Section 1 - Registrant's Business and Operations

Item 1.01 Entry into a Material Definitive Agreement

On March 15, 2011, Standard Capital Corporation (the "Company") entered into a Letter of Intent (the "LOI") with Plures Technologies, Inc., a Delaware corporation ("Plures"). Plures is a business development company specializing in creating and acquiring high-potential innovations using a market-need, business-value, technology-feasibility screening process, and Plures has entered into an acquisition agreement to acquire a MEMS technology product manufacturing company ("MemsCo") that pioneered the field of magnetic-based sensor manufacturing technology which is often referred to as "spintronics."

Under certain non-binding terms of the LOI, the Company and Plures agree to act towards entering into a definitive agreement by April 4, 2011, whereby the Company will acquire all of the issued and outstanding capital stock of Plures (through a reverse acquisition transaction) in exchange for the shareholders of Plures acquiring 42,500,000 shares of common stock of the Company on a post-closing basis (the "Transaction"). At the closing of the Transaction, Plures will become a wholly-owned subsidiary of the Company. The closing date for the Transaction will be on or before 30 days from the date (i) Plures completes an audit of its and MemsCo's financial statements as required under U.S. securities laws, (ii) after the Company receives and advances to Plures gross proceeds of between \$1,500,000 and \$1,750,000 in financing, (iii) the satisfaction of all liabilities of the Company, and (iv) Plures completes its acquisition of MemsCo.

The LOI further provides that the definitive agreement will contain customary representations and warranties, covenants, and indemnification provisions.

The LOI is attached to this report as Exhibit 10.1, and the terms and conditions are incorporated herein. The foregoing statement is not intended to be a complete description of all terms and conditions.
