ANNUAL
REPORT
2005

SYNERGX SYSTEM INC.
209 Lafayette Drive
Syosset, NY 11791

To The Stockholders of Synergx Systems Inc.

Enclosed you will find our Annual Report for the fiscal year ended September 30, 2005 and the proxy materials related to our upcoming Annual Meeting of Stockholders.

While we were not satisfied with our decline in revenues, earnings and backlog, we believe we were successful in managing our way through a year of tremendous transition for Synergx.

- * At the start of the year we replaced the President of our principal operating subsidiary in New York and subsequently replaced our managers of Service, Transit Marketing, Project Management, Sales and Information Technology. In short, all of our operations managers changed during 2005.
- * Entirely replaced our management information systems including all operating software and most hardware.
- * Instituted new aggressive costing, inventory management, project management and sales management programs to reduce cost and enhance our marketing.
- * Subsequent to year-end we hired a new Sales Manager with extensive experience in marketing and selling life safety and especially security products and services. We have also just hired a senior technology executive of a major New York area rail system to enhance our transit marketing.
- * Substantially completed a redesign and upgrade of our proprietary life safety system.

Edgar Filing: SYNERGX SYSTEMS INC - Form ARS

- * Secured new and broadened existing product line allowing us to offer a wider area of data communication products and services.
- * Hired new and better sales, project management, field service and support personnel allowing us to implement a major force reduction subsequent to year-end.

We are confident that the foregoing steps will enable us to accelerate the building of stockholder value.

I would like to mention again that due to medical reasons, Joseph Vitale, our long-time President and Chief Operating Officer retired from his position as an officer of Synergx and its subsidiaries on September 30, 2005 and will step down from the Board of Directors at the Annual Meeting of Stockholders in March 2006. I want to thank Joe for all of his efforts on behalf of Synergx over the years and wish him the best of health.

In addition, Dennis McConnell, our outside General Counsel is also stepping down from our Board of Directors and we thank him for his past and continuing service to Synergx.

Your Board of Directors has nominated for your consideration, two new Directors to replace Messrs. Vitale and McConnell; Mitchell Sanders, a Toronto based corporate and securities attorney and Gary Oremán, an investor with extensive experience in technology.

On behalf of the Board of Directors, I invite each of you to attend our Annual Meeting of Stockholders at 11 am on March 15, 2006 at the offices of our attorneys Dolgenos Newman & Cronin LLP, 271 Madison Avenue, 12th Floor, New York, NY and thank you for your continuing support of Synergx.

Daniel S. Tamkin,
Chairman and CEO

Report of Independent Registered Public Accounting Firm

To the Audit Committee of the Board of Directors of
Synergx Systems Inc.

We have audited the accompanying consolidated balance sheet of Synergx Systems Inc. and its subsidiaries (the "Company") as of September 30, 2005 and the related consolidated statements of operations, stockholders' equity, and cash flows for the years ended September 30, 2005 and 2004. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor are we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's control over financial reporting. Accordingly, we express no opinion. An audit also includes examining on a test basis evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates

Edgar Filing: SYNERGX SYSTEMS INC - Form ARS

made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Synergx Systems Inc. and its subsidiaries as of September 30, 2005 and the consolidated results of their operations and their cash flows for the years ended September 30, 2005 and 2004, in conformity with accounting principles generally accepted in the United States of America.

Synergx Systems Inc. and Subsidiaries

Notes to Consolidated Financial Statements

1. Summary of Significant Accounting Policies

Business

Synergx Systems Inc. and Subsidiaries (the "Company") operates in one industry segment: the design, manufacture, distribution, marketing and service of a variety of data communications products and systems with applications in the fire alarm, life safety, transit, security and communications industry. The Company conducts its business principally in the New York Metropolitan area and in Dallas/Ft. Worth, Texas.

Principles of Consolidation

The consolidated financial statements include the accounts of Synergx Systems Inc. and its subsidiaries, all of which are wholly owned. The principal operating subsidiaries are: Casey Systems Inc. ("Casey"), General Sound (Texas) Company ("General Sound"), and Systems Service Technology Corp. ("SST"). In addition the Company has a payroll disbursing subsidiary FT Clearing Inc. and a subsidiary that holds the investment in Secure 724 LP, Comco Technologies Inc. Significant intercompany items and transactions have been eliminated in consolidation.

Revenue Recognition

Product sales include sale of systems, which are similar in nature, that involve fire alarm, life safety and security (CCTV and card access), transit (train station platforms and on board systems) and communication (paging, announcement and audio/visual). Product sales represent sales of product along with the integration of technical services at a fixed price under a contract with an electrical contractor or end user customer (building owner or tenant), or customer agent. Product sales are allocated using a constant gross profit percentage over the entire contract, and are recognized, using the percentage-of-completion method of accounting. The Company utilizes a units-of-work performed method to measure progress towards completion of a contract. The effects of changes in contract terms are reflected in the accounting period in which they become known. Contract terms provide for billing schedules that differ from revenue recognition and give rise to costs and estimated profits in excess billings, and billings in excess of costs and estimated profits. Costs and estimated profits in excess of billing were not material at September 30, 2005 and 2004 and have been included in accounts receivable. There were no billings in excess of costs and estimated profits at

Edgar Filing: SYNERGX SYSTEMS INC - Form ARS

September 30, 2005 and 2004.

Subcontract sales principally represent revenues related to electrical installation of wiring and piping performed by others for the Company when the Company acts as the prime contractor and sells its products along with electrical installation. Subcontract sales are also recognized during the entire project using the percentage-of-completion method of accounting as electrical installation is performed at the job site.

Synergx Systems Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Revenue Recognition (continued)

Service revenue from separate maintenance contracts is recognized on a straight-line basis over the terms of the respective contract, which is generally one year. The unearned service revenue from these contracts is included in current liabilities as deferred revenue. Non-contract service revenue is recognized when services are performed.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Accounts Receivable

Accounts receivable are reported net of an allowance for doubtful accounts. The adequacy of the allowance is determined by management based on a periodic review of the status of the individual accounts receivable.

Inventories

Inventories are priced at the lower of cost (first-in, first-out) or market and consist primarily of raw materials and at September 30, 2005 reflects an inventory allowance of \$370,000.

Property and Equipment

Property and equipment are stated at historical cost. Leases meeting the criteria for capitalization are recorded at the present value of future lease payments.

Depreciation and amortization of machinery and equipment and furniture and fixtures are provided primarily by the straight-line method over their estimated useful lives. The Company depreciates machinery and equipment over periods of 3 to 10 years and amortizes leasehold improvements and assets acquired under capitalized leases utilizing the straight-line method over the life of the lease or the economic useful life, whichever is shorter.

Synergx Systems Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Other Assets

Edgar Filing: SYNERGX SYSTEMS INC - Form ARS

Other assets consist principally of the investment in Secure 724 LP which is comprised of notes receivable of \$163,000 and a 25% ownership in Secure 724 LP of \$432,500, less the 25% equity in the operating losses of Secure 724 LP of \$163,000. (see Note 3 - Investment in Secure 724 LP) Also included in other assets is the excess of cost over the fair value of the assets acquired in the 1990 acquisition of General Sound of approximately \$103,000.

The Company does not amortize goodwill but evaluates whether the carrying value of goodwill has become impaired. This evaluation is performed on annual basis each fiscal year end.

Advertising Costs

Advertising costs are expensed as incurred. Advertising costs for the years ended September 30, 2005 and 2004 amounted to \$35,000 and \$25,000, respectively.

Research and Development Costs

Research and development costs are expensed as incurred. Research and development costs for the years ended September 30, 2005 and 2004 amounted to \$121,000 and \$160,000, respectively.

Income Taxes

The Company accounts for income taxes under Statement of Financial Accounting Standards ("SFAS") No. 109, "Accounting for Income Taxes." Under SFAS No. 109, the asset and liability method is used to determine deferred tax assets and liabilities based on the differences between financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse.

Earnings Per Share

SFAS No. 128 "Earnings Per Share" requires companies to report basic and diluted earnings per share ("EPS") computations. Basic EPS excludes dilution and is based on the weighted-average common shares outstanding and diluted EPS gives effect to potential dilution of securities that could share in the earnings of the Company. Diluted EPS reflects the assumed issuance of shares with respect to the Company's employee stock options, non-employee stock options, and warrants.

Synergx Systems Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Cash Equivalents

The Company considers all investments with original maturities of three months or less when purchased to be cash equivalents.

Concentration of Credit Risk

The Company's operations are located in two large U.S. cities (New York City, New York and Dallas, Texas), each of which is an independent market. The Company grants credit to its customers, principally all of which are general or specialized construction contractors, none of which individually constitutes a significant portion of outstanding receivables. Approximately 88% of such outstanding receivables at September 30, 2005 are due from customers in New York. The Company does not require collateral to support financial instruments subject to credit risk.

At September 30, 2005, the Company had cash of approximately \$265,000, that is

Edgar Filing: SYNERGX SYSTEMS INC - Form ARS

in excess of insured amount limitations.

Stock Options and Similar Equity Instruments

The Company adopted the disclosure requirements of SFAS No. 123, "Accounting for Stock-Based Compensation," for stock options and similar equity instruments (collectively, "Options") issued to employees; however, the Company will continue to apply the intrinsic value based method of accounting for options issued to employees prescribed by Accounting Principles Board ("APB") Opinion 25, "Accounting for Stock Issues to Employees," rather than the fair value based method of accounting prescribed by SFAS No. 123. SFAS No. 123 also applies to transactions in which an entity issues its equity instruments to acquire goods or services from non-employees. Those transactions must be accounted for based on the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more reliably measured.

On December 31, 2002, the Financial Accounting Standards Board issued SFAS No. 148, Accounting for Stock-Based Compensation-Transition and Disclosure. SFAS No. 148 amends SFAS No. 123, to provide an alternative method of transition to SFAS No. 123's fair value method of accounting for stock based employee compensation. SFAS No.148 also amends the disclosure provisions of SFAS No. 123 and APB Opinion 28, "Interim Financial Reporting," to require disclosure in the summary of significant accounting policies of the effects of an entity's accounting policy with respect to stock-based employee compensation on reported net income and earnings per share in annual and interim financial statements. While the statement does not amend SFAS No. 123 to require companies to account for employee stock options using the fair

Synergx Systems Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Stock Options and Similar Equity Instruments (continued)

value method, the disclosure provisions of SFAS No. 123 are applicable to all companies with stock based employee compensation, regardless of whether they account for that compensation using the fair value method of SFAS No. 123, or the intrinsic value method of APB Opinion 25. As required under SFAS No. 148, the following table presents pro forma net income and diluted net earnings per share as if the fair value-based method had been applied to all awards.

	Years Ended September 30,

The Black-Scholes option valuation model was used to estimate the fair value of the options granted during the year ended September 30, 2005. There were no

Edgar Filing: SYNERGX SYSTEMS INC - Form ARS

options granted to employees during the year ended September 30, 2004. The model includes subjective input assumptions that can materially affect the fair value estimates. The model was developed for use in estimating the fair value of traded options that have no vesting restrictions and that are fully transferable. The expected volatility is estimated based on the most recent historical period of time equal to the weighted average life of the options granted. Principal assumptions used in applying the Black-Scholes model along with the results from the model for the year ended September 30, 2005 were as follows:

Assumptions:

Risk-free interest rate	3.58%
Dividend	0
Expected life in years	5 years
Expected volatility	84%

Synergx Systems Inc. and Subsidiaries

Notes to Consolidated Financial Statements

2. Property and Equipment

Property and equipment (including \$3,000 arising from capital leases) are summarized as follows:

	September 30, 2005

Machinery and equipment	\$2,052,000
Furniture and fixtures	176,000
Leasehold improvements	69,000

	2,297,000
Less accumulated depreciation and amortization	1,656,000

	\$ 641,000
	=====

Annual amortization of equipment under capital leases of \$300 is included with depreciation and amortization expense.

Depreciation and amortization expense related to these assets were \$157,000 and \$141,000 for the years ended September 30, 2005 and 2004, respectively.

3. Investment in Secure 724 L.P.

On May 29, 2003, the Company acquired 25% of the equity of Secure 724 LP ("Secure 724 LP"), an Ontario limited partnership. The investment in Secure 724 L.P. for 300,000 shares of Common Stock and warrants to purchase 50,000 shares of Common Stock was valued at \$432,500. This investment is accounted for utilizing the equity method and is included in OTHER ASSETS. The underlying equity of this investment on the date of the transaction was approximately \$73,000; resulting in goodwill of approximately \$359,500; which will not be amortized but will be tested for impairment. For the years ended September 30, 2005 and 2004, an adjustment to the equity investment of \$76,000 and \$52,000, respectively was recorded to reflect the Company's 25% portion of the net loss of Secure 724 LP. The cumulative impact that was recorded for the 25% portion of the net loss from inception amounts to \$163,000.

In connection with the initial capital contribution per the partnership

Edgar Filing: SYNERGX SYSTEMS INC - Form ARS

agreement, the Company advanced \$18,000 (\$25,000CA) to Secure 724 LP in May 2003 and upon reaching milestones advanced \$125,089 (\$175,000CA) in August 2003. Additional advances were made to Secure 724 LP in October 2004 of \$7,969 (\$10,000CA) and in December 2004 of \$12,140 (\$15,000CA). These notes receivable bear interest at a rate of 4% per annum and mature in May 2006, August 2006, and October 2007, respectively.

Synergx Systems Inc. and Subsidiaries

Notes to Consolidated Financial Statements

3. Investment in Secure 724 L.P.(continued)

There can be no assurance that the investment in Secure 724 LP will be profitable.

4. Long-Term Debt

The Company has a \$3 million revolving credit facility with Hudson United Bank (the "Credit Facility"). The Credit Facility has an annual interest rate of prime plus 1/4% on outstanding balances (6.75% at September 30, 2005) and expires in June 2007. The Credit Facility is secured by all assets of the Company and all of its operating subsidiaries. Advances under this Credit Facility are measured against a borrowing base calculated on eligible accounts receivable and inventories.

At September 30, 2005, the full amount of the Credit Facility was available under the borrowing base calculation and \$1,449,000 was outstanding under this facility.

The Credit Facility includes certain restrictive covenants, which among other things, impose limitations on declaring or paying dividends, acquisitions, and capital expenditures. The Company is also required to maintain certain financial ratios and tangible net worth covenants. At September 30, 2005 the Company was not in default with any of its financial covenants.

Annual maturities of Notes Payable to Bank and Notes and Capital Leases Payable are as follows:

	Note Payable Bank	Other Notes and Capital Leases Payable	Total
2006		\$32,000	\$ 32,000
2007	\$1,449,000	6,000	1,455,000
Total	\$1,449,000	\$38,000	\$1,487,000

Synergx Systems Inc. and Subsidiaries

Notes to Consolidated Financial Statements

5. Lease Commitments

The Company leases certain office and warehouse space under non cancelable operating leases expiring at various times through 2010. In February 2000, the Company signed a lease for office, manufacturing and warehouse space in Syosset, New York. An additional 700 square feet of space was added to the lease in August 2004. The rental schedule provides for monthly rent of \$16,000 during

Edgar Filing: SYNERGX SYSTEMS INC - Form ARS

2005 with 3.3% yearly increases through the expiration of the lease in June 2007.

The Company has a non-cancelable lease for its service center in New York City that became effective August 2002 and runs through December 31, 2009. The lease is for office and warehouse space and provides for yearly rental of \$84,000 during the first year plus expenses with yearly escalation of 2% each year thereafter.

The Company leases an office and warehouse facility under a non-cancelable operating lease in Richardson, Texas, a suburb of Dallas, pursuant to a lease that was extended in August 2002 to expire on June 30, 2010 providing for annual rent on a net basis of \$50,000 escalating annually to \$64,000 in the final year of the lease.

The following is a schedule of future minimum payments, by year and in the aggregate, under operating leases with initial or remaining terms of one year or more at September 30, 2005:

	Total Operating Leases
2006	\$352,000
2007	307,000
2008	155,000
2009	159,000
2010	73,000

Total minimum lease payments	\$1,046,000
	=====

Rental expense amounted to \$361,000 and \$346,000, for 2005 and 2004, respectively.

6. Significant Customers and Suppliers

During fiscal 2005 and 2004, no customer accounted for more than 10% of sales. One supplier accounted for 10% and 9% of the Company's cost of sales during fiscal 2005 and 2004, respectively.

Synergx Systems Inc. and Subsidiaries

Notes to Consolidated Financial Statements

7. Income Taxes

During the years ended September 30, 2005 and 2004, the Company recorded a tax provision of \$110,000 and \$308,000, respectively. A reconciliation of such provision with the amounts computed by applying the statutory federal income tax rate is as follows:

	Year Ended September 30, 2005	2004
	-----	-----
Statutory federal income tax rate	34%	34%
Computed expected tax from income	\$82,000	\$247,000
Increase in taxes resulting from:		
State and local income taxes, net of Federal tax benefit	25,000	51,000

9. Employee Stock Options and Warrants

In March 2004, the Company and its stockholders adopted a nonqualified stock option plan ("2004 Plan"), which will expire March 10, 2009, except as to options outstanding under a prior 1997 Plan. Under the 2004 Plan, the Board of Directors may grant options to eligible employees at exercise prices not less than 100% of the fair market value of the common shares at the time the options are granted. The number of shares of Common Stock that may be issued shall not exceed an aggregate of up to 10% of the Company's issued and outstanding shares from time to time. Options vest at a rate of 20% per year commencing one year after date of grant. Issuances under the 2004 Plan are to be reduced by options outstanding under the prior 1997 nonqualified stock option plan.

10. Contingencies

In the normal course of its operations, the Company has been, or from time to time may be, named in legal actions seeking monetary damages. Management does not expect, based upon consultation with legal counsel, that any item exists that will have a significant impact on the Company's business or financial condition.

11. Other

Approximately 32% of the Company's employees are covered by collective bargaining agreements. On July 10, 2005, the union representing hourly employees and the Company ratified a Collective Bargaining Agreement expiring March 9, 2009, providing for an increase in salaries and benefits averaging approximately 4% per year over the life of the contract.

Effective January 1, 1996, the Board of Directors instituted a 401K plan for nonunion employees. The plan includes a profit sharing provision at the discretion of the Board of Directors. In September 2005 and 2004, a profit sharing contribution of \$41,000 and \$43,000, respectively, was authorized and charged to expense.

12. Fair Value of Financial Instruments

SFAS No. 107, "Disclosures about Fair Values of Financial Instruments," requires disclosing fair value to the extent practicable for financial instruments which are recognized or unrecognized in the balance sheet. The fair value of the

Edgar Filing: SYNERGX SYSTEMS INC - Form ARS

financial instruments disclosed herein is not necessarily representative of the amount that could be realized or settled, nor does the fair value amount consider the tax consequences of realization or settlement.

The carrying amount of cash and cash equivalents, trade receivables and payables, and short-term debt, approximates fair value because of the near term maturities of such obligations. The fair value of long-term debt was determined based on current rates at which the Company could borrow funds with similar remaining maturities, which amount approximates its carrying value.

13 New Accounting Pronouncement

In December 2004, the Financial Accounting Standards Board issued SFAS No. 123 (revised 2004), "Shared-Based Payment," which addresses the accounting for share-based payment transactions in which an enterprise receives employee services in exchange for (a) equity instruments of the enterprise or (b) liabilities that are based on the fair value of the enterprise's equity instruments or that may be settled by the issuance of such equity instruments. SFAS No. 123 (revised 2004) requires an entity to recognize the grant-date fair-value of stock options and other equity-based compensation issued to employees in the income statement. SFAS No. 123 (revised 2004) generally requires that an entity account for such transactions using the fair-value-based method, and eliminates the intrinsic value method of accounting in APB 25, which was permitted under SFAS No. 123, as originally issued. The revised statement also requires entities to disclose information about the nature of the share-based payment transactions and the effects of those transactions on the financial statements. SFAS No. 123 (revised 2004) is effective for small business issuers for the first annual reporting period that begins after December 15, 2005. The Company is currently evaluating the impact that this statement will have on its financial condition, results of operations and cash flows.
