expect the intensity of competition in each of these areas to increase in the future. Companies willing to expend the necessary capital to create facilities and/or software similar to ours may compete with our business. Increased competition may result in reduced revenues and/or margins and loss of market share, any of which could seriously harm our business. In order to compete effectively in each of these fields, we must differentiate ourselves from competitors.

Many of our current and potential competitors have longer operating histories and greater financial, technical, marketing and other resources than us, which may permit them to adopt aggressive pricing policies. As a result, we may suffer from pricing pressures that could adversely affect our ability to generate revenues and our results of operations. Many of our competitors also have significantly greater name and brand recognition and a larger customer base than us. . If we are unable to compete successfully, our business and results of operations will be seriously harmed.

Our plan to acquire additional businesses involves risks, including our inability to successfully complete an acquisition, our assumption of liabilities, dilution of your investment and significant costs.

We may make acquisitions of similar or complementary businesses or assets. Even if we identify appropriate acquisition candidates, we may be unable to negotiate successfully the terms of the acquisitions, finance them, integrate the acquired business into our then existing business and/or attract and retain customers. We are also subject to limitations on our ability to make acquisitions pursuant to the 2010 Note. Completing an acquisition and integrating an acquired business may require a significant diversion of management time and resources and involves assuming new liabilities. Any acquisition also involves the risks that the assets acquired may prove less valuable than

expected and/or that we may assume unknown or unexpected liabilities, costs and problems. If we make one or more significant acquisitions in which the consideration consists of our capital stock, your equity interest in our company could be diluted, perhaps significantly. If we were to proceed with one or more significant acquisitions in

which the consideration included cash, we could be required to use a substantial portion of our available cash, or obtain additional financing to consummate them.

If we do not manage our growth, our business will be harmed.

We may not be successful in managing our rapid growth. Past growth has placed, and future growth will continue to place, significant challenges on our management and resources, related to the successful integration of the newly acquired businesses. To manage the expected growth of our operations, we will need to improve our existing, and implement new, operational and financial systems, procedures and controls. We may also need to expand our finance, administrative, client services and operations staffs and train and manage our growing employee base effectively. Our current and planned personnel, systems, procedures and controls may not be adequate to support our future operations. Our business, results of operations and financial position will suffer if we do not effectively manage our growth.

If we are not successful in protecting our intellectual property, our business will suffer.

We depend heavily on technology to operate our business. Our success depends on protecting our intellectual property, which is one of our most important assets. We have intellectual property consisting of:

- licensable software products;
- rights to certain domain names;
- registered service marks on certain names and phrases;
- various unregistered trademarks and service marks;
- know-how;
- rights to certain logos; and
- a pending patent application with respect to certain of our software.

If we do not adequately protect our intellectual property, our business, financial position and results of operations would be harmed. Our means of protecting our intellectual property may not be adequate. Unauthorized parties may attempt to copy aspects of our intellectual property or to obtain and use information that we regard as proprietary. In addition, competitors may be able to devise methods of competing with our business that are not covered by our intellectual property. Our competitors may independently develop similar technology, duplicate our technology or design around any intellectual property that we may obtain.

The success of some of our business operations depends on the proprietary nature of certain software. We do not, however, have patents with respect to much of our software. Because there is no patent protection in respect of much of our software, other companies are not prevented from developing and marketing similar software. We cannot assure you, therefore, that we will not face more competitors or that we can compete effectively against any companies that develop similar software. We also cannot assure you that we can compete effectively or not suffer from pricing pressure with respect to our existing and developing products that could adversely affect our ability to generate revenues. Further, our pending patent application may not be issued and if issued may not be broad enough to protect our rights, or if such patent is issued such patent could be successfully challenged.

Although we hold rights to various web domain names, regulatory bodies in the United States and abroad could establish additional top-level domains, appoint additional domain name registrars or modify the requirements for holding domain names. The relationship between regulations governing domain names and laws protecting

trademarks and similar proprietary rights is unclear. We may be unable to prevent third parties from acquiring domain names that are similar to or diminish the value of our proprietary rights.

Our substantial debt and lease obligations could impair our financial flexibility and restrict our business significantly.

We now have, and will continue to have, significant debt obligations. We had notes payable to third parties with principal amounts aggregating \$264,728 million as of December 31, 2011, of which \$179,723 million was non-recourse and not guaranteed by the Company or our subsidiaries, other than CDF I with respect to the Phase I Credit Agreement, CDF2 with respect to the Phase II Credit Agreement, CDF2 Holdings with respect to the CHG Lease and Phase 2 B/AIX 2 with respect to the KBC Agreements.

We also had capital lease obligations covering facilities and computer network equipment with principal amounts of \$0.1 million as of March 31, 2011. In May 2011, the Company completed the sale of certain assets and liabilities of the Pavilion Theatre and from that point forward, it has not been operated by the Company. The Company has remained the primary obligator on the Pavilion capital lease and therefore, the capital lease obligation, which aggregates \$5.6 million, and the related assets under the capital lease will remain with the Company subsequent to March 31, 2011. The Company has, however, entered into a sub-lease agreement with the unrelated third party purchaser who makes all payments related to the lease and as such, has no continuing involvement in the operation of the Pavilion Theatre.

In May 2010, we amended and restated the 2010 Note in the aggregate principal amount of \$75.0 million (which was originally issued in August 2009). Additionally, CDF I, our indirect wholly-owned subsidiary that is intended to be a special purpose, bankruptcy remote entity, has entered into the Phase I Credit Agreement, pursuant to which it borrowed \$172.5 million. As of December 31, 2011, the outstanding principal balance under the Phase I Credit Agreement was \$124.5 million. Phase 2 B/AIX, our indirect wholly-owned subsidiary, has entered into the KBC Agreements pursuant to which it has borrowed \$61.9 million in the aggregate. As of December 31, 2011, the outstanding principal balance under the KBC Agreements was \$54.1 million in the aggregate.

The obligations and restrictions under the 2010 Note, the Phase I Credit Agreement, the KBC Agreements and our other debt obligations could have important consequences for us, including:

- limiting our ability to obtain necessary financing in the future;
- requiring us to dedicate a substantial portion of our cash flow to payments on our debt obligations, thereby reducing the availability of our cash flow to fund working capital, capital expenditures and other corporate requirements or expansion of our business;
- limiting our ability to pay dividends to our shareholders; and
- placing us at a competitive disadvantage compared to competitors that might have stronger balance sheets or better access to capital by, for example, limiting our ability to enter into new markets.

CDF 2 and CDF2 Holdings are our indirect wholly-owned, non-consolidated subsidiaries that are intended to be special purpose, bankruptcy remote entities. CDF 2 has entered into the Phase II Credit Agreement, pursuant to which it may borrow up to \$77.5 million in the aggregate. As of December 31, 2011, the outstanding principal balance under the Phase II Credit Agreement was \$26.3 million. CDF2 Holdings has entered into the CHG Lease pursuant to which CHG has committed to provide sale/leaseback financing for digital cinema projection systems that are partially financed by the Phase II Credit Agreement in an amount up to approximately \$23.1 million in the aggregate. As of December 31, 2011, CHG had provided approximately \$9.9 of sale/leaseback financing for such digital cinema

projection systems. These facilities are non-recourse to the Company and our subsidiaries, other than CDF 2 and CDF 2 Holdings, as the case may be. Although the Phase II financing arrangements undertaken by CDF 2 and CDF 2 Holdings are important to the Company with respect to the success of its Phase II Deployment, the Company's financial exposure related to the debt of CDF 2 and CDF 2 Holdings is limited to the \$2 million initial investment it made into CDF 2 and CDF 2 Holdings.

The obligations and restrictions under the Phase II Credit Agreement and the CHG Lease could have important consequences for CDF 2 and CDF 2 Holdings, including:

- Limiting their ability to obtain necessary financing in the future;
- requiring them to dedicate a substantial portion of their cash flow to payments on their debt obligations, thereby reducing the availability of their cash flow for other uses; and
- limiting our ability to pay dividends to our shareholders.

If we are unable to meet our lease and debt obligations, we could be forced to restructure or refinance our obligations, to seek additional equity financing or to sell assets, which we may not be able to do on satisfactory terms or at all. As a result, we could default on those obligations and in the event of such default, our lenders could accelerate our debt or take other actions that could restrict our operations.

The foregoing risks would be intensified to the extent we borrow additional money or incur additional debt.

The agreements governing the financing of our Phase I Deployment, part of our Phase II Deployment and our issuance of the 2010 Note impose certain limitations on us.

The Phase I Credit Agreement governing the financing of our Phase I Deployment restricts the ability of CDF I and its existing and future subsidiaries to, among other things:

- make certain capital expenditures and investments;
- incur other indebtedness or liens;
- engage in a new line of business;
- sell assets;
- pay dividends or make distributions to shareholders;
- acquire, consolidate with, or merge with or into other companies; and
- enter into transactions with affiliates.

One or more of the KBC Agreements governing part of the financing of our Phase II Deployment restrict the ability of Phase 2 B/AIX to, among other things:

- dispose of or incur other liens on the digital cinema projection systems financed by KBC;
- engage in a new line of business;
- sell assets outside the ordinary course of business or on other than arm's length terms;
- make payments to majority owned affiliated companies; and
- consolidate with, or merge with or into other companies.

The agreements governing the 2010 Note restrict the ability of the Company and its subsidiaries, subject to certain exceptions, to, among other things:

- incur other indebtedness or liens;

- create or acquire subsidiaries which do not guarantee the notes;
- make certain investments;
- amend certain agreements;
- pay dividends; and
- modify authorized capital.

The agreements governing the financing of other parts of our Phase II Deployment impose certain limitations on us.

The Phase II Credit Agreement governing part of the financing of part of our Phase II Deployment that has not been financed by the KBC Agreements restricts the ability of CDF 2 and its existing and future subsidiaries to, among other things:

- make certain capital expenditures and investments;
- incur other indebtedness or liens;
- engage in a new line of business;
- sell assets;
- pay dividends or make distributions to shareholders;
- acquire, consolidate with, or merge with or into other companies; and
- enter into transactions with affiliates.

The CHG Lease governing part of the financing of part of our Phase II Deployment restricts the ability of CDF2 Holdings to, among other things:

- incur liens on the digital cinema projection systems financed; and
- sublease, assign or modify the digital cinema projection systems financed.

We may not be able to generate the amount of cash needed to fund our future operations.

Our ability either to make payments on or to refinance our indebtedness, or to fund planned capital expenditures and research and development efforts, will depend on our ability to generate cash in the future. Our ability to generate cash is in part subject to general economic, financial, competitive, regulatory and other factors that are beyond our control.

Based on our current level of operations, we believe our cash flow from operations, subsequent borrowings and Credit Agreement terms will be adequate to meet our future liquidity needs through at least December 31, 2012. Significant assumptions underlie this belief, including, among other things, that there will be no material adverse developments in

our business, liquidity or capital requirements. If we are unable to service our indebtedness, we will be forced to adopt an alternative strategy that may include actions such as:

- reducing capital expenditures;

- reducing research and development efforts;
- selling assets;
- restructuring or refinancing our remaining indebtedness; and
- seeking additional funding.

We cannot assure you, however, that our business will generate sufficient cash flow from operations, or that we will be able to make future borrowings in amounts sufficient to enable us to pay the principal and interest on our current indebtedness or to fund our other liquidity needs. We may need to refinance all or a portion of our indebtedness on or before maturity. We cannot assure you that we will be able to refinance any of our indebtedness on commercially reasonable terms or at all.

We have incurred losses since our inception.

We have incurred losses since our inception in March 2000 and have financed our operations principally through equity investments and borrowings. As of December 31, 2011, we had working capital, defined as current assets less current liabilities, of \$9.8 million and cash and cash equivalents, investment securities and restricted cash totaling \$31.8 million; we had an accumulated deficit of \$215.2 million and, from inception through such date, and we had provided \$70.0 million in cash for operating activities. However, our net losses are likely to continue for the foreseeable future.

Our ability to become profitable is dependent upon us achieving a sufficient volume of business from our customers. If we cannot achieve a high enough volume, we likely will incur additional net losses. We may be unable to continue our business as presently conducted unless we obtain funds from additional financings.

Our net losses and cash outflows may increase as and to the extent that we increase the size of our business operations, increase the purchases of Systems for Phase 2 DC's Phase II Deployment, increase our sales and marketing activities, enlarge our customer support and professional services and acquire additional businesses. These efforts may prove to be more expensive than we currently anticipate which could further increase our losses. Even if we achieve profitability, we may not be able to sustain it.

Many of our corporate actions may be controlled by our officers, directors and principal stockholders; these actions may benefit these principal stockholders more than our other stockholders.

As of March 1, 2012, our directors, executive officers and principal stockholders, those known by the Company to beneficially own more than 5% of the outstanding shares of the Company's Common Stock, beneficially own, directly or indirectly, in the aggregate, approximately 39.7% of our outstanding common stock. In particular, Chris McGurk, our Chairman and Chief Executive Officer, owns 199,615 shares of Class A Common Stock and has stock options to purchase 4,500,000 shares of Class A Common Stock. Such options will vest in thirds starting in December 2011 and finishing in December 2013. If all the options were exercised, Mr. McGurk would own 4,699,615 shares or approximately 11.2% of the then-outstanding Class A Common Stock. Also, Adam Mizel, our Chief Operating Officer and Chief Financial Officer, owns 1,612,861 shares of Class A Common Stock and has stock options to purchase 950,000 shares of Class A Common Stock. The options vest through 2014. If all the options were exercised, Mr. Mizel would own 2,562,861 shares or approximately 6.6% of the then-outstanding Class A Common Stock. In addition, Sageview owns warrants to purchase 16,000,000 shares of Class A Common Stock. If such warrants are exercised, Sageview would own approximately 29.8% of the then-outstanding Class A Common Stock. Sageview is also currently entitled to nominate two members to our board of directors (with such nomination right subject to

reduction or elimination under certain circumstances).

These stockholders will have significant influence over our business affairs, with the ability to control matters requiring approval by our security holders, including elections of directors and approvals of mergers or other

business combinations. Also, certain corporate actions directed by our officers may not necessarily inure to the proportional benefit of other stockholders of our company.

Our success will significantly depend on our ability to hire and retain key personnel.

Our success will depend in significant part upon the continued services of our key technical, sales and senior management personnel. If we lose one or more of our key employees, we may not be able to find a suitable replacement(s) and our business and results of operations could be adversely affected. In addition, our future success will depend upon our ability to hire, train, integrate and retain qualified new employees.

If the market price of our Common Stock declines, we may not be able to maintain our listing on the Nasdaq Global Market which may impair our financial flexibility and restrict our business significantly.

The stock markets have experienced extreme price and volume fluctuations that have affected the market prices of equity securities of many companies that may be unrelated or disproportionate to the operating results of such companies. These broad market movements may adversely affect the market price of the Common Stock. The Common Stock is presently listed on Nasdaq. Although we are not currently in jeopardy of delisting, we cannot assure you that we will meet the criteria for continued listing and our Common Stock could become delisted. Any such delisting could harm our ability to raise capital through alternative financing sources on terms acceptable to us, or at all, and may result in the loss of confidence in our financial stability by suppliers, customers and employees. If the Common Stock is delisted from Nasdaq, we may face a lengthy process to re-list the Common Stock, if we are able to re-list the Common Stock at all, and the liquidity that Nasdaq provides will no longer be available to investors.

If the Common Stock were to be delisted from Nasdaq, it could, under certain circumstances, be deemed to be a change of control in the Company and, as a result, the holders of the 2010 Note would have the right to require the Company redeem the outstanding principal of the 2010 Note. As a result, we could be forced to restructure or refinance our obligations, to seek additional equity financing or to sell assets, which we may not be able to do on satisfactory terms or at all. If we default under the 2010 Note obligations, our lenders could take actions that would restrict our operations.

While we believe we currently have effective internal control over financial reporting, we are required to assess our internal control over financial reporting on an annual basis and any future adverse results from such assessment could result in a loss of investor confidence in our financial reports and have an adverse effect on our stock price.

Section 404 of the Sarbanes-Oxley Act of 2002 and the accompanying rules and regulations promulgated by the SEC to implement it required us to include in our Form 10-K annual reports by our management and independent auditors regarding the effectiveness of our internal control over financial reporting. The reports included, among other things, an assessment of the effectiveness of our internal control over financial reporting as of the end of our fiscal year. These assessments did not result in the disclosure of any material weaknesses in our internal control over financial reporting identified by management. During this process, if our management identified one or more material weaknesses in our internal control over financial reporting that cannot be remediated in a timely manner, we would not be able to assert such internal control as effective. While we currently believe our internal control over financial reporting is effective, the effectiveness of our internal controls in future periods is subject to the risk that our controls may become inadequate because of changes in conditions, and, as a result, the degree of compliance of our internal control over financial reporting with the applicable policies or procedures may deteriorate. If, in the future, we are unable to conclude that our internal control over financial reporting is effective (or if our independent auditors disagree with our conclusion), we could lose investor confidence in the accuracy and completeness of our financial reports, which could have an adverse effect on our stock price.

New technologies may make our Digital Cinema Assets less desirable to motion picture studios or exhibitors of digital content and result in decreasing revenues.

The demand for our Systems and other assets in connection with our digital cinema business (collectively, our “Digital Cinema Assets”) may be affected by future advances in technology and changes in customer demands. We cannot assure you that there will be continued demand for our Digital Cinema Assets. Our profitability depends largely upon the continued use of digital presentations at theatres. Although we have entered into long term agreements with major motion picture studios and independent studios (the “Studio Agreements”), there can be no assurance that these studios will continue to distribute digital content to movie theatres. If the development of digital presentations and changes in the way digital files are delivered does not continue or technology is used that is not compatible with our Systems, there may be no viable market for our Systems. Any reduction in the use of our Systems resulting from the development and deployment of new technology may negatively impact our revenues and the value of our Systems.

We have concentration in our business with respect to our major motion picture studio customers, and the loss of one or more of our largest studio customers could have a material adverse effect on us.

Our Studio Agreements account for a significant portion of our revenues. Together these studios generated 75%, 61%, 26%, 37% and 53% of Phase 1 DC's, Phase 2 DC's, Software's, the non-Software Service's segments, and our consolidated revenues, respectively, for the nine months ended December 31, 2011.

The Studio Agreements are critical to our business. If some of the Studio Agreements were terminated prior to the end of their terms or found to be unenforceable, or if our Systems are not upgraded or enhanced as necessary, or if we had a material failure of our Systems, it may have a material adverse effect on our revenue, profitability, financial condition and cash flows. The Studio Agreements also generally provide that the VPF rates and other material terms of the agreements may not be more favorable to one studio as compared to the others.

Termination of the MLAs could damage our revenue and profitability.

The master license agreements with each of our licensed exhibitors (the “MLAs”) are critical to our business. The MLAs each have a term which expires in 2020 through 2022 and provide the exhibitor with an option to purchase our Systems or to renew for successive one year periods up to ten years thereafter. The MLAs also require our suppliers to upgrade our Systems when technology necessary for compliance with DCI Specification becomes commercially available and we may determine to enhance the Systems which may require additional capital expenditures. If any one of the MLAs were terminated prior to the end of its term, not renewed at its expiration or found to be unenforceable, or if our Systems are not upgraded or enhanced as necessary, it would have a material adverse effect on our revenue, profitability, financial condition and cash flows.

We have concentration in our business with respect to our major licensed exhibitors, and the loss of one or more of our largest exhibitors could have a material adverse effect on us.

Over 56% of Phase 1 DC's Systems are in theatres owned or operated by one large exhibitor. The loss of this exhibitor or another of our major licensed exhibitors could have a negative impact on the aggregate receipt of VPF revenues as a result of the loss of any associated MLAs. Although we do not receive revenues from licensed exhibitors and we have attempted to limit our licenses to only those theatres which we believe are successful, each MLA with our licensed exhibitors is important, depending on the number of screens, to our business since VPF revenues are generated based on screen turnover at theatres. If the MLA with a significant exhibitor was terminated prior to the end of its term, it would have a material adverse effect on our revenue, profitability, financial condition and cash flows. There can be no guarantee that the MLAs with our licensed exhibitors will not be terminated prior to the end of its term.

We depend on a limited number of suppliers for our Systems, and any delay in supply could affect our ability to grow.

We currently purchase Systems from a limited number of suppliers for our Systems in our Phase II Deployment. The inability to obtain certain components on a timely basis would limit our ability to complete installation of such Systems in a timely manner and would affect the amount of future revenues.

An increase in the use of alternative film distribution channels and other competing forms of entertainment could drive down movie theatre attendance, which, if causing significant theatre closures or a substantial decline in motion picture production, may lead to reductions in our revenues.

Various exhibitor chains which are the Company's distributors face competition for patrons from a number of alternative motion picture distribution channels, such as DVD, network and syndicated television, video on-demand, pay-per-view television and downloading utilizing the internet. These exhibitor chains also compete with other forms of entertainment competing for patrons' leisure time and disposable income such as concerts, amusement parks and sporting events. An increase in popularity of these alternative film distribution channels and competing forms of entertainment could drive down movie theatre attendance and potentially cause certain of our exhibitors to close their theatres for extended periods of time. Significant theatre closures could in turn have a negative impact on the aggregate receipt of our VPF revenues, which in turn may have a material adverse effect on our business and ability to service our debt.

An increase in the use of alternative film distribution channels could also cause the overall production of motion pictures to decline, which, if substantial, could have an adverse effect on the businesses of the major studios with which we have Studio Agreements. A decline in the businesses of the major studios could in turn force the termination of certain Studio Agreements prior to the end of their terms. The Studio Agreements with each of the major studios are critical to our business, and their early termination may have a material adverse effect on our revenue, profitability, financial condition and cash flows.

The acquisition restrictions contained in our certificate of incorporation and our Tax Benefit Preservation Plan, which are intended to help preserve our net operating losses, may not be effective or may have unintended negative effects.

We have experienced, and may continue to experience, substantial operating losses, and under Section 382 of the Internal Revenue Code of 1986, as amended ("Section 382"), and rules promulgated by the Internal Revenue Service, we may "carry forward" these net operating losses ("NOLs") in certain circumstances to offset any current and future earnings and thus reduce our federal income tax liability, subject to certain requirements and restrictions. To the extent that the NOLs do not otherwise become limited, we believe that we will be able to carry forward a significant amount of the NOLs, and therefore these NOLs could be a substantial asset to us. If, however, we experience a Section 382 ownership change, our ability to use the NOLs will be substantially limited, and the timing of the usage of the NOLs could be substantially delayed, which could therefore significantly impair the value of that asset.

To reduce the likelihood of an ownership change, we have established acquisition restrictions in our certificate of incorporation and our board of directors (the "Board") adopted a tax benefit preservation plan (the "Tax Benefit Preservation Plan"). The Tax Benefit Preservation Plan is designed to protect shareholder value by attempting to protect against a limitation on our ability to use our existing NOLs. The acquisition restrictions in our certificate of incorporation are also intended to restrict certain acquisitions of our common stock to help preserve our ability to utilize our NOLs by avoiding the limitations imposed by Section 382 and the related Treasury regulations. The acquisition restrictions and the Tax Benefit Preservation Plan are generally designed to restrict or deter direct and indirect acquisitions of our common stock if such acquisition would result in a shareholder becoming a "5-percent shareholder" (as defined by Section 382 and the related Treasury regulations) or increase the percentage ownership of

Cinedigm stock that is treated as owned by an existing 5-percent shareholder.

Although the acquisition restrictions and the Tax Benefit Preservation Plan are intended to reduce the likelihood of an ownership change that could adversely affect us, we can give no assurance that such restrictions would prevent all transfers that could result in such an ownership change. In particular, we have been advised by our counsel that, absent a court determination, there can be no assurance that the acquisition restrictions will be enforceable against all of our shareholders, and that they may be subject to challenge on equitable grounds. In particular, it is possible that the acquisition restrictions may not be enforceable against the shareholders who voted against or abstained from voting on the restrictions at our 2009 annual meeting of stockholders.

Under certain circumstances, our Board may determine it is in the best interest of the Company to exempt certain 5-percent shareholders from the operation of the acquisition restrictions or the Tax Benefit Preservation Plan, if a proposed transaction is determined not to be detrimental to the Company's utilization of its NOLs.

The acquisition restrictions and Tax Benefit Preservation Plan also require any person attempting to become a holder of 5% or more of our common stock, as determined under Section 382, to seek the approval of our Board. This may have an unintended "anti-takeover" effect because our Board may be able to prevent any future takeover. Similarly, any limits on the amount of stock that a stockholder may own could have the effect of making it more difficult for stockholders to replace current management. Additionally, because the acquisition restrictions and the Tax Benefit Preservation Plan have the effect of restricting a stockholder's ability to dispose of or acquire our common stock, the liquidity and market value of our Class A Common Stock might suffer. The Tax Benefit Preservation Plan will remain in effect until the earlier of (a) August 10, 2012, or (b) such other date as our Board in good faith determines it is no longer in the best interests of Cinedigm and its stockholders. The acquisition restrictions may be waived by our Board. Stockholders are advised to monitor carefully their ownership of our common stock and consult their own legal advisors and/or Cinedigm to determine whether their ownership of our common stock approaches the proscribed level.

The occurrence of various events may adversely affect the ability of the Company to fully utilize NOLs.

The Company has a substantial amount of NOLs for U.S. federal income tax purposes that are available both currently and in the future to offset taxable income and gains. Events outside of our control may cause us to experience a Section 382 ownership change, and limit our ability to fully utilize such NOLs.

In general, an ownership change occurs when, as of any testing date, the percentage of stock of a corporation owned by one or more "5-percent shareholders," as defined in the Section 382 and the related Treasury regulations, has increased by more than 50 percentage points over the lowest percentage of stock of the corporation owned by such shareholders at any time during the three-year period preceding such date. In general, persons who own 5% or more of a corporation's stock are 5-percent shareholders, and all other persons who own less than 5% of a corporation's stock are treated, together, as a single, public group 5-percent shareholder, regardless of whether they own an aggregate of 5% or more of a corporation's stock. If a corporation experiences an ownership change, it is generally subject to an annual limitation, which limits its ability to use its NOLs to an amount equal to the equity value of the corporation multiplied by the federal long-term tax-exempt rate.

If we were to experience an ownership change, we could potentially have, in the future, higher U.S. federal income tax liabilities than we would otherwise have had and it may also result in certain other adverse consequences to us. Therefore, we have adopted the Tax Benefit Preservation Plan and the acquisition restrictions set forth in Article Fourth of our certificate of incorporation in order to reduce the likelihood that we will experience an ownership change under Section 382. There can be no assurance, however, that these efforts will deter or prevent the occurrence of an ownership change and the adverse consequences that may arise therefrom, as described above under the risk factor titled "The acquisition restrictions contained in our certificate of incorporation and our Tax Benefit Preservation Plan, which are intended to help preserve our net operating losses, may not be effective or may have unintended negative effects."

Our revenues and earnings are subject to market downturns.

Our revenues and earnings may fluctuate significantly in the future. General economic or other conditions could cause a downturn in the market for our Systems or technology. Financial markets in the United States and around the world experienced extreme disruption in the second half of 2008 and much of 2009, including, among other things, extreme volatility in security prices, severely diminished liquidity and credit availability, ratings downgrades of certain investments and declining values of others. The global economy was in a recession. In 2010, the global economy began a gradual recovery from the significant downturn in the second half of 2008 and all of 2009, which continued in 2011 and is expected to continue at a gradual pace in 2012 and 2013. While stabilization appears to have begun, it is a slow process and the global economy remains fragile. However, the financial industry disruption may result in the inability of our studios, exhibitors or other customers to obtain credit to finance operations; a slowdown in global economies which could result in lower consumer demand for films; counterparty failures negatively impacting our interest rate swaps; or increased impairments of our assets. The current volatility in the financial markets and overall economic uncertainty increase the risk of substantial quarterly and annual fluctuations in our earnings. Any of these factors could have a material adverse effect on our business, results of operations and could result in significant additional dilution to shareholders.

Economic conditions could materially adversely affect the Company.

The Company's operations and performance could be influenced by worldwide economic conditions. Uncertainty about current global economic conditions poses a risk as consumers and businesses may postpone spending in response to tighter credit, negative financial news and/or declines in income or asset values, which could have a material negative effect on the demand for the Company's products and services. Other factors that could influence demand include continuing increases in fuel and other energy costs, conditions in the residential real estate and mortgage markets, labor and healthcare costs, access to credit, consumer confidence, and other macroeconomic factors affecting consumer spending behavior. These and other economic factors could have a material adverse effect on demand for the Company's products and services and on the Company's financial condition and operating results. Uncertainty about current global economic conditions could also continue to increase the volatility of the Company's stock price.

The continued threat of terrorism and ongoing military and other actions may result in decreases in our net income, revenue and assets under management and may adversely affect our business.

The continued threat of terrorism, both within the United States of America and abroad, and the ongoing military and other actions and heightened security measures in response to these types of threats, may cause significant volatility and declines in the capital markets in the United States of America, Europe and elsewhere, loss of life, property damage, additional disruptions to commerce and reduced economic activity. An actual terrorist attack could cause losses from a decrease in our business.

The war on terrorism, the threat of additional terrorist attacks, the political and the economic uncertainties that may result and other unforeseen events may impose additional risks upon and adversely affect the cinema industry and our business. We cannot offer assurances that the threats of future terrorist-like events in the United States of America and abroad or military actions by the United States of America will not have a material adverse effect on our business, financial condition or results of operations.

Changes to existing accounting pronouncements or taxation rules or practices may affect how we conduct our business and affect our reported results of operations.

New accounting pronouncements or tax rules and varying interpretations of accounting pronouncements or taxation practice have occurred and may occur in the future. A change in accounting pronouncements or interpretations or taxation rules or practices can have a significant effect on our reported results and may even affect our reporting of transactions completed before the change is effective. Changes to existing rules and pronouncements, future changes, if any, or the questioning of current practices or interpretations may adversely affect our reported financial results or the way we conduct our business.

Risks relating to the offering

The liquidity of the Common Stock is uncertain; the limited trading volume of the Common Stock may depress the price of such stock or cause it to fluctuate significantly.

Although shares of the Common Stock are listed on Nasdaq, there has been a limited public market for the Common Stock and there can be no assurance that an active trading market for the Common Stock will develop. As a result, you may not be able to sell your shares of Common Stock in short time periods, or possibly at all. The absence of an active trading market may cause the price per share of the Common Stock to fluctuate significantly.

Substantial resales or future issuances of the Common Stock could depress our stock price.

The market price for the Common Stock could decline, perhaps significantly, as a result of resales or issuances of a large number of shares of the Common Stock in the public market or even the perception that such resales or issuances could occur, including resales of the shares being registered hereunder pursuant to the registration statement of which this prospectus is a part. In addition, we have outstanding a substantial number of options, warrants and other securities convertible into shares of Common Stock that may be exercised in the future. Certain holders of our securities, including with respect to shares of Common Stock issuable in exchange for warrants, have demand and piggy-back registration rights. These factors could also make it more difficult for us to raise funds through future offerings of our equity securities.

You will incur substantial dilution as a result of certain future equity issuances.

We have a substantial number of options, warrants and other securities currently outstanding which may be immediately converted into shares of Common Stock. To the extent that these options, warrants or similar securities are exercised or converted, or to the extent we issue additional shares of Common Stock in the future, as the case may be, there will be further dilution to holders of shares of the Common Stock.

Our issuance of preferred stock could adversely affect holders of Common Stock.

Our board of directors is authorized to issue series of preferred stock without any action on the part of our holders of Class A Common Stock. Our board of directors also has the power, without stockholder approval, to set the terms of any such series of preferred stock that may be issued, including voting rights, dividend rights, preferences over our Common Stock with respect to dividends or if we liquidate, dissolve or wind up our business and other terms. If we issue preferred stock in the future that has preference over our Common Stock with respect to the payment of dividends or upon our liquidation, dissolution or winding up, or if we issue preferred stock with voting rights that dilute the voting power of our Common Stock, the rights of holders of our Common Stock or the price of our Common Stock could be adversely affected.

Provisions of our certificate of incorporation, Delaware law and the 2010 Note could make it more difficult for a third party to acquire us.

Provisions of our certificate of incorporation, as well as of Section 203 of the Delaware General Corporation Law (the "DGCL"), could make it more difficult for a third party to acquire us, even if doing so might be beneficial to our stockholders.

Our certificate of incorporation authorizes the issuance of 15,000,000 shares of preferred stock. The terms of our preferred stock may be fixed by the company's board of directors without further stockholder action. The terms of any outstanding series or class of preferred stock may include priority claims to assets and dividends and special voting

rights, which could adversely affect the rights of holders of Common Stock. Any future issuance(s) of preferred stock could make the takeover of the company more difficult, discourage unsolicited bids for control of the company in which our stockholders could receive premiums for their shares, dilute or subordinate the rights of holders of Common Stock and adversely affect the trading price of the Common Stock. In addition, as described above in the risk factor titled “The acquisition restrictions contained in our certificate of incorporation and our Tax Benefit Preservation Plan, which are intended to help preserve our net operating losses, may not be effective or may

have unintended negative effects,” the acquisition restrictions in our certificate of incorporation and the Tax Benefit Preservation Plan also contain mechanisms by which any person attempting to become a holder of 5% or more of our common stock may seek advance approval from our Board.

Under Section 203 of the DGCL, Delaware corporations whose securities are listed on a national securities exchange, like Nasdaq, may not engage in business combinations such as mergers or acquisitions with any interested stockholders, defined as an entity or person beneficially owning 15% or more of our outstanding common stock without obtaining certain prior approvals. As a result of the application of Section 203, potential acquirers of the company may be discouraged from attempting to effect an acquisition transaction with the company, thereby depriving holders of the company’s securities of opportunities to sell or otherwise dispose of the securities at prices above prevailing market prices.

Under the 2010 Note, the holders of such note may require the Company to redeem all or a portion of the outstanding principal thereof upon a change in control.

We may not be able to maintain the listing of our Common Stock on Nasdaq, which may adversely affect the ability of purchasers of Class A Common Stock in this offering to resell their securities in the secondary market.

If the Company were unable to meet the continued listing criteria of Nasdaq and the Common Stock became delisted, trading of the Common Stock could thereafter be conducted in the over-the-counter markets in the OTC Pink, also known as “pink sheets” or, if available, on the OTC Bulletin Board. In such case, an investor would likely find it more difficult to dispose of, or to obtain accurate market quotations for, the Common Stock. In addition, the failure of our Common Stock to continue to be listed on the Nasdaq could adversely impact the market price for the Common Stock.

We have no present intention of paying dividends on our Common Stock.

We have never paid any cash dividends on our Common Stock and have no present plans to do so. In addition, under the terms of the 2010 Note, we are limited in our ability to pay cash dividends unless we obtain the written consent of the holders of the 2010 Note.

USE OF PROCEEDS

We expect to use the net proceeds from the sale of our securities, as will be set forth in a prospectus supplement, for working capital, acquisitions and other general corporate purposes.

DESCRIPTION OF CAPITAL STOCK

The following summary description of our capital stock is not intended to be complete and is subject, and qualified in its entirety by reference, to our amended and restated certificate of incorporation and our bylaws.

General

We have authorized capital stock consisting of 90,000,000 shares of common stock, par value \$0.001 per share, and 15,000,000 shares of preferred stock, par value \$0.001 per share.

Holders of a majority of our outstanding shares of capital stock present or represented by proxy at any meeting of our stockholders constitute a quorum. If a quorum exists, holders of a majority of the voting power of the shares of capital stock present at the meeting may generally approve matters coming before any stockholders meeting. The affirmative vote of the holders of a majority of the voting power of the outstanding shares of our capital stock is required to

approve significant corporate transactions, including a liquidation, merger or sale of substantially all of our assets.

Common Stock

As of March 5, 2012, we had 75,000,000 shares designated as Class A common stock and 15,000,000 designated as Class B common stock, had 37,615,159 shares of Class A common stock outstanding and owned by 121 record holders, had reserved for issuance (i) 7,000,000 shares of Class A common stock under the Company's Second Amended and Restated 2000 Equity Incentive Plan, (ii) 16,525,000 shares of Class A common stock with respect to outstanding warrants and (iii) 4,500,000 shares of Class A common stock upon exercise of inducement stock options and (iv) 25,000 shares of Class A common stock upon conversion of shares of Class B common stock outstanding and beneficially owned by 1 holder.

Voting Rights. Holders of our common stock are entitled to the following vote(s) per share on all matters submitted to a vote of our stockholders: the Class A common stock, one vote per share; and the Class B common stock, ten votes per share. The holders of our outstanding shares of common stock vote together as a single class on all matters submitted to a vote (or consent) of our stockholders.

Conversion. Each outstanding share of Class B common stock may be converted into one share of Class A common stock at any time, and from time to time, at the option of the holder of such share.

Dividends; Liquidation; Preemptive Rights. Holders of our common stock are entitled to receive dividends only if, as and when declared by our board of directors out of funds legally available for that purpose. In the event of our liquidation, dissolution or winding-up, holders of our common stock are entitled, subject to any priorities due to any holders of our preferred stock, ratably to share in all assets remaining after payment of our liabilities. Holders of our common stock have no preemptive rights nor, except with respect to the conversion rights of the Class B common stockholder described above, any other rights to subscribe for shares or securities convertible into or exchangeable for shares of our common stock.

Our Class A Common Stock is traded on Nasdaq under the symbol "CIDM".

Preferred Stock

Our board of directors is authorized, subject to any limitations prescribed by law, without further stockholder approval, to issue from time to time up to an aggregate of 15,000,000 shares of our preferred stock, in one or more series. As of March 1, 2012, there were 7 shares of Series A 10% Non-Voting Cumulative Preferred Stock (the "Series A Preferred Stock") issued and outstanding. The Series A Preferred Stock may be redeemed by the Company at any time after the second anniversary of the date such shares were issued in cash or, at the Company's option if certain conditions are met, in shares of Common Stock. The holders of Series A Preferred Stock are entitled to receive cumulative dividends from the date of issuance at an annual rate of 10% of the original issue price. Such dividends shall be payable in arrears in cash or, at the Company's option, in shares of Common Stock if certain conditions are met, quarterly on the last day of each calendar quarter, until such shares of Preferred Stock are redeemed.

Each other series of preferred stock to be issued, if any, will have such number of shares, designations, preferences, powers and qualifications and special or relative rights or privileges as will be determined by our board of directors, which may include, among others, dividend rights, voting rights, redemption and sinking fund provisions, liquidation preferences, conversion rights and preemptive rights. The rights of the holders of our common stock will be subject to the rights of holders of any preferred stock outstanding and issued in the future. The issuance of preferred stock, while providing desirable flexibility in connection with the possible acquisitions and other corporate purposes, could have the effect of making it more difficult for a third party to acquire, or of discouraging a third party from acquiring, a majority of our outstanding voting stock.

Terms. The specific terms of any preferred stock being offered will be described in the prospectus supplement relating to that preferred stock. The following summaries of the provisions of the preferred stock are subject to, and are qualified in their entirety by reference to, the certificate of designation relating to the particular class or series of preferred stock offered with that prospectus supplement for specific terms, including:

- the designation of the preferred stock

- the number of shares of the preferred being offered, the liquidation preference per share and the offering price of the preferred stock;
- the dividend rate(s), period(s) and/or payment date(s) or method(s) of calculating these items applicable to the preferred stock;
- the place or places where dividends will be paid, whether dividends will be cumulative or noncumulative, and, if cumulative, the date from which dividends on the preferred stock will accumulate, if applicable;
- the procedures for any action and remarketing of the preferred stock;
- the provision of a sinking fund, if any, for the preferred stock;
- the provision for redemption, if applicable, of the preferred stock;
- any listing of the preferred stock on any securities exchange;
- the terms and conditions, if applicable, upon which the preferred stock will be convertible into or exchangeable for Class A common stock, and whether at our option or the option of the holder;
- whether the preferred stock will rank senior or junior to or on a parity with any other class or series of preferred stock;
- the voting rights, if any, of the preferred stock;
- any other specific terms, preferences, rights, limitations or restrictions of the preferred stock; and
- a discussion of the United States federal income tax considerations applicable to the preferred stock.

DESCRIPTION OF WARRANTS

We may issue warrants for the purchase of preferred stock, Class A common stock or any combination thereof. Warrants may be issued independently or together with any other securities offered in an applicable prospectus supplement and may be attached to or separate from such securities. Warrants may be issued under warrant agreements (each, a “warrant agreement”) to be entered into between us and a warrant agent specified in the applicable prospectus supplement. The warrant agent will act solely as our agent in connection with the warrants of a particular series and will not assume any obligation or relationship of agency or trust for or with any holders or beneficial owners of warrants. The following sets forth certain general terms and provisions of warrants which may be offered. Further terms of the warrants and the applicable warrant agreement will be set forth in the applicable prospectus supplement.

Terms. The prospectus supplement relating to a particular issue of warrants for the purchase of Class A common stock or preferred stock will describe the terms of the warrants, including the following:

- the title of the warrants;
- the offering price for the warrants, if any;
- the aggregate number of the warrants;
- the designation and terms of the Class A common stock or preferred stock that may be purchased upon exercise of the warrants;

- if applicable, the designation and terms of the securities that the warrants are issued with and the number of warrants issued with each security;
- if applicable, the date from and after which the warrants and any securities issued with the warrants will be separately transferable;

- the number of shares of Class A common stock or preferred stock that may be purchased upon exercise of a warrant and the price at which such shares may be purchased upon exercise;
- the dates on which the right to exercise the warrants will commence and expire;
- if applicable, the minimum or maximum amount of the warrants that may be exercised at any one time;
- the currency or currency units in which the offering price, if any, and the exercise price are payable;
- if applicable, a discussion of material United States federal income tax considerations;
- the antidilution provisions of the warrants, if any;
- the redemption or call provisions, if any, applicable to the warrants; and
- any additional terms of the warrants, including terms, procedures, and limitations relating to the exchange and exercise of the warrants.

Exercise of Warrants

Each warrant will entitle the holder of warrants to purchase for cash the amount of shares of preferred stock or shares of Class A common stock at the exercise price as shall in each case be set forth in, or be determinable as set forth in, the prospectus supplement relating to the warrants offered thereby. Warrants may be exercised at any time up to the close of business on the expiration date set forth in the prospectus supplement relating to the warrants offered thereby. After the close of business on the expiration date the unexercised warrants will become void.

Warrants may be exercised as set forth in the prospectus supplement relating to the warrants offered thereby. Upon receipt of payment and the warrant certificate properly completed and duly executed at the corporate trust office of the warrant agent or any other office indicated in the prospectus supplement, we will, as soon as practicable, forward the shares of preferred stock or shares of Class A common stock purchasable upon such exercise. If less than all of the warrants represented by the warrant certificate are exercised, a new warrant certificate will be issued for the remaining warrants.

DESCRIPTION OF DEBT SECURITIES

The following description, together with the additional information we include in any applicable prospectus supplements, summarizes the material terms and provisions of the debt securities that we may offer under this prospectus. While the terms we have summarized below will generally apply to any future debt securities we may offer under this prospectus, we will describe the particular terms of any debt securities that we may offer in more detail in the applicable prospectus supplement. The terms of any debt securities we offer under a prospectus supplement may differ from the terms we describe below.

We will issue the subordinated notes under the subordinated indenture which we will enter into with the trustee named in the subordinated indenture. The form of indenture is being filed as an exhibit to the registration statement of which this prospectus is a part. The indenture will be qualified under the Trust Indenture Act of 1939. We use the term "debenture trustee" to refer to either the trustee under the indenture.

The following summaries of material provisions of the subordinated notes and the indenture are subject to, and qualified in their entirety by reference to, all the provisions of the indenture applicable to a particular series of debt

securities. We urge you to read the applicable prospectus supplements related to the debt securities that we sell under this prospectus, as well as the complete indenture that contains the terms of the debt securities.

General

We will describe in the applicable prospectus supplement the terms relating to a series of debt securities, including:

- the title;
- the principal amount being offered, and, if a series, the total amount authorized and the total amount outstanding;
- any limit on the amount that may be issued;
- whether or not we will issue the series of debt securities in global form and, if so, the terms and who the depositary will be;
- the maturity date;
- the principal amount due at maturity, and whether the debt securities will be issued with any original issue discount;
- whether and under what circumstances, if any, we will pay additional amounts on any debt securities held by a person who is not a United States person for tax purposes, and whether we can redeem the debt securities if we have to pay such additional amounts;
- the annual interest rate, which may be fixed or variable, or the method for determining the rate, the date interest will begin to accrue, the dates interest will be payable and the regular record dates for interest payment dates or the method for determining such dates;
- whether or not the debt securities will be secured or unsecured, and the terms of any secured debt;
- the terms of the subordination of any series of subordinated debt;
- the place where payments will be payable;
- restrictions on transfer, sale or other assignment, if any;
- our right, if any, to defer payment of interest and the maximum length of any such deferral period;
- the date, if any, after which, the conditions upon which, and the price at which we may, at our option, redeem the series of debt securities pursuant to any optional or provisional redemption provisions, and any other applicable terms of those redemption provisions;
- provisions for a sinking fund, purchase or other analogous fund, if any;
- the date, if any, on which, and the price at which we are obligated, pursuant to any mandatory sinking fund or analogous fund provisions or otherwise, to redeem, or at the holder's option to purchase, the series of debt securities;
- whether the indenture will restrict our ability and/or the ability of our subsidiaries to:

- incur additional indebtedness;
- issue additional securities;
- issue guarantees
- create liens;

- pay dividends and make distributions in respect of our capital stock and the capital stock of our subsidiaries;
- redeem capital stock;
- place restrictions on our subsidiaries' ability to pay dividends, make distributions or transfer assets;
- make investments or other restricted payments;
- sell or otherwise dispose of assets;
- enter into sale-leaseback transactions;
- engage in transactions with stockholders and affiliates;
- issue or sell stock of or sell assets of our subsidiaries; or
- effect a consolidation or merger;
- whether the indenture will require us to maintain any interest coverage, fixed charge, cash flow-based, asset-based or other financial ratios;
- a discussion of any material or special United States federal income tax considerations applicable to the debt securities;
- information describing any book-entry features;
- the procedures for any auction and remarketing, if any;
- the denominations in which we will issue the series of debt securities, if other than denominations of \$1,000 and any integral multiple thereof;
- if other than U.S. dollars, the currency in which the series of debt securities will be denominated; and
- any other specific terms, preferences, rights or limitations of, or restrictions on, the debt securities, including any events of default that are in addition to those described in this prospectus or any covenants provided with respect to the debt securities that are in addition to those described above, and any terms which may be required by us or advisable under applicable laws or regulations or advisable in connection with the marketing of the debt securities.

Conversion or Exchange Rights

We will set forth in the prospectus supplement the terms on which a series of debt securities may be convertible into or exchangeable for our common stock or other securities, including the conversion or exchange rate, as applicable, or how it will be calculated, and the applicable conversion or exchange period. We will include provisions as to whether conversion or exchange is mandatory, at the option of the holder or at our option. We may include provisions pursuant to which the number of our securities that the holders of the series of debt securities receive upon conversion or exchange would, under the circumstances described in those provisions, be subject to

adjustment, or pursuant to which those holders would, under those circumstances, receive other property upon conversion or exchange, for example in the event of our merger or consolidation with another entity.

Consolidation, Merger or Sale

The indenture in the form initially filed as an exhibit to the registration statement of which this prospectus is a part does not contain any covenant that restricts our ability to merge or consolidate, or sell, convey, transfer or otherwise dispose of all or substantially all of our assets. However, any successor of ours or acquiror of such assets must assume all of our obligations under the indenture and the debt securities.

If the debt securities are convertible for our other securities, the person with whom we consolidate or merge or to whom we sell all of our property must make provisions for the conversion of the debt securities into securities which the holders of the debt securities would have received if they had converted the debt securities before the consolidation, merger or sale.

Events of Default Under the Indenture

The following are events of default under the indenture with respect to any series of debt securities that we may issue:

- if we fail to pay interest when due and payable and our failure continues for 30 days and the time for payment has not been extended or deferred;
- if we fail to pay the principal, or premium, if any, when due and payable and the time for payment has not been extended or delayed;
- if we fail to observe or perform any other covenant contained in the debt securities or the indenture, other than a covenant solely for the benefit of another series of debt securities, and our failure continues for 90 days after we receive notice from the debenture trustee or holders of at least 25% in aggregate principal amount of the outstanding debt securities of the applicable series; and
- series; and
- if specified events of bankruptcy, insolvency or reorganization occur.

If an event of default with respect to debt securities of any series occurs and is continuing, other than an event of default specified in the last bullet point above, the debenture trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series, by notice to us in writing, and to the debenture trustee if notice is given by such holders, may declare the unpaid principal of, premium, if any, and accrued interest, if any, due and payable immediately. If an event of default specified in the last bullet point above occurs with respect to us, the principal amount of and accrued interest, if any, of each series of debt securities then outstanding shall be due and payable without any notice or other action on the part of the debenture trustee or any holder.

The holders of a majority in principal amount of the outstanding debt securities of an affected series may waive any default or event of default with respect to the series and its consequences, except defaults or events of default regarding payment of principal, premium, if any, or interest, unless we have cured the default or event of default in accordance with the applicable indenture.

Subject to the terms of the indenture, if an event of default under the indenture shall occur and be continuing, the debenture trustee will be under no obligation to exercise any of its rights or powers under such indenture at the request or direction of any of the holders of the applicable series of debt securities, unless such holders have offered the debenture trustee reasonable indemnity. The holders of a majority in principal amount of the outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the debenture trustee, or exercising any trust or power conferred on the debenture trustee, with respect to the debt securities of that series, provided that:

- the direction so given by the holder is not in conflict with any law or the applicable indenture; and
-

subject to its duties under the Trust Indenture Act of 1939, the debenture trustee need not take any action that might involve it in personal liability or might be unduly prejudicial to the holders not involved in the proceeding.

A holder of the debt securities of any series will only have the right to institute a proceeding under the indenture or to appoint a receiver or trustee, or to seek other remedies if:

- the holder has given written notice to the debenture trustee of a continuing event of default with respect to that series;

- the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series have made written request, and such holders have offered reasonable indemnity to the debenture trustee, to institute the proceeding as trustee; and
- the debenture trustee does not institute the proceeding, and does not receive from the holders of a majority in aggregate principal amount of the outstanding debt securities of that series other conflicting directions, within 90 days after the notice, request and offer.

These limitations do not apply to a suit instituted by a holder of debt securities if we default in the payment of the principal, premium, if any, or interest on, the debt securities.

We will periodically file statements with the debenture trustee regarding our compliance with the covenants in the indenture.

Modification of Indenture; Waiver

We and the debenture trustee may change an indenture without the consent of any holders with respect to specific matters, including:

- to fix any ambiguity, defect or inconsistency in the indenture;
- to comply with the provisions described above under "-Consolidation, Merger or Sale;"
- to comply with any requirements of the Securities and Exchange Commission in connection with the qualification of any indenture under the Trust Indenture Act of 1939;
- to evidence and provide for the acceptance of appointment hereunder by a successor trustee;
- to provide for uncertificated debt securities and to make any appropriate changes for such purpose;
- to add to, delete from, or revise the conditions, limitations and restrictions on the authorized amount, terms or purposes of issuance, authorization and delivery of debt securities of any unissued series;
