i-TRACK, INC.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2002
(Unaudited)

NOTE 1: BASIS OF PRESENTATION

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles ("GAAP") for interim financial information and Item 310(b) of Regulation S-B. They do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included. The results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year. For further information refer to the audited financial statements of the Company as of December 31, 2001, including notes thereto, included in the Company's Annual Report on Form 10-KSB.

NOTE 2: EARNINGS PER SHARE

The Company calculates net income (loss) per share as required by SFAS No. 128, "Earnings per Share." Basic earnings (loss) per share is calculated by dividing net income (loss) by the weighted average number of common shares outstanding for the period. Diluted earnings (loss) per share is calculated by dividing net income (loss) by the weighted average number of common shares and dilutive common stock equivalents outstanding. During the periods presented, common stock equivalents were not considered, as their effect would be anti-dilutive.

NOTE 3: ALLOWANCE FOR DOUBTFUL ACCOUNTS

The allowance for doubtful accounts was set by management to \$35,000 to provide for uncollectable accounts receivable and notes receivable at September 30, 2002.

NOTE 4: GOING CONCERN

The Company has been a development stage company since its inception on March 8, 1999. The Company is dependent upon AVL Information Systems, Ltd. and its subsidiary to provide all of its products sold and to supply management services. Because of the uncertainty of AVL Information Systems, Ltd. to continue as a going concern to supply these products and services and to generate sufficient cash flow to repay the \$1,283,977 notes receivable, there is substantial doubt about the Company's ability to continue as a going concern. Management is investigating the acquisition of the U.S. subsidiary, AVL Information Systems, Inc. from AVL Information Systems, Ltd.

The accompanying financial statements do not include an adjustment that might

Edgar Filing: I TRACK INC - Form 10QSB

result from the outcome of this uncertainty.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Unless the context otherwise requires, the terms "we", "our" and "us" refers to i-Track, Inc.

Edgar Filing: I TRACK INC - Form 10QSB

CAUTION

Certain statements in this Quarterly Report on Form 10-QSB, our audited financial statements for the fiscal year ended December 31, 2001 as filed in our annual report on Form 10-KSB, as well as statements made by us in periodic press releases, oral statements made by our officials to analysts and shareholders in the course of presentations about ourselves, constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results, performance or achievements of us to be materially different from any future results, performance or achievements expressed or implied by the forward looking statements. Such factors include, among other things, (1) general economic and business conditions; (2) interest rate changes; (3) the relative stability of the debt and equity markets; (4) competition; (5) the availability and cost of our products; (6) demographic changes; (7) government regulations particularly those related to automatic vehicle location industry; (8) required accounting changes; (9) equipment failures, power outages, or other events that may interrupt Internet communications; (10) disputes or claims regarding our proprietary rights to our software and intellectual property; and (11) other factors over which we have little or no control.

OVERVIEW

We were incorporated in the state of Nevada on March 8, 1999 by AVL Information Systems Ltd. and its principal officer and directors. AVL Information Systems Ltd. is a Canadian public company that owns and licenses certain technology and automatic vehicle location systems. Effective September 30, 2001, we entered into an exclusive worldwide distribution agreement with AVL Information Systems Ltd. Under the agreement, we are licensed to market and distribute all of the products manufactured by AVL Information Systems Ltd.

We are in the development stage and have generated minimal revenues. We have a deficit accumulated during the development stage of \$45,625 as of September 30, 2002. We have suffered losses from operations and require additional financing. Moreover, we are dependent upon AVL Information Systems Ltd. and its subsidiary to provide all of our products and management services. Because of the uncertainty of AVL Information Systems Ltd. to continue as a going concern to supply these products and services, and to generate sufficient cash flow to repay the \$1,283,977 of notes receivable, there is substantial doubt about our ability to continue as a going concern. While we are investigating the acquisition of the U.S. subsidiary of AVL Information Systems in partial satisfaction of the debt, we cannot assure you that this acquisition will occur or that it will eliminate this doubt about our ability to continue.

RESULTS FROM OPERATIONS

We generated our first revenues during the last quarter of fiscal 2001. For the three and nine months ended September 30, 2002, we generated revenues of \$86,438 and \$301,750, respectively. Cost of goods sold, as a percentage of revenues, was 80.2% and 83.1% for these periods, respectively. General and administrative expenses increased from \$5,748 during the first nine months of 2001 to \$67,744 in 2002, an increase of 1079%. In addition, we incurred management fees of \$22,500 in 2002 that were not incurred in 2001. As a result, we incurred an operating loss of \$39,129 for the nine months ended September 30, 2002, as

Edgar Filing: I TRACK INC - Form 10QSB

compared to \$5,748 for the nine months ended September 30, 2001. The operating loss for the three months ended September 30, 2002 was \$2,563, as compared to \$1,624 for the three months ended September 30, 2001.

However, due to interest income of \$9,630 and \$44,871 for the three and nine months ended September 30, 2002, on the notes receivable from related parties, we recognized net income for the three and nine month periods of \$7,067 and \$5,742, respectively.

LIQUIDITY AND FINANCIAL CONDITION

For the nine months ended September 30, 2002, the statement of cash flows reflects net cash used in operating activities of \$19,997, and net cash provided by financing activities of \$18,598. For the nine months ended September 30, 2001, operating activities used cash of \$4,706 and financing activities, primarily the sale of stock described below, provided cash of \$30,279.

On November 6, 2000, we filed a registration statement on Form SB-1 with the SEC (file number 333-49388) for the offer and sale of 2,500,000 units, at a price \$0.10 per unit, with each unit consisting of one share of common stock and one warrant to purchase one share of common stock. Our registration statement was declared effective on April 10, 2001. We completed the offering on April 30, 2001, selling 2,500,000 Units for gross proceeds in the amount of \$250,000. The total amount of offering expenses was \$28,005, with net proceeds of \$221,995.

In August and September, 2001, we advanced a total of \$209,000 to our affiliate, AVL Information Systems Ltd., toward the purchase of 600 Chaperone tracking units and marketing materials. This advance depleted most of our cash, leaving \$30,052 at September 30, 2001.

In October 2001, warrants for the purchase of 2,146,900 shares of our common stock were exercised for \$1,073,450. These funds have also been advanced to AVL Information Systems Ltd. toward the purchase of tracking units. An additional 346,900 warrants were exercised in November 2001.

At September 30, 2002, we had cash of \$1,273 and working capital of \$39,193. This compares to cash of \$2,672, and working capital of \$31,446 at December 31, 2001. However, \$59,286 of our current assets at September 30, 2002 was accrued interest receivable from related parties. As described in Note 4 of the Notes to Financial Statements, \$1,283,977 is owed by AVL Information Systems Ltd. and its subsidiary. Each of these entities received a going concern opinion on the audit of its financial statements.

10

We loaned funds to AVL Information Systems and its subsidiary to enable those entities to get the Chaperone units to market more quickly. Through December 31, 2001, we had orders for approximately 5,000 units of the Chaperone unit. We have had to work closely with the original orders since the market has slowed and delivery has not been requested for all of the units manufactured as of now. While we had revenues of \$301,750 for the nine months ended September 30, 2002, sales at this level are not sufficient to cover our operating expenses or to engage in the type of marketing campaign that we need to pursue. We are not expecting significant repayment from AVL during the current fiscal year. Accordingly, we will have to pursue funding from external sources through a line of credit arrangement and/or the sale of debt and/or equity securities. We cannot assure you that we will be successful in these pursuits.

Edgar Filing: I TRACK INC - Form 10QSB

PLAN OF OPERATION

At this time, we intend to establish relationships with a number of other companies to accelerate the implementation of the distribution agreement and the sale of the Spryte and Chaperone Systems(TM). We believe that our status as a U.S. publicly traded company will assist us in establishing strategic alliances because of our perceived level of credibility and access to capital in the U.S. markets. We intend to establish relationships with existing companies engaged in the automatic vehicle location industry, wireless carriers, manufacturers, distributors, and Internet companies. We intend to create relationships and to retain consultants and contractors with established connections in the telecommunication and application service provider industries. We foresee that the compensation would be commission based. Depending upon the market acceptance of the Spryte and Chaperone Systems(TM), we may hire employees in the foreseeable future.

We believe that establishing a network of alliances, while not a small task, can be accomplished in a shorter period of time and at less cost than building a comparable direct sales infrastructure. It is our priority to establish a channel partner network in the U.S. and Canada, and recruit international channel partners as opportunities present themselves.

We expect to generate revenues by selling the Spryte and Chaperone Systems(TM) at cost plus margin. We believe the amount of margin will vary depending on the time, expense, and size of sale.

We do not expect to purchase any significant equipment during the next twelve months, nor do we expect to hire a significant number of employees during that time period.

ITEM 3. CONTROLS AND PROCEDURES

We have recently evaluated our internal controls. As of November 13, 2002, there were no significant corrective actions taken by us or other changes made to these internal controls. Our management does not believe there were changes in other factors that could significantly affect these controls subsequent to the date of the evaluation.

CERTIFICATION

I, Peter Fisher, certify that:

1. I have reviewed this quarterly report on Form 10-QSB of i-Track, Inc.;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;

Edgar Filing: I TRACK INC - Form 10QSB

3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and have:
 - a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and
 - c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and
6. The registrant's other certifying officers and I have indicated in this quarterly report whether there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
