PRESS RELEASE

TELECOM ITALIA: REAFFIRMING OUR ACTIONS WERE CORRECT, WE WILL APPEAL TO THE COUNCIL OF STATE

We cannot agree with the decision of the Lazio Regional Administrative Court (TAR)

INTERNAL COMMITTEES APPOINTED

Rome, 8 May 2014

Telecom Italia acknowledges the rejection by the Lazio Regional Administrative Court of its appeal to cancel the ruling with which the Autorità Garante per la Concorrenza e il Mercato (Italian Competition and Market Authority) in May 2013 imposed a monetary sanction for more than 103 million euros for alleged abuses of dominant position in the access service market and intends to reaffirm that its behavior was correct with regards to equality of access to the network for alternative Operators.

The Open Access model continues to be considered a best practice at European level with regards to equality of access, whose validity has been recognised both by the European Union and by the BEREC (the European body which supervises the regulatory framework).

Telecom Italia does not agree with the decision of the Lazio Regional Administrative Court, and believes that the administrative judge of first instance did not adequately consider the numerous and detailed reasons presented in the Company's appeal.

Telecom Italia intends, therefore, to continue its action to obtain recognition of the absolute legality of its conduct towards its competitors, and will shortly appeal to the Council of State against the TAR's decision.

Cautionary Statement for Purposes of the "Safe Harbor" Provisions of the United States Private Securities Litigation Reform Act of 1995.

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements. The Group's interim report as of and for the twelve months ended December 31, 2013 included in this Form 6-K contains certain forward-looking statements. Forward-looking statements are statements that are not historical facts and can be identified by the use of forward-looking terminology such as "believes," "may," "is expected to," "will," "will continue," "should," "seeks" or "anticipates" or similar expressions or the negative thereof or other comparable terminology, or by the forward- looking nature of discussions of strategy, plans or intentions.

Actual results may differ materially from those projected or implied in the forward-looking statements. Such forward-looking information is based on certain key assumptions which we believe to be reasonable but forward-looking information by its nature involves risks and uncertainties, which are outside our control, that could significantly affect expected results.

The following important factors could cause our actual results to differ materially from those projected or implied in any forward-looking statements:

1. our ability to successfully implement our strategy over the 2014-2016 period;
2. our ability to successfully achieve our debt reduction and other targets;
3. the increasing competition from global and local OTT (Over The Top) players (operators offering contents and services on the internet without owning its own proprietary telecommunications network infrastructure);
4. the continuing impact of increased competition in our markets, including competition from established domestic competitors and global and regional alliances formed by other telecommunications operators in our core Italian domestic fixed-line and wireless markets and our other principal markets;
5. the continuing effects of the global economic crisis in the principal markets in which we operate, including, in particular, our core Italian market;
6. our ability to introduce new services to stimulate increased usage of our fixed and wireless networks to offset declines in the traditional voice business mainly due to the continuing impact of regulatory required price reductions, market share loss and pricing pressures generally;
7. our ability to successfully implement our internet and broadband strategy;
8. the impact of regulatory decisions and changes in the regulatory environment in Italy and other countries in which we operate, including recent changes to allowable charges for data and voice roaming;
9. the impact of economic development generally on our international business and on our foreign investments and capital expenditures;
10. as our services are technology-intensive, our ability to develop new technologies in order to avoid our services becoming non-competitive;
11. the impact of political developments in Italy and other countries in which we operate;
12. the impact of fluctuations in currency exchange and interest rates;
13. our ability to build up our business in adjacent markets and in international markets (particularly in Brazil and Argentina), due to our specialist and technical resources;
14. our ability to achieve the expected return on the investments and capital expenditures we have made and continue to make (such as those in Brazil and Argentina);
15. the amount and timing of any future impairment charges for our authorizations, goodwill or other assets; and
16. the outcome of litigation, disputes and investigations in which we are involved or may become involved.

Edgar Filing: TELECOM ITALIA S P A - Form 6-K

The foregoing factors should not be construed as exhaustive. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof. We undertake no obligation to release publicly the result of any revisions to these forward-looking statements which may be made to reflect events or circumstances after the date hereof, including, without limitation, changes in our business or acquisition strategy or planned capital expenditures, or to reflect the occurrence of unanticipated events.
